ALLIED INDUSTRIES
CAN HELP MAKE OUR
RIGHT ARM STRONGER

"The Coin Machines Merry-Go-Round"

By Bill Gersh

ALLIED INDUSTRIES

Many months ago The Cash Box proposed that one of the most progressive moves this industry could make, now, prior to the post-war era, would be to arrange for closer cooperation with its allied industries.

There is no doubt that such cooperation can prove extremely valuable in any territory when taxation and legal problems arise.

It is a surety that such cooperation, developing to a stage where greater friendship and respect exists between this, and the industries allied to this business, will also help to bring about better understanding with the press, the public and civic authorities.

The need for such cooperation today becomes one of the really paramount issues for the future greater development and growth of this industry, especially for the post-war period when this trade is assured the greatest expansion in all of its history, far exceeding pre-war peaks.

Among the outstanding allied industries are the taverns. These are considered, by the great majority, the best locations for the equipment of this industry. Today the average tavern owner is beset with a great many difficulties. In some sections of the country coinmen are complaining that collections are falling to exceptionally low marks, due to the fact that the taverns in their territories cannot obtain enough beer (and other merchandise) to remain open every day.

The tavern owners do not suffer as much as do coinmen from this forced closing. Naturally, they would like to be able to supply as much beer as their customers can consume. But since they are rationed as to the amount they can obtain, they adopt the next best course, and close a few days each week or each month. In the long run the tavern owner does not lose out for he can always sell his complete allotment in the time that he does remain open.

For example, the average tavern owner is now closing down periodically for a week to ten or more days each month. He usually gives his employees these days as vacations. While his place is closed, due to the fact that he has no more beer (or other merchandise) from his rationed quota to serve, he realizes that his quota continues to pile up and that when he again re-opens, he will be well stocked.

This short closing period therefore costs him very little. When he reopens he sells all the beer (and other merchandise) that he has piled up on his ration quota in the days that remain to complete the month. But the coinman suffers. Those days that the tavern closes, and in some cases the evenings that many taverns close to allow for their merchandise allotments to stretch out as far as possible, there is no action on coin operated equipment. These coin machines may just as well be located in vacant stores.

This is, therefore, one allied industry with which this business should arrange for better understanding thru closer cooperation. Coinmen can arrange for a more complete degree of business cooperation so that the average customer will realize that a definite part of the tavern is the coin machine featured in the place, and the tavern owner will not be so quick to close his doors, losing profit for himself as well as his coinman.

Such cooperation with another industry, to help foster a greater future for that, as well as for this industry, not only gains the attention of the public, but helps to create better understanding generally in the community. This same is true of all allied industries. The men of this trade are helping to support a great many businesses in which they have little or no share so as to help themselves and their equipment continue forward.

As many coinmen know, who have worked hard to teach storekeepers how to help coin operated equipment produce greater results and therefore better profits for their mutual benefit, the average location will not seriously listen to coinmen. Instead of

"The Coin Machines Merry-Go-Round"

obtaining the largest possible profit ratio the place should bring, the take continues on the same scale as formerly and when it drops, the interest of the location owner is hard to re-awaken. This can only be cured by a closer and better relationship with such locations and with this location's industry.

Some years ago coinmen in one of the nation's largest cities found, after a survey, that the retail establishments where their machines were located were more than willing to cooperate with them. They were facing legal trouble at the time. They found these retailers were more than willing to sign the petition which their attorneys prepared. The retailers even featured these petitions in their stores and obtained the signatures of their customers. This was, in very great measure, responsible for helping to prevent the closing of one very large city to coin games. This is but one example of what retailers can do to help this industry when their cooperation is made manifest. (At the present time a similar instance of coinmen-retailer cooperation on a petition is now in progress in Chicago to help reduce the \$50 phonograph license fee.)

The average coinman, regardless of the equipment he features, knows that the location owner can prove of tremendous help to him in any problems which may arise with the city administration. Not only can these retailers help in the effort to keep taxation on coin equipment down to an equitable basis, but they can also gain the cooperation of their customers, the general public, and the press, too, and thereby help bring this industry to a higher and better business plane.

