The Cash Box is exclusively and confidentially yours.

It's the one weekly publication that is devoted to but one idea. One thought. One purpose. And that is how to help you, in this coin operated machines industry exclusively, to better yourself, so that this will, in due conrse, become a better, more progressive, and more prosperous industry for all concerned.

The Cash Box devotes itself to this one purpose because it sincerely believes that there is a definite need for stimulating entertainment. Especially at this time, with war nerves becoming part and parcel of everyone's future, and most emphasized in the future of America's youth.

Entertainment that stimulates, and that is, at the very same time, extremely economical, has a most definite place in the picture of this nation.

There are no greater business stimulators for the average American merchant than the coin operated entertainment machines being originated, designed and constructed in this nation. These machines have helped thousands on thousands of retailers, everywhere in the country, to enjoy better business. In fact, to continue in business, in a great many instances.

The music of the juke box (over 550,000 of them in the United States alone) has been of inestimable value to the nation's storekeepers. They have turned drug stores and ice cream parlors into gathering places for the youth of the nation where youth could, under good supervision, enjoy the popular music of the type it best liked.

They have turned taverns and country stores, and dozens on dozens of other retail locations, into better businesses for their owners, and have proved to be the places where Mr. and Mrs. America could relax to enjoy the old and new music which has made the songs of this nation so internationally popular.

These are places for people to relax. These are places for people to enjoy the fraternity of neighbors. These are better business places because of coin operated entertainment.

As definite business stimulators, everyone of the nation's retail merchants will agree that nothing, absolutely nothing, equals coin operated entertainment in its many forms.

This is entertainment that holds the customer and that causes him to become more fond of the establishment. This is the entertainment, therefore, that creates and betters business. And that, today, is extremely important in the fntnre growth and welfare of American business.

But, that isn't all. Because of war nerves. Because of anxiety. Because of problems that arise every minute of the day, people desperately want relaxation and entertainment, but, don't want it at the cost of necessities.

The economical cost of coin operated entertainment remains unequalled in all the entertainment history of this nation.

Yes, The Cash Box is exclusively and confidentially vours, because The Cash Box believes that this is one industry that will remain necessary entertainment for America's millions of peoples as well as America's business men.

And, therefore, to continue to discuss this industry between ourselves only, within the bounds and limits of this industry, The Cash Box will remain . . . exclusively and confidentially yours!

How Ops Can Enjoy the Big Boom Ahead!

With the 65,000,000 employed mark to be reached very soon, and with more and still more men and women entering the armed forces, leaders foresee the biggest boom ahead for this industry.

Not only this tremendous employment record, but, the fact that wages will be higher than at any other time in history, and many household necessities difficult to obtain, will leave the public with coin jingling in its collective pocket to the point where, according to predictions of coin machine leaders, play will zoom for almost every type of coin operated machine.

The boom is expected to reach into vending machines, juke boxes, amusement games, arcades, and into every type and kind of coin operated product. This industry faces even a grander future and greater income than it enjoyed during War II.

But, since World War II, as many leaders have pointed out, costs have gone sky high. The average operator, regardless of a tremendous play boom ahead, will not enjoy the same sort of profit percentage, unless he quickly changes to a more equitable commission basis, or obtains front service money guarantees, for all of his equipment.

The operator must, if he wants to better enjoy this play boom ahead, change from his old and outmoded commission basis of 50%-50% to a new and more equitable basis.

This publication has been urging such change for many years. Over eight years, in fact. It again urges that such change come about, so that operators will be able to absorb the higher prices which are facing them for the very urgent necessities which they need to continue in business. Tires, trucks, gasoline, labor, parts, supplies etc., etc., are going higher in price each day.

There seems no longer to be any definite plan being made by the average operator for amortizing the cost of his equipment as quickly as possible. The larger ops have always had such plans. They realize the amount they must obtain each week to amortize the cost of new machines within a reasonable period of time.

Whether there will, or will not, be new machines, the average operator must quickly change his present operating methods. He simply must consider what is coming. He must plan for the future.

Rumors of controls, freezes, etc., are not just idle talk. These are the predictions of leading economists who realize that the tremendous demands being made on the facilities of this nation, as it gears for complete and all out defense, plus whatever consumer production it can continue with, will force many business men to the wall, unless they make arrangements right now to handle the tremendously increased overhead expense with which they will be faced.

The operator's expense goes on ahead ever higher. It is not like the location owner's expense which, in the case of coin operated machines, remains static. The operator must, therefore, assure himself continuing profitably in business by changing his present operating methods.

