Singles: Simply Into Their Own Bag

If the singles record had less stamina, it might not have survived the onslaughts over recent years that marked it obsolete. The single's vital signs, however, remain strong, with million-selling certifications by the RIAA becoming so commonplace that there's a crusade of sorts to up the ante for a gold record to 2 million, or add a platinum award.

There needn't be a reiteration in depth on the traditional qualifications of the singles place in the industry and with the record fan. Hit-selling singles **are** profitable, do launch new acts, sustain the established ones and stimulate LP sales. Radio relies on hit singles to capture audiences, people highly susceptible to a winning tune and presentation. Yet, another factor, we have observed, has entered into the matter of late. It's simply that the sound of singles has, more than ever, shown it's something of an entity unto itself. As pop music—rock to be more specific—has grown in sophistication and to a point where what acts have to say can no longer be boxed into the restrictions of 3 minutes or so timing, there is a greater distinction between the singles and LP fields. Also, the necessity of easily identifiable sounds on singles to achieve

rapid radio and consumer acceptance has maintained a classic nature on the singles front: simple tunes and statements (though not necessarily undistinguished) and performances that do not stray—vocally or instrumentally—from the approach initiated at the start of the session. The obvious example has been the so-called "bubblegum" sound, whose own concept of simplicity revitalized, in our view, the traditional singles identity.

As to the matter of the tie-in between the singles and LP fields, this development does not mean that the album area has lost its greatest promotional vehicle. Many of the sophisticated rock acts have propelled their stardom by offering songs and sounds that fit into the singles mode, while making their LP ventures as intricate and experimental as they desire. Certainly, the Beatles, Simon & Garfunkel, The Who, The Guess Who, Santana and others fall into this groove.

As things stand now, the singles field is into a kind of pattern designed to guarantee a more immediate response. And the variety of Top 100 singles bears out that this formula is wide-open to all kinds of sounds.

You've always wanted to
help the career of somebody like this.
Here's your chance.

Don't miss this opportunity to be able to tell people that you helped **Clodagh Rodgers** become a big star in America.

Clodagh (pronounced CLAW-DOE) is already a big star in England, with three top-of-the-charts singles to her credit. And the title of the "English artist who has done the most for the mini-skirt in 1969" behind her.

Now all she needs is that one little push

(from you) to establish her voice and her body over here.

The new Clodagh Rodgers single, **Wolf** (#74-0321) is available now in America from RCA Records.

We signed Clodagh because we think that her sound can make it all the way in America.

Now, things are in your hands.

Cotillion: New & Hot

NEW YORK — Cotillion Records, newest of the Atlantic labels, is on a hot sales streak since its first major album release in Jan. when 10 albums were issued on Cotillion and five on Embryo, Herbie Mann's new label distributed by the label.

Brook Benton's smash single hit, "A Rainy Night In Georgia", has contributed solidly to Cotillion's hot score to date. Benton's disk, nearing certification as a million seller, has also sparked strong sales of his first Cotillion LP, "Brook Benton Today." Another hot single is Tyrone Davis' "Turn Back The Hands Of Time" on Dakar, (the Chicago based-label distributed by Cotillion), which has become a smash seller.

In addition to Benton's album, other best-selling LP's on Cotillion are: Ronnie Hawkins, Troyka, Edison Electric Band, Lord Sutch's album "Lord Sutch and Heavy Friends", Memphis Horns, and Freddie King.

Embryo, also introduced in January, has taken off. Mann's own "Stone Flute" is a big hit, selling in both the jazz and rock markets. And albums by Ron Carter, Brute Force, Atilla Zoller and Miroslav Vitous on Embryo are all doing well.

Woodstock Track

Cotillion is releasing in April or May "Woodstock", which will feature the music from the movie. It will be a two or three record set and will be available as a package and as individual LP's.

FRONT COVER:

There's the performer side of Burt Bacharach. Certainly among today's top composers—a fact amplified by two Grammy Awards last week—Bacharach is also a best-selling LP performer. All three of his A&M albums have had chart rides, including this week's number 17 LP, the track of his score for "Butch Cassidy & the Sundance Kid" (a Grammy winner for best film score; "Promises, Promises," a Bacharach-David score, was voted best cast LP). His previous chart sellers for A&M are "Burt Bacharach: Reach Out" and "Burt Bacharach: Make It Easy on Yourself." A&M is conducting a promotion on his catalog this month.

Lucky 13 Tops Grammy Awards For Columbia

NEW YORK — Columbia Records is the runaway winner of 1969's NARAS Grammy awards. The label scored with 13 Grammys (including one for its Epic affiliate) at last week's 12th annual awards ceremonies in New York, Chicago, Hollywood, Nashville and, for the first time, Atlanta.

Follow-up label was RCA, with six Grammys. In all, 19 labels earned the achievement award in various categories. In addition to Columbia, Epic and RCA, they were Atlantic (2), Atco (1), Warner Bros. (2), A&M (2), Liberty/UA (2), Soul City (1), Uni (1), Capitol (2), Word (1), DGG (1), Apple (1), Skye (1), Sound Stage 7 (1), T-Neck (1) and Buddah.

In addition to awards in 44 categories, Robert Moog, inventor of the Moog electronic synthesizer, was presented a trustees award for "outstanding creative achievement in the field of electronic engineering, thereby broadening the horizons of music." Walter Carlos' skill in making music with the Moog earned his smash Columbia LP, "Switched-On Bach," three classical awards, including Album of the Year, Best Performance-Instrumental Soloist or Soloists (with or without Orchestra) and Best Engineered Recording.

In key pop awards, Blood, Sweat &

Tears were associated with three winners, with Album of the Year ("Blood, Sweat & Tears"), Best Contemporary Instrumental Performance ("Variations on a Theme by Eric Satie") and Best Arrangement Accompanying Vocalist(s) ("Spinning Wheel," Fred Lipsius, arranger).

Other awards went to Crosby, Stills & Nash as the Best New Artist of 1969; Joe South as the writer of the Song of the Year and the Best Contemporary Song (both for "Games People Play"), Nilsson for Best Contemporary Vocal, Male ("Everybody's Talkin'"), Peggy Lee for Best Contemporary Vocal, Female ("Is That All There Is").

Other song awards went to Shel Silverstein for "A Boy Named Sue" (country) and Richard Spencer for "Color Him Father" (R&B). Johnny Cash's rendition of "Sue" was voted the Best Country Vocal Performance, Male.

Top Attendance

Combined attendance at the Grammy fetes, 4000, was the most in the 12 year history of the awards. The west coast led in total attendance with 1500, followed by Nashville (1000), New York (800), Chicago and Atlanta, 300 each.

Anti-Bootleg Committee Eyes Fall Passage Of Federal Tax Stamp Law

NEW YORK — A Federal tax stamp bill to fight bootlegging of disks and tapes is expected to be prepared in the next 10 days for consideration by Congress. Its advocates in the industry — organized as a committee called Music Industry Emergency Committee for the Legislative Protection for Artists, Publishers, Record and Tape Companies — are hopeful of passage by Congress before a Sept. 3 recess as legislators return to their home areas for election campaigning.

Initial D.C. Support

According to Sean Downey, representing the Committee in Washington, support for such legislation totals 26 House of Representative co-sponsors and three Senators. In addition, Downey said, a "high ranking" member of the House Ways and Means Committee, charged with initiating tax legislation, favors such a Bill. While Downey declined to name the legislators who favor the Bill prior to the Bill's preparation, one name, that of Rep. John Tunney (D-Calif.), is public knowledge since Rep. Tunney delivered a House message on March 9 outlining the evils of bootlegging and the need for a Federal Tax Stamp approach to the problem.

Hendrix Gypsies On Capitol Album

HOLLYWOOD — Jimi Hendrix' short-lived new group, Band of Gypsies, which consisted of Hendrix, Buddy Miles and Billy Cox, will gain immortality on Capitol Records. That label will release a live performance of the group, their only live performance, taped at the Fillmore East last December.

Although Hendrix is still with Warner Brothers, Capitol had rights to a third Hendrix album as a result of a settlement between the two labels last year. The album will be out in April.

Since the album was recorded, Hendrix has disbanded the Gypsies, reformed the original Experience, disbanded the Experience again and formed a 50/50 combination of the two. An earlier Hendrix project, a coop workshop-type group, has apparently been abandoned.

As outlined at a meeting of the industry committee in New York last week, the proposed law would give manufacturers the option of affixing a tax stamp number on each of their master recordings or tapes, thus making record or tape subject to federal counterfeiting laws presently in existence.

The Bill is expected to provide for a \$5 payment for each tax stamp number. There was some apprehension stated over the voluntary nature of the tax stamp and the possibility that bootleggers themselves could purchase such a tax stamp. As for the latter loophole, it was suggested that those who apply for the tax stamp be required to swear in writing that they have rights to produce artists represented on master recordings, and thus be subject to perjury. Dave Rothfeld of Korvette's suggested that there

John & Yoko Out, Toronto Fest On

HOLLYWOOD — The Toronto Peace Festival, set for July 3, 4 & 5, will go on, but without the backing of John and Yoko Lennon. According to John Brower, who's heading up Karma Productions, the festival organizers, the original goals of the Peace Festival, including the establishment of a non-profit Peace Foundation with a portion of the profits, will be maintained.

Lennon originally acknowledged the need for a profit making event where "people will be paid for their performance . . . we'll try to get some cream off the top to set up a peace fund." Now, Brower said "John and Yoko now want the festival to be completely free. And while we agree with the intent, we do not feel that such a situation can be properly controlled."

Brower pointed out that a free, uncontrolled festival would draw far

The nominees are "Aquarius/Let The Sun Shine In," 5th Dimension (Soul City), "A Boy Named Sue," Johnny Cash (Columbia), "Is That All There Is," Peggy Lee (Capitol), "Love Theme from Romeo & Juliet," Henry Mancini (RCA), "Spinning Wheel," Blood, Sweat & Tears (Columbia).

S&G's 'Bridge' LP Sells 2 Mil Units

NEW YORK — Simon & Garfunkel's "Bridge Over Troubled Water" LP has crossed another milestone, reaching, Columbia Records reports, 2 million in sales. Duo is considered the first U.S. contemporary act to achieve gold disks — \$1 million in sales — for all six of their LP's. The title-song single from the LP is also a gold disk sound, S&G's third in this category.

Guess Who's Back With 2-Sided Hit

NEW YORK — The two-sided hit group is back again. RCA Records' Guess Who hit the Top 100 this week with both sides of their new singles release, a feat achieved before with "Laughing" and "Undone." Newest pair is "American Woman," number 66 (with a bullet) and "No Sugar Tonight," number 80 (also a bullet). Both sessions are from the group's chart LP, "American Woman."

too many people for safety and "our advisors and Canadian government officials have warned us of the dangers involved in over-attendance at the festival and we want to make sure that every precaution is taken to insure peace and consideration for the patrons."

Brower said that there were no ill feelings between Karma and Lennon. "We have thanked John and Yoko for all their help and we've asked them to be our guests at the festival. If they want to perform, we'd be honored." (Beatles' manager Allan Klein is reportedly asking \$2 million or 75% of the gross for a Beatles appearance at the event).

At a small press conference held here last week, Brower also indicated that John and Yoko would be invited to sit on the board of the Peace Foundation, which is being set-up

Maitland Joining MCA

LOS ANGELES — Mike Maitland has been named the head of label operations for all MCA record firms. Cash Box learned last Friday (13) that the appointment will become effective April 1.

The former Warner Bros. executive will replace Berle Adams in this post, Adams being moved in an as yet unannounced executive shift.

His first solo album is "John B. Sebastian." You have basked in the glow of his previous work. Now warm yourself with the long-awaited "John B. Sebastian." Feel it on Reprise.

NEW YORK — JAMES TAYLOR IN THE SUN

Everybody talks about how it was ten years ago when the Village was at its zenith. When Dylan, Ochs, Hardin, Van Ronk, Buffy, and all the rest of them were walking from the Gaslight to the Go Go to Gerdes carrying their guitars, anxious for any forum at all. That period was probably folk music's answer to the "lost generation" of writers who congregated Gertrude Stein's and Alice B. Toklas' drawing room.

Well, if you were in the Village last weekend, at the Gaslight, you would have had the distinct feeling that you were experiencing a *deja-vu*. It was all happening again. There were more than 400 people huddled inside their coats in sub-freezing weather on both sides of MacDougal Street, about 100 of them holding numbered admission tickets for the Gaslight at 1:30 AM, waiting to get in for the scheduled 12:30 AM show which would not begin until about 2:00 AM. No, Dylan wasn't appearing. But he was at the Gaslight twice during the weekend, it was reported, to see James Taylor who was there for three days. James Taylor, just a tall, lanky guy with a big, rich sounding guitar who had one album on Apple and has just had his second release on Warner Bros. Why all the *furor*?

Plenty of reasons. First of all there's the instinct factor. The people who were at the Gaslight last weekend; the ones standing in the cold; the same ones who yelled every time someone from the working press walked in front of the line into the Gaslight to wait in the warm innards of the club for the preceding show to end; these people are the cognoscenti. They can smell a legend going to happen almost as soon as the first copies of his debut album reach the stores. This crowd quality should be obvious to anyone in the press. It was all over MacDougal Street last weekend: the crowd, the "knowing" crowd, had really gotten James Taylor's scent. Alfred Aronowitz picked it up. In his column on the Pop scene in *The New York Post*, Aronowitz talked of James in almost messianic terms. Aronowitz may be right. There is something quite otherworldly about James, especially his eyes, and the effect he has on people which was evident last weekend at the Gaslight.

Then of course there's James himself. With James, there is a multi-leveled thing happening. James Taylor is not what he appears to be. Even the covers of his albums are deceiving. There he is, stretched across his entire Apple LP, a fall leaf for a boutonniere. Pleasant. Then, there's the "Sweet Baby James" cover. Just James looking pensive as hell, concerned, even a little angelic. Your first impression is probably, "Yeah, that's 'Sweet Baby James' all right." But there's much more to the covers once you begin to concentrate on his face, especially the eyes. A young artist who studied the "Sweet Baby James" jacket photos said that James had to be a star because he had what she described as "superstar cheekbones." But the artist was most interested in the fact that there was a great deal of tension apparent in James' face.

A lot of people are bound to read this deep concern into James' countenance after learning that he was a self-committed mental patient on two occasions, the last time being right after the release of his Apple album. So, there is the history of

HOLLYWOOD — SORRY, WRONG NUMBER

We've spent the last two months or so hearing about and talking about the "Switched-On Symphony" special that aired last Saturday. Because of print deadlines, we haven't seen the show at the time this is being written, and because AT&T is afraid of what the music and underground writers might say about the show in advance of its airing, we were declared persona non grata at an advance screening.

If you remember, the show was originally going to be a blending of classical and rock music, coupled with an attempt to explore the common ground of the two art forms. When Jack Good stopped up to tell us about it, it sounded great. Jack was one of the early contemporary music pioneers with "Shindig," and if we could get a show as relevant to today as that one was to 1965, TV would be the better for it, as would we.

At a special party held during the taping, AT&T execs were also excited about the show, which would present Jethro Tull, the Nice and Santana along with the L.A. Philharmonic and Zubin Mehta. Also on the show were Bobby Sherman and Ray Charles, and though we acknowledge the prominence of both these artists in their fields, neither belonged on this show as originally conceived. It was probably remarks from the press at that time that scared AT&T.

What hit the TV sets last Saturday, whether good or bad, was severely watered down. Each of the rock groups were originally set for two numbers, but just this last week, each group had one number cut. To make up for the time loss, the Philharmonic's portion has been extended.

We have nothing against classical music, but this show was supposed to be the "Switched-On Symphony," and it looks like AT&T has turned the switch off. We hope that future attempts in the rock-as-serious-music field will be made more seriously.

It's Contagious.

Laughter, that is. And laughter, the sound of being glad, is what this new single, "Happy People," is all about.

The single isn't the only thing that's new, either. Both the group, and the label, are making their debuts.

Gazette Records is the label. It's the brainchild of Bob Gaudio, writer for The 4 Seasons. Lock, Stock and Barrel is the group. And that's how much of themselves they put into their music.

A song about feeling good on a label that means good news.

NEW YORK — (Con't. from page 16)

apparent trouble, admitted anguish which will pave the way for tons of journalistic analysis as James' star rises. Maybe it is this foreknowledge that makes the lack of happiness in his eyes, the absence of anything frivolous, all the more apparent.

James' music will be subjected to the same shift of analysis. On the surface, his melodies are remarkably pleasant and his lyrics can seemingly be understood with a little effort. So, James Taylor is accessible . . . intellectually. Odd when you consider that legends on their way to happening should be as obtuse as possible. How can you get to be a legend if you're not mysterious. Well, James Taylor's mystery is there. And it's the best kind; the type that is there without anyone realizing it.

Take "Knocking 'Round The Zoo" for example. The Gaslight crowd was screaming for it this weekend but James didn't do it during the show we saw. On a basic level, the purely sensual one, the song's heavy brass and percussion arrangement is enough to interest a listener without encouraging further examination. But, if you get into the lyrics, ". . . Zoo" becomes a frightening trip into the world that exists in an insane asylum. In the song, James says things like "There's bars on all the windows and they're counting up the spoons/And if I'm feeling edgy there's a chick who's paid to be my slave/But she'll hit me with a needle if she thinks I'm trying to misbehave." Nothing hazy, the words mean what they say and the image is clearly presented. Maybe the absolute clarity of the lyrics confuses people. Legends don't usually let you know that much right out front.

James does. Both albums are extremely personal. They're personal statements made up of fleeting impressions, sensations, snatches of places he's been and places he's thinking about. Throughout the two albums, James shows a strange curiosity with the element of light. Almost every song in the first album deals with the subject either directly or in the forms of sunshine or night. The theme is carried through to the Warner Bros. album. James' work lives on a non-tactile level. His songs don't give you anything to touch. They do more. They allow you to visualize and even experience his thought process, his feelings.

But things are well on their way for James at this point. Album sales and popularity are already beginning to zoom. Then the flood of critical analysis will quickly follow. Last stop: Legend.

THE HARASSMENT OF A BLACK MAN

Eddie Harris, Atlantic recording artist, was in Hollywood on February 17th completing the score for a Bill Cosby TV special. Harris is probably one of the most popular jazzmen in America today. Harris is also a black man. On that night, the 17th, Harris, his road manager John Brown, another black man, and Marvin Lagunoff, Harris' personal manager, a white man, decided to go out for dinner in Hollywood after a day's work on the TV score. According to Harris, he and Brown were approached by two Hollywood policemen in the parking lot of Johnny's Steak House and ordered to put their hands up. The two policemen then attempted to frisk Harris and Brown. The policemen, interestingly enough, neither said or did anything to Lagunoff who was standing with Harris and Brown. But then again, Lagunoff is Caucasian and Harris and Brown are not. When it was finally explained to the policeman that Harris was in Hollywood to work on a Cosby TV show, they agreed to leave Harris and Brown alone.

An official protest was filed at the Hollywood Police precinct the following day by Lagunoff and Bill Yaryan, Atlantic's west coast promotional director. Lagunoff and Yaryan were told they didn't have a case. Details of the episode have been transmitted to Roy Wilkins of the NAACP. Eddie Harris released the following statement: "They did this thing because we are black and I would like for all members of the press throughout the world to know that I consider this type of treatment by police insulting and humiliating in every sense of the word, not only to myself, but to every decent black citizen in the United States. One should not have to suffer personal indignities just because he is black."

Eddie Harris is a prominent black musician and has undergone this type of indignity. Just where does that leave less prominent blacks?

TIME OF THE ARGENT

Rod Argent used to be a Zombie. Which is nothing like a vampire. Vampires don't sell two million records. The Zombies did . . . with a record called "Time Of The Season." That should have been enough to make anyone happy. Not Rod. He wasn't happy with the direction in which the Zombies were going. So, the Zombies became a gold record on the den wall, a thing of the past. Rod followed this by assembling a new group and spending the next eight months getting it together. But that didn't jell either. Rod was dissatisfied with the group's progress. Stillborn. Then, in March '69, everything coalesced. Rod, drummer **Robert Henrit**, guitarist **Russ Ballard**, and bassist **Jim Rodford** came together to form **Argent**. The group's first Epic LP is now in release and it's a beauty. Standout cuts on the album are "Like Honey," "Liar," and "Dance In The Smoke." The album shows that the delay in forming a new group has really paid off. "Argent" is one of the most quietly effective albums of the year. The group is currently in town for a Fillmore gig this weekend followed shortly thereafter with dates in Chicago at the Kinetic Playground and the Whiskey in L.A.

HARTFORD IN DENVER

John Hartford, singer/musician/Grammy award winning composer will be appearing this week (17) as guest soloist with the Denver Symphony Orchestra with **Carmen Dragon** as guest conductor. Hartford and Dragon have arranged the music for the 92 piece orchestra. The concert will feature such contemporary selections as "The Dusty Miller Hornpipe And Fugue In A Major For Strings, Bass and Five String Banjo," "Natural To Be Gone," and, of course, "Gentle On My Mind."

GREASE IS THICKER THAN WATER. Or is it? At any rate, **Joe Cocker** and the **Grease Band** are going separate ways. Only member of the old band who will stay with Joe will be pianist **Chris Stainton**. While all the personnel of the new ensemble have not been announced, it is likely that it will be an 11 piece band, featuring **Dave Mason**, **Leon Russell** and friends of Delaney and Bonnie. Former Grease Band guitarist **Henry McCullough** is reported to be joining Spooky Tooth.

