Charles Continuing Disk Sales Climb

Sales marks were set again last week by the double-barreled hits by Ray Charles, one the LP "New Sounds in Country and Western Music," and the other the single "I Can't Stop Loving You." By the end of last week sales of the single were reportedly over the 700,000 mark, and the trade expected it to pass a million in a short time. Impact of the single can be ascertained by noting that in the Miami market the ABC-Paramount distributor had as of last week moved over 50,000 singles, and the Atlanta distrib had moved over 60,000. The single moved to No. 4 on BMW's "Hot 100" chart this week and the album to No. 5 on the monaural chart.

Business ranged from good to excellent in a flock of major markets last week, including Los Angeles, Seattle, Milwaukee, Washington, Philadelphia, Minneapolis, Dallas and New York. Other interesting news included more independent RCA Victor distributors taking on outside labels, continuing a trend that has been going on for the past few months.

Los Angeles in Spectacular Boom

LOS ANGELES—Disk sales volume here last week took a spectacular leap forward, with most dealers in BMW's survey claiming gains of 100 per cent over the previous weeks. A substantial share of the credit belongs to the Mother's Day holiday, which stood for far more record business this year than in the past. Greatest increase was in the album business, which had been comparatively lethargic when compared to singles sales.

Singles held their high level, with some reports showing gains on that score as well. However, the big break-through was in LP's, which sent the dollar volume soaring. Sample dealer statements reflecting disk business conditions here:

Music City's Clyde Wallich: "The business broke on Friday and stayed that way to give us the biggest weekend of the year. . . . Sales about doubled the business we have been doing the past several weeks."

Sight & Sound's Jerry Johnson: "Record sales jumped by at least 100 per cent this past week. Business was primarily in LP's, but singles held up well, too."

Arcadia Music's Dick Smith: "It was a sensational Mother's Day weekend, running in volume a little over 50 per cent ahead of same holiday period last year. Usually, Mother's Day is good for the record business, with the weekend showing about 30 per cent ahead of normal. This year we more than doubled a normal weekend's volume."

St. Louis Racks Up Mild Gains

ST. LOUIS — The record business has enjoyed a mild increase in recent weeks here. In addition, some dealers report that transistor radios and phonos have also been in increased demand at the retail level.

The pace of disk activity is being identified in many circles with the high level sales of Ray Charles' country music album, and his current single from the album, "I Can't Stop Loving You." Dealers said that Charles has become the major current traffic builder, having taken the place of such other recent album entries as Elvis Presley's "Blue Hawaii," and Henry Mancini's "Breakfast at Tiffany's" in this respect.

Another dealer commented on the recent re-issue of Jimmy Forrest's "Night Train" as another strong factor in the surge. Gary Skatoff of Melody House noted that for two years he has been getting requests for the disk, originally out on the United label, but that until now he couldn't lay hands on a single copy. Now, United Artists has acquired the disk and it is out on the UA label. "Since then," Skatoff said, "I've been selling it steadily."

Bob Decker, at Interstate Supply (RCA Victor) outlet here, said business has been good in May, with the month's sales quota realized by the end of the first 10 days of May. Decker said the firm now is handling the Philips line as well as Victor.

Ray Keeps Baltimore Sales Moving

BALTIMORE—Sales on singles and albums were slightly up here last week, with Ray Charles' new smash, "I Can't Stop Loving You," leading the way. (Continued on page 8)

Excise Figures Confirm Growth

WASHINGTON—Internal Revenue Service almost, but not quite, managed to produce correct figures on record manufacturers' excise for its release of first quarter excise for 1962. The correct quarterly excise, which actually represents manufacturers' sales for final quarter of 1961 (there is a three-month lag between collection and reporting by IRS), should be \$7,589,000 instead of the figure of \$9,074,000 given in the current IRS release.

IRS revealed the correct figure in response to a query from BMW's Washington Bureau. The agency said it plans to put out a correction release immediately, although this was not done on the IRS error made in the October-December, 1961, quarterly figures. The latter error was also discovered and reported by Billboard Music Week, issue March 10.

Correct Figures

The excise tax total for the fiscal year to date (July, 1961, through March, 1962) is given as \$17,670,000. IRS says this total is correct. Both the quarterly and the nine-month fiscal totals are up over the same periods last year. First quarterly report for 1961 was \$5,825,000, which was \$1,764,000 below this year's first quarter; first three-quarters of fiscal 1961 totaled excise of \$16,060,000, which is \$1,610,000 below the fiscal 1962

RIAA REPORTS ALL-TIME HIGH

NEW YORK — The RIAA reported last week that retail sales on phonograph records in 1961 exceeded \$500,000,000, establishing a new all-time high. Stereo recordings accounted for close to 40 per cent of total LP sales in 1961, as compared to 26 per cent in 1960.

The RIAA report, based on manufacturers sales data correlated with studies by government agencies, said that total volume at list price value in 1961 totaled \$513,100,000, as compared with \$480,000,000 in 1960—an increase of nearly 7 per cent.

The RIAA report estimated that of this sales total, about \$415,600,000 represents LP sales and \$97,500,000 represents singles (both 78's and 45's) and EP's.

period. (Fiscal 1962 runs from July, 1961, through June, 1962.)

Excise for January-March, 1962, indicates a volume of manufacturers' taxable product of \$75,890,000 on sales made during the October-December, 1961, quarter. (Only actual sales are taxable, not free merchandise for promotion, etc.) Excise of July, 1961-March, 1962, indicates taxable sales of \$176,700,000.

Billboard: Sales Over \$560 Mil.

NEW YORK — Billboard Music Week's Research Department estimates that total industry dollar sales for 1961 reached an all-time high and are in excess of \$560 million and could be as high as \$587 million. This range is given only because of lack of specific figures on record club sales. Record club sales are estimated by many in the industry to be between \$75 million and \$100 million.

Billboard's estimate is based on store sales in 1961 being slightly in excess of \$300 million (approximately 52 per cent of total business); rack jobbers in 1961 registering approximately \$140 to \$150 million dollars (approximately 25 per cent of total dollar volume); juke box operators buying approxi-

Senate Study Of Copyright Business Slated

To Probe Who Makes Money and How Much

WASHINGTON — Who makes the money and how much they make in copyright-based business will be the subject of a study by the Senate Subcommittee on Patents, Trademarks and Copyright. Sub-Committee Chairman John L. McClellan has launched his staff on a study of certain areas of the general revision of the Copyright Act as proposed by the Copyright Office. A "major area" of the study will examine the "economic importance of the various aspects of copyright."

In the sub-committee's annual report to Congress, McClellan notes that the 50-year-old copyright laws of the U. S. are "badly in need of revision." For the benefit of legislators, the sub-committee report gives a concise list of Copyright Office recommendations contained in its first revision report.

One of the recommendations is an end to compulsory licensing. Compulsory licensing allows anyone to record a copyrighted work which has had one recording by permission of the copyright owner. The only requirements are notice to the owner, and payment of a

Stereo FM Gains, But Gimmicks Out

By JUNE BUNDY

NEW YORK — Stereo FM broadcasting has made tremendous progress since the FCC okayed it just a year ago. Today, more and more disk manufacturers are cognizant of the sales impact of exposure on stereo FM stations. The result is that FM—heretofore treated like a stepchild by the disk industry—is rapidly becoming a key promotional target in the album field—without the "ping-pong" gimmicks once used.

Stereo FM also will play an important role at the upcoming World's Fair of Music and Sound in Chicago this summer (August 21-September 9). Several stations will air Stereo FM broadcasts from the fair, and panel discussions touching various aspects of Stereo FM are set up as key items on the agenda.

A recent Young & Rubicam survey reported that more than 10,000,000 households are tuned to FM radio at some time during the average week. More than 95 stations are currently broadcasting Stereo FM in 36 States. It is expected that 300 stations will be

carrying stereo FM broadcasts by this fall, with some traders predicting that ultimately all FM stations will become Stereo FM-ers. The Electronic Industries Association (EIA) estimates that 40 per cent of the country's population—about 70,000 persons—is in range of at least one of these stereo FM broadcasts.

Big Sales Jump

In line with this, L. M. Sandwick, of the Electronic Industries Association, recently reported that during the fourth quarter of last year stereo phonograph sales exceeded 40 per cent of total disk volume, as compared to 26 per cent of total disk business.

The majority of FM stations still pay for their records by LP subscription plans, but there is a growing trend for manufacturers to present key FM outlets with gratis wax. As competition increases for exposure on FM—particularly Stereo FM—more and more manufacturers are bound to adopt gratis-wax policies for FM broadcasters.

For example, United Artists now

Music World's Fair to Probe Trade Ideas in Panel Gabfest

CHICAGO — Record retailers, phono equipment merchandisers and radio program directors will air problems and exchange ideas in separate panel discussions to be held at the World's Fair of Music and Sound to be held here at McCormick Palace, August 31-September 9.

Directors of the fair have revealed the topics to be discussed in each of the sessions. Slated for discussion by record merchandisers are: "How to buy records and set up a simple inventory program," "How can the record store profitably diversify?" "How the department store sound department can compete successfully," "Organizing a profitable trade-in program" and "Ways to economically organize and efficiently run a service department."

A topic on the agenda of the phono retailing seminar is "Ways to Move Dead Stock." Among the topics for radio programmers are: "Programming automated stations," "Successful use of personalities" and "How to handle the special problems related to FM stereo."

In addition to these conferences

the show will offer symposiums on music subjects led by well-known artists, composers and music authorities.

Another Fair of Music and Sound feature will be a "live vs. recorded sound" demonstration by the Fine Arts Quartet. The quartet will tape its entire program in advance and at intervals during its live performance it will let the tape—to be played through a quality components system—take over. Acoustic Research will sponsor the performance, to be held nightly in the McCormick Place Little Theater.

La Price Not Right; Marek Pays Off Buck

NEW YORK — George Marek, RCA Victor Records chief, emulated Verdi last week and sent a personal check to a dealer in accordance with a money-back-if-not-satisfied offer on Leontyne Price's new Victor recording of "Aida."

Last March, Marek wrote to more than 500 dealers, advising them that in 1872, Verdi refunded the price of his ticket to a disgruntled opera patron who hadn't liked a performance of "Aida." Marek made the same offer, only in this case he promised to send his personal check for the dealer's cost of one "Aida" album (\$11.13) to any dealer who wasn't "thrilled and excited by it."

Only one dealer, William C. Buck, of Fargo, N. D., took him up on the offer. Buck said he preferred the Tebaldi and Milanov versions.

Marek, however, expressed satisfaction over the promotion, purpose of which was to get the dealers to listen to the recording. The results, he said, indicated the dealers did just that.

FTC Slates Issue Of Trade Rulings

WASHINGTON—The "don'ts" of unfair business practices will be decided and issued by the Federal Trade Commission as new rules, beginning June 1 of this year. This new way of prohibiting unfair practices before they become the subject of possible individual action will supplement the FTC's regular Trade Practice Rules, Commission Chairman Paul Rand Dixon announced last week.

The new-type preventive rulings against unfair practices will be based on two things: the FTC's own knowledge of the conditions, plus requests of businessmen for advice on whether a proposed practice will go counter to laws administered by the FTC. The new procedure will be fast and flexible. The FTC reserves the right to change its mind and revoke any rule green-lighting a practice that later turns out to be against the public interest.

Advice to inquiring businessmen has customarily been given at staff level, but will now get official Commission ruling when the situation warrants it. The Commission may also issue rules when it is in disagreement with a hearing examiner's findings or when it believes that an individual case has broad application to many similar situations. The last aspects eliminates "the necessity of proving again and again that the particular practice is unlawful," says Dixon.

Blanket Ruling

The new approach may have significance for the record industry, which is awaiting possible complaint or consent action outcome of a two-year investigation by the Commission into allegedly anti-

competitive practices. A blanket "don't-try-it" ruling against certain practices for industry becomes more possible after June 1. It could be more preferable than a succession of individual complaints and consents, such as occurred in the payola crackdown by the Commission. Some record companies got off the payola hook via interim legislation, while others were branded with individual complaints which seemed unfair to them under the circumstances.

The process of administering the new preventive method will come under the FTC's Bureau of Industry Guidance, headed by Bryan H. Jacques. A public hearing may be held in cases where the FTC believes it necessary, before issuing

Manufacturers Give Views on ARMADA

HOLLYWOOD—Manufacturers here who belong to ARMADA appeared willing and eager to have the distributors gain control of the organization, or at least have an association of their own. Typical comment:

Al Bennet, president, Liberty Records: "The interests of manufacturers and distributors in many respects are widely divergent and can be best pursued if these are treated within their respective organizations. Distributors definitely should have their own organization, whether it's a separate part of ARMADA or ARMADA itself, but an organization composed of often conflicting groups such as distributors and manufacturers becomes bogged down in an effort to satisfy both sides, and ends up making little progress."

