Game Field in Speediest Recovery

By Bill Gersh

"COINTOONS"

Most thrilling to all the amusement products coinmen has been the speedy recovery so noticeable in their division of the industry. Coinmen have started to buy amusement equipment in ever larger numbers.

The average jobber and distributor reports a very good demand for the new machines and, according to reports from the operators themselves, collections are up, and still going higher.

This good news has brought a tremendous amount of optimism to the amusement field, and it continues to grow greater daily.

What is even more exciting, regarding this speedy recovery of the amusement products field, is the fact that the older machines are rapidly being pulled from locations almost everywhere in the nation and are being replaced with the newer type machines.

Distributors and jobbers in the large urban centers of the country report a terrific demand for the later type used machines. They claim that they could sell two and three times as many as they have to offer at the present time, and, further, believe that this market won't be satiated for sometime yet to come.

As this news comes to the trade it is also well to remember that the amusement game manufacturers have been producing some of the very finest products in their history since this past convention. Almost every machine introduced has been a "hit".

Operators claim that never before have they been faced with as many outstanding pinballs. They also state that the one-balls, consoles manually operated roll-downs and other games which have come to the market, have all proved themselves the best moneymakers that have been presented to them in many, many months.

As one well known operator puts it, "We've been getting the first real postwar machines. Everyone of the new machines we've purchased these past few months has been a real moneymaker and has pleased the players. Not only has interest grown tremendously in amusement machine action on our locations, but we believe that this interest will continue at high pitch for sometime to come. The manufacturers of amusement equipment have shown us the way to better profits

and we know that they'll continue doing a real job."

This is the sort of thing the trade has been looking forward to for sometime now. Coinmen all over the country, for a while, were upset over the price of the new amusement products, but have, since then, accepted them for, they claim, they have proved that they can earn real interest on the investment made in the machine.

"No operator is afraid to invest in a high priced machine", one well known operator wrote *The Cash Box*, "provided he can be sure that he will profit from it over the operating period. These new games we've been getting have amortized themselves quickly. The trade-in return has been exceptionally high even after a three months period. We are going ahead with greater investment in amusement machines than ever before."

This speedy recovery by the amusement field is reflected in the fact that it now has every possibility to recapture first place position.

TAX PROBLEM

Moves Made This Year by State and City Legislatures Prove Need for "National Tax Council" to Get into Quick Action. Leading Coinmen Foresee Increased Taxes Coming.

NEW YORK—The moves made the early part of this year by many of the state and city legislatures proved to all the trade that the suggestion of *The Cash Box* (first made almost five years ago)—that there be created a "National Tax Council" is now more than ever an immediate necessity.

There is no doubt, as many leading coinmen state, that increased taxes will become a large part of the overhead burden of the operators. "This is as sure as anything that can ever happen to this business," is the way that one noted operator puts it. "And", he further believes, "this will force a great many coinmen to some desperate moves in an effort to continue operating profitably."

Whatever the future holds for the trade, there is no doubt anymore that open newsstand discussion of its earning power, has brought about a most definite misunderstanding of its inner business workings by many politicians who desperately seek revenue for their states and communities.

These men, tho they should continue to seek revenue for this is part of their legislative duties, do not understand the ramifications of such a business as the coin machine industry and, therefore, in almost every case the taxation which they impose is entirely inequitable.

The problem faced by the nation's coin machine men is unfair and inequitable taxes. The average coinman doesn't mind paying fair and equitable taxes just as do all other business men in his community. He realizes that without taxation his police, fire and school forces cannot continue to operate. He also realizes that his

local and state as well as national governments need his tax money to continue in business. But, what he does ask, is that these tax makers consider his business in an understanding light so that they will not bring down upon him unfair and inequitable taxes.

And that is where a "National Tax Council" comes into its proper light. Such a council, armed with the proper data, with precedents, with former tax bills, with all other matter relative to taxation and its methods as well as staffed by tax experts who can convincingly prove to the average legislature the fact that the industry can only stand for a certain amount of taxation will prove of invaluable aid to the members of the trade.

The CMI, at this past convention, announced that it would adopt *The Cash Box* suggestion and create a "National Tax Council" as part and parcel of its "Public Relations Bureau." The entire industry was tremendously elated over this fact. The average coin machine man has been doing this work all by himself and has found it to be an extremely difficult task. But, with the aid of CMI, there is no doubt that he could more expertly perform the work that is set before him in helping to clear away whatever unfair and inequitable taxes may arise.

There are states where bills were proposed at this past meeting of the legislators to tax juke boxes \$250 per year. This is not only excessive, it is absolutely ruinous for the music operators. In another state over 100% was asked up and above the gross income collections from certain equipment. This, too, is extremely

difficult for the operators to pay and continue operating profitably.

But, these are only the beginning of what revenue seekers have in mind. As they read reports in open newsstand publication of the fact that other cities and states have taxed coin operated equipment (as well as the amount and method of this taxation) they, too, immediately have similar bills proposed and so state after state and community after community which never before taxed coin machines is now taxing them to a fare-thee-well.

The trade, with prices of equipment what they are today, and with overhead going up instead of coming down, and with a million and one other things to contend with, cannot afford to place so large and immovable an obstacle in the path of its progress as extremely large, unfair and inequitable taxation. This will force many operators to close shop on certain of their equipment.

A "National Tax Council" must get into immediate action. It must begin to call in every single operator in the nation to learn just what the tax bills are in his local and state governments and also what he and others have done about them to date. It must, from then on, proceed to carefully watch every tax move being made and must do so with a staff of men who will be trained in the limits of what the average coinman can stand in taxes.

This is a big job, but a job that cannot wait too long, for the state and city governments have proved already this year that they are on their way to tax hell out of this business.

BIG VARIETY NEW MERCHANTISERS TO OPEN BOOM VENDING ERA

Beverages, Hot Coffee, Ice Cream, Frozen Food, Cigaret, Candy, Nuts, Gum, Hot Sandwiches, Books, Magazines, Papers, Milk, Napkins, Vitamins, Stamps, Popcorn, General Merchandise, with Coin Changers and Many New Innovations to Open Boom Vending Era.

NEW YORK — A survey just completed among the outstanding merchandising machine coinmen of the nation produced some very startling facts.

These are that, 1) the tremendous variety of new merchandisers and, 2) the marvelous mechanical advancements, and 3) the greatness of the field into which the new machines are entering are, 4) sure to bring about the biggest vending machine boom era in all the history of the coin machine industry.

The merchandise machine men are tremendously enthused over the fact that the new merchandisers will truly be, at long last, "24 hour per day salesmen". That they will serve a tremendously wide variety of foodstuffs, dry goods and various other merchandise, and that they will be so designed and so simplified, as well as so finely protected from slugs and other vandalism, that the operators of these machines are sure to profit with them for many years to come.

Already many operators are planning on specializing in one branch and another of the new automatic merchandising field. A great many of these coinmen are taking their time to choose the machines they like best. Some are even preparing their repair and sales forces for the arrival of the machines in which they are most interested.

With so great a variety to choose from: cold beverage venders of all types, ranging from the various Cola drinks to sparkling waters; hot coffee venders; ice cream venders; frozen food venders of all sorts; new electrified cigarette machines; candy, gum and nut venders; book merchandisers as well as magazine and newspaper machines; milk vending machines;

sanitary napkin machines of new design; vitamin venders; stamp machines; automatic and filled popcorn vending machines and even general merchandise machines which will vend anything from a book of matches to toothpicks and even nylon hosiery and most of these equipped with coin changers and dozens of new innovations in electronics and other advancements; the trade has before it a complete new era of automatic selling.

Never before in the long history of the automatic merchandising machine field has there been so great a variety of machines announced to the trade and so many in the trade itself awaiting their arrival. At the present time the average manufacturer is proceeding with complete experimentation while materials and components are still very difficult to obtain. But, the manufacturers in this field report, that they are most anxious to get under way and just as soon as materials become available will rush machines to the market.

There is, then, no further doubt of the growing greatness of the automatic merchandising field. It has already attracted the greatest amount of press publicity which this industry has ever enjoyed. It has won a tremendously powerful financial following. It has captured the imagination of many people new to the industry. It seems that this will be the field to bring the newest in ideas as well as the greatest growth to the coin machine industry and that, further, it will be the field which may develop the new ideas for making this industry even more internationally famed than it is at the present time.

The boom that is arising in the automatic merchandising field can be noted in

the press and on the air. Already certain of the large cigarette makers are notifying listeners to their great air programs that they should "purchase cigarettes from vending machines." This is helping the automatic merchandising industry gain the sort of recognition it needs for the great campaign of national fulfillment which it has in mind.

The members of this division of the industry are extremely progressive in the fact that they have been conducting a public relations program of their own to gain ever greater and better understanding of their field. At the same time the operators in this field have such wide acceptance among the nation's retailers that they pay commissions, which they believe equitable, once per month and by personal check. No other division of the industry has been able to gain such credence.

Not only bankers, but finance firms and many highly rated individuals as well as the larger manufacturers are backing the purchasers of merchandising machines. This, in itself, assures of the greatest possible growth. Franchises for territories are being let to confine operations. Distributors are also being appointed and are well chosen for the work. There is a great deal to be said of the automatic merchandising field's expansion for tomorrow but, most of all, it must be stated here and now that the tremendously great variety of the venders involved and the fine factories behind them, as well as the fact that they may all burst on the market almost at one and the same time, will start a boom for the era of automatic selling which is sure to prove a boon to all American merchandising.

WHAT PRICE GAMES

Editor's Note: The following article was written exactly ten years ago by Bill Gersh. It fits so well into the present price situation that it is being repeated to prove, if anything, that history repeats itself in this industry as well as in world affairs. It will be noted, as the readers continue thruout the article that the price problem of 1937 was no different, and the solution no other, than what it is today. From the standpoint of interest, as well as logic, the Editor believes this article will meet with complete approval.

Every year, with seemingly clocklike precision, the trade runs into the price problem. Unexplainable as it is, there are many who feel (and it also seems that from among all of these but few understand manufacturing costs and processes) that prices have suddenly zoomed to new highs.

This is not so. Never was so and never will be so. The average manufacturer, and especially the successful manufacturer, is too keen a merchandiser to allow himself to be entrapped by setting a high, ridiculous price on his product, thereby ruining the possibilities for the success of that product.

It is understandable, in these days of rising raw material costs, that the raw material producer is obtaining prices far beyond what he formerly received. But, like in any other field, only demand brings about higher price. This is but simple logic. Therefore, with the price of materials and labor shooting to new highs, the average manufacturer attempts to somehow circumvent this rise by the use of greater ingenuity in his engineering and production methods to overcome the objections he feels are awaiting the price presentation of his new machine.

But, regardless of whatever price is set on a coin operated device; regardless whether there is or isn't a shortage of raw materials; a high cost on labor; or even a dearth of sales and merchandising skill; that coin operated device must be able to earn good profit for the investment made in it prior to its general acceptance by the trade.