The time has come when he realizes machines will be very short in supply. He already knows that the prices of all late model used equipment has continued to zoom upward to the point where there is little, if any, of this equipment now left on the market at last summer's prices.

He wants and needs new machines. The new machines he buys now may have to last him for a long time to come. Prices of new machines are going up and will, as materials become more scarce and labor's wages continue to go ever higher, go up even more while production will fall.

Therefore, his only preservative at this time, his only way to assure his future if he hasn't already done so is to change over to a more equitable commission basis, to obtain front service money guarantees for everyone of his machines.

What is an equitable commission basis at this time?

The Cash Box has urged ops to try for a 75%-25% basis. This is now most equitable all surrounding factors considered.

What is good front service money?

For new machines from \$15 to \$20 per week. Old machines \$5 or \$10 per week. This money to be taken off the gross collection first and the balance remaining evenly divided.

At this very moment to a great many operators in the field this may sound like shooting at the moon. This isn't the fact.

Just as *The Cash Box*, months ahead of time, warned the trade of controls and restrictions that have already arrived, and urged ops to buy while they still could, it once again informs the average operator that the time grows shorter by the second.

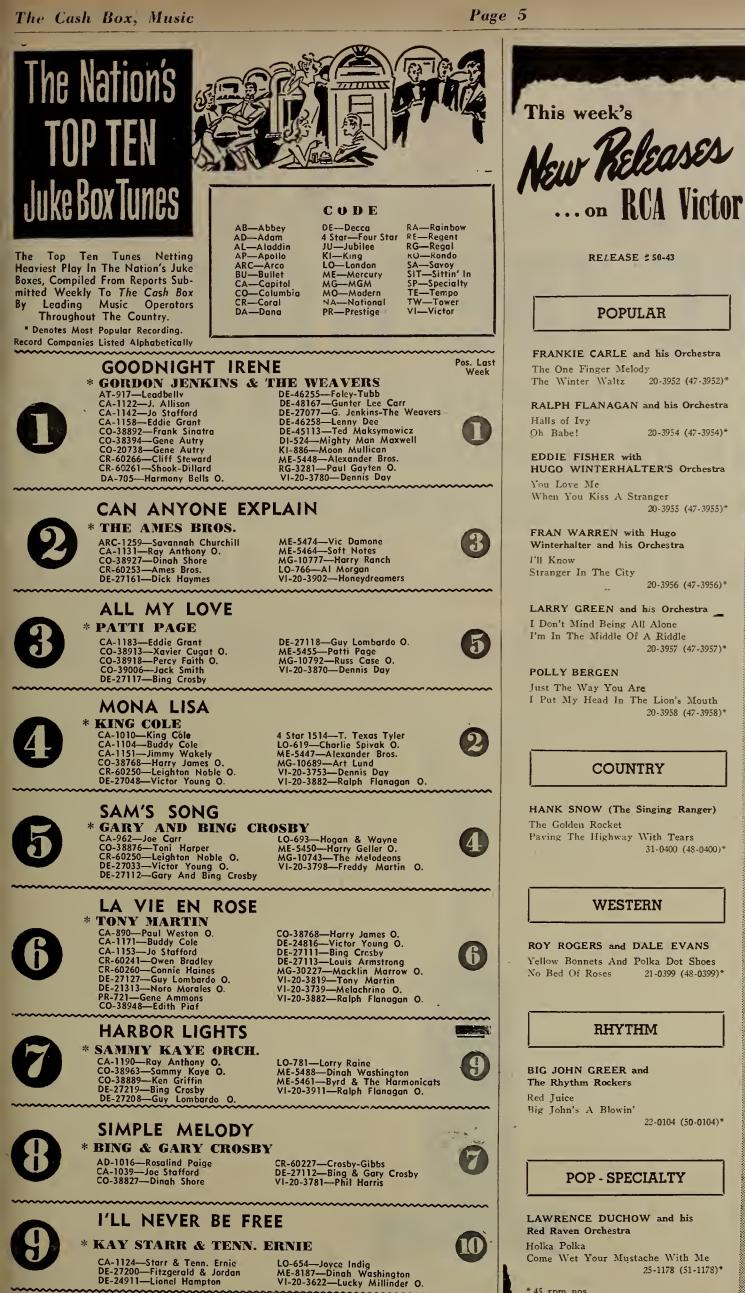

It is up to him to assure his future in this industry by equalizing the differential which now exists between profit and loss and arrange for his location owners to be "real partners."