Mo Ostin, administrative head of Reprise Records: "From its inception, I felt that ARMADA was considerably weakened by attempt-

ing to represent both distributors and manufacturers. It would be good for the industry if the distributors had their own association where they could thrash out their common problems and not attempt to do this in the same room when manufacturers are trying to seek a solution to their own ills."

Guy Ward (Guy Ward Associates) disk manufacturers' rep who earlier (BMW, October 30) called for a separate organization for small labels: "For the general well-being of the industry and certainly for the protection of the individual manufacturer and distributor separate organizations dedicated to the purpose of protecting its own while striving for measures that would offer industry-wide help is the answer. There should be a distributor organization, and one for the smaller labels to help establish them on a solid footing in the record market."

Rights Subcomm. Favors Revised Counterfeit Bill

Celler Proposals Call for Criminal Liability and Extension of Copyrights

By MILDRED HALL

WASHINGTON — The Celler Bill to penalize record counterfeiting, cut down to one section, but still a boon to record manufacturers, was reported favorably to the full Judiciary Committee last week by its Subcommittee on Copyrights. Just as rapidly, in the wake of hearings held earlier this month, the Willis (D., La.) Subcommittee also passed on the Celler Bill to extend copyrights for works soon due to fall in public domain. The originally requested five-year extension was cut to three years.

Both bills are expected to be taken up early this week by the full House Judiciary Committee. Rep. Emanuel Celler (D., N. Y.), author of both bills, is the chairman. The going may get rougher for the bills in the full committee. However, a quick and favorable report by this group could put the legislation in line for possible passage before the end of the congressional session.

MCA Offering Stock Exchange On Decca Shares

NEW YORK — MCA, Inc., is making an exchange offer to holders of outstanding shares of Decca Records stock. Each Decca share is exchangeable for one share of new MCA convertible voting preferred stock (\$1.50 annual dividend cumulative), plus one-third share of MCA common. The preferred stock is convertible at any time to one-half share of MCA common and is not callable before January 1. On liquidation, stock goes for \$32 a share.

The Wall Street firm of Lehman Brothers is heading the group of dealers which will solicit the exchanges. The offer expires June 16 but may be extended to no later than July 31. The offer is also conditioned upon acceptance by holders of at least 80 per cent of Decca shares.

Record manufacturers will be happy over the retention of the anti-counterfeit section of the bill, which bases criminal liability on fraudulent or forged labels. This is all that is left of the original bill, which would have penalized unauthorized recording (pirating) and would have revised the Copyright Law itself to provide full civil damages for record infringements. (BMW, May 19, 1962.)

Music publishers will mourn the deleting of the copyright amendment which would have entitled them to recover full damages instead of limited mechanical royalties for record infringements. The subcommittee also took out the section of the bill making "unauthorized recordings" criminally liable. Both the Copyright Office and the broadcasters opposed this. The latter felt broadcasters might be penalized for minor or unwitting infringements by tape recording for automatic programming.

Shave Off Two Years

The Celler Copyright Extension Bill which would give protection through 1967 to copyrights soon due to expire—many of them old ASCAP standards — has been cut back to a 1965 deadline. This is in line with Copyright Register Abraham Kaminstein's request for a shorter period, in order to maintain urgency for the complete copyright revision hoped for in the next few years. The revised Copyright Law may extend the present 56-year total to 76 years.

Fines and/or Prison

The Celler Bill to penalize record counterfeiting as amended now adds the following provisos to the U. S. Code:

"Whoever knowingly and with fraudulent intent transports, causes to be transported, or receives in interstate or foreign commerce, any phonograph, record, disk, wire, tape, film or other article on which sounds are recorded, to which or upon which is stamped, pasted or affixed any forged or counterfeit label, knowing the label to have been falsely made, forged or counterfeit, shall be fined not more than \$10,000 nor imprisoned more than 10 years or both."

Distrib Drive to Take Over ARMADA Steams Ahead in All Areas of Country

Coast Sounds Rousing 'Aye'

By LEE ZHITO

HOLLYWOOD — Distributors and several Coast-based manufacturers who belong to ARMADA last week unanimously threw their weight behind the pre-convention groundswell to have distributors wrest the reins of ARMADA (BMW, May 19). A BMW survey of the area's leading distributors found them all heartedly in favor of their faction taking over the control of ARMADA of forming a national distrib association of their own.

Sample distributor opinion (for manufacturer comment, see separate story):

Abe Diamond (Diamond Distributing): "I've withdrawn from ARMADA because I couldn't see that it was attempting to fight any of the industry's evils like transshipping, discounting, manufacturer-direct selling. Things were discussed only at the manufacturer level, and nothing was done to help the distributor. If the distributors took over, I would really be in favor of returning to ARMADA. I'm getting fed up by being squeezed by the racks for an extra discount while being told by the racks that it's inevitable and only a question of time before they'll be buying direct from the manufacturers. These are the problems that can be treated in a distributor-only organization."

George Hartstone (Hart Distributors): "I'm definitely in favor of distributors having their own organization, whether it's ARMADA or a new organization for distributors only."

Favors Local Chapters

Sid Talmadge (Record Merchandising): "I'm all for a national distributor organization. What's more, I'd like to see this organization comprised of local chapters consisting of distributor groups at the local level. This would give strength to the local groups and, in turn, the national group would be that much stronger. It hasn't made any sense to bring manufacturers and distributors together in a single organization when their specific problems are so widely different."

Roskin Buys Out Seaboard Distribbs In Hartford Area

HARTFORD, Conn. — Roskin Distributors here has bought out Seaboard Distributors, also of this city, along with Park Records, a rack jobbing and one-stop subsidiary of Seaboard. Roskin had been Columbia Records' distributor for many years for this sector as well as for the Albany and Buffalo areas. This arrangement came to a close when Columbia opened its own Hartford - Buffalo branch, April 1.

Ed Stein and Marv Ginsberg, both 14-year veterans of the Seaboard operation, will continue their functions under the new set-up. Stein heads up the rack and one-stop wing, while Ginsberg will operate the indie distributorship. The lines being handled by the new combine include Mercury, Philips, Roulette, Atco, Atlantic, Dot, Liberty and the Chess-Checker-Argo axis.

Roskin will continue to serve the up-State, Eastern and Central regions of New York through resident salesmen working out of Albany. No immediate plans have been set for Buffalo.

That has been the primary weakness of ARMADA."

Al Sherman (Record Sales): "Nothing concrete can be accomplished when both distributors and manufacturers sit around the same table within an organization. While at an over-all industry level the problems of one are also the problems of the other group, basically the specific issues that face the day-to-day business of a distributor is widely different from that facing the manufacturer and therefore each should treat his own issues at his own organization's meetings."

Al Lauska (Sun-State Distributors): "There has to be separate groups to air the problems of manufacturers as well as distributors. When you bring the two together, nothing can be achieved because each tends to blame the other for the problems that face all of us. I'm in favor of a distributor organization and will support it when one can be formed."

Leaders Seek Strong Exec

By BOB ROLONTZ

NEW YORK—The movement on the part of key indie record distributors to take over control of ARMADA is moving ahead at full steam (BMI, May 19). Reports indicate that all of the distributors who received a letter from a key ARMADA distrib asking for support for the move have reacted favorably.

Basically, the distribbs leading the drive for a distrib-controlled ARMADA feel that in these critical record business times, it is essential for distribbs to have their own organization. The distribbs do not want manufacturers to pull out of ARMADA (distribbs and manufacturers are equal partners in the trade organization). They do want the record companies to accept associate membership in a distrib-led outfit.

Right now the distrib leaders are looking for a strong executive to take over the position of paid executive secretary of the new ARMADA. They want a man who is able to withstand the pressures that will be put on him from all sides. He should be able to hammer out a code of fair practices for manufacturers and distributors to follow.

Names Put Forth

Already a number of names for the position have been suggested by the distribbs. Some of them are fellow distributors; one is a well-respected industry name with long experience in the music field. It is expected that feelers will be put out to all of these prior to the ARMADA convention.

It is interesting to note that a number of manufacturer members of ARMADA are sympathetic to distribbs' desire to control the organization. Some manufacturers have said, privately, that distribbs are entitled to their own organization and that manufacturers have an association of their own in the RIA.

Surprisingly, it is distributors themselves who have been, until recently, reluctant about changing the character of ARMADA. (Continued on page 41)

HAS THE TWIST HAD IT?

Trade Sees Fad Fading Fast

By JUNE BUNDY

NEW YORK—The Twist appears to be on its way out as a national fad, but as a dance it's here to stay. A new trend may be developing, according to many tradesters around the country. It might very well be rhythm and blues and/or rock and roll interpretations of country material, spearheaded by Ray Charles' current smash hit single "I Can't Stop Loving You," and his equally sock LP "New Sounds in Country and Western Music."

Twist star Chubby Checker's recent tour is cited by many as proof that the Twist has had it. Harried by poor bookings, high overhead and disappearing promoters, Checker has "bombed" at the box office in many cities where only a short time ago he was a top draw.

Cited as a further indication that Twist is on the down-grade was a report that best selling Twist star Joey Dee's new movie, which formerly featured the word Twist in its title, is now called "Two Tickets to Paris."

Quietly Folded Label

Also deemed significant by some tradesters was the fact that Atlantic Records, which launched a new Twotime Records label (featuring only Twist platters) a couple of months ago, has quietly halted releases on the label.

Some of the numerous Twist clubs, which opened last fall when the Twist craze first caught on, are

finding it rough going today, particularly in cities where the Twist has been around the longest (i.e. New York, Philadelphia, etc.).

George (Hound Dog) Lorenz, syndicated rock and roll deejay, commented "Aside from the few big Twist stars, Twist records have become a dime a dozen." Lorenz, along with many others in disk-deejay circles, said he thought the next big trend will be "country-flavored music sung by rhythm and blues artists," a la Ray Charles. Many indie labels are getting ready to follow the Charles' lead, which may bolster the trend.

Such diversified authorities as TV star Kathryn Murray (wife of Arthur, the dance school king); syndicated society columnist Igor (Cholly Knickerbocker) Cassini, and William Morris booker Roz Ross maintain the Twist is here to stay as a dance—along with the waltz, fox trot, rumba, and the cha cha.

Still Large in Europe

Mrs. Murray, who recently returned from an extensive European trip, said that the Twist is still very big in Europe, and that it has been integrated into the Arthur Murray School dance courses as a regular specialty, along with the cha cha and the mambo. However, Mrs. Murray pointed out that the Twist is such an easy dance to learn that most pupils pick it up in one lesson.

New International Disk Combine Sets Up N. Y. Office; Shoots for Overseas Clients

Joe Zerga Heads Transglobal Music Publishing Firm; Britain's EMI, 50 Other Foreign Accounts in Fold

By REN GREVATT

NEW YORK—A new international disk and publishing combine has been formed here. Principal of the operation, to be known as Transglobal Music, is Joe Zerga, most recently professional manager of Bourne Music, and formerly head of EMI publishing operations abroad. Counsel for Transglobal is Paul Marshall, who originally made his name on the music scene several years ago as architect of the Top Rank International disk co-operative.

Transglobal will headquarter in New York in offices adjacent to those of attorney Marshall. It hopes to draw clients from scores of foreign countries.

The firm, Zerga explained, will

New Epic Discount Plans Cover Pop, International LP's

NEW YORK—Three best selling Epic pop albums and the company's international sets figure in a special LP discount program set up by the company from May 21 through June 29.

A 10 per cent discount is being offered on "George Maharis Sings," Roy Hamilton's "Mr. Rock and Soul" and the Ralph Burns instrumental reading of the "No Strings" score. A 15 per cent discount is being offered on the label's entire international catalog. The discount also applies to six new albums being added to the catalog. Among those titles are "The Twelve Greatest Hits—San Remo Festival, 1962," "Pasodobles" and "The Newest Israeli Singing Sensation—Rika Zarai."

Epic is also offering special display material including individual counter browser boxes designed to hold 40 LP's to dealers and distributors. Window display pieces, counter sheets, and color posters are being keyed to an "International Music Tour" theme during the sale period.

On the talent front, the label confirmed the signing of Adam Wade to a long-term contract. Joe Rene has been assigned a.r. supervision of the Wade dates.

Kobler Goes Off Air To Join Perri Disks

NEW YORK—Gene Kobler, known in the music trade as Gene Kaye, a deejay on WAAT, Trenton, N. J., has relinquished his on-the-air chores to take a post with the recently formed Perri Records.

