A NEW ERA IN COIN MACHINE HISTORY

By Bill Gersh

The year 1946 will start a new era in coin machine history.

It is a year on which hinge many great changes. The labor strife which has opened this fateful year is but a sign of America's eagerness and impatience to be completely ready for the greatest industrial boom in all its history.

The competition expected from all other nations to the industrial prowess of these United States will only act as the necessary stimulant for this nation to prove its industrial leadership before the year of 1946 is ended.

On entering into this new era we must erase all former factors and events. We must plunge on ahead — boldly, daringly, but with as much keen perception and understanding as we can possibly muster — yet with optimism and faith in the future of this nation, and especially in this industry, remaining paramount.

The Cash Box had, and continues to have, great faith in this coin operated machines industry. When all other publications folded, as the war came on, The Cash Box entered the industry to create a quiet, confidential medium which would help mould together a solid and substantial backbone of courageous men upon whose shoulders this industry could build for the future.

It continued on optimistically, daringly and yet guided by a great belief in the future of this trade, even during the darkest days of the war. It opened a medium of confidential exchange to an industry in which many had lost faith. It told the truth and continues to bring into the open the whole, unvarnished, truthful facts.

It kept open the promise of a greater tomorrow. Its great faith in this field won it many friends. Its predictions, suggestions, efforts, have helped to cement that friendship to leadership. The trade now knows that The Cash Box is completely and exclusively devoted to the best interests of this industry only.

Now that the war is over, growing pains are apparent everywhere. Strikes. Strikes. More strikes. Materials and manpower shortages. Hustle and bustle. Impatience. All indicative of the great anxiety of all America to again return to busy, peacetime pursuits. But this time, with this year of 1946, the opening of a new, a greater and, surely, an era that will make history.

To greet this new era — to help continue that leadership to which it is fated — The Cash Box appears, with this issue, in new dress — another step forward as well as another great proof of its belief and faith in this industry and in the people who comprise this field.

Tho this is not yet The Cash Box of Tomorrow — it is, with all surrounding obstacles, materials and manpower shortages taken into consideration — a great forward step, definitely emphasizing its belief in the solid and inescapable fact that the coin operated machines industry is entering into a new era. An era of great progress.

With this issue of February 4, 1946 The Cash Box once again publicly marries itself to its formerly avowed purpose of continuing to bring this industry the truth; of helping to guide and to build it to the greatness and recognition it should have long ago enjoyed; of continuing its faith in this trade and, especially, of remaining a confidential medium completely and exclusively devoted to the best interests of this industry only.

A new era has started for the coin machine industry.

CMI ASKS DISTRIBS TO HELP GET PUBLIC RELATIONS STARTED

Dave Gottlieb Makes Personal Appeal to Distributions to Bring in Ops as Associate Members

DAVID GOTTLIEB

CHICAGO — Dave Gottlieb, president of Coin Machine Industries, Inc., made a personal appeal this week to all the distributors and jobbers in the field to help the organization complete its drive for funds to start a public relations program.

In this appeal he asked that each one of the distributors and jobbers, "as a personal favor to assist our association", get everyone of their operator customers to send in applications along with \$25 checks which would automatically make ops "associate members" of CMI "and participate in the first real public relations campaign the coin machine industry has ever attempted."

He also wrote, "We know that the way to get all operators to participate is for you, their distributor, to contact them personally, explain the campaign and how they will benefit by it, directly or indirectly, and get them to send in their application and check for \$25 if they have not already done

so. With you behind us we cannot fail."

He also advised the distributors, "You can safely assure them (the operators) that their money will be invested in building up public good will for their industry from which they are sure to profit."

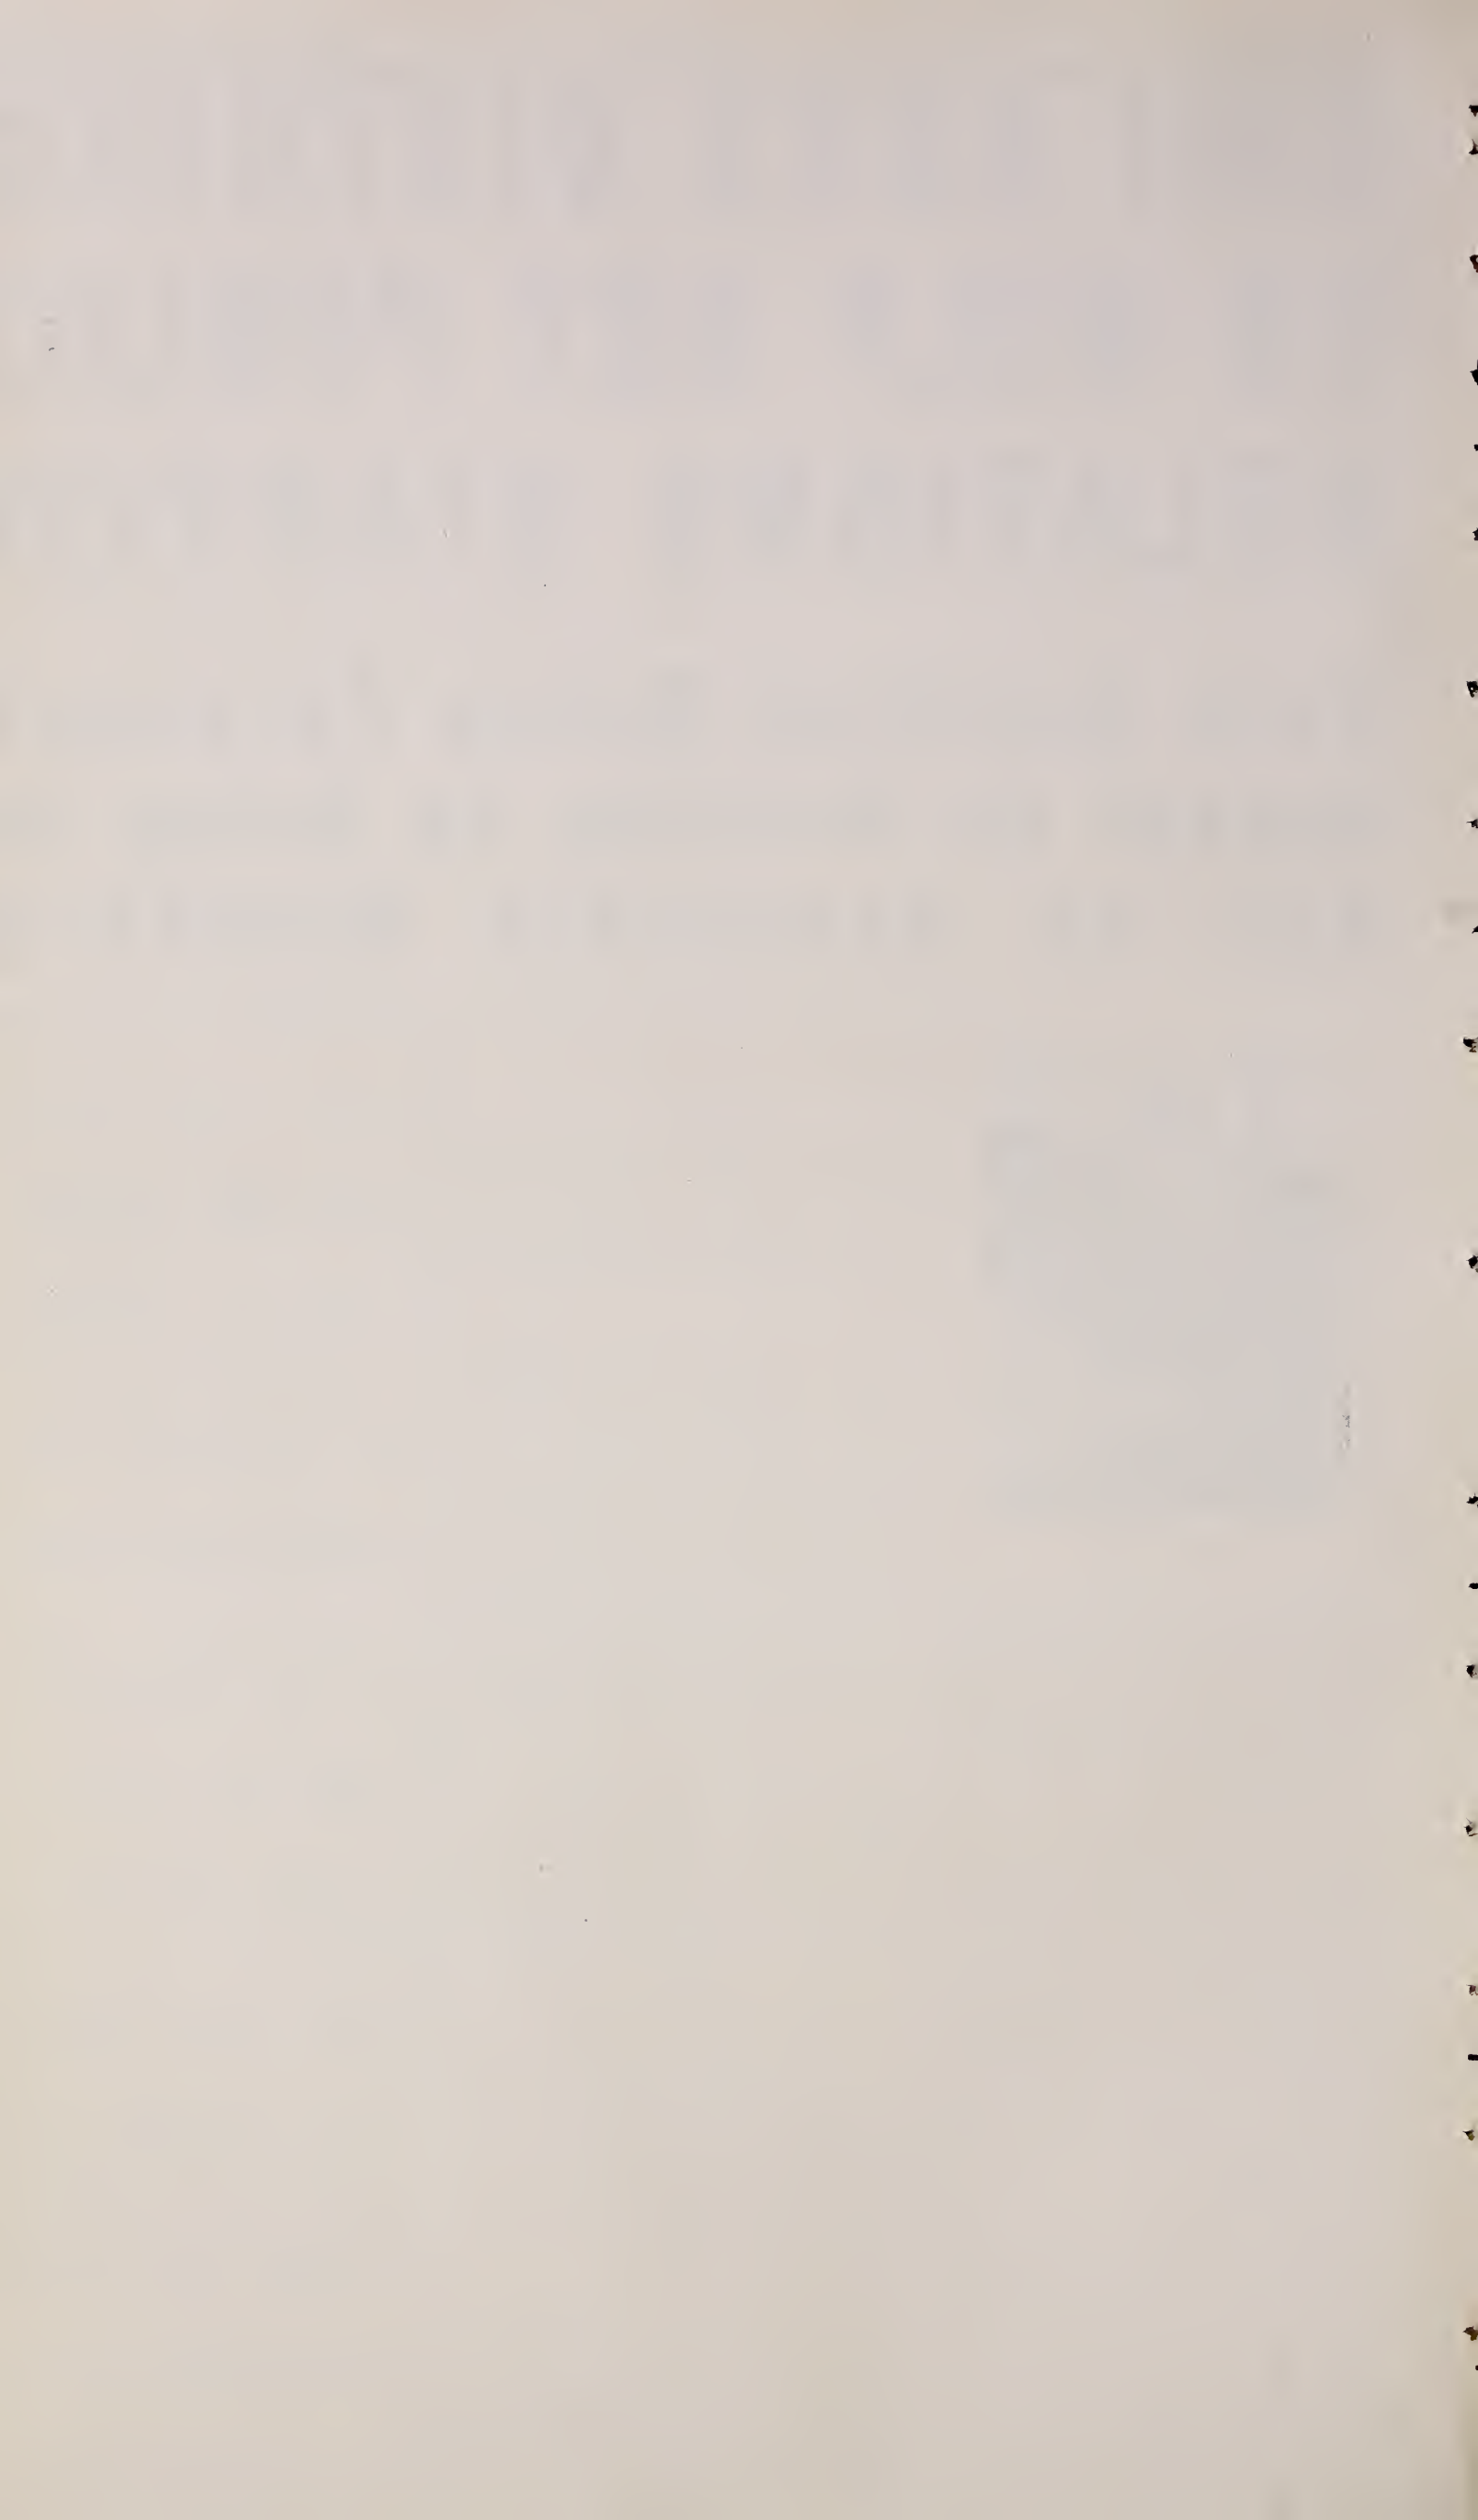

In addition to Gottlieb's signature, there also appears the following signatures on this letter: Walter Tratsch, A.B.T. Manufacturing Corp., F. H. Parsons, Buckley Music System, Inc., Sam Wolberg, Chicago Coin Machine Co., Dick Hood, H. C. Evans & Co., John Chrest, Exhibit Supply Co., Lou Gensburg, Genco Mfg. Co.; Richard Groetchen, Groetchen Tool Co., William Rabkin, International Mutoscope Corp. These are the Board of Directors of Coin Machine Industries, Inc.

It is generally believed thruout the industry, from reports already received, that the campaign, which was started last week by CMI for a "Public Relations Bureau", will prove successful for it meets with the approval of a great many leaders in the trade.

There is also a further belief that the CMI should make public some of its plans in regard to the type of public relations effort it plans to do. Some coinmen have asked just what these plans are and how they will tie in with the individual territories in which they are operating.

There is no doubt, tho, that generally everyone in the field feels they will benefit from whatever public relations work will get under way. The trade has needed this sort of effort for a great many years.

THE CASH BOX HAS BEEN URGING THAT A "PUBLIC RELATIONS BUREAU" BE CREATED FOR MORE THAN THREE YEARS NOW. THIS IS THE OPPORTUNE TIME TO START A "PUBLIC RELATIONS BUREAU." THE CASH BOX AGAIN URGES ITS READERS TO HELP GET THIS WORK UNDER WAY WITH ALL POSSIBLE SPEED.

JUKE BOX OPS WANT RECORD LABEL CHANGE

Claim Mfrs. Should Make Change To Benefit Industry. Ask That Action Be Taken Immediately. Support Of All Juke Box Trade Nationally Needed.

NEW YORK—The letters, wires and phone calls which deluged The Cash Box, after the appearance of the January 21, 1946 issue wherein this publication again urged that the juke box industry get the record manufacturers to arrange for a special label for the records used by juke box operators and that this label feature the wording, "For use in coin operated music machines", definitely brings to the fore that this is now recognized as one of the paramount issues of this coin operated music machines industry.

