Talking It Over

For a long time we've been tempted to publish letters and comments from our readers. Just a few days ago, one noted leader of the industry, happening to visit our offices, was shown some of the letters which are daily received by *The Cash Box* from all over the country. He was so impressed with some of these, he suggested that we publish all or part of them. We're adopting his suggestion and giving our readers this column for as long as the; desire it.

"Believe your suggestion regarding the $7\frac{1}{2}\phi$ coin (or even 7ϕ or 8ϕ coin) is one of the greatest for all industries. Everyone in business today should take time out to congratulate you on this proposal you made as far back at 1946. I've sent your editorials to my Senator and Congressman."

J. R., Texas

"Don't like the $7\frac{1}{2}$ ¢ coin because the fraction will cause plenty of bookkeeping trouble. Believe that a 7¢ or 8¢ coin would be much better for it would allow us to make change."

H. S., New York

"Did you stop to think all the money it would cost operators to change coin chutes if they decided to adopt the $7\frac{1}{2}$ ¢ coin?" O. E., Arizona

"Rep. Celler's bill on obscene records doesn't concern juke box ops. We've been operating music machines for about 15 years and never saw one in a juke box yet." M. T., Arkansas

"What happened to your idea for a 'National Credit Bureau'? This was one of the very best plans you ever proposed for this business."

S. P., New Jersey

"I thing your editorials are great. They've done more for this industry than anything ever before did. But, why not now go all out to help eliminate or cut down the wartime excise tax?"

W. B., Florida

"Keep up the good work. The $7\frac{1}{2}\phi$ coin will help the operator."

M. J., Washington, D. C.

"For some years you wrote about a 'National Public Relations Bureau' for the entire industry. We sure could use a good one today."

E. H., Georgia

"Now that shuffle games have knocked the legs out from under the shuffleboards, what's next?"

H. B., Massachusetts

"One thing I'll say about '*The Cash Box*,' you guys aren't afraid to come right into the open with any important subject for the industry. Take it from me, this is what makes a real magazine. Keep up the good work."

O. F., Illinois

SHUFFLE GAME DEMAND GROWS GREATER 10c Play Action Called "Biggest Reason"

From everywhere in the nation come reports that the shuffle games have most definitely established themselves as the leaders of the amusement game industry.

Instead of any slow-down of production, which many thought would occur at about this time, there has been a speed-up. Factory after factory has joined in the manufacture of shuffle games. All are working busily away in an effort to fill orders.

What brought about this tremendous success of the shuffle alley?

That question is now suddenly popping up among coinmen who were among the first to realize the possibilities of the shuffle game, and were also among the very first buyers of these games.

It seems, then, that many operators just "took a chance", as they now express themselves, regarding the possibility of the shuffle game meeting with the approval of the general public.

Those ops, then, who just "took a chance", are certainly to be considered extremely far-seeing individuals. They perfectly understood their players, and knew what their players would most enjoy.

Yet, as operator after operator says, "It's the ten cent play action that is changing us over to the shuffle games in location after location. The public", they claim, "don't think we are overcharging them, because we are giving them actual bowling, automatically scored, for only ten cents per game."

Yet when the shuffle games first came into being, it wasn't just the 10ϕ play action which started them off to the grand success which they have now achieved.

In fact, some distributors, and even some of the manufacturers, asked that the 10ϕ play featured be "toned down" and that the "play action" be most emphasized.

Since then, of course, the reverse has come into being. Tho the play action won out with the general public, the fact that the players are more than willing to invest a dime for each play of the machine, has also been brought heavily to the fore.

This 10ϕ play action is what saves the day for the operator. He more quickly amortizes the cost of his equipment and earns a decent profit on his investment as time goes on, as long as the play continues.

It was the 10ϕ play action which this publication boosted a long, long time ago, which is today bringing greater sales and better revenue to the entire industry. It is because of the dime play action, and also because the two player games get double ten cent action, that helps to boom gross intake for the average operator. This plan has brought about what can be called the greatest demand for any type of new amusement machine which has yet been introduced.

It must be remembered that back in 1932 the demand for pinballs reached a point where one factory after another plunged into their manufacture. The demand continued for years.

But, the one type of amusement machine after another was introduced during these years, the pinball remained at the very top. Demand for the five-balls reached record proportions up and above whatever other amusement machine was placed on the market.

The ray guns, the large sized baseball games, the football machines, and all the others, never reached the pinnacle achieved by the five-ball, or the old pinballs.

Today, in the case of the shuffle and rebound games, has such demand again been reached. These machines have hit the very top in demand all down the line.

The demand grows greater each day, as one new territory after another recognizes the many advantages of the shuffle and rebound games, over whatever other amusement equipment may already be in that territory.

A very potent example is the city of Philadelphia which was one of the latecomers to jump on shuffle games. It took months to get these going in the Philadelphia area. Now, as manufacturers report, it will take months to satisfy the demand.

This is also true in many other centers that have been among the latecomers to hop onto the shuffle game. The moment the machines get going in these areas, the demand grows so great that all the manufacturers, as a unit, are stymied to match it.

This great and growing demand for this new type game is definitely creating a new amusement era. Many believe it will lead to one of the most progressive eras in all the history of the amusement games industry.

"When My Stage Coach Reaches Heaven" (2:55) "Shine On Harvest Moon" (2:50)

GARWOOD VAN ORCH. (Modern 202)

(Modern 202) Ditty that packs a ton of promise for clicking in a big way on phonos throughout the land is this bit titled "When My Stage Coach Reaches Heaven." Song is in the new common earthy vein, and is styled in much the same manner as was the recently popular "Mule Train." It's a mellow, up tempo tune that rolls along in a sparkling pace. Vocal refrain by Bob Craig and the Tune Tailors is ex-tremely captivating, and should focus a bright spotlight on the balladeer once this bit gets around. Simulated gallop of horses in the background, coupled with some wonderful orches-tral patter brightens the side im-mensely. On the other end with "Shine On Harvest Moon," the gang comes back to turn in another excel-lent side. Top deck for the moola!

"God's Country" (3:08) "Spring Made A Fool Of Me" (2:57) BILL FARRELL (MGM 10652)

(MGM 10652) The deep vocal intonation of bal-ladeer Bill Farrell shows extremely well on this fresh pair, with the strains of "God's Country" and "Spring Made A Fool Of Me" headed music ops' way. Bill's pash pipes trill the lyrics of "God's Country" in smart style throughout, with some beautiful music by maestro Russ Case seeping thru the background. The coupling is another smooth song, with a set of romance lyrics added. Both ends are gravy for the moon-in-June crowd, and should be greeted with much fer-vor by Bill's growing clan of fans.

