## Finest tone of any Phonograph ... Lowest service costs on record

Two great features have made the new Modernized Wurlitzer a big war-time money maker for Wurlitzer Music Merchants.

First, because war dictated that it be made of wood, it has better baffle, enabling magnificent tone. On sheer ear appeal it has become the industry's outstanding earner.

Secondly, the new Modernized Wurlitzer has mechanical selectors. They seldom if ever require service. If and when they do, it's a simple

matter requiring little skill on the part of the service man. A timely answer to man power shortages and lack of experience in the Service Department that is a real money saver.

See and hear this war-time Wurlitzer at your Wurlitzer Distributors. Your own eyes and ears will tell you it's your best bet for busy war-time locations.

The Rudolph Wurlitzer Company, North Tonawanda, New York.

## ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the un-repeated message rate is charged in addition. Unless otherwise indicated on its face, this is an un-repeated message and paid for as such, in consideration whereof it is agreed between the sender of the message and this company as follows:

1. The company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the un-repeated-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, *unless specially valued*; nor in any case for delays arising from unavoidable interruption in the working of its lines; nor for errors in cipher or obscure messages.
2. In any event the company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the sum of five thousand dollars, at which amount each message is deemed to be valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one percent of the amount by which such valuation shall exceed five thousand dollars.
3. The company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.
4. Domestic messages and incoming cable messages will be delivered free within one-half mile of the company's office in towns of 5,000 population or less, and within one mile of such office in other cities or towns. Beyond these limits the company does not undertake to make delivery, but will, without liability, at the sender's request, as his agent and at his expense, endeavor to contract for him for such delivery at a reasonable price.
5. No responsibility attaches to this company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the company's messengers, he acts for that purpose as the agent of the sender.
6. The company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the company for transmission.
7. It is agreed that in any action by the company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.
8. Special terms governing the transmission of messages according to their classes, as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.
9. No employee of the company is authorized to vary the foregoing.

## CLASSES OF SERVICE

### TELEGRAMS

A full-rate expedited service.

### NIGHT MESSAGES

Accepted up to 2:00 A.M. at reduced rates to be sent during the night and delivered not earlier than the morning of the ensuing business day.

Night Messages may at the option of the Telegraph Company be mailed at destination to the addressees, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such night messages at destination, postage prepaid.

### DAY LETTERS

A deferred day service at rates lower than the standard telegram rates as follows: One and one-half times the standard night letter rate for the transmission of 50 words or less and one-fifth of the initial rates for each additional 10 words or less.

#### SPECIAL TERMS APPLYING TO DAY LETTERS:

In further consideration of the reduced rate for this special Day Letter service, the following special terms in addition to those enumerated above are hereby agreed to:

A. Day Letters may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such Day Letters is, in all respects, subordinate to the priority of transmission and delivery of regular telegrams.

B. This Day Letter is received subject to the express understanding and agreement that the Company does not undertake that a Day Letter shall be delivered on the day of its date absolutely, and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such Day Letter on the day of its date during regular office hours, subject to the priority of the transmission of regular telegrams under the conditions named above.

No employee of the Company is authorized to vary the foregoing.

### NIGHT LETTERS

Accepted up to 2:00 A.M. for delivery on the morning of the ensuing business day, at rates still lower than standard night message rates, as follows: The stand-

ard telegram rate for 10 words shall be charged for the transmission of 50 words or less, and one-fifth of such standard telegram rate for 10 words shall be charged for each additional 10 words or less.

#### SPECIAL TERMS APPLYING TO NIGHT LETTERS:

In further consideration of the reduced rates for this special Night Letter service, the following special terms in addition to those enumerated above are hereby agreed to:

Night Letters may at the option of the Telegraph Company be mailed at destination to the addressees, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such Night Letters at destination, postage prepaid.

No employee of the Company is authorized to vary the foregoing.