A real partner shares all costs and expenses on a 50-50 basis. A real partner helps put away money for future emergencies and future needs. A real partner then divides what's left on an equitable basis.

Since the average storekeeper will not work as a "real partner" with the operator, then it is up to the operator to "sell" him on this idea for his own future welfare, as well as for continued profits for the location owner.

The average operator simply must, to assure himself enjoying this forthcoming biggest play boom in history, obtain a more equitable share of the gross intake from all of his equipment.

If he can't, due to whatever pecularities and problems that may exist in his territory, obtain an equitable percentage basis, then he certainly can arrange for front service money guarantee, and assure himself, in this fashion, enjoying better profits for the future, so that he will be able to outlast whatever the future has in store for him, and be in a strong and healthy financial position to continue on in business as a new era dawns.

Only Records Considered Best Suited To The Requirements Of The Trade Are Reviewed On These Pages.

### "LOVE FOR SALE" (3:16) "BE EASY, BE TENDER" (2:52) STAN KENTON ORCH. (Capitol 1236)

• Top deck of this one is a side which the Kenton fans should go wild over. Ditty is an old Cole Porter melody, served up in bright manner by Stan and the gang. Sock drive injected here makes it a grade A slicing. Flip has Jay Johnson on a so-so blues ballad, with the Kenton music shining thru. We like "Love For Sale."

### "YESTERDAY" (2:33)

"I'LL SEE YOU AFTER CHURCH ON SUNDAY MORNIN" " (2:45)

JO STAFFORD—GORDON MacRAE (Capitol 1235)

• Pair of slow, infectious tunes by the sock vocal team of Jo Stafford and Gordon MacRae should reap harvest for music ops. Both sides are in the romantic vein, with the vocal refrain smooth and sweet throughout. Echo of this one should prove to be a big thing for music ops. Latch on.

### "WHERE DO I GO FROM YOU" (2:22)

### "IT'S A MARSHMALLOW WORLD" (2:39)

RAY ANTHONY ORCH.

(Capitol 1196)

• Smooth dance music via the Ray Anthony ork—that's the wax story with this pair. Top deck has Ronnie Deauville & The Skyliners handling a moderately tempo'd romantic air that has some heavy winning potential. Flip has Ronnie back again on a plug Xmas ditty that is sure to score. Both ends will do more than hold their own—ops should listen in.

### "ROWDY-DOW" (2:45) "THE OCARINA" (3:08) JUDY VALENTINE (MGM 10828)

• Pert chirp Judy Valentine comes up with a hot potential winner in the novelty item on the top deck. Ditty is a bright catchy thing that makes you wanna listen and sing along. It's the type of tune that grows on you with each hearing, and is gilded all the more with some top vocal aid by the Quartones. Flip side is a plug tune from the "Call Me Madam" musical this rendition will certainly boom the popularity of the tune. Top deck rates a spot on ops machines.

"YOU'RE IN LOVE WITH EVERY ONE" (2:40)

"THAT OLD GANG OF MINE" (2:52) LAWRENCE COOK

(Abbey 15018)

• Pair of honky-tonk piano roll sides by Lawrence Cook, with some oldie tunes seeping thru the ether, are in store for music ops here. Both ends whirl in bright piano style, with the music sure to be familiar to most ops. Wax should hold its own as a filler item.

# SLEEPER OF THE WEEK

### "I CAN'T GIVE YOU ANYTHING BUT LOVE" (2:53) "YOU MEET THE NICEST PEOPLE" (2:52)

BUDDY GRECO QUINTET (London 855)

• Long missing from the phono spotlight as a name attraction, songstar Buddy Greco comes up with a side that's a cinch to clinch with music ops in a big way. It's an excellent rendition of an oldie Buddy offers, and is sure to rival the heavy popularity and success

### "MOMMY, WON'T YOU BUY ME A BABY BROTHER?" (3:31) "RUDOLPH, THE RED-NOSED REINDEER" (3:29)

SPIKE JONES ORCH. (RCA Victor 20-3934)

• This pair can't miss! Pair of sock Xmas tunes by the Spike Jones gang, with the crew taking it straight on both ends, has the flavor of coin play all about them. Both ends feature a pseudo-kid vocal that stops the show, with the lyrical expression sure to go like wildfire. Flip side is the one to ride with—grab it—but pronto!

