# FOREWORD

*AI: THE SOMNIUM FILES* is a completely new, original title. It's not a sequel or a spinoff, it's not based on a manga or light novel, and it doesn't use preexisting characters.

We created this from zero.

The characters, the world, the story, the game system, all of it! It was like staring at a blank canvas, trying to draw a monster that you've never seen before. There was no easy "Answer." Of course, me being the Director, an Answer-ish thing existed inside me, but I didn't know if it was the correct one... To be honest, it was the staff of this project that taught me the right Answer as we worked on this game together.

I think this is the first time that I relied on my team for so many creative parts of the game. Most of the game's moving parts, the 0s into 1s, were ideas from the staff. That's why I see this project not as "my" game, but as "our" game. I want to thank them from the bottom of my heart!

And I also want to thank you, who are holding this artbook right now. I'm repeating myself, but this is a completely original title. You didn't know if this game would be fun at all, but you went ahead and bought it anyway! I would like to express my gratitude for your courage.

But it's okay, don't worry. I promise this game will not disappoint you. When you reach the ending, you will realize that your decision was the correct Answer.

"AI" in Japanese means "Love." I would like to present this game to you with all of my Love! Thank you very much!

-KOTARO UCHIKOSHI

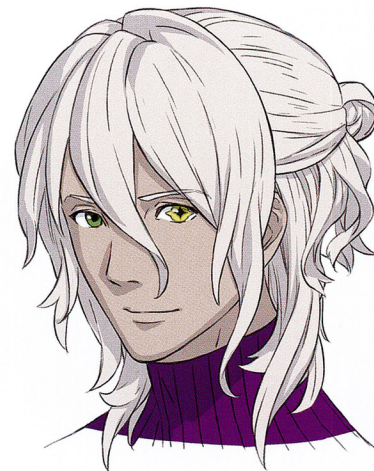

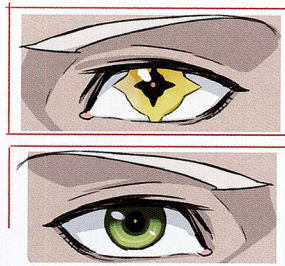

# KANAME DATE

AGE: 30 GENDER: Male BIRTHDAY: 08/03

As a Psyncer, Date uses the Psync machine to dive into the minds of suspects or persons of interest. He lost his eye and all his memories six years ago. His missing eye has been replaced with an AI-Ball, a prosthetic eyeball which contains an advanced artificial intelligence.