Folk & Western Stars Steal MOA Show Honors Calloway Fronts Big Ork

CHICAGO—This big town went right back to the country when the MOA show opened its doors this past Monday (Mar. 6). The country boys who came up here from the hills and plains just simply "stole the show" as many expressed it during the day and evening events of this big meet. Operators found themselves con-gratulating Red Foley and his "Chat-tanoogie Shoe Shine Boys" with Red doing some of the honors of shining shoes himself and keeping the Decca room as well as Syd Goldberg and Paul Cohen jumping with visitors. Nor was Red the lone representa-tive of the country boy delegation that attended the Music Operators of America first national meet. Tresent, too, were Pee Wee King, Tennessee Ernie, Hank Thompson, and the music ops' winner of the west-ern award for best of the year of '49, Jimmy Wakely and, last, but not least.

the great Eddy Arnold, winner of the folk award for '49.

The boys get together for pictures, for general palaver and for a chorus of some of the songs which they had recorded.

These country boys kept the show right on its toes all of the time that they were there. They were penning autograph after autograph and meet-ing with one and all in grand, con-genial and friendly country style.

It certainly was something to see these great folk and western artists all together at this one meet and hear the compliments which they received from operator after operator who came to shake their hands, thank them for their tunes and remerk what a for their tunes, and remark what a grand job they were doing for the juke box biz.

This is one show where the country boys just walked away with the honors.

NEW YORK—Cah Calloway, who for the past year and a half has been working with his four piece Cabaliers and occasionally with the seven man Cab Jivers unit, will reorganize his big band for a series of one nighters and theaters beginning in April. Tak-ing a cue from television, Calloway will also assemble a typical teevee type vaudeville review for the tour, according to personal manager Wil-liam Mittler. Reorganization was brought about

liam Mittler. Reorganization was brought about in line with the stress which top agen-cies and recording companies are plac-ing upon the return of big bands to public favor. Calloway's Cabaliers has been especially hot in recent months at such spots as the Beach-comber in Miami, the reopened Greenwich Village Inn in New York, and the Montmarte in Havana. Calloway's first release on London

calloway's first release on London records, with the full band, is scheduled for late this month.

Dick Steinberg

Executive Director, Music Guild of America . . . the New Jersey juke box operators' association SAYS:

"'C'est Si Bon' by Johnny Desmond on the MGM record sounds like great potential juke box money-maker". DICK STEINBERG

"The Third Man Theme" (2:45) "Poet & Peasant Rumbature" (2:46) IRVING FIELDS TRIO (RCA Victor 20-3698)

(RCA Victor 20-3698) Music styled in the Irving Fields manner, and the offering of "The Third Man Theme" and "Poet & Peas-ant Rumbature" in the offing for mu-sic ops. Top deck is a current click tune, with which music ops should be familiar. This rendition, with Irving tinkling the ivorys in bright style is given new life with a novel beat in-jected into the melody. The flip has the Fields' Trio going Latin, and offering an adaptation of a classic in rhumba tempo. Side should do ex-tremely well with the hip-swivel set. Both sides make for pleasurable lis-tening, and rate ops attention.

"You Left Me Everything But You" (2:55)

"My Reward" (3:14) THE INK SPOTS (Decca 24933)

(Decca 24933) • The Ink Spots come up with some new wax, and turn in a fair enough pair on this duo titled "You Left Me Everything But You" and "My Re-ward." Both sides feature the vocal refrain of Billy Kenny in the spot-light, with some wonderful orchestral patter drifting thru the background. Music is in the sentimental tender vein, and displays the group in fair enough manner. Both sides won't stop traffic — they should hold their own though.

"Stranger In The House" (3:10)

"Old MacDonald Had A Farm" (2:08) THE JAXSON SISTERS (Decca 24937)

(Decca 24937) • New vocal group on the wax horizon steps out on the right foot on their first Decca wax, with a bright future in the offing if this disk is any indication. Hailed The Jaxson Sisters, the vocal combo displays a tremendous amount of rich vocal harmony on this pair to warrant music ops avid listening attention. This platter titled "Stranger In The House" and "Old MacDonald Had A Farm" should certainly be a stepping stone for the group. Top deck is a cute melody which the gals handle in plu-perfect tones of vocal harmony. Infectious lilt to the tune makes you wanna listen all the more. The flip has the gang turning in a clever rendition of this standard winner. Both ends are tailor made for the juke box trade —ops should get with this one—but pronto!

"Silver Dollar" (2:45) "I'd've Baked A Cake" 2:44) EVE YOUNG (London 658)

(London 658) • Chirp Eve Young sets with her first sides on London and comes up with a pretty fair disking of "Silver Dollar" and "I'd've Baked A Cake." Both tunes are current hot hits, and should be well known to music ops. Vocal refrain by Eve on the sides is effective, with The Homesteaders join-ing in the background chant. This rendition should hold its own in the boxes, and might prove to be an at-tractive coin culler. Ops should lis-ten in. ten in.

"This Is Heaven To Me" (3:10) "You're My Treasure" (3:15) ALAN DALE (Columbia 38720)

ALAN DALE

• Here's one that truly is a sleeper! Balladeer Alan Dale, long missing from the phono spotlight, comes up with a pair of songs that have all the earmarks of becoming hot juke box numbers in no time at all. We haven't heard Allen in as good a voice in a long time. Top deck is the side we're ga-ga about.

"High In Sierra" (2:48)

"Ol' Man River" (2:54)

BOBBY COLT

(Admiral 1004)

(Admiral 1004) • The strong vocal allure of bal-ladeer Bobby Colt shows extremely well on this fresh side titled "High In Sierra". Ditty is a pash melody, weaving in a beguine tempo furnished by the Russ Case ork. Bobby's sin-cere vocal work on the side, a tender, plush romantic ode, gilds the deck with tones of beautiful music. It's a side that rates music ops avid listen-ing attention, and has a tremendous amount of possibility of catching on in a big way. The flip has Bobby do-ing another excellent job on the stand-ard "Ol' Man River." "High In Sierra" has the tint of juke-box silver about it.

"Sentimental Me" (2:56)

"Spaghetti Rag" (2:43)

makes you stop and listen. It's easy on the ears, and lingers long after

the first playing. Vocal on the side by balladeer Ronnie Deauville is

refrain of "Sentimental Me."

Titled "This Is Heaven To Me", the song acts a medium for Alan to really give out with all the luster and sincerity he can muster. It's a slow, earthy melody, with a set of compelling lyrics that tug at you as you listen. Ditty is offered in plush strains of beautiful, scintil-lating music, sparked by the baton of maestro Harry Zimmerman. Add to that the excellent vocal lift by a chorus, and ops have a side that can really take off and go. It's the type of tune that stays with you long after the first earful, and is sure to garner a ton of attention in music circles. The coupling slows down some and has Alan turning in another excellent perturning in another excellent per-formance on a sweet melodic ballad. Chorus vocal on the side adds to the luster of the tune too. "This Is Heaven To Me" shows as the side to get with—ops should load up on this one!

"Daddy's Little Girl" (3:07) "We'll Build A Bungalow" (2:58) DICK JURGENS ORCH.

(Columbia 38711) • Pair of sides by the Dick Jurgens

• Pair of sides by the Dick Jurgens ork, and the set up of the musical offering in "Daddy's Little Girl" and "We'll Build A Bungalow". Both tunes should be well known by music ops since they have been widely re-corded. Top deck, with Ray McIn-tosh on the vocal is a fair enough side that should hold its own. The flip has Al Galante and an ensemble wailing the cute novelty lyrics of this rhythm ballad. Both sides should earn their keep in the boxes, espe-cially so where the Jurgens fans gather. cially so gather.