Therefore, as operators have known for years, it isn't the cost of the machine—it is instead: *what will it earn for me?* And that is really the entire crux of the situation. What will the machine earn in return for the investment made? If the machine can earn enough to bring back the investment in a reasonable time, then whatever the machine costs has not been too much. And if the machine continues to earn profits for sometime to come after the operators' investment has been returned, then certainly the price of that product has been completely nullified.

For years operators have agreed that it isn't the price—it's the return. Today, as in days gone by, this is still the situation. The real profit factor of a coin operated product is not in its production nor in its sale—but in its operation. That is where the real profits come. That is where the machine receives its acid tests. Should the machine prove unable to bring back its investment and earn a reasonable profit—then whatever its price (even 1c) the operator certainly would be a fool to ever purchase it.

But, by the same reasoning, should this machine cost \$1,000.00 and return its investment in reasonable time and bring profit—then every operator should purchase it, for, as a good business man and a good investor, the operator realizes that he is only purchasing something which is based upon the factor of return of investment plus a fair percentage of profit from the return of that investment.

What price games? What price business? What price industries? What price intelligence? There is no such thing as a set price. There is no such thing as a staple intelligence nor is there a staple price. There can't be. The very unreasonableness of asking that a price be set far in advance is a deterrent to progress. It is asking the manufacturer to fold up his experimental and engineering departments and continue to produce but one type of product for as long as that product can retain itself on one of the most unstable markets in the world—the coin machine market. It is like asking the good Lord himself to stop all material costs from rising, stop the sun and the moon and the stars from following their prescribed courses and to maintain a set equilibrium in an unbalanced world.

There is no price situation in the coin machine business. There never will be. This business is too fast for the average individual or organization to attempt to halt its progress by maintenance of a set price for all future products which this industry will produce. This coin machine industry is going ahead at a speedy rate—speedier than any other industry of like capitalization and character in all history. It is an industry that has pulled itself to the top by its proverbial bootstraps. It is an industry that will not hesitate nor pause for the man who tries to stop it with nonsensical arguments that have long ago been whipped aside by every progressive industry in this great nation.

There is no price—there is only that logical concept of price based on return. That is the one and only and best way to gauge price in any industry on earth. If the return is there—then, surely, the price doesn't much matter. Any banker will just as soon loan \$25.00 as \$25,000,000.00—provided that the return is there. Any manufacturer will invest—without anything but a possibility of return—and then when his production cost sheets are placed before him set the price no higher on a percentage basis than what it ever was before—and know all the time that the price he has set matters very little for his market will soon decide this for him. There can't be a set price. How many, many times have operators remarked that a manufacturer could have received ten times the price that he had asked for a certain game because of the way that that game had brought them greater profits? This is as true today as it was years ago.

The manufacturer only sets a price based upon a percentage of return in conformity to what his cost turns out to be in the production of that product. He absolutely is gambling with that price. Most manufacturers in the coin machine industry do not even include their merchandising cost (and, as far as that goes, who can? for there is no set merchandising cost on any product in any industry) nor does he usually include his experimental and engineering cost—these costs he only can hope to have returned to him if and when the product proves successful and the sale is therefore great enough to bring him a profit in keeping with such a return.

The greatest of all gamblers is the manufacturer—the least of all gamblers is the operator.

What is the operator's actual investment? Only the purchase of one machine. And today, in many cases, not even that, for he waits to hear from a friend who has a friend who has purchased one machine and who will tell him all about it when he makes his first collection. The underground telegraphic system in this industry is so well developed today that dismal failure of a product in New York is known before many hours have passed in San Francisco and vice versa. Therefore, after the operator has purchased this one machine—he either rapidly returns it—if it proves a failure or keeps it and comes back for more, for he is intelligent enough a business man to know when he is losing or earning money—his pocketbook tells him that in the most forward and simple spoken language in the world.

But, what about the manufacturer? Where does he stand when an operator pronounces his product a failure? Can he go back again and demand that his next product have this cost of his first failure added to it? He cannot. And everyone in the industry knows it. He must start all over again—and from scratch—and try to produce a winner if he wants to stay in this business—and once again present his product on that great stage of success or failure—the operator's location.

What a gambler each manufacturer is. Just think of the chances he takes. A complete factory at work, planning and thinking and in the end producing—to have to depend upon the success or failure of his product on where an operator will place it. Even the movie producer has a better chance—and he is considered to be in one of the most risky of all industries. At least he can control the first showing of his product. He can unfurl the curtains on a premiere and stir tremendous interest so that thousands see it all at once. But, the manufacturer in the coin machine business isn't given such an opportunity.

His product is presented without any fanfare and blowing of trumpets. It is quietly released. The operator uses his own judgment as to where it should be placed. Nor does the average operator place it on his best spot. And what would be the difference if he did? His best spot may be his worst spot for that product. Yet, this is what the manufacturer has to contend with and that is the only thing he has to depend upon for the success of his product.

And price? What price? The operator either condemns the machine overnight or he raises it to the level of a triumph—so that price then doesn't mean anything.

What prices games? The price that will assure the operator of a reasonable return on his investment, of a fair profit on that return and of continuation in this industry in a profitable and assured manner. That's the price. Aside from that there is no price—there is no method of gauging price—and there is no set standard which can be used for price.

**BOTH WILL "DRUM-UP"
EXTRA PROFITS**

YOUR drive for increased phonograph profits will GET RESULTS through BOTH "more play per phonograph" and "more pay per play." Wurlitzer is backing up both profit-producing methods for the benefit of Wurlitzer Music Merchants.

To stimulate "more play per phonograph" we're conducting the greatest national consumer magazine, billboard and point-of-purchase advertising program this industry has ever seen.

To promote "more pay per play" we launched and have consistently promoted QUARTER-DIME PLAY to the public, to the location owner and his employees, and to the entire commercial phonograph business.

Remember who paved the way and is actively supporting your drive for EXTRA PROFITS. It's WURLITZER. The Rudolph Wurlitzer Company, North Tonawanda, New York.

THE CASH BOX**Record Reviews****"It's The Same Old Dream"****"Time After Time"****TOMMY DORSEY ORCHESTRA****(RCA Victor 20-2210)**

● Tommy Dorsey can usually be depended upon to turn out the kind of wax that gets better than the usual quota of play on the phonos, and this latest offering is no exception to that rule. Delivering "It's The Same Old Dream" and "Time After Time," a pair of click ballads from the flicker "The Brooklyn Bridge," both decks should grow into strong demand as the picture moves into your town. Stuart Foster does his usually adequate job selling the lyrics of both melodies, while Tommy and his men weave a pattern of very danceable melody suitable to just about any type of location.

"I Wonder, I Wonder, I Wonder"**"Ask Anyone Who Knows"****EDDY HOWARD ORCHESTRA****(Majestic 1124)**

● One of the best records to come along this week is Eddy Howard's "I Wonder, I Wonder, I Wonder," which has the kind of lilting melody and lyric that spells heavy action for phono routes. Assisted by the trio thru practically the entire lyric, Eddy emerges as a single just often enough to label the side among his best. By all means give it a play; it has all the earmarks of a big click. The backing, "Ask Anyone Who Knows", is closer to the usual romantic ballad, but Eddy and the trio contribute enough styling to peg it as a better than average Howard waxing. Consider this platter among those you should put out.

"The Egg And I"**"After Graduation Day"****SAMMY KAYE ORCHESTRA****(RCA Victor 20-2209)**

● Sweet swing is the style Sammy Kaye is noted for, but on this platter the accent is more on the sweet than anything else. Topside offering is "The Egg And I," a better romantic ballad that's well handled by songstress Mary Marlowe. As it comes out, the side is a good bet for spots where romancers gather to listen and to dance. The flip, "After Graduation Day," is from the B'way musical "Barefoot Boy With Cheek," and as done here by Johnny Ryan and the Glee Club, it comes up as a side ops should place where the younger set gathers. It has lots of profit possibilities among those locations.

"Misirlou"**"California Melodies"****DAVID ROSE ORCHESTRA****(M-G-M 30007)**

● One of the better instrumentals to be heard around, and a "natural" for the more sophisticated saloons, as well as wired music routes, is this version of "Misirlou" by the David Rose Orchestra. Its running mate, "California Melodies", runs a close second as an item for the same locations. Appeal of Rose's music is the heavy accent placed on strings, which pronounces the continental flavor of "Misirlou" to its best advantage, as well as showcasing so well the theme that is "California Melodies". If you have the locations, give the disk a whirl.

DISK O' THE WEEK**"Across The Alley From The Alamo"****STAN KENTON ORCHESTRA****(Capitol 387)****STAN KENTON**

● Ticketed to the featured slot of this week is the Stan Kenton Ork's latest, a ditty tabbed "Across The Alley From The Alamo". To say that this is first class Kenton, is to tell but half the story; it's a first class melody, with first class vocal lyrics, and it has a first class vocalist in a lassie named June Christy. Put 'em all together and you have a disk that should send the demand for Kenton to bigger and better heights. Highlights of the side is the arrangements with brass used to showcase the melody, tho June's warbling is something that can coax plenty of coin into the phonos on its own. Best suited for spots where the younger folk gather, the side has the kind of appeal that should click with anybody and everybody once it gets around. Give it a whirl. The flip, "There Is No Greater Love", with the Pastels on vocal, runs a poor second to the top deck.

"Don't Shoot The Bartender"**"The Light Turned Green"****THE KORN KOBBLERS****(M-G-M 10008)**

● Hey! Hey! Here's a combo of music maulers who may well threaten the crown now resting so jauntily on the dome of Spike (the loud checkered suit) Jones. They're called the Korn Kobblers and what they do with horns, whistles, junk bells, etc. (as well as a number of genuine music making instruments) earn for them a place in spots wherever Spike draws well. Best bet for the phonos is "Don't Shoot The Bartender (He's Half Shot Now)", since lots of customers can be expected to give the side a whirl out of sheer cussedness. The flip, "The Light Turned Green", is an equally giddy bit of melody. Nonetheless, the talent and appeal of the Kobblers should not be underestimated. This disk is a money-maker if placed correctly, and your best bet is to use it where you'd use Spike Jones. It should be added, too, that the vocals by Stanley Fritts are standouts in zaniness.

"Mam'selle"**"Stella By Starlight"****DENNIS DAY****(RCA Victor 20-2211)**

● And here's yet another version of that fast rising click "Mamselle"; this one is by Dennis Day. It has been said that if Donald Duck were to sing that ballad, it would still sell records and get top phono action, so the comment that Day's performance is adequate is less important than the fact that he cut it and it's available. In case you didn't know (which means you must live the other side of Geetahbonna) the melody is from the flicker "The Razor's Edge"; so everybody knows it and everybody wants it. Flipped, Dennis turns in "Stella By Starlight", a good tune that needs lots of plugging. Meanwhile, let it remain face down while you reap your harvest of coin from "Mam'selle" — if there are any to be had.