From everywhere in the nation came instant recognition of this need. Juke box men who formerly were quiescent to the fact that they did not get the allotment of records they had expected, instantly jumped to attention to make this one of their first requests. It is the hope of these men that the juke box trade nationally will instantly enter into the work and effort necessary to bring about the required change in the wording on the records now being used in their equipment.

These men all realize that the wording on the present records they are using actually places them in the position of using "illegal" merchandise. Yet, the manufacturers themselves realize that they are selling these records to owners of juke boxes and cannot dodge the fact that this can be considered "commercial use" of the records which are actually, and according to the wording on their labels, "to be for use in home phonographs only".

**EVERY RECORD LABEL
SHOULD FEATURE
"For Use In Coin
Machines"
Operated Music**

All the way down the line there is falsity in the use and sale of the present records. The record manufacturers reproduce on each record a trite and seemingly irrelevant statement and yet turn right around and arrange for sales of their records for commercial purposes. The juke box operator purchases the records in good faith and when he takes time to read the wording on the labels wonders just what he has purchased.

At the same time all in the juke box industry realize that it is actually the wording on these records which has brought about suits from ASCAP and BMI and which also started the Buckley bill into action. So far everything has worked out to the advantage of the juke box trade. But there is no halt to the further attempts at persecution of this industry — simply because such persecution is tempted by the wording on the labels of these records.

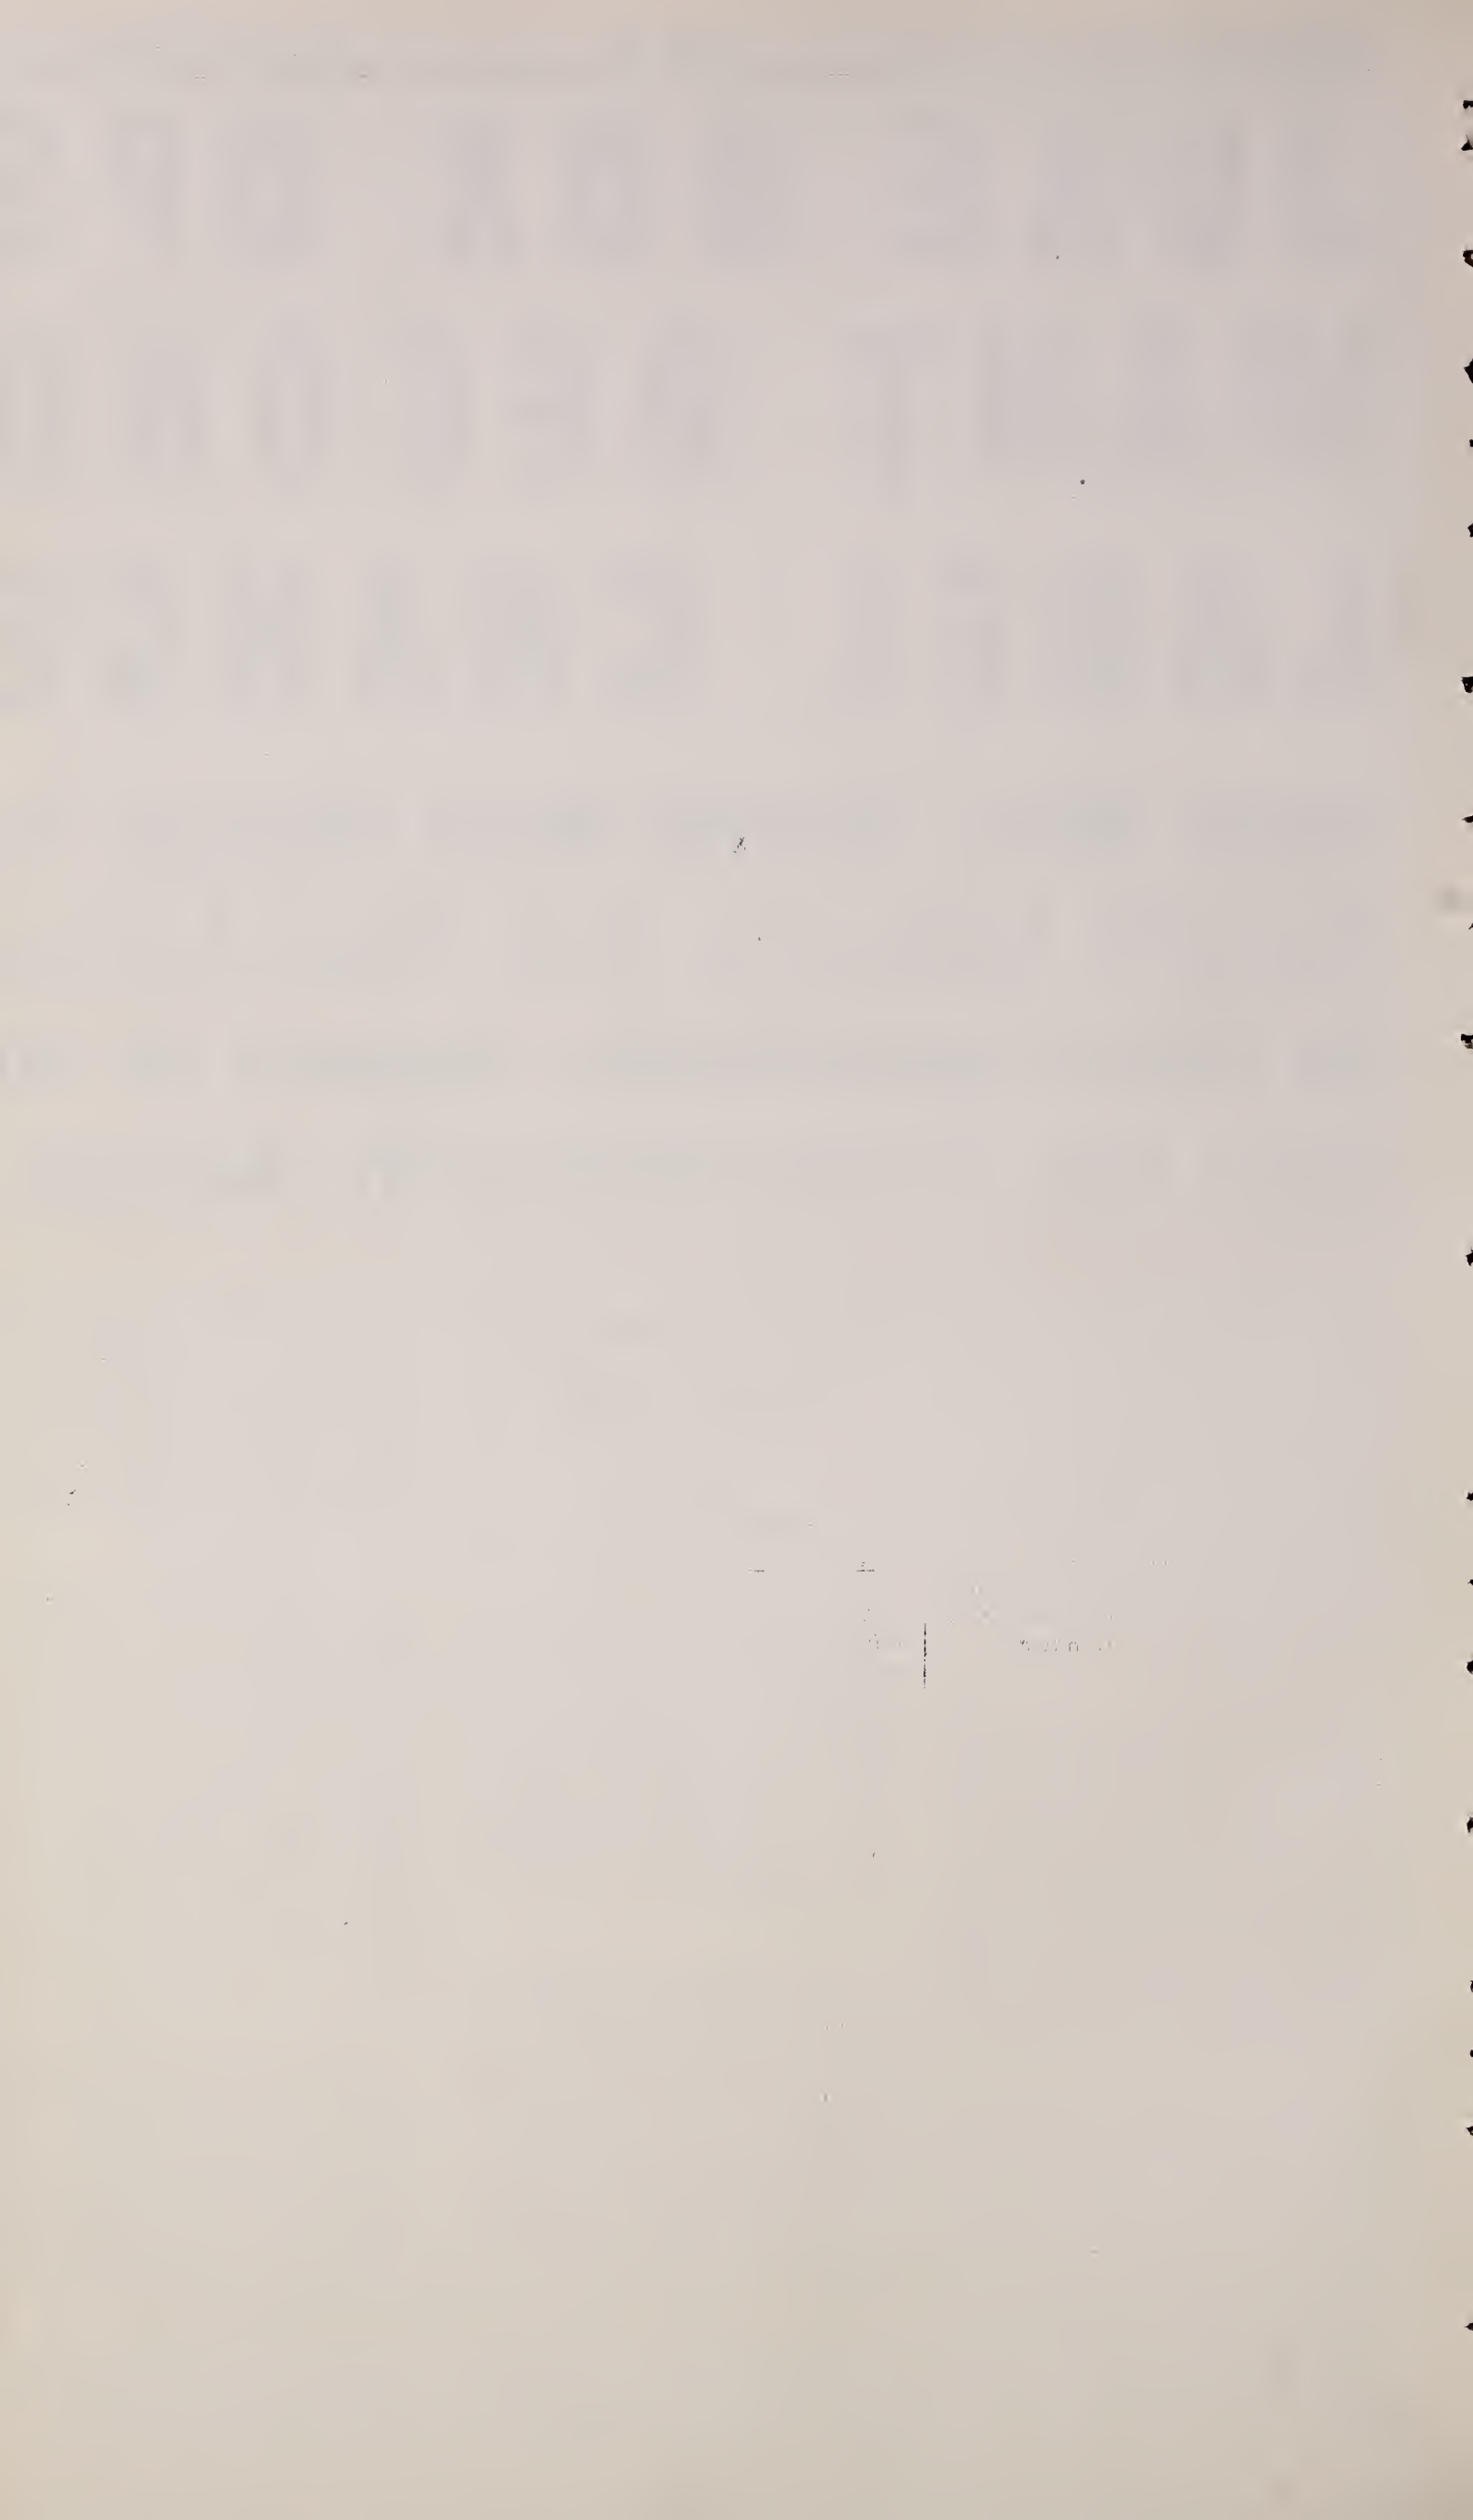

One noted juke box leader writes, "The labels on the present records should have been changed years ago. We have brought this to the attention

of the record distributors here many times in the past. Your efforts in this direction are to be commended. This is in keeping with the marvelous work which The Cash Box has done to help protect this industry time and time again and to call the attention of the entire field to the many surrounding ills which it can no longer afford to shut its eyes to anymore."

It is necessary, so that the juke box trade continue forward without any further persecution and without any further obstacles being thrown into its path, that it clear the way of all this sort of unreasonable and unbusiness-like abuse. It must have these labels changed. It must proceed without worrying that someday someone is going to come along and take advantage of this present record label and demand to know how and why the juke box field was allowed to use a record for "commercial purposes" which is strictly labeled for "home use".

The big three record manufacturers: Decca, Victor and Columbia, should be made to change their label wording immediately. Even if the record costs the operators more money it is worth the additional cost for these men to feel that they will not be further molested and persecuted for something which is being sold to them like a "pig in a poke".

The reading on the record label for juke boxes should carry the statement, "FOR USE IN COIN OPERATED MUSIC MACHINES".

ASSN HEADS MAKE JOINT APPEAL FOR NAT'L TAX COUNCIL

Ask All Nation's Ops' Associations Enter Into Tax Council For Mutual Protection

RAY BERNHARDT

NEWARK, N. J. — In what amounted to a joint appeal to all the nation's operators' organizations, Ray Bernhardt, president of the Phonograph Operators Association of Eastern Pennsylvania and Sol Kesselman, attorney-manager of the Phonograph Operators Association of New Jersey, asked that everyone immediately enter into the work necessary to create a "National Tax Council", as suggested and urged upon the industry by "The Cash Box" for almost four years now.

Both Kesselman and Bernhardt have the backing of their organizations towards entering into a "National Tax Council", they report.

Kesselman stated, "Our association and the Phonograph Operators Association of Eastern Pennsylvania believe that this is the time for the creation of a 'National Tax Council' as proposed by 'The Cash Box'. We feel certain that everyone of the associations thruout the country will agree with us that the tax problem is growing more serious each day.

"Therefore, we believe, that the trade needs and wants an organization which will help it to better understand whatever tax measures may be proposed and which, especially, will help protect it from excessive licensing fees."

Bernhardt has long been an advocate of the need for a "National Tax Council". Some months ago his organization reported that they had voted this need "into the minutes of one of our meetings".

Bernhardt stated, "At the present time we, here in Philadelphia, are faced with the possibility of increased license fees on each one of our phonos. We know that this is not only unfair but absolutely inequitable. Yet, there is nowhere we can go in the industry for expert tax advice, data, former records, precedents, victorious cases, etc., that we need to help our attorneys and others whom we have employed to fight this increase".

Both these association heads compliment "The Cash Box" for being so persevering in urging that this industry create a 'National Tax Council'.

Kesselman stated, "Once again 'The Cash Box', as with the Buckley bill, has started the ball to rolling and is helping the industry to greater and better progress. In this case of a 'National Tax Council', 'The Cash Box' is to be complimented by everyone in the trade for the work it has done and is doing. All the nation's associations should join in immediately to get a 'National Tax Council' under way for the mutual protection of the men in this trade."

Letters are already going forward to everyone of the associations thruout the country. Both men believe that there is sufficient interest in the creation of a "National Tax Council" at this time to bring about a meeting of association leaders, as well as many independent operators, in some central location in the country where first talks regarding a "National Tax Council" can be held.