"My Foolish Heart" (2:59) "Stay With The Happy People" (2:55) MARGARET WHITING (Capitol 934)

• Socko vocal work turned in by Maggie Whiting on this fresh pair should merit this platter a spot in ops machines. The gal's chirping on the top deck, "My Foolish Heart" is easy and effective, and should meet with ops' and fans' approval. Tune is a plush soothing ballad, and is currently rising in popularity. The flip has Maggie switching tempo to a light, mellow beat, with the refrain echoing wonderfully. Tune has a merry lilt to it that makes you wanna hum and sing along with it. Ork backing on both ends by maestro Frank DeVol rounds out the platter in excellent manner. Disk is a hot one.

"The Flying Red Horse Polka" (2:40)

"Express Polka" (2:45) VICTOR ZEMBRUSKI ORCH. (Continental 1287)

(Continental 1287) • Some polka wax in the offing with the echo of "The Flying Red Horse Polka" and "Express Polka" headed music ops way. Both sides are straight instrumentals, and show the Victor Zembruski ork off in fine manner. Top deck is a mellow up tempo item, with the gang whooping it up throughout the platter. It's a side that should do very well in those many polka locations. Flip is an-other hot polka tune with choo-choo sound effects to boot. Ops who have the spots should listen in—especially so with the top deck.

"The Cinderella Work Song" (2:34)

"I'd Like To Wrap You Up And Put You In My Pocket" (2:21) JUDY VALENTINE

JUDY VALENTINE (MGM 10657) • Chirp Judy Valentine, the lass that sounds more like Bonnie Baker than Bonnie herself did, comes up with a pair of sides that are power packed with the stuff that makes for juke box coin-winners. Both ends of this platter have the earmarks of "winner" about it, and should find a top spot in music ops machines in no time at all. Top deck, "The Cinderella Work Song" is from the Disney flicker "Cinderella", and promises to be big hit. Judy's wee vocal effort on the side is extremely comely and fascinat-ing, and makes for wonderful listen-ing pleasure. Song is a cute novelty item—music ops who haven't as yet gotten with this one should, by all means lend an ear in this direction. The flip shows just as well, and has Judy turning in a wonderful perform-ance on a cute romantic ballad. Both ends are musts in your machine.

"Dream A Little Longer" (3:09) "Daddy's Little Girl" (2:56) JOHNNY DESMOND (MGM 10658)

(MGM 10658) • The soothing vocal refrain of Johnny Desmond, currently riding high via his click "C'est Si Bon", is sure to mean added juke box plays for music ops with this one tagged "Dream A Little Longer". Tune is a slowly woven ballad, done up in easy, dreamy manner. Johnny's soft, yet enticing vocal delivery, makes the platter glow throughout. The flip is a current hot one, and has the piper turning in a wonderful job on "Daddy's Little Girl". Side that has all the promise is "Dream A Little Longer".

"Dearie" (2:48)

"Candy And Cake" (2:49) MARY ELLEN QUARTET and BOB SCOTT

(MGM 10654) (MGM 10654) • Pair of fair enough sides in the offing for music ops are these by the Mary Ellen Quartet and Bob Scott, titled "Dearie" and "Candy & Cake". Both tunes have been widely recorded and should be familiar to ops. Split boy-girl vocal on the pair is effective as it stands, with light instrumental backing rounding out the wax. Ops in the market for some filler material might lend an ear in this direction.

NEW YORK : The Gotham contingent is back from the MOA First Annual Convention in Chicago, with everybody still talking about the wonderful show it was. One of the most talked about stunts pulled at the meet was that of Decca Records in coming up with an in-the-flesh "Chattanoogie Shoe Shine Boy." Guests to the Decca rooms were treated to a free-shoe-shine, with Red Foley himself on hand at times to supply the music. In addition Decca came up with their "Peter Cottontail"— female species. "It's What's In THE CASH BOX That Counts"

"Peter Cottontail" (2:10) "Mr. Easter Bunny" (2:25) JIMMY WAKELY (Capitol 929) waxing of "Peter Cottontail." The ditty is designed for a big Easter play with Wakely in excellent voice for his solo duties. Song's clever lyrics remind a little of an-other seasonal tune, "Here Comes Santa Claus" that didn't do badly either. The wordage is very cute and the record is short enough to add those replays into a nice take for any op. Flipover, "Mr. Easter Bunny" is a mournful folk num-ber with Wakely's voice shining through again in the fashion that won him his No. 1 Western Artist standing on the 1949 poll. For our money, and for the ops who will want to buy this one by the bushel, it's the "Peter Cottontail" side that's the one to get with—and quick, like a rabbit.

JIMMY WAKELY

• The many fans of Jimmy Wakely—as well as the few who are new to this great recording ar-tist's appeal, are going to jump on the bandwagon with this smash

"Brother, Drop Dead (Boogie)" (2:25) "If You'll Come Back To Me" (2:50) **REDD STEWART** (King 843)

(King 843) • A strong contender for stellar honors this week is the "Brother, Drop Dead (Boogie)" rendition by Redd Stewart. The spinning reveals a boo-gie beat lively enough to have a uni-versal appeal aided by the pleasing warbling of Stewart. Slangy lyrics may aid it to catch on with a tune pull similar to "Tennessee Saturday Night." Ops should listen to this one, it may well be a comer. Reverse, "If You'll Come Back To Me" is a mourn-ful folk song with a blues coloring. Stewart shines in both.

"Just One More Yodel" (2:27) "The Smoke Went Up The Chimney Just The Same" (2:35) YODELING SLIM CLARK (Continental 8054)

• Clark has a bird-like quality to his • Clark has a bird-like quality to his yodeling technique that is far more arresting than the run-of-the-mill at-tempts that you hear along these lines. "Just One More Yodel" gives Clark ample space to try plenty of fancy tricks with his yodeling style and come up with pleasant listening. Counter, "The Smoke Went Up The Chimney Just The Same" is a bunk-house Western that repeats the title at the end of every stanza and in-vites the audience to sing along on the chorus. A little further yodeling adds spice and makes "Chimney" look like the big side. like the big side.

"Tears On My Pillow" (2:35) "I Won't Care A Hundred Years From Now" (2:45) CLYDE MOODY (King 848)

• Clyde Moody, King's great West-ern vocalist, has picked up a lot of fans along the wax trail and both these numbers have kicks in store for them and plenty of ammunition for rounding up some new recruits. "Tears On My Pillow" features very fine chirping that is only slightly hurt by the too-long instrumental chorus. Backside, "Hundred Years" is in clas-sic folk vein with another fine Moody showing along a somewhat formula line.