SHORT TAKES

At any time when everyone is arguing about the efficacy of busing people from place to place, **Dominic Sicilia** and Portchester's **Capitol Theatre** are arranging to bus the press out to the Capitol for a performance by **The Grateful Dead** on the 21st. The bussing will be done for the late show and all those aboard will arrive in time for a party in honor of the Dead which will take place before the last show. All those interested press people can contact publicist Sicilia's office, MU-6-0262.

Congratulations to **Mr. & Mrs. Paul Marks** (he's ASCAP's director of operations) on the birth of their baby daughter **Julia Beth** on March 6th . . . Capitol Records **Nancy Wilson** named National Chairman of the Urban League's 1970 membership drive . . . **Betty Sperber**, of Betty Sperber Management, will be the producer of the nationally syndicated "Scene 70" TV series which will feature top recording artists. **Clay Cole** will host . . . A quick Batman note: **Bob Kane**, the creator of the **Batman & Robin** strip while dining at the 86th St. Hofbrau Bavarian Restaurant, according to Richard H. Roffman, related that a woman told him that she was approached while vacationing in Russia with a curious request. The woman was wearing her son's Batman watch. A young Russian asked the woman if she would trade for the watch. The woman, having been deeply touched with the request, whipped off her Batman wrist piece and gave it to the Russian. Another instance, listeners, of a kindly American bridging that cold war gap between us and the Communists.

Producer's Profile

JACKIE MILLS

Jackie Mills has come a long way since his days as a drummer with the Harry James band, and, exhibiting an unusual inverse musical growth pattern, has actually come closer to contemporary music as he's gotten older. In fact, 1969 was a very contemporary year for Jackie, as he scored with two Top 40 gold records by Bobby Sherman and also produced a highly-acclaimed 'underground' LP for Kaleidoscope.

While most producers are busy concentrating on specialties, Jackie has followed the jack-of-all-trades approach and thru his firm, Wednesday's Child Productions, is also very active in the production of disks for the good music and soul markets.

Jackie went from the ranks of musicians to the ranks of producers in 1959, when he was tapped as A&R director for Ava Records, the Fred Astair label. One of the first artists he signed was Elmer Bernstein, as part of a deal which brought the soundtrack rights to "Walk On The Wild Side" to the label. Both the Mills-produced album, and the title single, turned into massive hits, making Jackie's debut an auspicious one. Other Bernstein-Mills collaborations resulted in successful soundtracks to "The Carpetbaggers," "To Kill A Mockingbird," "Care-takers" and "Baby, The Rain Must Fall," among others.

During his four year stint with Ava, Mills also produced some straight pop albums, including two classic albums

which are still garnering heavy airplay today: Pete Jolly's "Little Bird" and Harry Betts "Bossa Nova Goes To The Movies." "We weren't making commercial albums then," said Mills, "We cut what we liked, but it seemed to work out o.k."

Mills views the increased use of 'name' artists for soundtracks as a mixed blessing. While the soundtrack LP has got to benefit, Mills doesn't see the benefit to the movie itself. "I don't think people go to see a picture because a song is in it, as much as people would buy a song because it's in a picture." Mills also pointed to cases where the contractually-forced release of a soundtrack song as a single did more damage than good to the artist's career.

Mills' theory of production is that "when somebody's successful, they should stay as close to the successful ingredients as possible. I don't think any one particular thing is the reason, but one particular thing is the reason for the ingredients, and that's the producer. He's a lot more important than people realize, even the artist. A lot of the time, the artist is the last one to realize it."

After Ava was sold, Mills joined Mainstream Records. He continued his soundtrack production with "The Collector" and "Blue Max," and also brought Big Brother and the Holding Company to the attention of label head Bobby Shad. Next stop was 20th Century Fox. "Primarily, they hired me to do sound-anything. The record business was just a sideline to them, so I left to start my own firm, Wednesday's Child, in June 1968 with Larry Green. Wednesday's Child is the child of woe, and I thought that there are a lot of woeful indie producers I could band together."

Wednesday's Child's roster has been expanding at a slow but steady rate over the last year, and Jackie has also been called in to produce already-signed artists for some labels. Jackie's best new group, he feels, is Fuse, who have a debut album out on Epic. The second and last Kaleidoscope album that Mills cut, "Bernice," has also just been released by Epic. Sherman, of course, has followed up his "Little Woman" and "La La La" goldies with the fast-rising "Easy Come, Easy Go." Mills will have initial singles by Frankie Avalon and Michael Chain out on Metromedia shortly, product from the We Five (produced by Michael Stewart) on Vault. He's just placed Black Velvet with Fantasy, Sam Fletcher with Colgems, and he's producing the Screaming Yellow Zonkers for Bell Records thru a deal with Sam Riddle. And that's what you call being busy.

HOLLYWOOD — (Con't. from page 16)

Tony Bramwell, Apple's record promoter in England, flooding the world with telegrams reading "The Beatles knocking Lee Marvin off, so let him enjoy his brief moment of glory," referring to Marvin's #1 disk in England, shortly to be replaced by "Let It Be."

A Special Merit award should go to **Harvey Perr** and **Risa Potters** for throwing one of the most enjoyable (thru careful planning) parties we've attended on the West Coast. Held at the Ash Grove last week, the affair, very heavily attended, introduced **Renaissance**, a new English import featuring not one, but two former Yardbirds.

Gene Vincent, whose new album for Elektra (produced by Kim Fowley) has just been released, is reportedly back in the studios cutting an album for Buddah.

Creation, a new rock club in the Valley, opened on a nice note last weekend with the **Don Ellis Big Band** and **Albert Collins**, and if the club can straighten out some licensing problems, it will be a healthy addition to the scene.

Speaking of the Scene, **Steve Paul** was alive and well at the Olympic Auditorium last Saturday, where **Johnny Winter** knocked out the audience with his new, wild brand of rock & roll. Steve's looking healthier than ever, probably due to the forthcoming release of **Edgar Winter's** debut album on Epic very shortly. (You can read more about the Olympic in the Talent On Stage section).

Up to visit this week was **Scotty McKay**, a one-time rocker who turned to more country-styled singing on the advice of former Yardbird Jim McCarty (now of Renaissance). His first single for Uni is "High On Life."

Blues Image will be the subject of a BBC documentary on the "Rise Of An American Pop Group," being produced by **John Irvin**. Irvin is currently conducting extensive interviews with the group and will film several of their forthcoming appearances, probably the April 3, 4 & 5 dates in Florida.

It's **Glen Campbell** (Long Beach Arena) vs. **Jose Feliciano** (Santa Monica Civic) this Friday (20) and we hope that both better men win.

Now that **Norman Greenbaum** (who'll make his L.A. concert debut this Sat. with Chicago) is a star, maybe **Barry Kane** will make it also . . . Did we mention the return of the **Four Freshman** to the Hong Kong Bar on Monday? . . . **Sonny Charles** has named his new publishing firm Black Pearl, probably in honor of lovely **Toni Wine**, who co-cleffed the singer's biggest hit . . . **Neil Diamond** headlines a benefit for the Cystic Fibrosis Foundation on Sunday (22) at Chapman College in Orange, California.

That second album from way-out **Alice Cooper**, "Easy Action," will be out this month. Group will perform in the party sequence of Frank Perry's "Diary Of A Mad Housewife," now filming in New York, and then wind up an Eastern concert tour.

Foundation Seeks 'New' Pop Music

NEW YORK — A non-profit foundation to encourage the development of new forms of pop music and entertainment has been formed. Rev. John Garcia Gensel, Pastor to the Jazz Community, said the new organization is the Stackpole Foundation for Spontaneous Arts, Inc. The board of directors is drawn primarily from the music world. The most widely known members of the board are Tommy Walker, who is entertainment advisor to President Nixon, and Rev. Gensel, who also serves on the staff of St. Peter's Lutheran Church, New York.

Founder and President of the Stackpole Foundation is Ralph D. Stackpole, Maine businessman. Vice President is Steve Stackpole, performer and recording exec. Directors include Alan Pepper, producer and head of Jazz Interactions; Tommy Walker, entertainment director of the New Orleans Saints, and business manager of the USC marching band; and Rev. Gensel. Doles Dickens, record producer and arranger, serves as creative director for the Foundation.

Concern with the quality of contemporary music prompted the formation of the Stackpole Foundation for Spontaneous Arts, Inc. The Stackpole Foundation plans to present a "proven updated style of pop music for today's youth." It aims to offer an alternative to current forms of entertainment which it feels glorify drugs and dropping-out.

Financial support for the Stackpole Foundation comes from individuals, cultural groups, and educational foundations. Royalties from arrangements and recordings assigned to the Stackpole Foundation are expected to make a major contribution to its continuing operation.

Shelby Singleton Swings Into Spring

NASHVILLE — A full-phase sales campaign under the banner, "Swing Into Spring", was launched March 2 by the Shelby Singleton Corporation and will encompass several weeks of promotion and advertising on all LP and tape product. The new program will be the first major promotional activity undertaken by Dick Bruce since his recent promotion to the post of v.p. sales and marketing.

The activities will center around the current album and tape releases on the Sun, Plantation, and SSS International labels, as well as serving to introduce 10 new LP and tape releases to the catalog. New product includes releases by Johnny Cash, Jerry Lee Lewis, Jeannie C. Riley, Ray Pillow, Sil Austin and Johnny Adams.

Added Bruce, "We are gearing for heavy response to our 'Swing Into Spring' campaign, and have available four color displays for in-store use, as well as a new catalog depicting all LP and tape releases for ease of buying, selling and ordering. For further information on the program, effective through April 15, we are asking everyone to contact their local distributor".

Levy Forms WPA; In Youth Field

HOLLYWOOD — Jack L. Levy, former vice president of advertising and merchandising for Paramount Records, has formed Words and Pictures Associates (WPA). The new firm will be a total communications agency, keyed to the youth market, capable of preparing advertising (both print and broadcast), merchandising campaigns, special sales promotions and graphic presentations for conventions and other sales or promotion oriented gatherings.

"The Youth Market is a state of mind," said Levy. "We can't continue to accept mediocrity in the name of the youth market. Our firm will be capable of creating professional approaches to marketing problems, and will be firmly rooted in the contemporary market."

Levy pointed out that while many recording artists were capable of coming up with the basic graphic ideas for their product, many have shown an in-

ability to capture these ideas on paper, leading to vastly improper use of graphics.

WPA will not be confined to the music business, but will deal in all areas of the youth market. Firms already signed to WPA, in addition to record and music clients, include a dinnerware company, financial concern and baby furniture manufacturer.

WPA has an art staff headed by Andy Rodriguez, former Liberty Records designer and holder of several fine art awards. Productions manager will be Jack Goff, a production expert formerly in the casual furniture field. Levy will share copywriting chores with Michael Laton, formerly of Paramount.

The new firm has opened offices at 6430 Sunset, in Hollywood.

Hyman Cuts Rock-Jazz LP On Electric Grand

NEW YORK — Command Records released a Dick Hyman LP featuring Hyman playing the Baldwin Electro Concert Grand Piano, accompanied by a semi-symphonic orchestra of fifty well known sidemen and a rock rhythm section. The album, "Concerto Electro," is an original rock-jazz concerto by the artist.

Hyman composing his "Concerto Electro" in 1967, completed the orchestration just before the June, 1969, recording sessions.

"The Baldwin Electro Concert Grand Piano is particularly well suited to the performance of a concerto," Hyman said, "being at once sensitive, highly responsive and, through its remarkable amplification, allowing a performer to play softly and yet to be heard above a large orchestra."

Famed conductor Andre Kostelanetz this week commissioned Hyman to compose a work for the New York Philharmonic Orchestra to perform behind the solo narration of N.Y. Jets football star Joe Namath. The narration will be scripted by Dick Schaap, and will be included in the 1970 Promenade Concerts. The work will be approximately twelve minutes in length and will employ, in addition to narrator and orchestra, a Moog Synthesizer with Hyman at the keyboard.

The work, tentatively entitled "Event" will receive its world premiere performances May 29 and 30, 1970 at the Promenades Concerts.

Capitol's Free Show

HOLLYWOOD — In a unique promotion, Capitol Records and Sears, Roebuck joined forces to present Patti Drew in a free dinner and show for all Sears customers who bought the lark's new "Wild Is Love" album. Sears backed the drive with radio promotions on nine Southland stations and a massive newspaper ad campaign.

The idea was formulated by Bill Valenziano, the label's L.A. district promotion manager, and Jack Byram, Capitol's L.A. special accounts manager.

The show, held in late February, drew 1,500 people.

Tempts At Work

HOLLYWOOD — With the eleventh Temptations album, "Psychedelic Shack," just released, the group is already back in the studio at work on their twelfth. The Gordy group just wound up a two-week stint at London's Talk of the Town, and will interrupt their recording sessions for a Mar. 20-29 date at the Latin Casino in Cherry Hill, New Jersey.

The Tempts kick off an extensive tour in mid-April, with various one-nighters giving way to a two week stand at the Copa on May 28. Group will precede the Copa date with an Ed Sullivan appearance on May 24.

The Lt. Governor is the chairman of the Calif. State Bicentennial Committee. "Viva California" is an early California pastorela for orchestra and chorus, composed by Elisabeth Waldo (right) and performed by the Elisabeth Waldo Folklorico Orchestra and the St. Charles Choir. It was dedicated to the California Bicentennial by Monique Peer, president of Peer Southern.

Winners Announced In Bell Contest

NEW YORK — The winners in the Orient Express Contest held for Bell Record's distributor promotion men have been announced.

First prize of an all-expenses-paid week in Japan, including visits to Tokyo and Expo '70 at Osaka, went to Bill Greenberg of Seaboard Distributors, a division of Roskin in Hartford, Connecticut.

Kenny Windl of M. S. Distributors in Milwaukee won second prize, which is a week's vacation of his choice in either Portugal, Denmark, Great Britain or Scandinavia.

A week in Los Angeles, including a part in a Screen Gems tv series or a Columbia Picture's film was the third prize which went to Tony Dercole of Seaway Distributors in Cleveland.

The Orient Express Contest, which ran for six months, awarded points to distributor promo men for breaking specified records in their area.

Dunhill Tests 'Lord's Prayer'

HOLLYWOOD — Although an initial Pure Love and Pleasure single, "All In My Mind," has just been released, Dunhill Records has shipped a shortened version of another cut from the group's debut LP to major radio stations as a 'market test.'

According to label chief Jay Lasker, the market test is a 'first' for the label, and was brought on by heavy field reaction to the longer version of "The Lord's Prayer" in the album. If response to the group's controversial rock version of the song justifies the action, the test pressing will become a full fledged single release.

Ben Gurvin Dies

HOLLYWOOD — Funeral services were held here last week for Ben Gurvin who served for eleven years as comptroller with Monarch Record Mfg. Corp. Gurvin, a victim of cancer, had previously worked in the accounting dept. of Liberty Records. He was 54. He is survived by his wife, Ida, and two children.

THE GODDESS OF LOVE, Venus, was outstandingly beautiful, but perhaps never as popular as she has become in recent months as a result of the Shocking Blue's million seller, "Venus." Displaying the gold record awarded to the Dutch Group on the Colossus label are (l. to r.) Jerry Ross, label prexy; Art Ross; and Tom Kennedy, director of marketing and advertising. The group will be in the U.S. in April to accept the award in person.

Fever Tree Trips To Back Uni Drive

HOLLYWOOD — Backing a major catalog push by Uni Records, Fever Tree kicked off a national p.a. tour last Friday (13) in New Orleans. Working closely with Fever Tree manager Ron Sunshine, Uni execs Rick Frio and Pat Pipolo have arranged suitable promotional efforts wherever the act is booked.

Under a Fever Tree Month banner, Uni is using print and radio to exploit the group's three albums as they pass thru San Diego, Ft. Worth, several Illinois cities including Chicago, the Pennsylvania area, and other cities still to be set.

Moody Blues Start Heaviest P.S. Sked In U.S. This Week

NEW YORK — The Moody Blues arrive in America this Thursday (19) to start their heaviest tour to date. The group, which established itself first on the Deram label, is now represented on its own record label, Threshold. Both Deram and Threshold are distributed nationally by London Records.

The whirlwind, 17-day safari will cover more than 10,000 miles of traveling from coast to coast, and will incorporate major concert engagements virtually every night of the brief tour. The group is expected to hit over \$200,000 in grosses.

Initial date is Fillmore East, New York, where a third night (Thursday the 19th) was added when sell-outs of the originally scheduled Friday and Saturday gigs appeared imminent.

The group, on successive nights, is then expected to play The State University in Albany (22); The David Frost TV Show (23); Boston Garden (24); Bushnell Auditorium, Hartford (25) and the Allen Theater, Cleveland (26).

Swinging to the Coast, the Moodys are in San Diego at the Sports Arena (27); Memorial Auditorium, Sacramento (28); Kansas City Municipal Auditorium (29); Fort Worth Convention Center (30); Hemisfair Theater, San Antonio (31) and The Terrace Ballroom, Salt Lake City (April 1). The tour winds up with three additional Coast dates at Berkeley Community Theater (2); California Polytechnic College in San Luis Obispo (3); Long Beach Arena (4) and Star Theater, Phoenix (5).

The group has been a consistent top seller in recent years, with three chart LP's on Deram, "Days of Future Passed", "In Search of the Lost Chord", and "Threshold of a Dream", all on Deram and the most recent "To My Children's Children's Children", on their own Threshold label.

Colossus-Heritage Uses Direct Mailing to DJ's

NEW YORK — Colossus and Heritage labels will begin mailing all records directly from their home offices to all dj's throughout the country. The more extensive system was instituted by Steve Schulman, national promo director for the labels.

Mailings will be categorized into primary stations, secondary stations, and underground progressive rock stations. An index system is already being utilized, listing stations according to classification, so as to be useful to Colossus-Heritage national promotion and regional promo men.

Schulman has devised what he calls "My Ten Commandments of National Promotion," a system he used previously on a regional basis, and has now expanded to the national level. The points outlined are an attempt to create a fuller relationship between the labels and dj's throughout the country.

Heavy Promo Push On Janus March LP's

NEW YORK — Janus Records is launching extensive promotion and advertising campaigns on several LP's in their March release schedule, including "Funkadelic," "Illustration," "The Frost Report On Everything (David Frost)" and three albums on Wes Farrell's new Anvil Records label which Janus distributes.

Funkadelic and Illustration will be introduced to the press, d.j.'s and distributors with parties in key cities. Local radio and print ads will back major personal appearance. Funkadelic, currently on the singles

charts with "I Got A Thing," have already had press parties and ad tie-ins in conjunction with appearances at Ungano's in New York and the Sugar Shack in Boston. Funkadelic is on Westbound Records, a new Detroit label distributed by Janus.

Illustration, an eleven member band from producer Alan Lorber, will be introduced to the press in New York early in April. Parties in other cities, including Chicago and Los Angeles, will follow.

Anvil Records, Wes Farrell's new label, will be launched with heavy merchandising activity behind the first three releases, "The Soultown Symphony Plays The Best Of The Detroit Sound"; "Jazz Rock Symposium"; and "The Weinberg Method Of Non-Synthetic Electronic Rock."

"We're making tie-ins with large retail chains for in-store play and co-op newspaper and radio ads for Anvil Records. A teaser mailing campaign was directed to our complete radio list and to retailers, distributors, rack-jobbers and one-stops," Albarano said. "We're making an intense effort to establish Anvil Records."

Janus is promoting "The Frost Report On Everything" through local Group W TV outlets which broadcast The David Frost Show.

CMA Income Up

HOLLYWOOD — Creative Management Associates has reported a 38% increase in net income on an 11% rise in net revenues. For the year ended Dec. 31, 1969, the booking agency showed income of \$833,787 on revenues of \$11,234,479, yielding 88¢ per share. 1968 income was \$604,092, or 64¢ per share.

Guess & Abner To Kapp

HOLLYWOOD — Two figures more than familiar to Hollywood's music industry, recording engineer John Guess and studio musician Eddy Abner, have teamed to form Kapp Records newest duo. Label general manager Johnny Musso, who negotiated the deal, has sent their first single, "And The World Keeps Spinning Around," into immediate release.

Record Plant Adds Test Center In L.A.

NEW YORK — The Record Plant recording studio complex has entered the acoustical design and test field, with a first facility already in operation at their L.A. location. The center, headed up by Tom Hidley, director of research and technical engineering for the Record Plant, has the capacity to test free air response curves in loud speakers and microphones, and is equipped with a full compliment of the latest B & K acoustical test equipment. The Record Plant Acoustical Design and Test Center will also be available as design consultants for all sound installations, new and established studios etc., and will have a full inventory of sound equipment available. The east coast Record Plant in New York is doing similar developing.

Twelve New Budget LPs Released By Design

NEW YORK — Pickwick International, Inc., has announced the release of 12 new LP's on the Design budget (99¢) label. Albums in the pop series are: "The Mellow Years," "Midnight Cowboy," "I'll Never Fall In Love Again," "Hey There Lonely Girl," "Leaving On A Jet Plane," "Raindrops Keep Falling On My Head," "Alice's Restaurant" and "Honey Come Back." Rounding out the release are four country and western albums: "I Walk The Line," "Release Me," "Folsom Prison Blues" and "Orange Blossom Special."

According to the labels director of marketing Richard Lionetti "Strategically this is the time for a Design promotion. Monies are tight everywhere and yet people are very reluctant to stop buying records. However, most people, out of necessity, are very budget conscious and welcome a bargain."

"With the Design line we offer today's hits, well produced and packaged for less than a quarter of the price you would normally pay. In any terms that must be called a bargain."

AJP Campaign Is On For Johnny 'K' Deck

NEW YORK — AJP Records has launched a major campaign to promote the first release by its new artist, Johnny "K". The program involves the closely coordinated efforts of the record company, its distributors and International Famous Agency, "K's" booking office.

