SPECIAL - Don't discard your wire-bumper pin games. We are now changing them over to Plastic Bumpers with New Panel and Cabinet Designs as well as New Back Glass, New Names and New Ideas. They are the most beautiful games ever turned out. You must see these games to appreciate them. You will definitely not recognize them from the old game. All units are thoroly checked over and put into perfect working condition and percentaged. All exposed plated parts are cleaned up. They look new. (We have designed over 80% of all coin machines in Chicago for the past 11 years.) We can give you quick delivery on any of the following games we are now changing over: Formation changed to "Torpedo Patrol"; Powerhouse now "Paratroop"; Big League now "Eagle Squadron"; Big Town now "Eagle Squadron"; Follies now "Bombardier"; Blondie now "Production" and Mr. Chips now "Shangri-La". Write for full details immediately. (We have been members of the Coin Machine Association for the past seven years.)

"THE COIN MACHINE MERRY-GO-ROUND"

BY BILL GERSH

FACTORY MUSIC

For the past few issues we've done a bit of harping on factory music. We have not only reported the original article on factory music as it appeared in Forbes' magazine, in the press of the country and later in Reader's Digest, but, we also gave you the story of the "Inquiring Photographer" (Jimmy Jemal of the N. Y. News) and the fact that each and every one of the executives he approached on this subject were very much in favor of music for workers. The effect of music on workers has been extremely good. More and more war plants and factories are now installing any type of music they can obtain. There is no reason why you can't remove the coin chute from one of your old phonos and install it on a darn good rental basis in the factories in your town, helping your music operation generally and certainly proving your machines essential to the war effort. This past week Prof. Harold Burris-Meyer, Director of Research in Sound at Stevens Institute of Technology, reported on investigations made in a number of factories and war plants in the East to determine whether music played in factories influences the production rate and how much. He learned that production gains from 1.3% to 11.1% and that rate of work is generally increased. Prof. Burris-Meyers also envisions a special type of music developing which will be of great benefit to composers as well as industry.

N. Y. GAS-LIQ-CIG TAXES

Gasoline sales in N. Y. State in Aug. reflected the full effect of gas rationing. Taxable motor fuel sales dropped 39% compared to the same period in '41. (Monetary loss to the state \$39,000,000.) Liquor sales slumped in both Aug. & Sept. State collections down \$960,675. Ciggies remained stable. Receipts totaled \$2,196,057. Gain of \$73,276. over the same month (Sept.) in '41. With states losing revenue at such alarming rate we wonder whether they will once again turn their peepers on coingames for additional revenue?