Firm President Richard Osias said Kaye will act as an administrative and liaison man between the Perri label and such associated entities as the Docir and Pao publishing firms and Janel Enterprises, an artist management firm. Kaye also will establish Puerto Rico offices for the firm and will set up pressing arrangements there.

PRAGER LEAVES SESAC GM POST

NEW YORK—E. S. (Bud) Prager, general manager and assistant to the president of SESAC, has left his post with the licensing organization.

No replacement has been set. Prager has not revealed his future plans.

act very much as a broker. That is, it will bring buyer and seller together, taking its fee either in terms of a flat sum or as a percentage or royalties.

"It will work the way records are handled here in the States when one company buys a master from another," Zerga said, "except we'll be operating on behalf of a buyer in one country and a seller in another."

The firm, unlike others in the past, also expects to work with copyrights as well as records. It will represent foreign publisher

clients here and will also arrange deals for placing of rights to foreign copyrights with publishers in the United States and vice versa.

Nonexclusive

All deals made with firms, publishers or record companies, will be nonexclusive. That is, the existence of an agreement with a diskery or publisher in one country will not preclude transactions and client relationships with similar firms in the same country.

Transglobal has already acquired EMI as a client, plus other firms (Continued on page 14)

Big 3 Starts BMI Firm To Handle TV Writers

NEW YORK—The Big Three—the MGM Pictures music publishing subsidiary, consisting of Robbins, Feist and Miller, long pillars of ASCAP—has started a BMI publishing firm. The new BMI subsidiary is called Hastings Music. It will be a subsidiary of Robbins and will handle music from feature films and TV series where the music is clefled by BMI writers.

The Big Three move was presaged about six months ago, when Mickey Scopp, chief of the Big Three, indicated that the firm was considering a BMI subsidiary for the purpose of exploiting music from MGM and 20th Fox films and TV series penned by BMI members (BMW, September 25, 1961). According to the Big Three, the

new BMI firm will be handled within the organization. No separate professional manager will oversee the firm, but it will be under the aegis of Norman Foley, general professional manager of Robbins-Feist-Miller.

The move of MGM and 20th Fox into TV film production helped spur the new Big Three BMI subsidiary. BMI writers have supplied a lot of music, both theme and background, for many of the MGM and 20th Fox TV shows. A few of the writers for these shows had previously belonged to ASCAP and had switched to BMI over the past year or two. The Big Three's Hastings Music firm was set up to get monies from BMI that the Big Three ASCAP firms could not obtain.

The Hastings catalog already has music from 10 important TV shows. These include "Dobie Gillis," "Hong Kong," "Five Fingers," (Continued on page 14)

Verve Works Tie With Esquire on 'Sound Tour' Sets

NEW YORK—MGM Records has worked out a special cross-promotion, tie-in deal with Esquire magazine for a new "Sound Tour" album series on its Verve label subsidiary. The series consists of four "travel portrait" albums, featuring musical sound tours and impressions of four famed countries.

The packages carry the basic title, "Esquire Sound Tour," and cover France, Spain, Italy and Hawaii. Kenyon Hopkins composed and conducted the material for the four sets. Packages will incorporate a double gate-fold, and, with each set, there will be included an eight-page descriptive brochure of each particular country, penned by Richard Joseph, Esquire travel editor. Included with each package is an Esquire Travel Guide booklet, noting sights to see and things to do in each country.

Esquire's June issue will carry a double-page spread on the series. Verve is supplying dealers with special advertising and promotion kits which include mounted reprints of the Esquire ad, "Esqy's" die-cut window display cards, travel posters from France, Spain, Italy and Hawaii, window streamers and co-op ad mats for use in travel sections of daily papers. Dealers will also get a free sampler LP. Creed Taylor produced the set and Harry Anger co-ordinated the project.

Pete Souvall and Roy Peterson's Great Western Distributing firm has been appointed to handle the United Artists line in Salt Lake.

The United Artist subsidiary label Ascot named two new Texas distributors. In Houston the line will be handled by H. W. Daily, Inc., and in Dallas Big State is the new outlet.

BMI College Tunes Bought By Paxton Co.

NEW YORK—George Paxton, now sole head of Winneton Music and Coed Record (BMW, May 19) has purchased the Thornton-Allen college catalog from BMI. The catalog, which contains great college standards including "Roar Lion Roar," "On Wisconsin," "The Eyes of Texas" and "Washington and Lee Fight Song," has been handled by BMI for the past 15 years. It was sold to Paxton at a price in the neighborhood of \$50,000.

According to Paxton, he will incorporate the catalog, with its songs and educational and choral works, into his Winneton firm. He intends to wax songs for different colleges from the catalog, and sell college disks to campus stores. He also will issue folios of most popular college songs.

BMI sold its Broadcast Music catalog to Columbia Pictures a few years ago, and has been negotiating to sell the Thornton-Allen catalog for the past few months.

Bernard Braddon Goes to Mercury

NEW YORK—Bernard Braddon, veteran retail record exec with Liberty Music Shops here, resigned from the five-store firm to join Mercury Records as administrative director, classical division. Wilma Cozart Fine, Mercury vice-president in charge of the classical division, announced that Braddon would assist her in administration, merchandising and sales.

Braddon, a native New Yorker, was with Liberty for 17 years. He managed the record departments of all five stores and supervised all disk buying and record merchandising.

Braddon has reviewed pop and classical disks for various publications during his career and did undergraduate and graduate work in music at Cornell. During World War II he served in the U. S. Office of Censorship and prior to that operated an art gallery in New York.

WEEKLY MARKET ANALYSIS

Continued from page 1

Stop Loving You," the No. 1 local record in terms of radio play and sales. Runner-up to Charles (in both sales and radio exposure) was Johnny Tillotson's "It Keeps Right On A-Hurtin'." Aside from the above two disks, sales on singles ran moderate to slow. Milt Berson, buyer for Musical Sales, a leading one-stop here, said that dealers were buying again last week, though not heavily.

Among the newer releases, Berson said the following disks were showing some movement: Ray Anthony's "Worried Mind" ("Not in Baltimore but strong in the Tidewater area—Richmond to Norfolk, Va."); Lawrence Welk's "Baby Elephant Walk," Freddy Cannon's "Palisades Park," Joe Henderson's "Snap Your Fingers," the Castell's "So This Is Love," the Everly Brothers' "That's Old Fashioned," and Solomon Burke's "Down in the Valley."

Frances Jordan, music librarian of WCAO here, said her survey spots the Ray Charles' platter as the No. 1 disk, followed by the Tillotson. Also high on the station's list were "Air Travel" by Ray and Bob, "Cindy's Birthday" by Johnny Crawford, Cannon's "Palisades Park" and "Sound of the Hammer" by Vicki Tassel.

Cincy Outlets Battle Over Price

CINCINNATI—A small price war between a department store and a discount chain, and a Decca record by Bob Braun which has been a steady seller (although no breakout) made news here last week. Sales reports indicated that record action was spotty, ranging from slow to good, with singles stronger than LP's.

The price battle developed when the record section of Shillito's Department Store cut some LP prices to \$1.98 and \$1.89 to match a 50 per cent slash from list on some titles by Discount Records, a member of the Chesterfield chain of stores. The two outlets usually sell their pop albums in the \$2.78 to \$2.98 price range.

The action on the Bob Braun waxing, "Until Death Do Us Part," has built steadily in this city over the past few weeks but has never achieved the momentum to push it into the breakout category. Now, the singer's record is starting to get action in Toledo. Braun's main occupation is as a key WLW deejay.

On the distrib front, Jerry Weiner's Ohio Appliances, a long-time RCA Victor distrib, has added the Philips and London (including Monument, Hi, etc.) lines. Ed Huesman at the Cosnat branch here has taken on the liberty label.

Many Records Aid Detroit Sales

DETROIT—Sales were good here last week, particularly on singles, according to distributors and one-stops. Opinion was divided among dealers. Some said business was better while others complained it was down.

As in many other cities last week, Ray Charles' "I Can't Stop Loving You" was the big record here, followed at some distance by Connie Francis' "Second Hand Love," "Palisades Park" by Freddy Cannon, and Johnny Tillotson's "It Keeps On A-Hurtin'."

Also showing some action here last week — among the newer records — were Joe Henderson's "Snap Your Fingers," Bobby Vee's "Sharing You," Toni Fisher's "West of the Wall," Bertha Tillman's "Oh My Angel," Jimmy Smith's "Walk on the Wild Side," and an r.&b. item, Dan Gardner and Dee Dee Ford's "I Need Your Lovin'."

Chet Kajeski of Martin and Snyder, a leading one-stop here, reported a good initial reaction to Patsy Cline's Everest record of "I Don't Want Him" and "Your High School Days Are Over" by Irwin and the Jacks on Fairlane. The latter disk, said Kajeski, was getting a good local radio play because of its seasonal tie-up with upcoming graduations.

Release New Everest LP's

HOLLYWOOD — Everest Records, whose recent change of ownership (from Belock Instrument Corporation to Bernie Solomon) resulted in moving its headquarters from New York to Hollywood, is issuing two pop and eight classical LP's, its first album release since the firm changed hands. Pop wares include "Patsy Cline's Golden Hits" and "The Best of Gloria Lynne."

Since Everest moved here, the label has signed singles by its newly signed artist, Jackie Walker, and Patsy Cline's "I Don't Wanna" b.w. "I Can't Forget." The label last week made its official bow to the trade here under its new management at a press-disk jockey shindig honoring its artist, Gloria Lynne. The occasion, Miss Lynne's Coast debut, opening at Gene Norman's Crescendo.

As part of the new management group, Solomon appointed Harvey Goldstein as assistant to the president and artist and repertoire. Charles Hasin is national sales manager. Firm has relocated its New York offices.

Pete Seeger Contempt Conviction Reversed By Court of Appeals

NEW YORK — A contempt of Congress conviction brought against folk singer Pete Seeger a year ago was reversed by the U. S. Court of Appeals here last week (17).

The Seeger affair goes back to August, 1955, at which time the singer refused to answer questions put to him by a subcommittee of the House Un-American Activities Committee, which was investigating possible Communist infiltration of the entertainment industry. In March, 1957, a grand jury returned a 10-count indictment against Seeger and he was convicted in U. S. District Court last year.

The three-judge Appeals Court, in a decision written by Justice Irving R. Kaufman, upheld Seeger's contention that the original indictment was defective, in that it failed to properly state the authority of the House subcommittee to conduct the hearings during which Seeger was questioned.

Kajeski noted that operators are finding it increasingly difficult to keep up with local radio programming, because stations seldom concentrate play on the same disks anymore. Consequently, operators are under constant pressure to order more records and service boxes more frequently with no guarantee that there will be any large-scale demand for the new platters.

Kajeski also observed that CKLW's extensive country and western programming is still proving a big help in moving c.&w. wax over into the pop field here.

The success of Jimmy Smith's "Walk on the Wild Side" waxing has sparked renewed interest here in Brook Benton's waxing of the film title theme, according to Tommy Schlesinger of Jay Kay Distributing, even though Benton has since had another release, "Hit Record," on the market. Benton's appearance at Detroit's 20 Grand Club last week also helped boost his disks locally.

In the promotional field, Jay Kay staged a special drive last week on the "Mike Nichols and Elaine May Examine Doctors" album tying it with a Convention of Registered Nurses here. The distribution firm aimed its promotional pitch directly at the visiting nurses, building it around the slogan, "Take Home a Present for Your Doctor."

New Releases Help Spark N. Y.

NEW YORK — Strong new releases, mainly in the rock and roll groove, a hot new album and Ray Charles' album and single release helped spark a business pick-up for dealers and distributors in the New York and New Jersey area. One of the new r.&b. releases just getting initial action was the Don Gardner-Dee Dee Ford releases on Fire called "I Need Your Lovin'." (Detroit also is getting strong play on this one.)

The album getting teen action was called "Jocko's Choice R.&B. Oldies" issued on Leo Rogers and Dave Rolnick's Bonded label. LP contains 20 old rock and roll hits by the Nutmegs, the Dubs, the Shells, the Silhouettes, the Monarchs, the Collegians, the Teen Chords, etc. Same album in the New England area is called "WILD's Choice R.&B. Oldies."

As in other cities, Ray Charles' ABC-Paramount LP and single were selling in all types of stores and in all types of areas. As in most other markets the Charles' LP and single were the biggest traffic builders last week.

Chi Tape Firm Inaugurates Low Price Line

CHICAGO—Peter Fabri, president of Music Tapes, Inc., last week announced the inauguration of a new low price line sell at \$3.95 list. According to Fabri, the line will enable dealers to promote freely.

