Positional, Triangular, Overload Slot

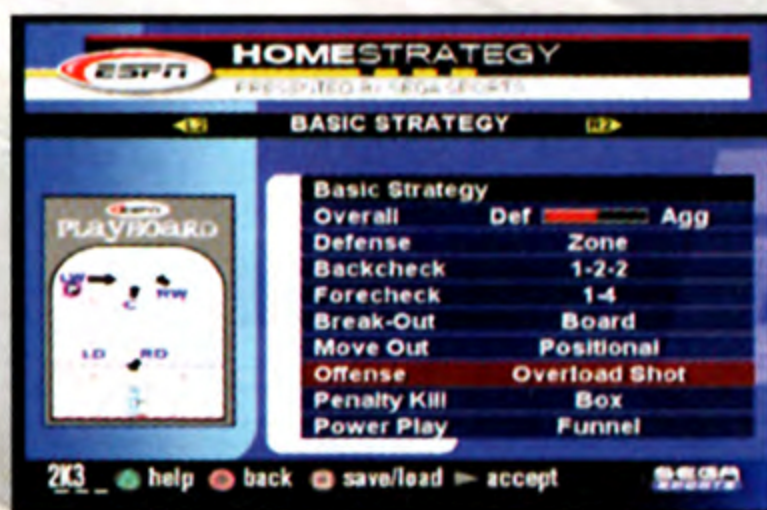

Positional: Positional play is a conservative offensive scheme that is the cornerstone of any hockey team. The two forwards will alternately attack the net. While one forward is attacking the net, the other will be holding back and thinking defensively.

Triangular: The wingmen form a triangular formation with the center. The players then try to get the puck and "funnel" it in close to the goal for a good scoring chance. If you listen to an NHL broadcast, you may hear this strategy referred to as "cycling." The objective of this system is to create a 3-on-2 or, better yet, a 2-on-1 situation.

Overload Slot: A more aggressive style of play is known as overloading the slot. When the first rush is stopped and the follow-up attack does not result in a play on the net, the puck is passed out to the point (defenseman farthest back in the attacking zone). The defensemen then try to score by shooting a hard slap shot. The forwards go to the net and attempt to pick up the rebound.

SEGA SPORTS TIP: Controlling the shot

Direct your shot by using the left analog stick while shooting the puck. Look where the goalie is setting up and use it to your advantage. If he has flopped onto the ice, press up on the left analog stick while shooting to send the puck high. If he's still on his feet, you can try going to the five hole (between his legs) by pressing down on the left analog stick.

SEGA SPORTS TIP: The Deke

You're on a breakaway, it's just you and the goalie. Use the Deke to confuse the goalie and put the biscuit in the basket.

DEFENSE

Here's a rundown of the standard defensive controls. Make use of body checks, speed-burst, poke-check, board-pins and blocking to break down any offensive attack.

SEGA SPORTS TIP: Check Please.

Check hard. Check often. Keeping your opponent on the ice will close off their passing lanes and disrupt the rhythm of their attack.