### FULL RATE CABLES

An expedited service throughout. Code language permitted.

### DEFERRED HALF-RATE CABLES

### THE WARTIME CONFERENCE

The Wartime Conference held at the Waldorf-Astoria Hotel in New York City (Monday and Tuesday, August 16 and 17, 1943) brought out the most impressive group of leaders in this industry. It was most inspiring to sit among these men. Here, for the first time, were gathered many noted men of this industry who had come many miles to attempt in every way possible to assure a finer future for their industry. To help protect their industry by the creation of a committee representative of the industry and an organization which would continue to work in its best interests.

Many were visiting New York for the first time and brought their families along with them. But prior to seeing the shows and sights of this great metropolis, their first consideration was to be present at the meetings as they were scheduled on each of the two days. Many expressed their thoughts in regard to organizing their industry for the first time. As they became better acquainted with each other, they found that their industry was composed of men who thought of the welfare of all others in this trade. A new light, a new vision, new thoughts and ideas came into being at this first Wartime Conference.

The creation of a National Coin Machines Board of Trade was most thoroughly discussed. The belief of all present that such an organization is necessary was paramount. But with the biggest and most important problem at this time (MPR-429) this was set aside for a meeting to be held in approximately 60 days from today wherein such an organization could and should be created.

It was the belief of all those present that everyone in this industry be invited to attend this meet. Not only the many rugged individuals who weren't in any way connected with any association in this business, but that all associations of every type in this industry should also be invited and that this meet be held in some centrally located city where all could attend. It is the hope of everyone of those who were present that those who will read this item will make it their business to pledge themselves to be present, to arrange for their organizations to be present, to pass the word along to all with whom they will meet in this industry to plan to be present, so that at that date there will be a large group, nationally representative of every division of this industry present to help create a National Coin Machines Board of Trade.

In gazing thru the pictorial report of this first Wartime Conference, as published in this issue of The Cash Box, the readers will come upon the picture of the Committee appointed to meet with the officials of OPA in Washington. These men are: Bill Gersh of The Cash Box; Al Goldberg of Chicago-Simplex Distributing Co., Chicago, Ill.; Al Blendow, president of the Arcade Owners Ass'n. and salesmanager for International Mutoscope Corp., New York; Wm. Marmor of Sicking, Inc., Cincinnati, O.; Henry Windt of Indianapolis, Ind., representing the operators of the State of Indiana and chosen by them at a meeting to represent their interests at this wartime conference and Lee Rubinow who is president of the music operators of New York.

These men are scheduled to meet with OPA in Washington on Thursday, August 19th, 1943. They will attempt to gain a proper interpretation from the officials of OPA for MPR-429. They have been chosen to represent this industry. They have pledged themselves to do everything that is humanly possible and within their power and ability to benefit all this industry in this task. It is the hope of all those who attended the Wartime Conference and without any doubt the hope of all others in this industry that these men will be successful.

### FALL, 1943

With but four months left to 1943, it behooves the average business man to contemplate upon his accomplishments and to somewhat reminisce over the eight months that have passed. To report that these past 8 months were anything but hectic, would be putting it mildly. This industry saw itself actually rise by its own might, pulling itself up by its bootstraps, and reach new heights at a time when many predicted a premature demise for it.

The fact that prices zoomed for even the lowliest of machines during these past 8 months to new and unheard of heights; The fact that operators reported better collections than ever before; The further fact that this industry saw a grand spurt of sales

## *"The Coin Machines Merry-Go-Round"*

action. And many, many more facts that now are history, are as nothing compared with the definite progress which has been made to solve a great many problems by closer cooperation and better understanding which has slowly and surely come into being.

Most important to all the trade is the fact that a Committee is now in existence to handle affairs with a federal government agency. Also important is the coming about of a National Coin Machines Board of Trade which is sure to be created within the next 60 days or so. This, without any doubt, is the biggest job which has so far been accomplished in 1943.