The low line will carry a 100 per cent inter-exchange privilege. This exchange, in which the dealer must buy both the \$3.95 line and the \$7.95 line, will allow fluidity of operation, according to Fabri. If the sale in one line slows down, the dealer merely exchanges for the other category and vice versa.

The six tapes on the initial \$3.95 releases feature the Accidentals, Connie Russell, Stanley Melba and ork, the George Williams band and Pee Wee Erwin's crew. These recordings were originally issued on LP's on the United Artists label.

Quality Controlled

In heralding the new line, Fabri pointed out that the new price line is quality controlled and the present-day stereo standards are adhered to stringently. The line even carries a full realm of liner notes written by well-known music personalities.

The firm signed an exclusive tape agreement with Gene Norman Presents record company for issuance on the regular priced line.

Hart Distributor For Webcor Line

HOLLYWOOD—George Hartstone's Hart Distributors, one of this area's leading disk distributors, takes over the Webcor Products home instruments line, effective June 1, BMW learned last week. Hart will be the sole distributor for Webcor's complete line of tape recorders, radios, portable and console record-playing equipment, covering the Southern California territory with the exception of San Diego. Webcor was distributed previously by Graybar.

Hartstone told BMW he will be "in direct and active charge" of the Webcor facet of his operations. He said a sales manager will be hired soon to work with a sales force of five or six men concentrating exclusively on the Webcor line.

Hartstone thus becomes the only independent record distributor in this area to add a nationally advertised home instrument line.

Jimmie Rodgers
Doubles in Artist, A.&R. Dot Roles

HOLLYWOOD—Singer Jimmie Rodgers is being signed by Dot Records in the dual capacity of artist and as artist and repertoire head of the label's folk division.

Rodgers, formerly on the Roulette label, hit his top sales stride with such singles as "Honeycomb," "Kisses Sweeter Than Wine" and "Secretly." His Dot contract is for two years with options, and was set by his personal manager, Seymour Heller.

Rodgers' initial singles release under the Dot banner will be "The Man Who Shot Liberty Valance," and his first LP will be "Jimmie Rodgers Presents the Fairmount Singers." Rodgers is due here Monday (12) when contracts will be signed with Dot president, Randy Wood.

Big 3 Starts

"Adventures in Paradise" and "Margie," all with music by Lionel Newman; "Dr. Kildare" and "Cain's 100" music by Gerrald Goldsmith; "Asphalt Jungle" music by Calvin Jackson; "Follow the Sun," music by Sunny Burke, and "Bus Stop," music by Arthur Morton.

A decree promulgated a while back by BMI prohibits ASCAP publishers, with foreign affiliates who handle BMI tunes, from collecting for American performances of the tune from BMI. The Big Three's English affiliate, Robbins, Ltd., has had the world rights to the tune "Adventures in Paradise," by Newman, Robbins, USA, has not been able to collect any performing fees from BMI, although the tune received many performances in the States. BMI said it would pay the publisher's share of the American performing rights to a BMI publisher with an active BMI affiliate in the U. S. who exploits the score. Now the Big Three will share in the performance money in the U. S. through its Hastings firm.

It is possible that the Big Three's opening of a BMI firm might decide other ASCAP movie-TV firms and old line independents to follow suit. Still holdouts against having BMI firms include Warner Bros. and Paramount, as well as Chappell, Bregman, Vocco & Conn and Frank Music.

in 36 countries. Presently, the client list includes about 35 record firms and 15 publishers. Four American firms already have become clients and negotiations are now under way with a number of others. Some foreign records already have been placed with American firms under the new setup, one being the current "Stranger on the Shore," by Britain's Acker Bilk on Atco from EMI's Columbia label in Britain.

New EMI Label

Meanwhile, in London, EMI has launched a new label, State-side Records. The label will be available in all countries where EMI is engaged in selling records. Though it is known that EMI had blueprinted the Stateside label, prior to agreements made with Transglobal, it is now expected that Stateside will be the medium for a number of disks funnelled overseas from the United States by Transglobal.

Marshall stressed that Transglobal has no connection with the existing Rank co-op, which has exclusive distribution arrangements with recording firms in various countries.

HUNGARY

Same Old Faces For Jazz Fans

By PAUL GYONGY
Derekuta 6, Budapest

The Hungarian Jazz Festival, planned as an international event for this summer, seems to be shrinking to a local affair. There will be no Chris Barber band, no Gery Scott and none of the other bands and singers which were to be invited by the promoting State Agency. The National Bank said "no" to all pleas for hard currency. Hungarian jazz fans will be fed once more with same artists they have already seen, led by the dance band of radio and television.

Copyright Law

Copyright law under preparation reduces the original 50 years' protection time for works after composer's death to 25 years (see BMW of March 17). An adjustment has been made which secures another 10 years—35 in all—for composers who have died before 1946. This proviso would secure further 10 years' protection for the heirs of Bela Bartok—widow and two sons—who died back in 1945 in New York in self-chosen exile. A further innovation is the National Education State Secretary's right to extend the protecting time in case of composers or authors of special merit.

Szabolcs (Peter) Fenyes, composer of "Merci mon ami es war wunderschon" fame, who has some 50 film scores to his credit, is in Paris for talks with Vieux Colombiere theater, which intends to produce Serge Weber's "Madame je vous aime" as a musical. Fenyes met Al Panone in Munich. First film they will produce together is "Flucht Nach Granada" (Flight to Granada).

Columbia Shifts To CBS Banner

By SAMUEL STEINMAN
Piazza S. Anselmo 1, Rome

American Columbia records, which have been distributed here via Philips and Melodicon labels, will shortly make their appearance under the new CBS banner. The Columbia name will continue to be used by Voce del Padrone-Columbia-Marconiphone, who are associated with the E.M.I.—as in the U. S. as Colpix.

Philips is meanwhile building up its label with new additions, among which is the Octave logo with Erroll Garner as top artist

Sir Joseph Lockwood, chairman of EMI came in from London to meet with executives and the press in Milan.

Legit

More than 100,000 original-cast LP's of "Rinaldo in Campo" have been sold by Fonit. The musical has now scored its latest hit at the International Theatre Festival in Paris. The gross for Pietro Garnei-Sandro Giovannini production for the year has been set at \$1,200,000, with Domenico Modugno and Delia Scala scheduled to take it to the U. S. in the fall. Meanwhile their other production, "Enricho '61" with Renato Rascel, is completing its season after playing with only two cities, Milan and Rome, with a total take of about \$800,000. The disk for this one was issued by RCA Italiana.

Some 10 weeks after San Remo, Voco has issued a disk with three of the four top-selling tunes of the event, "Quando, Quando, Quando," "Gondoli, Gondola" and "Tango Italiana." . . . Latest jazz competition has been inaugurated by Arden cosmetics for men with top combos to compete at Milan's Teatro San Marco June 9 for a trip to New York where a concert will be held. . . . A horse race in Rome has been dedicated to Duke Ellington as the Ellington Premio.

Milva Sounds off

Control of Italian juke boxes by "people with few scruples" influence the song market to bring mediocre songs top sales, according to Milva, one of Italy's most highly regarded artists whose biggest seller, "Flamence Rock," hit the 350,000 sales mark. She attributes high sales in many instances to an "American-type racket" in the record market. In other avenues, the top song festivals, she said, give currency to poor numbers because "any old song, even with one major appearance, on TV, has an assured market success."

Connie Francis, who has been on best seller lists here for two consecutive years, a record for a foreign performer, will return July 2 to begin shooting "Follow the Boys" for MGM on the Italian Riviera and to make summer p.a. during the period. . . . A new three-year contract has been signed by Claudio Villa with Fonit-Centra and he has made his first discs at the new recording studios in Turin.

Festival Palace on Venice Lido will be the scene of First Venetian Song Competition May 11-13. . . . Twist Festival has finished a run in Genoa, Bergamo, Turin, Como and Milan.

ALBUM REVIEWS

POP

A BOBBY VEE RECORDING SESSION

Liberty LRP 3232 (M); LST 7232 (S)—The young artist, who is riding the "Hot 100" right now with "Sharing You" (included in this package), is in fresh, appealing vocal form on this collection of teen-appeal tunes, featuring many of his own and others' singles hits. Best sides are "You Better Move On," "Please Don't Ask About Barbara," "In My Baby's Eyes" and "My Golden Chance."

BOBBY VEE MEETS THE CRICKETS

Liberty LRP 3228 (M); LST 7228 (S)—Strong wax by an artist who impresses more each time out. Here, he works with the group which first made the grade as the backgrounders for the late Buddy Holly. Working with the guitar and drum sound of the group, Vee joins in with his own guitar and as fine a set of rockabilly style vocals as you'll hear. He's particularly well-suited to this happy, rocking stuff, like "Sweet Little Sixteen," "Lucille," "Look-in' for Love," etc. Lots of good, spinnable material.

BROOK BENTON: THERE GOES THAT SONG AGAIN

Mercury MG 20673 (M); SR 60673 (S)—Brook Benton has a big single ("Hit Record") on the "Hot 100" right now, and this album should appeal both to his young fans and nostalgic older buyers. A flock of great oldies are sung with restraint and sincerity by Benton. Best sides are the title tune, "I Didn't Know What Time It Was," "Blues in the Night," "Trouble in Mind" and "I'll Get By." Nice backing job by Quincy Jones.

ROME ADVENTURE

Emilio Pericoli. Warner Bros. W 1458 (M); WS 1458 (S)—The Troy Donahue movie is a big hit, particularly with teen-agers, and this sound-track package should do equally well. Max Steiner's melodic, romantic score is spotlighted on one side of the disk and "Neapolitan favorites" (happy instrumental treatments of "Volare," "Oh Marie," etc.) on the other. Standout selections on the sound-track side are Emilio Pericoli's moving rendition (in Italian) of "Al Di La" and "Lovers Must Learn."

Jazz

ART FARMER-BENNY GOLSON JAZZTET HERE AND NOW

Mercury MG 20698 (M); SR 60698 (S)—The Jazztet's first album on Mercury sports four new sidemen. Joining co-leaders Art Farmer and Benny Golson are trombonist Grachan Moncur, pianist Harold Mabern, bassist Herb Lewis and drummer Roy McCurdy. Farmer stars throughout the album, playing flugelhorn on some of the tracks, but nowhere does he play better than on his own tour de force, "Rue Prevail." Track with strong commercial appeal is "Tonk," while the rapid "Just in Time" comes through as a strong standard.

Classical

A FUNNY THING HAPPENED ON THE WAY TO THE FORUM

Zero Mostel and Various Artists. Capitol Wao 1717 (M); Swao 1717 (S)—The original-cast album of this hilarious comedy hit can get across only some of the wild and uproarious action that takes place on stage, and since most of the funniest sequences are non-musical they cannot be included. Still the majority of the songs are funny or satirical enough to set them apart from the usual Broadway fare and will please the buyer not insistent on typical show songs. LP's success will be strongly hinged to the show's own prospects, which currently seem bright.

TCHAIKOVSKY: ROMEO AND JULIET; STRAUSS: TILL EULENSPIEGEL'S MERRY PRANKS

RCA VICTOR LM 2565 (M); LSC 2565 (S)—Here's a classical package that should move out of the stores with great rapidity. These are probably two of the most popular concert pieces to be programmed and they are performed here with outstanding musicianship and fresh, vibrant stereo interpretation, by the noted Boston Symphony conductor, Charles Munch. The conductor and orchestra have a wide following, and coupled with the familiar program, this package should draw a wealth of sales.

MUSIC FOR THE GUITAR

Andres Segovia. Decca DL 710046 (S)—Any new Segovia disk is assured of an automatic sale among admirers of the great Spanish guitar virtuoso. Here he plays nine selections, of which the novelties are one study which he composed, his arrangement of "The Old Castle" from Mussourgsky's "Pictures at an Exhibition," and a short piece written for his French debut in 1924 by Roussel. The other five selections are of more traditional Spanish origin. Segovia's playing remains extraordinary.

THE CHIPMUNK SONG BOOK

Liberty LRP 3229 (M); LST 7229 (S)—When Alvin, Theodore and Simon Chipmunk tackle the old favorites it's difficult to know how they will come out. But the Chipmunks, with a lot of help from David Seville, turn in hip performances of such evergreens as "The Band Played On," "Twinkle Twinkle Little Star," "Buffalo Girls," "Polly Wally Doodle" and "Down in the Valley." Also on the disk are previously issued singles, "The Alvin Twist" and "My Wild Irish Rose." Strong waw, especially for the 5 to 9 crowd.