"Just Look At You Now" (2:40) "Guitar Waltz" (2:35) ZEKE CLEMENTS (MGM 10659)

(MGM 10659) • "Just Look At You Now" shows us Zeke Clements offering his vocal talents on a disk that is highlighted by the guitar work in the background. The introduction is a trifle drawn out with the wordage weak. No doubt about it, it's the zingy guitar that steals the show. "Guitar Waltz" pro-vides enjoyable listening from our fa-vorite buzz box. The popularity of this platter should be aided somewhat by the intensive zither flack filling the skies. "Guitar Waltz" could be a folksy "Third Man." Ops, give this one a hearing.

"I Offer You My Second Hand Heart" (2:38)

"I'm Kicking The Bucket Over You" (2:38)

HANK and FRANK (Calumbio 20675)

• Male duet of Hank & Frank com-bines for two hum-dinger sides on this platter. "I Offer You My Second Hand Heart" serves up lots of bounce, toe tapping rhythm, cute lyrics and a pleasant harmonica in the back-ground. "I'm Kicking The Bucket Over You" advances a male chorus with highly amusing lyrics. Both slices of wax will get a lot of play from any machine. Get with this one, ops! ops!

"Rebel Yell" (2:40) "My Red Headed Gal" (2:51) STUART WADE (Atlontic 723)

(Atlontic 723) • Upper deck, "Rebel Yell" is a nov-clty tune that starts out with the fam-ous title cry and intersperses it through the wax in the course of the spinning. By far the best moments in the course of the whirling are the male chorus bits and the Indian tom-tom arrangements. The number has great possibilities along the compul-sion format but Wade's version seems just a trifle too noisy for his spooning. "My Red Headed Gal" affords a bet-ter showcase for Wade's talents in a pleasant fox-trot with off chorus hum-ming by the singer.

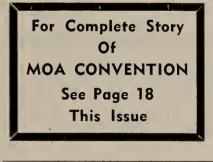

Jim Murray Named To **Capitol Executive Post**

HOLLYWOOD-Jim Murray, veteran platter executive and a recent executive head of RCA Victor Rec-ords, will join Capitol Records in the rosition of vice-president, to be effec-tive March 15.

Murray held the post with Victor for eight years; in assuming his new task he will be the first top-flight ex-ecutive from another major recording firm to join Capitol in the history of that diskery.

March 18, 1950

(Aloddin 3049B) • The great pipes of Amos Milburn are pitched in a most pleasing style for a real Dixieland Jazz rendition of "Johnson Rag," one of the hottest tunes in the country at this time. This has all the trimmings of a click version and another hit for Milburn. The toe-tapping rhythm is sensational; this disk will definitely stir action and will make you want to get in there and "rag" it yourself. Counterside, "Walking Blues," is another A.M. vocal that shows very clever lyrics with a strong appeal and provides a great opportunity for a little plaintive spooning by the Aladdin star.

"Hop 'N' Twist" (2:30) "Waxie Maxie Boogie" (2:25) FRANK "FLOORSHOW" CULLEY ORCH. (Atlantic 902)

(Atlontic 902) • Both sides of this record are good, with "Hop 'N' Twist" gaining only a slight edge in this double-barreled platter. Instrumental upper side features a barrelhouse piano with tympany backing. Culley's very fine sax screams for attention and gets it; jam session shouting with the piano chorus creates an atmosphere of frantic music with a clever, slow fade out from Culley. The disk makes excellent juke box material. "Waxie Maxie Boogie," the reverse, is best described as a raw slice of 52nd street removed from its former haunt and pressed into a hot biscuit. Everyone breaks loose, and the crowd that calls 52nd street their stamping grounds should feel right at home with this duo. (King 5750) • "Shame On You" is a slow moving ballad that airs Cliff Butler using some tricky vocal stunts with a quivering delivery. Lyrics is strong and the accompaniment commands as much attention as the chirping. The record asks for an audience and ops might give it a tumble. Reverse, "I Dream Such Foolish Dreams," has a piano introduction and another Butler vocal weaving its way throughout. Somehow, this number doesn't quite come off. "Shame On You" takes all the merit that the record has to offer.

"Mistrustin' Blues" (2:42) "Misery" (2:30) LITTLE ESTHER ond MEL WALKER (Savoy 735)

(Sovoy 735) • Little Esther is presently hot as a pistol in juke boxes everywhere and you can never tell when one of her platters is going to turn into another smash. "Mistrustin' Blues" gets an added dash of sauce with a chorus that has Mel Walker joining the thrush in excellent fashion. Disk features a blues intro that is inviting, and the strong tempo of a low-down beat winding in and around Little Esther's vocalizing. "Misery" shows Esther again in a torchy, effective ballad with a lot of shmaltz. Walker turns in a very good job. If there was such a thing as a "Jazz 'N' Blues" sleeper this disk would grab it!!

MGM Records Mark Third Anniversary

NEW YORK—This month marks the third anniversary of M-G-M Rec-rds. To commemorate the first re-lease of M-G-M Records in mid-March of 1947, all businesses within the Loew's network have planned special M-G-M Records celebrations. While most of these will be confined to the music business itself, the public will be brought into the anniversary by Loew's Theatres, which have planned special M-G-M Records displays in their lobbies for the month. The first three years of the diskery.

Loew's Theatres, which have planted special M-G-M Records displays in their lobbies for the month. The first three years of the diskery, it is felt, have been impressive ones. Working closely with sister-compan-ies like M-G-M Pictures, Loew's The-atres, New York's radio station, WMGM and affiliated music publish-ing houses, M-G-M Records has es-tablished itself firmly in the record merchandising field. The company has acquired in its three years several cutstanding artists whose reputations have been built almost exclusively on the M-G-M label. Notable among these are Billy Eckstine, Art Mooney, Blue Barron, George Shearing, Hank Williams, Bill Farrell, and Art Lund. Many artists with established repu-tations have also joined the label since its inception, including names like Johnny Desmond, Russ Case, Tommy Tucker, Noro Morales, David Rose, Jack Fina, Ivory Joe Hunter, Helen Forrest, Bob Wills and M-G-M film stars like Betty Garrett, Judy Garland, Kathryn Grayson, Lena Horne and Jimmy Durante. The disk-ery also operates an artist system much like M-G-M Picture's system, in which young artists with potential are given personality build-ups. Not-able among such younger artists affili-ated with the label are Derry Falli-gant, Doris Drew, Jane Harvey, and Judy Valentine. The M-G-M Waxery has also de-veloped the soundtrack album, trans-

Judy Valentine. The M-G-M Waxery has also de-veloped the soundtrack album, trans-fering scores from M-G-M film musi-cals directly from sound-tracks to rec-ords. This type of "original-cast" recording is almost exclusive with M-G-M Records.