Progress always seems to travel at a snail's pace. Whatever the reason for this fact, agitating as it is, it is also the reason for such progress being solid, well thought out, and thereby best for all concerned. This industry never before believed its members as capable as it does at this time. Operators who were a bit downhearted regarding their future are now much more optimistic and look toward the post-war era with greater determination and more courage than ever before. Jobbers and distributors have found that to be engaged in operating, too, is not as complicated as it sounded at one time. It is actually difficult today to find distributors who are not also operators, and furthermore, who aren't happier because they are operating.

A closer comradeship has developed among the members of the trade. A better understanding among operators, jobbers and distributors has come about in these past 8 months. The next four months will surely enhance this comradeship and will create even closer understanding which bodes extremely well for the future.

Fall, 1943, is therefore a truly historical period in the future development of the coin machines industry. It can prove the greatest era in this industry with the continued cooperation of all the factors that comprise this business. Fall, '43, can be the time when the first, definitely progressive steps to a better understood and more closely knitted industry were taken.

### INGENUITY

There are today dozens of coin machines men who are using ingenuity to great advantage and in so doing assuring their future in this industry. A few weeks ago it was our pleasure to be visited by a leader from one of the Midwest states who advised us that all his trucks now bore the signs that his was an "electrical repair organization", and we were also advised that his men went out into the farmlands to repair as small an item as a toaster for some farmer's wife.

The net result has been, he advised us, that the entire community has come to appreciate the electrical repair service offered. They have today repaired everything from electrical washing machines to radios and have found that more than one person in the community is willing to have them continue to operate coin machines so long as this repair service is also maintained.

From an important eastern city a coinman, visiting us, showed us his new cards and letterheads which gave him an expert standing as an "intercommunications firm". His men, experienced in remote music equipment, found inter-office communications and other types of communications systems extremely easy to repair and maintain. His importance has grown to such a point that ODT has allowed him more than the average gas quota.

This is but two among hundreds of ingenious methods now in use by coinmen throughout the nation to gain the necessary respect and cooperation from their communities while helping directly with the war effort by releasing others for the battles ahead.

### OPS VS OPA'S GMPR

A week or so ago we noted that certain music operators in one midwestern city had decided to increase to 10¢ per phono play to the public. Someone should advise these rather audacious gentlemen that there is a "General Maximum Price Regulation" in effect on all consumer's goods and services, which simply means that the price charged to the consumer for any goods or services as of March, 1942, must be maintained today.

Therefore, these gentlemen jumping the cost of their phono play from 5¢ to 10¢ to the consumer will be violating a law of the government of these United States as created and placed into effect by the Office of Price Administration. This should also be noted by those operators of Photomatic machines who were charging the public 10¢ per photo on any certain location as of and after March, 1943, that they, too, come within the scope of this law if they have raised the price of the pictures they now offer on these same locations above 10¢.

Any methods of this type used by any coinmen are bound to cause trouble and someone is going to get hurt where it hurts most - in his pocketbook. OPA will not tolerate any such ignorance on the part of any business man in any industry. Application should be first made to OPA where proof can be shown that prices must be raised.

## "The Coin Machines Merry-Go-Round"

### PUBLICITY

One noted and outstanding manufacturer in this industry has gone forward with an expensive and impressive campaign in national media to bring about better understanding of the automatic music machines industry. We have been given to understand that this campaign will be intensified as time goes on and that the nation's millions will come to better know and understand the "juke box" from these many advertisements now appearing in their favorite magazines in expensive, four color process printing.

For many years we have been urging this industry to educate the public toward its intent and its equipment thru use of local and national media. It is the hope of The Cash Box that this one noted manufacturer may have opened the path to a great many others. It is our belief that this post-war era will see more advertising directly to the public than ever before in the history of this trade. We base this belief on the fact that so many new firms will enter into this industry who have been accustomed to advertising directly to the basic consumer to start the merchandising ball to rolling properly.