SOL KESSELMAN

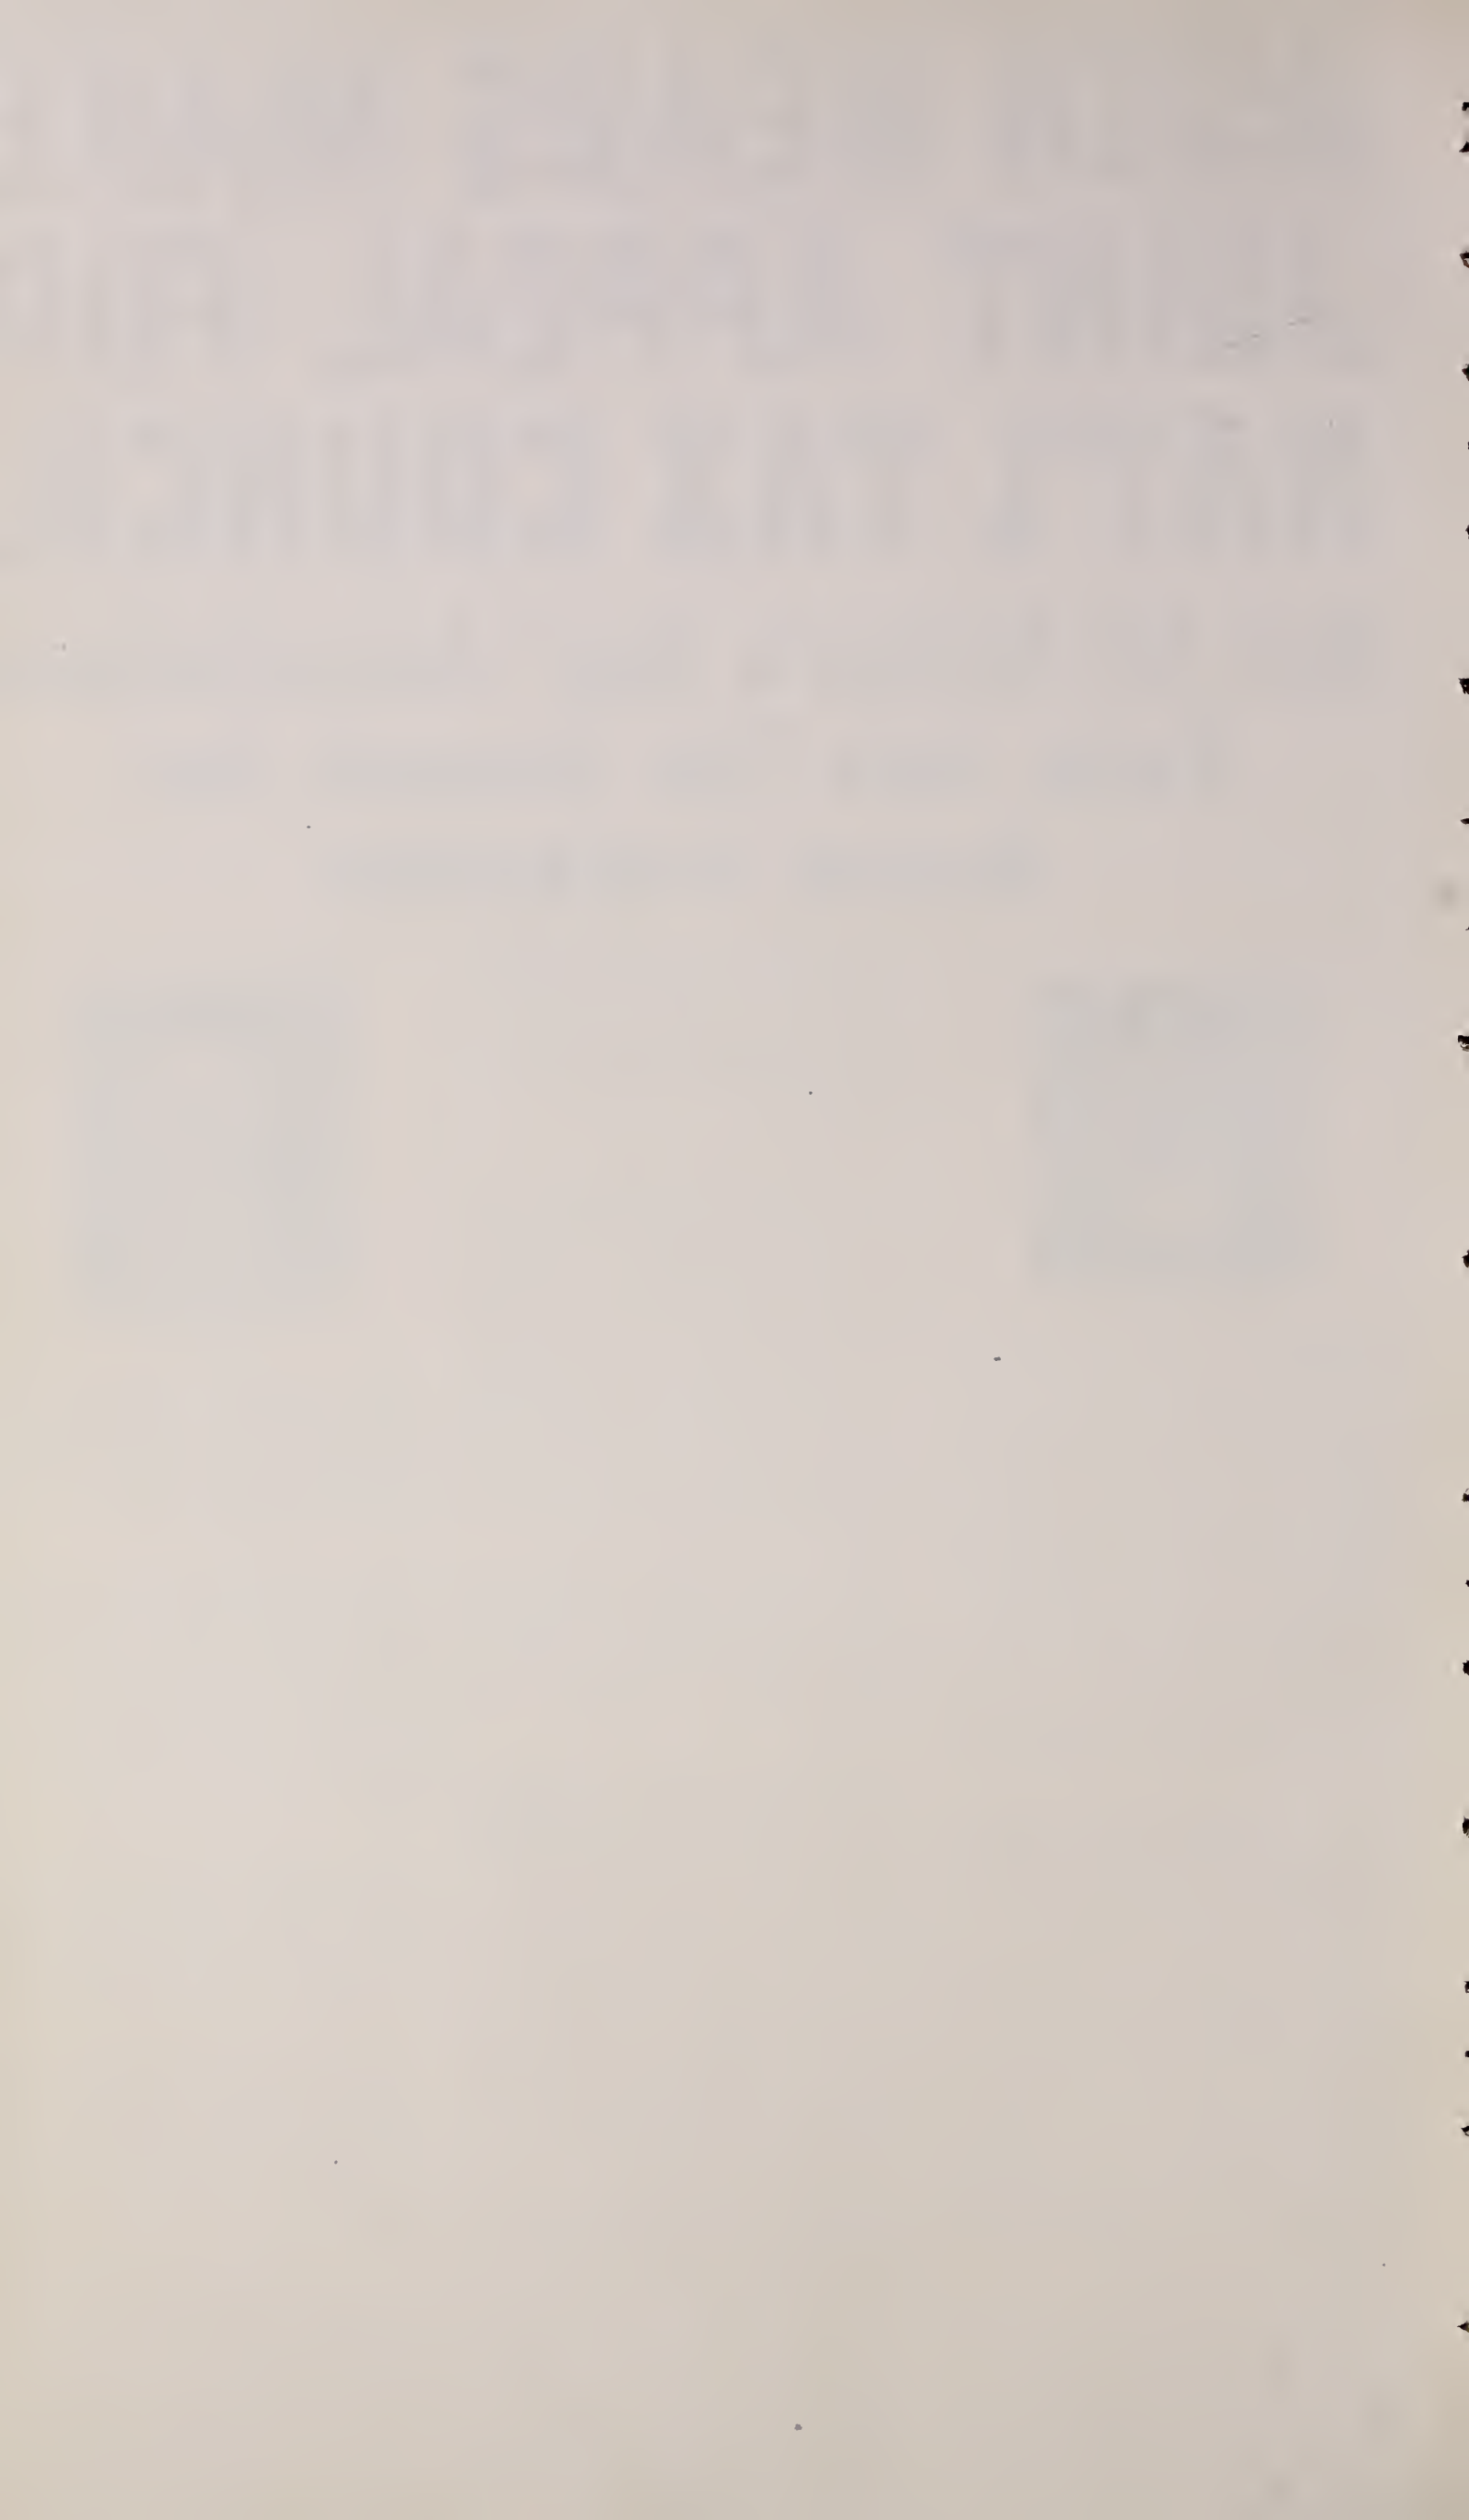

They are asking that other association leaders and individual operators thruout the nation give their thoughts in regard to the creation of a "National Tax Council".

They are of the hope that everyone will enthusiastically enter into this effort and that a central bureau will be located where records of all present taxes as well as former tax cases, precedents and all material relative to tax matters will be gathered together.

They will also seek for tax experts who will make a study of present taxation in the coin machine field and offer helpful cures for some of the inequitable taxes now in existence.

Leaders thruout the industry are invited to send their comments and thoughts regarding a "National Tax Council" to "The Cash Box" which will be happy to present these to the trade.

The work which Ray Bernhardt of Philadelphia and Sol Kesselman of this city are doing in regard to the creation of a "National Tax Council", it is believed, will help to get such a council into action long before many dreamed it would become a fact.

AOLAC APPEALS TO ALL COINMEN TO CREATE NAT'L TAX COUNCIL

“Curley” Robinson Urges Trade To Recognize Revenue Drive By States, Cities, Counties Thruout The Nation. “This Is Our Greatest Necessity”, He Says.

SAMUEL (CURLEY) ROBINSON

LOS ANGELES, CAL. — Samuel (Curley) Robinson of AOLAC (Associated Operators of Los Angeles County, Inc.) rallies to the banner of a “National Tax Council” to be created for the coin operated machines industry just as fast as is humanly possible.

“Curley” wastes no time in immediately getting down to brass tacks. He states, “The need for a ‘National Tax Council’ has gone beyond any demands which were ever before made on this industry for any sort of help. The fact that ‘The Cash Box’ brought this to the fore many years ago appealed to everyone in this business. But, the war was on and tho we all instantly rallied to the cause which ‘The Cash Box’ presented, we could do very little because of the great emergency which faced our nation.

“Now, with states, counties, cities, towns and villages everywhere in the country demanding more and greater revenue — it is up to us, in the coin machine industry, to create this ‘National Tax Council’ and do so immediately.

“Wasting time now means losing more and still more money for coin machine men thruout the country. Everytime someone presents a theoretical argument regarding whether there will be enough coinmen in agreement for a ‘National Tax Council’ and stops such a council from being created—someone is going to get hurt.

“Not only here, in Los Angeles County, have we felt the weight for needed revenue and are now paying more money per machine per yearly license, but, we note that this is happening all over the nation.

“The juke box organizations are getting together. That means that everyone of us in the amusement machines division of the industry, too, must get together and work with these juke box members of our industry to arrange for one ‘National Tax Council’ as suggested by ‘The Cash Box’ so that we can at least have a central spot to go to when we need tax information, tax data, tax records, tax precedents, tax cases that have been won and lost — so that when new taxation drives come into being (and they are coming into effect each and every day everywhere in the country) we shall have at least some place where we can go to get the advice of tax experts and sufficient data to help us defeat any proposed new tax revenue measures.

“The time has arrived when this entire coin machine industry must recognize the fact that we are faced with an emergency of a desperate nature. We need a ‘National Tax Council’ now more than ever before in the history of this trade. We are being faced with a revenue drive which is going to eat into the profits of every single operator in this in-

dustry unless we do something about it as quickly as we can.

“There is no question that every association of coin machine men in the nation is willing to put up money to make this ‘National Tax Council’ a fact — and make this a fact immediately. We need the help of all operators, jobbers, distributors and manufacturers. And, in addition to the members of our field, we need every single one of the allied industries so that they, too, who have always profited from this business, will continue to profit from it — for we can assure them that we will attempt by every possible means to remove the tax obstacles that face us — if we can create a ‘National Tax Council’ immediately.”

We, at AOLAC, know what the creation of a ‘National Tax Council’ will mean to every operator, jobber, distributor and manufacturer in the industry. We believe that if everyone of these men will get back of this great effort that this trade will have, for the first time, one of the greatest necessities it has ever needed.

“There is no time to be wasted on words. This is the time for action. And action is something that requires everyone of the members of this industry to immediately let us know here at AOLAC whether they will enter into a ‘National Tax Council’ with us as suggested by ‘The Cash Box’ so that such an organization can immediately begin to function for the good and welfare of all in this field.”

(Samuel (Curley) Robinson a few years ago, on his own expense, went to Washington in an effort to get the House Ways and Means Committee to lower present Federal coin machine taxes. He has had a great deal of experience with coin machine-taxation.)

N. Y. TIMES' STORY IS REASON FOR "PUBLIC RELATIONS BUREAU"

Describes "Bad Boys" As Frequenting "Juke Box Joints". This Should Be Corrected Immediately.

NEW YORK—A feature story appearing in "The New York Times Magazine (Sunday, January 27) brings to light one of the greatest reasons for the need of a "Public Relations Bureau" for the coin machine industry as now being urged by the CMI (Coin Machine Industries, Inc.) the manufacturers' association, in addition to the plea which The Cash Box has been making for more than three years.

In this story, which appeared on page 13 of that issue written by A. H. Lass, who is considered an authority on juvenile delinquency, there appears a list of the "traits" of "bad boys" and among this listing is the following: "They gamble, annoy policemen and their neighbors, frequent poolrooms and JUKE BOX JOINTS".

Tho buried away in this full page article by Mr. Lass, it may have been passed up by many of the readers of this famous newspaper, yet, there is no doubt that of all those who did read this article and this must include a large part of "The New York Times" circulation thruout the entire country, many came across the words "juke box joints".

Definitely this did not add flavor to the words "juke box". Nor did this help gain prestige and better understanding for the great and grand work which juke boxes have done for the U. S. Treasury Department during the war period, for many charities and especially for many of the "youth canteens" across the nation now serving the needs of youngsters to keep them off the streets and make better citizens of them.

There is only one real answer to this sort of statement by a man who should most definitely know better. Or, if he doesn't know what great work the juke box has done for minors — then he should be told — and that story can be told him by a "Public Relations Bureau".

The Cash Box has continued to urge and to plead for the creation of a "Public Relations Bureau" for more than three years. Now the manufacturers, thru their own organization, the CMI, have also made this a major issue. They are asking for the entire trade to join in this effort.

It is up to the members of this industry, and in the case of this article which appeared in "The New York Times Magazine", up to the juke box men first, to make this public relations program which CMI is intending to start — an immediate success.