"I Want To Be Loved"**"That's My Desire"****GOLDEN ARROW QUARTET****(Continental 6048)**

● Two of the melodies that have risen to top heights on the "Burning The Jukes In Harlem" chart of The Cash Box is offered here on a single disk by the Golden Arrow Quartet. Tie that to the fact that the foursome makes pleasant commercial music and you have a strong double header for placement in your race-type locations. Both "I Want To Be Loved" and "That's My Desire" offer a blue refrain and to them the members of the quartet take turns on the vocals, offering a range from high tenor to deep bass. If you have a good call for vocal and instrumental quartets on wax, here's a disk you can ride with.

"Rye Whiskey"**"I Was Dreaming Someone Else's Dream"****YODELING SLIM CLARK****(Continental 8012)**

● Out among the lone prairie territories, where a yodeler is permitted to come in the house thru the front door, and in the big town spots, too, where they do like a feller who lady-oo's pretty good, here's a disk to fill that bill. Yodeling Slim Clark is the lad who's heard, and what he lacks in Sinatra-like talent, he more than makes up for with persistent enthusiasm. Top melody of the pairing is "Rye Whiskey", the well known ballad that still scores well on the phonos, while the flip, "I Was Dreaming Someone Else's Dream", should appeal well as an item for the folks who like their minstrel with a tear in his song.

THE CASH BOX

Record Reviews

"Heartaches"

"Honey Be My Honey Bee"

RAY SMITH

(Continental 8021)

● Here's a surprise. A folk artist who can sing. And we mean sing good enough to compare with many of the lesser known swooners being hailed as "sensational" by their ambitious labels. Don't misunderstand. Ray Smith still doesn't compare to the big leaguers, but the way he warbles both "Heartaches" and "Honey, Be My Honey Bee," making of them good solid merchandise for the folk music customers, prompts us to advise ops with adequate locations to give the platter a whirl. Ray is accompanied by the Pinetoppers on both sides, and they make plenty pleasant melody on the pair.

"What Am I Gonna Do About You"

"I Can't Get Up The Nerve To Kiss You"

HARRY JAMES ORCHESTRA

(Columbia)

● Harry James, who blows a mean horn when he takes time out to do as much, offers a pair of worthwhile commercial ditties on this latest waxing, but what may well prove to be its biggest drawing attraction is the fact that Art Lund (now creating a minor sensation in the East for his "Mam'selle") is featured on the lyrics. Both "What Am I Gonna Do About You" and "I Can't Get Up The Nerve To Kiss You" are romantic ballads done with a pleasant beat, but of the coupling we'd show "What Am I" for best results.

"To Me"

"Far Away Island"

HARRY BABBITT

(Mercury 3055)

● With deep somber tones of stirring music, Harry Babbitt offers ops the expressive piece, "To Me." From the forthcoming flicker "The Fabulous Dorseys," tune rates way up high and definitely is a comer. Harry's voice is mellow and smooth all thru, as he chants with deep refrain. It's the hush-hush type of music, the kind you want to stop and listen to. The Jimmy Hilliard ork provide top background music to add loads of quality to the ditty's chances. It's top drawer caliber—and is bound to catch coin for you. Backed by more ballad material, "Far Away Island," shows Babbitt and the Hilliard ork in top fashion. Tune for the money is "To Me."

"Beside You"

"Would You Believe Me"

EDDY HOWARD ORCHESTRA

(Majestic 1123)

● One of the more promising melodies around (thanks to its appearance in the flicker "My Favorite Brunette," is "Beside You." Done here by the coin catching Eddy Howard ork, with Eddy and his trio handling the neat lyric, the side emerges as a powerful item for the trade in general, and the big Howard territories in particular. Done with a slightly Latin beat, the lads serve it up to the equal satisfaction of both dancers and listeners. The flip, "Would You Believe Me," is a sweet romantic ballad with Eddy delivering a lengthy lyric on his own. As usual for Howard, this disk is a money-maker.

SLEEPER OF THE WEEK

"Red Silk Stockings And Green Perfume"

RAY MCKINLEY ORCHESTRA

(Majestic 7216)

RAY MCKINLEY

● When a novelty clicks, it clicks like thunder, and this latest platter by the Ray McKinley ork tabbed "Red Silk Stockings and Green Perfume" sounds ready to score a boffo. Featuring Ray on the western styled lyric, with the entire crew coming in for a bar of chanting every so often, the windup is a rip roaring hunk of melody that spells for great big action wherever it's placed. By all means give this platter a ride. And we mean everybody from Broadway to Vine Street. The flip, "Jimminy Cricket," is an all-instrumental that shows the McKinley crew to good advantage, but the big side wears "Red Silk Stockings."

"If I Had My Life To Live Over"

"It Might Have Been A Different Story"

BUDDY CLARK

(Columbia 37302)

● Buddy Clark, currently getting a big play on the nation's phonos thanks to his "Linda", makes a bid for further action by offering as his latest the click tavern favorite "If I Had My Life To Live Over." Considering that this ditty is one of the better established money-makers on the market, and Buddy Clark is now a vocalist with a rep, the side should ride in the heavy money despite this reviewer's feeling that it has been done better by a number of other artists. Nonetheless, if this platter offers the first opportunity for you to make use of the melody, take advantage of it now. The flip, "It Might Have Been A Different Story," is well handled by Buddy and should do its duty by all concerned as a filler item.

"Down At The Roadside Inn"

"My Love Goes With You"

AL DEXTER

(Columbia 37303)

● Presented for consideration by the trade is another hunk of folksy melody, this one by Al Dexter and His Troopers. Top deck of the disk is "Down At The Roadside Inn," and a swingy, catchy little ditty it is. Al handles the lyric with enough of his usual gusto to capture coinage from his legion of customers. Give it a hearing, and we're sure you'll agree. The flip, "My Love Goes With You," offers more vocal by Dexter, again with an effective instrumental assist from the Troopers. It's worthy of note that both songs were written by Dexter, and his talent in that field is better than workmanlike.

"Quien Sabe? (Who Knows?)"

"Time After Time"

JIMMY DORSEY ORCHESTRA

(M-G-M 10010)

● "Quien Sabe? (Who Knows?)" is one of the best offerings to show in a long while from the capable Jimmy Dorsey ork. Well loaded with click possibilities if given adequate plugging, the melody is lilting and catchy and stands up well as a novelty ballad for just about any type of location. As the title implies, the ditty is on the Latin side and the Jimmy Dorsey ork makes top-flight music with it. Handling the vocal all the way thru is a duet team composed of Dee Parker and Bob Carroll, and the music conversation they make is strictly right. The flip, "Time After Time," is the well known ballad from the flicker "It Happened In Brooklyn." Bob Carroll chants the vocal in adequate fashion, and the whole side winds up as a profitable backer upper to the top deck. Peg this platter among those recommended.

"I Believe"

"Time After Time"

FRANK SINATRA

(Columbia 37300)

● Frank Sinatra (who this past week took a swing at a Hollywood columnist) scores again with this pair of ditties taken from his latest motion picture "It Happened In Brooklyn". Offering the lush ballad "Time After Time" and the more lively "I Believe," Frank takes both melodies for a top fight vocal ride, certainly one of the very best interpretations to be heard of either song. Slanted for either the dancing or listening phono patron, the disk is an item few spots should be without, and ops should make an effort to feature it as soon as the flicker hits your territory.

BYRDE'S EYEVIEW
'ROUND THE WAX CIRCLE
 by
Byrde Gore

Every now and then our desk top grows high with an accumulation of letters from music operators who have something to say that should be said and said loudly, and this department collects them, waiting to accrue enough so that the collection of matter can be put together with a bit of the bang they deserve, a bang that should be heard and acted upon by those parties concerned. So what we have to say here is important, important because it's not a character behind a typewriter who's airing them, but the people who buy music in order to, in turn, make a living from it . . . And they're important people. They buy records.

* * *

Coming up to bat is a stack of mail the sum of which has much the same thing to say despite the variety of ways in which the matter is broached. These operators are talking about record quality, and they discuss the issue not like the hyper-critical, super sensitive listener-critic who might complain if a single violin in a many sectioned orchestra happened to hold a note a trifle too long. No sir. These letters are about records whose lives are too short, and they're not very polite. A couple of the ops have gone so far as to graph the action they've received from various record labels, comparing them to statistics of not very long ago. They point out that record quality, with few exceptions, has been going from bad to worse, the prices have been going from high to higher. It appears the boys are growing a mite weary of hearing the woes of the record manufacturer and his increased costs. Who, they want to know, is listening to the operator's very doleful story of the way their costs have skyrocketed? They want longer wearing records, they say, and "To hell with the high cost of shellac!" . . . Few ops know that in recent months the price of shellac has been dropping appreciably.

* * *

A smaller, but still imposing amount of our mail concerns title strips. Ops were paying lots less for records before the war and still getting title strips absolutely gratis. A great and inexpensive exploitation medium for the record manufacturer, it was also a great time-saver, money-saver and an aid to dressing-up a phono for the operator. The fact that record manufacturers, with few exceptions, have failed to return that service to the operator has also resulted in raising the coinman's operating expenses while lowering the manufacturers. The boys say they want free title strips back again, and as quickly as possible.

* * *

One of the more interesting communications received, and it's interesting because it's unusual, comes from an operator who asks why the diskeries do not offer him equal sales terms with retailers. Especially in the matter of the 5% return privilege, which practically every retailer receives from the manufacturer's distributor. Granted, this coinman declares, under the present set up the trade could not take advantage of a 5% return privilege as such because the records they buy do get some wear. But, he points out, lots of stiffs are put out on the machines and on many of them the operator fails to earn enough to compensate for the purchase price. In order to make just amends to the operator for these records, he asks that the manufacturers provide a rebate or like arrangement by which the operator would get some sort of break equal to the 5% return privilege granted the retailer . . . Now there's something worthy of consideration by disk makers who want to "win friends and influence people."

Laine Seen As Next Big Vocalist

NEW YORK — A new star is being born.

According to reports from music operators in widely scattered territories of the nation, Frankie Laine, Mercury Records vocal star, is fast climbing into the coveted big league of the nation's singing stars.

First reported a big click when his "That's My Desire" began to excite comment and demand in New York and Los Angeles, his second offering, "A Sunday Kind Of Love," surprised even the most stoic observers when the side leaped into third place on the "Burning The Jukes In Harlem" chart of *The Cash Box* just a single week after it was put out in that territory. Meanwhile, it was reported the side is gaining fast thru the South and Southwest.

Originally from Cleveland, Ohio, Laine spent years trying to make his mark on the steep grade to the top. At this writing, it appears as tho there will be a reversal of the usual success procedure, for when Mercury began to record him he was still considered unknown, and it appears that it will be his records rather than motion pictures or personal appearances that will prove the big key to open the gates of complete nationwide acclaim.

Apollo Signs Connee Boswell

NEW YORK — Connee Boswell, who earned fame as a featured vocalist via radio, motion pictures, and, more recently as a Decca recording artist, has been signed to a waxing contract with Apollo Records, it was announced this past week by Hy Siegel, the label's prexy.