### "AND YOU'LL BE HOME" (3:07) "ACCIDENTS WILL HAPPEN" (3:32) BING CROSBY

(Decca 27241)

• Pair of plug tunes from his "Mr. Music" flicker are offered here by Bing Crosby in good order. Both sides are tinted with a bit of romance, and make for effective listening pleasure. Top deck has the Ken Lane Singers backing Bing, while the flip has the groaner taking it solo. Wax has to be heard to be fully appreciated we suggest just that.

### "I SEE A MILLION PEOPLE" (2:45) "THE TOUCH OF YOUR LIPS"

(2:50) HADDA BROOKS (London 791)

• The slow, sultry warbling of thrush Hadda Brooks on this pair of oldies is sure to result in heavy juke box play for music ops. Hadda's deliberate slow wailing of this duo gilds the song immensely, with the light, hush-hush treatment making it all the more brighter. Wax is highly recommended. of his winner of some years ago, "Ooh Looka There Ain't She Pretty". Vocal work on the side is nothing less than terrific, with a clever alphabet spelling arrangement holding down the spotlight. Tempo is merry throughout, with some fast vocal and instrumental work by Buddy and the group shining brightly. It's a novel version of a sock winner, and is sure to earn heavy juke box coin for music ops throughout the nation. Flip has Buddy and the boys on another rhythm tune, with a cute set of romantic lyrics making you pay avid attention. Buddys vocal spot is great from the word go, and is sure to be greeted by his many fans with wide enthusiasm. Disk is a must in your machine grab 'em by the boxful!

"THE EVERLASTING ARMS" (3:10) "DAVID'S PSALM" (2:52)

DORIS DAY (Columbia 39023)

• Pair of slowly woven sides tinted with a bit of religion are offered here by chirp Doris Day. Both ends are rendered with plush orchestral and choral accompaniment, and make for excellent listening pleasure. Altho the sides aren't top commercial material, they should find favor with Doris' many fans.

"LET'S DO IT AGAIN" (2:30) "RAINBOW GAL" (2:35) Alan dale

(Columbia 39033)

• Vocal work by piper Alan Dale on this pair makes for pleasant listening. Both ends of the platter are rhythm tunes, with the top deck a throw-back to some ragtime beat of yesteryear, and the flip a bright new girl-tune. Both sides have been widely recorded, and should be familiar to ops. This rendition is one of the best around.

"GUADALAJARA" (2:51) "CUBAN MAMBO" (2:47) XAVIER CUGAT ORCH. (Columbia 38976)

• Pair of Latin flavored sides by Xavier Cugat, with some fair wax in the offing for music ops. Upper lid is an oldie, with Carmen Castillo in the vocal slot. Veteran music ops should be familiar with this one, since it scored heavily years ago. Flip side showers The Three Beaus & A Peep to the mike on a mellow up tempo mambo that should click with Cugie's many fans. We like the latter side we're sure you will too. "FROSTY, THE SNOWMAN" (2:30) "IF I WERE SANTA CLAUS" (2:37) GUY LOMBARDO ORCH. (Decca 27257)

• More Xmas wax in store for music ops, with maestro Guy Lombardo in the driver's seat on this pair. Both ends are handled by Kenny Gardner in effective vocal manner, with the Lombardo ork furnishing lighthearted music in the background. Top deck will be a hot seasonal item music ops should listen in.

"THE WINTER WALTZ" (3:07)

"PATRICIA" (2:04) RUSS MORGAN ORCH. (Decca 27258)

• Fresh wax by maestro Russ Morgan, with a pair of comely sides in the offing for music ops. Upper lid is adapted from the familiar "Skater's Waltz", and has Russ and the vocal group purring the cute, clever lyrics. Flip is a current winner with this rendition sure to garner some heavy juke box play. Ops should listen in.

### "CHRISTMAS IN MY HEART" (2:55) "THE CHRISTMAS TREE ANGEL" (3:05)

FRAN ALLISON (RCA Victor 20-3938)

• More top notch Christmas material in store for music ops are these sides by chirp Fran Allison. Both ends are lightly warbled, and make for some wonderful listening pleasure. It's smooth sentimental stuff, the kind that makes you wanna listen all the more. Top deck our nod.

### "CAN'T SEEM TO LAUGH ANYMORE" (2:45) "I CROSS MY FINGERS" (2:48)

THE ORIOLES (Jubilee 5040)

• Vocal harmony by The Orioles, and the set up of some great wax for music ops in this pair of teeming ballads. Top deck walks away with the honors, and shows the combo's vocal style to excellent advantage. Ditty is a dramatic vocal effort, with the sugar-coated, meaningful lyrics handled in superb manner throughout. Coupling shows just as well, and makes for wonderful listening pleasure too. Don't miss the top etching.