It is certainly more impressive to a newspaper editor, to a city council and to the public generally, when every retailer and wholesaler in the community add their numbers and force to those of the city's coinmen to request better understanding from the press or more equitable taxation from the city's legislators. Surely the thousands of retailers in the average American city, added to the smaller force of coinmen in that same city, create a much better impression, gain greater respect and certainly exercise more forceful power when they march shoulder to shoulder, in complete cooperation, to obtain better understanding as well as greater tolerance and liberality when the need arises.

It should therefore become one of the paramount causes of the men engaged in this business today to individually, and as groups, arrange to gain the cooperation of the retailers where they locate equipment. Certainly it is not asking too much of coinmen to come together and spend a few dollars for such effort. They can, this once, actually come together as a unit in each city and state, and arrange to bring about closer understanding of their business purpose with their locations. Such collective effort will definitely prove of tremendous value for the post-war period.

Such collective effort does not ask any one man to share the burden of the others. He contributes in proportion to the number of his own locations only. But by coming together collectively in this instance he not only creates the correct impression (which is all-important) but at the same time, he actually saves money because of the collective purchasing power of the group, as a unit, for all promotional effort this group may agree to do.

Here is, then, an effort that gives every promise to be of truly great worth to each and every coinman in the nation. Here is something wherein he can foresee tremendous value accruing to him when the need arises. This is something that can do more for him when crises arise with governing bodies than all the legal talent he will ever employ.

By working collectively with all other coinmen in his territory and arranging to cooperate with retailers, by boosting the efforts of these retailers (as well as himself) with good promotional merchandising, he can gain their complete respect and cooperation. And such cooperation can mean the difference between his continuing in this business on a profitable, a more liberal, a more tolerant and a more understanding basis, or being forced out of his livelihood by crusaders or a press that does not, and will not, make any effort to better understand him.

There is no doubt that if the men in this industry will study this suggestion and will of themselves come together or call together the others in this industry in their communities, and ask questions of retailers thru a survey they can personally conduct at very little expense, they will quickly learn of the sort of cooperation wanted and needed by the retailers in their territory. In most cases this sort of cooperation is dependent on the peculiarities of each section. They can arrange to help the retailers solve a great many of their problems. They will, thereby, win for themselves the friendship, consideration and respect of the allied industries, for whom these retailers are the merchandising backbone.

By cooperating with the druggists they can gain the cooperation of the wholesalers and possibly even the manufacturers in this field. They can do the same with

"The Coin Machines Merry-Go-Round"

the beer, wine and liquor industries. They can also obtain the backing of other large wholesalers and manufacturers in many other allied industries. They can win for themselves the greatest and strongest support any industry can ever expect to enjoy.

Cooperation with the allied trades is therefore something that should become a paramount issue - today. This does not require tremendous effort. It can be collective because it does not ask any one coinman to give out of proportion to his requirements. He is working with and for his locations only, and by arranging to work collectively with all other coinmen in his territory, he brings to other industry the effect of a united front to win for this industry the understanding, respect, liberality, tolerance and cooperation which is so sorely needed to assure greater progress.

HONORABLE MENTION AWARD

To Edward J. Smith of Manhattan-Simplex Distributing Co., New York, for his efforts in behalf of the war loan drives.

To Dennis E. Donahue of Mills Industries, Inc., Chicago, Ill., for his work in behalf of the nation's coinmen.

To Joseph E. Beck of Mitchell Novelty Co., Milwaukee, Wis., for his efforts in behalf of the coinmen thruout his area.

To E. C. Steffens of Permo Products Corp., Chicago, Ill., for his great work in behalf of the music operators of the nation.

To J. Friedman of Friedman Music Co., Atlanta, Ga., for his efforts in behalf of the music trade in his area.

POST-WAR BUILDING STARTS

It is certainly most stimulating to note that many leaders of this industry have already set a definite course for the coming post-war era. Many have great plans prepared and are now beginning to carry the first part of these to completion. Others, too, are gradually preparing themselves and beginning to make the necessary contacts to arrange for instant action the moment reconversion sets in in earnest.