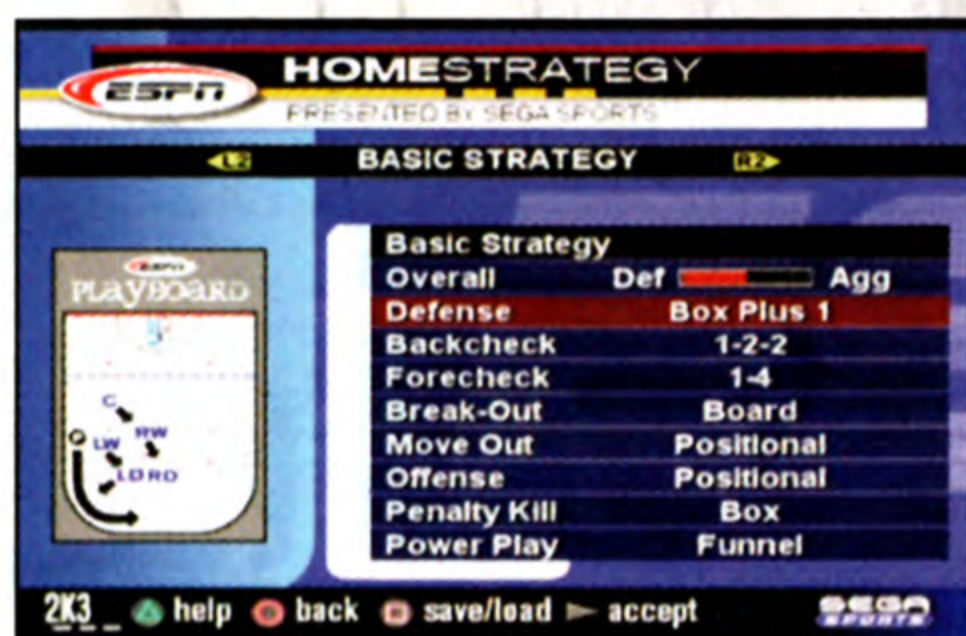

Defensive Strategies

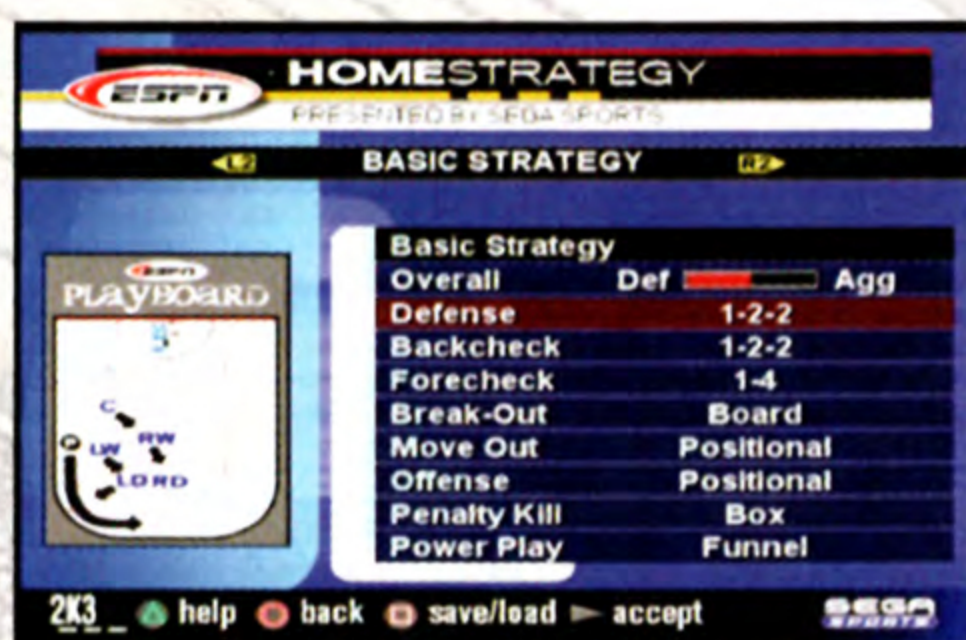

Zone: The Zone is a conservative coaching strategy. The defensive zone is divided into five areas. It asks the defensemen to outplay the opposition in all 1-on-1 situations.

Box Plus 1: The Box Plus One is a forceful defense. It is a balanced system, with the two wings and defensemen forming a box. This system's standard principle is to keep the opposition's unit outside the box. The center's role is to help out the other players, particularly the defensemen.

1-2-2: The 1-2-2 is a mixed defense. The wings come low to support the defensemen, but the center moves out to the blue line in order to harass the opposition's defense and keep them out of the play. The center will also look for timely breakaway scoring chances which adds to opposition's worry.

SEGA SPORTS TIP: Hooking

When used discreetly, hooking can be an effective method of unbalancing the opposition. Be careful, overuse will attract the referee's attention, earning you minutes in the penalty box.

directional button Left + R1 . . More Aggressive

directional button Right + R1 . . Less Aggressive

Line Changes

The forwards and defensemen are broken into units called lines. Teams have certain lines to suit different situations. There are lines to take advantage of power plays, to kill penalties, to play strong defense and to play strong offense. Use the controls listed below to get new players out onto the ice. Don't call for a line change when the other team is attacking your goal. You can make adjustments to your lines via the Rosters / Lines menu. Mix things up to create the best scoring and defensive setups.

directional button Up Next Offensive Line

directional button Down Next Defensive Line

SEGA SPORTS TIP: Keep your Lines Fresh

The longer the lines are on the ice, the more fatigued the players become. Wait for your players to cross center-ice, then dump the puck into the offensive zone and switch them out. If you can cycle your lines effectively, you will maximize your team's chances of success.