### "PAGAN LOVE SONG" (2:56) "MY BLUE HEAVEN" (2:49) ZIGGY ELMAN ORCH. (MGM 10815)

• Swing tempo accorded the oldie on the top deck provides for some nice wax for music ops to lend an ear to. Vocal echo by Virginia Maxey is effective throughout, with the band blending smoothly too. Coupling features the maestro on another standard which should hold its own. Wax is there for the asking-music ops take it from here. **Armstrong-Jordan Teamed On Decca** 

NEW YORK—Teamed for the first time on Decca wax are a pair of "Looy's" —Armstrong, left, and Jordan that is. The all-time great combo got together on "Life Is So Peculiar" and "You Rascal You", both rapidly climbing to a top spot in music ops' popularity.

# Mercury Acquires HerbPaulWexlerNamedJeffries & Jan AugustGeneralSalesMngr.MastersFor Columbia

CHICAGO—Mercury Records Inc., this city, this past week acquired 37 sides recorded by Herb Jeffries, and 16 sides by Jan August.

Mercury is reported to have paid \$2,200 for the Jeffries wax, originally cut for Exclusive Records who closed their doors some two years ago. The plattery has thus far made no announcement concerning the release of the Jeffries disks. Mercurys acquisition of the masters gave way to rumor that the singer would sign with the diskery, altho this was denied by Jeffries' manager, Maurice Duke. Jeffries current contract with Columbia expires January 1.

The August deal concerns the leasing of 16 masters to Mercury, which the ivory-thumper originally etched for Diamond Records. Included in the deal are such standard hits by August as "Misirlou" and "Babalu". August, who has been recording for Mercury for some time now, purchased the masters from Empire Records, who in turn acquired them at auction when Diamond Records closed shop several years ago. August, as of late, has been recorded by Mercury with vocal and orchestral accompaniment.

The latest Decca release features "Time Out For Tears" coupled with "Dream Awhile."

Also newly-released are two sides made with Gordon Jenkins' chorus and orchestra. They are "Our Lady Of Fatima" and "A Stranger In The City," featuring Billy Kenny, lead singer, in the group. NEW YORK—Beginning Monday. October 23, Paul J. Wexler will assume the post of national sales manager for Columbia Records, replacing Jeff Wilson who has resigned. Wexler, who has been with Columbia for ten years, has until now been district sales manager of Philadelphia, Baltimore, Washington, D. C., Richmond and Pittsburgh. He will work out of the Bridgeport office and will report to Paul Southard who's in charge of merchandising for Columbia.

# **HOW IMPORTANT ARE 45 RPM DISKS TO JUKE BOX OPS?**

NEW YORK—There is, currently, much discussion throughout the entire automatic music industry concerning the use of 45 rpm recordings.

While 45 rpm records have gained wide popularity with home users, and there is every indication that the new speed platters will gain as much favor with the juke box business, the latter group has not to any great extent thus far dealt with 45 rpm recordings in the actual operation of a phonograph.

Tests were started some months ago, with machines being converted over to feature 45 rpm records. The operators who made these first tests have learned much that is of interest to all other music ops. As an indication of the growing interest in 45 rpm recordings, one counter model phono has appeared on the market exclu-sively featuring 45 rpm records. Though this machine isn't selective, it has won much attention simply because of the fact that it is featuring the new speed platters.

There is every indication in the field that 45 rpm recording will one day be the only, or standard speed existing, insofar as popular music is concerned at any rate. Record manu-facturers have realized this, as have phonograph manufacturers too.

The music operator is today one of the largest buyers of phonograph recordings. There are now reported to be over 550,000 locations featuring automatic music of one type or an-other, and with demand for new juke boxes at the highest peak ever, it is believed, unless production is stopped, that over 600,000 locations in the United States may one day soon be featuring automatic music.

Music operators are intensely in-terested in 45 rpm recordings, since they basically believe that revenue from the operation of their routes might be increased with the use of 45's. The many features that 45's have considerably outweigh those of 78 m more than 10 m m 78 rpm recordings. Ops have taken into conisderation, breakage, size, at-tractiveness, handling, price and also the novelty of the platters themselves.