The company was among the first to transfer and press a full catalog on non-breakable material. It is also currently pressing both 78 and 33 1/3 r.p.m. records.

r.p.m. records. The diskery has organized a closely-knit distributing network of independ-ent distributor agencies over the three years of its operation. These have been worked tightly into the na-tional publicity operations of both M-G-M Records and other Loew's en-terprises like Loew's Theatres. The national publicity office of the diskery has made a policy of training all dis-tributors in promotional and exploi-tational activities that utilize the tested ideas of motion picture exploi-

Dana Pacts Sam Donahue Ork. Names Cosnat Distrib For New York Area

NEW YORK—Walter Dana, presi-dent of Dana Records, Inc., this past week announced the signing of Sam Donahue orchestra to a recording con-tract with the firm. Donahue cut his first four sides for the Dana firm his past week, with two set for re-lease this week. Sides set to be issued his week are "If We Could Be A-L-O-N-E" and "Go To Sleep, Go To Sleep, Go To Sleep," featuring musical comedy stars Tina Prescott and George Irving on the vocals. Donahue is slated for the New York Paramount Theatre, starting March 29th, and will record again after closing there.

Dana also announced the appoint-ment of Cosnat Distributors, this city, as sole distributor for the Dana label, in the New York and New Jersey areas.

tation. Its plan has been to inject movie showmanship into record mer-chandising. M-G-M's national public-ity office prepares broadsides, press manuals on artists, sales manuals, and other distributor-dealer aids for individual distributors in most cases, adapting such material to the indi-vidual needs of the specific distribu-tor and localizing its content for the specific area involved. In addition, the diskery maintains a regularly-is-sued record-reviewers' gossip maga-zine called "Disk Data" and a bi-weekly bulletin called "New Releases from M-G-M" which reviews current recording activities and releases. In a statement in New York last week, Frank B. Walker, General Man-ager of M-G-M Records, expressed unbounded optimism in the company's future. He stated that during its last year of operation, M-G-M Records had "dropped its diaper" and had firmly established itself as a "major force in the record field."

Current hot platters for the Coral thrush are "Ol' Man Mose" and "How Come You Do Me Like You Do."

Harry Meyerson To Coast

NEW YORK — Harry Meyerson, artists and repertoire director for M-G-M Records, entrained for Hol-lywood on Friday (March 10). New Wurlitzer Model 1250 Phono Allows Use **Of 48 Seven Inch Disks For Greater Selectivity**

NEW YORK—Ed Wurgler, gen-eral sales manager for the Rudolph Wurlitzer Company, North Tona-wanda, N. Y., this past week re-vealed the development of a new and interesting feature which can be adapted to the new Model 1250 Wur-litzer phonograph. "The record selector on the phono-graph indicated that selections could be programmed in various sections such as popular, waltz, fox trot, folk, polka, etc. Such a correlation has been somewhat difficult using 78 RPM rec-crds, and playing the top side on num-bers one through twenty-four, and the bottom side of twenty-five through forty-eight. It made it almost nec-essary to use each category twice, allowing only half as many selection groups." It was disclosed that with the use of the seven-inch records, this condi-tion has been corrected. The 1250 phonograph can use two seven inch records back to back, and play the top side of each disk on the over-under arms of the juke box. Thus by using two records in but one tray, the operator is able to install two top sides and play them so that they will fall properly into any category will fall properly into any category will fall properly into any category on the selector. It would not neces-sarily be the plan to use forty-eight records would be satisfactory using the top and bottom of a single disk. However, the possibility of such an arrangement in one or more trays of

limited selection of popular, classical and folk tunes on the seven-inch press-ings. "We feel," Mr. Wurgler continued, "that this application of seven inch records to the phonographs should prove unusually interesting to the operator who is planning a conver-sion of his machines from 78 RPM's, and that it should be of particular interest to the record companies, in view of the fact it would make it pos-sible for an operator to use anywhere from twenty-four, which is the basic necessity, to forty-eight seven inch records on a single machine." The new innovation announced by the Wurlitzer firm is seen in these quarters as allowing greater selectiv-ity on the juke-box, and at the same time, giving juke box fans greater incentive for playing the phonograph, directly at the so-called "point of sale."

RECORD INDUSTRY HAILS MOA MEET AS SMASH SUCCESS

CHICAGO—The phonograph rec-ord industry and its allied fields en masse hailed this past week's First Annual Convention of the Music Op-erators of America, (MOA) as a smash success, and emphatically ap-plauded the organization for its won-derful work in making such a meeting possible possible. Record executives from every

Record executives from every com-pany, both major and independent, came away well satisfied with the re-sults they individually met with at the convention. Virtually every recording company in the association was represented, in addition to many major music pub-lishers, recording artists and record distributors. All came from every section of the nation to gather to-gether with the music operators for this convention. One of the highlights of the com-

this convention. One of the highlights of the con-vention was the passing of a resolu-tion at a meeting of the music opera-tors and the executive committee was to accept recording companies, music publishers, phonograph needle com-panies, record distributors and phono-graph manufacturers as associate members. This associate membership would lend the support and coopera-tion to MOA but would carry no voting powers. voting powers.

The meeting also unanimously agreed upon barring the use of ob-scene or pornographic recordings from juke boxes. This latter plank in the MOA platform met with an im-mediate approval of the entire meeting.

Among the many topics of discus-sion that were widely applauded by all in attendance were the speeches on merchandising music, made by Hirsch de LaViez, chairman on the Washington Music Guild; and Dick Steinberg, chairman of the Music Guild of America, Newark, N. J. Rec-ord executives presented their mutual problems to the operators at open forum discussions. The MOA meet, which played to

The MOA meet, which played to the largest music operator attendance in the history of any similar show, evoked the following statement from Arnold Shaw, director of advertising and promotion for the Leeds Music Publishing Company, and general manager of Duchess Music Corp., "It was a revelation to see what the music publishing industry has been missing by not attending conventions of this type heretofore."

of this type heretofore." The preview of the 20th Century-Fox production "Wabash Avenue," sponsored by 20th Century-Fox and Leo Feist, Inc., was received by music operators with wide approval and enthusiasm. Lester Sims, manager of the Chicago branch of the Feist music firm, was responsible for the arrange-ments in the Windy City. Coral and Decca Records set the pace of the show with their stunts. Models were walking around dressed in Easter bunny costumes, plugging their Decca recording of "Peter Cot-tontail." Still another model hypoed "Lock Stock & Barrel," in addition to a shoe shine stand in the Decca room with a "Chattanoogie Shoe Shine Boy" passing out shoe-shines to all the guests.

Paul Southard, executive vice-presi-dent of Columbia Records was on hand to represent the latter firm. Pete Doraine of Abbey Records stated, "I wouldn't have missed this show for a million bucks." Tremen-dous interest shown to Pete's "Piano Roll Blues" and "Why Do They Al-ways Say No." Syd Nathan of King Records, and A. B. by Jinniy Durance and Lance and son. If this First Convention of the Music Operators of America is an in-dication, following meetings are sure to progress and meet with further acceptance, and win for the organi-zation a solid niche in the music op-erating field and in the recording and publishing fields as well.

MOA SHOW ATTENDANCE FAR **BEYOND DIRECTORS' EXPECTATIONS**

Over 500 Of Nation's Juke Box Ops Register First Day. Meetings And Displays Keep Crowds Moving. Leaders Acclaim Show.