The complete details of CMI's plan for the creation of a "Public Relations Bureau" appeared in this past week's (January 28, 1946) issue of The Cash Box. In this week's issue CMI's president, David Gottlieb, appeals to all distribs and jobbers in the country to help the organization by urging their operator-customers to enter as associate members of CMI.

AOLAC MEETING BRINGS BIG TURNOUT OF COINMEN

Discussions Centered On License Fees

By Special Wire to The Cash Box

LOS ANGELES, CALIF.—The regular monthly meeting of the AOLAC (Associated Operators of Los Angeles County, Inc.) brought about one of the largest turnouts of coin machine operators, jobbers, distributors and manufacturer's representatives which this city has ever yet seen.

The meeting was held at the North Star Auditorium (Thursday, January 24) with Samuel (Curley) Robinson, executive director of the AOLAC presiding.

In addition to over 125 members of the organization being present at this meeting there was also in attendance, Paul Laymon of Paul Laymon Co., Jack Simon of Sicking Distributing Co., Phil Robinson of Chicago Coin Machine Co., Elky Ray of D. Gottlieb & Company and Bill Happel of Badger Sales Company.

Most noteworthy at this meeting was the fact that all discussions were centered on taxation. The new license fees were discussed. There was also discussed the various new taxes which are being attempted thruout the territory as far as music equipment is concerned.

It is generally believed that the organization won a triumph in the fact that taxes were reduced here from \$36 per year per game to \$24 per year. This was accomplished by a heated argument which "Curley" Robinson had with the Board of Supervisors of Los Angeles County.

Also present at this meet was Aubrey Stemler, new managing director of the Phonograph Operators of Southern California. He spoke briefly on the aims and purposes of his organization.

Since many of the games men here are also music operators it is believed that Stemler won many new members to the cause which the music ops association is sponsoring at this time to force down the present license fees in the County from \$12 to \$6 per year per machine and from \$1 per year for each wall box to 50c per year per wall box. The music machine men are now circulating a petition thruout the County to bring this about.

STEMLER TO MAKE PERSONAL CALLS ON MUSIC OPS

AUBREY STEMLER

LOS ANGELES, CALIF. — Aubrey Stemler, newly appointed organizing director of the Music Operators Association of Southern California, with temporary headquarters at 2940 West Pico Blvd., this city, reports that he will make personal calls on all music operators in the Southern California territory.

These personal calls will be in keeping with the membership drive which is now under way by the organization. Stemler proposes to make it his business to become personally acquainted with each one of the members of the organization and to discuss their problems with them right in their own backyard.

Stemler has spent about eight years in the music machine business on the Pacific Coast and knows almost all the juke box trade here. He asks The Cash Box, "Please advise the music operators of southern California that they can get in touch with me regarding any of their problems at our present temporary address. I am, at the same time, attempting to cover each and everyone of them by personal visit."

EXCLUSIVE TO "THE CASH BOX"

RECORD REVIEWS

By

DAVE QUIRK

RECORD REVIEW EDITOR
OF THE
NEW YORK DAILY NEWS**"That's The Stuff You Gotta Watch"
"Baby Look At You"**Wynonie "Blues" Harris -
Jack McVee Orch.
(Apollo 361)

● Wynonie "Blues" Harris gets star billing on the first side, with Jack McVee and his All-Stars supplying a snappy backdrop. Harris is one of those singers who has a following of all ages and his work in this waxing tells why. He handles tune and wordage in easy fashion, getting across plenty of personality with each note and syllable. It's a number that will get plenty of play in beer-weeping, as well as soda-sipping, spots. On the backing, the McVee crew does a nice job with an ordinary piece.

**"Jimmy's Round The Clock Blues"
"Harlem Nocturne"**Jimmy Rushing - Johnny Otis Orch.
(Excelsior 142)

Jimmy Rushing, who won top recognition as Count Basie's vocalist, does a nice job with the first side, backed by Johnny Otis and his band. The number's got a lot of snap to it and will get plenty of attention from the coin patrons especially in spots like Harlem. On the backing the Otis crew gets a chance to run loose with a good instrumental.

**"Amen"
"Rock-A My Soul"**Luvenia Nash Singers
(Excelsior 148)

Negro spirituals always have an appeal and this recording keeps up the tradition. The Luvenia Nash Singers have beautiful voices and their handling of these two numbers is tops. Margaret Pett also does a nice solo on the first side. It's good for the race spots and could do okay where older people gather in other locales.

**"Got Your Love In My Heart"
"Tisco-Cisco"**Herb Jeffries - Joe Liggins
and His Honeydrippers
(Exclusive 211)

● The second side seems to be the attraction on this disk with Pat Kay scoring with a pleasing vocal as Herb Jeffries and his orchestra bat out a lively instrumental. Herb used to be vocalist with Duke Ellington and on the first side gives a good account of himself, backed by Joe Liggins and His Honeydrippers. The combination of cowboy song and romantic ballad is a good one, and will widen the appeal of the disk.

**"Donkey Serenade"
"Symphony"**Jack Nye Orchestra
(Courtney 111)

● Another disk with the Nye crew furnishing the music, and Miss Dorius doing the yodeling on the second half. Two standard pop tunes, they get good treatment from this aggregation.

SLEEPER
OF THE WEEK**"Just Give Me A Man"**

Gerald Wilson Orch.

Excelsior De Luxe Series

★ Here's a tune on a race record that has a great chance to be a nationwide hit. As played by Gerald Wilson has his boys and sung by Bette Roche, it's yand sung by Bette Roche, it's a natural. It can't miss. Definitely on the blues side, its lyrics are good and there's plenty of zing in the music. The other side is "Just One of Those Things," a romantic ballad, warbled by Dick Gray. Here's a lad who'll bear watching. He has tons of appeal in his voice.

**"I Can't Begin To Tell You"
"Warsaw Concerto"**Jack Nye Orchestra
(Courtney 112)

● Both are good recordings and Jack Nye's orchestra does real well by them. On the first side the vocal is handled by Eve Dorius in capable fashion and on the backing the boys snap out a top instrumental that will have the youngsters jiggling their feet all over the drugstores. If it's a place where they can dance, that's what you'll see them doing when this number is played.

**"Thank You For The Lies"
"Play Jackpot"**Dusty Brooks and His Four Tones
(Memo 1001)

● Dusty Brooks and His Four Tones work up a good sweat on both sides but reach their peak on "Jackpot." It's a lively number with Dusty ripping out a solid vocal. The flipover is one of those torchies, ably handled by Raymond Wheaton. The disk is set up to cater to lovers.

**"Stop Your Flirting, Little Girl"
"Texas a la Mode"**Terry Fell and His Orch.
(Courtney 103)

● Terry Fell and His Seven Southerners do right nicely by these two tunes. The first is a novelty, with plenty of piano and a Fell vocal. The other side is strictly instrumental, with the guitar getting the big play. It's good hill-billy and should draw the coin, especially from an all-male audience pretty much softened up by a nip or two.

**"Oh What It Seemed To Be"
"Day By Day"**Frank Sinatra
(Columbia 36905)

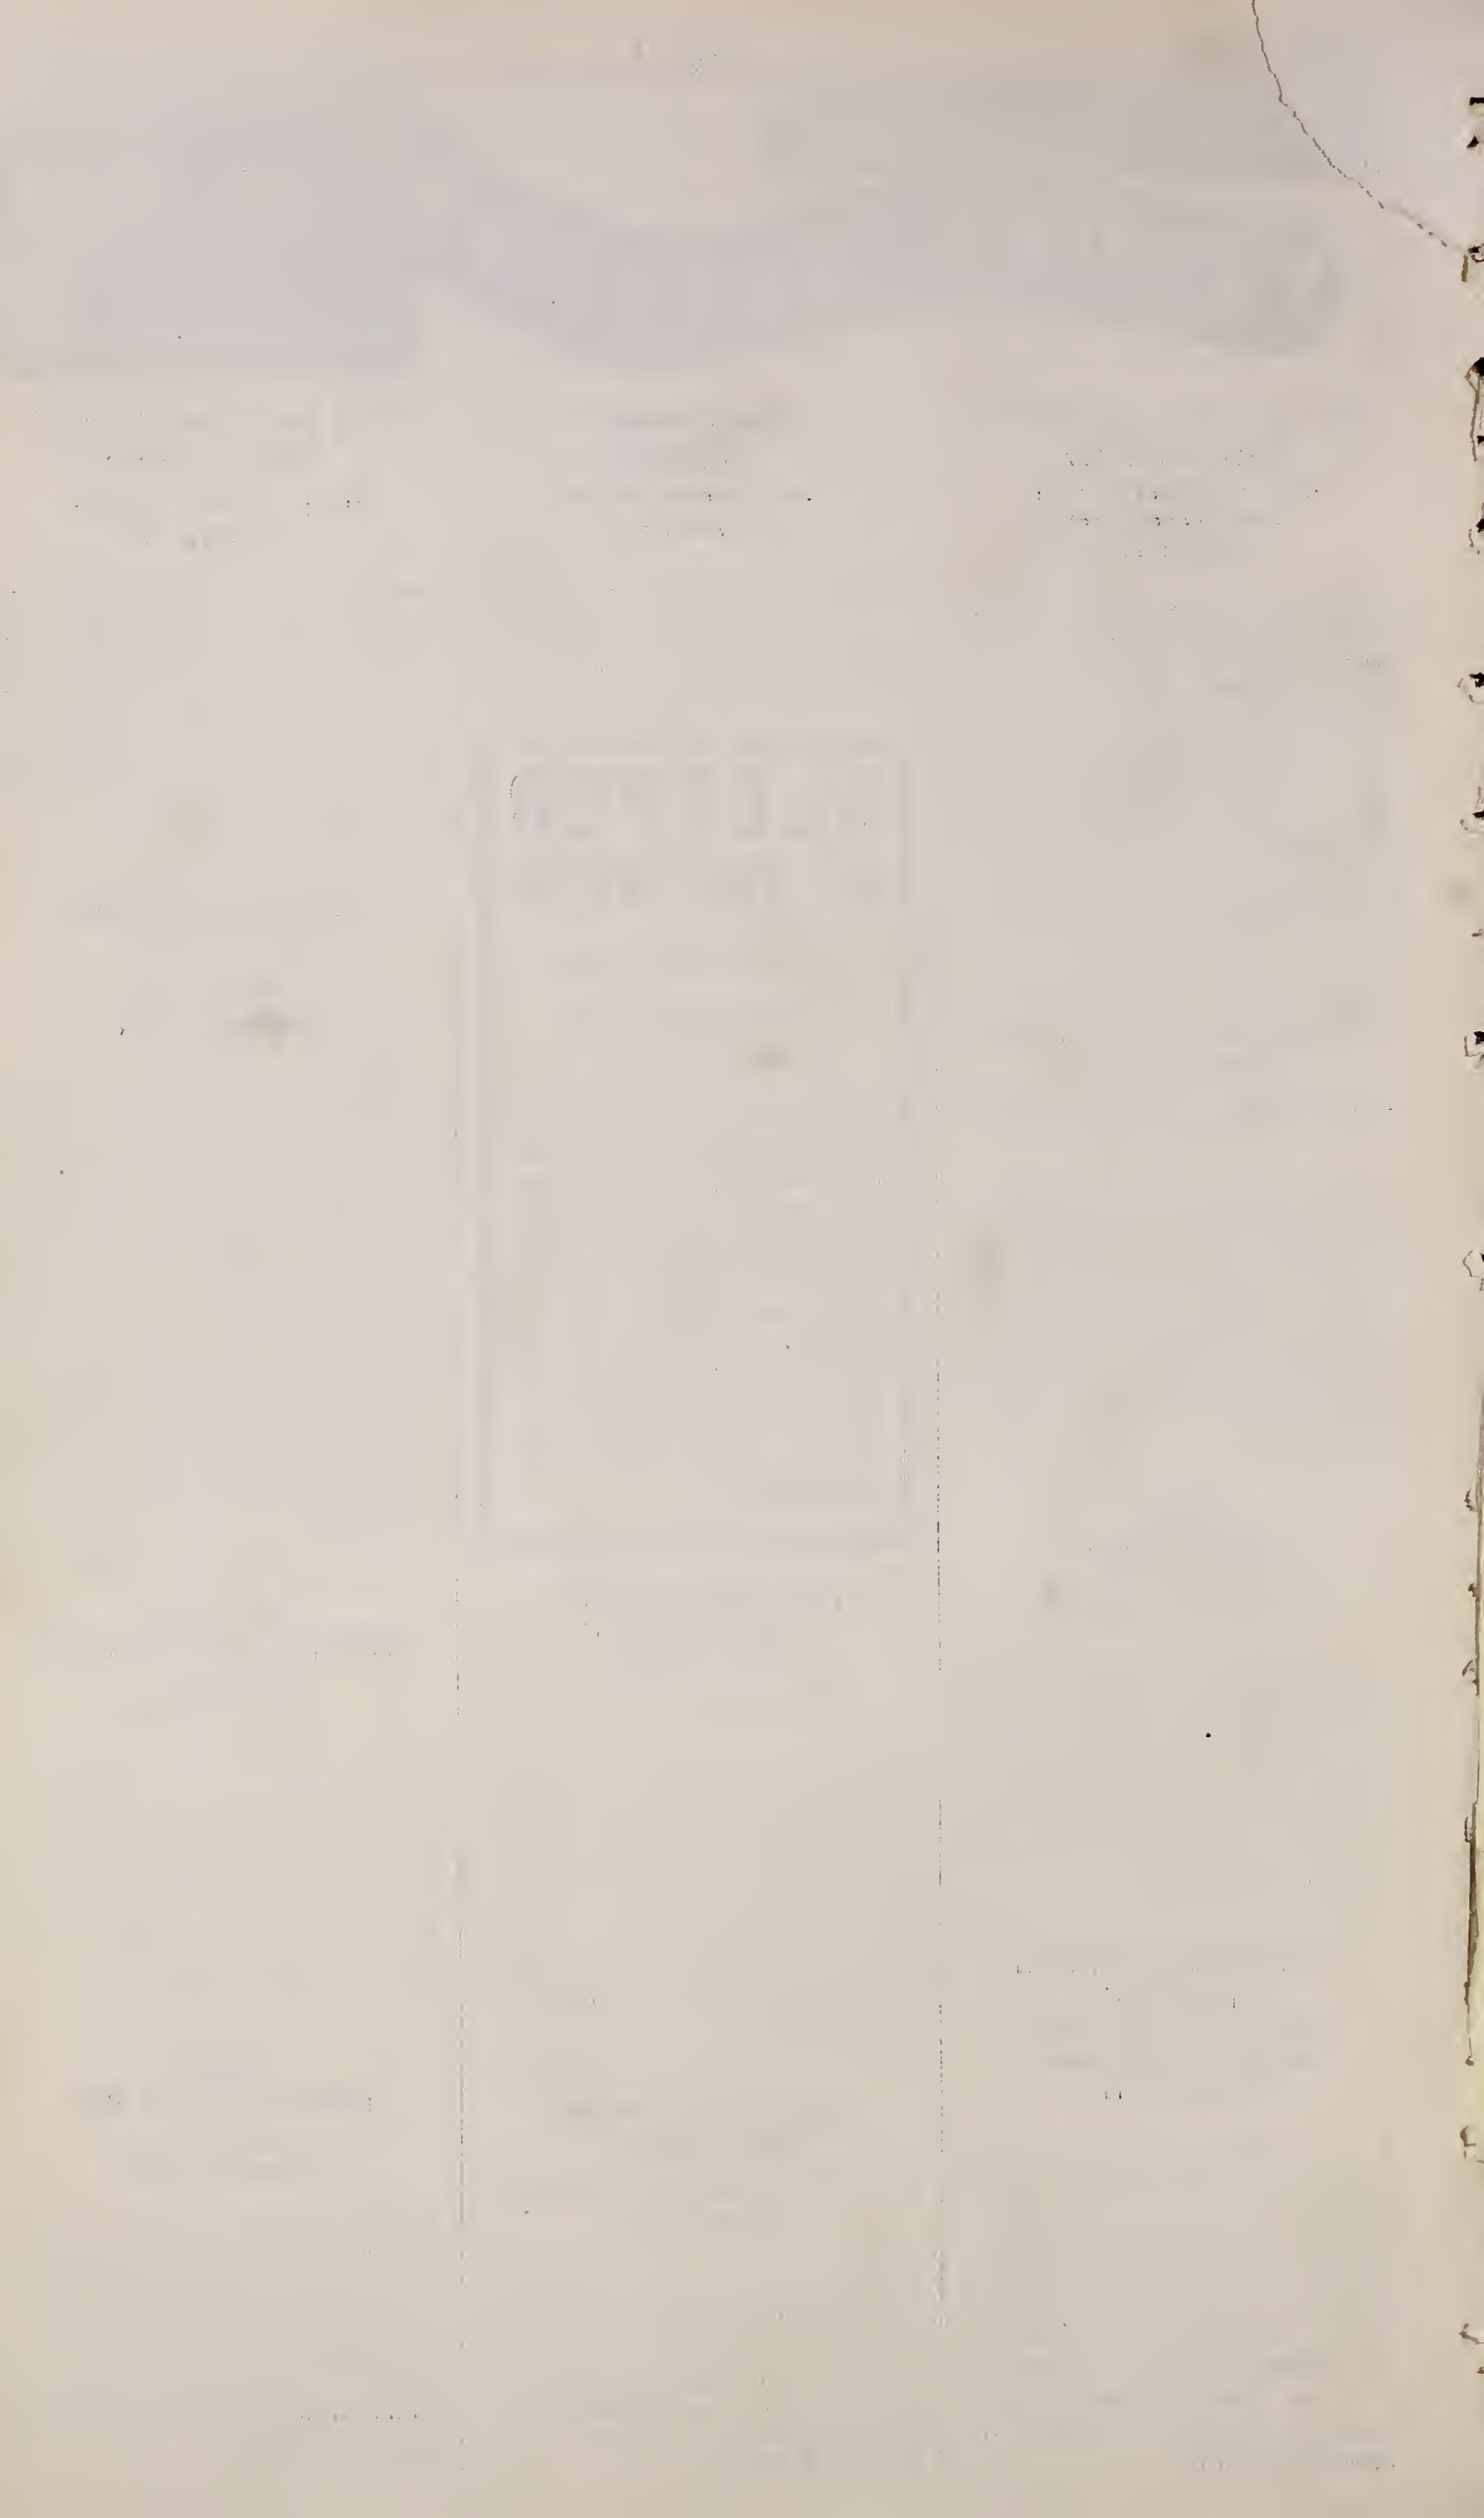

It's six, two and even that the second side will get most of the plugs. In fact, the major record companies are rushing cuttings of the number. But just put it in your notebook that the slipover is the sleeper. Frank Sinatra was never better than in his selling of this swell tune. Moreover, there's a good chance the nation's disk fans will agree that this is about his best waxing yet. It was written by Frankie Carle and reminds you of another Carle hit, "Sunrise Serenade." It has the same rolling rhythm. On the other side Sinatra does another swell job to make the disk a double-barrelled cinch for top play in the music boxes all over the country.