The juke box manufacturers are therefore also tremendously interested in the growing belief that 45 rpm records will be of help to the music operator, and being in the midst of tremendous demand for new phonographs, they are trying to foresee the

time when 45's may take over. Concerning 45's, there is one point on which all juke box ops agree. That is that these records give better and clearer tone, even when records are warped to any degree. Tone is not distorted in any fashion by the warp-ing of the 45 platter. This music ops believe is of great importance. It helps win the public over to their machines. The location owners too, these

ops state, are better pleased with the 45's because of the clearer tone. More important to music operators

is the question concerning handling of 45 rpm records. In view of added restrictions and the probability of more to come in all forms of enterprise, the fact that 45's are easier to handle has met with widespread ap-proval with music ops. They can service a larger number of machines, with all the platters necessary for the phonos right from the ordinary auto, instead of from trucks. This in many respects, cuts down on their opera-tions overhead, by reducing their cost and wear and tear of gasoline, tires and accompanying normal expenses. In short, as ops explain, they can simply pile all the 45 rpm disks they need right in the back part of their auto, and service a route of more than double the size they have which features 78 rpm platters.

The ops also point out that 45's more or less solve a big problem of storage. They can devote more space to parts and supplies and phono-graphs, with the additional space they save by using 45 rpm records.

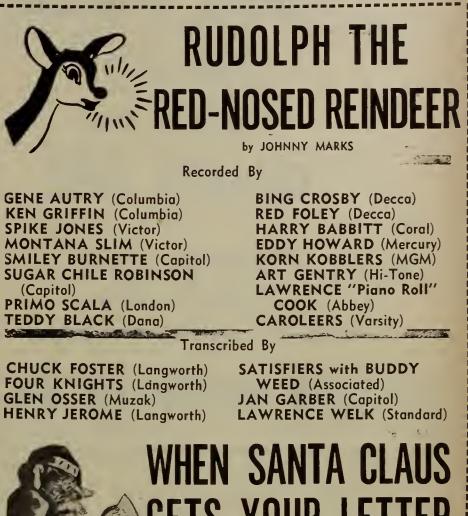

Ops claim that by far, the most outstanding feature of 45's is that they have far superior lasting quality than 78's. A top tune on 78 will sometimes wear out in several weeks, whereas by using a 45 rpm recording in its place, they need not worry about a changeover until the particular pop-ular song itself has gone by the boards. This, in addition to being a saving in servicing of phonographs, represents an actual dollar savings to the op.

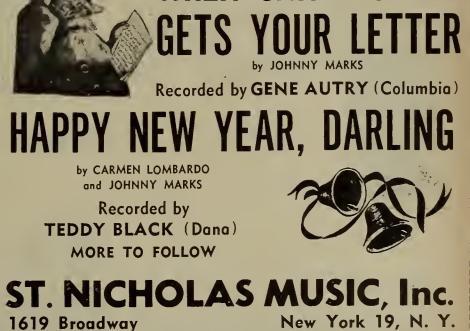

With more manufacturers than ever before in heavy production of 45 rpm records, the music operator need not worry about an ample supply and selection of songs by particular recording artists. The operator can buy nearly every given hot tune by an artist, on almost any label he desires. This situation holds true with record means with regard to the indie record manufacturer as well as the majors.

The basic problem as far as conversion is concerned to the music op, is that the bulk of his equipment is presently geared to play 78 rpm rec-ords. Any conversion will run the operator into considerable expense. Aside from this, more operators than ever before realize that eventually he will switch to 45. It is true, of course, that the phonograph manufacturers are cognizant of the music operator and his position with regard to any possible major switch from 78 to 45. Many are making conversion plans geared to the operators' point of thinking.

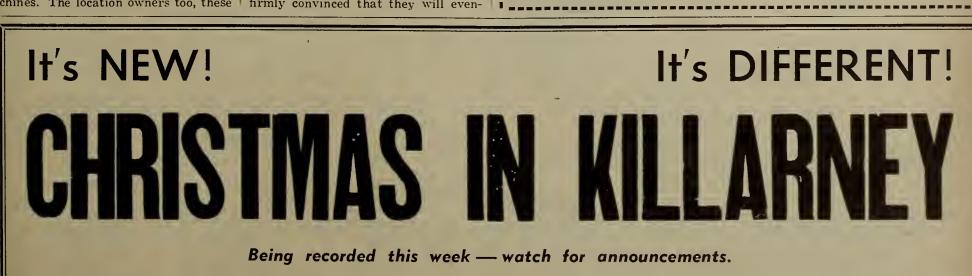

The answer, ops generally agree, is very simple. 45's mean more profits to the operator. The operators are firmly convinced that they will even-