Among the most noticeable effects of this growing post-war consciousness is the new building campaign that is now under way. Word comes from Milwaukee, Denver, Baltimore, Philadelphia, Rochester, Seattle, Dallas, New York, and many other cities, advising that noted coinmen are buying, renting and renovating, new and larger quarters, and in some cases even constructing buildings of their own in preparation for the coming post-war period.

This sudden enthusiasm to again get going is probably much influenced by the release of information from the offices of WPB regarding reconversion to peacetime production. The battle just won by Donald M. Nelson, WPB Administrator, over Army and Navy officials to again get peacetime production under way means much to all this nation's industry.

This sudden large scale building program again clearly indicates the progressiveness of the men engaged in this industry. They are planning sufficiently far enough ahead at this time to be completely prepared for any eventualities which may arise. They will not only be ready to greet customers in finer quarters but will also have more room for the machines which they hope to soon see rolling off the production lines of the factories in this industry.

There is every indication in this building trend that this industry has now most definitely entered into the post-war period with keen foresight and great force. There is also no doubt that as these new quarters become known thruout the country that others, too, will probably follow with similar plans which many have been holding in reserve.

This post-war construction of new buildings as well as the renovating of present quarters and the renting of new and larger quarters, which is now becoming so noticeable, is sure to prove itself but the forerunner for other similar announcements also indicating advance progressive actions by the members of this industry to be as completely prepared as possible for the opening of the post-war period.

THIS IS NOT THE TIME TO STOP BUYING BONDS.

"TALKING OUT LOUD"

IS SELLER'S MARKET CRACKING? FIRST SIGNS OF FALLING PRICES REPORTED. SALES SLUMP ALSO CLAIMED INDICATIVE.

NEW YORK — Reports from thruout the trade indicate the possibility that the seller's market, which has dominated the industry since Pearl Harbor, may at last be cracking.

First signs are reported to be the falling prices, which have become noticeable these past weeks. Also the slump in sales which is now being experienced and which is claimed to be far greater than was seasonally expected. In addition, many claim that more equipment is now being offered for sale than in many past months.

Whether this can be attributed to the regular summer season slump, due to the very hot and humid weather from which the nation has been suffering, will better make itself apparent when the first weeks of the Fall season come into being.

As yet there is no indication that this crack isn't a definite surety. Prices in many categories have gone down. This is attributed by some to the fact that many are now taking advantage of the prices in effect and clearing decks for post-war action. Sudden release of equipment has caused this crack in prices, these coinmen claim.

Some sales are also concerned with tightening up and shortening of routes so that with the restrictions now in force, and the others expected if the war in Europe doesn't end soon, greater efficiency will prevail without need for too much manpower.

Quite in reverse to this is the fact that many are continuing to buy and claim that post-war production is as yet far off for this industry. Others are of the belief that even with the war won, it will be anywhere from 12 to 18 and even more months prior to coin operated equipment again being allowed on production lines.

Some still hold that this crack in the seller's market is most definitely noticeable. They claim that machine offerings would never be at present rate if the trade believed production of post-war equipment too far away.

These men also claim undue optimism has caused many to release equipment from storage and routes in the belief the war would soon be over. They point to the statements of such leaders as Winston Churchill who predicted that the European war would end this summer.

WAR WORKERS LOSING JOBS C.I.O. CLAIMS 1,650,000 WILL LOSE JOBS IN FOUR INDUSTRIES THIS YEAR

NEW YORK — R. J. Thomas, president of the CIO aircraft union, reports that 1,650,000 persons will lose their jobs in four industries alone before the end of 1944, whether or not Hitler is defeated this year.

The moment Germany collapses about 35% of the country's remaining war workers will no longer be needed, even though Japan will still remain to be conquered, according to government officials.

There are now about 25,000,000 men and women in war plants, so that after the defeat of the Nazis some 8,750,000 will face at least temporary unemployment until plants can be reconverted to civilian goods.