THE SWEETEST SWINGIN' SOUND OF NO STRINGS

Billy May. Capitol ST 1709—This instrumental reading of the "No Strings" score, one of the hottest shows on Broadway this season, should be a potent seller. The album is full of the wit and beat for which May is noted. The set swings and has its soft moments, too, especially in the lush performance of "The Sweetest Sounds," a top ballad from the show. "Maine," in Latin treatment, the lush "Look No Further," "La La La" and "Be My Host," also come across in strong fashion.

SUMMER FESTIVAL

Various Artists. RCA Victor LM 6-97—This album should become a sock seller through the summer and the fall as well. It contains selections by such top names as Arthur Fiedler, the Robert Shaw Chorale, Sviatoslav Richter, Pierre Monteux, Anna Moffo, Erich Leinsdorf, Leopold Stokowski, Leontyne Price, Van Cliburn, etc., each playing or batoning a selection. The two-LP set is beautifully packaged, and it sells for the price of one LP. A fine bargain it is. Dealers should stock up on this potent set.

Children

WALT DISNEY PRESENTS THE STORY OF BIG RED

Disneyland ST 1916—Big Red is an almost unbeatable combination for kiddies—the story of a boy and a dog. The dog is an Irish setter and this is all about his adventures with a 12-year-old. The setting is French Canada. It's well narrated and dramatized and figures to step out fast, in the kiddie market, much as numerous other Disney story properties.

★★★★ STRONG SALES POTENTIAL

★★★★ TWIST COUNTRY HITS

The Tennessee Twisters with the Merry Melody Singers. Smash MGS 27009 (M);—SRS 67009 (S)—Bright and driving Twist version of a group of top country hits should help this album in these twisting days. The songs include "Crazy Arms," "Alabama," "Waterloo," "I'm Movin' On," "Honky Tonk Man" and "Yonder Comes a Sucker." The band plays them with style and the set makes for a fine dance package.

★★★★ THE STRIPPER

Ernie Freeman. Imperial 9193 (M)—This swinging new album by the Ernie Freeman combo should do very well with both a teen and adult trade. The band socks over a twisting, danceable beat in easy fashion. The flock of instrumentals includes "The Stripper" (currently a hit for David Rose), "I've Got a Woman," "Night Train," "My Babe" and "Jambalaya." Good lead piano work by Ernie, too.

★★★★ LET ME CALL YOU SWEETHEART

Timi Yuro. Liberty LRP 3234 (M); LST 7234 (S)—Here's a listenable album by Timi Yuro, containing a flock of attractive sides, many of which were previously issued as singles. Title song, "Let Me Call You Sweetheart" shows off a strong vocal by

RCA Victor Puts FM Stereo In All '63 Radio-Phono Units

NEW YORK—New styling, an accent on cabinetry, built-in FM stereo and a brand-new record changer, called the Studiomatic, are among the salient features of the new RCA Victor Victrola phono line for 1963. The phonos, along with new radio and color and black and white TV equipment, were introduced at a special press showing at RCA's Johnny Victor theater here Thursday (17).

Raymond Saxon, RCA Sales Corporation marketing vice-president, said that FM stereo is included in all 13 of the firm's new phono-radio combination units.

The phono line includes 17 stereo consoles priced from \$149.95 to \$595; four portable stereos, pegged from \$79.95 to \$149.95, and three mono-only players, from \$19.95 to \$49.95. Lowest priced phono with FM-AM tuner will retail at \$199.95, a dip of \$30 under the current tag. Lowest-priced unit with FM stereo will go for \$239.95, a 40 per cent decrease from last year's \$399.95.

'Hutch' Offspring

A de luxe "hutch" model, two-tiered cabinet, introduced last year, has in turn given birth to three other innovations in consoles, the "spinet," "bow-front" and "serpentine" cabinets. The Danish modern, French provincial and early American "hutches" are being continued with slight technical changes.

Though demand for TV-radio-phono combination units flourished as long as a decade ago, a spokesman at the press showing said, the intervening years have seen a decline in this area because of annual rapid-fire changes in equipment.

The Victor people now see a more stable industry, thanks to the arrival of FM stereo, advanced color TV techniques and the virtual perfection of disk playback. Because of this increased stability, they said, demand has increased in a marked fashion for this kind of high-end home entertainment unit, with the result that three such units are being introduced this year.

Price Decline

These are the Warrington (\$995); the Southbridge (\$1,200) and the Abbeville (\$1,500). Lowest-priced three-way combination last year retailed at \$1,500.

The new Studiomatic changer permits intermixing of different-sized records in any sequence. It employs a 12-inch turntable which minimizes vertical rumble and because of its greater mass, assures

more constant speed. The unit is included in all high-end models.

At the same time, Victor announced 13 new table model and clock radios. Emphasizing the move to lower prices noted in some phono models, the company announced an FM table model at \$29.95 and an FM-AM set at \$49.95, both new lows. Earlier this year, Victor dropped the price of its budget model pocket transistor from \$19.95 to \$14.95. The radio line-up does not include any FM stereo units, and spokesmen said the company has no plans for such a unit at this time.

G. SCHIRMER, leading New York music store, featured this window, promoting Leontyne Price's RCA Victor "Aida" album when the star made a personal appearance at the 49th Street location last week. More than 500 opera fanciers visited the store during Miss Price's one-hour appearance. She was presented with a bound copy of the "Aida" score with her name engraved on the cover by Schirmer's president, Rudolph Tauert.

NEW TAPE GIVES ONE-HOUR PLAY

CHICAGO—The Magnecord Division of Midwestern Instruments, Inc., Tulsa, Okla., has disclosed that project engineer, Howard Cederberg, and sales manager, Paul R. Bunker, have applied for a design patent on an eight-inch diameter tape reel offering tape recorder owners over an hour of playing time.

The new hour reel, with one-mil tape, according to the designers, will be a big and much-needed step in the direction of offering equipment and tape buyers more performance for their money. Both feel the new reel will garner much acceptance in the industry.

Art Lovers Help Build Sales of Stereo Sets

DENVER—Growing public interest in art can provide a simple but effective means of building tape recorder sales, experience has shown one leading Denver retailer.

Anxious to attract culturally minded people—those most likely to be interested in fine stereo music on tape recorders and phonographs—The Record Rack store turned the establishment into an art gallery every Sunday afternoon. The exhibitions offered art efforts of a single artist each week. Coffee and cookies were served. It was not unusual for The Record Rack, which has a

large room in the rear suitable for hanging of 30 or 40 paintings, to draw 750 visitors on a single Sunday.

All visitors, invited either by direct mail, or responding to a newspaper ad, were worthwhile prospects for stereo phonographs, tape recorders and sound systems, it was found. The store broke all its sales records for stereo phonographs.

Total expenses were not high. Artists recommended by Denver art schools were willing to show their work for the privilege of price-tagging each painting. Originally, some five years ago, artists had to be sold on the idea. But within a few months, as this unusual exhibit became known, artists came to the store. The result: now there is a long waiting list.

U. S. Public Seems to Like Mercury Phono

CHICAGO—Consumer reaction to the initial two phonographs to be marketed by Mercury Records, has been favorable, according to Sales Manager Irv Russell.

Russell, who has returned to base here from a 10-market coast-to-coast trip, said acceptance has also been good among dealers and distributors, particularly for the battery-operated transistor portable set. The firm is in the midst of an advertising campaign which is promoting the units as graduation gifts through ads in college newspapers throughout the nation.

The colors are true, with the artist utilizing Gauguin-type vibrant shades of orange, blue, hot pink, yellows, green and white. The painting is by Mozelle Thompson and the art direction is under Victor's Win Bruder.

WEST GERMAN MARKET FADING

By OMER ANDERSON

BONN—Trade studies show that West Germany's coin machine market is contracting and that in the future U. S. manufacturers must contend with constantly diminishing sales in this country.

The figures show that 504 operators have folded within the last three years and removed around 12,000 units of equipment from operation. The operators have gone out of business entirely for economic reasons, and their enterprises have not been replaced.

The 12,000 units of equipment include 8,660 payouts, 1,663 phonographs, and 1,607 games.

Total Operator Loss

Trade experts point out that the total amount of machine contraction is a good deal greater than the 12,000 units in the hands of the 504 departing operators. The survey merely analyzed the operations of 504 operators who failed and did not encompass the total operator loss to the German trade. Some estimates place this figure as high as 1,500 operators, big and small, organized and unorganized.

Moreover, the figure of 12,000 does not include the shrinkage of machines owned by operators continuing in business. At the peak West Germany had around 60,000 music boxes, 85,000 payouts, and 35,000 games.

Some authorities estimate the total number of juke boxes in operation in West Germany has declined to 45,000 over the last three years; payouts to 35,000, and games to 25,000.

Public Opposition

Payouts have skidded fastest because of strong public opposition to them and because of heavy taxation and

licensing fees. The German phonograph market over-expanded in the boom years 1952 through 1958. The readjustment now taking place has coincided with a slowing of the German boom. Games are in the same category with juke boxes.

The plummeting payouts have adversely affected phonographs and games, because many German operators depend on payout operation to bolster thin profit margins from juke boxes and games.

When payout operation ceases to be attractive, many of these operators prefer to enter liquidation than to endure genteel poverty pegged to marginal phonograph and games operation.

Equipment Sales

The declining German coin machine market (vending machines excepted; there is a terrific German vending boom in progress) will hit hard at sales of new equipment being operated; but operators have begun to stretch new equipment purchasing.

There is no longer an almost automatic rotation of equipment from location to location and its sales at the end of three years, or five at the most, to less sophisticated foreign markets. German operators have cut back purchasing of new equipment, and are emphasizing the better servicing and reconditioning of their existing equipment.

More and more operators are persuaded that they can safely postpone the purchase of new equipment (including U. S. equipment) by emphasizing better music programming and better servicing.

German operator music programming has never been sharper, and there are numerous operators who claim they

are harvesting larger collections than ever before with older equipment.

Trade studies, including surveys by distributors of U. S. equipment in this country, project a year-by-year decline in sales of new American equipment through 1966. Some studies forecast a 30 per cent drop from current sales by 1965; the more extreme forecasts mention drops up to 60 per cent.

These forecasts apply only to juke boxes. The German market for U. S. games promises to be much more stable. Most surveys postulate a slight increase, between 10 and 15 per cent, in present totals for the period through 1965.

Aside from the contraction of demand, all German trade experts agree that U. S. manufacturers face rough competition from realization of the European Common Market.

One of West Germany's top trade executives summarized the situation ahead for U. S. manufacturers, "European manufacturers are closing the gap that has existed in juke box production, and there is now very little difference in quality between the American and European product."

"The American box no longer has the same prestige value it did, mainly because of the improvement in the European product. This trend can be expected to continue."

"At the same time the Common Market is going to lead to the amalgamation of national European producers into a few big companies able to compete on fully equal terms with the American firms."

Rowe 1962 Plant Hums on 3 Shifts

GRAND RAPIDS, Mich.—The new Rowe-AMI phonograph made its debut last week, with distributors around the country showing the new model. Theme of the 1962 model is three-in-one flexibility. The phonograph is aimed at meeting the potential of all locations by being able to program 100, 160 or 200 selections simply by adjusting the placement and number of title strips.

Production of the phonograph, according to Fleming Johnson, executive vice-president of the manufacturing division of Automatic Canteen, has tripled over any previous AMI model. Johnson says the plant is on a three-shift production basis around the clock.

MOA Shake-Up Begins; Radical Shifts To Be Weighed at Board Meeting in S. F.

By AARON STERNFIELD

NEW YORK—A radical change in the composition of the board of the Music Operators of America will come in for serious consideration when that body holds its semi-annual meeting in San Francisco in October.

A source close to the board disclosed that an attempt will be made to give the more populous States better representation on the governing body, with the bylaws amended to provide for as many as five directors from some States.

According to the proposed formula, the more populous States such as New York, California, Illinois and Pennsylvania would provide five members each, while States with lesser populations given roughly proportional representation.

Recent Changes

The industry is still trying to digest the recent changes announced in the wake of the MOA convention here May 6-9 (Billboard Music Week, May 19).

George Miller, who was one of the founders of the national trade group 12 years ago and who has been the only president MOA has ever known, announced that he would not be a candidate for reelection when his term expires at the end of the year.

A reliable source, who for obvious reasons cannot be quoted, said that Miller probably won't wait until the end of the year, but will resign in less than six months.

And Ed Ratajack, who joined MOA a little more than a year ago as managing director and coordinator, resigned the day after the MOA convention was concluded.

While Ratajack's connections with MOA have been severed completely, Miller will continue as administrator of the association's group insurance policy.

New MOA Job

Preparations have begun to interview applicants for a new, and as yet untitled position, within MOA. The job will be roughly that of executive secretary. The directors are looking for a man with some experience in trade association administration, preferably with some public relations background—and with no present or prior connection with the industry.