**"Day By Day"
"Prove It By The Things You Do"**Bing Crosby
(Decca 18746)

● Bing Crosby comes up with his version of "Day" to top the parade of waxings of this tune. A good ballad, Bing eases through it in his customary stellar style and repeats on the other side. Mel Torme and His Mel-Tones provide the musical backdrop. Like all Crosby disks, this one will get churned to death in the boxes.

**"Slowly"
"I Don't Wanna Do It Alone"**Kay Kyser
(Columbia 36900)

● Although Kay Kyser will probably get all the applause for the first side, the reverse number is sure to be a hit with juke fans. It's a cute novelty, stepped up by a nice melody. Lucyann Polk handles the lyrics. "Slowly" is a natural and Kyser does a great job with it, with Michael Douglas and the Campus Kinds revealing a catchy style in the vocal.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week; Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

- | | | | |
|----------|---|-----------|--|
| 1 | MEANS PRICE WENT UP. | 5 | MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS. |
| 2 | MEANS PRICE WENT DOWN. | 6 | MEANS NO PRICES QUOTED FOR PAST TWO WEEKS. |
| 3 | MEANS MACHINE JUST ADDED TO LIST. | 7 | MEANS NO PRICES QUOTED FOR PAST THREE WEEKS. |
| 4 | MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK. | XX | MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION. |

GEO. F. KLERSEY JOINS BANNER AS SERVICE MGR.

GEORGE F. KLERSEY

PITTSBURGH, PA.—I. H. Rothstein of Banner Specialty Company, headquarters in Philadelphia and with branch offices at 1508 Fifth Ave., this city, reported this past week the appointment of George F. Klersey as Service Manager.

Rothstein reports, "George F. Klersey joined Banner Specialty Company the latter part of 1937. When the war came on he joined the Navy. He took part in several battles around Java. After his honorable discharge from the Navy he again returned to our branch offices in Pittsburgh.

"George has a reputation as being one of the best mechanics in the in-

"RESPONSE SO FAR VERY GRATIFYING" GILMORE REPORTS

JAS. A. GILMORE
 Secretary-Manager of CMI

CHICAGO—Jim Gilmore, Secretary-Manager of CMI, reported, "The response thus far to Coin Machine Industries' appeal for public relations funds is very gratifying but could be greatly improved.

"We are engaged in a prodigious effort", he continued, "for the benefit of the entire industry and everyone in the trade should help get applications and checks immediately mailed to CMI headquarters at 134 N. La Salle Street, Chicago."

Gilmore also stated that his phone has been busier than ever answering inquiries of coinmen. Many want

to know what they will get for their \$25 investment. Others ask whether this will mean that manufacturers will 'open territories'.

According to Gilmore, "The answer is simply that this is an effort to build up public favor for all coin operated machines whether they dispense music, merchandise, amusement, weighing, etc."

Gilmore also reminds the field, "The time was never more appropriate for a public relations campaign. Servicemen who have already returned and will continue to return for

"DOC" EATON TELLS REASON FOR FORTY RECORD PHONO

DE WITT (DOC) EATON

CHICAGO — "When Automatic Instrument Company decided to put a forty-selection phonograph on the market, many aspects were considered before a final decision was reached," DeWitt (Doc) Eaton, AMI Salesmanager, reports, "We feel that when automatic music service is installed in a location, both the player and the location is entitled to all the music they can get. This, of course, means a music program offering an abundance of selectivity," he stated.

He continues, "By offering a volume of music selection, play is bound to be increased. For example, our Hostess music card shows a list of one hundred titles. By advertising the fact that five thousand additional tunes are on tap in the library at the main studio, hundreds of requests

pour in all the time for records which the average operator does not ordinarily include on his machine, or for songs he has removed from the machine because he feels they have lost their popularity. Many tunes do have a temporary fade in favor but they are revived from time to time when players know they are available.

"While it is true that records are considered timely items and for the most part have short careers, there are dozens which remain in the profit-plus class for automatic music operators week after week. One of the biggest features of the automatic music machine has always been the advantage of a customer being able to select the music he wants to hear at a particular time.

"Music has always played an important part in American life and acted as a tonic even in the most difficult times. Phonographs won't stop playing when our music-loving Americans get out to enjoy the new juke boxes and the new records, for now that the war is over a market that has been starved during the past several years will have to be satisfied. The popularity of the juke box has increased and it is the best source of music variety and selection.

"The juke box throbs with life when the nickel impulse sets the platters spinning. Selectivity emphasizes the appeal of automatic music and feeds the customer's hunger for certain tunes. With increased selectivity, interest jumps to a higher level. The very variety of abundant selection is bound to spice up the location and stimulate player appeal. We feel increased selectivity is a rich plum for both operator and location owner."

**AIREON NAMES
WHERITT TO HEAD
NEW DIVISION**

J. M. WHERITT

KANSAS CITY — J. M. Wheritt has been named as manager of the new Emergency Communications division of the Aireon Manufacturing Corporation, according to R. C. Walker, President of the company. He joins Aireon after fourteen years with the Missouri State Highway Patrol where he headed the communication division. Wheritt held a commission as captain with the Missouri Patrol.

Wheritt has been editor of the monthly magazine, "Associated Police Communication Officers Bulletin," for the past 7 years. He is a member of the Institute of Radio Engineers, and

**PATENT NEW FLUID
TO REPLACE FREON**

WILMINGTON, DEL. — Of interest to all beverage vender operators is the patent just granted to A. F. Benning, F. B. Downing and Dr. R. J. Plunkett, who have assigned their rights to Kinetic Chemicals, Inc., this city, which is a new fluid for use in mechanical refrigerants somewhat on the order of Freon.

This new chemical has a somewhat more complex chemical structure. It will naturally be acceptable to many beverage vender operators who remember what difficulties they had during the war period to obtain sufficient Freon to continue their venders in operation.

With the growth of beverage vending expected to hit new peaks during the next year or so this new patent should meet with great acceptance by many coinmen.

At the present time beverage vender operators report that they have been obtaining sufficient supplies of Freon and believe that this will continue to be the fact. They do believe, tho, that just as good an item at a much lower price would prove very attractive to them.

a member of Panel No. 13, of the Radio Technical Planning Board. His headquarters have been at Jefferson City, Missouri.

Wheritt attended Park College, the University of Kansas, and has taken extension work from the University of Missouri.

**72 Tons Of Nickels
Put In N. Y. Chutes
Every Day**

NEW YORK — According to Bruce Chapman, lightning calculator, and as reported by Pat Mitchell in the New York World-Telegram, "The citizens of the five boros (of New York City) are daily dropping 13, 412,583 buffalo and Jefferson nickels into coin slots".

This is approximately 72 tons of nickels as measured by returns of all buses, subways, elevated trains, soft drink vending machines, juke boxes, coin telephone receivers and saloons using nickel coin devices. Bruce Chapman is the "Answer Man" on radio station WOR.

Chapman reports, "A freshly minted nickel weighs 77.16 grains and about 4,000 nickels weigh about 44 pounds. But nickels wear to the extent that samples of 4,000 nickels in circulation only weigh 43 pounds.

"The daily take in nickel chutes", Chapman continued, "is \$670,629.15."

The Federal Reserve Bank of the Treasury Department believes that Chapman's computations are entirely logical. Their figures show that there are at present \$295,000,000 worth of minor coins (nickels and pennies) in circulation in the country at this time.

(It has long been the belief of leaders in the industry that there are more nickels in total dropped into juke boxes than coins put thru the wickets of all theatre windows in the country.)

LIKE NEON AGAINST THE SKY...

LIKE BURNISHED SILVER ON BLACK VELVET

• When a name comes to mean so much, it does so for good reason. With Packard Pla-Mor Music System that reason is profit for operators—profit realized and attested to all over the country.

Profit is fundamentally based on that certain something called play-appeal. No one can define play-appeal. It's elusive—intangible—like a will-o'-the-wisp. But Packard has the key through rich experience of its engineers and planners—the men who gave selective automatic

reproduction of music on record to the entertainment world.

Now Packard presents another great product—with Pla-Mor play-appeal and profit built-in—to join its unequalled line. It's the Pla-Mor Automatic Phonograph—sensationally new—revolutionary in five exciting, appealing ways. This is the leadership that makes the Packard name like neon against the sky—like burnished silver on black velvet.

UNCOMPROMISING POLICY

FROM 1917 TO 1942

"ENDORISING ONLY THE BEST"

In 1942 war restrictions and conditions called for at least a compromise in our policy if we were to continue our business.

Rather than do that we stopped!

Being sure now that nothing can compel us to make even a remote change in our original policy, we are renewing our activities in every field of the Coin Machine Industry with this pledge.

We shall recommend and sell Only The Best Amusement-Merchandising-Music Machines and Accessories.

Our new home at 199 W. Girard Avenue, THE LARGEST OF ITS KIND, will provide most modern facilities to serve operators, jobbers and manufacturers in a manner not equalled anywhere in the United States.

Soon we shall announce our new method of distribution which will be a liberal departure from old fashioned methods and which will benefit the entire industry. Schedules to complete our new home by February 20th are upset by present strikes. We are driving hard to finish the job by March 20th.

Our Pittsburgh branch, however, is now in full swing under the direction of Harry Rosenthal.

MAY ADD MORE OFFICES TO COVER ENTIRE COAST

M. S. (BILL) WOLF

LOS ANGELES, CAL. — M. S. (Bill) Wolf of California Amusement Co., whose headquarters are in this city and with branch offices in San Diego and San Francisco is now planning a major move for his firm.

Wolf reports that he may open offices in Portland, Ore., Seattle, Wash., and possibly one or two other cities along the West Coast which would give the firm complete coverage of the Pacific Coast.

"This", Bill reported, "is in keeping with the expansion plans which we announced sometime ago. We now believe that because certain manufacturers, have asked us to handle their lines over the complete coast that we should start our expansion program immediately."

Wolf also stated, "There are a great

many new distribution methods being arranged on the West Coast and we believe that it will prove necessary for major distributors to have complete offices, showrooms, repair departments and warehouses in every-one of the important centers up and down the West Coastline."

WAS HIS FACE RED?

McKEESPORT, PA. — Frank Dunlay of this city was taking a lot of ribbing this past week because he had to hand over \$1 to Patrolman Walter Myers for over-staying the limit allowed on a parking meter.

Dunlay, by the way, is this city's parking meter collector.

GETS LOAD OF RED TOKENS IN SLOT

SAN ANGELO, TEX. — The "Standard Times" of this city featured a picture of Joe Skolski making his collection from a revamped War Eagle wherein he has two hands full of red tokens, which are now completely valueless.

The caption underneath the picture of Skolski with his hands full of valueless red tokens and the slot in front of him reads, "All 'Lemons' showed on slot machine when Joe Skolski found day's take made up largely of valueless red tokens."

FITZGIBBONS IN FAST ACTION

JOHN A. FITZGIBBONS

NEW YORK — John A. Fitzgibbons, who was one of the country's outstanding distributors before Pearl Harbor, is back once again distributing products of leading manufacturers. During the war Fitzgibbons was inactive due to the curtailment of machines — but was impatiently awaiting the day when the industry would get back in full swing.

The past few months, Fitzgibbons has been operating under his new firm name, Jafco, Inc., and has been shipping the "Roll-A-Ball Barrel Rolls" thruout the entire country. In addition, he has acquired distribution rights from other manufacturers, among which is Williams Manufacturing Co.

Jafco, Inc. will move into their own building on West 47th Street as soon as the building is vacated by the present tenant, which is only a matter of days. A New Jersey office and

showroom is being opened, and an announcement will be made when the lease is signed.

Fitzgibbons, whose experience as a distributor goes back to the early days of the business, is most enthusiastic over the future of the Jafco firm.

"We have shipped a large amount of 'Roll-A-Ball Barrel Rolls' to our customers," says Fitzgibbons, "and orders are pouring in continuously. We have orders on file for Williams' 'Suspense' that far overshadows anything we ever received pre-war. But this is only the beginning. I shall distribute the machines of additional manufacturers, and look forward to the same reception from my customers for their products. My customers know that they can order equipment from me as I have always stood behind it 100% and will make good on anything that goes wrong."

"PIONEER WILL PIONEER"

Slugging Is Main Topic

TOLEDO, O. — To give some idea of how even the newspaper writer's mind works is the item appearing in the "Blade", local paper, regarding the fact that there are now vending machines which make change for quarters and dimes while delivering the merchandise.

Says the "Blade", "The owners of this machine will take a terrific beating if some slickers originate a slug that will make it work." (Even newspaper men, it seems, think first of how to beat a machine.)

TEXAS ASSN WANTS NAT'L TAX COUNCIL

EARL E. REYNOLDS

DALLAS, TEX.—Earl E. Reynolds, president of the Texas Coin Machine Association, this city, reports that this organization has always wanted and always supported the plan of The Cash Box to create a "National Tax Council".

In 1945, Texas coinmen ran up against one of the most inequitable and confiscatory state tax bills ever yet presented in the nation. This bill, in the capital at Austin, asked that operators of pin games pay \$100 per yearly license fee plus 20% of the gross collections from each machine. In addition, the bill specified that phonograph operators pay \$50 per yearly license per phono and 20% of the gross receipts from each juke box.

This bill was defeated by the coinmen in this state after all came together and worked with untiring energy for weeks in the state's capital. "But", as one coinman stated sometime ago, "who knows but that some other legislator may bring this bill back into being in 1947 and perhaps it may pass."

Reynolds has time and again urged the trade to come together in a "National Tax Council" for its own future welfare and especially for its immediate protection.

"Most outstanding", he said, "of the need for a 'National Tax Council' was when we coinmen, here in Texas, were suddenly faced by this confiscatory bill and found that there was no place in the nation where we could get the kind of information we needed so that our attorneys and representatives would know what to do.

"This was a great shock to us. We never before realized how right The Cash Box was in asking that a 'National Tax Council' be created. This is one of the greatest necessities for our business. It supersedes everything else. It is the one thing that we need

now — right away. It should be created immediately so that every coin machine man in the nation will have some central place to go to when he needs information to fight excessive and inequitable taxation in his community.

"Just look what is happening everywhere in the country. New and bigger license bills and ordinances are being proposed one right after the other. No one is safe. Everyone realizes that his community is desperately seeking revenue to offset any demand on its present financial set-up. We must protect ourselves as other industries are doing.

"Here in Texas, tho our organization hasn't been as active as it should be, there is no doubt that the men would get together and immediately vote for a 'National Tax Council' for they realize that this is for their protection — not only for today but for whatever may arise in greater revenue demands tomorrow.

"The industry should not hesitate an extra second — it should immediately get together, regardless of the cost, to create this 'National Tax Council' which is so necessary to our future good welfare".

The Best Way is to Say: "I saw it in The Cash Box"

MILLER SUGGESTS CLOSER CONTACT BETWEEN ASSNS.

GEORGE A. MILLER

OAKLAND, CAL.—George A. Miller, state president of the California Music Operators Assn., reports, "The relationship between the various music associations in the U. S. should be much closer to each other and that each should correspond with the other at least once or twice per month.

"In this manner", Miller believes, "each state would be informed of the kind of taxation which is continuously being attempted or proposed by the other states.

