GOING UP—

from Coast to Coast!

A New Billboard in Wurlitzer's National Consumer Advertising Campaign

➔ Wurlitzer's billboard program has scored a smash hit! From coast to coast, Wurlitzer Factory-Approved Music Merchants and Wurlitzer location owners could count its pulling power in the cash box of every Wurlitzer. Now a new Wurlitzer billboard is going up nationwide. Coupled with a continuous series of colorful ads in America's leading magazines, this timely billposter with strong seasonal appeal will move more millions of Americans to look for Wurlitzer's *Sign of the Musical Note* wherever they go, at home or on vacation. Everywhere Wurlitzer Music Merchants and location owners praise this promotional program as everybody everywhere recognizes Wurlitzer Music as *America's Favorite Nickel's Worth of Fun*. The Rudolph Wurlitzer* Company, North Tonawanda, N. Y.

Music

"Music is a rhythmic arrangement of pleasing sounds. A.M.I. pick-up, amplifier, speaker and acoustical system are engineered for the sole purpose of making every recording startlingly

lifelike, brilliantly musical. Our Model A phonograph sells music by delivering music." *DeWitt (Doc) Eaton*, Vice-President and General Sales Manager, **A.M.I. Incorporated.**

The Price Problem

By Bill Gersh

"COINTOONS"

One of the problems vexing the operators thruout the nation are the prices for the post-war equipment. In almost every case, when ops gather 'round, this subject is brought to the fore.

Yet, these very same operators are paying more for their food, clothing, rent and various other daily necessities and don't seem to pay too much attention to the differential between the pre-war and post-war prices of these commodities.

Will lowered prices mean more sales?

That is now a question which occupies the minds of a great many in the trade. The first answer, without too much thinking, seems to be, "yes".

But, after some thought is given to the subject and questions are asked—it also seems that a large number of operators are happy that prices are high. They claim, "Only high prices will keep away cheap competition like we had to endure before the war."

One noted operator explains, "When machines were cheap and easy to buy—we were forced to endure competition that almost knocked us out of business. Every day in the week we were being phoned by one location after another asking why we charged so much commission when some guy was just in there willing to give them the same machine and increase their share of the percentage? This was only possible because every Tom, Dick and Harry could get into the business with a few hundred bucks and call himself an operator."

It is well known in the trade that the average location owner doesn't think too hard about what "service" means. All he recalls, when the time comes, is that someone comes into his place every week (or maybe twice a week) and puts new records in the machine or does this or that or shines it up, etc., etc.

He seems to forget all about the fact that this sort of service costs money. That his operator works without his thanks. Just keeps on giving him the lion's share of the profits week in and week out—and does all the work to help make those profits bigger and better for him.

The trouble with the average operator is that he doesn't "sell" the location owner on what he is doing to earn him profits. He doesn't "merchandise his business". He goes on his way and prays that the location will remain his long enough to get him "out of the red," if he has just placed a new machine, or "long enough to at least see a few bucks from the spot".

Until that time, tho, it may be to the best advantage of the operators that prices are where they are. They are being protected while production is low. They are now being given the opportunity to buy whatever machines they need to fill all the open locations in their territories so that they will be fully prepared for the day when new machine production really gets under way.

Price re-adjustment will come of itself when production at last equals demand.

BUSINESS

IS BETTER

First Edition, 1912. This is the first edition of the book, published in 1912. It is a classic work on business management, and is highly regarded by business leaders and scholars alike.

Second Edition, 1925. This edition was published in 1925, and it includes several new chapters and updates to the existing ones. It is a revised and expanded version of the first edition.

Third Edition, 1935. This edition was published in 1935, and it is the most recent edition of the book. It includes all the updates and changes from the previous editions, and it is the most comprehensive and up-to-date version of the book.

Fourth Edition, 1945. This edition was published in 1945, and it is the most recent edition of the book. It includes all the updates and changes from the previous editions, and it is the most comprehensive and up-to-date version of the book.

Now available in paperback. This edition is available in paperback format, making it more accessible and affordable for a wider range of readers. It is a classic work on business management, and is highly regarded by business leaders and scholars alike.

LOOK TO NEW SALES ERA TO START AFTER LABOR DAY

**Believe this Will Point Way to
New Methods for the Industry.
Expect Biggest Buying Season.**

NEW YORK—The general consensus is to the effect that the greatest sales for this industry, provided all other surrounding factors equalize themselves, will start right after Labor Day.

The reason for this statement, certain coinleaders explain, is the general belief that production should get going on a large scale right after the Labor Day holiday. This is not only their opinion, they state, but the opinion of the nation's largest manufacturers and economists who have studied and closely watched the resultant effect the major strikes had on manufacturing.

Whatever new machines, jobbers and distributors report, that were delivered to them, during these past Summer months, were immediately sold. And, they also say, they will continue to sell all new equipment as it is delivered to them.

There was a slump experienced in the sale of used machines, these men state, but even this is expected to pick up rapidly as the trade seeks to cover all the open locations.

The slump was occasioned by surrounding factors and not by the mem-

bers of this industry. With beer and liquor short in many territories, coinmen's collections were down and they hesitated to purchase equipment until they once again saw an upsurge in their businesses.

But, even with the slump in effect, they did not hesitate to buy new machines and especially those machines which proved profitable to them, regardless of price.

In short, then, opinions are all to the same line — that coinmen will start buying in large quantity (new as well as used machines) as the Fall and Winter seasons get under way and will be prepared to greet the opening of the first coin machine convention since before the war with complete control of a majority of locations in their territories.

Another factor which will make for increased buying, one noted coin machine leader says, is that many operators throughout the nation have arranged to better their commission basis and are now in position to use whatever equipment they can get and profit from this use.

This, regardless of all other factors,

is of greatest importance to the operator for, whether he buys new or used machines, he must be sure that his commission set-up is such that he will profit from the placement of these products.

Again, the old story of resort and summer spots also enters into the picture. Many ops claim that they did not pay too much attention to buying merchandise during the summer season for they were engaged with resort locations.

In such locations, they explain, they are able to use whatever equipment they had on hand. But, as they return to their city spots this fall season, they will need the best equipment they can obtain to assure them of continuous play—which they must have to profit from the machines they are now purchasing.

It shall be interesting to all the trade to note the business upswing "after Labor Day". This will once again prove to the majority of coinmen that the industry is anxious to get on ahead with the growth and development which it knows is in store for it.

LOOK TO NEW SALES ERA TO START AFTER LABOR DAY

Believe this Will Point Way to New Methods for the Industry. Expect Biggest Buying Season.

The industry is expected to start a new era of sales after Labor Day, with the expectation of the biggest buying season yet. This is based on the belief that new methods will be adopted, pointing the way to a more successful future. The industry is expected to start a new era of sales after Labor Day, with the expectation of the biggest buying season yet. IS THIS A "NICKEL BUSINESS"?

Tear Out and Mail Today — Give Us YOUR Opinion!

NEW YORK—The belief expressed by many coinmen thruout the nation, since the fact became apparent that a better commission basis must be arranged for that, "10c play is the answer," has stirred a great deal of arguments—pro and con.

The idea that the coin machine business is a "nickel business" has been brought to the fore time and time again in such arguments by many coinmen. Others completely disagree. What is your opinion?

Remember—once upon a time beer was only 5c a glass—today it's 10c. Once a shoe shine was never more than a nickel—today it's 10c and 15c in many places.

Once pin games were only produced with 1c chutes — today no one would dream of running a pin game on less than 5c—and many believe that the number of balls should be cut down so that a complete game will actually cost 10c.

The first consoles that were presented were 5c. The same for slots. Today they are in combinations (consoles) at 5c, 10c and 25c—and reports have it that there will also be 50c chutes on consoles. Slots come in complete sets of 5c, 10c, 25c, 50c and \$1 play.

Once upon a time street car fares were only 5c—today they are 7c, 8c and 10c, depending on the locality. Even the New York Subway, which is a traditional 5c ride, is now asking that this be changed to 10c.

Candy bars of all types were 5c, today the public pays 7c, 8c and more. Ice Cream cones were always a nickel—they're higher today.

Is this, the coin machine industry, a "nickel business"?

WHAT

COMMISSION

BASES?

1. The Commission is established under the provisions of the Act of 1934, which provides that the Commission shall be composed of five members, one of whom shall be the Chairman, and shall be appointed by the President, by and with the advice and consent of the Senate, for a term of five years, and may be reappointed for a second term.

2. The Commission shall have the honor and respect of the Government, and shall be authorized to employ such personnel as may be necessary for the efficient conduct of its business, and to fix the compensation of such personnel, not exceeding the compensation payable to the highest grade of civil servant in the same grade, and to fix the compensation of its members, not exceeding the compensation payable to the highest grade of civil servant in the same grade.

3. The Commission shall have the right to subpoena witnesses and to require the production of books, papers, and documents, and to administer oaths, and to hold public hearings, and to receive evidence, and to make such investigations as may be necessary for the efficient conduct of its business, and to report to the President, by and with the advice and consent of the Senate, the results of its investigations, and to make such recommendations as it may deem proper.

4. The Commission shall have the right to receive from the Secretary of the Treasury, and to use for the purposes of its business, such information, reports, and documents, as may be available to the Secretary of the Treasury, and to receive from the Secretary of the Treasury, and to use for the purposes of its business, such information, reports, and documents, as may be available to the Secretary of the Treasury.

5. The Commission shall have the right to receive from the Secretary of the Treasury, and to use for the purposes of its business, such information, reports, and documents, as may be available to the Secretary of the Treasury, and to receive from the Secretary of the Treasury, and to use for the purposes of its business, such information, reports, and documents, as may be available to the Secretary of the Treasury.

HAS THE PUBLIC LOST THE THRILL OF PINBALL PLAY?

**Has Intricate and Tricky Scoring Driven Away
the "Every-Day-Just-For-Fun" Type of Players?
Should the Simple, "Easy-to-Play" Type
of Games be Revived?**

CHICAGO—Away back in the days of the simple, easy-to-play and just as easy-to-understand pin games, cartoonists would, every so often, pop into print with a drawing of a housewife whose arms were loaded with bags and bundles from her shopping expedition—playing a bagatelle game.

But, from then on—the manufacturers began to vie with each other as to which one could make the game more colorful, more intricate, more electrical and more non-understandable because of a system of multi-scoring which, tho it completes, adds and tabulates the amounts in scores, re-plays, etc., is still beyond the ken of the average man.

Pinball was once called "a relaxation." In fact, many doctors believe it to be one of the finest cures for mental therapy cases.

The modern pinball is anything but relaxation. Today, it's a systematic method of scoring for winners. The average game has from three to four and more different methods for obtaining winners. No longer does the housewife amble up to the machine in a grocery store, while waiting for the clerk, and just pull the plunger to see what happens, after she inserts her coin, and then have someone in the place gleefully inform her, even tho she, herself, didn't realize it, that she had "hit a winner".

What's happened to pinball? Has it become too intricate for the average man? Has it passed beyond the stage of a "game of relaxation" and become a game for "scoring"? Has it passed out of the "fun" class?

One noted manufacturer who has a great many pin game hits to his credit—told *The Cash Box* that he believed the industry would be better off if it would return to the old fashioned, simple type, easy-to-understand, easy-to-play pin games. Games like the "Whiffle", "Ballyhoo", "Five Star Final", "Contact", "Bumper", etc.

It is his claim that not only did the operators earn more, even tho it took the players an extra minute or so to add their scores, but more players played the games. In fact, he claims, they stuck to the machines longer—individually and collectively.

Of course, the entire trade knows that today there are what can be called, "pinball fanatics". Games can't be made too intricate for these people. But, are they the majority or the minority? Will building more and more intricate machines, just for the benefit of these pinball fanatics, earn the operators more money?

This manufacturer does not believe that by speeding up the action of pinball—to 3 balls for 5c (actually 5 balls for 10c) that this will mean any great increase in profits to the

operator. He claims that, after long experience, he has found there are just so many pin game playing hours and that the answer is—in making the players stick to the games—not leave them idle for as many hours as they now do.

Then—that being the case—is the operator better off if the manufacturers return to more simple pinballs? Will this once again revive interest of every type of player — not just the skillful plunger wielder? Will it mean lower prices for machines and more play action at the same time?

This manufacturer believes that it will. He also believes that the trade will more greatly benefit by a return to the "fun" type of pin game that anyone can play—than continuing on ahead with intricate, multi-scoring machines which have become anything but relaxation for the player—for they force him to study and to think before each shot—instead of just pulling the plunger and having a lot of fun so doing.

In short, the player is now actually operating an intricate and delicate mechanism, instead of enjoying himself immensely and completely relaxing at the play of a game which started out, and was at one time, advertised to the public with this slogan: "Relax—Play Pinball."

What do you think? Should we go back to "Bagatelle?"

HAS THE PUBLIC LOST THE THRILL OF PIVOT PLAYS?

Has intricate and tricky scoring driven away the "Every-Day-Just-for-Fun" type of play?
Should the simple "Easy-to-Play" type
of games be favored?

[The remainder of the page contains extremely faint, illegible text, likely representing the main body of an article or a list of points.]