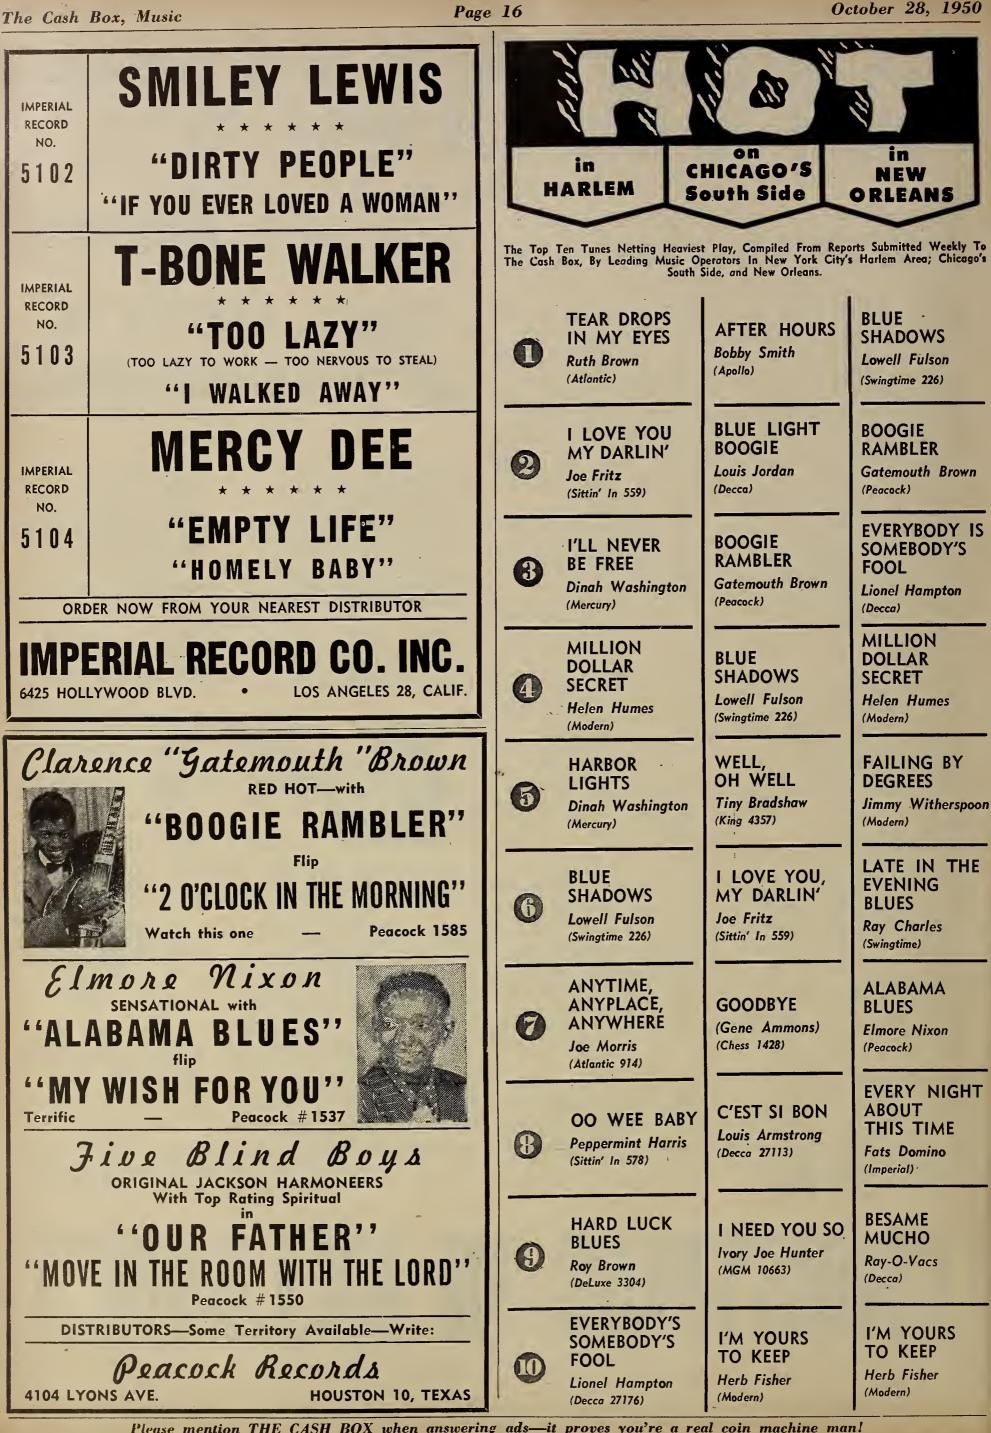

tually convert the majority of their machines to 45 rpm, and as a result, usher in a new prosperous era for them.