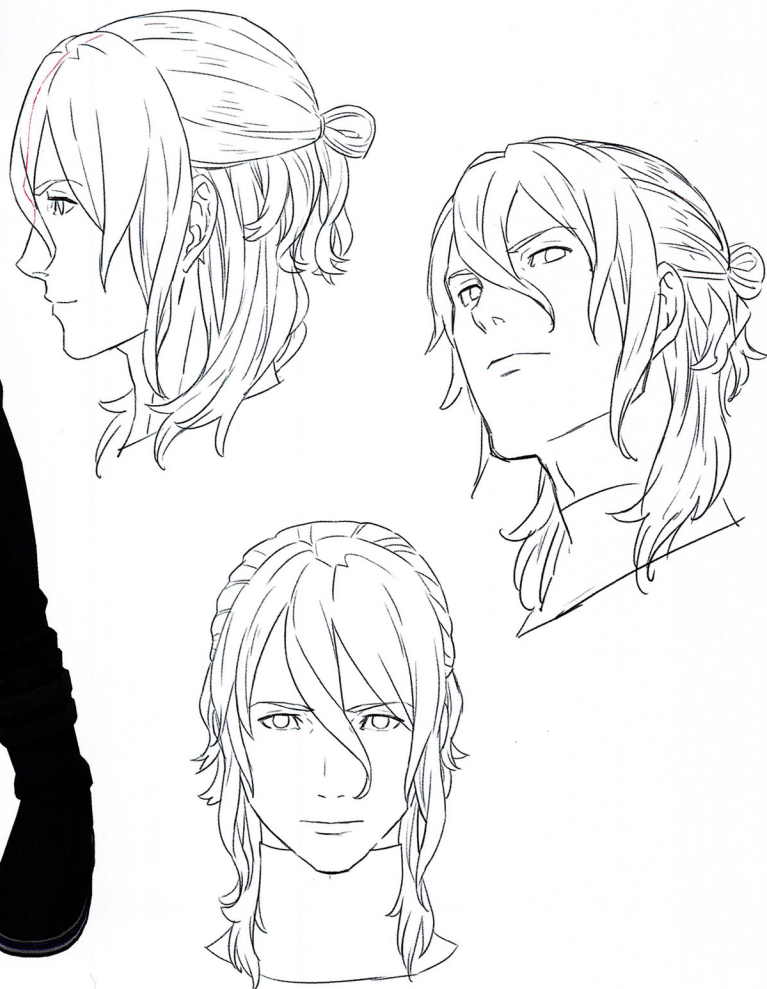

FINAL RENDER

Some time after he began working for ABIS, Pewter presented Date with an artificial eyeball housing an AI: the "AI-Ball," or "Aiba." This artificial eye can perform numerous functions that assist Date with investigations, such as zoom, thermograph, and X-ray vision. Aiba can communicate with Date wirelessly through a link in his optic nerve to his brain, and thus does not always need to be inside his eye socket. However, Aiba does need to be recharged from time to time.

An avid collector of vintage "magazines."

# AIBA

# BLOOM PARK (Concept)

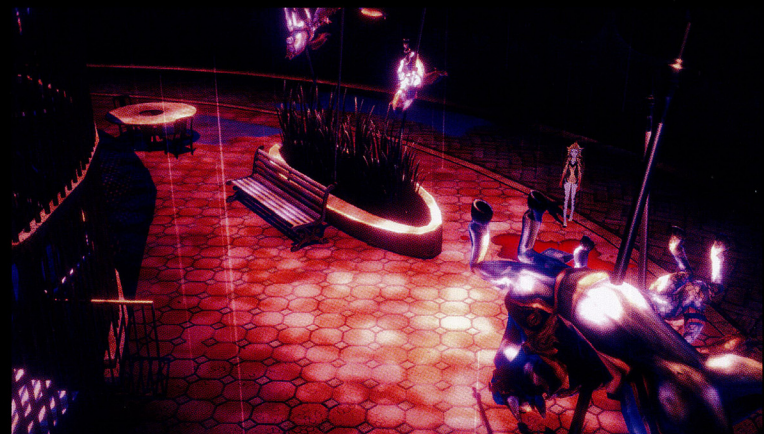

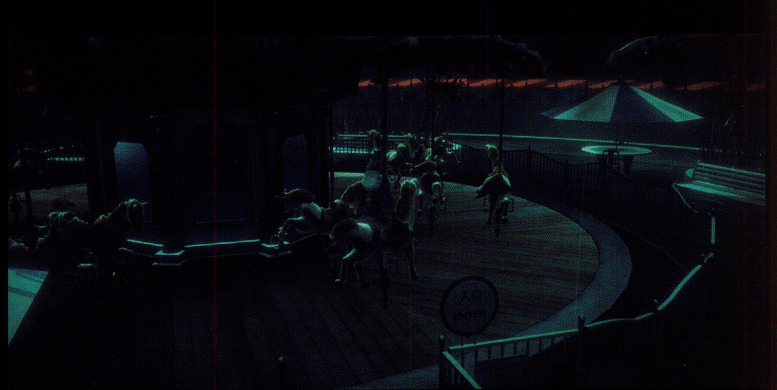

# BLOOM PARK (Somnium)

Mizuki's Somnium. The bird cage is meant to symbolize feeling trapped and restricted while the storm is meant to symbolize her inner turmoil.