RECORD REVIEWS

By *Ralph Emmett*
OF
"THE CASH BOX"

"Cool Water"
**"Have I Told You Lately
That I Love You"**
**Foy Willing & Riders
of the Purple Sage
(Majestic 6000)**

● For a pair of really sock tunes directed especially for the western music fans, we recommend this platter. "Cool Water" and "Have I Told You Lately That I Love You" are done by Foy Willing and his Riders of the Purple Sage, and they do them well. "Cool," a ballad straight from the saddle with just enough romantic interest to make it interesting, is capably interpreted via Foy's smooth chirping and the choral assist he gets from the Riders. "Have I Told You Lately," more heavily on the romance side, draws lots of attention because the tempo, the lyrics, the music and interpretation make it something "different" as a Westerner. If you have the locations, snatch a batch of these platters.

"Pitch A Boogie Woogie"
**Tab Smith and Orchestra
(Hub 3026)**

● For something that'll make your "race" locations jump, we refer your attention to this platter, "Pitch A Boogie Woogie," as done by Tab Smith's crew with Gloria Robinson handling the vocal. It's a hot platter that's served up solid by the small ork; and they're solid. The lyrics, it might be added, would never be permitted on the air: (Jack and Jill went up the hill, and Jill came down with a \$20 bill); but they'll draw trade if placed right. The platter is done in two parts, with our choice on the second side. But make no mistake, this platter is more than a novelty; the quality of Gloria's singing and the quality of musicianship exhibited by the crew are worthy of one's listening. Give it one.

"I Get The Blues When It Rains"
"Smart Little Fool"
**Jerry Sellers
(Sonora 3019)**

● For something good and something blue in a melody, "I Get The Blues When It Rains" rings the bell. But as it's interpreted here, something lacks. We believe it to be Jerry Sellers, but it may be somebody or something else. His interpretation is heavily dramatic, but he still has some lessons to learn in delivery and in enunciation. It tells in the disk. Not much better is the orchestral assistance provided by a crew under the direction of David Rhodes. They lack togetherness. On the backing, the song is "Smart Little Fool," and we've heard lots better. It's too slow to draw the customers to action, and all the faults noted in the first side appear in this one. The music op can take it from there.

DISK O' THE WEEK

"It's A Lie, It's A Lie, It's A Lie"
"Among My Souvenirs"
**Hal McIntyre and Orchestra
(Cosmo)**

HAL MCINTYRE

● The top jump novelty for the week, and at the same time, the top platter of all, is this latest release by the Hal McIntyre orchestra, "It's A Lie, It's A Lie, It's A Lie." Well known is the fact that the McIntyre crew really know how to give in jump tempo, and with this melody they hit a new high. Vocally, the tune is interpreted by Nancy Reed and Frankie Lester, with the entire crew joining in to give the lyrics a solid punch. You won't go wrong with it. On the flip, Hal offers "Among My Souvenirs," a standard with a new interpretation, and the result is a truly top romantic ballad that should see lots of action on its own. Hal takes a solo ride on his sax and he sends. The lyrics, beautifully handled by Frankie Lester, will draw listening attention. The arrangement served up by the lads with the music making tools is in a superior class, and the whole thing winds up with nickel grabbing effect. Grab a listening to the platter, and find out all the above for yourself.

"Walking Blues"
"Rich Man's Blues"
**Dinah Washington with
Lucky Thompson and His All Stars
(Apollo 374)**

● Here's a pair of sides cut from the familiar pattern of Dinah Washington's well known blues style. With the appeal of the platter limited by experience to the "race" locations and spots where her style has a definite demand. On "Walking Blues" and "Rich Man's Blues" she's definitely at her usual peak, and on both sides the assistance Dinah's vocal efforts get from Lucky Thompson's All Stars cannot be discounted. They really dig the track on which Dinah rides. If their previous platters have excited interest among your locations so will this one. Act accordingly.

"For Boobs Only"
"Don't Blame Me"
**Mixed Orchestra
(Mel-O-Disc 113)**

● "For Boobs Only" is a little strong as a title, because the customers who like their music interspersed with heavy sax work will probably like it. The platter is completely instrumental on both sides, with "Boobs" in a stepped up tempo, while "Don't Blame Me" is done up strictly in a slow blue mood. The best that can be said for the whole offering is that Joe Thomas plays a good saxophone and the other members of the combo do right with their music tools. The disk is only for locations seeking "race" music for listening.

"A Little Kiss Each Morning"
"On The Boardwalk"
**The Starlighters
(Mercury 3023)**

● For a good side right for listening or dancing, "A Little Kiss Each Morning" merits recommendation. It's a good romantic ballad, well done thru the vocal efforts of The Starlighters, assisted by Earl Hagen's ork. forthcoming film "Three Little Girls In Blue." It's a sound novelty, and appears to have possibilities if given the right push.

"Don't Blame Me"
"Okay For Baby"
**Jack McVea and His All Stars
(Apollo 761)**

● Whenever Jack McVea's name appears on a label it's a sound bet that something good is in the offing. That's the case with "Don't Blame Me," a soft, subdued number without being fluffy. It's done in drag tempo and has a steady rhythm background to provide the steady beat for the frequent solo flings by Jack McVea on his tenor sax and Bob Mosley on the ivories. It's tops for listening or dancing. Flipped, McVea and the boys offer "Okay For Baby," in stepped up pace and with more good solo work. A dependable disk to push up profits in "race" locations.

"Should I Tell You I Love You"
"I'd Be Lost Without You"
**Hal McIntyre Orchestra
(Cosmo 491)**

● Here's another waxing by the soaring-toward-national-acclaim Hal McIntyre orchestra. This time the offering is "Should I Tell You I Love You" from the Orson Welles' show "Around The World." The tune is well known around the land, and tho it set no houses to burning, it's a sound melody offered in sound style by Hal's crew. Frankie Lester handles the lyrics and his contribution adds up to good effect. Flipped, the platter is supported by "I'd Be Lost Without You" another in the string of romantic ballads turned out by McIntyre. Nancy Reed does the chirping and her performance is worthwhile.

EXCLUSIVE TO "THE CASH BOX"

RECORD REVIEWS

By
DAVE QUIRK
RECORD REVIEW EDITOR
OF
"THE CASH BOX"

"And Then It's Heaven"
"I Guess I Expected Too Much"

Harry James and His Orchestra
(Columbia 37060)

● This week Harry James and his great organization give his fans two ballads that are very easy on the ears. "And Then It's Heaven" is a pleasant love song featuring Buddy Di Vito in the vocal department. The backing by the band is good and full and only occasionally rises to a really loud pitch. "I Guess I Expected Too Much" again stars Buddy Di Vito. Mr. James gets in a few licks to let you know he's still high priest of that golden trumpet.

"Spanish Polka"
"Low Down Baby"

Billy Hughes' Pecos Pals
(Fargo 1116)

● "Spanish Polka" is a South-of-the-border hillbilly tune done up brown by Billy Hughes and his Pecos Pals. The rhythm, naturally, is polka and the boys really go to work on it. There's a rhythm instrument in the background that sounds very much like a washboard—and maybe it is. There's also a hot session with the guitar. Hughes supplies the vocal. The backing is "Low Down Baby." The boys open up the cellar door and dig down for a little jazz to pep up this number. Hughes once more works on the lyrics in his western style.

"What Will My Wife Say?"
"The Old Gray Mare"
Henry Patrick
(20th Century 20-8)

● "What Will My Wife Say?" has the emphasis on the vocal with the Billy Hays Orchestra providing the beat plus a brief instrumental insert between the choruses. Henry Patrick handles the vocal. The lyrics are a little off-color so watch this when placing it. The reverse gives us "The Old Gray Mare" and she's really decked out in a new saddle blanket. The boogie beat in the background is good stuff and it would be even better without the lyrics as they don't have much to offer. Henry Patrick sounds as though he has possibilities and we'd like to hear him do a straight number.

"If I'm Lucky"
"One More Vote"
Perry Como
(Victor 20-1945)

● Perry Como gives a very impressive performance on this waxing of two tunes from the new movie, "If I'm Lucky," soon to be released. The title tune is a dreamy number expertly crooned by Como. He has a free and easy style that makes for pleasant listening on any song. "One More Vote" is on the novelty side with tricky lyrics and a swingy melody. The Satisfiers and the Russ Case Orchestra back him up vocally and instrumentally to make this a top notch disk.

SLEEPER
OF THE WEEK

"Roll Me Over"
The Smoothies
(Apollo 1015)

THE SMOOTHIES

● The top treat on wax this week is contributed by a neat vocal trio, The Smoothies, assisted by a top musical combination, Henry (Hot Lips) Levine and his orchestra. The tune is "Roll Me Over," as catchy a novelty as has been heard around in a long, long time. What's more, it has been around for no little while. Every Joe who crossed the pond to England and wherever they went from there knows it like his papa knew "Mademoiselle From Armentieres." The lyrics have been cleaned up from the way the GI's know 'em, but they retain enough sparkle to keep the platter off the air. The interpretation offered up by the Smoothies is in keeping with their name, and the instrumental support delivered by the Henry Levine crew is top deck stuff. On the backing they do the Irving Berlin classic, "Blue Skies," in stepped up style and the result wins honors. Henry Levine's support thruout, however, should not be underestimated by any and all concerned. Ops can expect heavy play with this disk in any location where the boys who came back gather for beer and bull.

"This Is Always"
"Somewhere In The Night"
Jerry Sellers
(Sonora 3013)

● The moonstruck crowd will support this waxing of two love songs with lots of nickels as it's perfect hand-holding music. "This Is Always" is packed with sentiment and Jerry Sellers does a neat job on it. That boy practically purrs and on this type of song, the effect is good. "Somewhere In The Night" is in the same vein and Mrs. Sellers' favorite son gives the customers another listen to his romantic style. David Rhodes wields the baton and the musicians respond. Be sure to include this one in spots where Dan Cupid's deputies are at work.

"I Guess I Expected Too Much"
"Sh-h, The Old Man's Sleepin'"

Dolores O'Neil
(Cosmo 497)

● A thrush with a voice worth talking about and listening to is Dolores O'Neil. She goes to town on "I Guess I Expected Too Much" and the result will get not one but several nickels from each of the customers. It's a romantic tune and she treats it with a caress in her voice. The orchestra conducted by Buddy Weed gives her a smooth background. She gives with a change of pace on the backing, "Sh-h, The Old Man's Sleepin'"—a swingy number full of bounce by the band and full of zing.

"Hey Bobby!"
"Hymn to the Sun"

Bobby Byrne and His Orchestra
(Cosmo 492)

● Instrumental boogie with a slow drag beat is served up on this wax platter by the Byrne band in "Hey Bobby!" All the boys furnish the vocal and then they get busy on their instruments to turn out some first rate slow stomp. The backing, "Hymn to the Sun," is a swing adaptation of one of the classics by Rimsky-Korsakov. Bobby Byrne gets in some hot trombone sliding but he passes the solo flings around and the finale features the whole outfit.

"Baby, Baby, Please Come Home"
"I Know Who Threw The Whiskey
In The Well"

The Four Bluejackets
(Mercury 8017)

● The Four Bluejackets have a lot to offer in the way of close harmony and style of song presentation. In "Baby, Baby" the boys collaborate on a smooth ballad and come out with a number that sounds like the Mills Brothers and the Ink Spots at the same time. But it'll click in spite of the similarity to those other well known combinations. The backing, "I Know Who Threw The Whiskey In The Well," has a lot more pep. The pattern is that of a fast spiritual with a faint tinge of boogie in the background. It's a novelty tune with a surprise ending.

"You Can Depend On Me"
"Stormy Weather"
Capitol International Jazzmen
(Capitol 283)

● Here's a really great aggregation of artists playing under the name of Capitol International Jazzmen. "You Can Depend On Me" features one solo after another by Coleman Hawkins on tenor sax, Nat (King) Cole on piano, and Bill Coleman on trumpet, to name a few. It's true jazz and the fans of this type of music will set up a holler for more. The flipover, "Stormy Weather," is equally good. Kay Starr handles the vocal with ease and her interpretation is mighty fine. The same can be said for the instrumental tidbits.

**BYRDE'S EYEVUE
ROUND THE WAX CIRCLE**
by
Byrde Gore

Louis Prima (his "Vout Cowboy") was chosen recently as *The Cash Box* Disk O' The Week, entertained a number of music ops recently at his current band stand, Frank Dailey's Meadowbrook, Cedar Groves, N. J. . . . With the Ink Spots' version of "To Each His Own" out on the boxes, N. Y. ops finally joined the parade of cities to acclaim the tune as their No. 1 nickel snatcher . . . An Automatic Hostess operation in New Jersey is using the Luis Russell (Apollo) version of "The Very Thought Of You" as their chief *skill* platter — and it works! The folks come running back to the machine and want to know "Who sings that song?" The vocalist isn't identified on the label so they drop coin after coin in an effort to identify the unknown Voice . . . P.S. *The Cash Box* does know his name!