According to last reports, terms for Miss Boswell's services on an exclusive contract basis with the usual options had not been completed, tho negotiations were being carried on. It is believed that her initial waxing date will call for four sides, the first disk of which is expected to be released shortly.

New Record Firm Cuts First Platters

CHICAGO — A new record firm introduced itself to the trade this past week, Aristocrat Record Corp. President is Charles Aron, well known to the juke box and retail music trade.

Aron was present at the past coin machine convention in February and gathered a great deal of material from music machine operators from all over the nation which is now being used by the firm in their first

new pressings.

The label will be known as the "Aristocrat Record". First pressings will be by Sherman Hayes and his Orchestra. The first six sides include some unique novelties as well as the old standards and those who have heard them give them every opportunity of great success on the present market.

THE STARS WHO MAKE THE HITS ARE ON

RCA VICTOR RECORDS

Decca To Distribute Commodore "Label"

NEW YORK — It was announced this past week, that Decca Records will for the first time distribute disks carrying an indie label, through the platter firm's various outlets.

The diskery will distribute the Commodore label, which caters to the interests of the present large market of jazzophiles.

Milton Gabler, who joined Decca several years ago as recording director originated and owns the Commodore Record Co., selling them first from his retail store in New York and later franchising the Liberty Music Shops in this city to handle them.

Keynote Signs Longhair

HOLLYWOOD, CAL. — Keynote Records, strictly a jazz disk producer since its inception by Eric Bernay, who recently sold out to John Hammond, Jr., is launching a classical music line, it was disclosed this past week.

The signing of Igor Stravinsky last week, to conduct a full symphony orchestra is the first step in the firm's new policy. Stravinsky will work on an exclusive basis with Keynote on certain compositions.

Hammond's purchase of the Keynote West Coast plant completed the sale of Bernay's holdings in the plattery.

Continental Names Central N. Y. Distrib

NEW YORK — In line with its previously announced program of expansion and its decision to appoint distributors in various parts of the country to afford national coverage, Donald H. Gabor, president of Continental Records has announced the appointment of the Paul-Jeffrey Company, Syracuse, New York as exclusive distributors for the Continental line in Central New York.

The Paul-Jeffrey Company is headed by Pat Solomon, who will distribute the Continental line for the same territories as he now distributes for Farnsworth Radio and Thor Refrigerators.

According to Mr. Gabor, Continental will appoint three additional distributors in New York State, names of which will be revealed shortly.

ILLINOIS JACQUET
(Disc 6204)

MEMO
To Dealers and Ops—

A hot tip on two new ones. Eckstine's "Time On My Hands" and Ventura's "Moon Nocturne" are a cinch for terrific across the counter and heavy coin machine play. Order 'em now. **THEY'RE HOT!**

P.S. You'll miss out on some ready coin if you don't latch on to Madriguera's "Jack, Jack, Jack", the biggest Latin-American hit in years.

Billy ECKSTINE
and his orchestra

'Time On My Hands'

An ever popular standard done in the Romantic Eckstine manner

'I Love the Loveliness of You'

'Heartaches' Shows Power Of 'Pop' Oldies

NEW YORK — Reflecting a recent article in *The Cash Box* are the current reports of the phenomenal rise of the popular ditty "Heartaches" and the "reincarnation" of the Ted Weems orchestra.

Weems, who gave up his band to go into Navy Service, had a tough job getting started again upon his release from duty a year ago.

"Heartaches" owes its new popularity to a disk-jockey in Charlotte, N. C., who plucked it out of the hat-bag of hit oldies.

As the demand rapidly grew, Decca immediately repressed some 50,000 copies of the tune. Along with this, many labels from coast to coast cut the side to meet the strong demand.

Giving further evidence that the public wants those oldies, and tunes in the sweet refrain, are numbers that are riding the wave today. "I'm Yours", "That's My Desire", and the terrific Jolson demand are but a few making money for music operators today. The current success of maestro Lawrence Welk further boosts sweet music.

Weems, incidentally has signed a recording contract with Mercury and his first release will be out sometime this month.

Ohio Phono Assoc. To Hold Annual Convention

CLEVELAND, O — The eighth annual convention of the Ohio State Automatic Phonograph Owners Association will be held in this city on May 5 in the Rainbow Room of the Carter Hotel.

One of the biggest banquets ever held by this organization will take place, and as usual every leading recording artist in the immediate vicinity will be on hand.

The orchestras of Eddie Howard and Gene Krupa are being featured, according to word from Jack Cohen, Chairman of the banquet department.

Signature Discs To Be Aired With N. Y. Giants

NEW YORK — Signature Records, headquartered here, have announced their promotional tie-up with the New York Giants Baseball Club. Cutting the theme song "Giants March", with Ray Bloch doing the backing, the ditty is to be used in conjunction with the baseball club's daily broadcast.

Tune is to be played at opening of game broadcast, and over the public address system at the Polo Grounds.

Metrotone Inks Sal Rasa — "Fish" Rises

NEW YORK — Carl LeBow, prexy of Metrotone Records this city, announced the signing of Sal Rasa late this past week.

First side for the choir boy on this new indie label, is slated to be "Freddie The Fish"—ditty currently riding high in publicity circles.

"We're just about set with "The Fish" now, said LeBow, "and expect to be on the market sometime this month." Label will sell for 75c list.

King Records Sets Distribution Plans

CINCINNATI, O.—The King Record Company, headquartered here, has taken over its one remaining outside distributor, and complete national distributing and servicing will be handled by their own regional branches, Syd Nathan, King prexy, announced this past week.

The two offices of Record Releasing Corporation in Dallas and Oklahoma City were taken over by King on April 5.

Plans have been put into effect for complete coverage of the entire country with the following policy:

A 5% return privilege, 1½c per record freight allowance past points 150 miles from nearest branch, free numerical lists, artists' photos for dealers, blowups for window displays, alphabetical catalogue lists, streamers, and other promotional material.

Majestic Pacts Cootie Williams Ork

NEW YORK — Ben Selvin, head of Majestic Records' artists and repertoire, announced the signing of Cootie Williams and His Orchestra to a long term contract, this past week.

First of the Cootie releases features Billy Matthews at the vocals in "I WANT TO BE LOVED" and an instrumental, "I CAN'T GET STARTED," with trumpet solo by Cootie. Release date on these discs, first of a series, is early May.

Kenton To Continue; To Fulfill Engagements

NEW YORK — Contrary to reports that he would disband his orchestra, Stan Kenton has decided to continue playing and fulfill his engagements through August 2nd.

Kenton, under strict order from his physician, was told to immediately take a vacation or suffer a complete breakdown. The popular maestro has been going at the game at a terrific pace as of late, continuously breaking box office records.

When confronted with protests from scores of promoters and operators who had anticipated playing his band, Stan agreed to fulfill his commitments.

The original Kenton crew will resume their engagements upon completion of the maestro's vacation.

Capitol Opens New Office — Names Cincy Head

HOLLYWOOD, CAL. — Capitol Records announced the forthcoming opening of a new branch distributing office, to be located in Milwaukee, Wisconsin this past week. Randall W. Stover, formerly with the Chicago office will head the Milwaukee staff.

Floyd W. Bittaker, General Sales Manager for the plattery announced the resignation of Louis Royal, former head of their Cincinnati office. Max Callison, associated with the Chicago office, has been appointed new manager in Cincy.

It is expected that Capitol's branch distributing office at Scranton, site of one of the firm's production plants, will be ready for operation on or about May 1st.

Varnum Leaves Columbia, To Head Flack Firm

NEW YORK — Wayne Varnum has resigned as publicity director of Columbia Records, Inc., to form a new firm, of publicity and public relations representatives to be known as Wayne Varnum Associates, it was announced today.

With Varnum in the new venture will be Beryl Reubens, formerly his assistant in the Columbia department and before that publicity director of Empire Airlines, and Marvin Drager, Columbia photo editor formerly from the photo desk of Associated Press. Each will have an interest in the business.

Christine Edwards has replaced Varnum as flack chief of the plattery.

QUESTION AND ANSWER COLUMN

RILEY SHEPARD, Majestic Recording Artist, met John R. Longmeyer of McCall Novelty Co., who asked about "that new record" they're all talking about.

Riley answers . . .

"WHO? ME?"

KEEP the "JUKES" HUMMIN'
with this year's ballad sensation!

be first in your territory with TEL-O-MATIC

the only centralized wired music sound system
that supplies superb musical entertainment
automatically 24 hours a day

JOHN BERTUCCI
President, United Novelty Co.
Lamuse & Delauny Sts.
Biloxi, Miss.

JOHN BERTUCCI SAYS:

In my territory there has always been a big demand for music. Tel-O-Matic fills that need better than any other system.

The best thing about Tel-O-Matic is its complete simplicity. Set up the records and it plays unattended all day long.

The investment is amazingly low and the potential returns are unlimited. New locations are signing up every day.

For a high profit business, good for a lifetime, I enthusiastically recommend Tel-O-Matic.

Tel-O-Matic Expands Sales & Distribution

B. SUGERMAN

NEW YORK — Barney (Shugy) Sugerman, Runyon Sales Company, with offices in this city and Newark, N. J., reports that the demand for their Tel-O-Matic system continues to grow greater every day.

"Operators are learning that Tel-O-Matic centralized wired music sound systems are a profitable operation" he declared, "and our distributors inform us that interest is running at a high pitch."

Jack Mitnick, sales manager, keeps adding a few more distributors each week, and at the present time, about twenty leading firms are handling the line. Mitnick says that more appointments are being made.

Sugerman claims the Tel-O-Matic

Priest Defends Bell Play In Clubs

BLOOMINGTON, ILL. — Taking issue with the local authorities who recently staged a raid against 15 clubs and fraternal organizations, during which the bell machines located there were confiscated, the Reverend Father Gordon Gehring, O.F.M., this city, has declared his criticism of the move from the pulpit.

Speaking before members of St. Mary's parish, this city, Fr. Gehring spoke in defense of bells in clubs as part of his Sunday morning sermon devoted to moral issues.

"Gambling," Fr. Gehring said, "in itself is not morally wrong provided these four conditions are present:

"First, that what is at stake belongs to the gambler and is at his free disposal.

"Second, the gambler must act freely and without unjust compulsion.

"Third, there must be no fraud in the transaction although the usual ruses may be used.

"Fourth, there must be some sort of equality between the parties in order to make the contract equitable.

"Now, the priest declared, "in my opinion, gambling, as it was being done in Bloomington in the private clubs for members only, was not morally wrong because all the above-mentioned conditions were present.

"First," he pointed out, "what the individual members put into the machines was their own. Their playing of the machines, for the most part, was a means of recreation with the use of money as an added excitement.

"Second," Fr. Gehring asserted, "no member was ever forced to play the machines but did so of his own free will.