MOTOR TRANSPORT

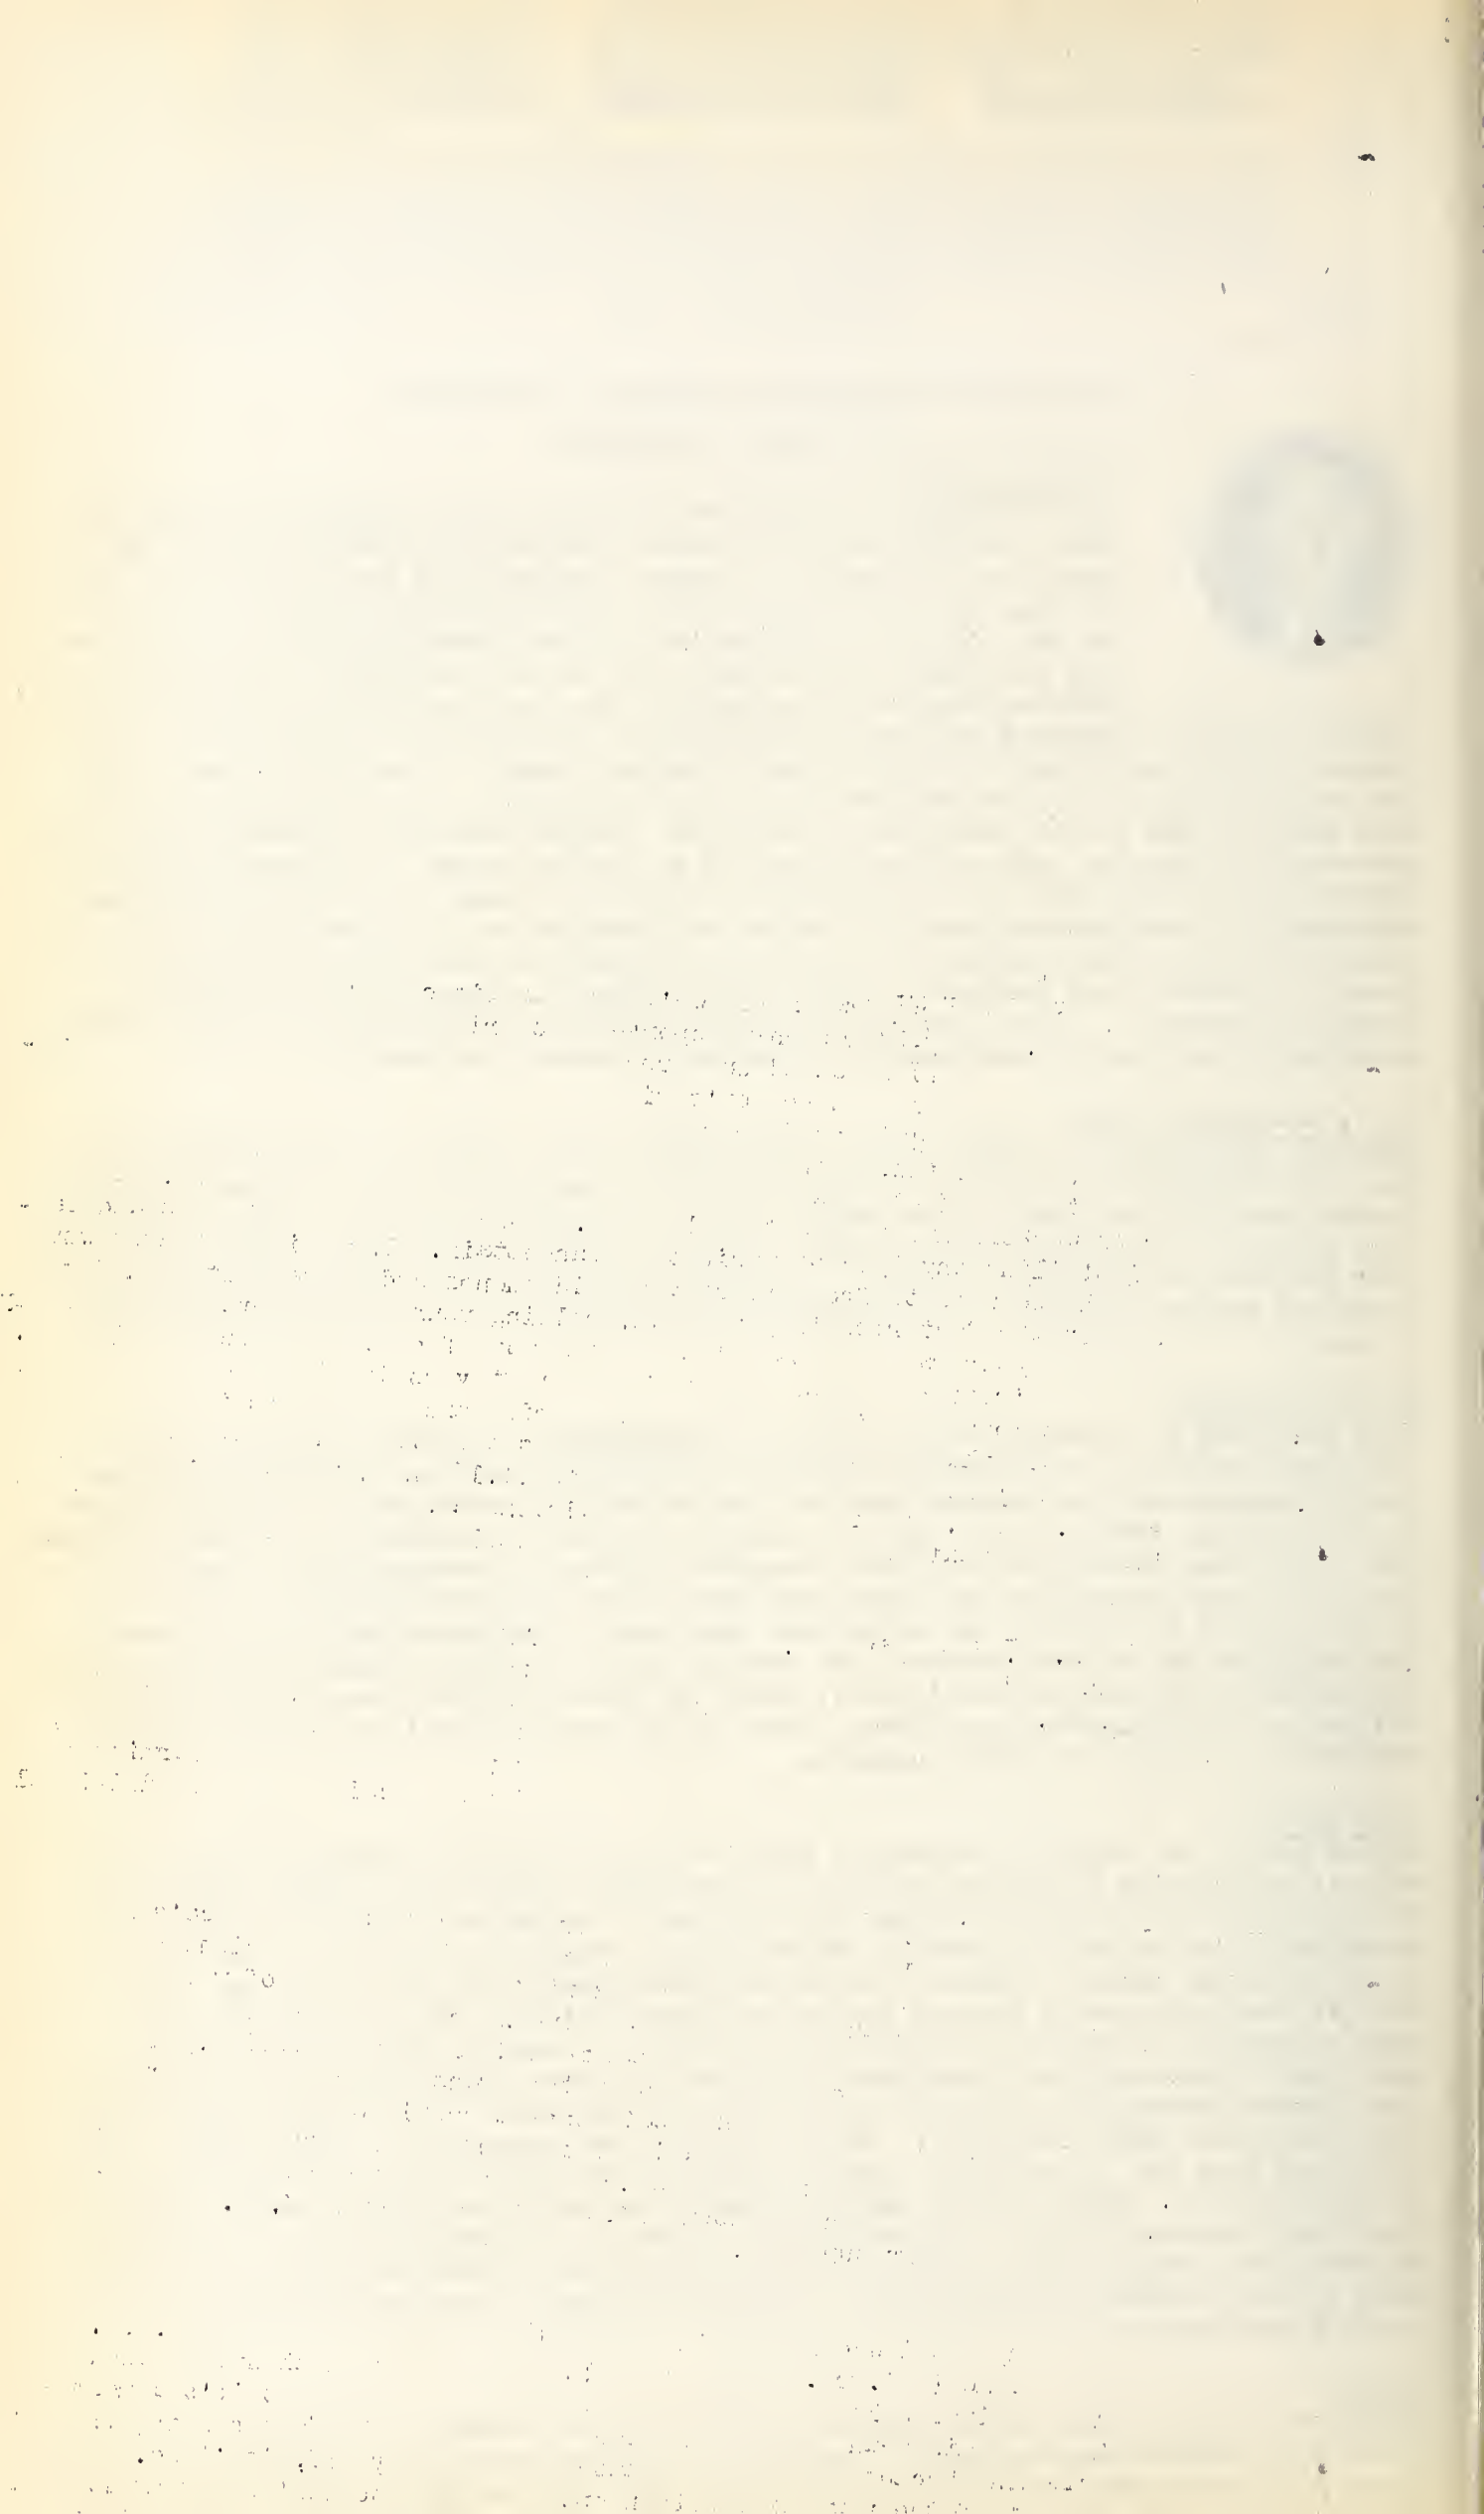

This past week you probably read of all the compliments being paid America's motor transport because of the marvelous fashion in which they have so efficiently handled their business and also because they are keeping rolling regardless of war conditions (gas rationing, lack of tires and new trucks). Trucks are extremely important to coinmen. They have proven best and most economical method of transportation. The fact that Washington's big-wigs are so pleased over motor transport means that trucks will go on carrying freight for the nation and that means a continued method of shipment for this industry without necessity of crating larger equipment (soft wood crating now prohibited). In case you didn't know: there are about 4,890,000 non-military trucks rolling on U. S. highways right now. About 54,000 communities in U. S. are entirely dependent on trucks for their supplies.

COIN TAXES

No one as yet has complete lowdown on coin taxes (in bill just signed by F.D.R.) and this is our closing time (Fri. Oct. 23) but from latest reports which have leaked out, all amusement (?) machines will pay \$10. per year. We all know that it's almost impossible to define what is meant by an "amusement machine". By just stating that it is an amusement machine because it does not automatically pay off, isn't so. Yet, if this is the viewpoint of the new tax law then ops will have to confine themselves to this viewpoint. Very few territories are supposed to make payoffs anyway. We all know that. Therefore, most equipment is instantly thrown into "amusement" classification. Slots paying \$100. per year aren't in the least hurt. Nor are the diggers for territory is so small for these. Yet, if diggers can operate with silver coins, then \$100. per year tax is picayune. Counter games, check payout type, will also come within \$100. ruling. Other counter games, according to new rule, should therefore come into \$10. amusement class. The definition of what is a "gambling device" and what is an "amusement machine" has always been the biggest bone of contention between the members of this industry and officials. The best that can be said at this time is to await clarifications.

C.P.L.

The "Confidential Price Lists" (C.P.L.) are the finest barometer of market conditions that this industry has ever had. Use these at every opportunity. Note these past few weeks how games have been fluctuating in price like men stumbling around in the dark. Tho the prices of most games have gone up (tremendously in some cases) a lot of small coinmen come along every so often to crack the market. Much of this is due to fright.

"THE COIN MACHINE MERRY-GO-ROUND"

A lot is due to the fact that machines are now being pulled in from outlying spots because of approach of gas rationing (as happened in the East) and being spilled on the market for any price to raise cash. (These men, like the Easterners, will be plenty sorry they gave their machines away. Most of the Eastern coinmen would pay the same price they sold at to get them back now.) What we started out to say was - keep your eyes peeled onto the Confidential Price Lists. The field is changing rapidly. Games are coming and going. Know what's happening in this feverish business.