One of the reasons for MOA's (Continued on page 50)

DOUBLE-PLAY DISKS

Two-sided action may be expected from the following records. For the juke box operator limited to from 100 to 200 sides per machine, they represent maximum programming effectiveness. Records listed below have both sides either on the Hot 100 or have recently been on the Hot 100. See Spotlight Reviews for additional information on double-play disks.

Brown Named Minn. Distrib For Rock-Ola

CHICAGO—David C. Rockola, president of Rock-Ola Manufacturing Corporation, last week announced the appointment of Brown Bros., Inc., 410 12th Avenue North, Minneapolis, as a franchised distributor.

Brown Bros. will distribute the Rock-Ola Manufacturing Corporation line of coin-operated phonographs in Minnesota as well as the adjoining territory in Wisconsin. The Wisconsin territory will cover the cities of Superior, Eau Claire, Chippewa Falls and La Crosse.

Brown Bros., a well-known name to the coin industry, is headed by Ray Brown, president; Dick Brown, vice president, and a staff of factory-trained men already familiar with the coin industry and the territory personnel.

GOOD OLD SUMMERTIME

Balmy Weather Gets Ops Off to Fine Start at Spas

NEW YORK — With the thermometer breaking 80 a bit prematurely this year, local juke box operators are getting an early start on resort locations.

Normally, the resort season doesn't get under way until Memorial Day, and doesn't get into full swing till mid-June, but Gotham operators have already begun to take advantage of the warm spell by placing their equipment on seasonal stops, and weekend collections look promising.

According to Murray Kaye, sales manager of the Atlantic-New York Corporation, local Seeburg outlet, summer locations are no longer a prime dumping ground for obsolete equipment.

Kaye reports that many operators—particularly those with shore locations — are moving in new stereo boxes now. These machines will be yanked by Labor Day and then placed on top year-round locations.

The reasoning is that, as far as the 12-month location is concerned, a new box purchased in May will be just as new when it is placed on location in September.

In the meantime, the phonograph will be earning top dollar on a resort location.

Arcade Installations

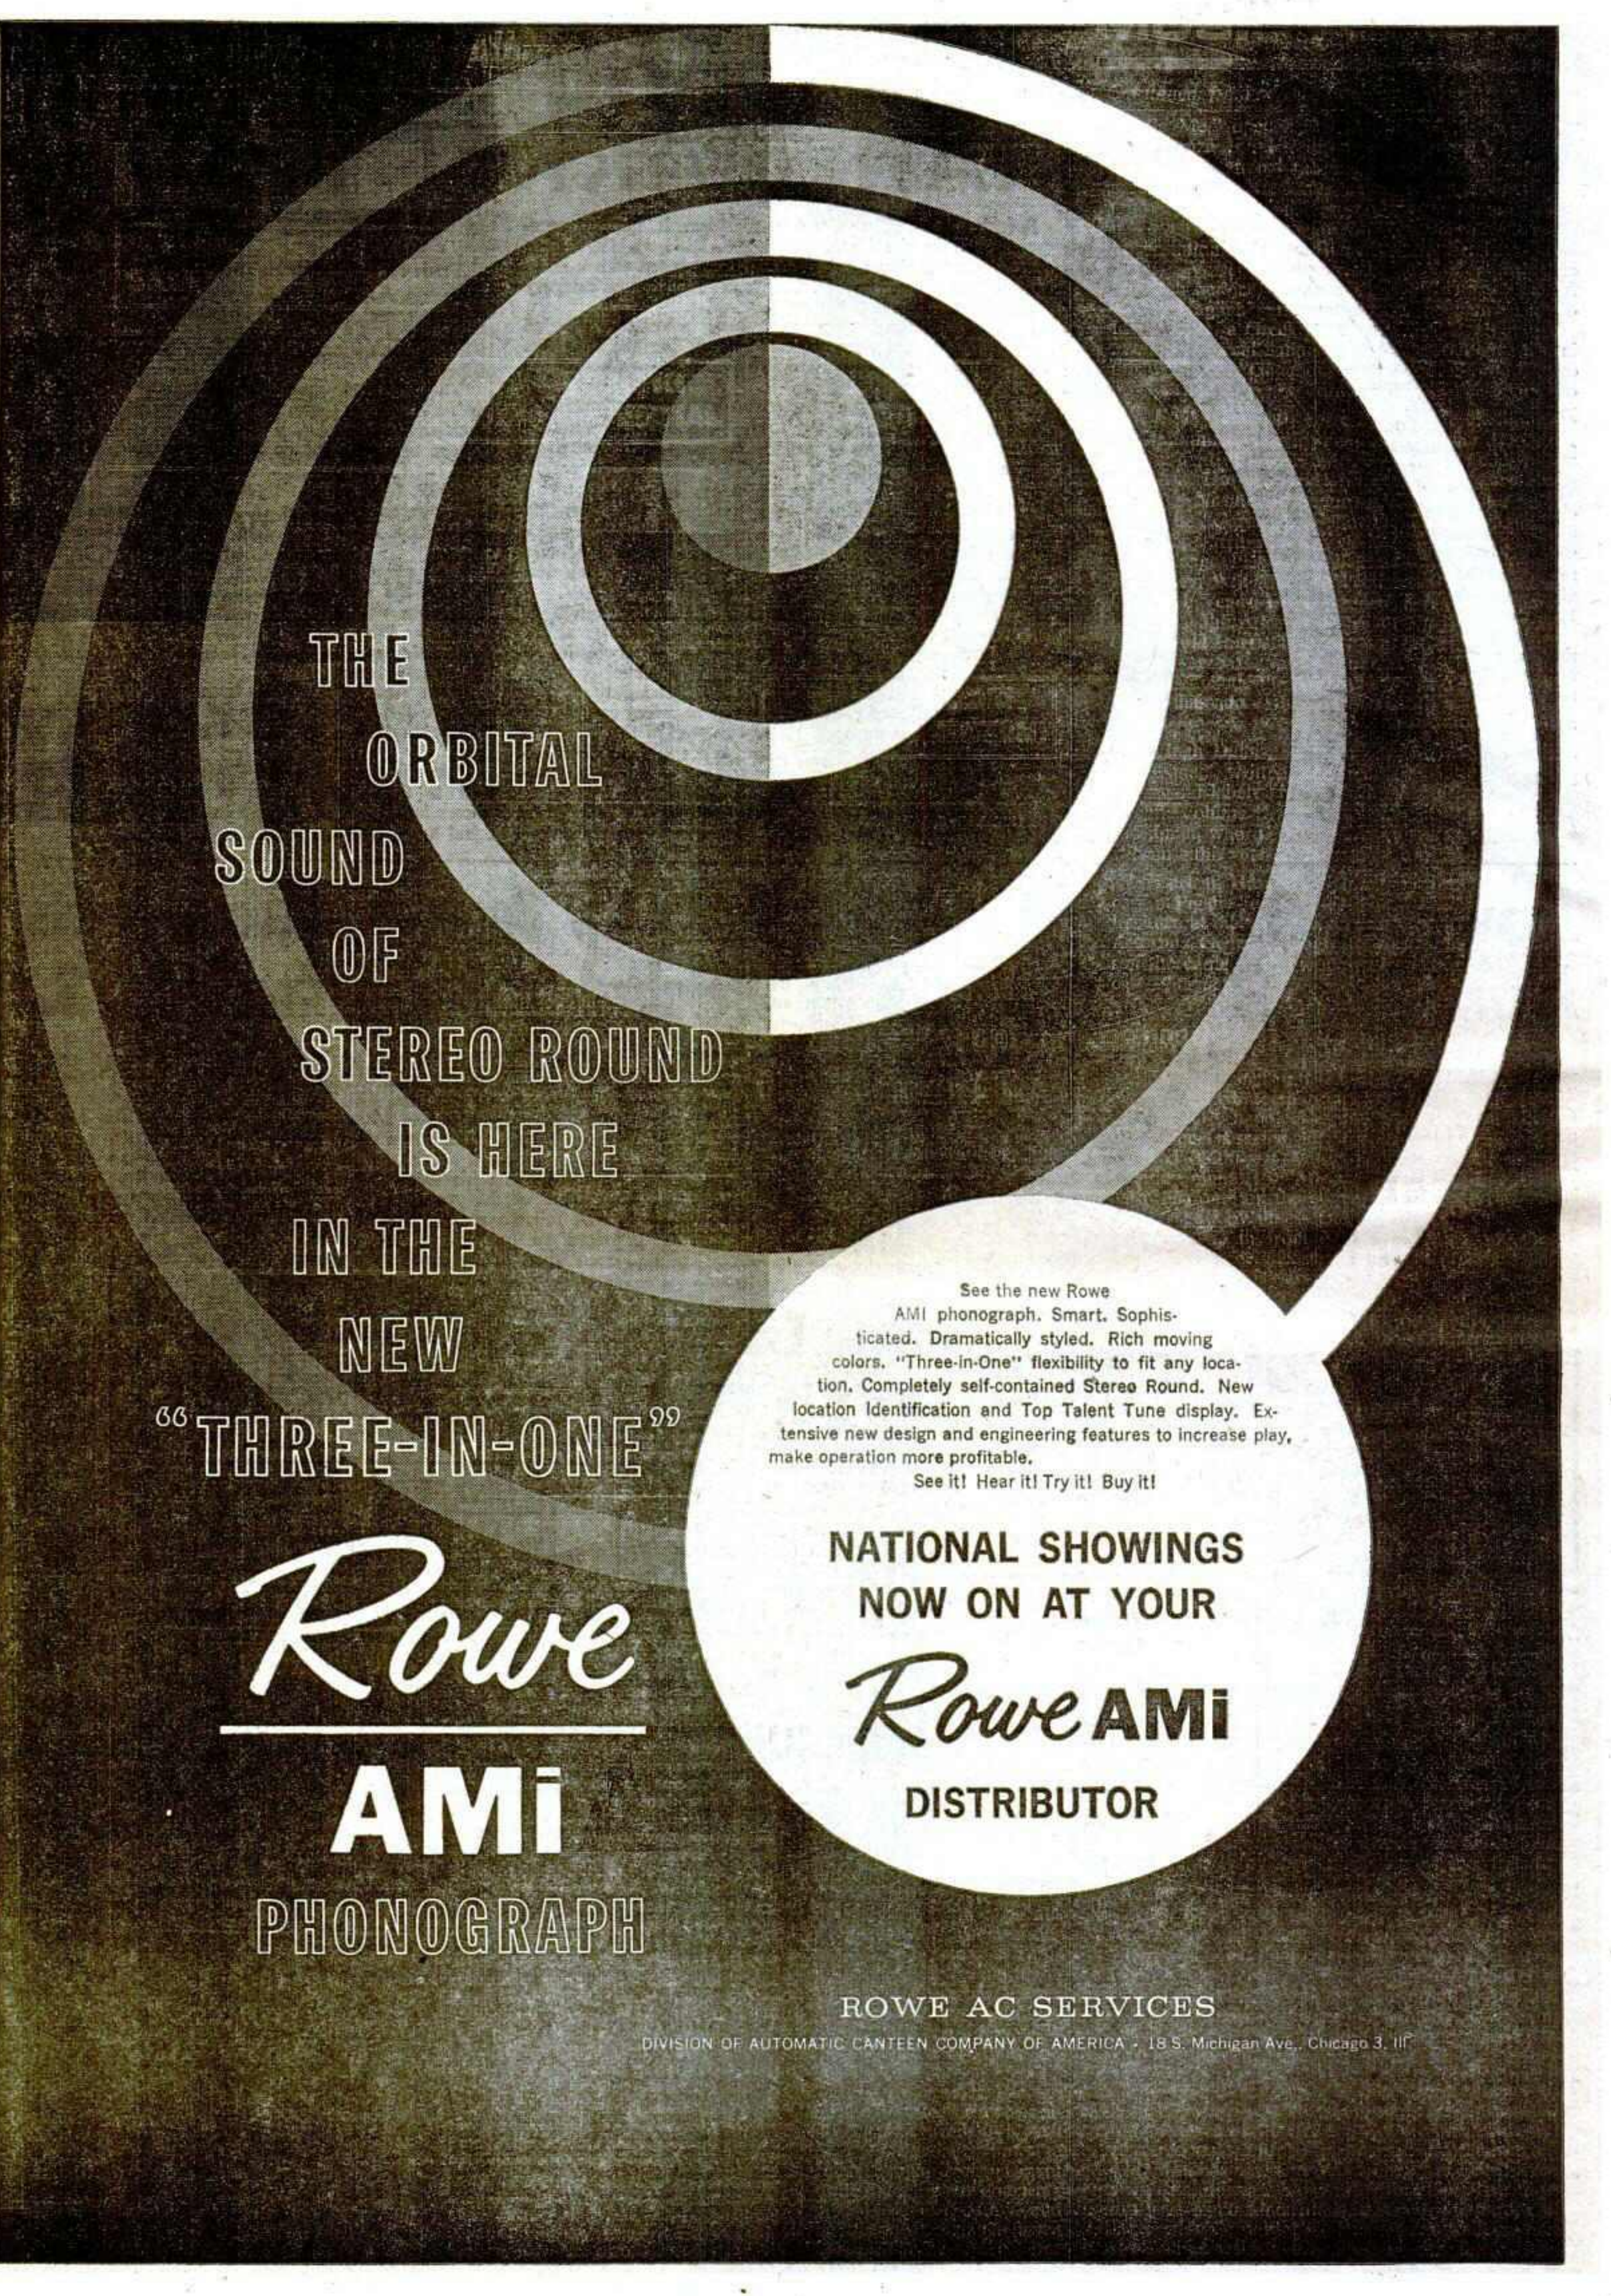

At Runyon Sales, local AMI outlet, Morris Rood notes that arcade installations are becoming fairly common in Catskill Mountain resorts with indoor swimming pools. The arcade generally adjoins the pool.