Addressing himself to The Cash Box, Miller writes, "May I, at this time, extend the appreciation of the California Music Operators Assn. for your very personal, untiring efforts in regard to the defeat of this vicious legislation (the Buckley bill). I feel that The Cash Box has been instrumental in the defeat of this bill, not ourselves. By that I mean that all the music ops assns. in the 48 states haven't done their part, but I feel that The Cash Box is responsible for awakening the operators into realizing the seriousness of this bill. I hope that sometime in the future our assn. will be able to repay you

"I also believe, and have said this before, that all music operators should be subscribers to The Cash Box. I have always felt that operators should support the people who support them and in the case of The Cash Box the decision is unanimous."

CAPEHART PRESIDES AT MEET OF PACKARD'S REGIONAL MGRS.

Left to Right, Seated: Fred Fields, Sam T. Cass, T. J. Hicklin, W. F. Struby, Homer E. Capehart, E. E. Collison, W. H. Kreig, Karl Schortemeier, R. S. Bleekman. Standing: Art Nagel, H. F. Moseley, D. V. Kennedy, H. I. Drollinger, J. Harry Payne, W. F. Merchant, Wm. Mossbarger, R. Q. Kramer, J. E. Gaddis, Chas. E. Washburn.

INDIANAPOLIS, IND. — Homer E. Capehart, Chairman of the Board of Packard Manufacturing Corp. headed up a sales meeting of the 13 Packard regional managers, executives of the corporation and department heads in this city on January 13, 14, 15.

Plans and policies for Packard Manufacturing Corp. were discussed and met with approval. Packard's new line for 1946 was shown to the regional managers and they were enthusiastic.

The regional managers are reported to have brought many millions of dollars worth of orders into the factory from all over the country. They were unanimous in their belief that Packard Pla-Mor Line from the new Pla-Mor Phonograph to the remote control box, speakers and other accessories will be the outstanding line in the automatic music business.

The meeting was like an old home coming. It brought together men who had been associated off and on for the last 20 years together again.

Eastern regional manager Joe Darwin was unable to attend the meeting due to illness. This was the only drawback to the entire session. A telegram was sent to him wishing for a speedy recovery, signed by all the old gang.

ROWE GIVES VETS GUIDE BOOK ON VENDING

NEW YORK — Rowe Manufacturing Co. has a guide book for veterans, "Is Your Future in the Vending Machine Industry?" which is being distributed thru veterans' groups, chambers of commerce, state and local agencies.

"Pic" magazine making a report on the book states, "Expect spectacular performances from new machines. One estimate on profits, compiled for interested returnees is net of \$4 per month on cigarette machine and that 400 to 500 penny gum machines are needed to net \$300 monthly. Big dough still in juke boxes and pinball."

Look To The GENERAL For LEADERSHIP

THE GENERAL VENDING SERVICE CO.

has been incorporated under the name of GENERAL VENDING SALES CORP.

This is a change in name only, for the company will continue to be operated under the same management and by the original founders who established this business more than 20 years ago.

REVEALS BALLY'S MULTIPLE MUSIC CAN HANDLE SPONSORED PROGRAMS

Groceries, Doctor's and Dentist's Offices as well as Beauty Shops and Other Outlets in New Set-Up. Opens over 100,000 Locations

CAPT. THOMAS J. CALLAGHAN

CHICAGO — Capt. Thomas J. Callaghan, former head of the U.S. Secret Service in the Midwest, now directing Bally's new Multiple Music at Bally Manufacturing Co., this city, revealed this past week that the firm's new Multiple Music would allow juke box operators to gain, in addition to regular juke box locations, such outlets as groceries, doctors' and dentists' offices, beauty parlors and other outlets, so as to obtain the greatest possible revenue.

Callaghan explained that the operators were now discovering the value of getting wholesale grocery houses as well as producers of grocery products to sponsor programs in grocery outlets. This is accomplished on a single wire channel system giving the grocery continuous music with transcribed "plugs" every fifteen minutes or so during the day for the various items featured in the place.

Such music has already begun to prove popular in various parts of the country. It is a tie-in with single channel music. It opens hundreds of thousands of new locations to juke box operators. Many ops who intend to specialize in this sort of music will

gain their greatest revenue from selling "time" to sponsors of leading grocery products.

"Bally's Multiple Music", Callaghan explained, "will handle this new music sponsorship perfectly without the need for additional mechanism.

Our Multiple Music is so arranged that it allows the music operator to channel music to such locations as groceries, doctors' and dentists' offices and other locations in the vicinity of the juke box without any additional mechanical arrangements than the necessary wiring and auxiliary speakers.

"There are many juke box leaders who are now finding sponsored music very profitable. They are selling leading grocery wholesalers and producers of noted grocery products on the idea of sponsoring music into the best selling locations in the community. This usually requires much new mechanism as well as complete specialization. But, with Bally's Multiple Music, it is already set up for installation and the music operator is therefore in an advantageous position when he purchases our complete unit."

Callaghan also reports that Bally's Multiple Music will prove extremely practical in industrial locations. He claims, "Not only will Bally's Multiple Music open over 100,000 new locations to the operators, but because of its unique method of presentation many new types of locations will be able to obtain music for an extremely nominal price.

"Bally's Multiple Music will halve all installation costs down the line. It will allow juke box ops to do things they never before believed possible. In this way they are sure to gain more than five to six times the profit they ever before believed they could obtain from music. And, what's more, they will do this easier, better and simpler than ever before."

Silberman Praised For Unity Plea

AL A. SILBERMAN

NEW YORK—Many letters and phone calls have been received by The Cash Box praising the article on unification of the entire industry which was written by Al. A. Silberman of Williams Manufacturing Co., Chicago, which appeared in the January 28, 1946 issue.

WURLITZER'S DAVE LEE BUSY AS BEE

NO. TONAWANDA, N. Y. — The broad grin on the face of David O. Lee, Wurlitzer Export Manager, is occasioned by the fact that these first two new Wurlitzer demonstration models shipped from North Tonawanda since 1942, went to Casa Riojas, Mexico City, Mexico and to the Smith Distributing Company, Vancouver, British Columbia, Canada.

Casa Riojas is the recently appointed authorized Wurlitzer Distributor for all of Mexico, and Smith Distributing Company has been desig-

nated to handle exclusive distribution of Wurlitzer phonographs and auxiliary equipment for central and western Canada.

"Tremendous strides are being made by all of our new distributors north and south of our borders," Mr. Lee reports. "A new high in enthusiasm on the part of Music Merchants attending all National Wurlitzer Days Showings held by our Export distributors, is an excellent indication of the optimistic future which we anticipate."

JERSEY TOWN UPS PIN FEE TO \$750

NUTLEY, N. J. — Mayor Jernick of this city just introduced an ordinance which would increase present pin game license fees here from \$200 per machine per year to \$750 per year.

The ordinance received its first reading by the Nutley Town Commission and was immediately passed. A public hearing will now be held on February 5. This ordinance covers all types of coin operated amusement machines.

The Mayor gave as his reason for introducing this new ordinance with greatly increased license fee as the fact that similar action was being taken in neighboring municipalities and that his action was in line with recommendations from the police department.

It is believed that Mayor Jernick referred to Irvington, N. J. where an annual occupation fee of \$2,000 per pinball operator was being asked by Public Safety Director Balentine as well as an additional \$10 per machine license from each one of the locations.

This past week Public Safety Director Balentine withdrew both of his ordinances stating that he did not think they would stand up legally. He did assert that they would be reintroduced if he finds they are legal. In the meantime Irvington, N. J. will continue with its present license fee of \$5 per pin game per year.

AWAIT "A" DAY

PHILADELPHIA, PA. — Atlas Distributing Co., Inc., this city, have completed their preliminary steps in preparation for the display and sale of Aireon phonographs and accessory equipment on Aireon's "A" Day.

The territory assigned to Atlas covers Pennsylvania east of Harrisburg, New Jersey south of Trenton (including Trenton) -and the entire state of Delaware.

Atlas occupies the entire building at 2013 No. Broad St., which has a frontage of 22 feet, and is 250 feet deep. The showroom has been designed by one of the cities' leading designers, and according to Sam Weinstein, owner, and Charley Hannum, manager. It is claimed to rank among the most beautiful in the industry.

A sign covering the entire front of the building has been installed, with

WAIT!

TILL YOU SEE

"SUSPENSE"

Worth Waitin For!

WILLIAMS MANUFACTURING COMPANY

161 W. HURON ST.

CHICAGO 10, ILL.

three inch raised block letters, in a three color effect of black, white and gold.

"We are now ready", informs Weinstein, "for the delivery of the Aireon line in the very near future. Our mechanical staff have just returned from aKnsas City, where they attended a five day schooling in the mechanical features of the phonograph. Our sales staff, headed by Hannum, is all set."

INTRODUCES NEW CHANGE MAKER

SEATTLE, WASH.—George Schnabel of Puget Sound Novelty Co., this city, has just introduced his new "Change Master", a change maker which holds \$10 in nickels.

Schnabel reports, "This change maker is made of polished chrome and is one of the finest of its kind ever introduced to the trade. When we named it 'Change Master' we weren't in any fashion whatsoever misnaming this unit. It really and truly is a 'Change Master' in every sense of the word.

"Furthermore, we are able to market the 'Change Master' at a very nominal price to the trade.

RECORDS ARE BIG HEADACHE CLAIM ATLANTIC CITY OPS

ATLANTIC CITY, N. J. — S. Underberg of Music Box Enterprises, Inc., this city, well known music ops and distributes here, asks The Cash Box to bring the record situation to the fore.

Underberg writes, "We, as readers and subscribers to The Cash Box, would like you to champion the cause of the music operators' biggest headache — records.

"Are we ever going to get pre-war quality records again?" Underberg asks, "if not, why not? The war is over. From all indications the shellac shortage is over, in fact, all these record manufacturers seem to be able to get all the shellac they need to make off brand records, so why can't the 'big four' namely, Decca, Columbia, Victor and Capitol do it, too?"

Underberg continues, "The biggest headache the music operator has today is record trouble. Records wear out after only 30 or 40 plays. The expense of replacing records and the trouble calls will eventually break the operator unless this condition is remedied.

"I'm sure the big record makers know the trouble we are having. Perhaps they are trying to remedy it. Then, on the other hand, maybe they are not. After all, it does keep their sales of records up and that is what they are interested in more than anything else."

AIRPLANE IS SLOT LOCATION AT AIRPORT

WASHINGTON, D.C.—Drew Pearson noted columnist reports that the officer's club at the National Airport here has a brand new set of slot machines.

According to Pearson: an Army plane flew down to Biloxi, Miss., picked up the five slots and flew them back to Washington. For sometime they remained in the plane on the field where officers and men at the airport here had a grand time playing them.

(This may give some ops ideas for "flying locations" for slots)

CALLED "TRAVELINGEST MAN" BY MUSIC OPS

BEN PALASTRANT

BOSTON, MASS.—Music ops thruout this area are calling Ben Palastrant, Aireon's eastern regional director, "the travelingest music machine man in the nation".

What's more, according to the men here, they are willing to make all sorts of bets quoting very good odds that no other regional or district man in the eastern area, or in the country as far as they are concerned, gets around with the same sort of speed as Ben does.

Ben himself had the following to report, "I don't know whether I cover as much territory with as much speed as the music ops say I do, but, I do try to meet with everyone of them and also make it my business to get away out into the country areas, if at all possible, to discuss business right with the music machine men in their own homes. That's the way I believe anyone ever learns all there is to know about the other man's problems."

Soklove Of Pioneer On Trip To Appoint Distribs

CHICAGO — Lou Soklove, general salesmanager of Pioneer Coin Machine Co., 2634 N. Laramie Ave., this city, has started on a nation-wide trip to introduce the firm's new game "Smiley" and to appoint distribs for it.

According to Soklove, " 'Smiley' is a penny or nickel, five-ball amusement game which features real skill action. It is very colorful, has plenty of real appeal and fine amusement features. It can be operated in any territory. It comes in assorted colors, each very eye-appealing."

BRAND NEW TUBES IN SEALED CARTONS

Soklove has been in the cointrade for over 25 years. He formerly made his headquarters in Philadelphia and was well known there for his operating and distributing. For the past few years he has devoted himself entirely to sales work and is reported to have proved himself extremely efficient as salesmanager of Pioneer.

Soklove also reported, "You can advise the trade that 'Smiley' will be ready for delivery nationally on March 1. We believe that we shall be able to keep our word on this regardless of strikes."

FORBES MAG GOES GUSHY OVER COIN LAUNDRIES

Trade Should Make Every Effort To Bring Truth And Conservatism To Fore On All Coinbiz Opportunity Items

NEW YORK — In their January 15 issue, the editors of Forbes Magazine tell about what should prove a grand opportunity for investors with very little capital. They pick coin operated laundries as a very new and very fascinating business with great profit possibilities.

Forbes' editor reveals that there is now such a thing as an "automatic laundry store". The angle, of course, is the installation of anywhere from 10 to 30 coin operated washing machines in a store in some naborhood (preferably surrounded by big apartment houses) and the housewives to bring their bundles to the store and have the machines wash the clothes (about 10 lbs. for 25c) while they gaily continue on their way to do their daily shopping.

What Forbes' editors do not reveal is the past experience ops have had with the coin operated washing machines. During the war period these made plenty good—but, as far as that is concerned, what machine didn't do good during the war?

Anyway, when laundrymen weren't taking any new business and when laundry work generally was hard to get, Mrs. Housewife would be glad to bring her bundle down to the basement of her apartment building or carry it a few blocks to an automatic laundry store to get her washing done, especially in view of the fact that the laundry stores also sold her the powdered soap (which was a very hard-to-get item during the war period.)

But, now with the war over and the large commercial chain laundries already beginning to put on new trucks and new wagons and new drivers and sprucing their men up with new uniforms and again beginning to advertise to Mrs. Housewife about the swell and economical laundry service they offer and have their men call right at the door — the coin operated laundry store idea may still work — here and there — few and far between — but it isn't as big and tremendous a business as Forbes editors are trying to make of it.

They tell about the Westinghouse

Electrical Appliance Division of Mansfield, O. having equipped an automatic laundry with 30 automatic washers in Mansfield. They made this into a modern style laundry room complete with lounge and playroom, according to Forbes editors. "It's so popular", these editors report, "that it has been operating 100% since opening day."

And here's how Forbes' editors finish up this item on "specialized laundries", "Operators quick enough to get into this growing new market will find eager consumer acceptance in every community. An owner and one assistant can run the whole show. A husband and wife are ideal."

The pitiful thing, to all experienced coinmen, is the fact that the shrewd promoter will clip this item and have hundreds of reprints made of it which will act as his stock in trade while he interests returned vets and others with just enough cash to want to get into a little business for themselves.

The entire industry should make it its business to warn outsiders of these glowing "opportunities". How do Forbes' editors know that, "This growing new market will find eager consumer acceptance in every community?"

NELSON RESIGNS FROM SUPERIOR OPENS NATIONAL DISTRIB FIRM

JACK NELSON

CHICAGO — Announcement was made this past week by Jack Nelson that he will resign from his position as General Sales Manager of Superior Products to enter his own business.

The business will be that of national distributor of several new coin machine products to be merchandised through the appointment of coin machine jobbers and distributors throughout the United States and foreign countries. Headquarters to be in Chicago under the name of Jack Nelson Company at 800 North Clark

Street. Some of the items are expected to be announced very shortly.

Commenting on his new venture, Nelson said, "I am happy to start in this new business of national distribution and full sales coverage to the coin machine field as I feel confident the items to be marketed have a definite place in the industry and will be greeted enthusiastically by operators."

Only approved items will be marketed and each will be personally selected only after thorough tests on actual locations have been completed. A staff of experienced and efficient district managers will handle various territories for all products represented by the new company.

Nelson has had a long and extremely successful marketing experience in all phases of the industry's merchandising activities with coin machine operators and distributors. He served as Vice President and General Sales Manager of Rockola Manufacturing Corporation for seven years prior to his appointment as General Sales Manager of Superior. Before his connection with Rockola in 1936, he was for twenty years with a trade paper and witnessed the start of the present day boom of the coin machine industry in the days when there were only a few manufacturers in the business and a very small number of operators.

GIVES UNIQUE SLOT DEFINITION

SAN JOSE, CAL. — Warren Holmes, foreman of the grand jury trying Sheriff Wm. J. Emig and three other Santa Clara County officials, defined a slot machine as follows:

"I saw an object of either the console or the upright type equipped with a slot in which to insert a coin, a handle to be pulled or, in some cases, button to be pushed, a mechanism which revolved within and an exit slot from which a coin or coins did or did not come out. In my experiments the coins did not come out. That is my definition of a slot machine."

This definition was entered into the official records of this trial.

IDAHO NOW HAS 193 SOCIAL CLUBS

BOISE, IDAHO—Ira H. Masters, secretary of state, reported this past week that in the first eight months of operation of Idaho's law permitting non-profit social clubs to have slot machines, incorporation papers were filed for 193 such clubs.

He also added that 803 slot machines have been licensed at 194 locations. Fraternal organizations are also permitted licenses at the same rate as for other non-profit clubs, \$10 annually.

About 2,700 Federal slot machine licenses have been issued in the state, Masters added. These are required, and cost \$100 annually to the Federal government.