"Third," he continued, "every member knew that the machines were set to pay off only a certain percentage, but that was the rule of the game and they were willing to play according to that rule.

"Fourth," he said, "all the money derived, for the most part, was used by the club for charitable purposes. None of the money was going to any one individual or syndicate, but belonged to the club and every member of that club.

"Fifth," the speaker added, "this sort of gambling was not becoming a passion with the majority, but instead the machines served as a sort of recreational facilities, the member knowing, that should he lose small sums, he was, after all, but making a donation to his own private club.

"Gambling, like drinking or dancing, in itself is not morally wrong, but becomes so only through abuse," Fr. Gehring told his parish. "The people of Bloomington know that the abuses of drinking and dancing are far more rampant than gambling and yet the places where these abuses take place are neither raided, condemned, nor their equipment confiscated.

"Yet private clubs where the use of slot machines was not abused, where this form of gambling was for the most part a mild form of recreation for members only, where no scandal was taken or given, yet in here the law stepped in and declared sin to be present where there was no sin," Fr. Gehring concluded.

THE NEW Music Box

\$25⁰⁰

Buckley gave Music Operators the FIRST practical and profitable music box at the LOWEST PRICE. Today, Buckley leads the field by offering a NEW music box of advanced design and perfection at a NEW LOW PRICE.

Quality of material and workmanship have not been sacrificed. This sensational low price is the result of economies realized in large quantity production.

The new Buckley Music Box is genuinely chrome plated, with beautiful red dial plates and attractively illuminated. Equipped with positive nationally known slug rejector and double capacity cash box. Complete program of selections always in full view. Buckley's exclusive features of construction, combined with outstanding beauty and eye appeal makes this the outstanding remote control music box . . . equally popular for wall or bar installation.

TRACK ODDS

BUCKLEY TRACK ODDS has long been recognized as the only seven-coin race horse console that would stand up month after month—year after year—and out-earn all other coin machines.

Buckley operators know this to be a fact. Experience has proved that no other machine can even come in a close second from the standpoint of earnings. Every day new operators are finding out that the new BUCKLEY TRACK ODDS are even more profitable to operate than they hoped for.

Gen'l Elec. Plant Chief Former Coin Operator

BOSTON, MASS.—“The Post”, one of this city's leading newspapers, recently devoted a lengthy article to the career of Nicholas M. Duchemin, chief of the vast West Lynn plant of the General Electric Company.

Prominently featured in the story was Duchemin's experience as a coin machine operator in his younger days, when he set up a route of vendors in order to supplement his pay as an apprentice with the General Electric Company.

Looking back, Duchemin recalled that it was his route, which he established among local taverns before prohibition, that financed his cultural as well as living costs, providing the price for such expensive diversions as the ballet and theatre.

During his days as an operator, Duchemin said he paid about six cents per pound for peanuts, which were vended for about 40, tho, it being the days before slug rejectors, many customers did show a “deplorable” tendency in using a slug in lieu of a coin.

Vendors Aid Infantile Paralysis Drive

NEW YORK—Vending machines have joined in the fight against infantile paralysis and cancer, according to reports received here this past week.

In Pueblo, Colorado, more than ten thousand pennies were turned over to the Pueblo Infantile Paralysis Drive, the coins coming largely from cigarette vendors which return three pennies with each pack of cigarettes purchased. A benefit jar is set up next to the machines and customers are reminded to drop their change for the cause.

Ruppenthal Named Packard Distrib

CUMBERLAND, MD. — Ruppenthal's Music Service, well known cointrade firm headquartered here, this past week announced their appointment as a factory distributor of Packard "Plam-Mor" phonographs.

In celebration of the event, and to acquaint all coinmen in the territory with the Packard line, a showing has been scheduled for Sunday, Apr. 13th, for which a large attendance has been expected.

Honored guest for the occasion is Homer E. Capehart, Chairman of the Board of Directors of the Packard Manufacturing Corp., who will be on hand to greet the trade.

Md. Counties Approve Bell License Bills

CUMBERLAND, MD.—A bill which would permit the Board of Alleghany County Commissioners to place a tax on "gaming" machines, including bells, was recently passed here by the House of Delegates. As yet, no fee has been suggested, and members of the delegation did not comment upon their action.

A similar law is now in effect in Anne Arundel County, where the Circuit Court of that county ruled that bells were amusement machines, and permitted the equipment to be taxed under the provisions of the law which allowed a tax on amusement games, it was disclosed by the chairman of the Alleghany County delegation.

Mich. Miniature Bowling Association Increases Members

DETROIT, MICH. — Reports from this city indicate that membership is gradually being increased in the Michigan Miniature Bowling Assn. and that president Al Curtis of the Curtis Coin Machine Exch., this city, believes that very soon this area will have complete 100 percent representation of all operators of bowling alleys.

Secretary of the organization is Morris Feldman of Central Coin Machine Exchange who has been working very hard to get every one of the men in this area to agree to all the new plans which the organization has brought into being at its meetings held in the Detroit Hotel in this city.

The organization is now reported to be about two years old and already has the 35 leading operators of bowling machines in this area as members. Agreements have also been made with the music ops organization here to work together on locations so that there would be no jumping of spots, and no clashing of locations.

A public relations program is also reported to have been discussed and there is no longer any doubt that with such effort under consideration and with the good work of Curtis and Feldman that this association will have won much good comment for itself thruout this area.

'Tornado' Opens Struck Phones

CHICAGO — Tony Gasparro and Harry Williams as well as other executives of Williams Manufacturing Co. are still laughing over the way one noted Virginia operator cut thru the long distance phone strike this past week to phone Tony Gasparro to ask for more Tornado games.

When questioned by Gasparro as to how he had been able to get thru on the long-distance phone while the strike was on, this op advised, "I just told the long distance operator that I wanted to talk to Chicago about a 'Tornado'."

BALANCE

IS A FUNNY THING!

In the amusement machine trade each man must find the balance between his own individual, competitive needs and the need to work and band together with the others. NAAMO fills these needs. NAAMO strikes the balance.

Empire Named As Firestone Distrib

BROOKLYN, N. Y. — Al Koondel and Lucky Skolnick, Empire Automatic Corp., announce that they have been appointed by Firestone Enterprises, Inc., to distribute their games in Metropolitan New York, including Nassau County, Long Island.

Koondel and Skolnick, who have been distributing and operating coin machines for many years under the name of Empire Coin Machine Sales, this week changed their firm name to Empire Automatic Corp.

Murray Goldberg, head of Firestone Enterprises, Inc., commenting on the appointment, expressed his confidence in the firm's ability. "Koondel and Skolnick are young, aggressive distributors, with a wide following in the Metropolitan area. I am sure they will do a bang up job of selling Firestone's games thru-out this territory."

In addition to the distribution of Firestone games, Empire is national distributor for Bell Records.

Roads May Ask New Rise In Freight Rates

NEW YORK — According to statements made by R. E. Woodruff, president of the Erie Railroad, at a stockholders meeting held here this past week, efforts are now being made by railroad interests to secure higher freight rates as well as higher passenger fares. The new rise is expected to go thru this year, if their pressure is successful.

WISCONSIN PHONO OPS HOLD FIRST ANNUAL CONVENTION

Leading Distribs and Mfrs to Display Products at Hotel Pfister, April 14. All Day Show With Big Banquet Windup Featuring Noted Recording Stars. Many Coinleaders to be Present. Le Roy Stein, Jim Mangan and Jim Gilmore to be Featured Speakers.

MILWAUKEE, WIS. — The first annual convention of the Wisconsin Phonograph Operators Assn. will be held at the Hotel Pfister in this city on Monday, April 14. This will be an all day affair starting at 10 A.M. and continuing on until 1 A.M. the following morning. It will start off with booths displaying the products of the various distribs here representing leading phono manufacturers, record distributors and others who are identified with the phono trade. The day will culminate with a grand banquet and entertainment which will feature famed record artists.

Officers of the state organization are: C. S. Pierce of Brodhead, Wis., president; Ken Ferguson of Rochester, Wis., vice-president and Douglass Opitz of Milwaukee who is secretary-treasurer of the organization. The Board of Directors are composed of: Anthony Ambrose, Sam Anderson, Jos. Beck, C. G. Bookmeier, Arnold Fochs, Geo. W. Gessert, S. J. Hastings, Charles Hopp, Louis Jacobs, E. H. Vollmar, Harry Whicter and A. L. Wunderlich.

The following speakers will appear at this meet: James A. Gilmore, secretary of CMI who will speak on the future of the coin machine business; Jim Mangan, public relations director who will speak on public relations in regard to the general public. These men will speak during the noon luncheon. At the dinner, Le Roy Stein, executive director of the Music Guild of New Jersey will speak on the music operators' problems.

The following firms will feature display booths at the Hotel Pfister: Aero Needle Co.; Aireon Mfg. Co.; Bradley Distributing Co.; Clark Supply Co.; Coven Distributing Co.; Frank Davidson; General Electric Co.; General Music Co.; K. H. Ferguson; James Martin; Mitchell Novelty Co.; Packard Distributing Co.; Paster Distributing Co.; Permo Products Corp.; Pierce Distributing Co.; Radio Specialty; Record Distributors; Taylor Electric Co.; Wisconsin Automatic Phono. Co.; Wisconsin Novelty Co.; Wisconsin Vogue Co. and Zenith Radio Distributing Co.

Outstanding event of the evening will be the recording artists who will appear to entertain the phono ops and their wives and all guests of the organization. Among these are Monica Lewis; Rex Allen; Romy Gosz; Tiny Hill; Two Ton Baker; Prairie Ramblers; Lawrence Duchow and his orchestra; Steve Swedish and his Orchestra; Mary Taft Dancers; Dick Burns; Parker Brothers; Paul and Pettit; and Sid Blake will act as M.C.

One of the problems which will be brought before the gathering is the new State Bonus Bill for Veterans which, among its many proposals in this bill to gather \$138,000,000 will be a \$15 per year tax for each phono in the state. Tho the ops here report they want to carry their state's share of the burden they point out that increased overhead and machines costs have held them down to the point where such a tax would work great harm to their business. It is hoped at this meet to obtain the complete cooperation of everyone of the phono ops in the state to help hold down this tax.

Mills Ships Sample Phonos To Distribs

CHARLES W. SCHLICHT

CHICAGO — First samples of the new Mills "Constellation" phonograph are now on their way to distributors' show-rooms, it was announced this past week by Charles W. Schlicht, Manager of the Music Division, Mills Industries, Inc.

"Production is well under way", Schlicht declared at the firm's headquarters here, "and we have some deliveries already scheduled for as early as May. From the demand that was created among the trade when we displayed our machine for the first time at the recent CMI Show, we know we have a real winner from both the factory and operators' viewpoint.

"Now everything is in the hands of our production men, and it appears now that they have just about completed getting things lined up to really keep those Constellations rolling."