GEORGE A. MILLER, National Chairman

CHICAGO—Even the most opti-mistic predictions which were made for the MOA (Music Operators Of America) first national convention, prior to the opening of the doors at the Palmer House here on Monday, March 6, were completely upset when operators began to register, from Sunday evening and far into Monday as well as all day Tuesday, to be present at this first national meeting of the nation's juke box ops. Over 500 registered the very first day and the Board of Directors of MOA were happily overwhelmed. As

MOA were happily overwhelmed. As one of these men stated, "We had called this as a general national forum and, at first, hadn't planned for exhibits of any kind.

"The manufacturers of records,

supplies and phonographs asked for display space and this was incor-porated into the meeting. It was a non-profit affair from first to last.

porated into the meeting. It was a non-profit affair from first to last. "We would have been satisfied with an attendance of about 250 of the leading juke box men. But, even be-fore 6:00 P.M., Monday evening, we found that we had already passed the 500 mark and that more operators were still coming to the meeting." The meetings were held during the morning hours with the convention given over to the displays beginning at 2 P.M. each afternoon and lasting until 10 each evening. George A. Miller, chairman of the board of directors of MOA, greeted the men the very first Monday morn-ing meeting in his opening speech. He was cognizant of the honor granted MOA by 20th Century Fox pictures. This firm thru Leo Feist,

Inc., and *The Cash Box* had extended an invitation to 500 of the MOA mem-bers to attend a world premiere sneak prevue of their latest musical pic, "Wabash Avenue." His speech on depreciation of phonos and other tax matters clicked tremendously and was received with much applause. The A M I mechanism has won the confidence and respect of every music operator. Designed to change records with lightning speed and turn any record over to play either side, it has gloriously stood the test of time. It places operator's satisfaction above manufacturer's convenience. It gives the public what it wants and at the same time is built for the operator. It stays in order. It plays either side of the record in the way a record should be played: revolving horizontally with a single pickup and needle

riding the grooves by gravity. This is the way records are made to be played, intended to be played! Since one-side play is now obsolete, it is important that you select your new machines on the basis of which record changing mechanism does the best job playing both sides. AMI is the originator of two-sided record playing, with over 20 years experience building this type of equipment. The "C's" record changer is the one thoroughly field proven mechanism of its kind. ACCLAIMED CANADIAN GOVT. PERMITS IMPORT OF COIN GAMES **Music Machines Due For Okay In July**

MONTREAL, CANADA-The coin machine industry of this country received the greatest news in years this past week, when they were informed by their government they would be permitted once again to import coin operated games. It was stated that permission to import automatic music machines will be coming along soon, probably in July.

Since the end of the war Canadian firms have been forbidden to bring in any coin operated equipment, due to the shortage of the dollar. With conditions on the up-grade the past years, the government worked out a method of limited importation. Each wholesaler is allowed a certain amount of dollars to spend out of Canada for coin operated pinballs.

The ban on coin operated equipment imports has worked a tremen-dous hardship on Canadian coinmen thruout the past years. Wholesalers and operators could only utilize what-ever machines were on hand. The results were that a number of wholesaling firms had to close their doors, and operators were unable to give the public any of the newer machines for variety of play. A price condition ex-isted comparable to that in the United States during the war. Whatever equipment was offered for sale was quoted at fantastic prices.

With the ban lifted this past week, wholesalers will now be able to bring in limited amounts of pinball machines based on a quota of American dollars. (Ed. Note: It is interesting to note that the Customs Department is using the Price Lists of "The Cash Box" as their official medium for determining the prices of these machines.)

For many years the Canadian market has been one of the best outlets for used machines for American firms. With this market now open firms. once again, coinmen in the United States look forward to once again enjoying a lively export business to one of its best foreign markets.

South African Coinmen To Attend CMI Show In June

CHICAGO-Two coin machine operators are planning to come half way around the world to attend CMI's annual coin machine show to be held June 26, 27, and 28 at the Stevens Hotel in Chicago, stated Dave Gottlieb, CMI show chairman.

They are the Frazer brothers, Clary and Ralph, who operate amusement games in their restaurant, Ralph & Clary's Hamburger Hut, Ltd., in Pretoria, South Africa. "You can plan on three of us being there as Ralph will be married by then," Clary Frazer wrote Coin Machine Institute in Chicago. "Tell our friends we will see them at the Coin Machine Institute Show."

The Frazer letter was made public by Dave Gottlieb, who said with visitors already coming from South Africa and Mexico, "It begins to look like old times when the industry was doing business all over the world." Gottlieb said he expected operators from the Philippines to also attend.

Gottlieb stressed that operators from all over the United States are also looking to the CMI show this summer as part of their vacation plans. Many are planning to bring their families, he added.

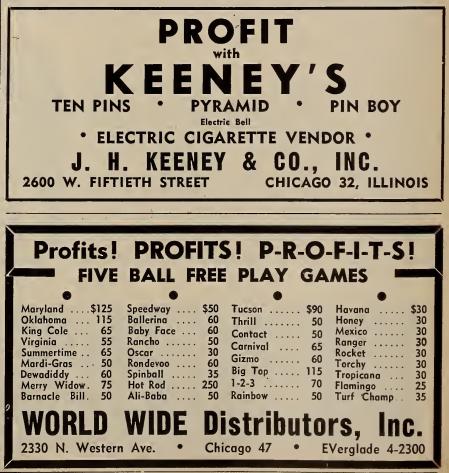

The CMI show chairman pointed cut that the huge convention hall at the Stevens is air conditioned. "It is also the largest space ever engaged for a Coin Machine Show and early indications are that this will be the biggest show in CMI history," he said. "It will certainly bring out the greatest number of new manufacturers, who have entered the coin machine field since the war."

CMI is expected to announce shortly a special committee to arrange for entertainment for wives accompanying their husbands and to arrange for tickets to baseball games and other sporting events.

Final allotment of space for exhibitors will begin April 1, the show committee announced.

"Remember," Gottlieb added, "There is only one CMI show and that is at the Hotel Stevens, June 26, 27, and 28."

CHICAGO—There will be no repe-tition to the operator's eyes as he passes the rows of exhibts at the ACMMA Show, Hotel Sherman, Chi-cago, May 22, 23, 24, according to a statement by Herb Jones president of the association. Practically every type of coin operated machine will be exhibited. There will be no repeti-tion instead a complete diversified coin machine line.

"The Show Committee has made it a 'must' that only the regular floor space of the mezzanine and exhibit hall will be used," stated Jones. "No attempt will be made to place exhibit booths in every nook and cranny, as this would only add confusion. Show visitors like to follow a regular path through a show where each exhibit comes to their attention as they pass through.

"Edward C. Bowman, Show Exhibit Manager, who has a long line of successful national shows to his credit, has found through experience that a too crowded exhibit is never successful. Bowman is setting up a clean-cut registration system so the cperators, upon arriving at the show, will not have to wait hours for their exhibt badge and other credentials to get into the show proper. A fully trained staff will be on hand during the show to help out the operator, whatever his needs may be."