The record, "Come Out" and "A Few Precious Moments," was released after Johnny "K" had performed the songs on the NBC-TV "Tonight Show," on Friday, March 6, when the show was hosted by Bill Cosby.

Prior to the appearance, AJP had alerted all of its distributors with special letters, streamers and photos, to encourage them to view the performance. The appearance of Johnny "K" on the network television show was, in effect, the audition for the record, since no copies had been shipped to the distributors in advance.

The company's key executives were also set for promotion trips to various parts of the country. Ahmad Jamal, president will tour major cities in the Northeast with Johnny "K", including Boston, Hartford, Philadelphia, Baltimore and Washington. Jamil Sulieman, vice president in charge of recording, is covering Memphis, Atlanta and the Southeast, while Cecil Brisette, vice president in charge of production, is visiting Chicago, Ft. Wayne and other cities in the Midwest.

A&M Cuts Single From 'Cuckoo' LP

NEW YORK — "Come Saturday Morning," performed by the Sandpipers in the Paramount film "The Sterile Cuckoo," has been cut as a single on A & M Records.

The song, which has been nominated for an academy award, appears in its original version by the Sandpipers on the Paramount Records "Sterile Cuckoo" original soundtrack album. Paramount is launching a promotional and merchandising campaign for the LP, which is receiving exceptional exposure due to both the single success and academy award nomination given to Liza Minelli as best actress for her role in the film.

Paramount and A & M are cooperating in the promotion of the Sandpipers recording since the single and LP versions now available are the only ones that will appear.

ATI Opens LA Office As Expansion Continues

NEW YORK — The first phase of ATI's planned expansion has been completed with the opening of an office in Los Angeles, at 9000 Sunset Boulevard, Suite 402, (213) 274-7571.

Named as general manager for ATI's west coast base is Leo Lichter. Lichter has been with CMA's Los Angeles office for the past three and a half years in the concert department. Joining Lichter as an agent is Roy Robinson who comes to ATI via personal manager Gerry Purcell's organization. While with Purcell, Robinson booked and served as road manager for Eddie Arnold and Al Hirt. He also was involved in publishing and record and concert promotion.

Jeff Franklin ATI board chairman, will personally oversee operations in L.A. for the first month while ATI president Sol Saffian handles the New York offices. ATI currently has over 50 acts on its roster (including: Brook Benton, Blues Magoos, the Brooklyn Bridge, Chairman of Board, Five Stairsteps and Cubie, the Isley Brothers and Steam) and expects that number to increase with the signing of west coast artists within the first few weeks. After his initial trip to L.A., Franklin plans to visit that office every month.

CHANGING SEASONS — Spring is just around the corner and it is appropriate that the new 4 Seasons single should be released at that time. The song, "A Patch of Blue," is on the Philips label and is the first release since the group signed their new \$2.5 million dollar contract for the next five years with Philips (Mercury Records) and a new personal management contract with Ken Roberts of New York. Pictured are the Seasons with leader Franki Valli, seated.

They laughed at Ray Stevens' first record.

Which was pretty good considering "Ahab The Arab" was a comedy record. Which wasn't so good considering a lot of people thought Ray Stevens was just another one-shot hit-record comedian.

But then, "Along Came Jones."

And "Harry The Hairy Ape!"

Which led to more serious songs like "Unwind," "Mr. Businessman" and "Have A Little Talk With Myself."

Which led to a best male vocalist Grammy Award nomination for "Gitarzan."

Which led to an invitation to MC the Grammys this year.

Which led to his being chosen as Andy Williams' summer replacement.

Which led to Ray signing with Barnaby.

EVERY GOOD BOY DOES FINER

In plain English, your scale will be paid on a higher scale. Were it written in plain Swahili, for that matter, your music would earn more per performance from ASCAP than from BMI.

We're not just giving you a song and dance (that's your department). We can demonstrate that promise in black and white because ASCAP surveys music performances regardless of whether or not the writer is a member. This makes it possible to estimate what ad-

ditional royalties a given property might have earned had the writer been an ASCAP member at the time. The evidence and a free analysis of the figures is at your disposal for a collect call to Dave Combs—at MU 8-8800—or to either of the two gentlemen listed below. They will convince you that while you're composing figures that are music to the ears, you should make some that are music to yours.

Wellington Auto Center Openings To Triple Chain Size In '70-'71

NEW YORK — Twenty new Wellington Car Stereo Centers this year and 35 more in '71 have been planned in a drive that will triple the number of auto-audio stores in the east coast chain. The new shops will raise Wellington's number from the present 26 operating centers and expand the geographical coverage into the south and New England states.

In addition to the numerical expansion described by Wellington Industries' president Irving Rosenberg last week, he explained that the entire concept of Wellington Centers would also be enlarged internally to include departments in several areas appealing to the center customer.

"Some 80% of our customers," he said, "are in the 17-30 age group, and while the basis of our business is in automotive tape and accessories, the stores will be designed as contemporary centers." In addition to using modern color and layout, the stores will include youth-market items appealing to interests most frequently tied-in with the auto tape buyer. Car customizing materials, burglar alarm systems for home and office as well as automobile and other products will be displayed with the major items—auto players, pre-recorded tapes and the 60 accessories in Wellington Eight Industries' own StereoOriginal line.

Moving into related areas, the stores are both able to meet the tape customer on his own ground and attract new prospects to inspect tape equipment first hand.

The Wellington chain grew from Rosenberg's Record Box, Inc. retail store which was expanded into Associated Record Corp. as a retailer through leased departments in discount and department stores.

In 1966, the firm entered its automobile stereo center activity and shortly afterward began phasing out of the record operation. In 1968, Wellington Eight Industries opened the first of its franchised centers. Today, with the Centers, Wellington also engages in wholesale distribution of pre-recorded tape (4 and 8 track) cartridges and cassettes to retailers. The company is also the exclusive distributor of StereoOriginal accessories.

Under this logo, Wellington offers some 60 products including speakers, head cleaners and carrying cases. But the line also has several items not otherwise available and a few products that had not been tape-related, but were put to use in association with the auto-tape market. A wire strip used in bundling or bales was altered for use as a replacement for tape on car wiring from player to speakers. This example of adaptation has proved an improvement since it eliminates the sag in wires when tape dries, becomes moist or otherwise loses its adhesiveness.

Century City Offers 12 New Kiddy Tapes

HOLLYWOOD — Century City Music Corp. has set Mar. 27 as release date for twelve new 8-track and cassettes from their Creative Classics division. Included in the offering are Aesop's Fables, stories by Rudyard Kipling and Hans Christian Anderson, Oscar Wilde's "The Happy Prince," and other nursery rhymes and limericks.

Aimed at a kindergarten and up audience, utilizing 3-in-1 packaging, the tapes are multi-voiced dramatizations, musically underscored with special sound effects. The series was produced by Norman Rogers.

The entire Wellington enterprise went public at the end of last year in an issue of stock presently being traded Over-The-Counter.

Management Committee Named In Major ATD Reorganization

LOS ANGELES — American Tape Duplicators of Los Angeles has revamped its executive structure through the appointment of a five member management committee headed by president Richard Allen. The move was announced last week by Allen, who said that this reorganization was made "to meet the explosive growth anticipated by ATD and the tape industry in the 1970's."

With Allen on the team are: executive vp and secretary Warren Gray; Jay Lease, vp and director of sales & marketing; Donald Anderson, vp and director of operations; and Stanley Moss, treasurer and director of administration.

In addition to the new management structure, ATD has acquired a new warehouse and expanded and remodeled its manufacturing facilities and corporate offices. The corporate offices are located at 5727 West Jefferson Boulevard.

ATD facilities feature studio mastering equipment plus synchronized duplicating banks to supply tapes in any quantity in all major configurations—cassette, 4 and 8-track cartridge, 2-track and 4-track reel-to-reel. In addition, the company offers a complete range of services to develop a tape program from concept through distribution.

ATD, which now has about 100 employees, was the first company to introduce a line of 6-hour long-playing stereo music tapes on a single 7" reel, and owns the largest 3-hour long-play stereo music library in the world. Its production is almost evenly divided between the music and non-music (communication, education and training) fields. Among its customers are: Audio Digest, Bell & Howell, Blue Chip Stamps, Holt, Rinehart & Winston, E.J. Korvette, IBM, Prudential Life Insurance Company, Radio Shack (The Tandy Corporation), Rheem Califone, Sears and Xerox.

Explaining the projected growth of ATD, Allen said "Audio tape sales now total over \$400,000,000. Industry experts say the field is just in its infancy and predict a multi-billion dollar industry as consumer interest in tape continues to rise. ATD sales projections for 1970 bear out the explosive growth now taking place in the industry. Our sales last year were approximately \$1.2 million, and we foresee at least a 300% growth for fiscal 1970-71."

Nat'l Sound Marketing Named SSS Sales Force

NASHVILLE — The Shelby Singleton Corporation has contracted an agreement with recently-formed National Sound Marketing calling for the independent firm to act as sales force for tape material on all SSS Corp. product.

Approximately 25 agents of National Sound Marketing are strategically placed throughout the country in order to give clients nationwide coverage on product. The agents will report directly to Dick Bruce, SSS' vp of sales-marketing, who will coordinate all tape product distribution from the SSS Corp.

Belair Forms Automotive Wing, Introduces 8-Tr Units This Wk

LOS ANGELES — Belair Enterprises has just formed a Belair Automotive branch to introduce a full line of 8-track stereo players for autos. The parent company's marketing vice

president, Rod Pierce, said that B.A. will show its first hardware at the NARM convention this week, featuring 4 models. Pierce has been named to direct the automotive division, and will continue to direct sales and marketing of the firm's home and portable lines.

Initial units on display will include a 4-and-8 track compatible model (BA 259) carrying a list price of \$69.95; a mini 8-track, BA 261, for \$89.95; mini 8-track with AM/FM radio for \$89.95, the BA 277; and 8-track with FM multiplex (BA 284) for \$109.95.

Belair is currently in the process of adding manufacturer representatives "in all markets" who will handle both Belair Enterprises and its automotive division, Pierce noted. He is also setting up additional distribution for the automotive line. "In most cases," he said, "we will use our established network of distributors, but where necessary we will be adding automotive people to cover their market."

Belair decided to enter this market, president Ed Mason said, because of the continuing 8-track market both at the Detroit level and in the after-market, and of a demand by Belair distributors and reps for a complete home, portable and automotive product line.

Designs for the auto models, Mason described, were patterned after compactness, with the mini 8-track weighing four pounds. It measures 2-1/8 x 6-3/8 x 8-1/8. The compatible unit is eight pounds and measures 1-3/4 x 7 x 7/4. All units come with non-protruding control knobs.

All units have begun shipping except for the 8-tr. multiplex which will be shipping toward the close of the month.

Mason noted that Belair had conducted an extensive merchandising survey of retail stores prior to introducing the new line. Included were automotive supply outlets and distributors to aid in determining what the automotive market was looking for in auto stereo equipment.

Mason added that the company is not planning to introduce any cassette auto players at least until a viable automatic reversible unit can be offered.

Eastern Markets Cartridge Deck, Auto Multiplex

NEW YORK — The latest hardware units offered by Eastern Specialties through its Stereo Magic line include the KA-100 cartridge deck for 8-track tape and an auto FM multiplex stereo auto component designed to fit all cars.

The KA-100 in walnut case with anodized black & silver face is set with a list of \$79.95, while the multiplex DFM-888 is priced to sell for \$99.95 without speakers. The DFM-888 features solid-state construction and operates on 12-volt DC negative ground. It is designed to fit under the dash in cars as a completely self-contained unit.

Ampex Pro-Audio Markets Two Bidirectional Units

REDWOOD CITY, CALIF — Ampex has just marketed two new professional audio recorder/reproducers with bi-directional capability designed for automated broadcast systems and radio stations. The new model ABR-10 Series and Model ABR-15 Series recorders offer users a choice of reel sizes from 5 to 15 inches in diameter, are completely servo controlled for time-base accuracy, and feature direct drive for constant tape speeds from 15/16 ips to 15 ips despite power line variations.

A.A. Sroka, vp and general manager of the professional audio products division at Ampex, said that these units are "specifically suited for long playing applications of automated broadcast systems and large radio stations." The new recorders are available in full-to-quarter-track configurations in bidirectional and unidirectional versions. A playback-only unit is also available.

The new recorders feature long time unattended recording and playback—up to 25 hours on the ABR-15 and 12 hours on the ABR-10 using 1.0 mil tape with one pass at 15/16 ips. Alternate tracks can be used in each direction with no need to turn over the tape reel when one side is played—the recorder automatically reverses direction and continues to play in the opposite direction.

A torque control tape tension system automatically adjusts reel motor torque to provide constant tape tension throughout the reel. The torque control, coupled with servo controlled capstan, provides a tape speed accuracy timing of .08% or less from start to finish, regardless of reel size or amount of tape. The ABR Series recorders provide constant pitch throughout the reel.

Modular electronics are inserted into the front of the chassis for quick access and easy maintenance.

Accessories include remote control and a mini-mixer which permits mixing two signals into each channel for stereo, or four signals into one channel for mono. The Model ABR Series recorder/reproducers are priced from \$2,000 to \$3,800 and will be available in mid-1970.

KHOW-Denver

'Every Listener Is A Star'

To be among the front running radio stations in Denver is no small achievement. For this city in the Rocky Mountains houses one of the most competitive radio markets, with a total of 27 stations. So at KHOW, there are plenty of smiles, since this 5,000 watt is at the top of the MOR listings.

"We think of ourselves as an ideal combination of personality, music and news," according to promotion director Tim Kenney. The Doubleday owned facility has been described by its operations mgr. Buzz Lawrence as a "contemporary non-rock station."

KHOW-Denver, Colorado, 5,000 kw. David G. Scribner, pres; Hal Davis, general mgr; Buzz Lawrence, operations mgr; Hal Moore, program dir; Arthur Knott, national sales mgr; John Lanigan, music dir; Tim Kenney, promotion dir; Bob Scott, news dir.

Format: MOR. Playlist: Indefinite, singles and album cuts.

Deejays: Buzz Lawrence, 6-9 a.m.; John Lanigan, 9 a. m. to noon; Tim Kenney, noon to 3 p. m.; Hal Moore, 3-7 p. m.; Alan Silverman, 7 p. m. to midnight; Dave Winter, midnight to 6 a. m.

A typical half hour's programming on KHOW would run roughly as follows: an album cut, very familiar, but not a hit of today; followed by a top MOR single fresh from the charts; a cut from a currently popular album; an oldie, either single or album track; then a new hot MOR single, one picked to become a top hit. "Once we have completed this cycle," says music director John Lanigan, "we begin it again. We've found that this system works extremely well."

KHOW has been the recipient of the United Press All News Reporting Award for the Rocky Mountain area for two consecutive years. The station is heavy on newcasts during the morning and evening drive segments, lighter during other time periods. At six, seven and eight in the morning, there are ten minute reports, as well as at

5 and 6 p. m. The remainder of the day they schedule five minute casts on the hour.

The news department, under the direction of Bob Scott, has a helicopter at its disposal 24 hours a day, in addition to three mobile units. Newsmen are equipped with two-way radios which enable them to keep in contact with the station at all times while they are on assignment. The accent is on "quick touch and fast reporting." The five man news team has over \$50,600 worth of the most modern equipment on hand to aid in the gathering and reporting of the news.

The biggest KHOW promotion has been their "Secret Sound," which is broadcast annually, during the autumn. Listeners can win a jackpot of \$10,000 by correctly identifying a mystery sound, with the aid of clues which are given regularly. Last year the sound was that of frozen corn dropping into a paper bag.

The station is already planning a three month summer promotion to commemorate the 50th anniversary of women's suffrage. More immediate is their St. Patrick's Day activity, which ties in with the city's annual parade. A popular continuing feature is "Officer Of The Day," which salutes a policeman. KHOW treats the officer to dinner and a movie and urges listeners to wish him well during the course of the day.

According to Lawrence, "The station and all the jocks feel that the listener is the star, so we compliment them. We call attention to birthdays, anniversaries, special occasions. Each man in his particular slot, in some way compliments his listeners and they respond by accepting the radio station as their own. We maintain a close-knit contact with our audience." To help do this, KHOW has 12 phone lines going directly into their control room; listeners can get right through to key personnel without any waiting.

Public service is handled on an actuality basis. Jeannie Naylor, who heads that department, invites representatives from public service organizations, whether national or regional, to come to the station and record their own spots, which are then broadcast, free of charge.

FMers Young, Affluent, CBS-FM Survey Reveals

NEW YORK — Young, affluent adults with college educations should be the prime prospects for FM advertisers, according to a national survey conducted in 1969 for CBS/FM, by R. H. Bruskin Associates.

The findings: among college graduates, there are more frequent (42.7%) than occasional (31.9%) FM listeners. While the majority of FM listeners are between the ages of 18 and 54, the 18-24 group accounts for more frequent FM listening (28.4%) than any other. The 25-34 and 45-54 groups each account for 27.7% of frequent FM listening.

The study also reveals that large markets show a higher proportion of adults who listen to FM both frequently and occasionally than do small markets. In markets with a population greater than 500,000, 28% of FM listeners frequently tune to FM while 34.1% listen occasionally.

Peter Pan: Young at 25

NEW YORK — Ambassador Records is celebrating the 25th anniversary of its Peter Pan kiddie line. As part of the silver anniversary, the label is instituting its strongest ad campaign to the trade yet, according to Marty Kasen, president. Kasen feels that budget kiddie disks afford retailers the opportunity to achieve high profit margins, since such lines eliminate — through bulk, pre-packaged purchases — the more complicated nature of stocking individual hit merchandise.

10 Million A Year

The first Peter Pan release, a 7 inch 78, "Lullaby And Goodnight" sold only in the thousands. Today, more than ten million are sold each year in the U.S. and around the world.

Peter Pan's catalog contains hundreds of titles, ranging from children's songs to a series of book and record sets and such educational products as foreign language instruction, Back to School and Pre-School Teaching Aids and classical music treasuries.

The releases are created by a staff of resident producers, and art directors in collaboration with leading educators. Peter Pan records are available in wide distribution in 29¢, 39¢ and 69¢ Book and Record sets, \$1.98 LP's and \$4.98 foreign language LP's. They are sold in all national chain stores, variety stores, supermarkets, discount and department stores. In addition to these traditional avenues of sale, the line is merchandised through school catalogues and record club plans. Foreign language versions of Peter Pan records are in use in schools around the world, and are sold in many foreign countries.

Mr. Kasen stated recently "In today's spiralling inflationary market, the 29¢ Peter Pan Record is still the best toy value in the world." A statement more than substantiated and evidenced by the multi-million annual sales figures reported by Ambassador's Peter Pan division.

Smith Named Columbia New York Branch Mgr.

NEW YORK — Paul Smith has been named New York branch manager for Columbia Records. He will direct the sales and promotion activities in the New York market area for the Columbia, Epic and Custom labels, and for Masterwork Audio Products and Accessories. In addition, he is responsible for the administration and warehousing operation at the New York location.

Since joining CBS in 1958, Smith has held a number of sales and sales management responsibilities. Most recently he was the director of sales for Masterwork Audio Products and Accessories.

Master Wing Opened By Producer's Group

NEW YORK — Harvey Cowen's The Producers Group has formed a new service department to independent record producers called the Master Wing. The department is designed to liaison with record companies exclusively for indie producers with masters. Cowen, former A&R director of MGM's Verve/Forecast, will handle contract negotiations in the sale of masters plus day to day administration and the follow-up promo of both single and LP product.

The Producers Group is a one-stop service organization for record producers which handles their business matters by: placing their projects with record manufacturers and soliciting work from record companies involving the label's artists where indies are utilized.

Master Wing operates out of The Producers Group HQ at 40 West 55th St. in New York.

Intrepid Distributes Peachtree

NEW YORK — Exclusive distribution rights of the Peachtree Records product have been acquired by Intrepid Records.

Intrepid's handling of the distribution, promotion and merchandising for Peachtree, will enable Henry Wynn and William Bell, Peachtree's co-owners, to engage more actively in their booking and artist management operations in their newly-formed Bellwyn Management, Inc. Wynn and Bell have been promoting shows through-

Real Label Seeks 'Positive' Sound

NEW YORK — Real Records has been established with the aim of making music that is "positive in nature and commercially successful." First album release is an LP by The Children Of One, an eleven-piece improvisational group whose style draws on elements of classical, jazz, and oriental music. Real calls this project "the peaceful alternative" because the music of this group brings "listeners more in harmony with themselves in an environment that does just the opposite." Promo is directed primarily toward underground, college, and jazz markets and a college circuit tour is being planned.

The second LP release is already in production by The Sight Unseen, a self-contained rock group. A single cut from the album called "I'm On My Way" b/w "One More Thing" has been released.

Real is an independent with distribution already set up in most U.S. markets. Principals of the company are James Johnson, J.C. Chalem, and Robert Friedman. Offices are located at 34 Greene Street, this city. All production is handled by J.C. Chalem and Robert Friedman. Chalem has been involved for 10 years in film production as cameraman, editor, and producer; Friedman is a retailer with 15 years experience.

At the present time, promotion in the East and Mid-West is being handled from within the firm and Ray Lawrence, Ltd. covers the eleven western states. Henry Krieger represents the company for publicity and public relations. C.F. and J. Publishing Co., Inc. is Real's publishing affiliate. In addition to recording, Real is planning several film projects and intends to be active in commercial production. No foreign or tape deals have been finalized.

New Appointments For TMC Executives

NEW YORK — In a program aimed at further strengthening Transcontinental Music's national and regional merchandising, distribution and promotional operations, certain executives in the division have been elevated to new posts and the responsibilities of others have been broadened according to Arnold Greenhut, executive vice president of Transcontinental Investing Corporation, and group vice president of the parent corporation's leisure time and entertainment division.