* * *

Recently *The Cash Box* asked music ops to offer suggestions for bettering cooperation between the industry and the record manufacturers, and, of the flood of replies, one demand stood out like a bonfire in the night. It concerned price. According to the opinions expressed, music ops are becoming increasingly opposed to the purchase of a platter retailing for more than six bits. The majority refuse to buy anything above that list. Record makers, please note . . . According to latest reports as this issue goes to press, ARA is continuing in the biz until somebody comes along with the right price. A number of new cuttings are due for release early in September.

* * *

During this past week Cosmo Records ran a test on the number of plays to be expected from their recent pressings. According to word just received from prexy Harry Bank, Cosmo Records now claims that their platters have continued to give "top performance after 200 plays. And, Harry emphasizes, "our tests were made using a tone arm exerting 4½ ounces of pressure on each play!" . . . Ruby Hill, who did the "Come Rain or Come Shine" number in "St. Louis Woman," the click B'way musical, has been inked by Cosmo, it was triumphantly announced this past week . . . Frank B. Walker, chieftain of the soon to pop MGM label, is maintaining heavy silence on the progress being made. "It's slow but sure," he reports. Meanwhile other diskeries are watching everything, but closely.

* * *

Musicraft claims that if they could make 30,000,000 records per year they could sell 'em all. And that (you guessed it) was lipped by the sales promotion director for the firm, Mike Elliott, who actually smokes nothing stronger than tobacco . . . Motion picture biggies from all the top film firms are around ogling diskeries and huddling with independent record execs. Announcements that will align the film world with the wax world are not far in the offing . . . Indications are that the platter biz is coming to life again after a summer lull, and the month of Sept. will see hordes of new releases competing for position in the nation's juke.

COSMO RECORD 505

Faint, illegible text in the top right corner, possibly a header or a list of items.

Main body of text on the left side, consisting of several lines of very faint, illegible characters. A circular mark is visible at the bottom left.

Main body of text on the right side, consisting of several lines of very faint, illegible characters. A vertical line separates this column from the left one.

Ellison Sees Demand For 'Better Type' Music on Jukes

HOLLYWOOD, CALIF. — Ben Ellison, head of Hollywood International Records, emphasized his belief that, along with the juke box swing tunes, there will be a growing demand for better type music in the coin machine field and during this past week recorded the "Hollywood Concerto."

His faith that classical music on a juke box will draw heavy play stems from the days when he was a developer of youth activities for Los Angeles County and he was offered a bet that children from the slums would not enjoy symphonies. Ben took that bet and won. During a single year, in an arrangement with the Los Angeles Symphony, he took 1,000 underprivileged youngsters to hear and enjoy the music of the masters.

From that experience he went on to observe the demand for "better" music by countless numbers of GI's during the war. At that time Ben was connected with the USO and had the opportunity to note the musical tastes of the nation's youth.

So now Ben has taken his faith in "better music" in his hands and is betting his chips on "Hollywood Concerto." The orchestra he used was composed of 75 of the top musicians he could find. They interpret the music written by Alexander Laszlo. Constantin Bakaleinikoff held the baton.

And Ben Ellison? He, who wrote the rising hit "I Left My Heart In Mississippi" and managed Exclusive Records, and took poor kids to concerts, waiting for the people to justify his faith: That they truly want "better type music"—and would be willing to pay a nickel to hear it.

Organ Music Album Featured by Gutshall

JACK GUTSHALL

LOS ANGELES—Jack Gutshall, well known record and Aireon phono distributor, located here, will distribute an album of organ music featuring the celebrated Jack Hammond, it was announced this past week. Jack foresees heavy demand for the disks.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week; Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code number appear in front of the name of each machine.

1

MEANS PRICE
WENT UP.

2

MEANS PRICE
WENT DOWN.

3

MEANS MACHINE JUST ADDED
TO LIST.

4

MEANS PRICES WENT UP AND DOWN
DURING THE PAST WEEK.

5

MEANS PRICES REMAINED SAME AS
IN LAST PRICE LISTS.

6

MEANS NO PRICES QUOTED FOR PAST
TWO WEEKS.

7

MEANS NO PRICES QUOTED FOR PAST
THREE WEEKS.

XX

MEANS NO PRICES QUOTED FOR
MANY WEEKS — PRICE SHOWN IS
LAST KNOWN QUOTATION.

IMPORTANT NOTICE

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange — posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration.

THE C.M.I. BLUE BOOK REPORTS EACH QUOTATION EXACTLY AS IT IS MADE AND DEPENDS ON THE SUBSCRIBER TO MAKE AVERAGE PRICE ADJUSTMENT TO FIT THE CONDITIONS IN HIS OWN TERRITORY.

Aireon Announces Training School For Music Ops

KANSAS CITY, KANS. — Aireon, working together with its national sales force, has instituted a training program for operators of Aireon equipment, it was announced here this past week.

Factory classes held in January of this year trained a group of men who became the nucleus of the present field service group. Today, this same group, operating in conjunction with local distributors, has held service schools in the principal cities throughout the country. Still expanding, the program is intended eventually to reach every music op in the country.

Ed King, newly appointed head of Field Service for Aireon, has stated that, "Altho our training program has not as yet reached every distributor, the eventual plan is to blanket every area in the country with the finest service organization we can build."

Aireon officials report. "Operators and their servicemen alike agree that the Aireon was designed with an eye to the service man and his particular problems."

In addition to conducting service schools, Aireon is developing a system of checks on the performance of individual machines by means of "performance cards" which record the history of each phonograph released from the factory.

School Days For Detroit Jukemen

DETROIT, MICH. — Phonograph operators watch as Leonard Branson points to a vital spot in the mechanism of the new Aireon. Branson was one of three engineers who conducted

the first Aireon Service School held in Michigan.

The school was sponsored by the Marquette Distributing Company, distributors of Aireon products.

Jack Nelson Buys Universal Bracket

JACK NELSON

CHICAGO — The Industrial Supply Company, located here, sold their Universal Bar Box Bracket to Jack Nelson and Company this past week, including in the transaction the patents and copyright.

Nelson has been selling this bracket as national distributor for several months and will now own outright the entire company. The bracket will be sold thru distributing organizations throughout the country.

"The Universal Bar Box Bracket is made especially for all types of bar boxes and is adjustable to fit any box or any bar," Nelson declared. "It can be installed on the finest of bars or counters with a simple patented two-way clamp and it will not mar or deface any surface to which it is attached. It is ideal for marble top fountains and makes it possible for operators to install bar boxes on counters and bars that have heretofore been denied permission to make installation."

The bar bracket is one of the many items to be merchandised by the Nelson Company who are now located in their new headquarters in this city.

Slade Names Adams Engineering Chief For Shine-A-Minit

A. R. SLADE

MILWAUKEE, WIS. — An important step on the road to full scale production of "Shine-A-Minit", the coin-operated shoe shine machine, was made this past week when Art Slade, general manager of Coin-Arts Industries and inventor and developer of the unit, announced the appointment of Frank Adams as chief engineer of the Shine-A-Minit organization.

"Mr. Adams is now actively engaged in, and will have permanent supervision and control of, the organization and engineering of all manufacturing facilities for the rapid production of the 'Shine-A-Minit' machine. He will govern all activities of the manufacture from the raw material to the finished product," Slade declared. He also said, "Mr. Adams believes he can produce 500 to 600 'Shine-A-Minit' machines a month as soon as production starts rolling."

Having designed and manufactured nationally known products in the electrical, mechanical, hydraulic and automotive equipment fields, Adams enjoys a wide reputation built up through over 25 years of consulting and production activities with many of the country's outstanding manufacturers. Among the firms with which Adams was connected are Packard Motor Car Company, General Motors Diesel Division, Bendix Products Corp., Fairbanks Morse Company and Trundle Engineering Co.

According to Slade, the accumulation of materials for the production line are well under way and Adams promises a complete production model for unveiling the latter part of September or early in October. In anticipation of the event, the firm has engaged one full floor of a prominent hotel here for their distributors when they arrive for the showing.

Columnist Comments On "Electric" Slot

DETROIT, MICH. — Mark Beltaire, columnist for the "Free Press", newspaper in this city, had a comment to make on new slots recently.

Said he: "Newest thing in slot machines is an electrically controlled affair, designed to save the player's arm. My dough is always gone long before my arm gets tired . . ."

Another Reason for a Nat'l Tax Council!

Hightstown (N. J.) Slams Tax On Venders; Jukes & Pins Hit First

HIGHTSTOWN, N. J. — The long arm of taxation against coin operated equipment nailed new levies on vending equipment located in this township.

Pursuant to a recent ordinance passed by the local governing body, licenses were issued on all cigarette venders operated in this township, with a ten dollar tax being slapped on each and every machine.

The licenses, issued on an annual

basis, carry a June 30 expiration date.

Taxation directed against the cointrade is not new here, but it was not until a few weeks ago that venders became liable to annual levies. For some time now a fifty dollar per year tax has been in effect on all pin games, while juke boxes are currently subject to a \$20 per year fee.

Abco Novelty & Skill Amusement In New Quarters

CHICAGO—Abco Novelty Company, well known cointrade firm headquartered in this city, have taken a new location here at 823 West Randolph Street, it was recently announced.

Both the office and factory facilities of the company are now established at the new address.

CLEVELAND, O. — Notification was made this past week that the Skill Amusement Company, this city, has opened its new offices and warehouse at 1946 East 23rd Street.

The firm is well known to the trade as distributors and jobbers of coin machine equipment.

Juke Box Top Feature At High School Reunion

NORRISTOWN, PA. — A juke box turned out to be the top attraction of the evening when Bridgeport High School's Class of 1941 gathered for a reunion at the Peacock Gardens, located here.

The young men and women were members of the last class to be graduated from the school prior to the outbreak of war, and when they met again recently, they recaptured their high school days with their top merry making instrument of those former days, the juke box.

The "Times Herald," local newspaper, featured a photo showing members of the class celebrating the occasion by putting coins into the machine.

JERSEY SURVEY SHOWS BIG MAJORITY OF MUSIC OPS TO CHANGE TO 75%-25% COMISH BASIS BEGINNING LABOR DAY

Music Guild of America Assists The Cash Box to Make Survey Among Its Membership. 17 of 21 Jersey Counties Report. Wired Music Ops Already Charging 10c Per Call.

NEWARK, N. J.—A poll just completed by *The Cash Box* in cooperation with the Music Guild of America, music ops association of this state, reveals that the greater majority of the music merchants are changing to 75%-25% commission basis as of Labor Day and that almost everyone of the wired telephone music ops are already charging 10c per call, three for 25c.

Some weeks ago *The Cash Box* reported that, after a vote taken among the general membership of this organization, they had decided to change their present commission setup to 75%-25%. The vote was for the immediate counties surrounding the city of Newark — with other counties of the state to decide later.

The Cash Box therefore suggested that a poll be taken from among all the music ops in the state and LeRoy Stein, executive director of MGA, agreed.

Stein wrote *The Cash Box*, "Your cooperation and assistance in the campaign to increase the earnings for the music merchants is deeply appreciated. In aiding us, we know that you will be of service to all your readers."

A summary of the poll, taken in 17 of the 21 New Jersey counties, points definitely to the need for a better commission basis and the fact that New Jersey's music merchants are agreed that this basis should come into being on Labor Day of 1946.

Essex County

Here 95% of the music merchants declared that with the cost of equipment up almost 400%; replacement parts up about 200%; with trucks, cars, automobile parts, insurance and other expenses increased in proportion, plus payment of the highest wages to union servicemen, it was impossible to offer the same commission to retailers in 1946 as was given them in 1936—ten years ago. As far as Essex County is concerned (the largest population county in the state) music merchants who want to continue to give good service, purchase new equipment and pay a living wage to their employees, can only offer locations 25% commission. (Wired telephone music goes to 10c per call on Labor Day by mutual agreement among these ops.)

Union County

Operators in this county upped telephone music to 10c per call last year. Commissions to locations for straight machines will be reduced to an equivalent of 25%. Music merchants agreed that with the ever increasing cost of living, plus the additional increase in overhead, pre-war commissions are definitely out.

Passaic County

Merchants who operate telephone music systems advanced price to 10c in July, 1946. Commissions for music merchants are being reduced to an equivalent of 25%. A few operators still cling to 50-50.

Bergen County

A spokesman for Bergen County says that it is unfair to the location to operate on a 50-50 basis. Customers are entitled to get the latest records, the best equipment and efficient day, night, Sunday, and Holiday repair service. "What with the cost of new equipment and Union wages to Union employees, plus increased cost of 'request' records, locations will continue to receive poor service and lower income unless commission rates are adjusted to meet present ever rising costs. We favor a 75%-25% commission as an equitable basis for efficient operation and a fair return to our customers and to ourselves," he stated."

Hudson County

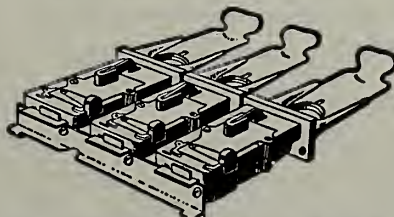

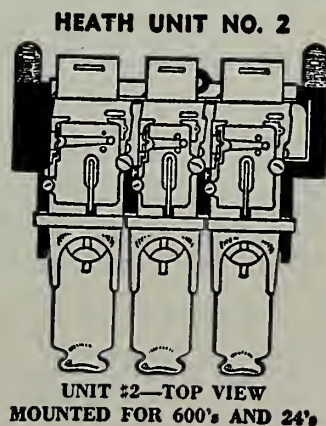

"We have just read the report of Essex, Union, and Bergen Counties. There is nothing that we can add except to say that telephone music must go to 10c and that an equivalent of 75%-25% is the only fair arrangement at the present time—fair to us and profitable to our locations," music ops here reported thru a spokesman for their group.