SCOOP

Last Friday, as we started to press, we added a confidential tip onto one article we had written regarding the Petrillo controversy. This was the fact that mfrs of records would settle with Petrillo if they had to even tho this would be an extremely bitter pill for them to swallow. On Saturday, the well known columnist of the N. Y. Post, Leonard Lyons, in his column "The Lyon's Den", reported, "A compromise being effected with Petrillo may permit stations to use recordings for broadcasts before 6 P. M. on condition that musicians be used for the evening programs. And juke boxes will be permitted to operate in licensed places too small to use orchestras." This weeks story cracks press that certain broadcast chains (who won't allow names to be mentioned) are out to compromise with Petrillo so that they will not have to go thru an expensive court battle and involve themselves in labor dispute in time of war. They point out that A. F. of L. is with Petrillo as noted at its convention in Toronto. Thursday morning the big chains, N.B.C. and C.B.S. (with M.B.S. still not talking too much) claim that they are going to fight. But, where do phonops head in with all this? Simply the scoop we made (and we repeat it again even tho it's off-the-record statement) that the record mfrs will settle with Petrillo if necessary - only after every other opportunity is gone - and even then it will be a very, very bitter pill for them to swallow. (But, we do not imagine that this will stop Dept. of Justice from going ahead with its case where Petrillo is concerned.)