Named to the post of senior vice president in charge of merchandising for the western region is William Hall, who was formerly vice president of sales for that area. Larry Nunes, a senior vice president since the formation of the company, is now in charge of operations for the western region. In addition, he will also assist Charles Schlang in area promotional programs. Schlang, also a senior vice president, is in charge of TMC's nationwide sales promotion activities for both phonograph records and tapes.

Appointed vice president of merchandising for the eastern sales region is Joseph Dean, who will operate from the company's Boston headquarters. Named vice president of operations for the Eastern region is Glenn Mosley, who up until this time had been in charge of operations for the Boston area. Robert J. Greenberg has been named director of radio and television promotion for the New England region. He will operate out of the company's offices in both Hartford and Boston.

out the country for some time. Bell, the director of A&R at Peachtree, an R&B label, is signed with Stax Records as a recording artist.

The initial Peachtree product to be distributed by Intrepid will be "True Love Never Comes Easy" by Mitty Collier.

Intrepid also distributes for Virtue Records, which currently has an R&B hit climbing the charts, "My Baby's Missing" by Gene Faith.

Arnie Silver Named Avco Embassy A&R Mgr.

NEW YORK — Arnie Silver has been named A&R manager of Avco Embassy Records by Hugo and Luigi, vice presidents and chief operating officers of the diskery. Silver, 25, has been in the record business since he was 15, when he joined the vocal group, the Dovells, on Cameo Parkway Records. Silver wrote and worked in a production capacity for Jay and the Americans, and he was involved in bringing the Orlons and Dee Dee Sharp to Cameo Parkway. For a short period he produced for his own independent label, Whatta Record Company.

In his new post at Avco Embassy, Silver will screen and purchase masters, develop working relationships with independent producers in all of the company's independent production deals, supervise recording budgets, search out new talent and maintain an open door policy in regard to all music publishers and songwriters.

Licata To Head Sales For Blue Thumb Label

HOLLYWOOD — Blue Thumb Records has added Sal Licata as general manager-director of national sales. Licata, who was formerly associated with Forward Records, is being given full autonomy to make sales and merchandising decisions, according to Don Graham, president and co-owner of the label.

Licata replaces Jack Nelson, who held the sales director's post for two years and is now with Chess Records local office.

Licata's previous experience includes associations with Tower Records in New York as both regional sales and promotion manager and national sales manager. He joined Forward as sales director February 1, 1969 and was elevated to the presidency of the Transcontinental Entertainment Corp. company in January.

Tax Stamp Bill

be some identification of the number on the package so that dealers would be aware of the legality of the product they are selling.

The committee meeting, chaired by Florence Greenberg, president of Scepter Records, in the absence of Al Bell, chairman, is well aware that it requires general industry support for the tax stamp. There have been some contacts with the Record Industry Association of America (RIAA), the membership of which comprises the bulk of industry volume. The RIAA has not taken a stand on the tax stamp, but a board of directors meeting in the near future is expected to confer on the subject. Also, it's expected that the tax stamp bill will be a topic of consideration at this week's NARM convention, particularly during a seminar on the bootlegging question. Labels which favor the tax stamp include Scepter, Stax, Uni and Metromedia.

It was generally agreed at the meeting, a luncheon affair at 21, that the proposed revision of the Copyright Act — which would for the first time make a record or tape subject to copyright protection — is not likely to achieve Congressional passage for a number of years.

Andrew Feinman, the New York attorney, will guide the preparation of the Bill and is calling for industry comments.

Toronto Fest

under Ontario law. (Con't from Page 7)

A minimum of 30 acts, probably closer to 40, will be on the bill, accompanied by a like number of guest speakers on the order of Alan Watts, Marshall McLuhan and Buckminster Fuller.

Acts already confirmed for the festival include Johnny Winter, Chicago, Procul Harum, Youngbloods, B. B. King, Booker T & the M.G.'s, Spirit and Taj Mahal. Most of the remaining acts are expected to be announced within the next two weeks, although booking will be left open till the opening day of the gathering.

Mel Lawrence, operations manager for last year's Woodstock Music and Art Fair, as well as the Monterey Pop Festival, has been named to the same post with the Toronto Peace Festival, subtitled a Symposium of Peace and Light.

Among the areas Lawrence will supervise are site preparation, utilities, water supply, security, purchasing, concessions and crafts, sound, lighting and staging.

Lawrence's first task will be compiling a comprehensive study of the proposed festival site at Mosport Park, now being prepared by a Toronto civil engineering firm. The park is the prime, but not only, choice for the festival location.

Gershman, Swaney & Gibson, a local public relations and consultant firm, has been retained to handle press for the event. In addition, firm members will be active in other areas of the festival as well.

S-G Col Acquires

(con't from Page 9)

-serving as England's rep for Screen Gems-Columbia's American catalog, the London office is developing its own local copyrights and actually functions as manager of both Limbridge and Mews Music companies.

Limbridge Music, headed by actor Richard Harris, his brother Dermot, and John McMichael, is also becoming heavily involved in feature film and television production. Music for their upcoming films would fall under the agreement with Screen Gems-Columbia Music. J. Vincent Edward, star of the London production of "Hair," is under contract to Limbridge and is released as a recording artist throughout the world on the CBS label. His first CBS album, now being released, contains his performance of several Limbridge copyrights. His current single, "Thanks," which is a Mews Music copyright, has already reached the number one spot in Belgium and Holland.

Mews Music is owned by English writers Bill Martin and Phil Coulter. This writing team is responsible for many hit songs, including "Puppet On A String," which won a Eurovision Award and they were the recipients of the Gold Medal at the recent Brazil Music Festival. Martin and Coulter also wrote "Thanks," the copyright of which is governed by the recently-concluded agreement.

Under the terms of the agreement with World Music, Screen Gems-Columbia Music becomes the sole exploitation agents and the sub-publishers for the Brussels-based company. The World Music group has published such hits as "Manhattan Spiritual," "Hawaii Tattoo," which was recorded by the Waikikis and released on the Kapp label, and "On An Evening In Roma," recorded by Dean Martin and released on the Capitol label. World Music is also a record producing company which owns the Palette label. Several Palette records have been released in the United States on the Kapp label featuring such artists as Los Mayas and The Waikikis.

Pop Picks

DEJA VU — Crosby, Stills, Nash & Young — Atlantic 7200

Well, it's finally here. The album that has been so long in the making has certainly turned out to be worth the waiting. The set, of course, features the four super-stars and sidemen Dallas Taylor and Gregory Reeves. John Sebastian and Jerry Garcia also make a showing on a few cuts. Sales on this package should be as exciting as the LP itself.

LIVE — Stevie Wonder — Tamla 298

One of the most with-it performers today lays down a most satisfying set. He complements his hits ("My Cherie Amour," "For Once In My Life," "Blowin' In The Wind," "Yester-Me, Yester-You, Yesterday") with "Love Theme From Romeo And Juliet," "Everybody's Talkin'," "By The Time I Get To Phoenix," and several others. He also sets down heavy drum, clarinet and harmonica work on some of the cuts. A top-notch package that should make out excellently on the charts.

JUST FOR YOU — Neil Diamond — Bang BLPS 217

This album contains the current single charter, "Shilo," and a number of other old cuts from the Bang vaults, about half of them former hits for Diamond. Diamond is such a strong artist now that even his old material sells, and this album will probably do quite well. Cuts include "Girl, You'll Be A Woman Soon," "Cherry Cherry" and "Thank The Lord For The Night Time."

ROBIN'S REIGN — Robin Gibb — Atco SD 33-323

Having put his Bee Gee days behind him, Robin Gibb shows himself to be a strong solo contender with this album, which he wrote, arranged and produced, as well as sang. His distinctive vocalizing is heard to special advantage on "Saved By The Bell," "Most Of My Life" and "August October." Much of the bittersweet of Bee Gee records was the contribution of Robin, and it is in the air once again on this highly listenable deck which seems certain to become a chart item.

COLLAGE — Raiders — Columbia CS9964

Raiders, formerly Paul Revere and the Raiders, brings together the talents of Mark Lindsay (late of solo act success) with past fellow members of the Revere group including Paul, himself. Album focuses on commercial and underground hard rock alike. The group has matured and should find a large and excited audience awaiting the appearance of this LP on the racks. Good to see them back on the scene.

Pop Best Bets

YOU'VE MADE ME SO VERY HAPPY — Lou Rawls — Capitol ST-427

Lou Rawls will delight his many fans with this striking album, which showcases the chanter in a performance of eleven potent tunes, among them "You've Made Me So Very Happy," "Feelin' Alright," "Let's Burn Down The Cornfield" and "Mama Told Me Not To Come." Lou's polished soul styling really comes across on this deck. Could make the charts.

PSYCHEDELIC SHACK — The Temptations — Gordy 947

Since their "Cloud 9" trip, the Temptations have been spending their time back down here on earth. But they've made their home in a "Psychedelic Shack" where they have found much the same surroundings as they had in the heavens. The LP is chock full of haunting, black and electric rhythm, harmony and instrumentation. The title song was a very recent Top 10 hit. Temps also give an exciting interpretation of Gladys Knight's "Friendship Train" and many others. Bound to be a big set.

GREATEST HITS — Wes Montgomery — A & M SP4247

The guitar of the late Wes Montgomery had a sound that always let you know it was he who was its master. His albums were always sweet music. The best of the gentle, beautiful cuts from his LP's have been incorporated into a very impressive package. Such well-known tunes as "A Day In The Life," "Windy," "I Say A Little Prayer," "Eleanor Rigby," "Yesterday" and "Scarboro Fair" are all given his distinctive touch. A not-to-be-missed item.

MOTOWN AT THE HOLLYWOOD PALACE — Motown 703

This is a super-album from Motown's super-talents. Such people as Diana Ross & The Supremes, the Jackson 5, Gladys Knight & the Pips and Stevie Wonder lay down some very impressive tracks to a live TV audience from the "Hollywood Palace" show. Especially good are the two numbers on which Diana Ross and Stevie Wonder duet: "I'm Gonna Make You Love Me" and "For Once In My Life." There is also a very funny track from the ventriloquist Willie Tyler and his dummy, Lester. This should see fine chart action.

GOOD VIBRATIONS — The Beach Boys — Capitol ST-442

The Beach Boys are a legend, so it's nice to have an album which shows how they went about making it. This is that album. But more than that, it places the emphasis on their later material, which employed more sophisticated lyrics and instrument blend. "California Girls," "I Can Hear Music," "Heroes And Villains" and the title number pretty well sum up the feeling generated by the whole album. Outstanding collection which should stir up considerable action.

GREATEST HITS — Baja Marimba Band — A & MSP4248

A meaner looking bunch of musicians have never turned out the kind of music these men have become famous for. Taking cuts from their six LP's, the Baja Marimba Band includes "Along Comes Mary," "The Look of Love," "Ghost Riders in the Sky," "Maria Elena," "Georgy Girl" and "Comin' in the Back Door," among others. Like those other six LP's, this one should also have fine chart action.

BLUE MOUNTAIN EAGLE — Atco SD33324

This is one of the best of the LP's by new groups released this month from Atco. The five piece guitars-bass-drums aggregation relies heavily on harmony and interesting instrumentation to bring off its heavy sound. The LP is especially right for underground stations that specialize in the "fuzz guitar" sound to blow up their audiences. Set that may get lots of attention.

STONE THE CROWS — Polydor 24-4019

Peter Grant, manager and producer of Led Zeppelin, also renders the same services to this British group. Album is basically a blues/rock package and features the screaming, searing vocals of Maggie Bell. All 17 minutes and 28 seconds of side two is an involving cut called "I Saw America." The group will be appearing around the country toward the end of this month, so be on the lookout for them and this LP. Interesting cover art, inside and out.

STREET NOISE — Evolution 2010

This rocking quintet should attract quite a bit of attention with this fine debut package. Dynamic vocalist Tina Newkirk is pure excitement on "Someone To Love You" and the Ben E. King hit of years back "I (Who Have Nothing)." Also featured is the poignant "If Jesus Was Alive Today" and a hard driving "Six Days On The Road." Street Noise could have listeners rocking in the streets. Album is definitely one to watch.

ON THE BOARDS — Taste — Atco SD33-322

New rock trio, Taste, gets on the boards with a deck that never lets up. Lead singer Rory Gallagher offers compelling vocals, while drummer John Wilson and bass guitarist Richard McCracken keep the proceedings rocking throughout. "What's Going On" and "It's Happened Before, It'll Happen Again" demand particular attention. Strong and striking debut LP, which could churn up mucho chart waves for the group.

LIVING TO GIVE — Melba Moore — Mercury SR 61255

One of the many personalities to emerge from the Broadway production of "Hair," Melba Moore offers three songs from the show, including "Easy To Be Hard." Turning to the songbook of Laura Nyro, she serves up "Time And Love" and "Captain St. Lucifer." The LP is chock full of delights. Miss Moore is a talented newcomer who could be headed for big stardom. This could very well be a sizeable item.

Jazz Picks

CARRYIN' ON — Grant Green — Blue Note BST 84327

At a time when most good guitarists are pursuing rock careers, jazz guitarist Grant Green is "carryin' on" in his own field, and with great results, as witness this LP. Side one finds Green interpreting soul numbers "Ease Back" and "I Don't Want Nobody To Give Me Nothing." The other side features some original material by the artist, which comes across with sure-fire explosiveness. A top notch deck which the guitarist's fans should really welcome, and which could gain him more fans.

THE DOORS OF PERCEPTION — Dave Pike — Vortex 2007

Jazz vibest Dave Pike turns in a top drawer performance on this album, which was recorded live at New York's Top Of The Gate club. Aided and abetted by some fine musicians, including saxophonist Lee Konitz, Pike shines on the title tune and four other original pieces. The LP offers further proof that he is one of the freshest and most versatile masters of the vibes. Jazz buffs will want to have this one for their collections.

Wheeler Exits UA Music Post; Jimmy Gilmer Replaces Him

NEW YORK — Billy Edd Wheeler has resigned as professional manager of United Artists Music Group's Nashville office, it was announced last week by Mike Stewart, president of the firm. Jimmy Gilmer has been appointed to replace Wheeler.

In making the announcement, Stewart said, "It's with much reluctance that I accept Billy Edd's resignation, for it was due largely to his efforts that we've expanded our base in Nashville and he's been primarily responsible for our increased activity in the country music field. The demand for his talent as a performer predicated his decision to make this move and all of us who know him both as a friend and as an associate wish him every success in his new career. However," Stewart added, "I'm pleased to advise that Billy Edd will continue with our organization as a staff writer and consultant."

Wheeler has written an original outdoor musical drama called "Hatfields & McCoys," which is scheduled to open at the Cliffside Amphitheater in Grandview State Park, Beckley, W. Virginia, on June 20th. He will devote most of his time to polishing up the book and musical score in order to have the show ready for opening night.

Jimmy Gilmer, the well known leader of the recording group called the Fireballs, will be responsible for auditioning and acquiring new material and staff writers for the publishing company. He will also be involved with producing masters for both the country and pop markets under the firm's production arm, Proud Productions. Gilmer will report directly to Jack Lee, national professional manager of United Artists Music Group in New York.

She Won't Live It Down (2:32) (Tree, BMI-Kemp) Might be a future for this one. Wayne Kemp delivers an effective vocal. Flip: "Too Close To The End" (2:42) (Tree, BMI-Kemp)

DIANA DUKE (Mercury 73033)

Tonight The Jukebox Plays For Me (2:31) (Newkeys, BMI-Hall) Diana Duke could earn attention with this deck about a one man girl. Watch it. No flip information available.

AL LOWDEN (Blackbird 510)

I'll Never Be A Lawyer (2:50) (Danrite, BMI-Zaruba, Wright) Novelty number about a man who will never be a lawyer because he can't pass the "bar" without stopping in for a drink. Might make it. Flip: "Her Perfect World" (2:52) (Danrite, BMI-Smith)

GENE HENSLEE (Robbie 103)

A Tribute To Bob Wills — Life To Legend (2:45) (Billie Fran, BMI-Henslee) Song about the legendary "King Of Western Swing" could gain praise for Gene Henslee. Listen to it. Flip: "Things I Want To Be" (2:00) (Billie Fran, BMI-Henslee)

BILL MONROE (Decca 32654)

Walk Softly On My Heart (2:33) (Bill Monroe, BMI-Landis, Monroe) Bill Monroe's fans should enjoy the veteran bluegrass great's performance on this one. Nice side. Flip: "McKinley's March" (2:25) (Bill Monroe, BMI-Monroe)

SONNY MAYES (Blue Angel 1012)

Big Uncle Is Watching You (2:45) (Tree, BMI-Moran, Tubb) Ditty about a man who's either paranoid or persecuted might do something for Sonny Mayes. Merits a spin. Flip: "One Hundred Proof" (2:37) (Tree, BMI-Hartman, Tubb)

WYATT WEBB (Nugget 1047)

I'll Just Be Lonely Again (2:25) (Lonzo & Oscar, BMI-Withers, Gilbreath) Emotion-filled number from Wyatt Webb might get a fair amount of airplay and sales. Scan it. Flip: "California Bound" (2:30) (Lonzo & Oscar, BMI-Barry, Reneau)

Picks of the Week

SKEETER DAVIS (RCA 9818)

It's Hard To Be A Woman (2:15) (Press, BMI — West, Christopher, Mainegra)

Skeeter Davis follows up "I'm A Lover (Not A Fighter)" with a strong outing called "It's Hard To Be A Woman" that should turn into a sizeable deck for her. Don't take your eyes off this one. Flip: "What A Little Girl Don't Know" (2:56) (Crestmoor, BMI — Davis, Penick)

CHAPARRAL BROTHERS (Capitol 73626)

Hello L.A., Bye Bye Birmingham (2:33) (Metric, BMI — Bramlett, Davis)

This contagious side should have a host of C&W fans tapping their toes. Side really has what it takes and should develop into a chart item. Flip: "I Must Have Been Out Of My Mind" (2:38) (Central Songs, BMI — L., J. & P. Vorhaben)

LUCILLE STARR (Dot 17345)

I'm Only A Woman (2:41) (Shelby Singleton, BMI — Peters)

Lucille Starr comes across with a very effective side in "I'm A Woman." Her vocal is really powerful, and this deck should score. Flip: "Holding Out For Love" (2:17) (Terrace, ASCAP — Devaney)

JERRY WALLACE (Liberty 56155)

Even The Bad Times Are Good (2:16) (4-Star, BMI — Belew, Pitts)

Jerry Wallace may well have a big-selling item on his hands with "Even The Bad Times Are Good." Keep close tabs on this one. Flip: "For All We Know" (2:39) (Leo Feist, ASCAP — Lewis, Coots)

Newcomer Picks

MAC DAVIS (Columbia 45117)

Whoever Finds This, I Love You (4:27) (BnB, BMI — Davis)

Mac Davis, who wrote "In The Ghetto," proves himself to be a performer of great talent as well as a strong writer. With the proper exposure, this side could score. No flip information available.

KAREN KELLY (Capitol 80048)

Sunday Go To Cheatin' Dress (1:52) (Central Songs, BMI — Kelly)

New twist on a familiar subject gives this song sales power, and Karen Kelly's delivery makes it even more potent. This one could really make it. Flip: "If Everyone Loved Like You Love" (2:27) (Central Songs, BMI — Kelly)

CashBox Country LP Reviews

GREATEST HITS — Hank Williams, Jr. — MGM SE 4656

Should be loads of spins and sales in the cards for this album, which showcases Hank Williams, Jr. performing a host of his biggest hits. "It's All Over But The Crying," "Standing In The Shadows," "I'd Rather Be Gone" and "A Baby Again" are just four of the selections on a set that's filled with powerhouse material. Hank's also just released a religious album, "Sunday Morning."

BEST BY REQUEST — Jean Shepard — Capitol ST 441

Those who have followed Jean Shepard's career should welcome this collection of her most popular numbers of yesteryear, and her more recent fans will enjoy listening to the set, too. Tracks include "A Satisfied Mind," "I Learned It All From You," "The Other Woman" and "Beautiful Lies." Dealers should have no difficulty moving copies of "Best By Request." Strong album.

BOTH SIDES NOW — Willie Nelson — RCA Victor LSP 4234

Willie Nelson should delight his legion of fans with his new album venture, "Both Sides Now." The chanter is in good form all the way through the set as he offers "Crazy Arms," "Once More With Feeling" (his new single), the title tune and a bevy of others. Should be a nice amount of chart action in store for this one. Give it your full attention.

HANK LOCKLIN & DANNY DAVIS & THE NASHVILLE BRASS — RCA Victor LSP 4318

Chanter Hank Locklin and the Nashville Brass, led by Danny Davis, get together for a rousing session that should please a goodly number of country listeners. Launching the set with "Flying South," the aggregation performs eleven striking numbers, including "Laura," "Blue Moon Of Kentucky" and "Send Me The Pillow You Dream On." This one stands an excellent chance of seeing substantial chart action.

YOUR MOTHER'S PRAYER — Buck Owens And His Buckaroos — Capitol ST 439

Buck Owens and his Buckaroos here offer a religious album that should provide good listening for lovers of sacred music. Selections include the title tune, "Wait A Little Longer Please, Jesus," "That Old Time Religion," "When The Roll Is Called Up Yonder," "Jesus, Jesus Hold To Me" and "That Sunday Feeling." Feelingful performances by Buck and the Buckaroos.

FOREVER COUNTRY/ORIGINAL HITS/VOLUME I — Various Artists — Forever FR 105

Here's a real great "oldies" package that many C&W fans should want to buy and that many deejays should find a valuable item for their libraries. Set contains a dozen hits from the past. Selections include "Walk On By," by Leroy Van Dyke; "I'll Have Another Cup," by Claude Gray; "Running Bear," by Johnny Preston; "Don't Go Near The Indians," by Rex Allen; "Walkin' After Midnight," by Patsy Cline; "Yellow Bandana," by Faron Young; "White Lightning," by George Jones; and "Back Street Affair," by Merle Kilgore.