Masters also stated that most communities in the state also charge a license fee for the operation of the machines and that this usually runs around the \$50 mark.

In addition, all state licensees are required to donate \$250 annually to charity for each machine they have licensed.

(This Idaho ruling has attracted much attention and has encouraged coin machine men in various parts of the country to believe that since it is proving so successful that it can become more or less a universal set-up thruout the nation. The state is reported very happy over the proceeds it is enjoying from the machines and also because of the fact that the slots are under complete control at all times.)

Coin Metered Freezers

DETROIT, MICH. — In addition to coin-metered laundry machines in apartment houses, M. P. Hodell of the Coin Meter Company, this city, at a meeting of the property management division of the Detroit Real Estate

Board, reported that apartment dwellers would soon have available new refrigerators containing freezing space on a coin metered basis. It is generally believed that these will prove very attractive to apartment house dwellers.

AGENTS CHECKING LOCATION OWNERS

DETROIT, MICH. — Agents of the Internal Revenue Bureau here are checking location owners thruout Macomb County in a round up of these men whom they believe have not paid the Federal tax on slots which they have on their premises.

It is a well known fact thruout this area that most hotel owners in the Mt. Clemens and other resort sections near here have purchased their own slots.

A complete list of the hotel owners and the number of Federal licenses they took out was published in the Detroit News on January 19. Since then many other have come in for licenses.

Because of this Federal investigators believe that there are many in Macomb County who haven't reported

all the machines they have on their premises, nor have they purchased sufficient number of licenses.

Ops in this area are gleeful over the news and hope that this will cure many location owners from buying their own machines in the future.

AIR FREIGHT AT 20c LB.

NEW YORK—The Gilbert Air Freight Company, 248 West 35th St., this city, are now using leading newspapers to advertise the fact that they will carry air freight from New York to Los

Angeles and San Francisco at only 20c per pound.

This is in keeping with the reports made previously by freight firms that they would establish the lowest rates in air freight history.

Many believe that this will encourage shipments of important parts and supplies across country by air in the coin machine business. Leading distributors here are reported to have already arranged with some of the air freight firms for pickup of such parts and supplies for air shipment to Pacific Coast cities.

ECONOMISTS EXPLAIN WHY TAXES MUST CONTINUE TOP HEAVY

NEW YORK — The following was written by a nationally known economist as his explanation why taxes must continue to remain top heavy. (It is also all the more reason why this industry should immediately create a "National Tax Council" to protect itself from any attempts to increase revenue by taxing its equipment.)

"The public debt when it was half its present size (275 billions of dollars) was a terrific load on our economic system. It is now a mountainous

load.

"The interest must be paid. To pay it the Government must impose taxes. Where do the taxes come from? From the revenues produced by all the big and little enterprises of the country.

"A corporation of private business me must pay taxes out of business revenues. Employees must pay their taxes out of the wages and salaries they receive from their employer. Thus the burden of taxes to pay the Government debt and interest rests on every business concern.

"A railroad corporation, a store, an apartment house will have resting upon it the mortgage resulting from its own debts and in addition will have the Government debt weighing down on it like a vast mortgage.

"But the Government burden will be greater than their own mortgages because the Government debt is three times as great as all the private long-term debts in the land."

Many coin machine leaders thruout the country are now urging the trade to adopt The Cash Box suggestion that a 'National Tax Council' be immediately set up to offset what they believe will be "a drive for ever increasing revenue from the coin machine industry".

AL SEBRING TO OPEN WEST COAST OFFICES

CHICAGO—Al Sebring of Bell Products Company, this city, well known coin machine distributor, is opening offices on the West Coast very soon.

Al will be on his way to the Coast within a few days and will search for suitable headquarters for the firm. He plans one of the most outstanding set-ups in West Coast history.

As yet Al hasn't definitely stated whether he will open in Los Angeles or San Francisco. It is understood, tho, that he has the Williams Manufacturing Co. line for Northern California, Oregon and Washington and therefore some are of the belief that the firm may open in the northern part of California.

Sebring himself stated, "We aren't as yet definite as to just where we shall open our West Coast offices. As soon as we have made a survey of the territory we shall be happy to let the trade know our future plans in this regard.

"We do represent the Williams Manufacturing Company line in a large area of the Pacific Coast and may decide to make this the hub of our future plans in the West, but, we are not at all definite in this regard either, until we have covered the entire territory and discussed this with various jobbers whom we expect to contact while in the west."

At the present time Sebring can be contacted at the firm's offices, Bell Products Company, 2000 North Oakley Ave., this city, for any further details.

REMEMBER TO LOCK YOUR DOORS

GRAND RAPIDS, MICH. — Police here confiscated eighteen machines after Patrolman Victor Goddard, making his regular routine locked door inspection, discovered an open door and on looking inside — saw the eighteen machines.

Fifteen of the eighteen machines had money inside of them, according to Sgt. Ray McBride. Also in the

place were two other machines, still crated, which had an attached COD bill of \$700 made out in the name of Charles Orlikowski.

According to the police here an investigation is being continued to learn more about the "unlocked door" which revealed the eighteen machines.

"And that", as one coinman who sent the item in reports, "is one reason why everyone in the business should make sure that they lock all of their doors."

"Pioneer" Will Pioneer

1. The first part of the question is about the definition of a function. A function is a relation between a set of objects (the domain) and another set of objects (the codomain) such that each object in the domain is related to exactly one object in the codomain.

2. The second part of the question is about the domain and range of a function. The domain of a function is the set of all possible input values, and the range is the set of all possible output values.

3. The third part of the question is about the graph of a function. The graph of a function is a set of points in a coordinate plane, where the x-axis represents the domain and the y-axis represents the range.

4. The fourth part of the question is about the properties of a function. A function is said to be one-to-one if each element in the domain is mapped to a unique element in the codomain. A function is said to be onto if every element in the codomain is mapped to by at least one element in the domain.

5. The fifth part of the question is about the composition of functions. The composition of two functions f and g is a new function $g \circ f$ defined by $(g \circ f)(x) = g(f(x))$.

6. The sixth part of the question is about the inverse of a function. The inverse of a function f is a function f^{-1} such that $f^{-1}(f(x)) = x$ and $f(f^{-1}(y)) = y$.

7. The seventh part of the question is about the properties of the inverse of a function. The inverse of a function exists if and only if the function is one-to-one and onto.

AMI ADDS NEW 2-STORY BLDG. TO PRESENT FACTORY

CHICAGO — DeWitt (Doc) Eaton, General Sales Manager of AMI, reports that the Automatic Instrument Company factory in Grand Rapids, Michigan, is deep in the process of constructing a new two-story addition of about 12,500 square feet which will be used for the handling of phonograph cabinets and component parts.

It is expected that the building will be completed in thirty days. Work was started just four weeks ago.

The Automatic Instrument factory at Grand Rapids is under the general management of Harold E. Atchison, who formerly was associated with the Curtiss Candy Company for 18 years.

"The factory is always bright and clean. Everything is in spic and span order with production lines moving efficiently. A good family spirit prevails among the employees," Atchison stated.

CALIFORNIA MAKES CENTENNIAL PLANS

Coinmen Plan to Tie In For State's Biggest Celebration

WORLD'S FAIR IN LOS ANGELES

LOS ANGELES, CALIF. — Coinmen thruout this entire area are looking to the future with an eye on the forthcoming state celebrations to be held in 1949 and 1950. Many suggestions have already come in for spectacular and outstanding events to commemorate this state's entrance into the union and the discovery of gold. Thruout the state historians are lining up historic spots and are trying to retain the "old-time western atmosphere" to attract thousands of visitors to this area.

If a world's fair materializes it will be in the Los Angeles area, for the Legislature, when it appropriated \$5,000,000 for the Golden Gate International Exposition, was assured that any future fair would be in Southern California.

This is, naturally, of great interest to all coinmen who believe that it will mean the best oom in this state's history for arcades and for every type of coin operated equipment.

Many plans had already been made prior to the war. Now, with the war over, the 194g legislature designated 1950 as California centennial and world's fair year and has authorized creation of a committee and voted an appropriation for its expenses.

Columbia, one of the best preserved of the old gold rush towns, which has seen its population in the roaring, six-shooter days of 15,000 drop to its present 250 is being taken over as a State Park with the help of a \$50,000 appropriation from the Legislature, to be matched by private contributions.

SAM CASS APPOINTED PACKARD REG. MGR.

SAM T. CASS

INDIANAPOLIS — W. F. Struby, President of Packard Manufacturing Corp. announced the appointment of Sam T. Cass as Packard's Regional Manager in upper New York state, Pennsylvania and adjacent territory.

Mr. Struby had the following to say. "Sam Cass has had a wealth of experience in the automatic music business and we feel that Packard will be very ably represented in this territory."

THRU THE COIN CHUTE

CHICAGO CHATTER

Jack Nelson, well known to all coinmen and one of the most traveled men in the coinbiz resigns from Superior Products Company to establish his own firm. Jack is going to handle coin machines on a national distribution basis and is appointing district managers to cover the entire nation. He hints some real surprises in store for coinmen very soon . . . Nate Gottlieb returns from visiting brother Maurie and sister Sarah in Dallas, Tex. and finds his desk piled away up high with work . . . And Dave Gottlieb is tremendously elated over the very fine response which CMI has already received in its public relations drive. Many new associate members of CMI have been signed in at \$25 pr. And, according to Dave, more are coming in with each and every mail.

Al (Bell Products Co.) Sebring is all packed and ready to head for the West Coast the moment Mrs. Sebring is capable of again traveling. She has been ill with the flu. Announcement re: Bell Products expansion program will be forthcoming . . . Harold Perkins of American Amusement Co. is busy working out itineraries for the firm's salesmen who will soon be hitting the road to show their new game. The game is now in production . . . Al Roth, the up and coming advertising manager for O. D. Jennings & Co. back at his desk following a siege with the malaria bugs.

John Chrest of Exhibit Supply Co. back from his trip thru the southern and eastern states and already up to his ears with details for their first new game. In the meantime Percy Smith is buried deep in circular matter he is preparing for their gorgeous new line of arcade equipment. These machines are fast filling up the display room and are attracting considerable attention from all visitors . . . F. S. Hampton, operator from McPherson, Kans., seen around town making the rounds.

Sid Mittleman of American Coin Machine Co., Newark, N. J. seen about the town this past week and reported to have made some interesting deals . . . Gil Kitt dashes off to Des Moines to have a look around for suitable quarters for another office . . . Irv Webb who is the Rock-Ola distrib here all set with spacious quarters just a stone's throw from the Rock-Ola plant. Irv is all set to show the "phonograph of tomorrow" the moment it is ready for his showrooms . . . Al (World Wide Distribs) Stern has so many irons in the fire these days, he just can't sit still long enough to even open his mail. And, speaking of irons, that sensational electric soldering iron Al has

the "Ex" on is the cause of all this mail. Al reports that many an op has repeated his order after getting his first one.

Glad to hear that Harry Williams is up and around again following a siege of intestinal flu which kept him in bed for a few days. The Williams' plant is a beehive of callers, all eager for a look at the firm's new game, "Suspense". And from orders already reported to have been offered, sight unseen, looks like this game simply must click big . . . Harold Baker and his Baker Novelty Co. will soon be moving upstairs to their former offices (same building) which they leased to another firm during the war period. We can then, the report is, see some of the new Baker models which are already in the making . . . Plenty of interest around town to meet Capt. Thomas J. Callaghan of Bally Mfg. Co. who was the former head of the U. S. Secret Service in the midwest. Callaghan is now in charge of Bally's "Multiple Music" and everyone is trying to learn something about this, too.

Ed Hansen, salesmanager for Groetchen Tool Co., doesn't stay in town long enough to plant his feet solidly under his desk. The demand for those Groetchen Rotary Cookers has him on a merry-go-round rushing all over the country on installations and because of this he has been delayed in bringing out the new Columbias, altho the new models are now ready for showing . . . Pace Mfg. Co. who recently expanded their factory space are going at top speed and from all indications will be expanding some more to step up their production . . . DeWitt (Doc) Eaton of AMI reported down in Dallas, Tex. and the next minute over in New Orleans and then somewhere else again. Doc really seems to be among the fastest moving of the sales-managers in the coinbiz.

Some of the coinmen who came rushing in to hear more about Bally's "Multiple Music" simply lined George Jenkins, vice-president and general salesmanager of Bally up against his desk and told him, "C'mon, out with it — or else". George is reported to have "talked". Here's what he said, "All I can say, and it's plenty, is that Bally's 'Multiple Music' is more than a phonograph, it's more than automatic music — it's — well, it's Bally's 'Multiple Music'." And with that remark — Georgie is reported to have dashed into another conference in the new and attractive "lounge club room" where Art Garvey, Herb Jones and sixty-seven other guys barred the way. (So, you won't talk, hey, George?)

THRU THE COIN CHUTE

EASTERN FLASHES

Hotel accommodations and train reservations are harder to get in New York City than Nylon hose. The hotels continue to be jammed, causing visitors who arrive without reservations untold grief. And then when they try to get train tickets to get out of the city, they run into a stone wall. WE ADVISE ALL OUR FRIENDS WHO CONTEMPLATE VISITING NEW YORK TO MAKE SURE THEY HAVE HOTEL RESERVATIONS AND TRAIN RESERVATIONS COMING AND GOING.

Irv Blumenfeld, The General Vending Sales Co., Baltimore, Md. in town seeing George Ponser, Amusement Enterprises. Irv is the distributor for Amusement Enterprises' games in his territory. Blumenfeld relates that his servicemen who attended the Aireon school at Kansas City, studying the mechanical features of the Aireon phono, returned with exciting news about the phono. The three service men who attended the showing were Joseph Block, John Porter, Jr. and Arthur Fetter . . . Al Schlesinger, who is manufacturing the "Roll-A-Ball Barrel Roll" in town conferring with his associate, Jack Fitzgibbons of Jafco, Inc. . . . I. H. Rothstein, Banner Specialty Co., and Joe Ash, Active Amusement Machines Co., both at the Waldorf-Astoria attending the banquet Wednesday night, sponsored by the "46" Club. The banquet was held in support of the "March of Dimes" drive. Some of the greatest opera stars entertained.

Barney (Shugy) Sugeran, Runyon Sales Co., Newark, N. J. off to Miami for a short stay . . . Herman Perin, of this company, out of town doing some buying and selling . . . Sam Strahl, American Coin-A-Matic Machine Co., Pittsburgh, Pa. sweeps into town for a few days, and when he leaves, his son "Skippy" accompanies him. "Skippy" just got his release from the Army after serving more than two years. Sam expects that the boy will return to the University, altho he might decide to continue where he left off before the war as a professional band leader . . . Robert Van Santen, Century Industries, Seattle, Wash. in town for a month's vacation, and using the opportunity to conduct some business while here.

Jack Berman, Economy Supply Co., brings his wife and baby from Baltimore, and takes over the running of the company . . . Harry Kertman, Kertman Sales Co., Rochester, N. Y. in town and visits Charlie Polgaar of Tri-State Sales on Tenth Ave. Eddie Corrison and Ben

Becker, who will distribute Bally products thru-out New England as the Pioneer Distributing Co., Inc., conferring with Polgaar. Many visitors congratulate the boys. Among those seen here were Frank Thompson, Earl Backe of Merrick, L. I., Bill Popick of Buffalo Sales Co., Buffalo, N. Y.; Al Koondel of New London, Conn. and Jose Romero of Puerto Rico . . . Bob Slifer, sales manager of East Coast Sales and Distributing Co. (Rock-Ola distributors) home for over a week with an attack of the flu, returns to the office.

Harry Berger, West Side Distributing Co., runs up to New England to buy some phonos . . . Hymie Rosenberg, H. Rosenberg Co., away again on another Midwestern trip . . . Lou Wolcher, Advance Automatic Sales Co, San Francisco, Calif. breezes into town for a day, and right out again, heading for New Orleans . . . Charlie Sachs, Union Automatic Phono. Co., Brooklyn, N. Y. writes up from Miami he's enjoying himself so much, he doesn't want to return home . . . Meyer Marcus, The Mark-epp Co., Cleveland, O. visits Al Blendow at the International Mutoscope Corp. plant . . . There's a new automatic camera manufacturer breaking in New York City .

Jack Mitnick driving down to Miami Beach, Fla. in easy stages, if that's possible for the old "Georgia racer" . . . Jerry Karpman heading for California about the middle of the month, where he will establish himself . . . Bill Rabkin, International Mutoscope Corp. out of town . . . Mike Munves having a tremendous renovation job done on the Runyon Sales Co. of New York offices on 10th Avenue and 43rd Street. Offices will be complete this week . . . Harry Pearl and Dave Stern, East Coast Sales & Distributing Co. officials, drive in from Elizabeth, N. J. for a visit with their New York operator friends . . . Dave Margolin, Manhattan Phonograph Co., Aireon distributors here, will soon be ready for an announcement. Their offices almost ready for a viewing, after much remodeling and renovating . . . Tom Saffedy, Vogue Records, flies back to Detroit, after spending a week with his local distributors, Nat Cohn and Earl Winters.