ROSTERS

From the Rosters menu you can make several adjustments to your team. One of the things you can do is select the team captain and assistant captain(s).

In Franchise and Season Mode you can also make several changes to your team from the Rosters menu. You can change a player's status from this screen. Players can be:

Dressed: Available to play in the next game.

Injured/Res: The player is hurt and unavailable to play.

Minors: The player has been sent down to the minors.

Scratched: Players available to the team but cannot play in the current game.

PAUSE MENU

Press the START button during the game to bring up the Pause Menu. From here you can select from one of the following options.

Replay: Watch the last play from any spot on the ice.

Stats: Break the game down with all of the numbers, shots, saves, hits and much more.

Choose Sides: Switch over to control either team at any time.

Edit Lines: Select which players appear on which lines on the ice for total control of your team.

Options: Tweak the game by adjusting the rules and settings (including camera-view).

Time-Out: You don't see many timeouts in hockey, but if your team needs a break you can call one. It is the perfect way to give your team a little stamina boost.

Pull Goalie: You can always pull your goalie to get an extra skater out on the ice. Do this when you are down a goal towards the end of the game.

Exit Game: Leave the game and go back to the main menu. The game will ask you to confirm whether or not you really want to quit before leaving the game.

GLOSSARY

Assistant Captain: The Assistant Captain wears the letter 'A' on his jersey and can speak to the referee in regards to interpretations of the rules when the Captain is not out on the ice. Traditionally teams have two assistant captains, but sometimes they have up to four players rotate the duties of assistant captain throughout the season.

Captain: The leader of the team. The captain wears a letter 'C' on his jersey and is one of the only players who can question a referee in regards to an interpretation of the rules.

Check: Skating into a player who has the puck.

Delayed Penalties: If the team without the puck commits a penalty, the referee can call a delayed penalty. He will signify this by raising his hand high in the air. The team with the puck will pull their goalie to add an extra man on offense. As soon as the team that committed the penalty touches the puck, the penalty is called.

Face-Off: At the onset of each period, after a stoppage in play, after a goal and after a penalty, both teams will square off in a face-off. The referee will drop the puck between two opposing players.

Fighting: Sometimes players will “drop the gloves” in order to stand their ground, however, engaging in fisticuffs will result in a five-minute penalty.

Forechecking: Checking the player with the puck in his defensive zone or the neutral zone.

Hooking: When a player uses his stick to impede the progress of an opponent, he can be called for hooking, punishable with two minutes in the penalty box.

Icing: Icing occurs when the team passes, shoots or deflects the puck across the red center line and then past the red goal line in that team's offensive zone without the puck being touched by another member of that team. Teams that are a man short (killing a penalty) are allowed to ice the puck. In the international game, icing is called as soon as the puck crosses the goal line.

Interference: Interference occurs when one player impedes the progress of another player who does not have the puck and is punishable with a two-minute penalty.

Lines: The group of five players out on the ice. Teams have different lines for different situations: lines for penalty killing, power plays, hard defense, extra offense, etc.

Offsides: The puck must precede the offensive team across the blue line that marks the offensive zone. If the player crosses the blue line before the puck, offsides is called and a face-off will occur in the neutral zone.

One Timer: A one-timer occurs when a player takes a slapshot on the puck after one of his teammates has passed it to him. This is much like hitting a baseball that has been pitched to you. There is no real possession of the puck on the part of the player being passed to.

Roughing: Roughing is an altercation between two players that is more than a normal check, but less than an all-out fight. Roughing is punishable with two minutes in the penalty box.

Two-Line Pass: A two-line pass is called when a player makes a pass that crosses the red center line and the blue line (or vice-versa) without being touched in-between the two lines by a teammate. Two-Line passing is allowed with International Rules.