Cal. County Passes License For Games

LODI, CALIFORNIA—Effective Apr. 28th, San Joaquin County will license and tax amusement games for this territory. The move is the result of a licensing ordinance passed here recently by the county's Board of Supervisors on a 4 to 1 vote.

According to the terms of the ordinance, a distribution tax of \$250 will be levied on every ten amusement games or part thereof and an additional levy of \$100 per machine.

Operators will also be required to pay a \$25 location tax, it was said.

The measure was acted upon favorably tho a hearing had been held for those with objections to the proposed law.

Abelson Named As Mills Phono Distrib

CHICAGO — American Distributors, headquartered in Pittsburgh, Pa. has been named as a distributor of the new Mills phonograph, it was announced here by Charles W. Schlicht, Manager of the Music Division, Mills Industries, Inc.

Headed by Meyer Abelson, a veteran coinman well known to the trade in all parts of the country, American will distribute the Mills "Constellation" phonograph in Western Pennsylvania and Northern West Virginia.

HAPPY BIRTHDAY

PAUL A. LAYMON

LOS ANGELES—It was Happy Birthday Time this past week for Paul Laymon, well known distributor headquartered here, and coinmen from all parts of the country joined Paul's family and friends in wishing him many, many more happy birthdays to come.

"There is no Substitute for Quality!"

1140 N. KOSTNER AVE. • CHICAGO 51, ILL.
TWENTY YEARS OF LEADERSHIP

Will Show New Gun Conversions In East

CHICAGO — Charles and Bernie Schutz of Coin Amusement Games, Inc., 1337 East 47th St., this city, are on their way to New York to show eastern operators, jobbers and distributors, their two new gun conversions which have clicked everywhere

"The new 'Bag-A-Bunny' conversion for Seeburg guns has gone over with a bang", Bernie Schutz reports and also says, "our 'Jungle Fury' conversion for Bally guns is going stronger than ever with more and more repeat orders coming in from all over

"Operators admit," the Schutz brothers state, "that these are the first real complete conversion units, not just pieces of cardboard. We give the operators complete units when they get either 'Bag-A-Bunny' or 'Jungle Fury'. They get two moving targets, electric motor, photo tube and attractive scenery. From every viewpoint these two moving targets have proven themselves the best moneymakers of all time and have revived guns that many operators had forgotten

Both Charles and Bernie Schutz report that they will go on from New York to cover many more eastern cities and will show their conversion units to all coinmen.

Coin Laundries In England

NEW YORK — According to reports from travelers recently returned from England, coin operated washing machines have caught on in that country. It is said that the "shilling-in-the-slot" units are being placed in working-class apartment buildings.

Minn. Coinman Hits At Anti-Bell Bill

MINNEAPOLIS, MINN.—With Governor Youngdahl's anti-bell legislation taking prominent space on the front pages of newspapers throught this state, and much controversy existing here both for and against the bill, George J. Ouska, St. Paul coinman, took occasion to deliver a strong message in behalf of the entire industry when he wrote a letter to the editor of the "Daily Times", a leading newspaper here, who published his comments.

His letter is reprinted here in its entirety. It read:—

"As a slot machine mechanic, I dislike the attitude taken toward my business and the words used in connection with it: Racket, fraud, etc. I concede that a few slot machine men have not worked in the best public interest. Likewise, some meat dealers and other business men are black marketeers, yet their whole trade is not condemned.

"Several combinations can be put on slot machines. Some clubs use a 97 per cent pay-back. However, even if we take the results of the Extraordinary Bell which was tested at the University of Wisconsin think of what a 75 per cent payback means. The machine would retain 1¼ cents per nickel. Your confectioner makes more than that on 5-cent candy and gum. And he does not pay a \$100 federal license or comparable maintenance costs.

"I do not believe children should be allowed to play slot machines. And there are those people who insist upon pouring more than they can afford into a machine. But remember also that some people can not control a desire to jump off high buildings and bridges. Fortunately, we build for a normal healthy-minded world.

"What I am pleading for is tolerance toward another person's form of recreation. Attempted abolition has proved itself breeder of corruption. Regulatory legislation will answer the slot machine question, and the money accrued from a state license will solve many problems."

Introduce View United's New Game

View United's New Game is a revolutionary new concept in sports. It combines the excitement of football with the strategy of chess, creating a game that is both physically demanding and mentally stimulating. The game is played on a field with a grid system, where players use their skills to outmaneuver their opponents. This new game is perfect for fans who enjoy a challenge and want to see their favorite players in a new light. View United is proud to introduce this exciting new sport to the world.

Min. Colman Miss
to Anti-Bell Bill

The bill, which would require the Bell System to provide long-distance service to all areas, is expected to pass in the coming weeks. It is a significant step towards ensuring universal access to communication services.

Several other bills are also being considered by Congress, including one that would increase the federal deficit. The government is currently facing a budget crisis, and these bills are part of the effort to address the issue.

MUSIC OPS THREATENED!

New Bills In Congress Would Hit Phonomen For Millions

NEW YORK — Of direct concern to music operator in America is the news that a new bill which might well place an annual bite against the nation's phonos for millions of dollars is expected to break into the Congress of the United States for action within the next few weeks.

At noontime Friday, April 11th, proponents of the measures, H.R. 1269 and H.R. 1270, were expecting news that the bills would emerge from the House of Representatives Committee on the Judiciary at any hour, and that a date for public hearings on the proposed legislation would be scheduled.

As in the past, these bills which threaten phonomen everywhere, are concerned with amendments to current copyright laws, so as to permit various sources to collect fees on music played on coin operated machines.

To say that these bills are the most threatening yet faced by the industry is not an understatement. To date, numerous pieces of legislation have been proposed against the industry in the nation's House of Representatives and in the Senate; they have reverted to committees, and they have been stopped.

But these bills are not expected to enjoy a similar fate.

Whereas in the past, the measures have been hit by a combination of interests (such as ASCAP, BMI, broadcasters, motion pictures, etc.), who claimed that the bills were detrimental to their interests, or failed to make provisions for that interest, H.R. 1269 and H.R. 1270 appear to have the approval, however silent that approval may as yet be, of all who seek to gain by their passage; it is obvious that nobody other than the music operator can possibly lose.

This is what the measures would do if incorporated into law.

(1) It would strike out the provision in the copyright laws which now protects the music op from paying tribute to anybody for the records that go into his equipment, other than the purchase price of the disk.

(2) It would permit ASCAP, BMI, or other like organizations of music publishers and composers to levy a fee against every juke box in the country for permission to use musical compositions owned by their membership.

(3) It would permit recording artists to copyright their interpretations of a song, and collect an annual fee from music operators who would use such records on their equipment, this to be done thru their own organization that would oversee their interests as ASCAP does for song writers.

(4) With these groups (and perhaps others) allowed to exact a fee from the music operator, proponents of the measure suggest that the coinman would have to pay a "mere \$25 or so per machine per year" to take care of all the licensing organizations concerned.

H.R. 1269 and H.R. 1270 were introduced in the House of Representatives on January 23, 1947 by Rep. Hugh D. Scott, Jr., but the man behind Scott is Maurice J. Speiser, General Counsel for the National Association of Performing Artists. He is reputed to be among the most brilliant attorneys in his field, and is said to be the man who wrote the

committee-bound Buckley Bill, and much of the other proposed legislation aimed at this industry via amendment of the copyright laws.

Maurice Speiser told *The Cash Box* this past week that he is of the opinion that this time the bills will go thru. He is expecting word from Washington "hourly" that a public hearing will be granted by the House, and he will ask that the hearing take place in New York City.

Maurice Speiser admits he has been working for nine years to bring this

legislation to pass. He claims that the parties who would benefit from this legislation are not "seeking to kill the bird that laid the golden egg." He claims "merely the due to which the performer, composers and publishers are entitled"; it is their feeling that current provisions by which the recording company pays such fees are inadequate.

Maurice Speiser also says the music operators are not adequately represented at present, and he "hopes" that they make adequate provisions come the hearing.

THOUGHTS for THIS WEEK

- No wind can do him good who steers for no port.
- A man who boasts about his oncestors confesses he belongs to a family better dead than olive.
- * * *
- Three of the most profitable operators' mochine ever built: PHOTOMATIC, VOICE-O-GRAPH, ATOMIC BOMBER.

Ohio Music Ops Set Convention Date

CLEVELAND, O. — The Ohio State Automatic Electric Phonograph Owners Association, music op trade group headquartered here, announced this past week that they have set May 5th as the date of their 8th Annual Convention Meeting and Banquet, which will be held in the Hotel Carter, this city.

According to an announcement issued this past week by Jack Cohen, chairman of the banquet committee, the affair will begin with a luncheon to be held at 12:00 noon; following this will be an open meeting, at which time operators, distributors and manufacturers from all parts of the country will have an opportunity to discuss their problems.

Another highlight of the day will be the banquet to be held in the Hotel Carter's Rainbow Room. Cocktails will be served at 6:00 P.M., followed by dinner at 6:30. A top name floor show has been scheduled and the orchestras of Eddy Howard and Gene Krupa will be featured.

The event, one of the outstanding annual affairs in the industry, is expected to draw coinmen from territories thruout the United States. As usual, the association has made provisions to handle hotel reservations for out-of-town visitors, and Cohen asked that requests be submitted to him in care of the organization, which is located at 5005 Euclid Avenue, Cleveland 3. Banquet tickets are priced at \$7.50 each.

Outlook For Minn. Bells Bleak; Brighter For Pins

MINNEAPOLIS, MINN. — The outlook for the licensing of bell machines in this state looked all but hopeless at the close of the past week as a vote taken by the Minnesota House of Representatives on Governor Youngdahl's anti-bell legislation passed the measure 98 to 9. The

bill now goes to the State Senate with full assurance of final passage.

The status of pin games appeared brighter, however, and it appears that those games paying out checks redeemable only for free games will be approved.

THRU THE COIN CHUTE

CHICAGO CHATTER

"With the speed of lightning" — is the phrase I like best when trying to describe how things happen in the coinbiz. Visitors to our (very, very) windy (and rainy) city this past week heard about the formation of a new record manufacturing firm; listened to the story of two well known distribs (one from the west and the other from the south) who are completely revamping their firms; met a new salesmanager; listened to talk about a convention of phono ops in Milwaukee and another phono ops meet coming up in Cleveland; learned that production was going ahead at top speed in the pin game factories and that orders were getting bigger every day; saw young blood in one of the older factories losing out; found that collections were on the way up everywhere; heard that this legislative year was almost over; saw telegrams everywhere; heard about new machines being readied that give promise to bring in more returns than any built to date; listened to stories about the new type vending machines and the effect they were going to have on merchandising of many essential products; and, worst of all, couldn't get on the long distance phone to tell all these things to their friends and partners and business associates in their home towns.