BABY, BABY — David Houston — Epic BN 26539

Titled after and including his smash single, "Baby, Baby," David Houston's new LP is a potent effort that's bound to be seeing chart action in short order. In addition to "Baby, Baby" the set includes "Hold That Tear," "(I'm So) Afraid Of Losing You Again," "Give All Your Love," "China Doll" and six others. Stock lots of this one.

SIX WHITE HORSES — Tommy Cash — Epic BN 26535

"Six White Horses" was a monster single for Tommy Cash, and this album of the same name should develop into quite an item, too. Teeing off with "Horses," Cash goes on to offer 10 others, among them his new single, "Rise And Shine," "Okie From Muskogee" and "Green, Green Grass Of Home." Save a spot on the charts for this package.

A PLACE IN THE COUNTRY — Skeeter Davis — RCA Victor LSP 4310

Skeeter Davis sings with spirit and style on her new LP, and she should be rewarded with plenty of chart and sales attention. Set includes her latest single hit, "I'm A Lover (Not A Fighter)" and many other goodies, among them "What A Little Girl Don't Know," "Let's Get Together," "(Today) I Started Loving You Again" and the title number. Watch for this one on the charts. It should be showing up soon.

Marc Dex has the distinction of being the first Belgian/Flemish artist to score ten consecutive hits — five of which reached the No. 1 position. It was in January 1968 when Marc first burst on the scene with "Oh Clown", and he is now scoring his 11th hit with "Goodbye Sam , Hello Samantha" on the Arcade label.

Celentano, Mori Sing SR Winner

SAN REMO — Andriano Celentano and his wife, Claudia Mori, took first place in the 20th San Remo Festival. The winning song, "Chi Non Lavora Non Fa L'amore," is written, published and recorded by Celentano, with Beretta and Del Prete responsible for the lyrics. Celentano's wife, by the way, proved a strong revelation at the festival. Celentano's victory came after three previous San Remo performances, one in 1961 (second prize), 1966 (not a finalist) and 1968 (third prize). Celentano, however, is among the great disk sellers in Italy, which means that a San Remo winner will get more sales mileage than is customary.

Second prize went to "La Prima Cosa Bella" ("The First Fine Thing for Me"), sung by Nicola di Bari (RCA Italiana) and the new group "Ricchi e Poveri" (Apollo, distributed by RCA), and composed by Mogol and Di Bari. Apollo is a new label formed by the famous author and singer Edoardo Vianello and his wife Wilma Goich. The label is distributed by RCA, which distributes two other San Remo entries: Rosalino Celamare, produced by Enzo Micocci on I.T., and Tony Renis, produced by Rapetti and Colombini on their label Number One. Rosalino sang "Pa' Diglielo A Ma"

Mason's 'Love Grows' Blossoms On Charts

Barry Mason who, in collaboration with Les Reed, is responsible for giving Britain's two most international stars Tom Jones and Engelbert Humperdinck world wide hits such as "Winter World of Love", "Delilah", "I'm Coming Home" as well as "Love Me Tonight" and "Man Without Love," is currently celebrating the success of "Love Grows" penned with Tony Macaulay.

The disk by Edison Lighthouse on Bell is the fastest selling single ever for an unknown group having reached the No. 1 position in the British charts in just two weeks of release. "Love Grows" looks like it's emulating its success in the States where it is climbing rapidly up the charts (currently No. 5) in just five weeks. An album is being rush released with 12 original Mason-Macaulay compositions entitled "Love Grows With The Edison Lighthouse" and a 10-track album will be rush released in the States prior to UK release.

Carnaby's Own Logo In Italy And Japan

LONDON — The Union Jack logo of Carnaby Records will shortly be "flying" regularly in Japan and in Italy as a result of deals signed in London by Carnaby chief Mervyn Conn.

The Japanese deal with Toshiba Records is for three years with six album and 12 single releases a year, starting in April.

Says Conn: "This is the first time a British independent label has been given its own identification in the Japanese market. Our first releases will feature John Walker, The Spirit of John Morgan and Jawbone." The Italian contract — over five years — is with RCA Victor, and again Carnaby will have its own label identification.

Johnny Mathis Sets April In Orient

HOLLYWOOD — Johnny Mathis will embark on a combined concert a promotion tour of The Orient for three weeks beginning April 17 which will take him to Thailand, Hong Kong, Tokyo and other cities in Japan, Okinawa and the Philippines. The singer will also try to visit Vietnam if clearances can be obtained.

("Daddy Tell Mommy") having as a partner Na da. Tony Renis, with Sergio Leonardi, presented "Canzone Blu", which is expected to become an international hit. Tom Jones is waxing it in English, with the title: "I Need You Now".

Sergio Endrigo (Cetra) and Iva Zanicchi (Ri-Fi) had third place with "L'Arca Di Noe" ("Noah's Arc"), which received a special award for the best lyrics. "L'Arca Di Noe" was leading in the second night, while "La Spade Nel Cuore" ("A Sword in My Heart"), interpreted by Patty Pravo (RCA Italiana) and Little Tony (Little Records, distributed by Phonogram), leader in the first night, reached fifth place. Fourth was "L'Eternita", with Ornella Vanoni (Ariston) and "I Camaleonti" (CGD). CGD succeeded to enter the finals with all the seven singers it presented at the contest, and RCA Italiana which is distributing 11 records out of a total of 52 in the contest from all the companies. RCA had six records in the finals.

Italian Industry Seeks Fairer Taxes

MILAN — The Italian records market has grown greatly in the last ten years but laws have not been adapted to the new situation. In Italy music is considered a luxury product, aimed at the upper classes.

A record, which is supposed to be sold to retailer at Lit. 1200 (\$2) has to pay Lit 120 (20¢) for taxes on records and Lit. 48 (8¢) for IGE, which is a tax on income. This total of Lit. 168 represents over 70% of the revenue for the record producers and over 30% of the margin for retailer. Consequently it represents a premium and encourages clan destine importations and illegal sales.

Canada Broadcasters Marshalling Forces Against 30% Content Ruling

OTTAWA — Pierre Juneau's April 14 CRTC hearing has apparently roused the Canadian broadcasters to take advantage of his "open door" policy for objectors to the proposed new 30% Canadian Content rule for radio stations. The Canadian Association of Broadcasters (CAB) have shifted their Apr. 20-22 Halifax Conference to Ottawa for the Apr 10 to 12th dates. Reasons given was that as most of the broadcasters will be in Ottawa anyway for the CRTC meeting, many would be hard pressed to make the Halifax dates.

It's expected that with all the broadcasters gathered and with most, if not all, submitting briefs as to why legislation should not go through on the 30% content rule, Juneau will have to relax his stand and perhaps defer any ruling. Observers feel however, that Juneau's group has taken the overall sit-

uation and all its supposed pitfalls, and have come up with a rather clear-cut approach to the matter which, if anything, needs only the corners smoothed.

Throwing a monkey wrench into the vocally loud but small minority of broadcast wailing of the content rule is the day by day discovery by Canadian broadcasters of excellent available Canadian content. The giant CFRB (Toronto) and CJAD (Montreal) Standard Broadcasters, are already programming in excess of 17% and have advised their listeners that they welcome the new content ruling and won't have any difficulty in attaining the necessary 30%. CHAM (Hamilton)/programming a mixed bag and showing good gains on the latest BBM, are now up to 21% Canadian content and according to program director John Murphy, "Discovering more and more excellent recorded material". Listener reaction has been good to the Parrot album release of Ginette Reno, the Capitol album release of Anne Murray and the George Walker Polydor album, where he is featured with Germany's James Last. Murphy also pointed out the fact that his jock imports were surprised to find that they were programming material they were familiar with, expecting to find they would have to learn the music scene all over again. These jocks had actually complained about the lack of domestic product being programmed.

Lots of Product

When the broadcasters do complain about the lack of programming material to comply with the 30% content rule they'll be surprised to learn there is an abundance of material available and, in fact, a comprehensive list of Canadian singles and albums will be made available, first to the Juneau group on the day of the CRTC hearing and later in catalogue form to broadcasters. An example of product available is the catalog of a small Canadian independent which totals 3600 selections. A major has come up with a listing of over 5000 listings of a mixed bag. It's expected the catalog when completed will have upwards of 25,000 selections.

Some observers feel a battle will be attempted over the supposed quality of the recordings. What's good, foreign, as opposed to what's Canadian, which automatically falls into the "poor sound", by some broadcasters.

Canadian record companies have been quick to jump on the 30% Canadian content hope and are supplying broadcasters and the trade with their own list of available Canadian content. Recording studios have been booked solid since Juneau's Feb 12 bombshell. A new recording by Hamilton's Tranquillity Base "If You're Lookin'" on RCA which is a 100% Canadian content recording cut at RCA's Toronto studios, so impressed RCA U.S. that there will be a simultaneous Canadian/U.S. release.

Eurovision Fest Lists Entries

NEW YORK — The 15th Eurovision Song Contest takes place in Amsterdam this Sat. (21). It is always the winning country which plays host to the following year's contestants, but in 1969 on stage at the Teatro Real Concert Hall, Madrid, a unique situation arose when four countries received the same amount of votes. These were Britain with "Boom Bang-A-Bang" (Lulu), Spain with "Vivo Cantando" (Salome), Holland with "De Troubadour" (Lennie Kuhr) and France with "Un Jour Un Enfant" (Frida Boccara). Which country should play host for the 1970 Contest was the question being asked for many months and eventually the Euro-

vision Committee decided on Holland. All this week artists, managers and record company executives will be converging upon Amsterdam, turning the RAI Congress Centre into a minor United Nations Assembly Hall. Details of the twelve countries' entries in order of presentation are as follows: Netherlands: "Waterman" sung by Hearts of Soul, Switzerland: "Retour" sung by Henri Des, Italy: "Occhi di ragazza" sung by Gianni Morandi, Yugoslavia: "Pridi, dela ti bom cvet" sung by Eva Srsen, Belgium: "Viens l'oublier" sung by Jean Vallee, France: "Marie Blanche" sung by Guy Bonnet, Great Britain: Title not known at press time Artiste is Mary Hopkin, Luxembourg: "Je suis tombe du ciel" sung by David Alexandre Winter, Spain: "Gwendolyne" sung by Julio Iglesias, Monaco: "Marlene" sung by Dominique Dussault, West Germany: "Wunder gibt es immer wieder" sung by Katja Ebstein, Eire: "All kinds of everything" sung by Dana.

EMI's 6 Months Aided By Capitol

LONDON — EMI results in the six months ending Dec. 31 last year were not as bright as some quarters anticipated. Pre-tax profits rose by 14% to £12.36 million in the period concerned, and a considerable proportion of these emanated from Capitol Industries in America, but the high American tax rate stunted the final figures. Associated British Picture Corporation, acquired last year by EMI, made little progress, and Thames Television contributed only £350,000 profit to the half-year results instead of the £1.79 million originally forecast from this source, more ominous evidence of the lethal advertising revenue tax implemented by the Government on the commercial television companies. Overall group sales rose from £100.88 million to £109.35 million, and net profits available for ordinary share holders are up from £4.72 to £4.94 million. The interim dividend will remain unchanged at 7½%.

CFTO Variety Pilot

TORONTO — CFTO-TV producer Jerry Rochan has just completed a pilot of "Nashville North" for a hoped for fall series on the CTV network.

The downtown country pop show stars Ian Tyson as host with his band Great Speckled Bird as back-up group. Guests on the first show were Capitol's Anne Murray and Bobby Bare (RCA) and Gamma recording artists Green & Stagg who are currently showing top national form with their initial release "To Love Means To Be Free".

The show was taped in the round with an audience of up to 400 students specially bussed in from Centennial and Scarborough colleges and the Universities of Toronto and York. The one hour show will be cut to one half hour for showing.

"Music For Pleasure," the top budget line label in Great Britain is venturing into France. For the first time in the French record industry a major group is going to launch a label devoted only to cheap priced Lps. "Music For Pleasure" plans to have a 15% share of the French record market within a year. Next week "Music For Pleasure" will give a press conference to explain its policy and plans. Liberty/UA has secured world rights for the song which will compete for Switzerland in the next Eurovision song contest. Henri Des is singing the song "Retour." The song is already being released outside of France and Switzerland, in Holland, Spain, Germany and Finland. Eddie Adamis head of Liberty/UA in France has signed Michel Poulain as label manager and Michel Delorme to handle the import and export department of the record company.

The licensee deal which tied Pathe Marconi with Liberty UA has been changed to a simple record pressing and distribution deal. This means that from now on Eddie Adamis, will decide himself which records should be released under his label. This new deal will be effective starting July 1st. "The Best Of France" a de-luxe album conceived by Eddie Adamis has been

enjoying excellent sales. Within two weeks from now the LP will be released in the States. It has already been imported in Belgium, Switzerland, Sweden, Holland and Portugal. Lenny Kuhr in Holland, Katia Ebstein in Germany and Santo and Johnny in the States have already recorded songs from "The Best of France". In France top stars such as Nicoletta, Frida Boccara, Georgette Lemaire and the Swingle Singers have reserved several tunes. A very big success for Eddie Adamis.

Guy Bonnet (a Pathe recording artist) will represent France in the Eurovision song contest with "Marie Blanche". Following negotiations between Bobby Weiss (Monument records and Combine Music) and Georges Garvarentz (French Music). Les Editions French Music (the Charles Aznavour publishing company) will now exploit the catalogue of Monument's Combine, Vintage Music City, Wide World of Music, songs of the World and Longhorn copyrights. French Music will start very soon working on these catalogues with "A Rainy Night in Georgia" written by Tony Joe White and a top 10 success by Brook Benton. Leonard Bernstein in Paris for several concerts received enthusiastic reviews from everyone.

LONDON — Alan Paramor, managing director of Hooray Music, has opened negotiations for Dutch and American representation for Hooray Music, the company formed by Ray Hammond and Ray Hendriksen's Hoo-Ray Productions which recently signed a £50,000 licensing deal with Pye Records.

Dutch publisher Loes Jansen of Editions Actueel, Heemstede, Holland visited Britain last week to discuss exclusive representation of Hooray Music in Holland. Debut LP's from

Hooray are by Fire, Mighty Hard, Milton and Savwinkle and Turnerhopper — and he hopes to be able to tie up the Dutch representation by early spring.

Paramor said a prominent New York publisher also visited him recently to discuss Hooray representation in the U. S. The first single releases from Hoo-Ray Productions in the U. S. will be "Save the Life of My Child" by Mighty Hard and "Your Mother Thinks I'm A Hoodlum" by Savwinkle and Turnerhopper.

In any language EMI means record business

... and in Switzerland, where there are no fewer than four official languages (German, French, Italian, and Romansch), with English so widely spoken that it can almost be regarded as an unofficial fifth, EMI Records (Switzerland) has a polyglot staff to handle what must be one of the most cosmopolitan selections of recorded repertoire anywhere in the world.

And apart from giving first class distribution to many American and European labels, the company is an undoubted leader in the field of local recordings, as witnessed by the success of a recent hit single ('Grüezi wohl, Frau Stirnimaa') which has enjoyed top sales in Switzerland and Germany and is soon being released in the USA and Japan.

With companies in thirty countries and licensee arrangements in nearly twenty more, EMI knows the record business like nobody else. If you're one of the record people, you need EMI.

THE GREATEST RECORDING ORGANISATION IN THE WORLD

ELECTRIC AND MUSICAL INDUSTRIES LIMITED (EMI) LONDON, ENGLAND

The volatile Management Agency and Music shares hit a minor key recently on the Stock Exchange. £4 million was wiped off the market capitalisation of the company in a flurry of selling following reports that a prospective major deal had bombed out. MAM never admitted such a deal. It was established that MAM had been discussing the purchase of Air London, the independent production company headed by Beate A & R man George Martin with Tom Jones' disk producer Peter Sullivan on its staff, but apparently nothing progressed beyond the discussion stage. There was also the news that Engelbert Humperdinck's TV series for the States would not be extended beyond its initial 13-week run on account of disappointing ratings, although this fact was unlikely to exert more than a minimal peripheral effect on share prices. The downward stock trend is attributed mostly to the fact that an option is being exercised and shares are being sold at a good profit according to tax regulations, and both music business and financial circles still regard the long-term prospects of MAM as decidedly rosy.

Music for Pleasure managing director Richard Baldwin revealed details of the budget label's plans for more action in the children's market at the recent MfP sales conference at Richmond. Eleven albums are scheduled for March 26 release, and if the target of 1,300,000 album sales of children's repertoire is attained this year, it will represent 20% of the label's total sales as opposed to the 11% which children's LPs scored last year. The new release includes "The Story Of Pollyanna" from the soundtrack of the Walt Disney film starring Hayley Mills, and to tie in with the issue MfP is introducing stronger browsing racks in full colour with a "Paint A Cover" competition for buyers whereby they can win paint boxes worth £2.

David Jacobs has been named consultant to find, produce and promote British talent by RCA Records. He will work with RCA product and operations general manager Ian Gillespie and his new assistant Derek Green who has transferred from his post of Sunbury Music professional manager. Ian Grant will continue as UK pop A & R manager. Jacobs is a veteran disk jockey with 25 years' experience, and hosted TV, radio and discussion programs.

Philip Solomon of Major Minor Records has announced the formation of a new label to be known as Country, which will be devoted to country and western music. Spearheading the new project will be Pat Campbell who is well known for his interest in country music. Label makes its debut around May with one LP and two singles. During the next four months competitions are being held for professional and semi professional artists to discover 'native' country talent with the winners being offered recording contacts for the new label. Solomon has concluded deal with Mercury Records USA (Philips licensee in UK) to have second refusal of acts for the label.

Arranger-musical director Johnny Gregory has signed an exclusive three year pact with Philip Records. The deal calls for two albums per year from Gregory's two recording units, The Chaquito Orchestra and the Cascading Strings, which will be produced by his JG Recordings company. Gregory has recorded for the Fontana label of Philips for over 12 years, working until last fall with Fontana A & R manager Jack Baverstock, who has since left the label. Gregory's big Latin band albums recorded under the name of Chaquito have notched high sales here and other parts of the world.

Micky Dallon's Youngblood independent recording company is launching a new series of jazz recordings early in April. Micki Dallon who heads Youngblood recently completed negotiations with Transworld of Canada for distribution of the label in that territory.

Following an agreement between the BBC and the Musicians Union, session

pay checks have risen for TV and radio work. Musicians engaged for a BBC TV show will now get £18, instead of £12., the first increase since April 1964, and the radio rate has climbed from £6. to £8., the first change since July 1962. The new TV level puts BBC bookers in a more advantageous position in comparison with the rates paid by commercial TV when they are seeking the best session talent for their shows.

Radio Nordsee, the Swiss owned pirate station off the Dutch coast, has commenced regular transmission to the UK despite threatening rumblings from the Ministry of Posts and Telecommunications urging Panama to cancel the registration of the ship being used. The British authorities and several other countries have also made representations to Holland on the grounds that the station's operation is an interference and possible hazard to shipping in the area. Nordsee beamings area little weak, and could become a useful and much-needed additional means of exposure for pop product if the station survives, although officially the British record companies must frown upon its existence and not supply promotional disks or other material. Nordsee is being backed by two Swiss businessmen who claim to have invested £400,000 in the project, and the advertising rate quoted is £80 for thirty seconds of airtime. Another new operation is Radio Geronimo, which has begun test transmissions to Britain from Radio Monte Carlo as "the only legal progressive rock station in western Europe."

Witchseason chief Joe Boyd has formed Warlock Music as the publishing arm of his organisation, and named Brenda Ralfini as its general manager. Brenda has 15 years of publishing experience with Joe Henderson Music and latterly Feldman Music, where she handled overseas licensing. Warlock will handle copyrights by Richard Thompson of Fairport Convention, John and Beverly Martyn, Sandy Denny, and Robin Williamson and Mike Heron of the Incredible String Band among others.

Novello and Co., the music publishing house specialising in educational repertoire, has replied to the recent bid from Music Sales, the British end of Music Sales of New York. It states that the net tangible asset value per Novello share is £29. 2s, and consequently the board is unenthused about the Music Sales offer of £25 per share. The board is forecasting profits for the year ending June 30th next as £50,000, an increase of £10,000 on the previous twelve months.

Tony Burrows who is featured on "Love Grows" and several other disks has been signed to Bell Records as a solo singer and makes his debut in April with "When My Melanie Makes Me Smile" - a track from the new Edison Lighthouse LP. Bell have also signed Shel Talmy to an exclusive world wide three year deal and his first contribution is a single by Rumpelstiltskin. Bell also have a new single by The Family Dog with another Greenaway-Cook composition "Which Tomorrow Becomes Tomorrow."

Campbell Connolly has bowed a new label called Harvard to specialise in middle-market material, and the first single produced by Norman Newell is "I've Got You" by the Strangers. Harvard will be a companion label to CC's recently launched Concord mark which concentrates on pop product. CC is the last wholly-owned British publishing group independent of American or overseas investment and control.