Middlesex, Monmouth and Ocean Counties

"As manager for one of the largest music merchants in this resort area, I can assure you that we are making every effort to convince our customers that we can no longer operate on a 50-50 basis. It takes little convincing to prove to our locations that when the 5c hot dog went to 15c, the 5c hamburger to 20c, and all amusements upped their prices nearly 50%, that these increases were mad necessary by added cost of doing business. The music machine merchant is no exception—to—he must pay more for everything he buys and so he must earn more in order to render the best service at all times. We are working toward a 75%-25% commission rate," music ops here report.

Trenton, Camden Areas

"As a salesman of music machine parts, I come in contact with most of the music machine merchants, and I get the same story from each of them—'We can't continue to exist on a 50-50 basis.' It is not different there than it is in Essex County where music merchants have already cut their commissions to 25% and raised telephone music to 10c. If they want to continue in business, buy new equipment, pay decent wages, and give the best service, they've got to do the same in this area."

BLUES BANISHER

DISTRIBUTORS, WRITE FOR SPECIAL DEAL

HEATH DISTRIBUTING COMPANY

217 THIRD STREET (Phones 2681-2682) MACON, GA.

SALESMEN WANTED

NEW YORK—At an informal meeting of distributors from many parts of the country in this city, this past week, there came to the fore the fact that, at long last, it seemed the "seller's market was dying" — and that, once again, the time for salesmanship had arrived.

This has been noticeable for some time to a great many in the trade. The fact that sales have fallen off in certain branches of the field were only proof of the long awaited demise of a rampant, raucous, devil-may-care "sellers' market."

The used machines market will maintain itself for a great many months to come as the leading sales division of the field — only because production of new equipment is as yet so low that it will not be able to catch up with demand.

But, even in the used machines field, the need for salesmanship is now being felt by its largest exponents. These men have reached that stage where they realize they must "go out and meet the customer once again."

It is true that whatever new machines are received are sold without trouble and with speed. But, they are not arriving in sufficient quantities to maintain the average large distributor's organization. Therefore he must get the major share of his revenue

from the used machine field. To do that, these days, he must have his men get out and sell the merchandise he is taking in trade, or that he is buying here and there about the nation.

The distributors who were present at this casual and informal meeting also agreed that they would be better off with salesmen covering their territories once again than they have been these past, hectic, fast-selling years.

Most of these men believe that a great many changes are coming about. They feel that routes will be sold and that new blood will enter the business and that certain coinmen will swing from one type of machine to another. Therefore, they agreed, the need for salesmen to note these conditions right out in the field is more or less imperative so that they keep fully informed of all such developments.

It has been noticeable for some months now that manufacturers, too, are recognizing the need for salesmen to get out into the trade. Those manufacturers who have been making some deliveries have already found that by using salesmen they have been getting a better reception from the trade generally. These men have been able to "feel" the pulse of the field and report it back to their factories

so that the manufacturer has been able to ascertain just what he should continue to do for the future.

At long last, then, the trade is returning to a semblance of normalcy. It will, once again, have its smiling, gossipy, story-telling salesmen visiting with it — bringing news of other cities, towns, villages and states. Of what other coinmen are doing to increase their earnings and, generally, spreading good cheer and good information which helped in the past, and will in the future, to make this a greater and better industry.

The fact that the sellers' market is dying is not being mourned by anyone who likes to feel that blood-tingling thrill of competition. Who likes to get out on the highways and byways and meet with "the boys" once more and talk things over with them. Who feels elated when a sale is made that sticks, and when customers are created who continue to be "grand accounts" from then on in.

Perhaps the old swash-buckling, hard-drinking, loud-talking, bragging type of salesman will disappear in this more modern, educated era. But, he will still be the welcome visitor from the "other side of the world" who always had a good word, a new idea and a better system to tell his customers about.

PHILA. SUNDAY INQUIRER FEATURES BIG STORY ON \$600 MILLION VENDING BIZ

Tells of Development from Candy Venders in Theatres in '30's to Present Large Concessions Doing Over \$15,000,000 Business Annually. Says Candy Machines Do \$25,000,000 Yearly. Also Tells About Cig, Photo, Popcorn, Beverage Venders and Juke Boxes.

PHILADELPHIA, PA. — Edgar Williams writing in the Philadelphia Sunday Inquirer (August 4) was given a feature page in the paper's roto section in an article entitled, "Bonanza From The Nibblers," devoted entirely to the vending machine and juke box business.

This is one of the best articles which has ever yet appeared regarding the vending machine business.

The writer advises that in the early '30's (as has appeared in *The Cash Box*) the vending machines opened the way in theatres to the present large, girl attended concessions. These do over \$15,000,000 worth of business yearly he reports.

He also stated that one large motion picture theatre producer is at present conducting a survey of his 450 houses with an eye to boosting his sales. He also writes, "Most large theatre chains handle their candy business thru concessionaires, receiving from 25 to 40 per cent of the gross sales. However," he continues, "one company which holds an interest in more than 1200 theatres, has conducted its own concession business for years."

He takes a suburban Philly theatre manager to task who called candy machines in lobbies "a fad" by stating, "Theatre owners who are reaping the harvest of nickels and dimes might point out that a \$15,000,000 annual business is a robust fad."

In addition to the theatre counter sales he reports that candy machines do over \$25,000,000 worth of business yearly in the country.

He also reports that, "More than 260,000 cigaret machines sell about 775,000,000 packs for more than \$100,000,000, accounting for 6% of the total cigaret sales."

In addition, he states, "More than a million penny peanut machines are to be found in public places thruout the nation."

He also reports on the fact that there are "upwards of 400,000 juke boxes" in the nation.

He also says, "More than 25,000 photographic machines bring in some \$3,000,000."

"These," he writes, "plus countless other dispensers, have made the automatic vending machine business one of the lustiest booming enterprises in the United States."

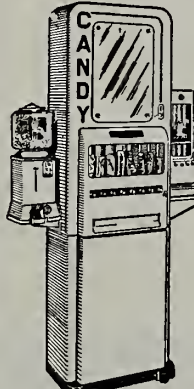

He claims that popcorn is turning into "another bonanza" for theatre owners. In a survey, he says, these men have learned that popcorn sells poorly in houses patronized by women, "and that theatres in the Middle Atlantic, New England and

Middle Western states show the best returns."

He also writes, referring to theatre vending, "most houses handle only

quality goods, mostly nationally-advertised brands; and there are few theatres which have not installed vending machines or stands."

Jersey Town to Put Midnight Curfew on Juke Boxes

ROSELLE, N. J.—Borough Attorney Guy W. Gordon is preparing an ordinance which would empower the police here to require all juke boxes in

the boro to be locked at midnight. The reason for the ordinance, it was explained, was due to the fact that a large number of complaints

have been received from citizens of this town who claimed that juke box music was keeping them awake in the early hours of the morning.

Says Mixed Route Ops Will Not Cooperate on Obtaining 70% Comish

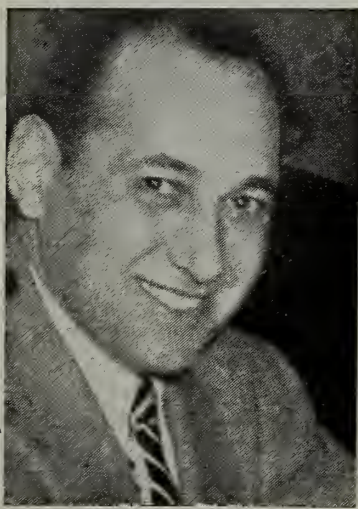

ST. AUGUSTINE, FLA.—R. L. Parks, Jr., of R. L. Parks & Son, who operate juke boxes as well as a very impressive music store here, report that one of the problems they have come across in changing their present 50%-50% commission to 70%-30% on all juke boxes here is the fact that their leading competitor also operates pin games and because of this will not change along with them.

Parks writes, "Each week I read 'The Cash Box' from cover to cover and, as an operator, I greatly appreciate your editorials on a new and better commission basis. The operator should get enough commission from his machines to net him a decent profit. But the trouble is that in each community there are different problems.

"In this locality," he continues, "my competitor and I cannot agree on a commission basis because he operates pinball machines. Therefore, in each location where he has a phonograph and a pinball, he will give 50 per cent on the phonograph because he has a second hand pinball machine that probably only cost him about \$50. He can get a greater return on his pinball machine and, therefore, if he only gets \$5 or \$6 from the phonograph (which is worth around \$400) he is still making money.

"I'm sure this problem will be found in quite a few cities. Your ideas are all good, as far as the operators are concerned, but the manufacturers have to help and they are not doing anything in that direction."

Busy Traveling Between Three Offices

AL STERN

CHICAGO—Allen J. (Al) Stern of World Wide Distributors, this city, is reported to be one of the busiest distributors in the Midwest at this time.

Al is busy traveling between his offices here and in Omaha, Nebr. and Kansas City, Mo.

The firm have been developing one of the largest sales organizations in this territory and, at the present time, are shipping machines just as fast as they arrive to their many operator-customers, they report.

Wurlitzer Juke Box Special Wins Soap Box Derby

SCRANTON, PA.—This was one of the regional centers staging run-offs for the National Soap Box Derby, America's juvenile racing classic.

That's all publicity-minded Wurlitzer distributor Ben Sterling of Moosic, Pa. needed to hatch an idea.

He corralled himself a likely winner, one Kenny Baxter by name,

helped him fashion a flashy fleet racer flaunting the Wurlitzer name.

Result? The "Wurlitzer Special" sped to the "Class B" Championship.

Beaming Ben Sterling copped himself a nice chunk of Wurlitzer publicity before a crowd of Scrantonites that numbered into the thousands.

Jersey "Launderettes" to be Inspected by Health Department

NEWARK, N. J.—Public Affairs Director Brady stated this past week that he has directed Health Officer Craster to inspect the "Launderette" businesses to determine whether they have been violating this city's health code.

After Dr. Craster makes his report, Brady said, the advisability of drawing an ordinance to control sanitary conditions in the "Launderettes" will be considered.

Dr. Craster will check to find out what method the "Launderettes" use to clean their machines after each washing.

This move follows the decision of Corporation Counsel Parsonnet that "Launderettes" are not laundries and can locate in any neighborhood in which there are retail stores without the question being passed on by the city board.

Before the Corporation Counsel

gave his decision, the Board of Zoning Adjustment held that "Launderettes" are laundries and that applicants must have board approval before locating in business zones.

At the present time there are only about three "Launderettes" in this city but many more are being contemplated and the belief is now that these may be suddenly halted by this new development.

New Showrooms Click

KANSAS CITY, MO.—C. B. (Billy) DeSelm, General Salesmanager for United Manufacturing Co. of Chicago, sends in the above picture of the new showrooms of Melody Lane Music Co., this city, with the story that these have not only proved themselves among the most impressive here but have clicked with all who have seen them.

“By the way”, DeSelm writes, “Melody Lane Music Co. are among the largest users of our conversions.”

PRIMA GIVES BILL WOLF RECORD No. 1

LOS ANGELES — While in Los Angeles, Louis Prima advises, after turning the above picture over to *The Cash Box*, he gave M. S. (Bill) Wolf of the M. S. Wolf Distributing Co. “Record Number One”—the first one off the presses on his newest hit number, “Vout Cowboy”.

The record was chosen last week as the “Disk O’ The Week” by *The Cash Box Record Reviewers* and this caused Louis (Da Preem) Prima to come rushing over to *The Cash Box* offices with the above picture.

“Tell Bill Wolf and all the juke box boys”, Louis said, “that if ‘Vout Cowboy’ passes the million mark I’ll play a special concert for them all.”

At the present time Prima is giving out with his music at the famed Meadowbrook in Cedar Grove, N. J. and invites all juke box coinmen to visit with him while he’s there.

Form New Distrib Organization

MIAMI, FLA.— Albert Dorfman of this city reports the organization of a new distributing firm to be known as, Reliable Sales Corp.

“We are proud to announce”, he writes, “that we have been appointed exclusive distributors for the Cash Tray Vending Machine of the Reliable Nut Company and for the Kon-test Poker machine of the Gillespie Games Co. for the states of Florida, Georgia, North and South Carolina.”

He also reports, “Altho we are a new firm, our members are not without experience in the industry.”

Ever Hear the Story About Pat and Kay?