The Hospitality Committee, headed by Vince Shay, has set up a program whereby all operators' room reservations will be taken care of accurately and immediately upon receipt of their show!"

requests. If by chance you have not made room reservations, it would be a good idea to do so now as the latest report from the Hospitality Commit-tee is that the rooms are filling up very fast. Herb Jones, whose background in the coin machine field is known by everyone, especially his ingenuity for planning exhibts, is going all out to make this show the most orderly, the most constructive and the most sys-

most constructive and the most systematic ever set up by the coin machine industry.

"A diversified line of coin operated equipment is assured at the ACMMA show," Jones said, "because of the fact that manufacturers from all over the United States have already ordered exhibit space, and there will be, for example, hot coffee machines, phonographs shoe shine machines, arcade equipment, one-balls, five-balls, bells, coin operated punchboards and even a horse that walks, canters or gallops upon insertion of a coin. Of course, you may ride this horse, too. "The aim of ACMMA is to present

a real show to the operator who takes time off from his business to come to Chicago, whereby he may be able to walk through the exhibit halls and see all types of coin operated and related products and give him the opportunity to freshen up or replace his line with new moneymaking products.

"The ACMMA Show will again bring to the operator a chance to attend a real-old-fashioned coin machine

End Of Coal Strike Greeted By Wurlitzer Shipping Conversion **All In Coin Machine Industry**

NEW YORK-The coin machine in-NEW YORK—The coin machine in-dustry, like all others, heaved a col-lective sigh upon hearing of the set-tlement of the long drawn-out strike in the coal industry. Not only were the many coin machine manufactur-ing concerner of facted by the concrement ing concerns affected by the emergency regulations written by every commu-nity, resulting in curtailment of pro-

duction, and in some cases complete shut-downs, but the allied branches of the business were suffering considerable loss of business. Operators in coal mining areas (and wholesalers who sold them equipment) were practically at a standstill.

Some factories, where it was possible, converted its heating equipment into oil. However, most factories weren't that fortunate.

Most coin factories at this time are featuring hit games and phonographs, and it was with high glee that they received the good news of the end of the strike. Within a day or so after miners returned to their work, most regulations limiting use of coal was rescinded. Factories returned to full day employment, and machines are now coming along in much better quantities.

Operators in mine areas expect their collections to return to normal within a short period, and now are clamoring for new games and phonos.

Full employment in the coal industry usually means full employment in steel, automobiles, and railroads, which keep steady payrolls going into the pockets of the entire country's employees. With great music equipment and records, sensational amusement games, coinmen are anticipating one of the greatest spring and summer seasons ever enjoyed in many, many vears.

Kits For 33¹/₃ And 45 RPM **Record Adaption**

A. D. PALMER, JR.

NORTH TONAWANDA, N.Y.-A. D. Palmer, Jr., advertising and sales promotion manager, The Rudolph Wurlitzer Company, this city, announced this week that the firm is shipping conversion kits for both 33 1/3 and 45 RPM record adaption.

"We are particularly pleased about this condition," stated Palmer, "in view of the fact that production is four to six weeks ahead of previous estimates."

Production of the new model 1250 is proceeding satisfactorily, he stated, and distributors will soon be receiving shipments in good quantity. The

1250 is so constructed that it can be converted easily, and cheaply to the various speed records. The price on the kit, Palmer noted, is still under the \$10 price as previously promised. It is to be sold to operators for \$8.75.

"Ed Wurgler has informed me" continued Palmer, "that our distributors have received a very fine reception from operators for these conversion kits, and have already placed quite a number of orders."

Meanwhile, he said, orders for the new 1250 continue to flock in. "Distributors have been impatient over our inability to ship in large quantities sufficient to meet their immediate needs" stated Palmer. "It certainly is a pleasant feeling to know that the 1250 has been accepted so readily by the music operators. Everyone in the trade knows when Wurlitzer gets that production line going, we'll be able to meet any demand. Probably when your readers see this statement, our distributors will have sufficient equipment on hand for their immediate needs, and the flow of machines from our production line will continue to everyone's satisfaction."

The needle firms, record manufac-turers and distributors, and the many others who featured room displays were busy all during the afternoon and evening of the meet.

On Tuesday morning, operators listened to Ed Mehren, chairman of the American Institute for Intermediate Coinage, and president of the Squirt Beverage Company. Mehren spoke about the movement now being pressed for the minting of a $2\frac{1}{2}c$ and a $7\frac{1}{2}c$ coin. His recommendations to the music operators, were to take the the music operators were to take the following steps:

EXPECTATIONS

Mehren paid tribute to *The Cash Box*, stating that it was the first pub-lication to present the need for inter-mediate coinage in May, 1946, long before he ever thought of it.

John Haddock, president of AMI, Inc., spoke to the group, stating his firm was happy to work with MOA, and stressed the need for cooperation among manufacturers, distribu-tors, jobbers and operators. In an-swering a question from the floor, Haddock informed the body that a plan to lift the present excise tax was being worked on.

Other speakers on Wednesday, were: Hirsh de LaViez, president of the Washington Music Guild; Dick Steinberg, executive director of Mu-sic Guild of New Jersey; representa-tives of the trade press; and presen-tation of prizes won by operators in the contest conducted by Permo. Almost everyone was pleasantly

Almost everyone was pleasantly surprised at the numbers of men who attended the meetings. Many record manufacturers were heard to state that this was just what they wanted, "A place where they could meet only the juke box operators." Others were much of the same opinion. It is generally believed, following

the meetings, as well as the radio shows which entertained those who attended the MOA convention that this first national convention of the Music Operators of America had been successful far beyond predictions which had been made for it.

EASTERN FLASHES

Coinmen are known as a hardy lot. They overcome obstacles that would cause 99% of business men in other trades to throw up their hands. They fight their way thru high prices of equipment, low collections, high overheads, poor mechanical equipment, bad buys, strikes, coal shortages, high licenses, taxes, etc., etc. However, many of the city's coinmen were laid low this past week by ol' man "flu." The unusually unstable weather we've been having—one day cold, the next warm—has taken its toll among coinrow's personnel.

Mike Munves home all week nursing a very bad cold (and when Mike is kept away from the office, you know he's sick). Joe Munves supervising the completion of the firm's new offices during Mike's absence. These quarters will be a show place when completed.... Harry Berger, West Side Distributing, back on the job after a week's sickness, but still mighty wobbly on his pins. ... Mendy Mendelson, business manager of the association of amusement games operators, returns to his desk—also a victim of the virus bug. Mendy notifying all games ops of the meeting at the Broadway Central Hotel on Monday, March 13. Large attendance expected, as many new members have been signed up since its last meeting. In addition, March 15 is new fiscal year for licenses, and the meeting will be very important for ops. Louis Rosenberg, president, and Teddy Blatt, attorney, will have important information to relay to its members.