This can be one of the greatest and grandest assets that this business will ever own. We do not suggest that the press of the nation can be subsidized. We do believe, tho, that a concentrated and powerful advertising program by the leaders of this industry in the nation's press will do much to allay any bluenoses or reformers who may come along with ideas for their own selfish benefit. We can, because of such advertising assume that this industry will at least get a hearing where today it gets no hearing as to its side of the picture except after a court victory, which is like closing the barn doors after the horse has been stolen.

---

### 250,000 OR 1,000,000.

The other day we had lunch with one of the leaders of our industry and listened to this man's computation of the personnel future of the coin machines business. It is his conservative belief that within 18 months after the war is won there will be directly and indirectly engaged in this industry approximately 250,000 people. He bases his claims on the number of active locations in this country as against the number of men it takes to service them and to carry on merchandising plans and general organization.

We do believe that within 18 months after the war is won he will find his figures greatly minimized as regards the number of people who will be directly and indirectly connected with and benefitting from this industry. Since he bases his judgment upon a minimum of 500,000 locations thruout the nation he must include in his figures the 500,000 retailers and others in these establishments. These people will most definitely be indirectly connected with this industry. (The government figures surpass the 2,500,000 mark - we continue along the lines of judging from this leader's figures)

We therefore immediately double his figure. We can add to this figure an additional 200,000 which will comprise the organizations of operators, jobbers, distributors, etc., and naturally the direct and indirect employables of the manufacturers. This now runs into the mighty figure of over 700,000 persons directly and indirectly profiting from coin operated equipment (still accepting his figures of 500,000 locations).

We believe in going even further. We know that there are a great many allied industries (having nothing to do with the suppliers to manufacturers) who sell such items as premiums, automobiles, gas, tires, batteries, etc., etc., down a long list of items to every operator, jobber, distributor and manufacturer and that these, too, will be indirectly benefitting from coin operated equipment, as well as landlords and many others who rent buildings and office space, etc. to the members of this trade.

It is our belief that far over 1,000,000 persons in these United States benefit directly and indirectly from this industry. To publicize such facts and figures will benefit this entire industry and is the work of a National Coin Machines Board of Trade. There is no doubt that such figures would affect the outlook or intentions of any politico or reformer and especially the public in each and every community in the nation. Newspaper mats could be arranged which could be used locally by the members of this industry to impress the peoples in their communities that this business is not in the hands of a mighty few but actually in their hands and from which they, themselves, are greatly benefitting.

### OPA'S DECISION

It is our hope that we shall be able to obtain a decision from the Office of Price Administration prior to the mailing of this issue of The Cash Box. If such a decision is obtained a special notice will be included in this issue. If any delay of decision is met with - this will be reported in the following issue of The Cash Box. The complete developments at the meeting with OPA will be reported in the September 7, 1943 issue.

The Wartime Conference held under the auspices of the National Coin Machines Board of Trade at the Waldorf Astoria Hotel brought out a very representative group from many parts of the country. As a matter of fact the only section missing was the extreme Far West. Many hundreds sent us wires, letters and called up to tell us they wanted to be present, but couldn't make any traveling connections.

The conference brought out 54 executives from all over the country, some arriving for the second day. Sorry we missed some of you in the photographs. We'll get you the next time.

Here's the coinmen who signed in for the conference:

*“When Johnny comes  
marching home  
again!”*

When all the shouting and parading and speech making and medal awardings are over. When business is again called upon to assume the burden of employment of these millions of victorious heroes. When new ideas and new methods will be most necessary. When intelligent and complete and established merchandising organizations will again prove of paramount importance to help open the paths to tomorrow's progress. At that time . . . the RUTHERFORD ENTERPRISES . . . will be the merchandising organization to correctly pave the way for the coin machines industry of the great Southwest. Until then, we look forward with you to the time, “when Johnny comes marching home again.”