This trend, which got under way last year, is becoming more pronounced, with the equipment staying on location as long as the pool is in operation.

Where antiquated equipment is used, the arcade pieces generally stay year-round, even though the resort may only operate for a few months. New equipment, though, is usually pulled at the end of the season.

Rood notes that operators are growing more prone to place new or nearly new juke boxes on seasonal locations, then they are pulled at the end of the season and placed on regular stops.

Tom Greco, who operates in the Hudson Valley, reports a similar trend in his area.

Board Changes Mind, Will Issue Licenses

SPRINGFIELD, Mass. — The levying of a \$25 fine resulted in a happy ending to the strange case of the Licensing Board which refused to issue licenses. An operator had been fined for running a pool table without a license, but since the board said it did not issue licenses for amusement devices, it was impossible for the operator to get one.

A ban was placed on the operation for all coin-operated amusement devices nine years ago, largely because of the flagrant use of the old one-ball machines which had been operating as gaming devices.

But little by little, non-gaming machines appeared and were tolerated without interference. After a few years of this, the police department decided to make an example of at least one operator in a move to halt the use of the machines.

The Western Massachusetts Music Operators' Guild through attorney William Walsh launched an appeal. At the same time, Walsh tried to reason with the board.

He pointed out that the State Supreme Court had ruled that licenses for amusement devices cannot be arbitrarily refused, according to the Commonwealth law. After due consideration, the board decided to abide by the law and issue licenses.

The operators, who were quite willing to pay for a license, can now run their games without worrying about the police. The fee is \$20 annually for each machine.

Walsh has notified the court that the operators will drop the appeal. Pool tables for which the fine was levied are included in the process legally.

Bilotta Again Tries to Enjoin Police From Seizing Game in Up-State New York

SYRACUSE — John Bilotta, New York State Wurlitzer distributor, will make a second attempt to enjoin the State Police from interfering with the operation of Flipper Parade, an amusement game manufactured by D. Gottlieb & Company, Chicago.

Bilotta's firm, Billotta Enterprises, Inc., earlier had sought an injunction against New York State Police Superintendent Arthur Cornelius Jr. to prevent the police from seizing or confiscating the games.

Onondaga County Court Judge John H. Farnham did not rule on the suit for injunction, neither granting nor denying the motion, according to Lee Alexander, attorney for Bilotta.

Albany Suit

As the motion was "not refused on merit," Bilotta said he would bring suit in Albany. Bilotta has offices in Syracuse, Rochester, Newark and Albany, N. Y.

Briefly, Bilotta claims that police seizure of the Flipper Parade games was illegal in that the games do not violate the New York State anti-gambling statute.

The statute classifies as gambling devices, machines which contain no element of skill and which award cash, merchandise, credit or free games as prizes. The games in question were seized on the charge that the player was awarded free games.

Not so, says Bilotta. He points out that upon achievement of a specified score—based in part on the skill of the player—the player is allowed to continue the game and increase his score further.

Continuation of Game

This result is achieved by releasing one of the five balls in the flipper game for additional play. According to Bilotta, the releasing of one of the already-played balls does not constitute a free game. It is merely a continuation of the game already in progress, he said.

The case began in June, 1961, when New York State Police seized a Flipper Parade and charged the location owner to be in possession of a gambling device.

The Police Court of the Village of Pulaski heard the case on January 9, 1962, and found that the game was not a gambling device. However, the New York State Police have refused to release the game.

Financial Loss

After the Pulaski ruling, and despite that ruling, New York State Police began seizing Flipper Parades throughout Onondaga County. Bilotta claims he has suffered great financial loss as a result of these seizures.

In his original motion for an injunction, Bilotta charged that the games "are solely designed, constructed and sold for recreational purposes only; they sell for approximately \$400 each; their construction in no way enables them to be used as, or converted to, gambling devices."

"The game accepts a 10-cent piece from the player and returns neither coins, merchandise, credit, memorandum of credit for free games. The player receives only the amusement of playing the game. The game is a combination of skill and chance; that, as opposed to the games with which the plaintiff is concerned, there are gambling devices which are disguised to resemble the plaintiff's games. However, the similarity is only superficial."

Makes Distinction

The motion went on to explain that the gambling device, which sells for about \$800, "contains an ingenious mechanical and electrical system of recording wins by the player so as to enable the owner of the machine and the location at which such machine is kept to keep accurate books as to payouts on such gambling devices. These gambling devices must also

be equipped with a special circuit to wash out the win of the player after it has been recorded by the machine. The games with which this plaintiff is concerned contain none of these features, nor may they be converted into a gambling device."

Bilotta maintained that as he is not a party to the criminal prosecutions, the only remedy in law open is the injunction.

He cited that the game in question has been adjudged by the Internal Revenue Service an amusement device (\$10 tax stamp) rather than a gambling device (\$250 tax stamp) and that the City of Syracuse has licensed it as an amusement game.

Bilotta said that 40 per cent of his income is derived from the sales of games made by Gottlieb and Williams (which makes similar games) and that the actions of the State Police has placed his entire business in jeopardy.

11th Op Shindig To Draw 300

YONKERS, N. Y.—About 300 operators, distributors, manufacturer representatives, record company executives and their guests are expected to attend the 11th annual dinner of the Westchester Operators Guild, to be held at the Tropical Acres Restaurant here Tuesday (22).

Harold Rosenberg, program chairman, said that recording talent at the show will include Byrdie Green, Perri recording artist; Carol Sloan, Columbus artist, currently at the Blue Angel, and the Fantastics.

Music will be provided by the Don Joseph orchestra. The affair gets under way at 7 p.m.

Serv'emen Tune Up At Seeburg School

SYRACUSE — More than 50 juke box servicemen attended the recent Seeburg service school conducted by the Davis Distributing Corporation, with sessions held here and in Albany, Rochester and Buffalo.

Among those who attended the Syracuse school were Gilbert Race, A. W. Collins Corporation; Richard Petrucci, Bova Haritatis; Edward Jenny, Robbins Tobacco Corporation; Chet Ray, Rey, Inc.; Sherman Lawrence, A. W. Coglins Corporation, and George Halsey, Columbia Music.

Also, Ron Faucher and John Faucher, Larry Faucher Enterprises; Melvin Levin and S. Dabrowski, A-1 Music; Mert Jewell and Bob Mincer, Putman and O'Brien; Howard Burdick, Burdick & Simes; S. Dotkiewski, Brandy Music, and Angel Piaz.

In charge of the session was John Stuparitz, Seeburg sales engineer.

BET HIS JOKES ARE FUNNY, TOO

PHILADELPHIA — Joe Ash, of Active Amusement Company, bumped into Philadelphia's new mayor, James Tate, one day recently at a country club and inquired how his golf game was coming along. "It's gotten much better since I've become the mayor," Tate replied. "My opponents aren't trying as hard to beat me."

U. S. Examines Underworld's Hand in Indiana Juke Boxes

By JOESPH KLEIN

HAMMOND, Ind. — Possible underworld penetration of Northern Indiana juke box operations is being explored by the Department of Justice.

Evidence presented to a Federal Grand Jury here has been forwarded to Washington for study, an aid to Attorney General Robert F. Kennedy announced here.

Indications that at least one phase of the juke box business was a subject of federal scrutiny was confirmed by the Grand Jury appearance of Anthony Guattadaro who sold his Gary-Hammond-East Chicago coin machine business a few months ago.

Guattadaro, who was a witness before the McClellan Rackets Committee in 1959, is a nephew of Anthony Pinelli, a high-ranking figure in the Chicago underworld.

Took the Fifth

Pinelli also was interrogated by the McClellan Committee. Like Guattadaro, he took the Fifth Amendment in refusing to answer the questions put to him by the then Committee Counsel Kennedy.

Pinelli moved into Gary in 1956 to assume charge of the city's gambling operations, according to a Crime Commission report. With him came Guattadaro to take control of a large Gary-based juke box company.

Pinelli's tenure in Gary came to an end with the 1959 McClellan Committee revelations. While re-

taining his Chicago interests, he now lives in California.

CCC Report

"Although Pinelli has resided in California for several years, he has continued to dominate Lake County, Indiana, rackets," the Chicago Crime Commission pointed out in its report on Chicago crime for 1959. "A few years ago, on January 15, 1953, when Capone gang boss Tony Accardo landed at the Los Angeles airport, he was met there by pre-arrangement by Pinelli. A few years earlier when the Los Angeles police confiscated an address book from Giroloma Adamo, alias Mo Adamo, the principal lieutenant of the late West Coast racket boss Jack Dragna, they found listed the name of Tony Pinelli who then maintained an address of 6054 West School Street in Chicago.

"Among numerous other important underworld leaders were the names, addresses and telephone numbers of Capone gang big-wigs Accardo and Murray Humphreys," the report added.

BULK VENDING

OP'S NAME ON MACHINE SIMPLY 'GOOD BUSINESS'

DENVER—Clyde McCathren, bulk vending operator who covers a six-State area from his headquarters in Golden, Colo., is one operator who believes in personally identifying himself with every machine.

Contrary to the opinion of many operators who feel that they get too many crank calls or too many requests for service from location owners if they post name, address, company name and telephone number on each machine, McCathren uses a small gummed label, affixed inside the globe of each machine, which carries full information.

Operating mostly six-machine stands, McCathren places the label in the machine at the left end of the top row, where it is most likely to be noticed.

New Locations

Major reason for displaying this information, McCathren says, is simply that it's good for business. He has obtained many new locations from businessmen who have noticed the wide variety of products he vends and the excellent appearance of each machine.

McCathren always has gone overboard on maintaining his routes at peak efficiency and appearance on the theory that "It pays to advertise." There is no sense in advertising in this way, however, if it is done on an anonymous basis, McCathren points out.

He has dozens of locations in nearby Denver which have been picked up on an unsolicited basis. When a potential location owner calls and asks for him by name rather than "the fellow who operates the vending machines," McCathren thinks he has won points. Potential location owners remember him later.

Folz Vending Pulls Back Public Stock Temporarily

NEW YORK—The public stock offering made by the Folz Vending Company, Oceanside, L. I., N. Y., has been temporarily withdrawn. Last fall, the vast bulk vending operation applied to the Security Exchange Commission to float 55,000 shares of common stock at \$6 a share, with par value at 10 cents a share.

President Roger Folz said the firm is considering refiling in June. Folz Vending, the nation's largest bulk vending operation, would be the first such firm to offer its stock to the public.

Folz explained that the stock offer was withdrawn because of the "sagging condition of the stock market" and because of the company's increased sales, which would not be reflected in the offering price.

According to Folz, the firm's operating revenue for the first four months of 1962 is about 40 per cent ahead of the like period in 1961. Last year, Folz added 5,000 machines to its route, and the revenue from these machines is showing up in 1962 figures.

For the first half of 1961, Folz net sales were \$328,659, with net income of \$5,395. This compares with sales of \$307,587 and earnings of \$10,390 for the first half of the previous year.

The company has completed financing arrangements for a headquarters building here, with construction under way and occupancy expected in September. The 9,400-square-foot building is about four times as large as the existing structure.

Chance W. Tenn. Ops May Join NVA

By ELTON WHISENHUNT

MEMPHIS — Members of the West Tennessee Vending Association discussed joining the National Vending Association at its recent monthly meeting and indications were that the group will associate with the national organization.

C. D. Gill, Gill Vending Company, president of the local association, spoke of the advantages of joining NVA.

He cited two main benefits:

1. The local would get legal assistance from the national group.
2. The local association would receive information from the national organization on new and im-

proved operating trends and current developments in the industry.