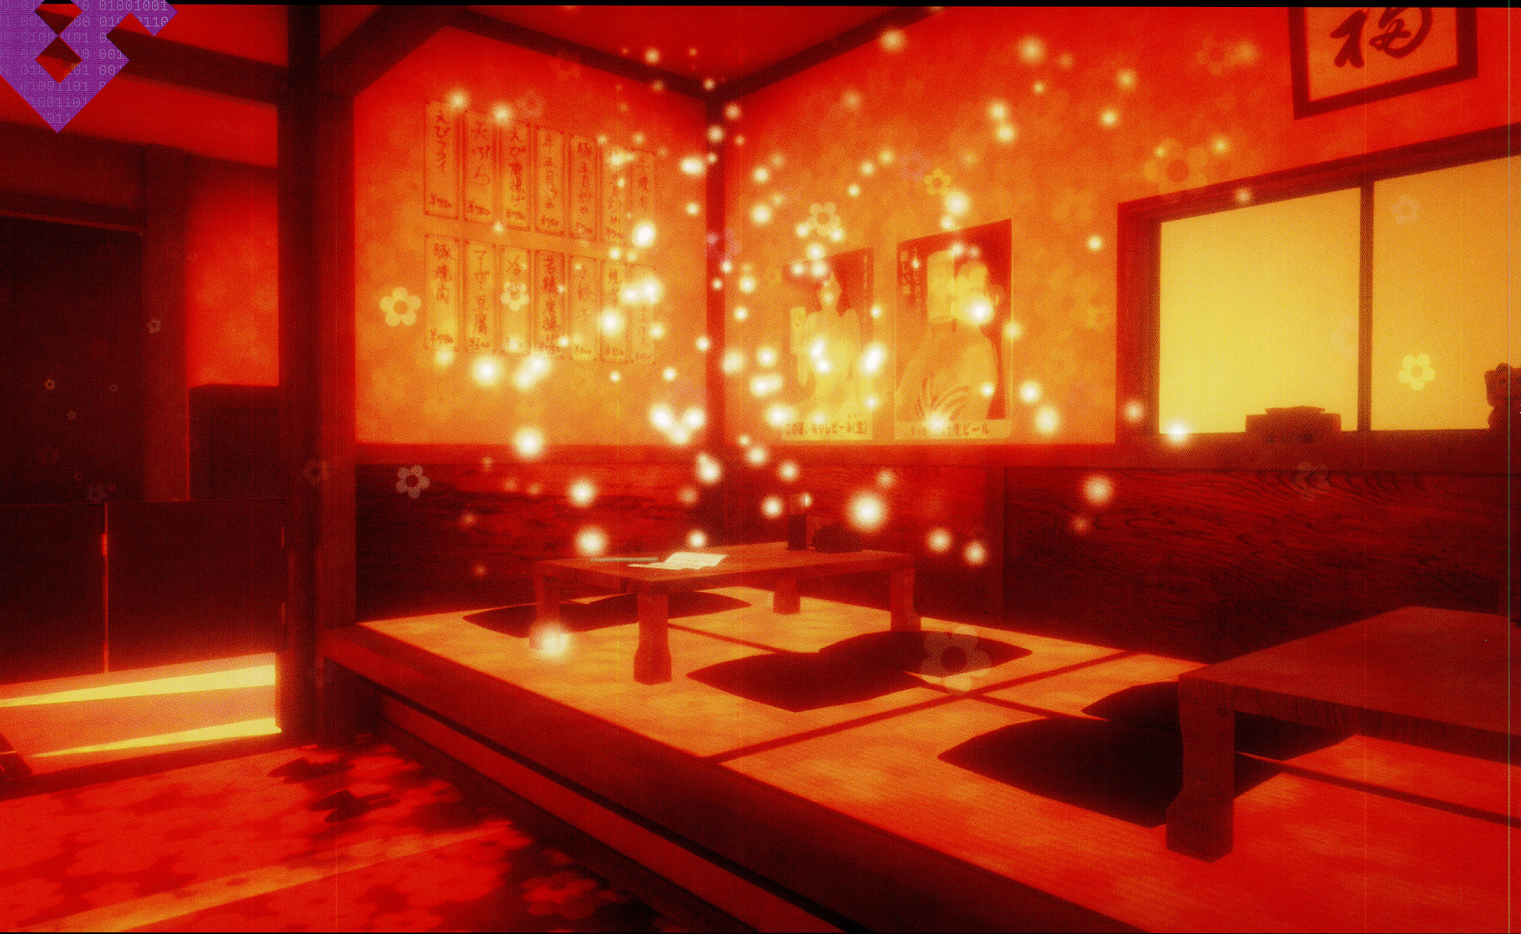

# BLOOM PARK (Investigation)

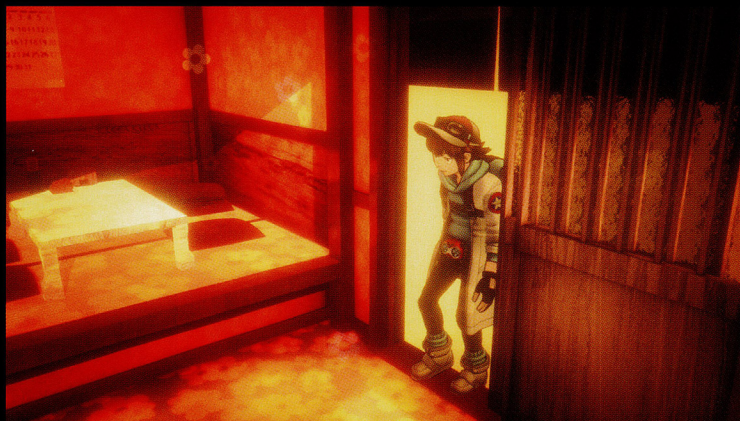

An amusement park for families with young children. It used to draw in crowds regularly, but the chemical plant explosion in the Kabasaki District caused turnout to diminish rapidly, soon ceasing altogether. The park was eventually closed and then abandoned. Since then, a number of urban legends about the park have spread, and exploring the park at night is a popular test of bravery for teenagers.