Germany

The Hamburg magazine and publishing concern Gruner & Jahr, which gathered experience on the record scene with Stern-music (Twen- and Constanze-records), will start its own record label in April named Maritim. A long termed exclusive contract for the distribution with Ariola-Eurodisc, Munich, was agreed upon. The initial release includes 20 LP's on the low-price-sector and a total amount of 50-60 LP's in the output is planned. The aim of "Maritim" is to organize a standard discography of quality LP's on the low price sector. Production chief of Maritim is Klaus Laubrunn. Gruner & Jahr will make strong publicity for Maritim. In Germany the music cassette business gets more and more important. At the end of 1969, about 3 million cassettes were sold. A computer has calculated that in Germany, by 1972 the cassette sales shall run to more than 17 million. Therefore in the coming months and years a rapid upward movement on the tape deck and cassette sector can surely be expected. For the Philips concern Dr. Werner Vogelsang, director of Phonogram Ton, prophesized that before the end of this decade 40-50% of the total turnover will be made on the sector of music cassettes. Besides it is presumable that in the near future the German motor firms will bring their cars on the market with cassettes as standard fitting...

On the 19th and 20th of February a European tape meeting of all Liberty companies took place in Munich. The following gentlemen attended; Earl Horwitz, general manager of Liberty stereo tape, Los Angeles; Martin Davis, general manager Liberty/UA, London; Dennis Knowles, sales manager Liberty/UA, London; Richard Jakubowski, tape manager Liberty/UA, London; Tony Casetta, managing director Belldisc, Mailand; Eddie Adams, managing director Liberty/UA, Paris; Michel Poulain, label manager Liberty/UA, Paris; Siegfried E. Loch, managing director Liberty/UA, Munich; Peter Hube, sales manager Liberty/UA, Munich. Aim and purpose of this meeting was to prepare and co-ordinate the start of the Liberty/UA music cassettes and stereo 8-track cartridges activity in Europe. The exchange of thoughts between the managing director of the American firm and the European colleagues is very important, because in the USA, Liberty can be seen on this sector as pioneer of many productions and sales methods. As additional success of the negotiations in Cannes during MIDEM, Liberty/UA announced that they could make an exclusive contract with the American label, Vault Records.

The San Remo Festival was the event of the week in Argentina! Although San Remo is in Italy, it was brought here as a result of an interesting TV and radio idea, handled by cosmetic producers Odol, who decided to transmit the main events via satellite thus placing this program in one of the highest rated spaces on Channel 13. In addition, RCA launched a series of records a few hours after the Festival, with the songs by Nicola de Bari, Sandie Shaw, Nada, Patty Pravo, Rita Pavone and Tony Renis, mostly in Spanish, and the other diskeries have followed suit. It seems that San Remo 70, with the aid of TV, will regain the importance in the International market it had some years ago, at least from the Argentinian point of view.

After the success of "La Nave del Olvido," which reached the top of the charts in Argentina and has been one of the top selling titles of recent years, Luis Calvo of Music Hall hopes to obtain a new smash with "Nadita Nada," also recorded by Venezuelan chantress Mirtha Perez in Argentina. There is also an LP on the way, and the singer has been heavily promoting this effort through personal appearances on TV and dance parties, which attract huge crowds here.

CBS' Hugo Piombi infos about the launching of a new beat music group by the diskery: Hielo. The recent

single by another newcomer, Sergio Denis, is still running very well, as is the new one by Leonardo Favio, "Solo by Tomando Mate," which seems to be following the success of "Chiquillada," his latest waxings.

Odeon is working hard on the promotion of the new LP by Ramona Galarza, regional music chantress holding for many years one of the top places in the field. The LP carries songs from the Eastern part of the country, and is also expected to be a longtime seller. The label is also releasing two records by chantress Billie Davis, a guest of Buenos Aires next week.

Phonogram is getting on the bandwagon with International hit "Venus," which has been appealing strongly to the youth and has several local recordings already. The Phonogram version is the one recorded by Shocking Blue, and appears already in the charts. There is also a new single by the Spanish group Formula Cinco: "Cenicienta."

More about RCA: Tormenta, the seventeen year old chantress that shook the charts with "Cebando Mate," has already recorded another single, which will be launched this month. Her first LP is due soon and strong sales are expected, since she has received strong promotion through the TV teen programs currently on screen.

Bill Deal Bowling In Mexico City

NEW YORK — Art Ross, VP in charge of sales for Colossus and Heritage, reports that Bill Deal and the Rhondels will be undertaking their first tour of Mexico City beginning March 13, for two weeks.

The group will be busy with club dates, concert appearances and major TV shows in Mexico City itself. Additional dates outside the city are pending. Deal has been a chart seller in Mexico, as well as South America and parts of Europe.

Luis Aguile, the pioneer of the pop movement in Argentina, now rooted in Spain, is enjoying Mexico as a tourist.

After many years an international product overcame the 300,000 copies mark in Mexico. This is the case of The Archies' "Sugar Sugar." The disk reached the mark in just three months. The local product following the path is Jose Jose's "La Nave Del Olvido."

"Baby Take Me In Your Arms" with Jefferson, on Gamma, is on its way to be the hit of month in response to the promotion campaign planned by Carlos Camacho, Luis M. Moyano and Oscar Mendoza based on radio and tv spots with full color film clips.

Angelica Maria and Roberto Jordan were presented on the stage of the Agustin Lara Theatre at the Alameda Central by Constantino Escobar, the young and brilliant RCA promo and advertising manager, after they flew over the spot in a helicopter throwing out autographed photos.

RCA released the Foot-Ball World Championship musical theme. To tell the truth it is no better than the British one released in London four years ago.

Rafael Trabuchelli, A&R Director of Hispavox was in Mexico for a short visit to Discos Gamma, S.A. Trabuchelli is the producer for Raphael, Karina, Los Poas, Miguel Rios, Waldo

de los Rios and Miguel Ramos at Hispavox in Spain. He was very pleased to find that his "Maria Isabel" with Los Payos has been a big hit in Mexico. Among other things Trabuchelli reported Raphael's return to Mexico City next month and the launching of a Waldo de los Rios LP with Mexican composers' material. Carlos J. Camacho and Luis M. Moyano Gamma's top execs attended Trabuchelli, while in Mexico.

Another VIP guest was Sir Joseph F. Lockwood, EMI's president, who came down to pay a visit to Discos Capitol de Mexico. To welcome Lockwood, Ramon Dosal, general manager and Alfredo Marcelo Gil, A&R of Discos Capitol offered a luncheon at Hacienda Los Morales. The show was covered by Cesar Costa, Carlos Lico and Trio Los Montejo. Before Lockwood left for Brazil, he made a statement about the ambitious plans for the pressing of classical music records by Discos Capitol de Mexico, S.A.

Juan Carlos, Chilean chanter/composer, known in Mexico for his "El Modesto," is down here. RCA is doing a big promotion of his new songs on all of the local radio stations.

Luis Eca and La Familia Sagrada, the Brazilian group, whose night club and TV shows have been quite a success, are leaving soon for Las Vegas to take part in the Ray Charles show.

Caravelli, Pilar Tomas and Michel Fugain arrived in Mexico City to take part in The II Festival de la Cancion Latina en el Mundo.

To increase the promotion of Miguel Rios's "Himno al Amor," Discos Gamma will produce a big TV show. "Himno al Amor" is based on Beethoven's Ninth Symphony.

Carlos Lico (Discos Capitol) sang at the closing night of The Festival de Musica Popular "Miguel Lerdo de Tejada."

Robertha, another of Discos Capitol stars, left for Ecuador.

Polygram released the LP's "Best of Scott Walker Vol. 1" and "The Immortal Walker Brothers" (on Philips) and "Na Na Hey Hey Kiss Him Goodbye" (Steam) and "Ice on Ice" (Jerry Butler) on Mercury. Steam's new single "I've Gotta Make You Love Me" was released too. The company is trying to bring Jerry Butler to Belgium for a TV-appearance in April. It will also distribute the UNI-label in Belgium. Eurovox Music reports that Louis Van Rijmenant and Rudy Witt scored some remarkable successes at the MIDEM. In two weeks time they secured 21 local recordings of songs, which they signed in Cannes. Such top artists as Marc Dex, Norbert, Micha Marah, Jimmy Frey, Gill Marvin, The Bob Boon Singers, Vivi and Francis Bay have already recorded, or will in the very near future record these songs. Anita, Lily Castel, Jacques Raymond and Ronny Davis have songs in first option. For March 1st, the Eurovox owned Arcade label will release following singles: "Joekaidi" (Good-bye Sam, Hello Samantha), by Mitch Murray and Peter Callander by Marc Dex, "La Primavera" (a Palito Ortegason) and "I Love You More" (an Oversea-song) by Vivi, "Canzone Blu" (the forthcoming world smash, written by Tony Renis) and "Cibu Ciba" (a Jugo-Slav song by hit-writer Kalogjera) and "Neretva March" (filmsong by the same composer) with The Francis Bay Big Band. Eurovox music plugs heavily their "Durham Town" (Roger Whittaker), "Years May Come and Years May Go" (Herman's Hermits), "Reflections of My Life" (Marmalade), "Serenade" (Wallace Collection) and "Without Your Love" (Cupid's Inspiration).

Mario Freidberg, chief of the Mexican Tizoc-label, visited Eurovox House. Tizoc will release ten albums a year from the Arcade productions. Regarding local production, Inelco was again very active in the better "Chanson" field releasing an important album by Julos Beaucarne: "Julos Chante Pour Vous" meaning an entire renovation of this artist and the material recorded on this LP responds to a long expected desire of his fans. Another Inelco release, on the Kalliope label, is an album recorded by De Vaganten under the supervision Miel Cools, the success of which surpasses the most optimistic expectations. The single "La Belle Epoque/Perle d'Etoile" by the 19 years old revelation of the R.T.B. "Euro 70" contest Andree Simons was rush-released.

Leapy Lee, whose "Good Morning" single was released recently, will participate in the Hej TV-program in March. On the RCA label, millionaire Michael Brody's single "You Ain't Going Nowhere/The War Is Over" was rush-released. This week's Vogue releases are the LP's "A Song For Me" by Family (on Reprise) and "Changing Horses" by the Incredible String Band (on Elektra). Joe Dolan's "You're Such A Good-looking Woman" is selling very well in Belgium. The record entered the Belgian top 20 and will probably become a number one. Barclay released the LP "Joe Tex Sings With Strings and Things". His new single "You're Right, Ray Charles" is included. "Bubblemusic Music Volume 1" is an album full of Buddah-hits. "Continued" is the new LP by Tony Joe White of which the track "Old Man Willis" is much played. The Belgian disk-jockeys plug the flipside of R.B. Greaves' new single: "Oh When I Was A Boy." They think that "Always Something There To Remind You" is still too well-known in the Sandie Shaw version. Gramophone released the LP's "Best of The Temptations" and "Best Of the Marvelettes" (on Tamla Motown). A few weeks ago we mentioned that HMV would distribute the Straight label. The first release is now the double LP "Captain Beefheart And His Magic Band." After the tremen-

dous success of the Johnny Rivers track "John Lee Hooker," much is expected of "Get Ready," a 21 minutes long track from an LP by Rare Earth on HMV.

Palette has recently started to release some foreign productions. The first records to appear are: "Jack In The Box/Henbanes Sacrifice" by The Jackpots and "Hello I Love Maria / Heart Transplantation" by The Dragons and "What Goes Up Must Come Down/Slowly Quick Quick Slowly" by The Cellophane Mop, two new British underground ensembles, now taken over by Palette for the Benelux countries. The Palette office has been very busy right from the start of MIDEM. Over fifty important visitors took the time to stop, stay, listen to the Palette productions and started discussing possibilities of business with either Ida Halila or F.R. Faecq. A big activity is being developed for Palette on the various active markets of the world by cassette and stereo cartridges manufactures. In Italy, 20 cassettes are just released: "Colour In Dance" series No. 1 to No. 20 under the Palette-Broadway label. In Spain, Belter has released cassettes for Digno Garcia, Ray Martin, Arthur Greenslade, The Union Sound Inc., Accordeon Parade by Roger Eggermont. In Germany, Polydor has released cassettes for Digno Garcia and Los Mayas. In the U.S.A. and Canada, Kapp released cassettes for the Palette million sellers The Waikikis. In Japan Columbia released cartridges for Digno Garcia, Los Mayas and The Waikikis.

Much news as well for other Palette artists: Durium (Italy) has released the first Luigi record in Italian, "La Verita." Ann Bradford is selected for the Tenerife Festival. The sales of the LP's of Nico Gomez in Holland are important and growing. Polydor France are preparing releases of LP's by Los Mayas and Digno Garcia interested in recordings by Kiki. Jacques Canetti is taking interest in Claude Lombard while Barclay has taken over Jean Le Fennec and released a first LP. Philips of France follows the Jess & James releases and promotes them. Polydor of London prepares further releases of Los Mayas. Good following for Rita Deneve from the Sonet group (Scandinavian) and RPM (South Africa). Big Barclay operation on Jean Le Fennec with TV-appearances and interviews over French, Canadian and Swiss networks. RPM is also interested in the Jess & James recordings. CBS reports a show with Elaine Delmar (her own program with 12 songs) on March 7th (BRT). The British Blue Horizon group Jelly Bread will appear in the TV-program Andere Koek on March 18th (also on the BRT). New CBS releases are the LP's "This is Gene Pitney Singing the Platters Golden Platters," the new double LP "Chicago" and the singles "Bitter Tears" (The Shuffles) and "Jesus Is Just Alright" (The Byrds). This last record will certainly become a hit thanks to the pirate station Veronica, the most important station for Flemish record-market. The new station Radio Nordsea is well received in Belgium. Much is expected from this station considering the record-sales.

Palette Records will release a new series of records under the label Hurrah. The first twelve LP's are by the Peter Loland Orchestra. Vogue will distribute the Bam label in Belgium. Bam is well known for its folklore records. The Doors' Morrison Hotel LP was rush-released and is selling very well. There is a fantastic interest in the single "A Song of Joy" by Miguel Rios on Hispavox. It is a Spanish record, based on the last part of Beethoven's 5th. It has every chance to become a number one soon.

After Jose Feliciano's performance in the Dutch Grand Gala du Disque,

INSIDE JOB — Sir Victor Uwaifo holds his gold record "Joromi," the first artist from Central Africa to receive a gold disk in that area. The Philips singer/guitarist hails from Nigeria and his record sold well over the 100,000 copies needed to be certified. Shown at the presentation are (l. to r.) F. D. Briggs (studio manager), I. T. Henshaw (A & R manager), A. van Leeuwen (managing director), Badojo Okusanya (repertoire adviser), Uwaifo, G. van Leeuwen, E. U. Arthur (product manager), and G. A. Beijering (product manager).

Gramophone rush-released the new Beatles record "Let It Be." Beatle John Lennon and his wife Yoko Ono have a superhit with "Instant Karma." Dionne Warwick's "I'll Never Fall In Love Again" was released on Scepter Records. There is also a lot of interest in the new EP by Georges Chelon, especially the track "Merci Que Ce Soit Nous." Gramophone also released the LP "14 Fabulous Favourites" by The Four Tops on Tamla/Motown.

After the tremendous success of the Johnny Rivers track "John Lee Hooker," much is expected of "Get Ready," a 21 minute track from an LP by Rare Earth on HMV. Luk Derouwax is Gramophone's new public relations man.

Philips released the single "Viens l'oublier," the song with which Jean Vallee will represent Belgium with at this year's Eurovision Song Festival in Amsterdam on March 21st. Rush-released and much played are the singles "Soul Brother Clifford" (The Equals), "Ghetto" (Marva Hodge) and "Good Morning Freedom" (Blue Mink). Fonior released the Deram hits "My Baby Loves Lovin'" (White Plains) and "United We Stand" (Brotherhood of Man).

Barclay reports a great come-back for Brook Benton and his "Rainy Night In Georgia." The French version of Mark Lindsay's "Arizona" is by Eddy Mitchell. Simultaneously with The Beatles, Aretha Franklin's version of "Let It Be" was rush-released. The flipside is the already famous "Son Of A Preacher-Man."

A new dance was created on the record "Rush Gold" by The Alaska on the Riviera label. The new dance named after the record. A lot of success for the Cold Blood LP, from which the track "You Got include Lulu's first LP on Atco and "Best Of Ray Charles" on Atlantic.

CBS artists Chambers Brothers have a lot of success in the dance-halls with their double LP "Love, Peace And Happiness." The track "Bang Bang parts 1 & 2" was released on single and this by special request. Other successful CBS LP's are "Hello I'm Johnny Cash" and "Heavy Sounds," a collective LP.

all his records are in great demand. Jose is now really breaking through in Belgium. At request Inelco will release "No Dogs Allowed" as a single.

Polydor's Georges Moustaki, at present the biggest French star, will be touring Belgium during the month of March. At the same time his new LP will be issued. The Dutch group Earth & Fire made a TV-appearance in Belgium and their single "Seasons" is becoming Polydor's greatest hit. The Irish group Taste had a tremendous start in Belgium. In less than two weeks, 3,000 copies of their second LP have been sold. The Dutch production was a new success with the Golden Earrings and their last single "Another 45 Miles." It will certainly enter the Belgian charts. Polydor, which now has the agency of Ricordi, is preparing a LP program for the new season. The company will also be engaged in distributing the records of Gilles Vignault, the great Canadian star, who created his own label Escargot. The Polydor bestsellers are "Ain't It Funky Now" (James Brown), "Seasons" (Earth & Fire), "Another 45 Miles" (Golden Earrings) and "Room to Move" (John Mayall). The increase in sales of LPs during 1969 is 50% in excess of sales in 1968. In the classical field there is a very big activity at Polydor Brussels. First one must notice the visit of Dr. Ursula Klein of the artist promotion department of Deutsche Grammophon, Hamburg. Aim of this visit was to put in concrete form the bases of agreement with the "Societe Philharmonique de Bruxelles" for the seasons 1970/71 and 1971/72. Taking this opportunity, the Belgian Radio interviewed Dr. Klein relating to the "debut" collection. Also for radio, the RTB reported from Vienna about the first world recording of "La Rappresentatione di Anima e di Corpo" by Emilio de Cavaliere. Two special correspondents, A. Ch. Van Hautegehem and J. P. Muller came back with a captivating commentary for a one-hour broadcast.

Finally, one must notice the inauguration in Brussels of the "Studio Beethoven," the initiative of a Brussels record retailer. The "Beethoven Studio" centres the major part of its activity on the Beethoven Edition, which has an unusual success over here.

Polydor's Ontario promotion manager **John Turner** discovered a uniquely different and pleasant room to hold a reception for Deutsche Grammophon pianist **Geza Anda**. The reception was held in the Oak Room of Toronto's famous Casa Loma (2). Anda was in town to appear with the Toronto Symphony Orchestra. Gaza is perhaps better known to popsters as the featured pianist on the soundtrack from **Elvira Madigan**. **Tommy Roe** is receiving the Turner push on his newest deck "Stir It Up And Serve It" already making good gains up the national charts. The Bluesway single of **B. B. King's**, "The Thrill Is Gone" has entered the top of many of the charts across Canada, and Turner reports solid Ontario sales which could send the disc into the top five. Album product showing top sales include **Ten Wheel Drive's** "Construction," "Best Of Cream" and "Blind Faith."

Charlie Camilleri, Ontario promotion manager for Columbia reports the **Simon & Garfunkel** LP "Bridge Over Troubled Waters" as being the largest initial pressing of any album in the history of the company. Cuts from the album, and in particular, the titles, are being featured on practically every radio station in the nation. Expected shortly is another **Blood Sweat & Tears** album although their current set is still chalking up good sales. The group will commence a 28 day tour of North America within the next couple of weeks. Camilleri is setting up a series of promotion campaigns to coincide with appearances of several Columbia artists. **Argent** (formerly the **Zombies**) will be appearing with **John Mayall** at the O'Keefe (10-11); the **Clancy Brothers** share a giant Irish bill at Massey Hall (19); **Taj Mahal** into Toronto's Hawk's Nest (22) with **Dave Brubeck** finishing up the month with a Mar 28 appearance with the Toronto Symphony Orchestra at Massey Hall. A giant pop variety show is set for Maple Leaf Gardens, Apr 3 with headliners **Sly & The Family Stone**, who were forced to cancel their Montreal showing (Feb 23) due to Sly's illness. Local disco owner **Francois Jourdan**, who has done much to boost the morale, if not record signings of local artists, has turned up to be an excellent recording act himself. Columbia has released a single by Jourdan entitled "Rossignol" and "La Vie A Tort" both sides written by himself. Camilleri reports good reaction from MOR stations who find the disc unusually entertaining even though in French.

The Fox, a Vancouver based group, now temporarily residing in Toronto, have been stirring up the Upper Cana-

da group scene and gaining a large following. They recently cut a demo tape at RCA's Toronto studios which has apparently given their manager **Lou Blair**, excellent bartering material. The group headed west for appearances in Alberta. They'll appear with **Neil Diamond** at Edmonton's Jubilee (13) and after several one niters return to appearances in Guelph and Toronto.

Liam Mullen, promotion manager for Ontario west to British Columbia for A&M Records, takes on his new duties with a houseful of hot potential. Top of the list, singlewise, is "Ticket To Ride" by **The Carpenters**. The new **Jimmy Cliff** outing "Vietnam" and "Come Into My Life" is receiving a two sided push. A Cliff album release is expected shortly to follow his successful "Greatest Hits" album. Mullen is also settling in on a promo push for "The Liquidator" by **Harry J. All Stars**. The single which came to A&M through **Trojan Records** (UK) has already moved into top chart action in England. A&M Canada is bringing back the protective LP sleeve (inserted in the jacket). They'll be four colour and supply buyers with pertinent information as to available A&M product. The newly bowed firm has released a sampler covering new product entitled "The Cream Of The Cream" with cuts from albums by **Evie Sands**, **Herb Alpert & The Tijuana Brass**, **The Sandpipers**, **Wes Montgomery**, **The Baja Marimba Band** and many others. New LP releases with top interest factor is "Phil Ochs Greatest Hits," a put on type set which was produced by **Van Dykes Parks**. Both Mullen and his counterpart in Quebec, **David Brodeur**, will be on the lookout for Canadian talent for possible record release.