PERMIT WARNING

Some issues back we told you about ODT (Office of Defense Transportation) requiring that every commercial vehicle have "certificate of war necessity" by November 15th. Without a certificate it will be impossible to obtain gas, tires or parts. Carriers have received application blanks and have filled them out. If you have commercial vehicles go over to ODT Motor Transport Division at once and get Form to fill out. All trucks, buses, taxicabs and other commercial vehicles must carry certificates of war necessity by Nov. 15th. (Don't worry - you'll get one - proving that your vehicles are necessity to you to continue your business.)

SLOT NOSTALGIA

If you haven't read the Henry McLemore column "In The Reviewing Stand" (which appeared in Hearst papers thruout the country) we saw it in the N.Y. Journal-American (Wed., Oct. 21) entitled "The Slot Machines Disappear, Oh My!" then get the paper somewhere and read it. You'll get a kick out of this entire column devoted to Mr. McLemore's rambling thoughts after he saw trucks hauling slots away to be broken up. In one paragraph he writes, "I know slot machines are cruel and vicious and unfair and would pick a pocket if given half a chance and there is no record of one helping an old lady across the street. Still I hate to see them disappear and here's the reason why: I want revenge. My bones ache for a chance to get back at those sullen iron boxes with bells, cherries, lemons, plums and oranges." Further on he writes, "For five years I wasted my money and time on unsuccessful 'systems' of beating the machines. Some of my 'systems' are undoubtedly familiar to you. One that cost me goodness knows how much in nickels and dimes was based on the theory that the smart time, the right time to play the machines was after someone else had put a lot of money into them without getting a payoff. I used to stalk the machines and players like a hungry panther. The minute a player who had put in lots of change without getting so much as two cherries, quit, I would pounce. There is no good 'system'. The lemons on a slot machine are inexhaustible." Later on he states, "Those good old sucker days are gone forever. I'll remember them however. Sure, I know they were bad and that the slot machine made a fool out of me and a lot of other people, but did you ever stop to remember that the things we remember most clearly, the moments in our lives that are dearest to us, are the things and the moments when we took a chance, made a fool of ourselves or generally acted unlike a sound, solid, sterling specimen of the human race? How many people are loved for their virtues?" And he still goes on and winds up with a bang. It's a honey - get it.

"INFORMATION CENTER"

One of the greatest tributes being paid The Cash Box these days is the manner in which subscribers from all over the country write, wire and phone asking for information regarding every sort of coin machine as well as a lot of things entirely out of the coin machines field.

Here's an example of inquiries received during one day last week. From Birmingham, Ala., "Where can I get 10c packs of phono needles at wholesale?" From New York, "Who has some .22 cal. shorts for sale?" From Baltimore, Md., "Who has some records to sell? And please phone Capitol Records and have them send us samples." From Charleston, W. Va., "Who has an A.B.T. Rifle Range for sale?" From Denver, Col., "I only want to buy scales." From Long Island, "I just picked up a legal game — can you tell me its market value?" From Brooklyn, "Who has some 30-wire cable?" From San Francisco, "Am enclosing check for \$500. as deposit on merchandise purchased from a New York advertiser. If reliable and you know him turn check over to him."

And so it goes — all day long. Requests to do something, inquiries about something or other — from all around the country. Everyone asking The Cash Box for something else. We've even had some of our more sporting subscribers phone and wire us to ask, "Hey, can you get me two tickets for the fights at the Garden this Friday night?" (We got 'em.) Another phoned, "How about a couple of seats at the World's Series?" (We satisfied him.) And still another wired, "Please reserve room for me. Will be down early Saturday morning. Wouldn't mind a cute blonde being there, too."

In short, as one noted coinman from Texas remarked (who was sitting in our office, visiting with us, and listening to our answers to questions) "Heck, Bill, this is really the 'information center' of the coin machine business." So, if you haven't as yet taken advantage of the "information center" here at The Cash Box offices, do so at anytime you need some information, it's free. (But, Holy Smokes, stop asking for "that cute blonde's phone number". That's not yet legally recognized as a coin machine. And, what's more, we may fool you, by ringing in a brunette.)