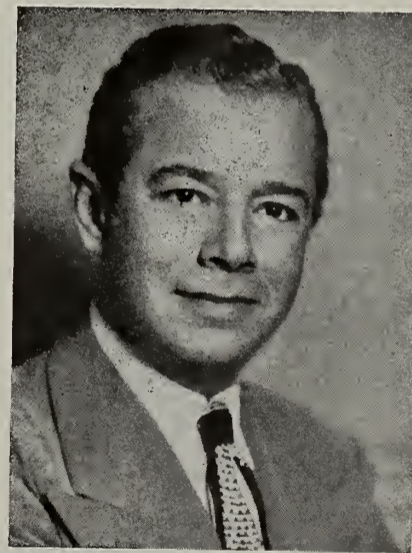

CHICAGO — Pat Erickson and Kay Haukebo, vocalists with Frankie Master's band, rushed down to the AMI offices here with the latest Master's recordings to hear how they would sound coming from a juke box.

Both Pat and Kay were thrilled at the rendition which the AMI Model "A" machine gave them, DeWitt

(Doc) Eaton, Vice President and General Salesmanager of AMI reports.

"It's getting so," Doc stated, "that everytime a new orchestra comes to town we get ready for a visit to have them play their latest recordings on the Model A."

Greene Says NAMA Vend'g Ops are "Big Business"

ROBERT Z. GREENE

NEW YORK—In an editorial in the firm's new issue of their monthly house organ, the "Rowe-Gram", Robert Z. Greene, president of Rowe Mfg. Co., Inc., and president of the NAMA (National Automatic Merchandising Assn.) reports, "As I see it, the acid test of any operator's belief in the future of our industry is first, his membership in the NAMA and his active support of its program."

He also says that tho individually the vending machine op is "small" business, collectively "we are actually 'big business' with vast capitalization, investment and sales volume."

He writes, "We know that as 'big business', represented by the NAMA, we wield broad influence

Newspaper Appeals to Save Kids' Juke Box Op Comes to Aid

DELAND, FLA. — In an editorial appeal addressed to its readers, the "Sun News" of this city wrote: "Will you let them down?"

"An article in Wednesday's Sun News revealed that DeLand's 'Teen Town' is in dire danger of losing its 'Juke' organ. Just exactly what the financial arrangements were in regard to paying for the device we do not know. We only know that the slim trickle of money which goes into the machine isn't sufficient to meet requirements, and unless some other means is found to pay for it the machine may be moved out.

"Few will deny that clean, wholesome recreation is one of the major needs for keeping young people out of trouble. Through means of 'Teen Town' an effort has been made to create the proper atmosphere for those of an impressionable age here in DeLand.

"We cannot be convinced that parents, interested individuals and organizations will stand idly by and permit the young people to lose their

music device which they use a couple of evenings per week for entertainment.

"When the problem was put up to us we gladly agreed to carry an article about the situation and seek donations to pay off the debt on the 'Juke' machine.

"Persons interested in helping out should mail their checks, made out to 'Teen Town Club' to Stanley Culp or May Horner of the Sun News, and such donations will be recognized and turned over to James B. (Spec) Martin to complete the purchase of

the 'Juke' organ."

The result was donations amounting to \$12 of the \$185 that was needed.

But, along came J. B. Cashion of the G.I. Joe Music Company, 640 E. Indiana Ave., and declared, "I'll give them a juke machine. The people should be interested enough in the young folks to do something for them. but I note that contributions are coming in slowly, and if Mr. Martin (James B. (Spec) Martin) will get in touch with me—I'll give them a machine."

Detroit Free Press Tells Story of "Telequiz"

THOMAS U. SISSON

DETROIT, MICH.—The "Free Press" of this city ran a feature story on the new "Telequiz" machine of the Telequiz Sales Co., 32 W. Randolph St., Chicago, wherein it told all about the inventor of the unit, Thomas U. Sisson, and the fact that the U. S. Navy used 1,300 of these machines during the war to teach tars as well as admirals various necessary Navy data.

The story was headlined, "Quick Quiz: Brainy Juke Boxes Stump Wise Guys". A picture of Sisson explaining the machine to a Wave is shown along with the article. According to the story the "Telequiz" knows the answers to 32,000 questions.

The story also explains that Sisson enlisted in Naval intelligence as a Chief Petty Officer early in the war. After telling some of the officers of his machine and bringing it to them for their inspection he was immediately promoted to Lieutenant (jg)

and from them on was building his machine for the Navy under Naval supervision.

In addition to a complete description of the machine and the fact that it is now being used by schools, colleges and for various other educational purposes, the writer of the article, James S. Pooler, reports that Sisson claims it will one day run off civil service exams, tests for drivers licenses, and will also check on applicants aptitudes and character.

The "Telequiz" is at present set up for coin operated play and is being shown at the Telequiz Sales Company's offices at 32 West Randolph Street in Chicago where Joe Beck is in charge.

The machine is reported to be engineered and devised by Training Devices, Inc., Lincoln Park, Mich.

CHICAGO—One of Chicago's prettiest gals is surprised at the way the "Telequiz" machine gives her correct answers to her questions in speedy time. Unique scoring method is featured for players.

Rowe Offers 120,000 Shares of Common Stock

Also Announces Change of Firm Name

NEW YORK — Rowe Corporation, manufacturer of automatic merchandising machines and vendor of cigarettes through these outlets, filed with the Securities Exchange Commission a proposed public offering of 120,000 shares of its common stock, to be sold for the account of principal stockholders.

These stockholders, it is stated, will

retain sizable interests in the Rowe Corporation.

Hayden Stone & Co. is principal underwriter for the proposed offerings.

The company also announced revision of the name of Rowe Cigarette Service Co., Inc., to Rowe Corporation.

Form New Distrib Company

NEW YORK — Mac Colen and Joe Friedman recently formed a new company, known as Silver Lining Distributing Corp., located at 2061 Broadway, this city.

The firm are acting as distributors for Asco of Newark, N. J., Premier of New York, Amusement Enterprises, Inc., and Electromaton, Inc. of Hoboken, N. J.

Colen will be remembered by some of the old timers when he acted as a distributor for cranes in this city.

\$1,150. Per Person Income Sets Record

WASHINGTON, D. C.—The average per capita income in the U.S. reached an all-time high of \$1,150 in 1945, the Dept. of Commerce reported this past week. This is 2% higher than the 1944 level and an increase of \$575 per capita from 1940.

New York led all the states with a per capita income of \$1,595. Mississippi was the lowest with \$556.

The 1945 income payment was listed by States as follows:

Connecticut, \$1,499; Maine, \$1,051; Massachusetts, \$1,321; New Hampshire, \$971; Rhode Island, \$1,268; Vermont, \$1,023.

Bar 16 Year Olds From Playing Jukes

WEST ORANGE, N. J.—An ordinance is under consideration here which will bar all youngsters 16 years of age or under from playing juke boxes. Bobby-soxers of doubtful age will have to carry birth certificates if they wish to play the juke boxes in this town.

"The measure prohibits the use of any coin operated amusement machine by a minor under 16 years of

40 Millions Weekly Spent for Music

SIoux CITY, IA. — The "Journal", leading newspaper here, featured an editorial this past week headlined, "Billions for Music".

According to this editorial the public is buying radios, records, sheet music and other forms of musical entertainment to the tune of some \$40,000,000 weekly.

In referring to juke boxes the editorial stated, "Assuming that a juke box produces music, a premise which might be argued, its take adds a goodly percentage to the nation's music bills. This year Americans will drop \$250,000,000 in nickles, dimes and quarters into juke boxes, it is anticipated. There is a juke box for every 500 persons in the nation. Some think the percentage supply is more than ample."

Heath Visits Texas

MACON, GA.—Ed. Heath, Heath Distributing Co., this city, recently returned from a trip thru the state of Texas.

Heath was particularly impressed with the many coinmen he met.

In addition, Ed raved about the wonderful buildings and offices coinmen have constructed and are using in Texas. He hopes to return shortly and visit with the many friends he's made in the Lone Star State.

Sells Cig Vender Route

GREENSBORO, N. C.—The Cigarette Service Company and Saul S. Greenberg have announced the sale of their entire route of cigarette vending machines, comprising this section of the state, to the Burns Distributing Company.

The Burns Company is owned and operated by Frank H. "Bobby" Burns, former manager of the National and Carolina Theaters in Greensboro. The Burns Company has had five years experience in placing and handling merchandise dispensers.

Announcement of the sale was made to the public on Sunday, August 18.

The cigarette machines purchased from the Cigarette Service Company will be merged with the present business of the Burns Distributing Company in Greensboro, High Point and Winston-Salem and the surrounding rural section.

Burns Distributing Company now handles candy dispensers among its services. It is located at 250 Summit Avenue here and is a member of the National Automatic Merchandising Association.

May Lift Beer Curb

WASHINGTON, D. C. — Clinton P. Anderson, Secretary of Agriculture, announced this past week that his department is studying the possibility of relaxing limitations on use of

grain in making beer and whiskey.

A review of the restrictive orders is under way, he reported, in view of the prospective bumper grain crop. These restrictions prohibit the use of wheat in making whiskey and beer.

The wheat restrictions were established last winter, when grain supplies were scarce, and this country was having difficulty getting enough to meet its pledges to the hungry areas abroad.

The Distilled Spirits Institute reported that the country's 154 distilleries turned out only about one-fifth of their capacity in whiskey in the first 6 months of 1946 because of tight Government controls.

Boston Post Tells About New Type Venders

BOSTON, MASS. — The "Post" of this city featured a large story all about the vending machine business and the forthcoming new type venders in its Sunday, August 4 issue.

Opening with the four column headline, "Whether It's Laundry, Peanuts or a Sizzling Hot Dog, Drop in Your Coin, Press the Button and it's Yours", Wendall Hazen goes on to state, "Whether you are the butcher, the baker, the candle-stick maker, or just the guy who runs the local family laundry, there is a slot machine just around the corner that is planning to take over your business."

He then describes the "Launder-

ettes" now in operation in many Wisconsin cities. From there he jumps to the General Electric Company's sandwich vending machine

He also says that, "A coffee-and-cream slot machine is already getting a workout in various locations. It permits the choice of four coffee-and-cream combinations to suit your taste."

He also writes, "Another wow among the newer slot machines is the hot dog vendor". He reports the Westinghouse beverage vender with the multi dispensing system for four different type drinks.

He says, "Peanuts, popcorn and stamps, also many kinds of gum and

a variety of candies have long been obtainable by these slot machine methods of purchase. Also motion pictures."

He tells about the new frozen food venders to follow. The "Telequiz" machine which has 32,000 answers to the questions asked. He says there is also a prospect for a completely coin operated grocery store. He says that a hat cleaning machine is already operating.

He winds up his article with, "And, of course, no slot machine story would be complete without mentioning the dear old juke box. Drop in your nickel and that funny noise you hear is music. It really is."

Will Introduce Cig Venders to Canada

SAINT JOHN, N.B. CANADA —

Under consideration by a local coin-man is the introduction of cigarette venders.

He intends to install the machines in some Saint John locations and thence broaden out to include Southern New Brunswick.

About 8 years ago an attempt to introduce cig venders was made at centres through the maritimes, but it did not get beyond the talk stage owing to concerted objections by tobacconists.

Until now, however, there had been no effort made to revive the installation project. It is reported that the venders will be placed, at the outset, in the larger communities only, and also that some city and town councils may be asked to establish a licensing fee per machine in operation.

The move to operate ciggy machines is sure to draw opposition from the tobacconists, it is reported.

DOUBLE YOUR MONEY BACK!

Fitzgibbons Returns to West 47th St. B'ldg.

JOHN A. FITZGIBBONS

NEW YORK—Jack Fitzgibbons, getting ready to spring something really big, moved back this week to his own building at 453 West 47th St., this city.

Fitzgibbons was located at the 47th Street building for many years, but with the beginning of the war gave the building over to a company manufacturing materials for the services. Now that their war contracts have been cancelled, the company has moved to other quarters.

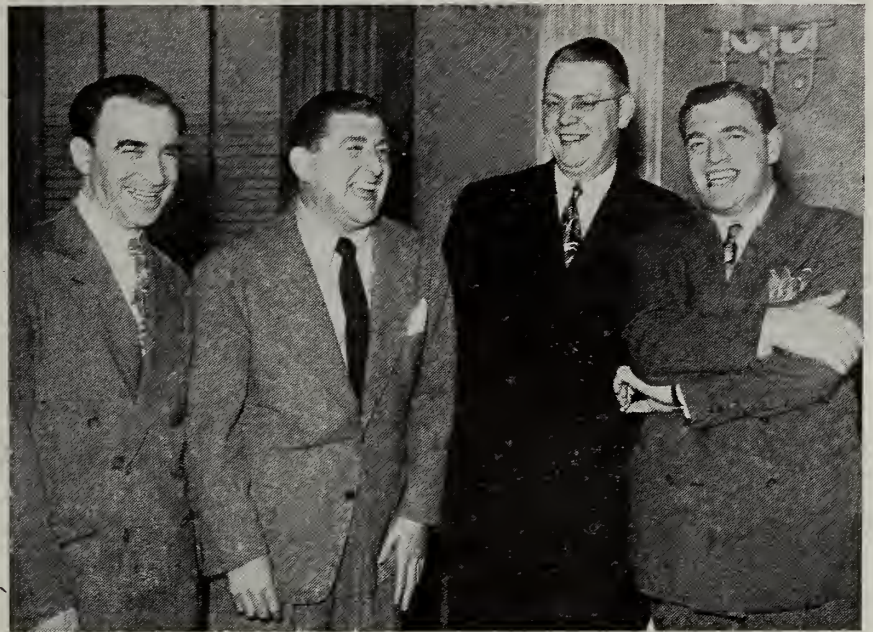

The building is undergoing a complete renovation. Carpenters, paper hangers, linoleum layers, et al, are working like beavers to complete a new modernistic comfortable set of showrooms and offices for Jack. All work is expected to be completed when you read this, and Fitzgibbons is moving in with all new furniture.