# MATSUSHITA DINER (Somnium)

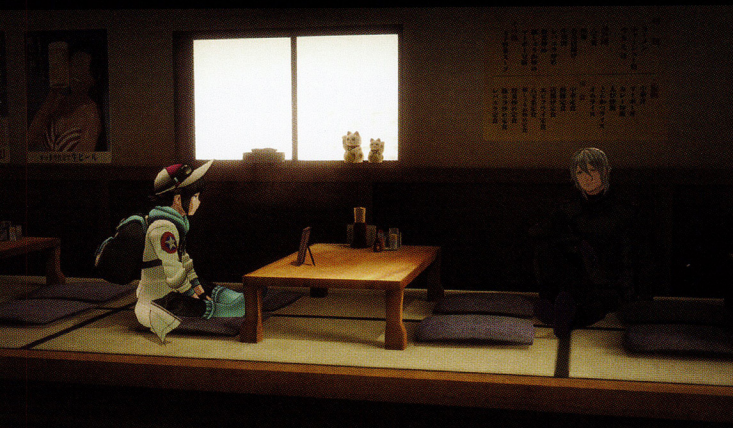

Mayumi's Somnium. The Somnium is bright and colorful, representing Mayumi's outward happiness. However, the world itself is fragmented into pieces and full of painful memories, symbolic of Mayumi's dementia. Mayumi's favorite flower pattern is also featured prominently.