Al Denver, MOA v-p, who flew to Chicago from a vacation in Miami, returns to the big city, but relates he will try to inveigle another few weeks down south before the season is over. . . Sidney Levine, national council for MOA, now leaves for the sunny climes and hospitable natives of Miami. . . Which reminds us that a number of our town's citizens are relaxing down there right now. Max Weiss of Brooklyn, trying his skill at "Gin" and "Canasta" with the world's champ (?) Willie (Little Napolean) Blatt. . . Larry Serlin and his family vacationing for a while in Miami, while his partner, Lou Price, handles the biz. . . Etta Brodsky, Young Distributing, recalls that she's been associated with Wurlitzer's local distributors for ten years—that makes it ten years the several Wurlitzer firms have had the best secy. in the biz. . . Joe Young finds his move to Tenth Avenue one of the best he's ever made. Ops keep flocking into the building, resulting in greatly increased parts biz. He's to be complimented on the novel arrangement of his window display. Three windows facing the street have Venetian Blinds—two remain down completely, and the center one is drawn sufficiently to frame the Wurlitzer 1250.

MIAMI MURMURS

Joe Mangone, All Coin Amusement Machine Co., who has been on the road these past weeks, has developed a new technique in servicing his customers. Instead of piling up orders to handle upon his return to the office, he now phones in every order, thus assuring faster deliveries. From the amount of phone calls, Joe must have had a record breaking trip this time. . . . Ozzie Truppman, Bush Distributing Co., probably the busiest man in town—for in addition to demands of his customers, he seems to be entertaining coinmen from all over the United States who are vacationing here. . . Willie (Little Napolean) Blatt, Supreme Distributors, happy as a lark, claiming business has picked up considerably—and he's also been playing host to any number of visiting friends. He was seen entertaining Mr. & Mrs. Meyer Gensburg of Genco, Max Weiss of Brooklyn, N. Y., Larry Sedlin of Long Island and Al Denver, president of the music operators association in New York. . . . All were sympathizing with poor Al, who flew out to attend the MOA meet in Chicago. Tell Ross, Sam Taran's "Man Friday," received a truckload of United's new shuffle game "Double Shuffle Alley," and sure was happy about it all— stating he'll now be able to fill some of those back orders. He's also plenty enthused over the music operators' acceptance of AMI's "C" phono, who are constantly placing orders for more and more. . . . Herman Paster back enjoying the Miami sunshine after attending the distributor meet at United's. He plans on remaining here until the weather up North warms up . . . Reports are that pinballs are coming back in a big way in this area, and some of Chicago's factories are sending in some new games, it is stated. **H BOX That Counts"**

CIACCACCO CIACITIES MOA passed all expectations when over 500 coinmen registered to attend the first national convention of this organization. Cleveland Phono Merchants Assn. Opens Campaign To Promote Music In Taverns

CLEVELAND, O .- A teaser campaign promoting music for the tavern and TV for the home is underway in Cleveland sponsored by the Phonograph Merchants Association.

First piece in the promotion, which was sent to fifteen hundred taverns in Cuyahoga County last week, displays two cartoons showing complete boredom in a tavern while a cooking show is being telecast, and the same setting pepped up to the tune of a jukebox— and a ringing cash register. The car-toons are captioned "TV For The Home" and "Music For The Tavern." The Phonograph Merchants Associa-tion signature appears at the bottom of the piece of the piece. Follow up mailings will be sent out

at intervals. Also included in promo-tional plans is a selected list of the best TV programs to be sent out each week.

That's really a honey Bally has in its "Speed Bowler," as we learned in several trys at the game on the Paul Laymon floor. . . . and the surprising thing, perhaps, is that competitors among distribs and mfrs.' reps are the first to admit, ungrudgingly too, that it's an outstanding game. . . . The speed of the game is truly amazing and when Red, the Demon Mechanic, took us in the back room to show us what one looked like stripped down, it was really a revelation. . . To even an unmechanical mind as ours, the compact, easy-toget-to and completely diagrammed mechanism all in the back of the scoreboard seemed like a cinch for the operator. . . Busy as they've been with the game, orders from ops piling up way behind shipment, Paul and Lucille Laymon took a weekend off to run up to Palm Springs, which is news for this hard working couple. . . . Another sweet thing in the new game department is Gottlieb's long heralded "Just 21," which we also tried our hand on at Laymons. . . . This fiveball pfovides about the most unusual, exciting action we've ever seen in a game.

Jack Simon back on the job from his Eastern jaunt, and the Sicking Co. topper tells us that he had a fine time, great trip and feeling good . . . even if he didn't make any money. Jack also reports that "Just 21" is doing fine, with a fresh shipment due in, and he's waiting eagerly for Gottlieb's new shuffle game, "Bowlette," the junior sized baby designed for locations that can't handle the full sizes. . . At General Music, we were told by "Mac," in the absence of Bud Parr and Fred Gaunt, that United's "Super Shuffle Alley" is doing a super job of selling itself as a good looker and improvement over the fine game that preceded it. . . When it comes to shuffle games, the Badger Sales floor certainly is well represented. Lined up for ops to choose from are Williams' "Line Up" and "Twin Shuffle," Keeney's "Ten Pins" and "Pin Boy" and Universal's "Twin Bowlers." According to W. R. Happel, Jr., each one is getting its share of interest among local ops. . . . Lyn Brown is still hustling along with his lite-up pin reconversion for that shuffle game and getting lined up for something bigger and better, he tells us.

Talked to Ed Kendall at Bob Bard's and nice to learn that he's been Bob's partner for the past 14 years, and not a silent one though it's the first time we bumped into him. He revealed that Nels Nelson and Bob Bard have been mighty busy on that new game being built out in Long Beach and that the wraps are about to be taken off via a test run any day now. . . . Walt Solomon of J. Peskin and Co. says, "Just working like nobody's business. Some we've got to go out after and others are coming in. Can't say we're selling 'em all, but we're getting our share and maybe a little better." . . . Aubrey Stemler still on the road for Peskin and bringin' 'em in. . . . Phil Robinson keeping busy these days with Chicago Coin's "Band Box" and their shuffle game too, dividing his time between his Coin Row office and spreading the word in the field. . . On the Row: Mr. and Mrs. Jack Mallett of Claremont . . . Tex Mitchell from Fesno . . . Tony L. Simon of Bryn Mawr (which we always thought was a girls' school) . . . Signal Hills' Tod Faulkner . . . Wm. Black of Bakersfield . . . Niles Smith from Oildale . . . Wm. Sparrow of Santa Barbara . . . Homer Gillespie and M. W. Griffin of Long Beach . . . G. F. Cooper from Riverside . . . Delano's Pete Peterson . . . Norman Christ of Lompoc.

"The Confidential Price Lists"

March 18, 1950

DeLuxe Jr. Console

How To Use "The Confidential Price Lists"

FOREWORD: Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter "The Confidential Price Lists" can only feature the market prices as they are quoted. "The Confidential Price Lists" acts exactly the same as the market quotation board at the Stock Exchange -posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. "The Confidential Price Lists", rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. "The Confidential Price Lists" reports each quotation exactly as it is made and depends on the subscriber to make average price adjustments to fit the peculiarities of his territory.

METHOD: "The Confidential Price Lists" should be read as follows: First price listed is lowest price for the week; Second price listed is highest price. Where only one price appears this should be considered lowest price.