• • •

Without the phones ringing around town coinleaders here were able to get their mail out on time for a change. It was funny to watch guys like George Jenkins of Bally who is one of the original "telephonitis" guys start to reach for the phone time and time again and then gaze at it in awe — because no one was calling from some thousands of miles away. "It just doesn't seem natural", is the way that Georgie put it . . . Those Dinning Sisters at the Rio Cabana entertaining some leading coinmen upstairs in the bar with a real jam singing session of their latest releases and doing so terrific a job that all the downstairs patrons came upstairs. . . . Eddie Messner of Aladdin Records in town this past week and reported to be doing a grand job . . . Charley Aron well known platter man about town bringing a new label to the phono trade called "Aristocrat Records" . . . Grant Shay back from his Florida vacation and so busy he just doesn't have time to eat lunch anymore. Grant stopped off in some leading southern cities on his way back to town and advises that the ops are perking up everywhere in the south and that conditions generally are much, much better . . . Larry Frankel of Frankel Dist. Co., Rock Island, Ill. and other points in the midwest, reported to be doing one of the grandest distributing jobs in the nation and so very, very busy that he just doesn't have the time to even open his mail. By the way Larry procures the thickest and biggest steaks anywhere in the nation. Just visit him if you don't believe me.

• • •

Joe Beck of Telequiz Sales is back in town and the first thing that greeted him was a report on one of his machines which shows earning power away up there on top and getting bigger and bigger each week after 12 weeks on the same location. Joe is simply going nuts trying to get out more and still more production to meet the demand for his quiz machines . . . Bluest of the blue guys this past Monday seems to have been Ben Lutske of Daval . . . Complete delegation of Mills' execs back from visiting in New York. Jack Walsh, Dennis Donohue, Herb Mills and Ralph Mills all shoot back to town . . . Art Weinand of Rock-Ola really did some speedy work while in the west. Art was working during the daylight hours and flying to the next town during darkness. He covered from Los Angeles to San Francisco to Portland to Seattle to Spokane to Boise to Salt Lake City and many more towns and was still going great guns when he came back to his desk and found it all jammed with letters, wires, communications and what not. But the phone strike gave Art a chance to clean it all up this past week. "Next time", Art reports, "I'm going to take it a lot easier."

• • •

Nate Gottlieb of D. Gottlieb & Co. tells me that for once in his life he didn't worry about that long distance phone routine which starts about 9 A.M. every Monday morning and continues on all during the day. It goes some-

thing like this — first call from B. D. Lazar, Pittsburgh; next Joe Ash from Philly; then Dave Bond from Boston; Leo Weinberger from Louisville, Ben Axelrod from St. Louis, etc., etc. "But", Nate tells me, "the boys, tho they couldn't phone, came right along with their wires this Monday morning, and so everything was normal again." . . . Louis Boasberg and Ray Bosworth of New Orleans were in town this past week and covered the manufacturing center very well . . . Ed Shaffer of Columbus also popped into town and visited around with leading coinmen here who were glad to see Ed once again . . . Harry Williams and Tony Gasparro are probably the two busiest guys in the country and getting busier all of the time. Their "Tornado" game is just clicking and clicking with no production stop in sight for their distribs are hollering for more and still more . . . Leo Lewis' new firm Coin-A-Matic Distribs is clicking so well that Leo is on the go from early morning until late each evening and working in the very midst of one of the most jammed showrooms we've ever seen. "I need more space", laments Leo . . . Harry Brown of American Amusement in town for a few days and right out again, to Idaho this time. Plenty of things happening over at American and some new surprises being made ready for the trade . . . "Dapper" Tommy Callaghan (Bally's music man) wasn't all alone on his visit to Milwaukee to greet the Wisconsin phono opa. He took Mrs. Callaghan along and made a real Bally party of it by having Mr. and Mrs. Bud Breitenstein, Mr. and Mrs. Bill Billheimer and Mr. and Mrs. Ben Coven come along too. Seems that "Dapper Tom" likes to have plenty of company with him even when he travels just a few hours from town. Tommy told me last week that he heard some of "Flint-heart" Jenkins' stories from Weber & Fields — and if that doesn't give his age away — wonder what does?

• • •

John Haddock of AMI out of town most of this past week at the factory in Grand Rapids, Mich. . . . Charley Katz of Esquire Games hasn't been seen around town the past few days . . . Irv Blumenfeld of the General, Baltimore, Md. reported to have been in town and right out again . . . They tell me that some eastern manufacturers are seeking space here in town and intend to do their manufacturing in Chicago from now on . . . Al Haneklau and Ben Axelrod of St. Louis are reported to have come into town and looked things over. Both men reporting everything going along swell . . . Leo Weinberger of Louisville and Joe Weinberger of the firm's Cincinnati offices were in town . . . Morris Hankin of Atlanta, Ga. was also around to say "hello" . . . Joe Ash of Philly, who has become a regular Chicago commuter, was also here for a few days . . . Herman Paster is reported to have popped in and out of town . . . Harold Klein of Milwaukee also here and then back to the brew city . . . Sam Wolberg of Chicago Coin along with Mrs. Wolberg off for a visit to New York City . . . Vince Shay of Bell-O-Matic one of the busiest of all the busy guys around this man's town and Vince tells me that the hundred bucks he put up for the first guy who came around and told the boys he was an "operator" is still intact. Looks like Vince won that one hands down . . . The boys who spent so much time in Florida this past winter are coming back — now that the weather is warming up and the sunshine is out once more . . . Looks like everything is going to be okay with the coinbiz even tho other businesses may complain about a slowdown. According to some coinleaders here the ops are pepping up again and buying is expected to get under way — big — BUT BIG.

• • •

Ben Coven tells me that so many of his friends are dropping into his office to visit with him these days that he just hasn't the time to get around and say "hello" anymore. Bumped into Leo Remillard, Louis Pregoner, Andy Lesch, the Yell boys, Joe Sylvester, Art Haas and many others. Seems like those Coven offices are getting too small for the crowds bouncing in and out of the place all day long . . . Bill Perry of Marvel is going great with more and more coinmen dropping around to see the firm's new products and telling Bill that they bring in the cash — which is important.

THRU THE COIN CHUTE

EASTERN FLASHES

The telephone strike ties up the coin machine companies pretty badly, halting communications between those many buyers and sellers who continually use the long distance phone. Those distributing firms with offices in New York and New Jersey had to go to extreme measures to keep everything running smoothly. The executives spent considerable time driving back and forth. When the strike ends there's going to be plenty of trading.

* * * *

Al Blendow, sales manager for International Mutoscope Corp., on the road and reports back that he's doing plenty of business . . . Mike Munves entertains a visitor from Dundee, Scotland, but can't sell him anything at this time due to shipping restrictions. The Scotchman tries to sell Mike some English equipment, but Mike refuses—prices too high, and games same as were built here before the war. Incidentally, Munves is moving every type of arcade equipment, with sales of new equipment very heavy . . . Harry Brown, American Amusement Co., Chicago, expected here soon . . . Jack Semel had quite a bit of excitement in Boston last week, with Charley Wertheimer as his host.

* * * *

Al Lieberman and Phil Gould, Electromaton execs, leaving their plant in Hoboken, N. J. for a New York visit, and report good action on their equipment . . . Abe Rechtshafter, Reliable Amusement Co., Hartford, Conn. visits around coinrow . . . Barney (Shugy) Sugerman and Abe Green, Runyon Sales Co., adding to their staff to handle the action on their Tel-O-Matic centralized wired music system . . . Jack Mitnick of Runyon makes a fast trip upstate New York . . . One of Runyon's star salesmen, Irving (Kempy) Kempner, was given a tremendous plug by one of their customers. Clifford Witham of Glen Falls, N. Y. wrote a letter to Sugerman reading in part " . . . Kemper is one of the most courteous, most cordial salesmen we've ever had call on us."

* * * *

Nat Cohn and Earl Winters, Modern Music Sales Corp., get word that their sample "Constellation" phono is on the way from Mills Industries, Inc. Nat claims deliveries are promised shortly after the sample arrives . . . Harry Berger, West Side Distributing Co., increases his staff, adding Oscar Ossias and Lew Fields to sales and Ed Stern to the export department . . . Harry Pearl and Dave Stern, Seacoast Distributors (Rock-Ola distributors) get an enthusiastic reception from music ops upon the announcement of the "Bust 'Em Up" plan of old phonos . . . Jack Fitzgibbons reports that his Musical Minutes firm will soon have a very surprising announcement to make. Meanwhile, Jack is kept

busy with the demand for Williams' "Tornado" and Square Amusement's "Sportsman Roll".

* * * *

Al Koondel and Lucky Skolnick change the name of their firm from Empire Coin Machine Sales to Empire Automatic Corp., Brooklyn, N. Y. They announced this week that they had been appointed distributors in the Metropolitan area and Nassau for Firestone Enterprises, Inc. . . . Murray Goldberg of Firestone very enthusiastic over this appointment, and announced that the firm is extremely busy shipping equipment thruout the country . . . Al Schlesinger, Square Amusement Co., Poughkeepsie, N. Y. visits in the city during the week-end . . . Jack Greenfield, Greenfield & Cantor, discharged from the Jewish Hospital, where he was resting up due to a heart ailment. Jack will be back on the job very soon . . . Arthur Herman, Boro Automatic Music, Brooklyn, N. Y. on his way to Florida for the second time this season.

* * * *

Bert Lane and Meyer Parkoff, Atlantic New York Corp. and Seaboard New York Corp. completing all details for the opening of their new quarters on West 58th Street. The original date set for the middle of April couldn't be met due to the many problems that arose, and due also to the many improvements incorporated as the work went along. However, the date is now definite and will be announced in a week or so . . . Joe Madden, Old Reliable Music Co., music operator, enlarged and beautified his offices in Long Island . . . Al Maniaci, Paramout Music Co., patiently awaiting the arrival of another child. Any day now informs Al . . . Ben Becker, Tri-State Sales Co. and Pioneer Distributing Co. (Bally distributors) can't get thru to his customers by phone, so packs his grip and goes on the road.

* * * *

Hymie Rosenberg, H. Rosenberg Co., really takes it easy this week. As most of his business is conducted over the long distance phone, Hymie is really cut off from the world. Kay claims if this condition lasts a few days longer, Hymie will be among those missing from the big city . . . Dave Lowy reports a decided pick-up in biz the past few weeks . . . Joe Fishman, manager of Atlantic New Jersey Corp., commutes every day from the Bronx to Newark, N. J., and doesn't mind it in the least. Joe claims he gets to and back in less time than it takes to get from Brooklyn to Manhattan . . . LeRoy Stein, MGA business manager, leaves for Milwaukee, where he'll speak before the Wisconsin State Operators Assn. . . . Buddy Eisen and Sid Mittleman, Joe Eisen & Sons (Packard distributors) kept busy delivering their phonos to the local ops.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Paul Laymon has taken over the building at 1429-31 W. Pico Blvd., and is completely remodeling the place into first class offices, showrooms and service shop. The busy workmen are swarming all over the place rushing to get ready for a grand opening—announcement to come in a week or two. Paul will retain his present store at 1503 W. Pico for storage and shipping. He has been moving lots of new and used games and is replenishing his stock to keep the local ops in good games. Laymon endorses the move of *The Cash Box* to replace and destroy old outworn and antiquated games and replace all such equipment with new and modern equipment.