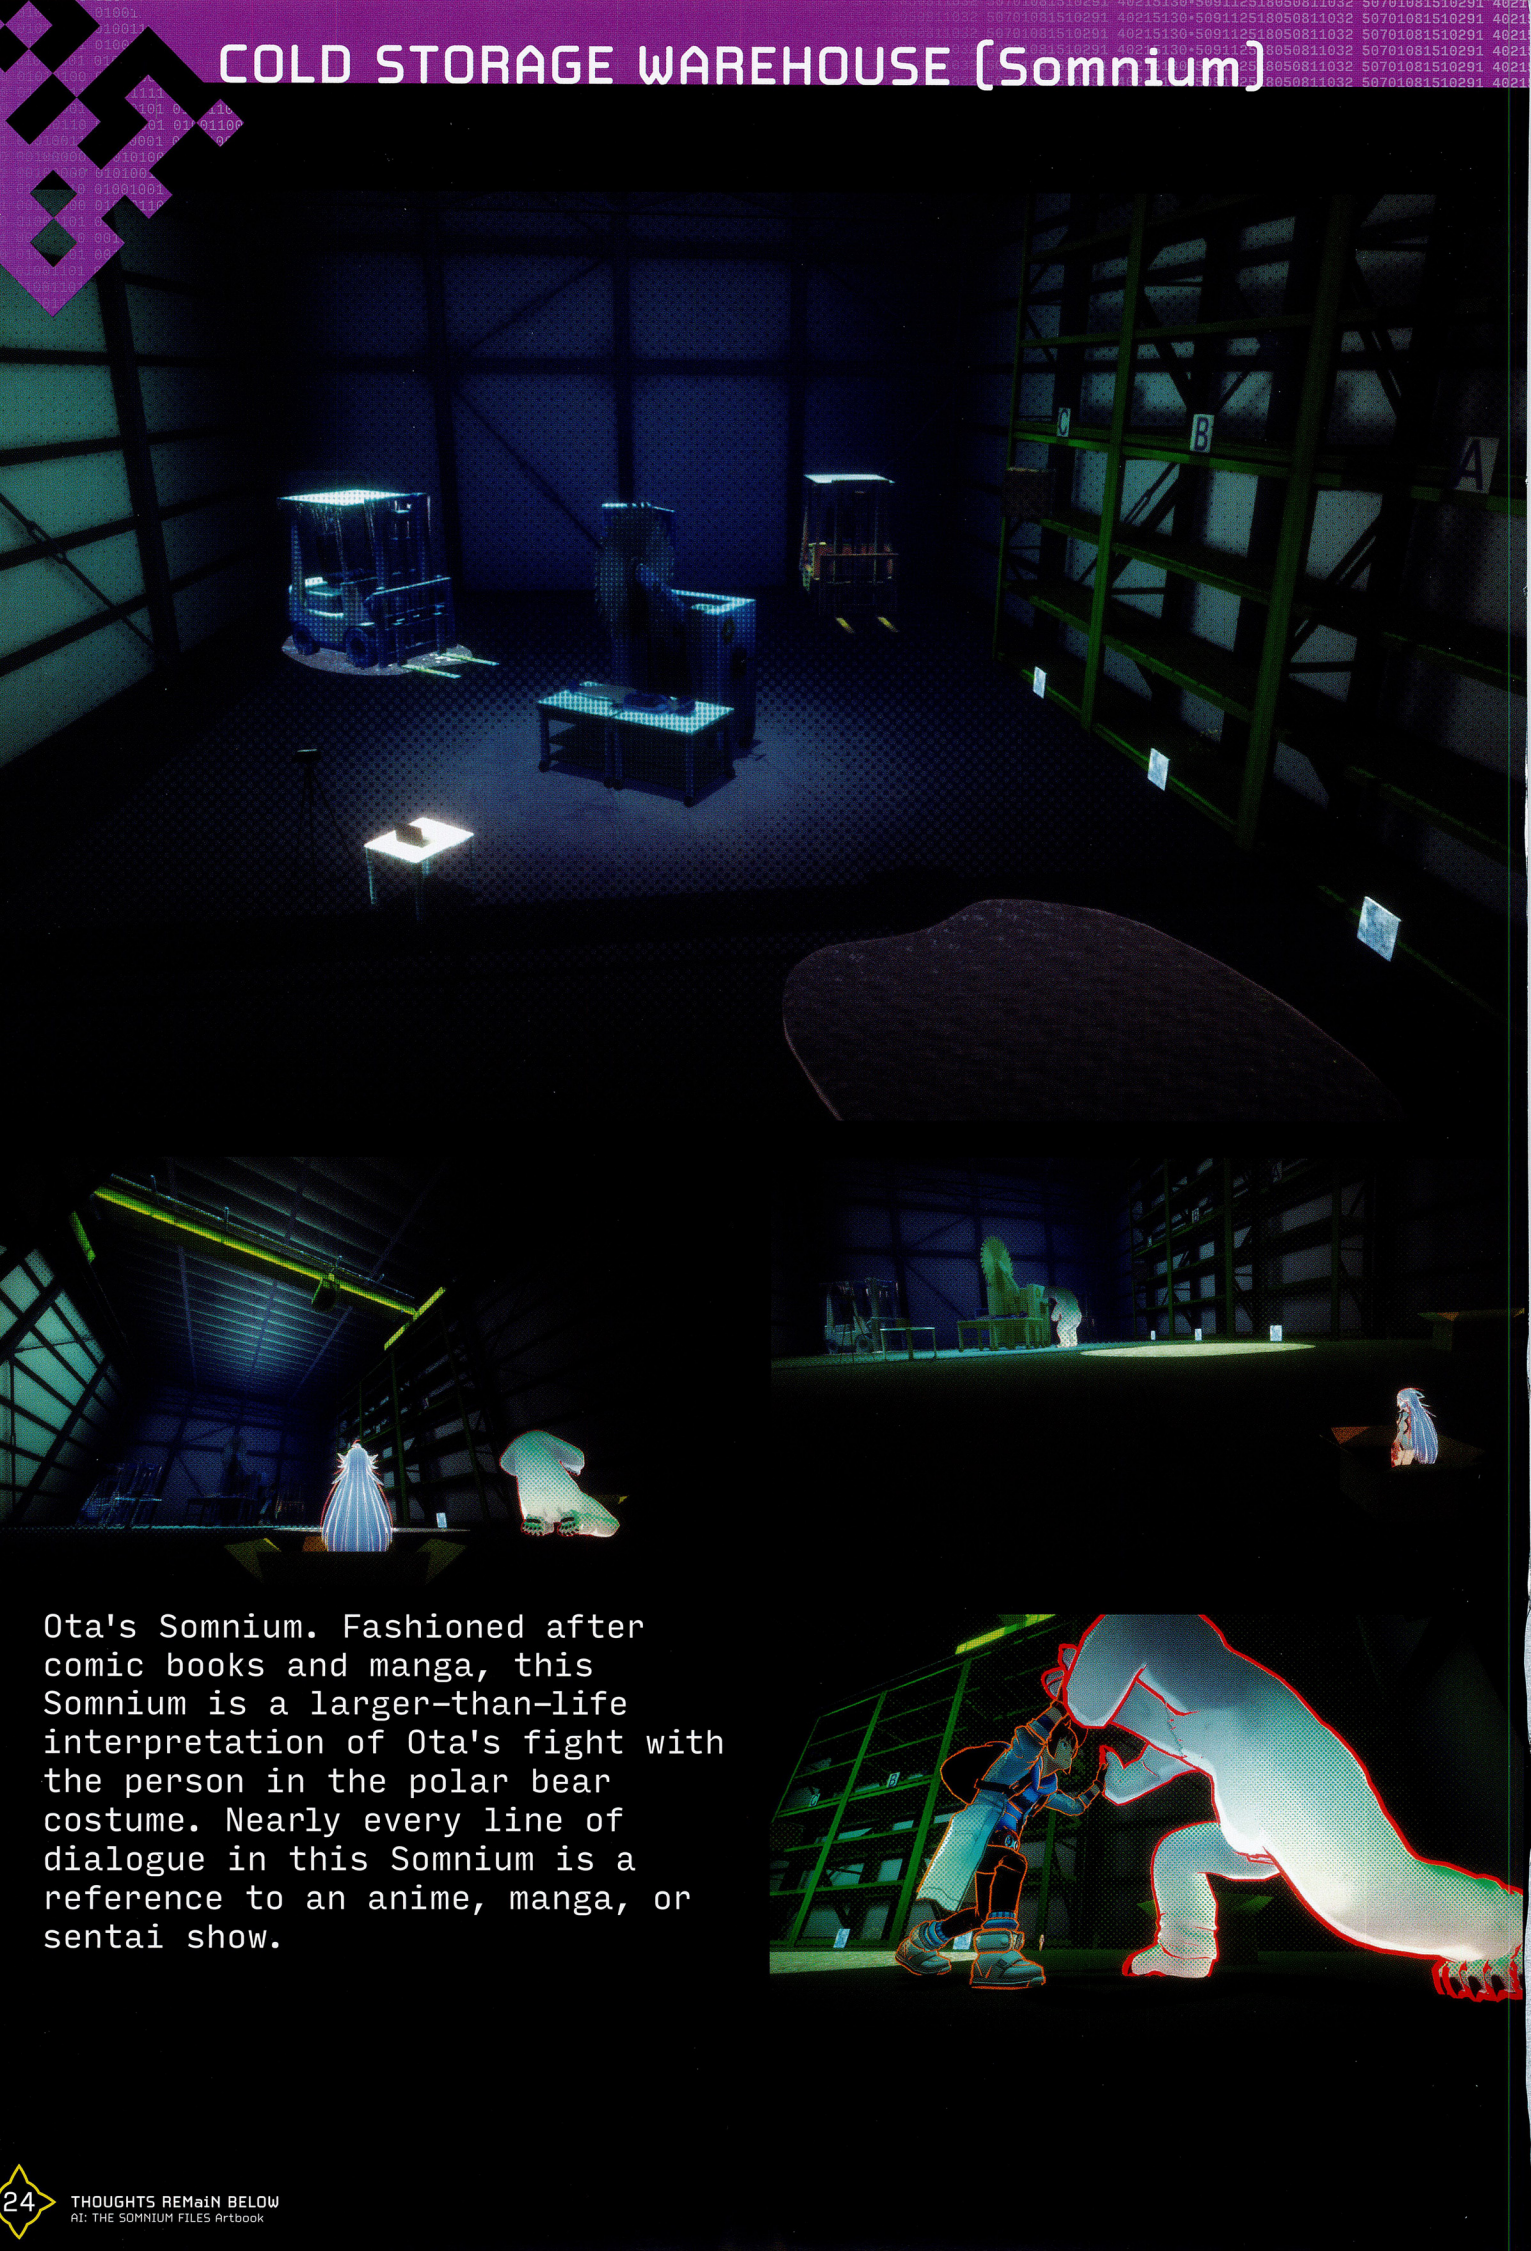

# MATSUSHITA DINER (Investigation)

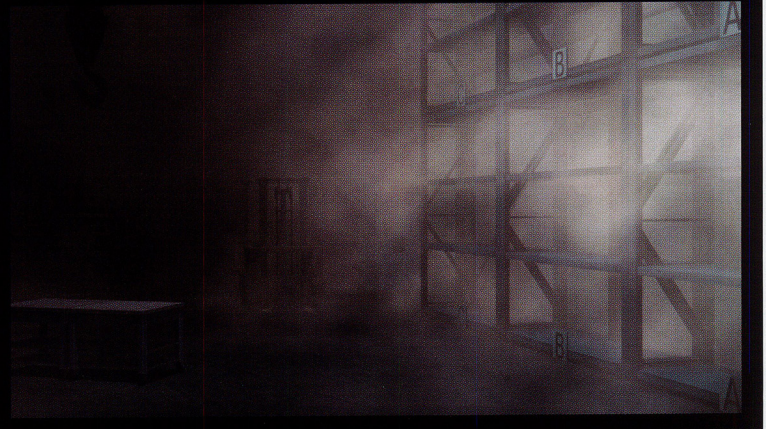

The Matsushitas' diner and home. The Matsushitas took out considerable loans to start up the diner decades ago. With its close proximity to Bloom Park, the diner used to be quite successful; however, after the chemical plant explosion and the closure of Bloom Park, the business floundered.