In the Engineering World — They call it . . .

# “FACTOR OF SAFETY”

. . . when an engineer designs a bridge he figures out just how strong each piece of steel should be to support the weight that particular piece must carry—then instead of specifying merely that strength, he specifies a strength 15 times as great!  
. . . that’s for safety’s sake to take care of unforeseen emergencies!

In the Coin Machine World — They call it . . .

JUST PLAIN

# QUALITY

. . . Mutoscope machines have been famous since 1895 for having that “QUALITY”. On numerous occasions we have had to resist suggestions such as, “You don’t have to make it so good”—“make it cheaper and sell it for less”—“It doesn’t have to last 20 years”—etc., etc.

It took the WAR — to Convince . . .

# EVERYBODY

Today we are glad we refused to give in to that “Cheapen It” pressure and we know every operator of PHOTOMATICS, SKYFIGHTERS,—yes, and even of 30 year old Mutoscopes—is glad too that we put that extra “Factor of Safety” into Mutoscope Machines.

The Skills we have developed in doing War Work since 1941, and the new machinery we have invested in, will be evident in the new MUTOSCOPE Quality Products that will be offered to you after the War is over!

**AT LAST**

Something New...  
**ALL AMERICAN DERBY**  
 with the Sensational New Feature  
**"HOLD OVER"**  
**"MULTIPLE"**

Height to top of Back Box 68"  
 Width 25 1/4"  
 Height in Front 40 1/2"

**HOW IT WORKS...**

Play one to twenty coins. Backboard shows each coin played up to four. With each coin played selections change and awards are multiplied up to 4 times. Two bumpers on playing field light up at mystery intervals as coins are inserted. If they stay lit, player shoots ball and if either bumper is hit (regardless of whether or not player scores a winner), whatever multiple is shown on backboard will be retained for next game. On next game player need insert only one nickel and whatever multiple was played on previous game will be retained.

**BIG MONEY** Never before such a red hot come on! Players keep pushing in coins until "Hold Over" bumpers light up. Here's never quit appeal. Today's players want Fast Action — ALL AMERICAN DERBY gives them what they want.

**ANOTHER BIG FEATURE...** Consolation Purse — gives that bottom of the board thrill. Should ball land in center pocket at bottom Purse award is paid.

**OF COURSE** ALL AMERICAN DERBY isn't a new table — It's a Famous Bally One Ball, Rebuilt — Refurbished — Remade into today's greatest money-maker. All American Derby makes every location a top money Spot. Put All American Derby in competition with anything on the market. Nothing can beat its money-getting power.

## IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

## CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

- 1—Means price went up.
- 2—Means price went down.
- 3—Means this machine just added to list.
- 4—Means prices went up and down same week.
- 5—Means prices remained same as in past week's issue.
- 6—Means no prices quoted for this machine this week.
- 7—Means no prices quoted for this machine for past two weeks.
- 8—Means no prices quoted for this machine for past three weeks.
- 9—Means no prices quoted for this machine for past four weeks or longer.

# "INVASION"

"BERLIN IN FLAMES!" "70,000 PRISONERS TAKEN!" THE FIRST, SECOND AND THIRD DIVISIONS ADVANCING!" These are the thrilling, soul-stirring reports everyone, young and old, are looking forward to hearing! AND—these are among the many thrills that make the new Westerhaus "INVASION"—"THE GREATEST 5-BALL FREE PLAY REVAMP SENSATION OF 1943!" The player, by skillful shooting, advances the 1st, 2nd and 3rd Divisions and can capture as high as 70,000 prisoners. The stirring, patriotic, red, white and blue colors of this game are even more outstanding and more beautiful by the addition of gold and silver stars. A thrilling, breathtaking scene of bombs bursting on Berlin is only one feature. Dozens of other features as completely perfect and originally outstanding as only WESTERHAUS precision craftsmanship can make them.