The telephone strike is playing the devil with local coinmen as this city has three different telephone companies which constantly require the use of an operator to make a call from one section of the city to another. It's a headache so let's hope it ends and soon . . . Bill Happel, Jr., of Badger Sales, spent last week end at Las Vegas and spent most of his time there calling on the ops and doing some good biz according to reports. The sales of "Golden State Vendor," a nut vendor which is exclusively handled by Badger Sales, has been terrific, according to Jack Leonard. Romance is budding between the front office and the shipping department. Louise Mattocks and Herman A. Schmidt are planning a merger come May 2nd, and they plan a honeymoon to Niagara Falls.

Phil Robinson of Chicago Coin has been working like mad trying to get as many of the firm's new "Kilroy" out into the hands of the game hungry distribs and ops. It's a swell game and in great demand, according to Phil . . . Danny Jackson of Automatic Games has just returned from a fast trip to Las Vegas, where he sold a nice order of Pace and Mills bells and Bally consoles, and plans on a follow up trip soon . . . Charlie Fulcher, newly appointed manager of the local Mills Sales offices, has accompanied Warren Taylor of Oakland on a business trip to Nevada and plans on spending some time in Las Vegas. They will call on many coin ops and expect to take many orders for the firm's line of bells and games. The boys plan on returning the first of the week . . . The Music Operators Association of Southern California held an open meeting this Monday at the association headquarters. The organization plans a big membership drive following this meeting.

H. G. Sherry, general manager of Commercial Coin Radio, tells us that his firm has taken over the building at 1705-07 W. Pico Blvd. where the firm will set up its new offices and factory. The firm plans on going into high speed production at their new plant and will make an important announcement of several new lines they plan on taking over very shortly . . . Lots of excitement here this past week when the Electrical Workers Union placed pickets in front of S.C.A.M.O.A. proclaiming that they were unfair to Organized Labor. S.C.A.M.O.A. in turn put pickets out denouncing the local chapter of I.B.E.W. According to reports, the Bullock organization is to be given its own charter and plans

on breaking away from the electrical workers union, Local B-11. In the meantime, lots of rumors and steam in the air.

Elden L. Dale of the Dale Engineering Company is currently manufacturing a very novel arcade game, embodying the principles of operating an aeroplane by remote control. It's a very fascinating bit of equipment and will go well in arcades . . . William "Bud" Parr of Solotone Corporation informs us that the firm's new Mirror-Tone is now coming off the production line in a good steady stream. Bud says that the new cabinets are being made of wood instead of metal, as originally planned . . . Stopped around over at E. T. Mape's showrooms and had Ray Powers show me a sample of the firm's new Mirro-matic cabinet. Ray informs us that this cabinet is equipped with top speaker directional baffle, and comes in a wide choice of mirror designs. In the short time that he has had it on display he has taken many orders. It's a very attractive cabinet and should go well in any spot.

Among the coin ops shopping for games and equipment along coin row this past week were: Ben Korte, Glendale; E. H. Butler, Los Angeles; George Joyce, Los Angeles; Paul Bender, San Bernardino; Margaret Nomo, Los Angeles; Norman Glover, Bell; Frank Milane, Compton; L. Worley, South Gate; M. Hoar, El Monte; C. E. Collard, San Bernardino; G. L. Catlin, Montrose; George Koch, Lake Arrowhead; Jack Perock, Los Angeles; D. D. Brymer, Palos Verde.

Saul and Joe Bihari of Modern Records plan an extended trip to the east coast to call on the firm's many distribs and to appoint several new ones in territories where the label is at present not being represented . . . Len Micon of Pacific Coast Distributors, who has been confined to his home these past few weeks after suffering a mild heart attack is getting along quite well and according to the medics may be up and around in another two weeks. Len will have to take it mighty easy for some time to come, however . . . Eddie Mesner of Aladdin Records participated in a quiz program while visiting in New York and was heard by many local record and coin men. He won a \$200.00 prize, lucky stiff . . . Charlie Craig, advertising and promotion exec of Exclusive Records, tells me that the firm has several new and sensational releases which will be out very soon. Charlie tells me that the newest Johnny Moore waxing is doing a terrific job.

Bill Wolf, of M. S. Wolf Distributing Company, just back from a fast trip to the Windy City and right out again to visit his San Francisco offices. Bill establishes a new record for consistent traveling every month. Al Silberman just back from a jaunt through several midwestern states is resting up while Bill is away . . . Jack Gutshall has just received a sample of the new Packard combination bar and hideaway and is receiving lots of good reaction. Jack thinks he can sell lots of this type of equipment . . . Nels Nelson is getting his showrooms ready for a display of the new Aireon Phono which we hear is really something to behold.

REPORT OF THE
COMMISSIONER

STATE OF NEW YORK
1884

[Faint, illegible text, likely bleed-through from the reverse side of the page]

[Faint, illegible text, likely bleed-through from the reverse side of the page]

THRU THE COIN CHUTE

MINNEAPOLIS ST. LOUIS

Andy and Ella Oberg of Grand Forks, North Dakota arrived in Minneapolis last week and are spending a week or so in Minneapolis before returning to Grand Forks. Andy and Ella have been gone since last November vacationing at Hot Springs, Arkansas, Miami and Los Angeles. They enjoyed a very good vacation and are now ready to get back on the job . . . Johnny Buterac of the Arrowhead Amusement Company, Hibbing, Minnesota and his son Terry spent last week-end just sort of vacationing in Minneapolis. Johnny had a lot of fun taking his son around showing him some of the sights of Minneapolis . . . Our hearty congratulations to Marty Kanter of the Harmony Music Company. Marty became the proud father of a new baby boy. That is the second boy in the family. Marty is is very happy—(Bet he wanted a little girl though).

Harry Partridge of Mora, Minnesota is doing especially well in the music business. He's really going at it strong since the state has gone wacky . . . Vince Jorgenson, Charlie Potter's ace man in Kinsett, Iowa was in Minneapolis for a couple of days . . . Bush Distributing Company reports Kilroys are still very, very strong. As a matter of fact, they can't get enough of them . . . The new Gottlieb five-ball machine "Maisie," is being received with great enthusiasm at the Hy-G Music Company . . . Bud Harrison of the Howard Sales Company is at the Swedish hospital due to a nose operation. Bud is mending very nicely . . . We heard that H. J. Gulck, had sold his route two weeks ago.

Lawrence Seig of Augusta, Wisconsin in town for a couple of days making the rounds. Put a little weight on since he got out of the army. Must be his wife's cooking because he looks swell . . . J. E. McNeice of Minneapolis Rifle Sport, who suffered a heart attack six weeks ago, is now at home and getting along very nicely . . . Mark Coughlan of Mankato, Minnesota in town just for the day.

R. L. Cross has his new headquarters in Jackson, Minnesota. Bob finds Jackson more in the center of his operations than Fairmont . . . We understand that C. H. Potter of the Fairmont Novelty Company is very ill . . . Mr. A. E. Witt of Brainerd, Minnesota in town for just the day. Just came back from enjoying a very nice vacation in Mexico. Mr. and Mrs. Gerald C. Johnson of Menomonie, Wisconsin announced the arrival of a baby girl . . . Ted Bush of the Bush Distributing Company is vacationing at Hot Springs . . . Benny Friedman of the Silent Sales Company is sick of it all. Don't blame him a bit as he lost out by one pin to come in the money at the Standard Club bowling Calcutta. All that Benny needed was one pin . . . Max Moses of the Atlas Sales Company, Minneapolis is expected at home from Phoenix, Arizona where he has been vacationing for the past two months.

Big news of the week was the announcement that veteran partners Art Heimke and Dan Baum have split up; Art to take over all of the routes of the former partnership, while Dan will open up Baum Distributing Company at a new location, to distribute Chicago Coin Machine products. "Best for divergent interests" quoth Art Heimke, long more interested in operating than distributing. Both are long established vets in St. Louis.

Another surprise to the trade was the reappearance of Walter Gummersheimer, at one time a leading figure in St. Louis coin machine circles, who has sold his chromium furniture factory and will be appointed salesmanager at Baum Distributing Company. Walter's experience embraces every phase of the coin machine industry, and a lot of friends will welcome him back.

Fred Lehmkuhl of W. L. Distributing Company has come out with a few terse announcements on something new in wall boxes, soon to be on the market. The idea is that a quarter slot on the wall box will give one free record or six in all, in return for the "package purchase." Fred's been tinkering on the salesbuilding gadget a long time; and thinks he has all the bugs licked at present.

Charles Larcom supervised the Easter egg hunt which teed off the Chain of Rocks amusement park and arcade for the 1947 season. Got his knees a bit baggy in the process, but "I wish I was a kid again" was all he'd say.

Abe Jeffers is crying for new pingames, but distributors report that for once he isn't the only complainant. No new pin balls hit the 49th state this week, probably due to a pronounced glass shortage, according to Ben Axelrod of Olive Novelty Company. Old games which hadn't moved for months began to look better to operators all of a sudden.

Movies of the CMI show will be shown at the forthcoming Missouri Amusement Machine Association get-together, president Lou Morris has announced. A few of the boys have had an advance peek visiting other cities and were astonished at the number of St. Louisans wheeling through the pix unknowing that they were being recorded for posterity.

Ideal Novelty came up with an announcement; appointment of George Ermantraut as Rockola phonograph salesman for the Missouri-Illinois territory. George will begin beating the bushes immediately, on the heels of a similar trip taken by Carl Trippe through the central Illinois area last month.

New
EXTRA DRAW
Feature

**THREE
COIN CHUTES**

*TRIPLE PLAY!
TRIPLE PROFIT!*

All the bell-fruit flash and spinning-reel action of Draw Bell . . . plus the big 1000 Super-Special popularized in Triple Bell . . . plus the new EXTRA DRAW feature that permits players to deposit three, four, five coins per game to hold favorable reels and spin again for a winner! That's Bally's new console, DE LUXE DRAW BELL. Available in Nickel or Quarter play.

Triple Coin Chutes permit three players—or three coins—every spin. 1000 Super Special Awards, plus plenty of other big awards and single-cherry awards insure continuous repeat play. Deluxe cabinet in rich wood-grain finish. Simple trouble-proof mechanism guarantees rock-bottom service costs. Available in straight Nickel, Dime or Quarter or any desired coin-combination.

BALLY ENTRY
ONE BALL AUTOMATIC MULTIPLE
AND
SPECIAL ENTRY
ONE BALL FREE PLAY MULTIPLE

New "Mystic Flash" feature magically transfers Win-section of play-field to top of the board—to sections which normally score only Purse or Show. Players play, not merely two to four coins per game, but five, six, eight or ten . . . to catch the "Mystic Flash." Bally's new multiple masterpieces can easily double or triple your normal one-ball profits. For quick delivery order today!