# COLD STORAGE WAREHOUSE (Somnium)

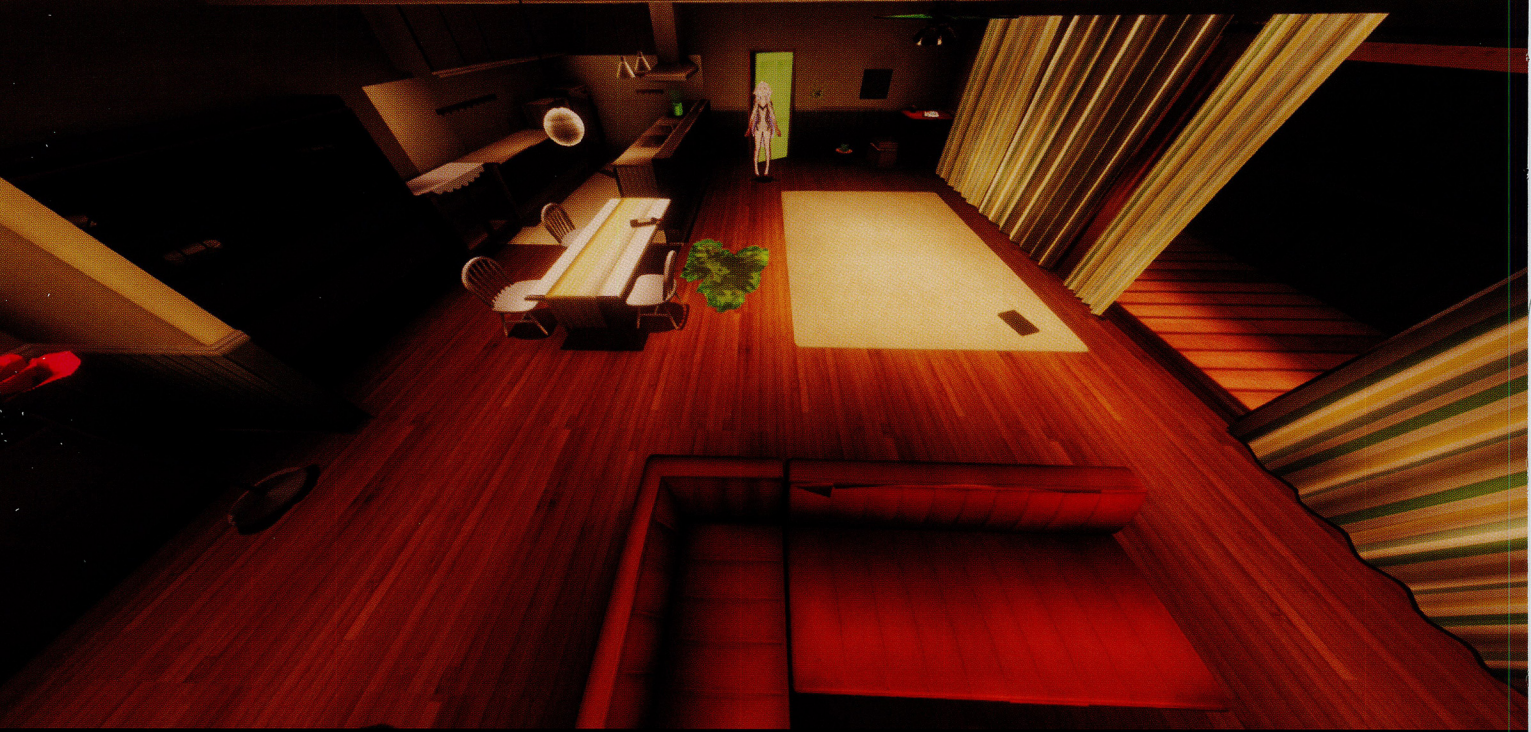

Ota's Somnium. Fashioned after comic books and manga, this Somnium is a larger-than-life interpretation of Ota's fight with the person in the polar bear costume. Nearly every line of dialogue in this Somnium is a reference to an anime, manga, or sentai show.