While the work of readying the building was going on, Jack has been playing host to many of the country's leading coinmen who are visiting him regarding his new plans. It's all very mysterious, but Jack tells us he'll be ready to tell the whole world about it in a very short time.

From Gramophones to Jukes

HOQUIAM, WASH.—“The Washingtonian”, local newspaper here, recently traced the development of the old gramophone and the record makers of yesteryear with activities and products in the field today, and concluded that the juke box stands among the prime examples of the advances in engineering and technique developed since those earlier days when phonos sported those big morning glory shaped horns and were called gramophones.

'Makin' Whoopee' With Musicmen

DETROIT, MICH.—Telling a few of the lyrics that didn't go into the waxing of his latest Cosmo Record, “Makin' Whoopee,” Tony Pastor draws a laugh from Detroit musicmen. Left to Right: Max Lipin, President of Allied Music Sales Co., Cosmo distrib for this territory, Tony, Dan Walker and Lon Salesin.

LOS ANGELES 15, CALIF.

British Mfr. to Seek Rights to Build U.S. Games in England

Special to The Cash Box

LONDON, ENG.—It is reported here that Hawtins, Ltd. of Blackpool is on his way to the United States to arrange for manufacturing rights for American coin operated equipment.

Coinmen here believe that it will be sometime yet before the Foreign Exchange Control and the Board of Trade will allow importation of U.S. coin machines once again, and the use of the U.S. dollars for "such non-essentials."

The Cash Box correspondent writes, "The U. S. loan hasn't changed the previous situation. The Government are conserving it for food and other necessities. And you wouldn't blame them if you could see the privations of the masses here in food, clothing, etc. You'd think this country lost the war. Outside of Germany, and perhaps Italy, the people here are getting less food, etc., than any other country."

Hawtins, Ltd. is today considered the large coin machine manufacturer in Great Britain. Some of his ma-

chines were published in *The Cash Box* a few months ago. His most outstanding machine for possible sales to the U.S. market is considered to be the "Clutching Hand" which is comparable to the International Mutoscope "Magic Finger" machine and also the "Novelty Merchantman" of the Exhibit Supply Company.

Other games of the Hawtins firm range from the whirlwind type counter game, which is known in England as a "standard" game, to scooters for amusement parks and even a juke box which resembles one of the old '39 phonos.

Cig Pack Pennies Make Beach Combing Profitable

ASBURY PARK, N. J.—A new type of beachcomber has been born here. He walks about the sands and picks up discarded cigaret packs, usually winding up with a nice batch of pennies for his labors. Even a reporter who followed the custom reported that he picked up 24c.

It seems that most of the cigarets purchased here are from machines. The public smoke on the beach and then discard the packs without removing the pennies, in the majority of cases.

Red Navy Captain Wants to be Russian Bell Czar

NEW YORK — One of the stories which came back with correspondents who were present at the Bikini atomic bomb tests is the fact that Capt. H. M. Khokolov of the Red Navy, who was there as correspondent for the "Red Fleet", the official Russian Navy newspaper, took to two American institutions with elation.

The first was the introduction of the Captain to the American "Tom Collins" drink. Capt. Khokolov liked them so well that he would line up five and six at a time and down them. The reporters present believed this was a mild change from the fiery Vodka of his native country.

The second, and most exciting American product the Captain came across—was a bell machine. He found the machine much to his liking and, after playing it for sometime, voiced an ambition to become the bell machine czar of Russia.

It is now believed that Capt. Khokolov will bring back to the Soviet Union reports of the bell machine as well as the Tom Collinses he drank—perhaps opening the way to introduction of both of these American institutions in his native country.

Pottstown Kids Celebrate 2nd Year of "Jive Junction"

POTTSTOWN, PA.—"Jive Junction" which is the local YMCA relaxation center for the teenagers of this town celebrated its second year, this past week, and the juke box which made

this spot so popular played away without halt. Kids flock to "Jive Junction" ever since the juke box spot was created by the YMCA here.

Gas Vender in Production

BUFFALO, N. Y. — Walter W. Schneckenberger, vice-president and secretary of the Marine Midland Corporation, who also heads the firm of Gasoteria, Inc., reported this past week that production will soon begin on the firm's coin operated, self-service gasoline pumps, which have been designed to aid night drivers who can't find an open service station.

Philip M. Schneckenberger, the banker's son, designed the self-service gasoline pump. He stated, "All the customer will have to do is put his money in the cash box, put the hose nozzle in the tank and get his gas."

ROUTE FOR SALE

Coin Machine Operation, established nine years, Los Angeles Territory.

Consisting of 25 One-Balls, 75 Combination Consoles, 20 Pin Balls, 7

Total Rolls, many machines new.

Owner will spend time to assist and acquaint purchaser with operation.

PRICE \$90,000.00.

2126 VETERAN AVENUE
LOS ANGELES, CALIF.
(Phone: Richmond 5527)

Suggest Name be Changed to "Bell" Machines

CHICAGO — Coinmen here suggest that the name "slot" machine be changed from now on thruout the industry and that it become known, instead, as the "bell" machine.

The belief here is that this will prove of greater value to those who are constantly handling the "bell" machines for they have had to overcome the designation as "slot machines" in many instances and, in most cases, have found that this term is usually given to every type of coin operated device — whether it be a penny ball gum vender or an auto-

matic phono by the public and the press.

This name, these men claim, will definitely designate the type of machine referred to by the coinman. As is also known, they point out, even in ordering reel strips, the term, "Bell-fruit" reels is used.

Therefore, they state, the name "bell" machine ties in perfectly with what the trade has long known as the "slot" machine and gives a better description to the machine itself.

Most manufacturers are now also referring to these machines as "bell"

machines and this alone, it is hoped here, will help to popularize the name.

The average coinman, it is reported, has also come to refer to the "slot" as the "bell" machine.

The Cash Box agrees with the name "bell" machine as being more descriptive of the product itself and will use this term in its "C.M.I. Blue Book" beginning with the September 2, 1946 issue—already adopting it for its "new" machines column in the "Blue Book."

Little Men

By James T. Mangan (*Mangan & Eckland, Chicago*)

JAMES T. MANGAN

Down the corridors of the world sounds the distressed cry: "Our big men! Where are our big men?"

But the trouble is not that we haven't enough big men. The real trouble is there are too many *little men*.

Little men in the arts. Little men in the professions. Little men in politics. Little men in business.

Little men with hands on the hoe. Little men with hands on the linotype. Little men with hands on the throttle. Little men, little men, everywhere little men with their little hands into everything.

With the tick of the clock a new little man appears, another little man with a great little idea. Little men with little minds, little vision, little ability. In their hands the little old world moulds and dusts and grows weary.

Here and there a big man. A man who uses his mind as an instrument of thought. A man who traces all confusion to stupidity and seeks all remedy in mind. A big man, big in humility, for he's a student; quiet because he's busy. Big man with a big faith in nature, who sees things only in their nature, a balanced man, a full man.

Lo! The big man moves, speaks, acts—and ten thousand little men re-

spond to the signal—to them the fatal signal of everlasting death: "STOP THAT BIG MAN! STOP HIS LDEA!"

The little man cannot die, must not die, *will not die!* So ten thousand of him rush to plug up the leak (PROGRESS) in their dike (STAGNATION).

Were that leak allowed to grow, were progress allowed to spread, were big men given their chance, little men would be through — but little men will never be through and the leak is plugged in time.

Oh, world, behold your awful maldady, not lack of big men, but surplus of little men!

One big man with design in his heart, one big man of the ilk that does nine-tenths of any job by pure thought, in the crystal lake of logic, imagination, consideration, and practical life, accomplishes BEFORE a nail is driven or a die cast what a million little men could not accomplish in a

million years of trial and error. One big man who builds the first nine-tenths of the job out of THOUGHT and then watches the last one-tenth of the job becomes automatic, sure in result because it was sure in plan.

Oh, no, the little men will not let this big man move. One small thought from the big man's brain may prove that a whole little man's life—in a trade, in a craft, in a stiff and guarded sphere—was spent in vain. "He shall not pass!" cry the little legion in frantic fusion.

But HE SHALL PASS. Big man, move forward! Should the lion take any account of the grasshopper? Spread out your majestic thought to a progress hungry world! Be big! Take the helm!

Sound the war cry! Light the torch! Down, down, down — back, back, back—over, over, over, with all the little men, little men, little, little, little men!

THRU THE COIN CHUTE

CHICAGO CHATTER

Maybe this is the answer to a lot of things today—the card that we received this past week from W. H. Pickron of Rock Island, Ill. who enclosed it along with a classified ad he sent us—so I guess he drops it into all of his mailings—the card reads: “I had no shoes . . . and complained . . . until I met a man who had NO FEET”. Seems to me that there’s a lot of philosophy which will stand many in good stead these days if they will just read that message once more . . . Max Glass of the Chicago Max Glass’ is back from his weekly visit to New York and was reported to have argued out a meal with one of his distribs there to a fare-thee-well—with Max winning out in the end . . . Fred Mann is also back from that Eastern regional Aireon meeting and is all pepped up with some real news for the boys who weren’t there . . . They say that “all that glitters is not gold” or some such expression made by Willie Shakespeare, but, if Willie dropped over at the new, big Groetchen factory and saw the new DeLuxe Golden Bell—he’d agree that it sure does look like it’s made of gold. It’s a honey—and it’s in production.

Ed Hughes, superintendent of Exhibit Supply, was all smiles this past week since getting delivery of his new Dodge. Ed’s rarin’ to start on that vacation and put plenty of mileage on the new car . . . Ben Coven and his able assistant, Ben Stein, were forced to “stay put” this past week. They just couldn’t tear away for their usual weekend holiday. Too many ops calling around to have a looksee at those Bally games they have on display . . . Harry (American Amusement) Brown so busy these days helping Joe Munves move over to the firm’s new factory—you simply have to call him up in advance these days to find out when he’ll be in his own offices . . . The new addition to the H. C. Evans factory is all set up and ready for the inside construction . . . And another factory—O. D. Jennings & Co. are breaking into part of the big lot next to their present plant to build a complete plating factory for themselves where all the firm’s plating work will be done . . . Seems like all the coinfirmers are busier than ever with expansion plans while they have a breathing spell and can give their complete attention to such details.

Dave Gottlieb’s remodeling job is just about completed. Brother, call around and see these offices. Air conditioned, indirect lighting, luxurious furnishings — it’s really lush . . . Over at Automatic Coin Machine Supply (the Ovitz & Schultz shvitzbood combination) they’re busy remodeling, too, and when finished this should be one of the most outstanding modern distrib quarters . . . Pace Mfg. Co., too, are spreading out to pre-war proportions — already occupy more than a floor and the plant now reaches out for another and another part everytime we call around . . . Dave Gensburg of Genco tells us that altho they planned to stop production on Total Roll this month—the demand for more and more of these games keeps coming in. It’s nearly a year since Total Roll was introduced. They plan to keep right onmaking ’em a while longer . . . We

stopped in at Empire Coin the early part of this past week and found the following list of visitors on the firm’s register: Ken Wilkinson, United Amusement Co., San Antonio, Tex.; Cecil E. Cole, Macon, Ill.; Jerome (Red) Jacomet, Red’s Novelty Service, West Allis, Wis.; Clarence Camp, Southern Amusement Co., Memphis, Tenn.; Lou Boasberg of New Orleans Novelty Co., New Orleans, La.; Al Pierce also of New Orleans; Ross Lewis of Peoria, Ill.; Bill Jay of Jackson Amusement Co., Jackson, Mich., had already been there before us.

By the way, we were very happy to find Shirley Corush (the Empire “Pilot”) back from her vacation and everything in apple pie order—running smoothly once again. Whattagal is Shirley—she does just about everything that there is to do with the exception of the mechanical duties and I believe she’d even take a hand in that—if it proved necessary . . . Ralph Sheffield, the guy behind the Kitt behind the Empire, is a great marksman. The other day we dropped in and found him oiling up one of his grand collection of guns and ready to take the afternoon off to do some skeet shooting. “Practising for some good hunting this Fall”, he said . . . Robert (Bob) Hunter of Hunter Sales Co., Dallas, Tex. drops in to our offices to say “hello” and tell us that he and the Missus had a grand visit in Chi. Bob has some splendid plans under way and should be doing alright by himself down in the Lone Star State . . . Midge Ryan has become quite an amateur candid camera fan and has been practising his new hobby in their new, ultra-modern and cozy “Owl Club” . . . Jim Longaker (Bell-O-Matic) who should be on a vacation — was seen entertaining his good friends, Jim Eagle and Tom Beard of Pottstown, Pa. at the usual get-together-rendezvous, “Dan’s Grill”, just across the street.