Mike Doyle, national merchandising manager of Warner Bros. Records and **Jacques Chenier**, newly-appointed Quebec branch manager, are currently in Paris for talks with execs of Vogue International. Warner Bros. distributes Vogue in Canada. Purpose of the trip is to introduce Chenier to the Vogue people being that 90% of all Vogue product sold in Canada is sold in Quebec. Example of Vogue's power in Quebec is the current No. 1 standing of "Adieu Jolie Candy" by **J. F. Michael**. Both Doyle and Chenier will stop off in London for a visit to the Warner Bros. UK operation. **Peter, Paul & Mary** are also cutting an excellent figure in French with their Warner Bros. lid of "Le Jour Est Fini" written by **Peter Yarrow** and the flip, an **Ann Fore-sight** penning "Je Partirai Demain". Both sides were produced by **Jaques Wolfson**.

A week after the end of the Sanremo contest only two records, not from the festival, remain among the first 10 songs on the Italian charts. **Adriano Celentano** (Clan) is leading with a large margin. It seems that in the first days after the contest out of every ten records sold, four were "Chi Non Lavora..." We have been told that to meet with requests of our market, Clan was obliged to press also in Germany.

The two songs not from Sanremo included in Hit Parade are "Se Bruciasse La Citta," by **Massimo Ranieri**, and "Venus," by **Shocking Blue**. This group is now in Italy, to promote their record.

Many artists are now planning an international exploitation for their Sanremo entries. We have been told that **Iva Zanicchi** and **Fausto Leali** (both from Ri-Fi) are recording in Spanish and in French. Iva sang "L'Arca Di Noe" and Fausto "Hippy."

Donatello, the new artist presented by Ricordi, will be in Germany at the beginning of April, where **Dik Dik** are releasing their version of "Il Primo Giorno Di Primavera."

From S.I.A.E. (the Italian performing rights society), we learned that **Dr. Giuseppe Ornato**, General Manager of RCA-Italiana, is a member of the board for music affairs.

Gianni Morandi will represent Italy at the Eurovision contest. He will sing "Occhi Di Ragazza" (Girl's Eyes). The contest will be held on the 21st March in Amsterdam.

Patty Pravo (RCA-Italiana) is promoting her Sanremo song "La Spada Nel Cuore" abroad. She has just

waxed the title in French, Spanish, and English.

Among the songs which did not enter the final night, we have heard that "Acci Denti," presented by **Supergruppo** (Ricordi), and **Rocky Roberts** (Durium), is enjoying good sales, and that **Michele's** (Ri-Fi) entry "L'Addio" will soon be released in South America and Spain.

Sanremo sales mark the beginning of S.I.A.E. control over the correct working of Italian record market, that is preventing the appearance of pirate records. As **Cash Box** indicated months ago, from January 1st S.I.A.E. (Italian sole society for the protection and enforcement of authors, composers and publishers rights, established by a law of State) will handle the collecting of mechanical rights, which were controlled until then by **Sedrim**, **Biem's** agent for Italy. Sedrim is now acting as assistant to SIAE, which, as a state agency, has a larger power for inquiry on any matter concerning the commerce. All the industry is expecting a moralization of the business from this change. The music stage is, generally speaking, quite honest and serious, but, unfortunately, a few recent cases about pirate records and low price singles have created an unpleasant feeling.

March 6th E.M.I. - Italiana has released the new Beatles record "Let It Be." This record is already leading at the all important radio program **Bandiera Gialla** (Yellow Flag), a week before its appearance on the market.

Nutting Announces New 2-Player Quiz

Computer Quiz 2-Pl.

MOUNTAIN VIEW — Nutting Associates of California has announced the addition of a second two-player computer quiz to its line of coin machine products.

The new two-player, built like the computer quiz single-player unit, is designed to double collection receipts and facilitate service, according to Nutting's marketing director Dave Ralstin. "Any serviceman familiar with the single-play unit is already a master of the two-player," he says.

Ralstin adds, "A beautiful feature is that the two-player operates efficiently as a single-play unit or as a two-player unit. One coin activates the first player, the second coin activates the second player. Genius scoring level is different, depending on whether one or two people are playing, and a unique sound and light effect rewards the player for a genius rating. Optional features include adjustable one, two or three plays for a quarter. Standard unit is one play for a dime and three plays for a quarter for each player."

The 1970 Arcade Season

Arcade game suppliers are into the teeth of the 1970 buying season as games room operators seek to update their locations with new and exciting amusement machines. Thanks to the Chicago factories, as well as a couple of overseas game makers, the arcade operator today has a wealth of exotic sight and sound marvels available for purchase, alongside the consistent money earning pins, bowlers and guns.

There is special excitement in store for arcade operators this season, and if exploited correctly, the highest collections per-investment dollar in a decade. But to get that big dollar, the arcade operator must do two things:

1. Stop thinking "arcade" and start thinking "family fun center." Based upon the arcade industry's notable neglect of its general physical appearance over the years, the "red carpet" decor of amusement room gained popularity with wiser operators in the late '60's, and this year the industry expects to see a whole load of these clean, well-lit family-welcoming centers blossoming across the country.

2. The second profit-earning step is very simply-raising the play price on both the new pieces you set, as well as on those existing items where conversion capability and play appeal warrants a higher vend.

There's not much need in detailing what an arcade requires to become a family fun center. Suffice it to repeat that people with kids in tow don't care to spend very much time in a dirty old museum playing musty old and dubious-working amusement machines. They are, on the other hand, drawn to spots which appear to be clean, exciting places filled with great looking attractions, where everyone can have an enjoyable (and relatively inexpensive) time without bunking shoulders with any riff raff. Wise operators will act accordingly.

The second axiom is of utmost import to games room operators — raising play prices wherever possible. One unique advantage the fun center operator has over his street location colleagues is the absence of steam some of the street stop owners give off when a higher priced game or music box is wheeled in.

Fun center people usually answer to no one but themselves. Considering the limited number of months the fun center has to generate income, it's more necessary to raise the prices here than at the street stop. Along the same line, this is still another reason why a good number of the new electronic sight and sound games should be included in all 1970 purchases, in as much as they often command straight quarter play, and **get it!**

Of course, the fun center operator must exercise discretion in raising his pricing . . . always remember to keep plenty of dime and even nickle games around to balance off the heavier stuff and give more variety to the services you offer.

Also remember the importance of food service at the center to draw and keep customers a while longer. This can be as grand as a quick service snack bar or simply a bank of beverage and food vendors.

Wisc. Ops To Meet; To Oppose Sales Tax

MILWAUKEE — Clint Pierce, president of the Wisconsin Music Merchants Assn., has announced that an extremely important meeting of both WMMA members and Milwaukee Coin Machine Operators Assn. members will be held on Sunday April 12th. The joint association meeting will be held to get the opinion of the state's operators regarding the advisability of taking to court, and possibly to the State Supreme Court, the state law on the legality of the 4% sales tax on the gross take of the collections of coin machines.

A representative of the Wisconsin Dept. of Revenue will be at the meeting and answer any questions regarding the law and how it affects all operators' collections.

Pierce urges all members to contact every operator they know and push for a full state attendance at this most crucial legislative meet. Fred Granger, executive vice president of MOA, will also speak on legislative matters.

The meeting will be held at the Chalet, located at 6215 W. National Ave., in West Allis, Wisc. A dutch treat lunch, or dinner, is available from 12:00 to 1:00 in an adjoining dining room.

Directions for reaching The Chalet — coming from the north or west:

Freeway I-94 toward Milwaukee exit on Hawley Rd. (60th St.) — drive south about one mile to National Ave. — west on National Ave. 2 blocks — just past 6 point intersection on south side of street — South 62nd & W. National Ave.

Munves: Business as Usual

NEW YORK — In a precise announcement to the amusement trade, The Mike Munves Corp. here has stated "we continue in business as usual, with Mike Munves as president and Joe Munves as vice president; and contrary to stories circulating about the sale of the firm to another company, customers can be assured that all remains the same."

Wurlitzer Promotes Conklin, Pyszczynski

Pyszczynski

NORTH TONAWANDA — The promotions of Gene Conklin to the position of credit and collection manager of the Wurlitzer North Tonawanda division and Ronald Pyszczynski as his assistant were announced here March 6 by Roy Waltemade, division vice president and manager.

Conklin has served since 1967 as assistant credit and collections manager here, and will fill the post recently vacated by Amile Addy, who was promoted to manager of Wurlitzer's San Francisco factory branch.

Commenting on the promotion, Waltemade said, "I always am delighted we are able to promote capable people from within the Wurlitzer Company. I am confident Gene will discharge his increased duties and responsibilities in a conscientious manner." Conklin will assume his new post April 1.

Pyszczynski, who will assume Conklin's former duties, joined Wurlitzer in 1967 as outside credit auditor.

Phono. Equip. Picks Sugerman Int'l. To Distrib Games in U.S. & Canada

HILLSIDE — Myron Sugerman International has been appointed by Phonographic Equipment Ltd. of England as Phonographic's importer and distributor of games in the U.S. and Canada.

Sugerman International has organized a network of distributors throughout the U.S. and Canada and will supply the New Jersey market through its home office. Sugerman says he "has spent a great deal of time with the Phonographic company researching every aspect of this new equipment and has location tested each piece."

On February 28, Sugerman Inter-

national held a showing of the new machines (see separate story). Displayed were "Super Missile," which features service access through its front panel; "Attack," an animated sit-down target game; "Indianapolis," a sit-down auto racing game, and "Tank Assault," also a sit-down target game.

These Phonographic machines contain solid state amplifiers. Sugerman International suggests that 25 cent coin rejectors be used on these games, the playing time of which is regulated by the operator and does not depend upon a specified number of shots.

A lavishly-catered open house reception was thrown by Sugerman International at its Hillside headquarters Sat. Feb. 28th to formally unveil the new Phonographic games to the arcade operating trade. The event, attended by about 50 key machine buyers, occasioned a good deal of business, according to Sugerman vice president Barry Feinblatt.

"Our guests had an excellent opportunity to examine our large inventory of amusement devices and as a result, we recorded a sizable number of equipment orders for immediate delivery. We also scored well in advance orders on the Phonographic games line."

Feinblatt advised that the first bulk shipment of Phonographic's four

principle games arrived at the Hillside dock the following Monday and regular weekly shipments will be arriving from then on. "We should be able to supply our dealers and customers throughout the entire arcade buying season and will also keep a backup inventory just to service those in immediate need of machines. A full parts supply will also be maintained here for servicing this line."

Since Sugerman itself does the importing for its dealers, Feinblatt feels they are in a unique position to sell foreign manufactured equipment. "We save dealers the importing paper work headaches and much of the freight cost since all sales will be F.O.B. Hillside," he added.

Pictured at the Sugerman open house above are: (left photo) MSI's Hans Vandendop (center) with Howard Kaye (right); center photo finds ops and guests conversing in the MSI front showroom; at right, we see firm prexy Myron Sugerman trying out one of his own games.

N.Y.C. License Dept. Orders Complaint Signs

NEW YORK — In a mailing to his membership, MONY managing director Ben Chicofsky advised that the Dept. of Consumer Affairs (Licensing Dept.) has recently adopted a regulation requiring a sign to be posted on or near all common show games, containing the following information:

The sign must be at least 12" X 18" in dimension, with letters not less than 1" high, and must read as follows:

This business is licensed by the Department of Consumer Affairs of the City of New York, 80 Lafayette Street, New York, N.Y. 10013. Complaint Phone: 964-7777. License No. (and the operator must fill in his common show license number in this space).

Operators having games and tables under the common show heading must post the complaint poster as soon as possible. Chicofsky stated that only one sign is needed for each such location, and should be posted adjacent to a machine, not necessarily (or even possibly) on the machine itself.

C-T's Grey on the Road

MOUNTAIN VIEW, CAL. — Bob Grey, project engineer and customer service representative for Cointronics, has just completed a selected tour of its distributor network, meeting dealers and sharing marketing thoughts and answering service questions on the firm's "Lunar Lander" game. Grey's first trip into the field brought him to the following dealers: Playmor Amusement in New York City, Active Amusement in Philadelphia, General Vending in Baltimore, World Wide Distributing in Chicago and Central Distributing in Omaha. Grey advised that he will begin another trip shortly to visit with more of the firm's distributors.

MOA Distributes 8,000 Juke Booklets

CHICAGO — Eight thousand copies of "The Jukebox Story," an MOA booklet, were distributed during February. Ten thousand complimentary copies were printed and president Lou Ptacek encourages members to "put them where they will do the most good."

Members have been distributing them to business associates, government officials and state and federal legislators.

Xerox Coin Copier Leasing to Stops

ROCHESTER — Xerox Corp.'s Business Products Group introduced its new coin-operated "Xerox 720" copier here on March 6. William Souders, vice president of marketing for Business Products Group, said national marketing will begin immediately on the machine, which will be rented primarily to libraries, schools and department stores.

Xerox offers operators two pricing plans for the machine. A monthly contract is available with a 15-day cancellation clause at a cost of \$190 a month for 4,222 copies. A plan is also available to non-profit institutions at \$1,800 a year for 42,335 copies. Extra copies cost four cents each on the annual plan.

An operator who installs a coin-operated "720" can use the machine for his own copying needs by turning a key in the switching lock. Depending upon how many copies are made, the operator's cost per copy ranges from two to four and one half cents on the monthly plan. One copy is made from the original each time a coin is inserted, and the unit makes its own change.

Wurlitzer Instructors Tour West Coast, Midwest, South

NORTH TONAWANDA — Wurlitzer field representatives have been on the road recently conducting service seminars along the West Coast, in the midwest and in the south.

Operators, their service technicians and sales personnel attended the seminars, which emphasized the electrical, mechanical and sales features of the Wurlitzer "Statesman" phonograph.

Special attention was given to the "Wurlamatic" record changer that features a horizontal turntable, which replaces the vertical turntable in use since its introduction in 1953.

Field representative Leonard Hicks conducted seminars in San Diego, Los

Angeles, San Francisco and Phoenix. Two seminars were held in Los Angeles at the Wurlitzer Distributing Corp. Wurlitzer was also host for the San Francisco seminar, and Valiant Amusement was host in Phoenix.

Field representative Robert Harding conducted three lecture-demonstrations in the midwest, two in Cleveland and one in Mankato, Minn. Cleveland Coin Machine Exchange, Inc. was host for both Cleveland seminars and C & N Sales was host for the Mankato session.

Karel Johnson visited the south, conducting a seminar in Little Rock at the Godwin Distributing Co., Inc.

Wurlitzer field representative Karel Johnson (second left) explains the finer points of a record magazine to a service seminar student in Little Rock as two service technicians make an adjustment on the turntable assembly.

Joe Levin: The View from Philly

JOE LEVIN

PHILADELPHIA — "Vending just seemed to be a business where the sky was the limit and there were no restrictions," recalls Joe Levin president of Philadelphia's Blue Ribbon Vending Co., as he explains the conditions that stirred his interest in the coin machine business nearly a decade and a half ago.

Levin was born in 1913 in Philadelphia, a town where competition within the vending industry is as stiff as that of the area's college basketball. "You can see how highly competitive Philadelphia is," he says, "when you look at other areas in the state. In the western coal regions, for example, the competition is minor. But it's terribly tough locally, and affects commission rates and service fees."

Levin entered the vending business in 1946 after a career as a salesman. He started with games, then expanded to phonographs two years later, to cigarettes in '53, coffee in '59, and eventually to a full line of vending machines.

Levin says cigarette machines are the most profitable in the Philadelphia area. But legislative pressure on cigarette advertising makes their position tenuous. "I don't think anything drastic will happen," Levin says. "There will probably be a gradual diminishing of sales, but most venders realize this and are going into other areas."

The uncertain future of cigarette machines is a minor problem, however, when compared to the main problem most venders face — help — which really becomes a four-letter word when its quality and availability are inadequate. Levin cites a shortage of trained machines and field route men as the operator's principal problem. He considers service schools conducted by manufacturers and distributors helpful in some respects, but inadequate in others.

"The service schools are helpful in taking experienced mechanics, and keeping them up to date on recent technical innovations," Levin says, "but they are not helpful in taking novice and making a skilled mechanic out of him."

Occasionally the complaint is heard that factory and distributor representatives sometimes try to dictate to operators what is best for them. According to Levin, however, a recent problem is the failure of manufacturers to assist operators with important phases of their business.

"The manufacturers don't seem to expend money like they used to to help the operator with merchandising or services," he says. "They've retrenched along these lines, mainly, I guess because sales aren't booming like they used to. With the decline in sales, they've probably cut back on their research effort."

The greatest help to operators during the last few years, according to Levin, has been an accelerated public relations effort within the industry that still has considerable ground to cover.

"Public relations work has put an accent on the proper appearance of

machines and better service," he says. Levin contends the effort has resulted in great improvements in the public's view toward coin machines.

"People don't regard pingames anymore as dirty looking things that grab their nickels," he says, "or vending machines as shabby items which they're forced to use to get their cigarettes. The appearance of equipment is much better," he adds, "and the pinball machines have lost their stigma."

Levin maintains that the industry's public relations effort must be expanded on the grass roots level. "People in the industry should join campaigns for community improvement and participate in charitable work," he says. "We should show the community we're not only interested in making money."

One need go no further for an example to follow than Joe Levin. His community activities include membership in the Variety Club and B'nai Brith and his role as director of the local police Athletic League.

Levin has been equally active within industry organizations. He has served as chairman of the board of the Philadelphia Venders Assn. during the past ten years, was director of NAMA from 1965-68 and was local MOA director from 1966-69.

Levin's initial impression of the vending business — "the sky was the limit" — has since changed little. "Vending has a tremendous future," he says. "Many avenues will grow that haven't even been touched yet. There will be an increase in products sold through machines, and great improvements in the food area."

Stewart, SEGA, Meet

RICHARD STEWART

TOKYO — Richard Stewart, representative of Club Specialty Overseas Inc., the world-wide sales agent for SEGA games, met with SEGA management in meetings held here in late February.

During the conferences, sales trends were projected for SEGA equipment in the company's 30 major overseas export areas.

Stewart, who operates from CSOI regional headquarters in London, and SEGA's Ray Lemaire reviewed some recently developed games, both for the domestic market, and the export market. (SEGA games undergo field testing throughout Japan before export clearance is given).

While Stewart and SEGA management conferred, some 50 SEGA route chiefs from throughout Japan met here to study the technical features of all coin-operated equipment received during the previous six months. The information obtained at the meetings will be relayed by route chiefs to their home district mechanics.

Tokyo will also be the site of a meeting this month of 40 SEGA branch managers.

Skriver, German Coinmen Pool Efforts for Disabled Children

Lars K. Skriver, German arcade owner whose efforts contributed to the opening of a hospital swimming pool for disabled children, is flanked by Dr. Rupprecht Bernbeck (right) and government official Herbert Schlomann as the kids get into the swim of things.

HAMBURG — Lars K. Skriver, a local arcade owner, saw his efforts on be-

half of disabled children materialize on February 4th when a swimming pool was opened in the orthopedic department of the Hamburg-Barmbek hospital.

Funds for the pool were contributed by the Dolphin Foundation for disabled children, to which members of the German coin machine industry have contributed behind Skriver's initiative. The industry's permanent fund for disabled children, started by Skriver in late 1967, has contributed \$6,500 to the Dolphin Foundation.

"This was thanks to the warm-hearted cooperation of some leading coin men," Skriver said, discussing the industry's response to the fund. Skriver has installed a flipper machine in each of his Hamburg arcades, the proceeds of which go to the Dolphin Foundation.

Rerun of C.B. 'Pub' Editorial Cites Reasoner as CBS Spokesman

(Ed. — Due to a most unfortunate technical error, last week's Coin Machine News Editorial article entitled "The Plus and Minus of Trade Publicity" ran out of sequence. Considering the importance of the item, and bowing to a number of reader requests, we are reprinting it in whole. Also, the original piece cited CBS' Mike Wallace as the "protagonist". CBS later informed us it was actually his colleague Harry Reasoner who spoke the anti-industry remarks. See . . . everybody makes mistakes.)

We were originally planning to run an editorial on the 1970 Arcade Season, which "officially" opened the 1st of March, but two publicity items on the jukebox industry which hit the consumer media last week demand immediate reaction from the coin trade press. One item, a lengthy feature article entitled "The Beloved Jukebox" or "Gee, It's A Wurlitzer . . ." ran in the March 1st Sunday Magazine Section of the prestigious Washington Star newspaper. It provided its readers with a truly excellent profile of the coin-phonograph industry in the nation's capital (see separate story). The second item, perhaps the most dreadfully naive and disastrous 30 seconds of anti-coinbiz publicity ever aired over network TV, was broadcast on the popular "60 Minutes" news-documentary program on CBS (Tues. evening, Mar. 3).

Whoever heard "60 Minutes" commentator Harry Reasoner matter-of-factly imply that jukeboxes in general are all controlled by "the Mafia" must have been as shocked as we. His irresponsible statement, backed by the considerable authority of the CBS News Dept., is the most serious slap-down of this trade's earnest efforts to eradicate the "jukebox stigma" to date. Further, the millions of Americans that surely watched the program no doubt absorbed the statement as gospel without the slightest thought that he might be wrong.

While Washington Star writers William Holland and Mike Anders labored to produce a beautifully illustrated, accurate report on the true nature of jukebox operation (based obviously upon months of careful research into Washington D.C. routes), 'tis a sorry shame the "60 Minutes" staff, with only 1/1000th of the effort, could kill whatever good it did, just to add a little spice to a report on the making of a phonograph record.