Irv Orenstein and Dave Engels, Hercules Sales and Distributing Co., Newark, N. J. claim their offices and showrooms on Frelinghuysen Avenue compares with any distributor in the country for size and beautiful appointments . . . Jack Berger, Baltimore op, formerly of Newark, N. J., drops in to visit with Irv Morris, Active Amusement Machines Co., Newark, N. J.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Seems like good old California is again awakening to its leadership. Many years ago Californians talk about the way some of the finest games in the country were first developed out here and then brought east where they were manufactured into the nation's biggest hits. "Contact" is one outstanding example. And many will recall the "Lark" which came out of Inglewood. Then the late Bill Rowe did some tricks with a cigarette machine. And the list grows bigger and more impressive as we reminisce and dig back into the past to bring into the open the achievements of California coin machine men. Well, it looks like the coinmen here are coming into their own again and plan to bring the new and better ideas to the industry once more.

In music machine operation and ideas California is being given first place by all coinmen everywhere. Measured music and wired music and sponsored single channel music and combinations of music are clicking here in a big way. There are many who believe that this is the part of the world which will lead the post-war period into many more new musical ideas for the trade. And Californians are getting set to make music a very fine and outstanding business. Note how the music ops here have come together into an organization. Up in Oakland and over in San Francisco the boys are very well unified. So just watch the golden state give the trade some golden music ideas.

And now back to the present: Bill Wolf of California Amusement back from Chicago and all excited with some great news. Bill is now in the throes of planning a really sensational show here for the unveiling of the new AMI phonos and music accessories . . . Bill Happel of Badger Sales Co. reports that his firm recently appointed L. C. Gilberto of Mexico City as exclusive distrib of Standard Brand parts in Mexico. Senor Gilberto is setting up a large service dept for phono equipt in that city . . . Len Micon just back from a quick trip to San Francisco claims that he will soon have some good news on the Evans' line of machines.

Paul Laymon reports that he is feeling much better these days. Paul has been having some bad throat trouble. "And", says Paul, "we are expecting the new Bally Victory Special to arrive almost any day now". That's Bally's 1-ball F.P. . . . Al Armos of S'francisco seen walking along coinrow clutching the arm of Phil Robinson, Chicago Coin's factory rep. Phil's son, Lt. J. E. Robinson, just out of service is planning to open an office here. He's a C.P.A. . . . Col. Chuck Hastings of Spotlight Records reports that his firm will shortly release several Westerns by a well known radio artist . . . Gil W. Russell just out of the service and plugging records. Gil will be hearing wedding bells very soon.

Elky Ray, factory rep for D. Gottlieb & Co., is a very busy man these days watching his new big bldg. going up piece by piece. "The place will be a honey", he claims . . . Frank Berger of Berger Enterprises is a man of wide and varied talents. In addition to having one of the most modern disk

pressing plants in the country and distributing his own record labels he has just recently opened a combination restaurant and record store in Hollywood. He's expecting Frank, Jr., wh has been in the Navy for several years, home very soon. Junior has 12 major engagements under his belt and is eager now to get engaged in helping his dad with his business.

Jimmy Rutter is doing his part for returning servicemen. Jimmy invites 'em one and all to come into his shop and learn the coin machine repair business. Jimmy has already started several G.I.'s in the coinbiz. Jimmy not only gives them of his time but also allows them to use all of his equipment free of any charge. Our hat's off to you, Jimmy . . . Coinmen seen strolling along coinrow this past week: C. L. Jones of Phoenix, Ariz., Earl Gale, Frank Lamb, S. M. Tangye and I. Bernstein, local ops, Roy C. Jones of Inyokern, Ed Penn of San Pedro, H. D. McClure of San Gabriel, Lowell Ayres of Inglewood, Bill Wulf of Downey, Walter Leonnert of Bellflower and C. E. Peddicord of Anaheim.

Jack Gutshall, according to last reports, is still somewhere around the country talking about Exclusive and Excelsior records and doing very, very good . . . Nick Carter of Aireon phonos is dolling up his showrooms for "A" day . . . H. M. DeGovia of Dee's Service reports that his son, Hubert, just out of uniform, joined the firm and will give him much needed assistance with the large amount of work he now has on hand . . . Jean Minthorne much elated over the reaction to the new Seeburgs . . . Aubrey Stemler has swung into speedy action and the music ops look forward to a great report at the Feb. 4 meeting at the Embassy Hotel . . . Fred Gaunt is proving himself a really genial gent these days helping the boys cart their stuff right into their trailers.

Atomic Record Co., recently organized, have started out with some grand tunes. They appointed K & M Distributors to be their sales agents locally . . . Ray Powers says his "boss", Eddie Mape, is due in town this week and they will probably release some very interesting news to the trade . . . Charley Washburn, newly appointed regional mgr for Packard, is on a trip to San Francisco with the missus and when he returns is expected to announce some Packard distribs in this part of the world . . . Howard Courtney of the Courtney Records reports that they have just pressed, "some swell records for the juke box trade".

John Rough of Phonofilm reports a brisk demand from coinmen for more of the firm's new 16mm films . . . Recent meeting of AOLAC proved to be one of the most interesting many of the coinmen ever attended. Many vital subjects were freely and openly discussed. The problems of licenses and taxation generally occupied much attention. Holding locations was one big topic of discussion. "Curley" Robinson did a grand job presiding over this meeting. And, following the meeting, everyone enjoyed a light snack which was especially prepared for the members.

THRU THE COIN CHUTE

NEW ORLEANS

Eddie Ponder isn't worrying too much about that danged mule he bumped into on the highway in Arkansas, while driving from there en route to Florida. The only catch, of course, is the \$182 it cost Eddie for killin' this dangerous animule, to say nothin' of the repair bills he'll have to pay—for that mule sure did kick hard against Eddie's nice automobile . . . Larry Romaguera, another of Frank's brothers, just returned (January 27) from four years of real action in Italy and other parts of the European continent. The Purple Heart, Combat Medal and Bronze Star on his tunic speak for themselves. The former staff sergeant hasn't made any biz plans as yet but we're all hopin' that he'll team up with Frank at Southern Music Sales or, anyway, enter some phase of this phono business.

Things sure are lookin' pahlenty brighter over at Dixie Coin—in the secretarial line, Brunette Lucille Micelli who left Saturday has been replaced by fair haired Fay Slade. (But, all you Nola wolves—she's married. Funny how the gorgeous gals just don't stay around long—single.) . . . Home from the Aireon factory in Kansas City are O. C. Marshall, Oswald Fischer, Hulett Holmes and Charlie Wicker of the New Orleans' offices, as well as Malcolm Clark, Jackson representative. And all the boys with the glad tidings that the new Aireon machines will be rolling into town for all the music ops to see them verra, verra, verra soon.

Any resemblance between Bill Graham of F.A.B. (salesman extraordinaire) and Vic Mature (that Hollywood hearthrob) was noticed long ago by the feminine population of Nola. (Confidentially, Bill's a handsomer hunk of humanity than that there Mature man) . . . Recent additions to the Louisiana Coin Machine Service's staff: Ernie Bagur, who sold his route and is now shop foreman; serviceman Forrest Jones who is a Crockett, Tex. boy and who has just terminated six months in the Merchant Marine and was at one time associated with the Port Houston Iron Works in Houston, Tex.; and former Corporal Tommy Mayer, amplifier man, who served two years in Florida as a technician.

Tony Loria, prominent Wurlitzer op, back on his feet again after his recent illness and glad to meet the gang . . . Francis Forrest, who re-enlisted in the Army, has left everybody over at Southern Music Sales wondering, "what's the Army got that we ain't got?" . . . Ben Shear, the Panoram man, is really looking the gals over these days. He wants one to answer his phone when he's not in, which is pretty often these days. Not back from Chi but a few days—he's now headed for Biloxi, Miss. His new popcorn machines by the way are known as Vikings . . . Glad to hear that "Ducky" Brown, H.B.'s youngster, has recovered from the flu he contracted at his sister Marylin's wedding in Atlantic City, N. J. (Which proves nice Nola boys shouldn't go up there with those Jerseyites).

Lewis Shear, Ben's brother, still hasn't arrived home to join the staff here. But the welcome mat shouldn't be out too long. He sailed from Europe on January 7 . . . The Clyde Pittman's (he's the mechanic at F.A.B.) and their 4 year old son are up and around again after a triple attack of the flu. That was one of those rare "triple plays" . . . The New Orleans branch of the American Phonograph Cooperative, Ltd., under the verra capable management of Major Wallace F. Erwin, is all set up and ready for business.

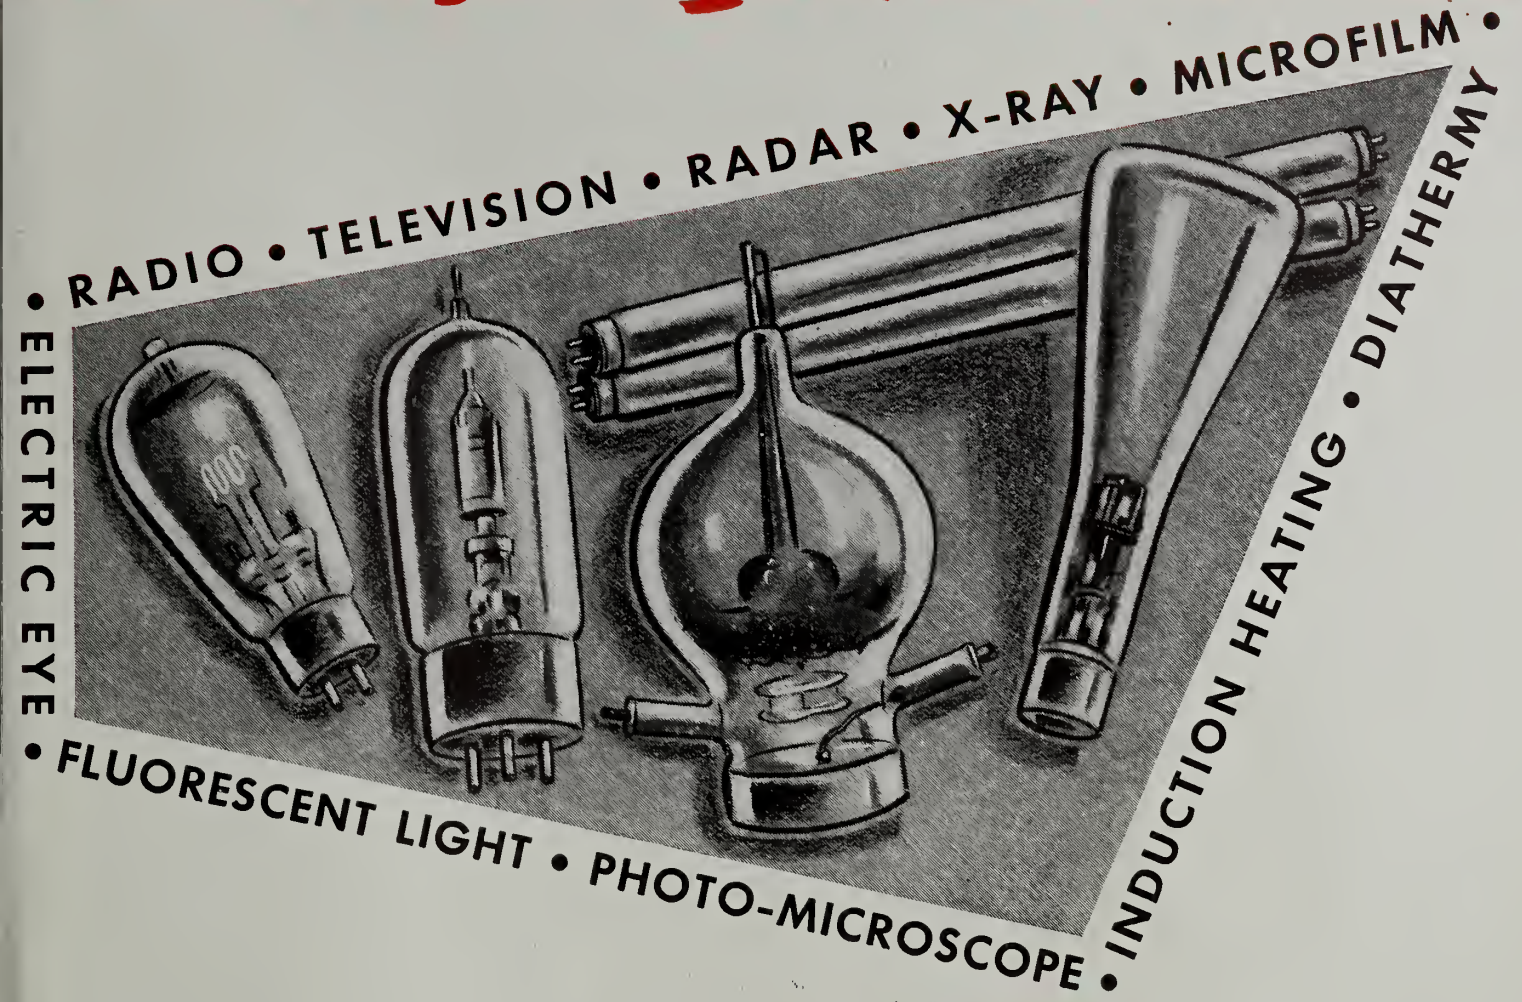

MINNEAPOLIS

Andy Oberg of Grand Forks in town this past week. His wife, Ella, is in the hospital recovering from pneumonia. Mrs. Oberg was so seriously ill that they had to rush her by ambulance from Grand Forks to Minneapolis. On the way the ambulance skidded and tipped over into a ditch. Mrs. Oberg wasn't hurt and is now recovering from the shock. (Here's hoping, Andy, that everything will prove out okay) . . . Don Bruington in town just to say "hello" to some of his friends. When you come to Sioux Falls to be sure and stop in at Bill Power's 820 Club for a really good steak—that you'll long remember . . . Theodore Haas in town this past week looking over some of the new equipment . . . Mrs. Marvin Kich on the way to spend some time with her husband who is still in Uncle Sam's Army.

Roy Foster and Jim Hooker of Sioux Falls, S. D., drove down to Minneapolis together. Their time was spent visiting all distribs and jobbers here in town. And they seemed to have a good time doing it, too . . . M. A. Tierney, who was hurt in an auto accident some weeks ago, is reported to be feeling better and ready to go to work once again . . . Irnie Klicker in town looking for new skiis for the family. And he's having trouble finding the right kind . . . Mr. and Mrs. J. S. Chichester in town and out so quick we did not even have a chance to greet 'em properly . . . Allen S. Greenstein, nephew of Hy Greenstein (Hy-G Amusement Co.) is now with the Hy-G firm . . . Sid Levin left England on the 28th of January and is expected to arrive in the U.S.A. very, very, soon.

Ted Bush and Ken Willis of Bush Distributing Co. are all hepped up over the fact that they will very soon be ready for a complete showing of the new Aireon phonos and music accessories. The boys have waited for "A" day for sometime . . . Bob Cross is back home from a very pleasant one month's vacation in California. Mrs. Cross and the children accompanied Bob on this motor trip and drove back while Bob took the train. What a gal . . . They tell us that Herman Paster is getting all set to show some new ideas very, very soon . . . Archie LaBeau is doing a grand job with the new Jennings Bronze Chief, Club Chief and Standard Chief and is getting plenty of action from the ops . . . Harold Lieberman is reported to be getting ready to announce new and bigger quarters any day now for his firm.

To This Age of *Electronic* Marvels

Aireon

CONTRIBUTES...

The Electronic Phonograph

**A Completely
 New Standard
 of Perfection In
 Coin-Operated
 Music
 Equipment**

Many features, never before possible in "automatic" phonographs, give the Aireon *Electronic* Phonograph a completely new standard of perfection in play-appeal, beauty of lighting and tone, automatic volume control, simplicity of servicing, trouble-free operation. The latest discoveries and developments of electronics have been applied to this coin-operated musical sensation for the pleasure of the player and the profit of the music operator.

Those prize locations you now have—and those you've always wanted—are safe and sure for the operator who offers Aireon *Electronic* Phonographs and Aireon electronic remote control equipment. Be the first to see and hear Aireon on "A Day". You'll see why the word that is going all around is—

FROM NOW ON...

Aireon

MANUFACTURING CORPORATION

ANSAS CITY • NEW YORK • CHICAGO • LOS ANGELES • SAN FRANCISCO • OKLAHOMA CITY • GREENWICH, CONN. • MEXICO, D.F. • SLATER, MO.

WHERE WILL YOU BE ON "A DAY"?

IT'S **MORE** THAN A PHONOGRAPH...

IT'S **MORE** THAN AUTOMATIC MUSIC...

Bally's

MULTIPLE MUSIC

Remember *Rocket*. Remember *Bumper*, Remember the first fabulous *Multiple*. Remember the giant forward strides which amusement operations took when Bally brought *Rocket*, *Bumper* and *Multiple* to the industry.

Today the music industry is on the eve of stepping years ahead with Bally's *Multiple Music* . . . more than a phonograph, more than automatic music . . . a brilliant blend of electronic science and merchandising principles that opens a new era in music operation. You'll want Bally's *Multiple Music*.