Never a day passes but what the popular Vince Shay’s office is crowded with visitors. The day we called around we met the following group exchanging yarns about thisa and thata; Harold Dailey of South Coast Amusement Co., Houston, Tex.; Warren Taylor of Mills Sales Co., Ltd., Oakland, Cal.; Dave Ziskin (Bill “Sphynx” Cohen’s man Friday) Silent Sales Co., Minneapolis, Minn.; Ruby Robbins (son of Nate Robbins) who drove here in a brand new Cadillac. Ruby is a very successful arcade op in L.A.; Joe Garcia of Galveston, Tex. and Irv Ovitz of the Schultz and Ovitz team, Bell-O-Matic distribs here . . . They tell me that there will be a gang of AMI distribs here in a few weeks and will be given some very, very good news (they’ve been waiting to hear) by “Doc” Eaton, AMI’s vice-prexy and general salesman. By the way, Doc is on a trip thru the South and into the Southwest and will be back just in time for this meet . . . We hear that Harry Williams and his very beautiful and charming missus are in New York and will be there for a few days and back at the offices here just about the time you are reading this . . . One of the boys here tells me that Joe Ash of Philly shut up one loud mouth by quietly telling him, “If you know a better business—I’ll quit this one”

THRU THE COIN CHUTE

EASTERN FLASHES

Art Hermann, Aireon distributor in Albany, N. Y., leaves the New York meet of Aireon distributors last week, and heads for Lake George for some relaxation. Art, by the way, claims the upstate New York coinmen aren't being mentioned in this column enough. Well—send in your items—we'll see that they get in every week . . . Herman Perin, that traveling man of Runyon Sales Co., returns from an eight week trip to Texas and Mexico. Where do we go from here, Herm?

* * *

Amusement Enterprises, Inc.'s showing at the Hotel New Yorker ended in a blaze of glory. In addition to those names listed last week of out-of-townners attending Ponser and Kaye's display were: Arthur Segar, Asbury Park, N. J.; Willard Barre, Worcester, Mass.; Frank Page, Roanoke, Va.; A. P. Ludin, Portsmouth, Va.; Al Bergman, Buffalo, N. Y.; Nat Jones, Buffalo, N. Y.; Al Clavir, Toronto Trading Post, Toronto, Canada; Ben Walinetz, Rochester, N. Y.; Jack Marine, Buffalo, N. Y.; C. J. Gregorer, Lynchberg, Va.; W. E. Lonergan, Lynchberg, Va.; C. M. Johnson, Norfolk, Va.; R. M. Edwards and G. R. Ramagosa, Wildwood, N. J.; Mr. & Mrs. Jack Bess, Roanoke, Va.; A. K. Strahan, Greenfield, Mass.; Nat Bartfield, Cincinnati, O.; Phil Gray, Leonardstown, Md.; Paul Bailey, Leonardstown, Md., and Harry Fine, Pittsburgh, Pa. In addition to these out of town visitors, loads of local coinmen viewed the games.

* * *

Harry Rosen, Meyer Parkoff and Bert Lane (Atlantic Distributors) introduce their new office manager, Nat Solow. Nat is all enthused about the Seeburg phono . . . Al Denver, president of the Automatic Phonograph Operators Assn., recuperating at the Wickersham Hospital from a minor operation . . . Irv Blumenfeld, General Vending Sales Corp., Baltimore, Md., tells us the new General building will be ready in a very short time, probably in mid-September, and that they are going to have a house warming party for all coinmen at the official opening . . . Block Marble Co., Phila. move to their new headquarters at 1425 N. Broad St. . . . Claire (Grant) Moreno, George Ponser's private secretary, glad she was able to take her vacation the week before the party. It was a tough grind for the staff.

* * *

Mr. and Mrs. Harry Williams, Williams Mfg. Co., Chicago, in town. Williams stopped off on his way to see Sammy Stern of Scott-Crosse Co., Philadelphia . . . Leo Knebel, Manhattan Phonograph Co., celebrates a birthday on August 28 . . . Joe Fishman,

Atlantic New Jersey Co., Newark, N. J. had to postpone his vacation with Al Schlesinger of Poughkeepsie until the week starting August 26. Joe and Al will be away until after Labor Day . . . Barney Kahn, Metropolitan Coin Machines, Inc., Brooklyn, N. Y., who just introduced a new novelty card vendor, flies out to Cleveland to see his distrib . . . Joe Mandell, Queens-Nassau Automatic Music Co., Brooklyn, N. Y., handing out cigars celebrating the arrival of a new daughter. Joe, by the way, has just returned from a hitch in the Navy.

* * *

Dave Stern, Seacoast Distributors (Rock-Ola distributors), received a surprise invitation last Friday afternoon to attend the engagement of his son, Irwin, that same Friday night. Irwin, just out of the Navy, evidently learned how to work fast while in service . . . Joe Friedman and Mac Colen, new distributors here under the name of Silver Lining Distributing Corp. . . . Nat Cohn, Modern Music Sales Corp., away on another trip to the west. First stop—Detroit, then on to Chicago . . . Irv Sandler, Des Moines, Ia., entertains a group of Aireon distribs (Ben Palastrant, regional sales director, Ralph Colucci, Joe Greene, Ted Bush, Harold Klein, Art Hermann) with his dialect stories . . . Bush and Klein fly back to Chicago, then on to their respective homes.

* * *

Joe Eisen and his son Buddy, Joe Eisen & Son (Packard Distribs) all set to accommodate the many ops who have evidenced their intention of attending the two day service school on August 28 and 29 . . . Bill Blumenthal, Tri-State Sales and Distributing Co., returns from his vacation—spends one day in the office, and then has to stay home the rest of the week to recuperate from a touch of the flu . . . J. Breidt and Leo Willins, U-Need-A Vendors Corp., seen in a serious discussion over a cup of coffee . . . Ben Becker, Palisades Specialties, Inc., Cliffside Park, N. J., visits his friends along coinrow . . . Hymie Rosenberg, H. Rosenberg Co., busy on the phone doing some buying and selling . . . Dave Lowy will have an interesting announcement to make in about two or three weeks.

* * *

Barney Schlang, manager of the Automatic Phonograph Operators Assn., working day and night lining up those ads for the journal issued in conjunction with their annual banquet . . . Woolf Solomon, Central Ohio Coin Machine Exchange, Columbus, Ohio, in town for a few days vacation.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Bill Wolf has just received a shipment of the new AMI "Automatic Hostess" and is displaying this equipment in his showrooms. He whispered to us that he is expecting a large number of the new phonos in his shops, and soon. Al Silberman, who just returned from a quick trip to Chicago, is confined to his home with a cold . . . Jack Gutshall will distribute an album featuring Jake Hammond at the Hammond Organ, which he says will be ready for the trade within three weeks. Jack says it's a natural and should prove a sensational seller. The boys at Jack's place wonder why Jack Allison goes out to lunch via the front door and invariably returns thru the back door. What's the secret, Jack?

Ray Powers of E. T. Mape is planning on an extended vacation in the northland the end of the month. He hopes for lots of fishing and loafing (mostly loafing). Ray reports that the new and long awaited Challenger phono is on the way to the West Coast and should be on display shortly . . . Milo Herring, well known coinman, has taken over the remodeling and refinishing department at the Mape music shops and is doing lots of work for the ops . . . Jimmy Rutter has just completed his most recent coin game, "Del-Mar." It's a combination of "Total Roll" and the "Thorobred" and can be converted from free play to cash play very easily. Jimmy claims he had an operator place the game on location and it was reported to have taken in more than \$3.00 an hour. He is taking the bugs out of the machine now and plans on an announcement soon . . . Lane Jasper has just completed developing a new music box and is shopping around for a spot to manufacture it. He has several new and interesting innovations which, if perfected, will prove to be of great interest to music ops.

Len Micon has just received a small shipment of the new H. C. Evans "Bangtails" and didn't have time to uncrate them before they were on the way to the ops. Len has been entertaining Harry Aronson of Chicago the past few days. Aronson, a well known watch manufacturer, recently appeared in a Chicago court to assist a number of manufacturers in their fight to use watches with their sales boards . . . Charlie Robinson has just received a report from the Jennings factory that a large number of the new Jennings bells are on the way to his showrooms here.

Robert W. Shidler of the Southwest Distributing Co. of Long Beach informs us that his firm has just been appointed to distribute the new "Tradio," the coin operated radio reported in great demand by the many Motels which surround Southern Calif. . . . Sol Schwartz, local op, has been secretly working on a new game which we hear is a knockout. He hopes to place it in full production shortly.

The ops hereabouts are beginning to show more buying action than they have thru most of the summer. The boys have complained about the falling off of receipts during the past few months but hope to see a big improvement with the coming of September. They are starting to place more new games out on their routes which is expected to be a good play stimulant.

Among the many coinmen seen in town this past week were: Lee Walker, Compton; Jimmy Sherrer,

Compton; L. R. Chase, Boulder City, Nevada; J. M. Maichele, Victorville; Art Weiss, Arcadia; Jerome Kerns, Hollywood; Durval F. Nowaka, San Bernardino; Ray Stewart, Tipton; Ben Korte, Glendale; Norman Glover, Bell; Glen McCarter, Beaumont; Ted Johnstone, Glendale; John A. Rogers, Lawndale; N. R. Voorhees, El Monte; Chris Torrez, Westmoreland; Ivan Wilcox, Visalia; Francis Baldwin, Visalia; Harold Tureen, Long Beach; I. B. Gayer, San Bernardino; Peter Shupp, Huntington Park; Jack Bahler, Inglewood; Al Cicero, Santa Maria; Buscher & Foy Coolidge, Ariz.; Lavern Worley, Southgate; Happy Clark, Downey; G. L. Catlin, Montrose; Anton Jeppesen, Maywood; Frank Abbott, Alhambra; W. E. Mason, Reseda; S. Metz, San Bernardino; Roy A. Peterson, Long Beach; and from Los Angeles were: G. C. Oakley, Harold Bettelman, Harold Meier, R. C. Jones, W. S. Patterson, Charles W. Lane, E. H. Butler, Gordon Roper, and Art Sternall.

Bud Parr of Solotone has been quietly working on a new music box which he has perfected and which, he informs us, is past the experimental stage. Bud believes it will prove to be in tremendous demand thruout the industry . . . Paul Laymon expects to be able to make deliveries of the new Bally "Draw Bell" soon. He has just received word of a large shipment having been sent to him from Chicago. Paul has overhauled and reconditioned a large number of games which he has on his showroom floors for sale to ops . . . Len Kelly of K & M Distributors plans on a trip to Omaha to open offices and salesrooms in that city. Fred Myers, now in Dallas, has done a swell job in getting things started in that city and plans on returning home within the next ten days. The boys are going right out after business and are selling direct to record stores and to phono ops.

Elky Ray of the Gold Coast Coin Machine Exchange is displaying the new Gottlieb "Daily Races," the new one ball, and the new five ball, "Superliner." He's reported taking many, many orders for future delivery . . . Warren Taylor of Mills Sales, now in Chicago, has closed a deal for the showrooms and shops formerly occupied by Mac Mohr. Mohr, however, will continue to occupy part of the store and shop for the line of fans he is distributing. Taylor informs us that he plans on remodeling the place and holding a grand opening sometime in early September.

Nels Nelson, distributing the new "Strikes and Spares," tells us that Ed Johnson is about to close a deal for the manufacture of the new game on the West Coast and that the production goal is set at 1000 completed games per month. Ed praised the valiant campaign of "The Cash Box" to help ops stay in business by revising their operating commissions. Johnson tells us that the policy of his firm is to sell the equipment with the provision that the operator get no less than 65% with 35% to the location . . . A little bird tells us that H. M. De Govia of Dee's service is working on a new music box and has just about completed his first sample. According to all reports, it has definite possibilities. The boys are really keeping themselves busy in this town

THRU THE COIN CHUTE

MINNEAPOLIS ST. LOUIS

In town for brief visits are Larry Unise, Twin Brooks (S.D.), J. Alberti, Glasgow (Mont.) and Paul Felling, Sauk Center (Minn.) . . . Solly W. Rose, alert chieftain of the record division at Hy-G Amusement Company, this city, passed last week on a vacation tour in Canada. He paused long enough in Duluth, however, for a chin-fest with the lads at Twin Port Sales Co. and the Arrowhead Fireworks Co., both located there . . . Ralph Meyers, ace mechanic for Harry Johnson of Mitchell (S.D.), vacationed here.

In the record picture: Robert More of Willmar (Minn.) reports that his new record shop is doing very well, with the sales figures on the rise every passing week . . . Stan Woznak of Bowlus (Minn.) also has been bitten by the bug and will soon throw open the doors of a new platter shop in Little Falls (Minn.) . . . And still another coinman to be opening a beautiful record store is Don Hazelwood of Aitken (Minn.) . . . With so many new radio-phonos being bought around, how can they miss?