Furthermore, those unfamiliar with the real business of music box operation probably got the impression from the rest of Reasoner's remarks that the machines were really owned by the locations and that the "underworld" grabbed off 50% just for servicing the machines and sticking on some new singles. Saying a good jukebox earns around \$100 a week (and forgetting to mention there are't many such spots around), he also left the viewer (as well as the legislator) with the impression that the industry is rolling in dough. Congressional leaders working on the copyright bill must be amused at the trade's reluctance to pay another dollar a year royalty per machine (Williams Amendment) when they turn such a profit as Reasoner suggested. At least he did say: "they do a good job of maintaining the equipment . . . the jukeboxes are always in much better working shape than the bar's pay telephone."

And this is exactly where Reasoner (or his writers), and the rest of the news media have always gone wrong: they view the whole jukebox business as if it were contained solely in the metropolitan cities and forget there's a whole country out there that doesn't "have trouble with pay telephones" or suspicions of gangster control. They'll read some report in a local newspaper linking a hoodlum with "vending"

(plus, of course, a whole host of other enterprises which miraculously escape the racketeer stigma) and then deftly deduce from this that all operators in all 50 states are the same type.

We think this garbage has gone too far this time. How in blazes can a responsible network news department hope to maintain its image of integrity if it casually drops such erroneous information, hurting people in the process, unless the average viewer is too impotent to fight back? And that's right where it's at—the average viewer, reader, or whatever, believes everything the media dish out, and the jukebox business itself has been traditionally powerless to fight back because it's afraid to get a door slammed in its face if it ever went near a CBS to say: "Hey . . . you're wrong about this, you know."

How many operators were amused when MOA's Howard Ellis first broached the subject of an organized Public Relations campaign two years ago. How many said: "haven't they anything better to do than run around giving speeches to people who won't believe them anyway?" How many, after the "60 Minutes" insult, still think there's no need for organized PR?.

Maybe now the sore has come to a head and reluctant operators will take another look at the PR material MOA has issued and seriously consider using it in their own communities. How? By delivering the speech before one or more civic groups, or else by mailing it, together with a covering letter, to the local paper, radio or TV station, inviting the staff to come on down to the route and get a feature story on jukebox operation as it really is. You know, there could be a lot of interest in the real jukebox business. Just the simple fact that John Doe doesn't know anything about it should be enough to provoke a feature story telling him about it. The subject of jukebox record programming alone, so deftly described in the Washington Star article, could provide a fascinating story all by itself.

In the last analysis, if such bad press was nothing more than name calling, it wouldn't be so bad. But they carry "sticks and stones" in their overall effect by scaring many a potential location away from the legitimate operator because the management flatly refuses to "get involved with people like you." Names themselves have their sharp edge too when you're out with the wife at a social and a new acquaintance casually asks your occupation. "Why . . . (cough) . . . I'm in the, eh, music business," you answer and try to change the subject. It's time there were no need to change the subject.

Canteen Honors Spies

CHICAGO — Robert Spies received his second consecutive Canteen Corporation "salesman of the year" award here at a recent Canteen dinner where company president Patrick O'Malley made the presentation.

Spies, assigned to the Dearborn, Mich. headquarters of Canteen's Lake Central area, spent 20 years as a route man and supervisor in the Detroit operation before becoming a sales representative.

In less than two years as a salesman he attained a million dollars in new account sales and became a member of Canteen's "million dollar salesman's club" last December in addition to earning the company's 1968 "salesman of the year" award. By the time he became a candidate for the 1969 award he had booked his second million dollars with 37 new accounts.

But the King Tones are hoping that their latest release, "Only for You," will make such moonlighting unnecessary.

Senate Passes Anti-Cigarette Bill

Although cigarette makers have always promoted rather heavily in such peripheral media as New York subway trains (as above), when the expected broadcast ad blackout eventually goes into effect, all non-broadcast media can safely expect a minor deluge of additional ad revenues. The two factors which will all but assure this are cigarette companies which must promote in their highly competitive market and the ad agencies which need a "revenue blow softener" to withstand the blackout.

WASHINGTON — A bill that would prohibit cigarette advertisements on radio and television and strengthen the health warning on cigarette packs was passed by the Senate, 75-9, on March 10.

The bill, to become effective Jan. 2 if passed by the House, was formulated in a House-Senate conference committee the week before the Senate vote. Senator Frank Moss, of Utah sponsor of the bill, said, "Thanks to this bill, Marlboro country will fade into television history, as of next January."

Six months after the bill becomes law, it would require all cigarette packs to list the warning, "Warning: The Surgeon General has determined that cigarette smoking is dangerous to your health."

The bill would also prohibit states from regulating cigarette advertising, but the Federal Trade Commission would no longer be prohibited from doing so, as of July 1, 1971.

The bill was called "landmark" legislation in the health field" by Senator Warren Magnuson of Washington who added that "great economic forces were aligned against" the bill, referring to lobbying efforts of broadcasters and the tobacco industry.

At present the warning on cigarette packs is, "Caution: Cigarette smoking may be hazardous to your health."

Candy Made Butt of Congress Bill

WASHINGTON — Congressman Fred B. Rooney of Pennsylvania introduced a bill here on Jan. 21 which would regulate "the sale to children and to the general public of candy products portrayed as resembling cigarettes and for other purposes."

The bill would make it unlawful "to manufacture, import, package for sale or distribution, or promote for sale within the United States" candy cigarettes. It was referred to the Committee on Interstate and Foreign Commerce.

Zender Explains Sales Sweeteners

NEW YORK — Austin Zender, chairman of the board of Peter Paul, Inc., recently spoke here about the marketing of confectionery products before the Retail Tobacco Dealers of America.

Zender stressed four points concerning the marketing of candy. He said, "Candy is an impulse item. Over 70 per cent of candy purchases in all outlets are impulsive. He also maintained, "Everyone eats candy. Children eat more per capita, but adults, because of their number, consume more in total."

He also said, "Candy is purchased with frequency, whether it's for transit consumption or in home or office consumption." He concluded that candy is profitable because of the aforementioned factors.

Phonographic — R.W. to Complete 'World's Largest Coin Showroom'

LONDON — A converted three-story British Railways granary warehouse in Burton-on-Trent is purported to be the world's largest coin machine equipment showroom. The facility, headquarters of Phonographic — Ruffler and Walker Midlands Sales Division, contains 100,000 square feet and will hold up to 5,000 machines.

"We were lucky to stumble across this place," John Brookes, general manager of the division, said. "There have been many claims of largest buildings, showrooms or stocks of equipment in the past. When you have

got to them they turn out to be an old railway arch or something," he added. "We are confident that there is nothing in the world to compete with these premises for sheer size."

A 7,000-foot area of the ground floor is being rebuilt to accommodate the division's office staff. Interim office space has been provided by Burton Coin, which is associated with Associated Leisure Co., which governs Phonographic — Ruffler and Walker Midlands. Although some showroom space is already in use, the entire building will not be ready until April.

If everybody played pool like he does, we wouldn't make this table.

But let's face it, not everybody has the delicate touch of a Jimmy Caras. (He's 5 times Pocket Billiards Champion of the world.)

And so we bring you the Brunswick CB-7.

A specially-built table that can stand up under the constant pounding and rough play a table gets in most coin-op establishments, yet still give you the true tournament playability that Jimmy Caras demands.

To begin with, the legs on this table are sturdy as oaks.

(Tip it over on two legs, you still won't buckle them.)

Return tracks are fast, quiet and absolutely jam-proof.

It has a removable ball box. Extra large coin-box. Easy-off Formica® rails.

And a cloth you can change in minutes without removing the slate.

And when its commercial playing days are over, you can even convert it and sell it as a home pool table with our special conversion kit.

All in all, it's the finest, most service-free coin-op made.

Just what you'd expect from Brunswick.

Makers of fine professional billiard tables since 1845.

EASTERN FLASHES

WAY TO GO! — Flash of the week is the phenomenal success Montauk Automatic Vending has experienced with its 8 month program to raise the play pricing on its music and games. Most impressive part of the story on this large Long Island music and games route is their conversion of 16 pool tables to 50¢ vend, via new ABT twin quarter chutes. Are they getting the play? You bet, says Vic VanDerLeenden, citing a 35% increase in collections on the tables. Vic and partner Bill Kobler report that 95% of their electric amusement games are now operating on either 2-25¢ or straight quarter. This includes both new and used games, going as far back as the Williams "Blast Off" pin table. Vic says they've figured out how to convert most formerly dime games to 2-25¢ and on those pins which can't be switched, they vend 10 balls for 25¢. Also, 85% of Montauk's music boxes have dollar bill acceptors now, and every one they buy from now on comes with the bill unit. Matter of fact, they even advertise the bill acceptors in their yellow pages ad. Any grief in making the switch to higher pricing? "We were the first route on the Island to install bill acceptors," says Vic, "and this was the key to jacking up the pricing. You should only do it, though, when you bring in a different machine, not always new, but always different. And when you wheel in, say a 2-25¢ pin, to a location, you don't tell the people. Just install it and let it go to work. Now we're making weekly collections at many locations we only visited every other week before. I figure the whole route's up around 23% with this pricing program," says Vic. By the way, Vic and Bill have a slew of brand new dime acceptors which they're willing to sell off at \$1.00 apiece. Get in touch right now if you want them.

TRAVELERS — Miamco's chief Johnny Johnston visited with Cameron's Jack Gordon out at the Port Washington headquarters week before last, conferring on progress with the Cameron component Jukebox. Johnny might be back in the City this week on more business. He tells us among Miamco's dealers is old buddy Zach Katz of VASCO out in Brooklyn. Cointronics customer service rep Bob Grey visited with Playmor chief Harold Kaufman recently, during swing thru the East Coast coin markets on behalf of their 'Lunar Lander' game. Bob also paid a call on Active's Joe and Frank Ash and Marty Brownstein.

ABOUT ARCADES — The odd Combination of more leisure time and less loose money just might serve up the most profitable arcade season in years. It's almost axiomatic in the coin trade that when the economy gets depressed, the collections go up. Suspect this is based on the "cheaper entertainment" that music and games provide, and we sure hope its pans out. Sugerman's Barry Feinblatt says they're noticing quite a bit of New Arcade activity at shopping malls where kiddie-oriented machines are being set with gusto. "A lot of your strictly street operators are moving with this arcade trend," he says. "There's a lack of new street stops today and if a good operating company hopes to expand its activities, it'll have to branch out to fun centers and the like. Of course, we recommend what we call the 'European look' in fun centers, the well-lit, red-carpet look that a lot of the British arcades have. We at Sugerman think this is going to be a very prosperous year for arcade people," Barry contends. . . . On the lighter side of the arcade subject, a new Mercury album called 'Houston Nickle Kicks' features artist Wayne Talbert on the front cover, leaning on a Williams 'Apollo' pin inside an arcade. There's also a Gott-

lieb 'Cow Poke' and a SEGA 'Helicopter' shown in the photo. If they were really with it, tho, they should have renamed it 'Houston Dime (or even Quarter) Kicks'. Oh yeah, there's a great sign pasted on the 'Cow Poke' which reads: "We Appreciate Your Playing the Machines. This Is Not A Hang-Out. No Loafing." That's telling 'em!

AROUND TOWN — MONY prexy Al Denver returned from two week vacation to Florida yesterday (Monday), had to miss the MOA Board Meeting in San Francisco but understand he needed the rest. Al's not only the association leader hereabouts but one of the hardest working operators, and we hope he enjoyed the two weeks in the Sunshine State. . . . All literature on the combined association's anniversary weekend (Kings Inn, Grand Bahama Island, May 28-31) is in the mails and should be received by operators this week. Needless to say, it would help Ben and Sophie up at the MONY officers if all operators, and other guests, would fill out their reservation cards right away and give them a head start on arrangements. May's really not that far away, especially when you have to make arrangements for a couple hundred people and get out a big convention journal at the same time. P. S. Read separate story on the Licensing Dept's new complaint sign requirement for all locations with "Common show" machines. Incidentally, Miltie Green of American Coin Machines, Inc. at 3000 Coney Island Ave. Brooklyn is selling the required signs at 50¢ apiece. They're printed on hard cardboard, to the right specs. Call or write him if you need them.

UPSTATE ITEMS — New York State Guild members will be meeting tomorrow (Tues.) at the Governor Clinton Hotel in Albany for their regular monthly dinner meeting. Show gets on the road at the usual 7:30 P. M. hour. Again, high topic on the agenda will be progress of their sanctioned-location 8-ball tourney currently underway at taverns in the mid-state area.

JERSEY JOTTINGS — Well, well, were we pleased to see the front page of last Tuesday's Daily News with photos of Katharine Lindsay (the Mayor's daughter) and Dick Schaffer, announcing their engagement to marry. Dick, an "alumnus of the coin business" after working several summers out at the Rowe plant in Whippany, is also the son of Rowe veteran Al Schaffer. Our best wishes to the couple and to the happy parents. . . . Silco Vending of North Bergen, a division of ARA Services, has notified its suppliers that all payments will now come from the ARA corporate headquarters in Philadelphia. Invoices should still be sent to the North Bergen, N. J. headquarters of this prominent music, games and vending operation.

HERE AND THERE — Irv Morris tickled with timely introduction of D. Gottlieb & Co's brand new 'Flip a Card' single player pin; looking to chalk up record business with arcade customers from the shore area on the item. . . . Chatted with good buddy Art Seglin at the Rowe factory in Whippany. Art's been heading up their Customusic (background) division for some time now and reports very brisk business in this precinct. Matter of fact, Artie says he's just "that much" behind in filling orders for the tape unit. Concerning the tape programs themselves, Seglin was instrumental in the addition of numerous new titles to the already impressive Rowe background music catalog. . . . The phones are ringing at the Munves Corp. with Mike and Joe logging in those amusement game orders from their hundreds of steady arcade customers. Probably the busiest spot on coinrow right now.

CHICAGO CHATTER

The Illinois State Journal newspaper (Springfield) recently ran a feature article on 17-year-old Guss Candioto who is in the process of earning his private pilot's license! The son of Chathan, Ill. music and games operator Guss Candioto Sr. (himself the holder of a commercial pilot's license), Guss Jr. has been flying since the age of 14 when his parents gave him a private flying lesson as a grade school graduation present. He will soon be undertaking the 40-hour flight requirement necessary for his license. We wish him well. In addition to flying, Guss' future plans include college and the study of architectural engineering.

Saturday, March 14, marked the official start of Expo 70 in Osaka, Japan. It is estimated, according to a recent article in Newsweek magazine, that the fair will attract about 60 million visitors! ... A speedy recovery to former ICMOA president Harry Schaffner, who recently underwent surgery. Harry will be recuperating at his home for the next several weeks. Feel free to drop him a line at 611 Blair, Alton, Illinois ... Empire Dist.'s Joe Robbins is high on the new Midway release "SAMI". Test samples began arriving at the distrib last week and reaction so far has been great! Joe also mentioned the success Empire has been enjoying with, what he terms on one of the hottest selling items in the trade, ChiCoin's "Speedway"!

Wednesday's (18) the big day when Atlas Music Co. will host its first service school on the new Rowe MM4 phonograph. Session will be held in the evening and conducted by Hank Hoevenaar ... The trade's anxiously awaiting the official release of the upcoming Bally "Space Flight". A great deal of interest has already been stirred up and, naturally, a little curiosity as well ... The past few weeks have been busy ones at National Coin Machine Exchange. Export is up, and Mort Levinson tells us the new Gottlieb "Flip Card" is certainly creating a great deal of excitement — as is, of course, the Wurlitzer "Statesman"!

Here's word from the local NAMA office of the appointment of Marc Brookman as the association's eastern manager and counsel, headquartering in NAMA's Philadelphia office ... "El Grande" is certainly living up to its name! The fast moving six-player bowling alley recently released by Williams Electronics Inc. is a big draw on location and, according to Bill DeSelm, a giant of the seller! Other winners on the current Williams delivery schedule are "Gay 90's" and "Epsilon" ... Ivanhoe Records, newly formed label based here in Chicago, is enjoying considerable juke box play with its first single release titled "My Wife The Dancer" by Eddie & Dutch. Diskery's prexy Ed Mascari says the record has been "discovered" by one-stops and operators across the country and is selling well in such areas as Boston-Seattle-Milwaukee-Denver-San Francisco-New York-Washington, etc.

Nice chatting with Rock-Ola Mfg. Corp.'s music division sales manager Les Rieck, who was off the road briefly last week catching up on some paperwork and outlining next week's itinerary. Les couldn't say enough about the wide acceptance the current "442" and "443" models are receiving across the country! ... Happy to hear that World Wide Dist.'s John Neville has just purchased a new home in suburban Hanover Park. He and his wife, Jackie, are currently in the process of packing for the big move.

MILWAUKEE MENTIONS

Although to our knowledge, the first robin has not been spotted as yet, there are reportedly some definite signs of spring in the air. The dreadful winter weather has let up considerably making way for road clearance and increased operator traffic, which of course means more business! Come to think of it, the big resort season isn't too far off either! ... Joel Kleiman and Sam Cooper of Pioneer Sales & Services are getting all set for the big season ahead. As a matter of fact, Joel tells us they've been experiencing a pre-season rush out there for the past few weeks — in all departments! The Rowe MM4 phonograph remains a big seller at Pioneer and as Joel also mentioned, vending equipment of all kinds continues to be in great demand! ... Several from this area departed for San Francisco this week to attend the MOA Board of Directors meeting March 12-13-14. Among them, Bob Rondeau, Clint Pierce and Jim Stansfield ... Empire Dist. is planning a gala opening celebration to officially unveil new headquarters in Green Bay. Date will be announced just as soon as everything's settled in the new premises ... The Nutting Industries Ltd. factory continues at full speed to meet the demand for the firm's new Dual Play I Q Computer! ... A fairly recent release on the Chicago-based Ivanhoe label is reportedly starting to attract operator attention, according to John Jankowski of Radio Doctors. Side is "My Wife The Dancer" by Eddie & Dutch. John also lists a couple of other strong operator items — "Pool Shark" by Dave Dudley (Mercury) and "I Can't Stop Loving You, Ruby Don't Take Your Love To Town" by Ace Cannon (Hi).

CALIFORNIA CLIPPINGS

As of this writing, somewhere in the neighborhood of 95% of MOA's officers and directors were arriving at San Francisco's posh Mark Hopkins Hotel for their annual board meeting. Among the notables to speak at the conference were phonograph manufacturers' attorney Perry Patterson and MOA's counsel Nick Allen. President Lu Placek and executive vice president Fred Granger had prepared an agenda to include discussion of the public relations work and the copyright revision status. A highlight of the event was to be a welcoming cocktail party Thursday evening, at which area operators, both members and non-members, were invited. We're hoping many of our operators up that way will see how much MOA has to offer in the line of services and trade representation and join the national association ranks. We were also happy to learn MOA founding father and state association chief George Miller was slated to address the group. Hank Leyser was likewise to share his thoughts with the MOA heavies from the Mark Hopkins rostrum at the big Friday session. At any rate, a belated welcome to our State of California and we hope the group had a fruitful and enjoyable stay ... Hear that Allied Leisure Industries' sales manager Gene Lipkin spent a day or two out here visiting dealers on behalf of their 'Selectomatic Unscramble amusement game. Firm president Bob Braun was originally supposed to accompany Gene on the trip but had to remain at the Florida factory due to a rush of business ... Dave Ralstin up at Nutting Associates tells us the firm's newly released 2-player 'Computer Quiz' is a "technical marvel" and invites an in-depth inspection of the unit by ops and mechanics everywhere, to see, as Dave puts it, "a machine they'll understand in an instant."

TO THE NATION'S OPERATORS:

You've probably heard we are now in the music business. Like you, we recognize the leisure-time market as one of the great growth markets of the 70's. And we are a growth-oriented company.

We also recognize the special needs of this market. It has definite tastes, preferences and requirements in everything—including sound. This is why the Cameron Music System was developed. It's different . . . in sight, sound, selection, system and sell. And it's these differences that will appeal to those new, more discriminating locations you want.

The Cameron is a complete stereophonic music system. It plays 45, 33 $\frac{1}{3}$, and 7 inch LP's in full dimensional stereo sound. And it offers up to 220 selections.

It can be programmed for coin or non-coin operated use. Now, complete flexibility is available. Component parts can be installed together or detached and operated as single units. The speakers and selector mechanism can be wall mounted while the compact record mechanism can be placed under a bar, in a basement or in another room.

Two-for-a-quarter pricing is standard. This is not afterthought, but the base. This basic concept makes it easy to raise the play price in any location. Two things make this possible. First, the styling of the Cameron. Its design is radically different. And second, by a feature called "Hit Parade" which is standard. It offers three pre-selected hit tunes for a quarter. This feature eliminates resistance to two-for-a-quarter pricing and offers customers an alternative.

The Cameron Music System is available from all 10 of our Sales and Servicenters. Parts are stocked at all branches and we have a crew of 58 Cameron-trained engineers in the field.

Literature, specifications and pictures are available without cost or obligation. Write to us on your letterhead.

Sincerely,

Miamco

This week you'll be hearing from the internationally famous Roger Whittaker.

We were expecting it to happen. After all, he already has ten hits in Europe. And in South America, he won recognition in 1969 when he walked away with three gold medals at the Rio Festival for his song, "New World in the Morning."

His appearances at London's top cabarets have coincided with a rapidly rising Top Twenty Disc on the British charts: "Durham Town (The Leavin')."

With his own radio and TV series about to be launched in England,

Roger Whittaker's popularity is gaining. His songs are poetic ballads with a simple guitar backing. The kind of unhyped, unelectronic sound that the young adult audience is again looking for.

And we've taken the logical next step: we're releasing his two hits in the States as a back-to-back single. It's already getting airplay on top M.O.R. stations in Boston, Philadelphia, St. Louis and New York. You'll be hearing from Roger Whittaker.
