

RISE AGAIN

சுமந்திரம்

1.

SONIC YOUTH

Well I've opened my heart
And I've lived and learned
And I've taken a step in his world
Well I've danced in the shadow
And I felt the sonic boom
And I am who I am with you...

* Racing forward on my mind
Crushing 40 all the time
Never seems to disappear oh no

Always know always knowing that you're near

** Now don't you worry
It's a never ending story
Stand proud and let it out
Let'em know let it show
Wait till they hear...
Hear the Sonic Youth

It's as easy as you want it to be...
it's easy it's easy like a 1,2,3
It's as easy as you want it to be...
it's easy it's easy when you're the sonic youth

Like a Sonic Hero
Or a knight in the wind
Now you know what I'm made of...
And you can watch me fly
Live life or die
Never turn back... it's you and I

* Repeat

You can feel the sonic youth is near

**Repeat

**Repeat

I'm in a state of confusion baby lost but on my way
I'm spinning round and round again and again
I tripped and fell in the same direction got lost along the way
I'm spinning round and round and round and round again

* Feel like I'm floating in the atmosphere when you're near
Feel like I'm running round' with one show on and the other near
And gotta run for higher ground...

**What can I say
There's my reflection in a new direction again
What can I say
In a million ways just one of those days again
What can I do about it nothing really
Don't feel much like touchy feely
So get away let's end this day
Write this off for... one of those days
One of those awful days

I'm in a state of illusion baby got lost along my way
Just want this day to end and go away...

* Repeat

**Repeat

Always an omen you never can control em'
The weight is on your back
Saving the world as you slip and fall
And you bump your head
Least you're alive not dead

**Repeat

ONE OF THOSE DAYS

RISE AGAIN

When you're feeling like your all but overthrown
Remember this you are not alone
When you bite off more than you can chew
And at the end of your rope you tangled yourself
through

And you kick to break it... 7 ways to fake it
All again all again
And you try to make it... and you try to take it to
move on through

**When I'm low I'm gonna rise again
Overshadow overtake and win
When I'm low I'm gonna rise again
That's when I am movin' on...
Rise Again

When you're feeling like your head is like a stone
Remember this you are not alone
When you bite it off you can spit it out
Tie it up and throw it out

Repeat

**Repeat

When you're feeling like your giving up on
everything that moves you
On and on, rise again

**Repeat

I can't believe just what I see
Even though it's staring back at me
This can't be true make believe
It's so impossible the things in front of me

And time stands still and tears fall like rain
Holding on to anything and everything

* Sing for hope
Sing for dreams
Stand together that's what it means
Sing for love
It's all I can do
This is a song of hope for you I'll sing it for you

Lend me your hand lend me your voice
Lend me your ears to hear the silence in the noise
Shine down on me shine down on you
Just lean on faith for greater things than this can do

We'll pave a strong road winding down from where
we've been
Holding on to anything and everything

I can feel your fear yeah I feel it
Knowing you're not alone hope you feel it
And with my voice and with my voice
I'll sing for you

Song of hope
Song of dreams
That's what it means

* Repeat