R. E. Aherin of Lamoure (N.D.) in town for the first time in many, many months . . . Twin Ports Sales Co., Packard distrib for the twin cities territory, are now open for business in Minneapolis and are conducting a service school this week . . . More school days: The Hy-G Amusement Co., distributing International Mutoscope Company's Voice-O-Graph in this area, held a service school for the equipment just this past week.

Fred Norberg of C & N Sales, Mankato (Minn.), in town visiting relatives . . . Gil Hanson, also of Mankato, came to town for a single day . . . Alvin Pence of the Automatic Piano Company, located here, recently returned after a seven week trip to the West Coast. Earl McFarland recently joined the firm after five years with Glen Vangen . . . R. L. Kuehmichel of Brainerd (Minn.) was a recent visitor to Minneapolis . . . Roger Litchfield, who started in the operating business just six months ago, is reported doing a bang up job . . . Ray Gluth of Rush City (Minn.) is out of the operating biz again. He sold his route to Stanley Matijas . . . Another change in management resulted when Julius Koers, owner of the Rushmore Amusement Company sold his Rapid City route to Cy Longsdale, owner of the Modern Music Co., Rapid City (S.D.)

Ed Marcoux of Red Lake Falls (Minn.) was a recent visitor here. Just as a matter of record, Ed's parents were the first settlers in Red Lake Falls . . . Ralph Skinner of Glenwood (Minn.) was another to come to the city for a visit . . . So were Mr. and Mrs. Andrew Markfelder of Staples (Minn.) . . . and George Atol of the P. & M. Sales Co., Superior, (Wis.) . . . and Leo Barkowitz of the B. & B. Novelty Co., also located in Superior . . . Jules Dirckx of Marshall (Minn.) is reported back on his feet and feeling better . . . Bush Distributing Co. are now in their new quarters with Ted Bush very proud of the whole thing — and for good reason. Ken Willis and Ozzie Trupman of the firm are busy on outside territory.

The middle week in August was certainly the most rainy in most operator's memories—7.8 inches falling in a single night, and causing floods which swirled away three phonographs and a dozen pinballs in low-level locations. "It's that damned bomb" people were heard to growl here and there."

Big news of the week is announcement of a special course in phonograph operation, repairs and general maintenance which Olive Novelty Company will offer St. Louis ops and mechanics on September 3 and 4. The boys will learn the details of the Packard phonograph when Mr. Logan of Packard Manufacturing Company mounts the rostrum. Five classes will be held during the two days. Ben Axelrod, head of Olive Novelty, is inviting any and all operators to sit in for the first time—to learn to make simple maintenance adjustments on their routes. Many have already responded, Ben states. "High time operators got a little grease on their fingers themselves" was the general theme.

A new Rockola was delivered to E. Summey of Sullivan, Missouri, this week, to found a long line which Summey plans to buy . . . Lee Turner of Ace Novelty Company is on a buying spree — he has smoked out a few pingames and phonographs which all became available at once . . . Another new Rockola owner is Frank Ballogg of Springfield, Illinois, who toted one off last week from Ideal Novelty . . . Priscilla Roebing, who formerly presided over the front desk at Ideal, left August 10th for matrimony — we didn't get the new name . . . Jim Malin is passing out cigars again—his second baby boy.

Tragedy hit Hudson-Houser Company over at Centralia (Ill.) when one of the company employes, attempting to fix an electric pump during the flooding rainstorms of last week was fatally electrocuted. Rumor has it that similar deaths occurred the same night . . . W. B. Novelty Company suffered some damage during the same rain, water seeping through the roof, soaking plywood and plastic on equipment in storage.

The Missouri Amusement Association has announced the next meeting will be held September 10—when cooler weather sets in. The opening conclave of the autumn season will be fraught with important decisions, according to president Lou Morris, who expects a record enrolment this year . . . Incidentally, Morris Novelty Company is currently completing a new building at 3007 Olive St. This will be 50 x 85 feet, including completely air conditioned offices and shops which are a novelty in the coin machine field here. Owner Lou Morris will continue to distribute Genco products and will job several other lines.

Jack Rosenfeld, J. Rosenfeld Co., working like mad to keep up with the demand for Bally games . . . Dan Baum, Baum Distributing Co., is attracting lots of attention in these parts with his new phono pedestal.

And Art Paule of Ideal Sales finally got a haircut!

WHY
cut your profits?

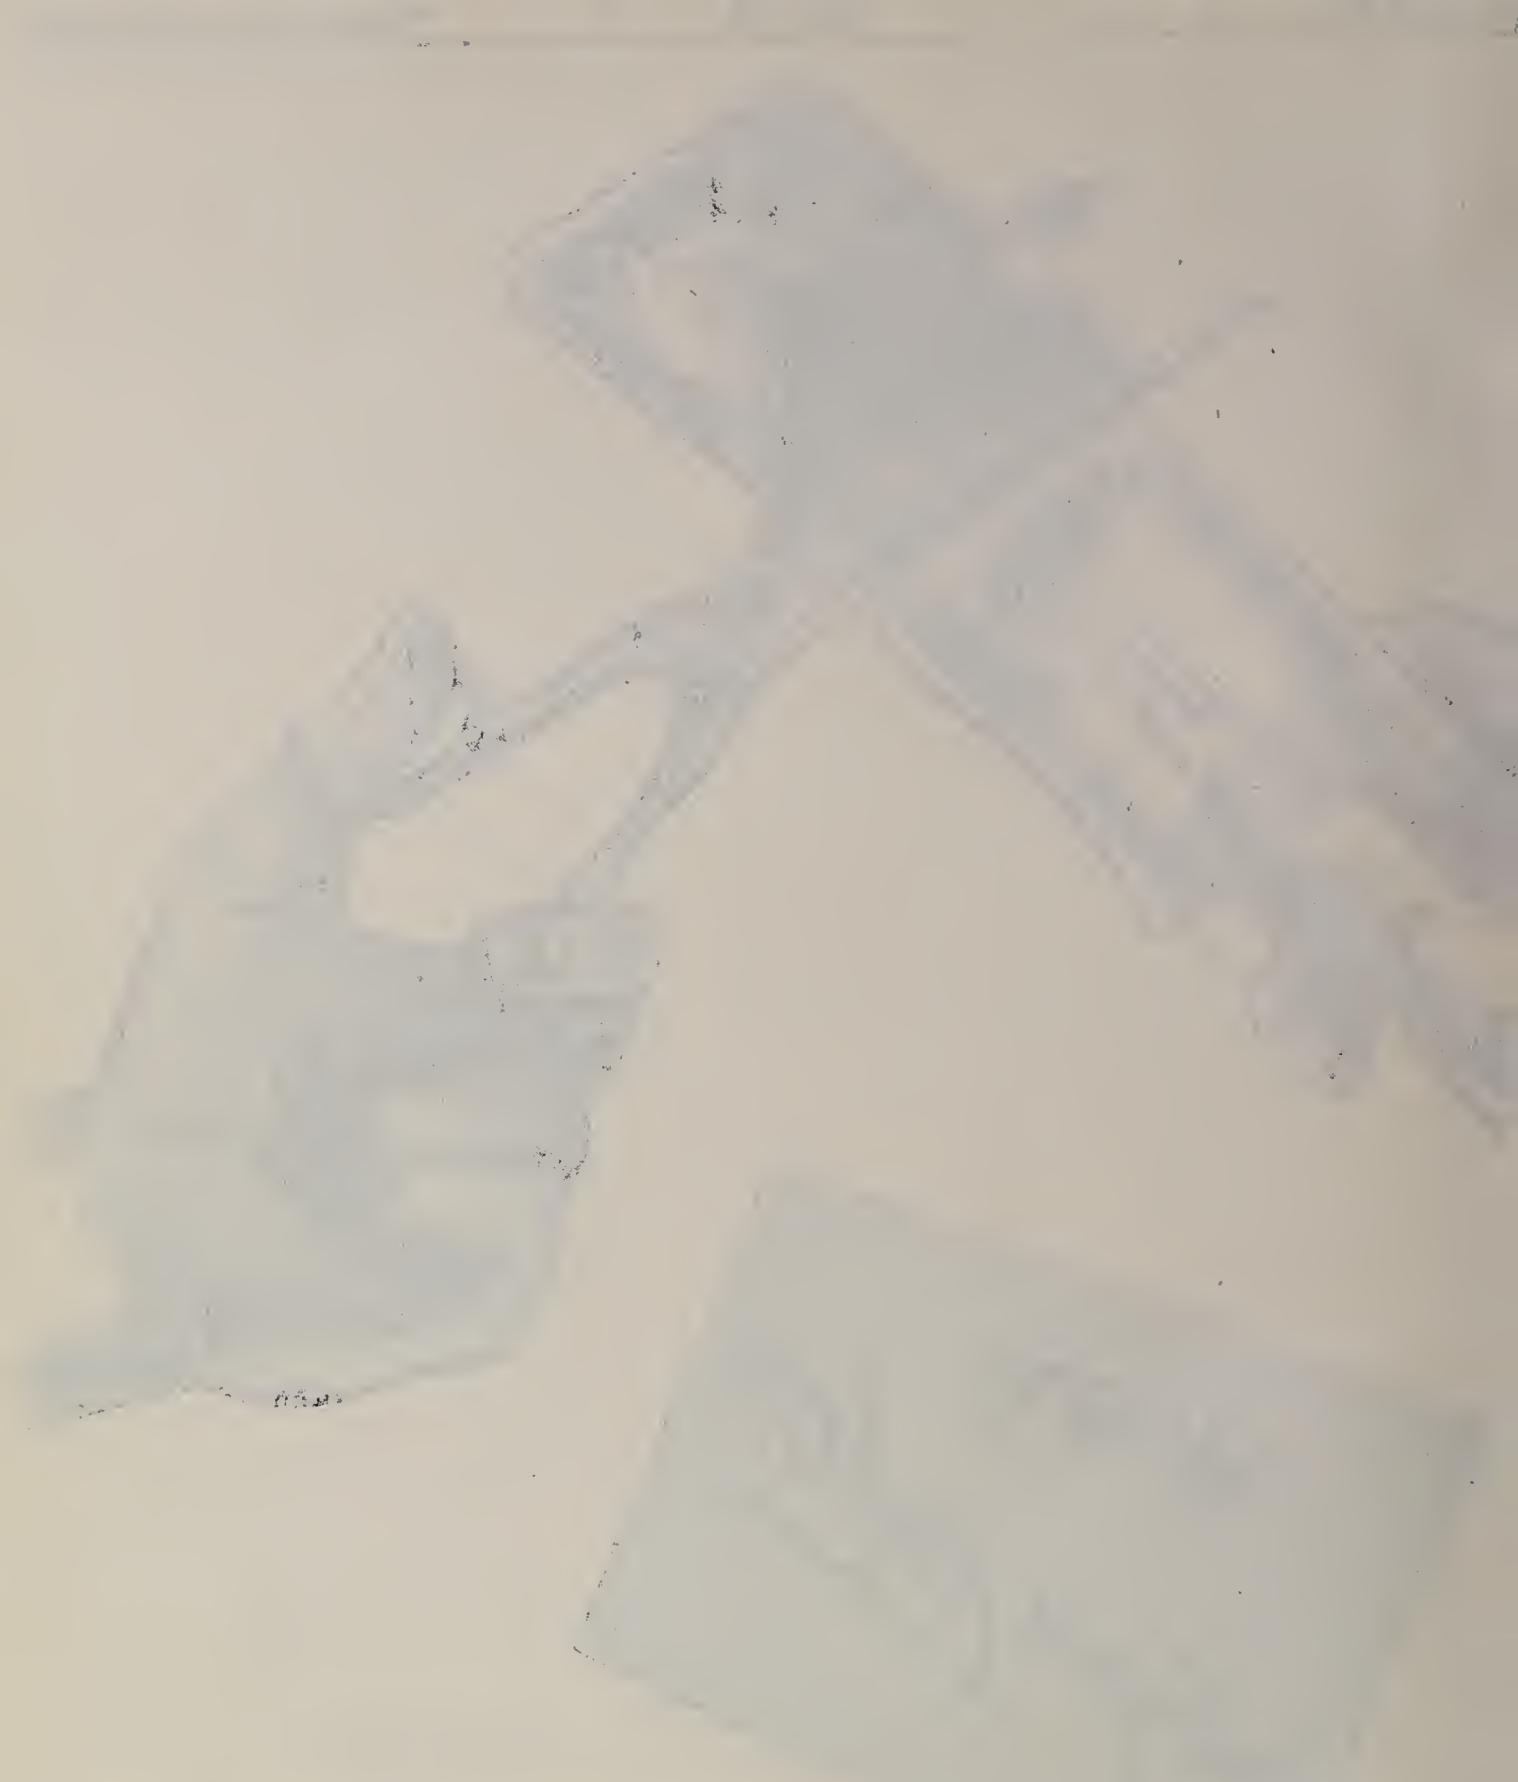

You're doing just that if you are not cashing in with Solotone. Individual music systems have proven that they are the biggest money makers in automatic music history . . . and Solotone — because it alone has *both* nickel and dime chutes — can earn up to *30% more* than any other individual system.

Solotone can give you the biggest *take* in automatic music . . . and Solotone will back you up with trouble-free equipment that has been designed and built to last a life time. Get the complete story today.