Sponsorship

The group also discussed the controversial program of sponsorship, with various civic clubs, of putting out ball gum machines.

Under these arrangements, the operator gets his normal 50 per cent, with the location owner's share going to charity.

One of the disadvantages mentioned was the uncertainty of the operator, who furnishes the machines and fill, getting an accurate check, because the collection would be handled by the civic club.

One advantage put forth was

that it would benefit worthy charities. The group reached no agreement and no action was taken.

The association also approved its bylaws at the meeting. They will be distributed soon.

Gill also told the meeting that Cramer Gum Company of Boston, manufacturer of ball gum, was the association's first associate member. The company paid dues for one year in advance (\$12).

The monthly dues of \$1 may later be increased. Gill said the group welcomed other associate members at the present \$1 a month dues rate.

The group's gathering this time was a dinner meeting at Chenault's Restaurant, 1402 S. Bellevue. The next meeting is scheduled for June 4.

Mercury Goes Up and So Do Collections at Twin City Stops

By DON LYONS

MINNEAPOLIS—The warm, summery weather helped to get the public out of hibernation, and most operators reported a definite pick-up in collections. Action on the juke boxes, they said, continued to be paced by "Wolverton Mountain" by Claude King on Columbia.

Other disks which have been pulling in the coins include "I Can't Stop Loving You" by Ray Charles on ABC, and "Stranger on

the Shore" by Acker Bilk on Atco. Dan Heilicher, of Advance Music Company, Minneapolis, said that the collections have picked up in the last month. A St. Paul operator also reported a pick-up in business. One manager of a one-stop pointed out that mail orders were heavier now than they had been during the winter.

Spring: A Shot in Arm to Wis. Music

By BENN OLLMAN

MILWAUKEE—Warm weather has provided a tonic for the music business, according to local operators and one-stops.

Glassman, Radio Doctors one-stop, reports: "Operators in the Wisconsin and Upper Michigan resort areas are now calling in their record orders. This means they need records right away and that spring has made its appearance up North. It proves, too, that the operators are working hard to get their summer routes in shape."

Disks in demand for juke box operators at Radio Doctors include the current local No. 1 "Roses Are Red" by Bobby Vinton on Epic. Up from practically nowhere within the past week is "The Stripper," by David Rose on MGM. Also important with operators is "Limbo Rock," with the Chants, on Challenge. A late starter, but moving fast, is "Wolverton Mountain." Also making a strong im-

pact on the operator trade is Elvis Presley's EP, "Follow That Dream," from the motion picture. According to Jim Mayer, Record City, ragtime piano and banjo music is gaining in popularity with Milwaukee coinmen. A newcomer to the list of current ragtime piano sellers is "Snow Deer Rag," with Eddie Smith on King Records.

A batch of recently released singles by the Banjo Barons on Columbia has jumped quickly to the top of the operator shopping lists, adds Mayer. The items are all old favorites such as "Nobody's Sweetheart Now" and "My Gal Sal."

These piano and banjo favorites have been catching on with operators despite lack of radio promotion. "They are just good tavern stuff," explains Mayer.

Also hitting high-volume levels with the juke box boys at Record City are "Wolverton Mountain" and "Snap Your Fingers," with Joe Henderson on Todd.

Board to Weigh MOA Shifts

Continued from page 43

current difficulties has been the friction between Miller and Ratajack on one hand and three of the four major juke box manufacturers on the other.

For several years, Seeburg, Wurlitzer and Rock-Ola did not see eye to eye with George Miller. And at least one of these three firms felt that because of Ratajack's previous connection with AMI, favoritism was being shown within the organization.

Regardless of the merits of these charges, Seeburg, Wurlitzer and Rock-Ola have refused to exhibit at the last two MOA conventions.

Prime Cause

And this refusal has been the prime cause for MOA's weakened position.

The MOA directors are banking on the premise that a new man at the helm will bring the three manufacturers back in the fold. And they also feel that a basic organizational change will still the complaints that the MOA is governed by a small ruling clique.

One group within the MOA will push for a 100-man board of directors.

Good Old Days

Assuming that these tactics are successful in enticing Wurlitzer, Seeburg and Rock-Ola into supporting MOA, the result could be a return to the good old days, when the MOA convention was a major trade show.

With all the juke box manufacturers exhibiting at the convention, the number of distributors attending would be increased substantially. And each returning distributor would probably bring with him several operators—enough to bring up convention attendance to a respectable figure.

Record Companies

Pursuing this line of reasoning, well-attended conventions would bring in the record companies as exhibitors. The record companies have been giving the MOA luke warm support for a very simple reason—they didn't feel the low attendance warranted the expense of buying booth space and sending their top brass to the show.

Assuming that all this takes place, MOA will have a war chest. A well-attended convention with exhibit space sold out could be extremely profitable.

If the convention profits are put to proper use—setting up an effective public relations program, scheduling regional meetings between conventions and providing legislative counsel at the local level—MOA membership rolls should swell. Right now, the organization has only scratched its membership potential.

This was the reasoning behind MOA's recent reorganization, and this is the reasoning which will probably prevail when the directors hold their San Francisco meet in October.

Denver Finds New Machines Big Earners

DENVER—A balmy first week in May kept collections up for Denver phonograph and amusement machine operators, with volume apparently best in the latter classification. Games, which were practically non-existent on the Denver scene for three years, have proven such consistent earners that almost every operator is installing them on what were formerly phonograph-only locations. Distributors report an extremely brisk turnover in used games, particularly in five-balls, which had in the past occupied only a quasi-legal status.

Spring housecleaning in some locations posed a problem that irritated numerous operators. It was necessary to remove phonographs and amusement machines from locations to keep them from being splattered with cleaning compounds and paint.

Distributors also report that the "watch and wait" attitude which prevailed among operators for at least six months has largely evaporated, and that orders are coming through for new phonographs, particularly compacts.

The top five juke box tunes are "Everybody Loves Me But You" by Brenda Lee, "Uptown" by the Crystals, "I Sold My Heart to the Junkman" by the Blue Bells, "How Can I Meet Her?" by the Everly Brothers, and "You Are Mine" by Frankie Avalon.

Local Officials Wield Ordinances to Crack Down on Pinball Ops

CHICAGO—Local ordinances are being used in many Illinois communities for a crackdown on pinball operations.

Owners of the Surfside Lounge in Round Lake Park near Waukegan were fined \$50 and costs last week for failure to obtain a village license for each piece of pin equipment.

Police Magistrate Dulany Bennett ruled that Sam Perrone, owner of the amusement center, was in violation in obtaining only three licenses for the five machines on his premises.

License in Drawer

Police Chief Edward McNamara charged that the location owner would leave his license in a drawer and the ordinance requires that they be attached to the equipment. He said further that Perrone would change machines in the effort to put the most popular device in use.

In addition to the fine, Perrone was ordered to buy two additional licenses.

Meanwhile, Riverside became the third Chicago suburb to adopt an

SALES RISE 16% AT WURLITZER

NORTH TONAWANDA, N. Y.—Sales of the Wurlitzer Company for the fiscal year ended March 31 were \$40,522,730, up 16 per cent from the previous fiscal year, according to R. C. Roling, president. Net earnings were \$1,201,859, equal to \$1.35 a share on 891,137 shares outstanding. Earnings for the previous year were \$1.54 a share on 888,538 shares. Roling said he expects improved sales and earnings for the current fiscal year.

anti-pin ordinance. In so doing, the community followed similar action in Franklin Park and Evergreen Park.

The Riverside ordinance provides for fines of \$10 to \$200 for the operation of pins with each day of operation constituting a separate offense.

The ordinance also fixes fines ranging from \$25 to \$200 for obstruction to the enforcement of the law.

Circuit Judge B. (Fain) Tucker has upheld the validity of such ordinances.

Chicago Sees Ops, Dealers On Same Kick

CHICAGO—Operator reaction to disks last week appeared to coincide greatly with dealer reactions. Top requested disk by operators was "I Can't Stop Loving You," by Ray Charles on ABC. The flip, "Born to Lose," also proved strong. The top side is a breakout in this area as determined by dealer sales.

Another strong operator selection was Paul Anka's RCA waxing of "I Never Knew Your Home" and "Steel Guitar and a Glass of Wine." The later half of this disk is also strong dealerwise.

Johnny Tillotson's recording of "It Keeps Hurting," on Cadence, is selling well to operators. The ops claim this is due to the fact that the recording is a ballad.

Operators and dealers alike are starting strong on the Volumes' recording of "I Love You" on Chex.

One-stop reaction in the Windy City showed there was spotty business but nothing to really crow about.

Say Solon Also Was on Moore's Side

NEW YORK—The bizarre case of Sanford J. Moore, former Long Island juke box operator and distributor, took a new turn Wednesday (16) when Rep. Eugene J. Keogh (D., N. Y.) was charged with having interceded with a federal judge in 1961 on behalf of Moore.

Moore had previously pleaded guilty in Federal Court to a charge of having concealed assets in a bankruptcy case involving his vast

Long Island operation.

Since then, New York Supreme Court Justice J. Vincent Keogh and Elliot Kahaner, former chief assistant United States Attorney for the Eastern District of New York, have been indicted on charges of accepting a \$35,000 bribe to get Moore a light or suspended sentence.

Charges Shakedown

Moore later testified that the \$35,000 which allegedly passed

hands was a shakedown, not a bribe.

The two Keoghs involved in the case are brothers. Another leading figure is Dr. Albert M. Erdman, a New York surgeon, who confessed to being an intermediary in the transaction. Moore and Dr. Erdman received a severance of their trials when they agreed to testify for the government.

Justice Keogh is on trial on the bribery count, as is Antonio (Tony Ducks) Corallo, local racketeer. Corallo is accused of helping Moore raise the \$35,000.

In the opening day's testimony, Dr. Erdman said he gave Justice Keogh \$22,500 and Kahaner \$12,500 in attempts to quash the indictment against Moore, then to get Moore a suspended sentence.

Brother Act

Erdman then testified that Judge Keogh telephoned him, saying that Keogh's brother (the Congressman) was going to see Judge Leo F. Rayfiel. Judge Rayfiel was the trial judge in the Moore bankruptcy case.

Erdman added that he had seen Judge Keogh in his chambers with Moore and that "Judge Keogh said his brother had seen the judge and that Rayfiel was 'mellowing'."

At the time of the alleged meeting, Judge Rayfiel was advised of a statement attributed to Moore that he had the judge "in my hip pocket."

Another allegation made by Erdman was that he overheard a telephone conversation between Judge Keogh and Judge Rayfiel, and that during this alleged conversation, Judge Keogh mentioned "a motion for a reduction and a motion for a stay."

Neither request was granted.

manufacturing division of AC, both in phonographs as well as vending lines.

The new Rowe-AMI phonograph has a distinct new style which is highlighted by an optical kaliedoscope which is lighted in various colors. The varied designs which are constantly formed by the star-shaped instrument is an eye-catching reminder. As one operator put it: "This is a silent shill that literally shouts 'put a dime in me'."

Orbital Sound

Also featured on the 1962 model is the new "orbital sound of stereo round." This is a completely self-contained stereophonic system.

On the front of the unit is a Top Talent Tune display featuring a space for an album cover, and a panel in which the location name can be displayed in an

illuminated in an easy-to-read field of backlighted blue.

The unit is packed with serviceman features of easy-to-open panels, simple dismantle connections, a circuit breaker cut-off device to prevent fuse blowing, and many newly incorporated electronic and mechanical features.

Four Speakers

The stereo speaker system is complemented by an array of acoustical filters to provide each speaker with a specific coverage and power level. Four speakers include a woofer, a tweeter and two intermediate range speakers. The unit is designed so that extension speakers may also be used.

Johnson noted that the manufacturing division will shortly open a new plant facility in Whippany, N. J. The plant, which has an area of 150,000 square feet, will be ready for production some time around July 1, 1962. According to Johnson, this addition will give the manufacturing division over 1,000,000 square feet of manufacturing space, counting the Grand Rapids and Rockford, Ill., facilities.

COLLECTIONS JUMPED OVER 40%

THANKS TO WURLITZER TEN TOP TUNES FEATURE

On March 22nd a new Wurlitzer 2600 with the exclusive Ten Top Tunes feature was installed in Danny's Taproom, Minneapolis, Minnesota. In the first week this location enjoyed a 40% plus increase in earnings over the former phonograph! Now, six weeks later, this increase in earnings is holding up on every collection — and the best part of it all is, that more than 50% of the money in the cash box consists of half-dollars.

Get this musical bargain at work for you in your locations. Nothing in the industry equals this magnificent magnet for fifty-cent coins.