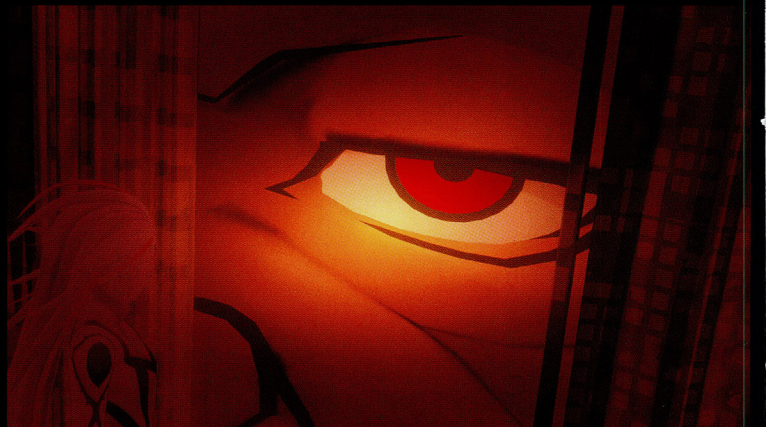

The Okiura Fishery Cold Storage Warehouse. It was once used by Okiura Fishery to store fresh fish hauled in from Tokyo Bay, but it has not been used for that purpose in years. It is full of abandoned equipment and the occasional box or barrel, although strangely it appears that the air conditioning temperature control is still on.

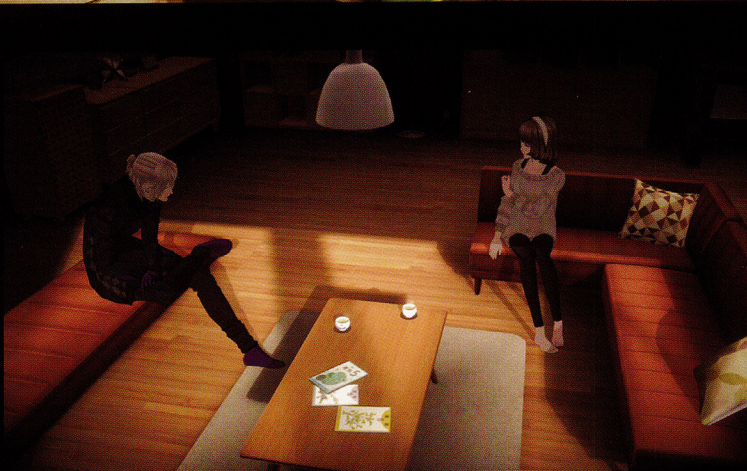

# SAGAN RESIDENCE (Somnium)

Hitomi's Somnium. This Somnium reveals, through symbolic and esoteric means, the fateful event that took place years ago that left Hitomi's right arm paralyzed. This dream places a special significance on the color green.

# SAGAN RESIDENCE (Investigation)

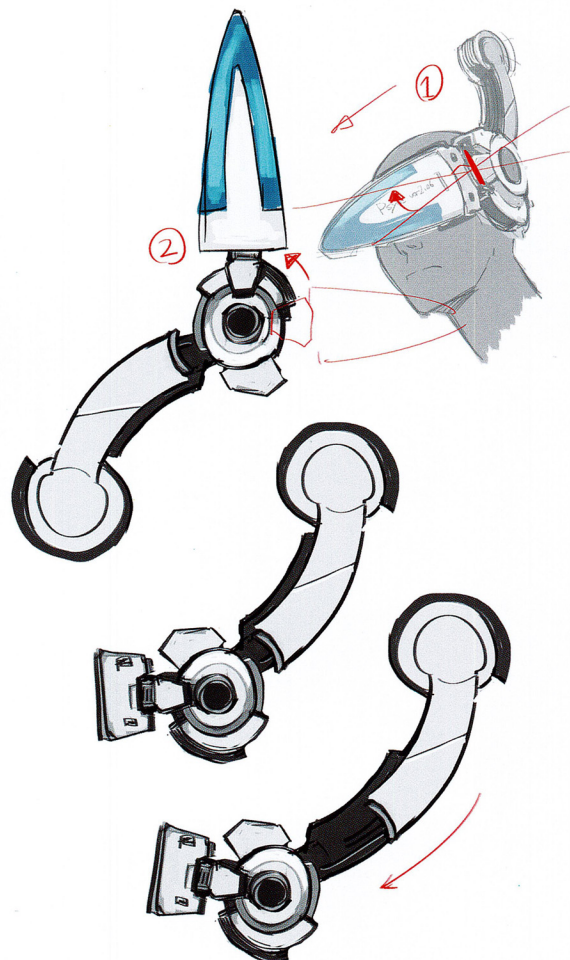

The Sagan residence. Hitomi and Iris live here. It is a simple home with a living room, dining room, and kitchen. Hitomi has thought about moving before, but the house is too full of precious memories to leave behind.