Thomas, who is head of the world's largest union, asserted, "The peak of war production is passed. In the munitions industry, where 800,000 have already been disemployed, another drop of 1,000,000 is expected by the end of the year."

Other CIO disemployed figures are, 300,000 in aircraft, 200,000 in shipbuilding, 150,000 in steel and aluminum. CIO officials also claim there have been 30,000 "silent layoffs" in West Coast plants in the past 90 days, in addition to the already widely publicized cancellations at the Brewster, Bell and Douglas aircraft plants.

James H. Wishart, research director for UAW of the CIO announced another 250,000 war workers will be fired in Detroit by Aug. 1, regardless of the progress of the war.

The above is in keeping with the report issued a few weeks ago by The Cash Box and urging this industry to prepare for the possible entrance of new blood much sooner than expected, and regardless of the fact that no new equipment will be produced.

OPPOSE FURTHER WAGE INCREASES

NEW YORK — The Economists Committee on Reconversion Problems, composed of noted economists from various eastern universities, in a meeting this past week stated that further wage increases, at this time, while industry is making preparation to resume manufacture of civilian goods would seriously hamper the whole program of reconversion.

Increases in wages that have been made thus far without increasing prices, it was stated, have been possible only because of an expansion of sales volume under the stimulus of war conditions.

FREEZE STILL ON

NEW YORK — The freezing of The Cash Box circulation which went into effect on May 20 is still on. New subscribers are accepted only as openings occur when former subscribers do not renew.

Those seeking subscriptions are urged to send in applications immediately to be on list when opening occurs.

"G. I." HOUGEN

Roger B. Hougen of Hougen Novelty Co., Idaho Falls, Ida., sends in this snapshot of himself with his manager Bill Barstow. PFC Hougen is at right. He is now stationed at Truax Field, Wisc.

GILLES CHANGES FIRM NAME

OSAGE, IA. — Bill Gilles announces that his firm will now be known as Bill's Musical Sales Company instead of Gilles Candy Company.

Bill also reports that he has purchased a route of phonos, has opened two arcades and a music store. Claims his music store one of the finest.

PAT-ON-BACK FROM ELECTRIC SERVICE CO.

COLUMBUS, O. — Ed. Schamps, manager of the Electric Service Co., this city, writes, "We find your issues very interesting and full of news and information regarding all types of machines.

"We find that we are buying from your advertisers many more machines than we are selling.

"We have found a number of good machines at very reasonable prices, most of which we are using on our routes and find they are very good moneymakers.

"We regard your publication as very valuable to us."

BERT LANE BACK ON 10th AVE.

NEW YORK — Bert Lane, whose pre-war coin machine activities helped create this city's "Coinrow," is back on this famed coin machines street again in new and attractive quarters at 625 Tenth Ave. His new firm is called, World Wide Distributors.

Bert reports that he has been traveling all over the country for the past three months to accumulate equipment to open his firm with one of the most outstanding sales in his history.

He also states that the equipment in this opening sale will feature the finest reconditioning work, due to the fact that long experienced mechanics, located in his Chicago warehouse, have been working on these machines for sometime now.

"LONDON'S FOLLY" TO NATIONAL SHOW

READING, PA.—"London's Folly," five gaited chestnut gelding owned by coinman Lew London of Leader Sales Company, this city, will make a bid for national honors at the Lexington Junior League Horse Show, Lexington, Ky., July 19-22.

Winner of nine "blues," two yellows" and one reserve championship since Lew purchased the gelding from the Dixiana Farms, Lexington, last September, "London's Folly" has also been shown under the name of "Good As Gold."

Lew is putting everything he has into winning the championship at Lexington and feels certain that the gelding will prove himself the greatest five-gaited show horse in the country.

SHORTAGE OF CIGGY BRANDS CONTINUES

NEW YORK — There will be no shortage of cigarettes for civilians, but they will have to take whatever brands they can get for the duration, according to leading ciggy producers.

Cigarette machine coinmen expect that the public will fall in line with this news. The scarcity of popular brands is due to the fact that the armed services have priority on cigarette supplies.

Ciggy manufacturers are reported to have drawn heavily on warehouse supplies of leaf tobacco and are unwilling to lower the amount of aged tobacco in their cigarettes in order to produce enough to meet civilian as well as service demand.

There is also an increasing shortage of cases and containers. WPB has limited use of cartons to 80% of '42 requirements.

JOE HART GRANTED RECORD HOLDER PAT.

NEW YORK — Joseph J. Hart, former director for the AJA (Automatic Jobbers Assn.), has just been granted a patent for a phonograph record holding ejector, according to the Official Gazette of the U. S. Patent Office, July 4 issue.

Joe is featuring this record holder, which automatically ejects each record by finger push buttons at his new firm, the Albumatic Company, this city.

He will be eastern distributor for an arcade revamp which he expects will prove one of the greatest of all time. He has also been appointed eastern distributor for the "Shoot-A-Bazooka" revamp for all types of Seeburg guns.

Bert stated, "We have a great many surprise products in store for the trade, which we will introduce from time to time. I'm sorry that I can't let all the news out at once. All I can say regarding these surprises is to just keep your eyes open for our announcements."

Prior to officially opening his doors, and while construction was as yet in progress, Bert has been receiving visits from many local coinmen and out-of-town callers who have already heard of his return to Tenth Ave. "With Bert back," one coinman stated, "things are again going to hum."

Odd Coins

POSTWAR INVESTMENT OPPORTUNITY**117 BRAND NEW
GROETCHEN METAL TYPERS**

IN ORIGINAL CASES

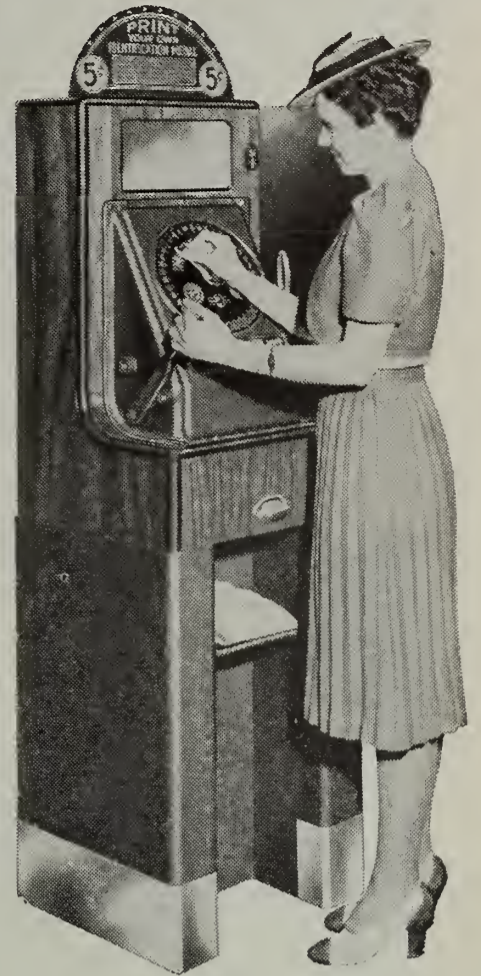

\$237⁵⁰
Each

This is the latest model built by Groetchen prior to the war. Metal Typer needs no introduction, as for many years it has been a perennial, staple money maker . . . flawless in construction.

We have been holding back on this special lot until aluminum could be obtained for the discs. Aluminum will be available shortly and we are now booking orders for September 15th delivery.

The ceiling price of \$237.50 represents pre-war machinery value and quality at its very best. Unquestionably the price will be higher after the war.

HERE IS AN OPPORTUNITY TO EMPLOY IDLE FUNDS FOR POSTWAR PLANNING AND INVESTMENT.

The aluminum discs will cost approximately \$12.50 per thousand and should be available by September 15th.

SEND \$50.00 deposit per machine. Your order will be acknowledged at once and booked for Sept. 15th delivery.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period: Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR PAST EIGHT WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading these past two weeks.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

Copyrighted 1944 by The Cash Box, 381 Fourth Ave., New York 16, N. Y. Production in whole or part forbidden without written permission from the publishers.