LACK OF STEEL FOR VENDOR CABINETS

Page 23

Plants Working Two And Three Days Per Week As Steel Cabinets Become More Difficult To Obtain. Cigarette And Drink Vendors Hardest Hit. Mfrs Ration Production. Fear Further Controls May Up Prices As Mfrs Scramble To Obtain Steel.

CHICAGO—Lack of steel for cabinets is closing down many vending machine plants to two and three days per week production.

With the newest order just issued by NPA, whereby factories doing defense work will be given priority for all materials necessary to continue its production schedules, vending machine manufacturers fear even further lack of steel.

In fact, it is generally believed that such factories as those manufacturing cigarette vending machines and drink dispensers, will soon be down to only one or two days' work per week. This may cause loss of employees.

Steel left over on the market, after defense work makers have taken their share, it is believed, will see a grand scramble ensue for its possession, which will boost prices to new high marks.

If such becomes the case, there is no doubt that the prices of those vending machines using steel cabinets will again be forced to go up. This may tend to cut down on the tremendous demand which is now in effect thruout the industry, some state. Majority believe otherwise.

It has been well known for some months now that manufacturers who have been able to obtain steel, and continue production of their vendors, have been rationing their production.

Orders for large numbers of machines have been receiving only a very small percentage of what has been ordered.

In this way manufacturers have been able to spread whatever they could produce in a thin mist all over the country, satisfying as many of their customers as possible, instead of giving the hog's share to any one buyer.

This rationing practice has met with approval. Operators believe that this is fair.

They can, they state, at least get a few new machines, before the time may arrive when production will hit such a low mark that there just won't be any machines available.

In the meantime, most of the manufacturers have been able to supply all parts required by the trade.

Few know what the future holds, except as leaders state, it will surely become very difficult soon to obtain the steel necessary for the large cabinets used in manufacture of the cigarette vendors, drink dispensers, and other machines in this category.

Components are in short supply, and even tho the majority of the manufacturers make their own parts, they find materials for parts have become very difficult to obtain. Some of the larger vending machine

plants already have representatives

in Washington, D. C., seeking defense work.

This may cut even more deeply into present production than operators now realize.

The very best that can be done at this time, one manufacturer suggested, is for operators to order as far in advance as they possibly can, anticipating their needs, so that the manufacturers will buy on whatever production he will have on hand in bona fide orders.

It is also reported that some of the manufacturers are now demanding deposits from well known accounts to assure them not being caught, should they be able to obtain the materials needed for continued manufacture.

In this fashion, only bona fide orders will count in future production attempts, as the manufacturers scramble to obtain whatever materials they can so as to insure continued production, even on a much depleted scale.

### Will Exhibit Ice Vendors At Ice Industries Conv.

CHICAGO—Automatic coin-operated ice vending stations, newest improvement in ice distribution, will be a feature display at the 1950 convention of the National Association of Ice Industries at the Hotel Sherman, Oct. 31-Nov. 3.

Located at well-trafficked points, the stations function as neighborhood branches of the main ice plant. A routeman reloads them at intervals.

Latest models of the stations will be shown by the Refrigeration Engineering Company and the Penguin Ice Service. The latter company plans to display its new "Penguin Pallet Vendor."

Thermo Cuber Company, Inc., will exhibit automatic vending machines for installation at ice plants. Included will be gravity vendors, metal belt driven vendors, and chain driven vendors for dispensing both ice blocks and bags of crushed ice or ice cubes.

New wall chutes designed to minimize the loss of refrigeration and pilferage of ice from vending machines will be another feature of the Thermo Cuber Companys exhibit. In addition, icemen will be shown Thermo Cuber coin boxes of three types: A lever-operated box that will reject slugs and return the money when a vendor is empty; a coin-operated box with a totallizer that will perform the same operations and also take any combination of coins to make up the sale amount; and a slide operated box with a coin return.

# **DEFENSE WORK BRINGS BACK SLUGS PREMIUM USE FOR SHUFFLE**

### Ops Urged To Contact U. S. Secret Service Offices To Halt This Practice

CHICAGO - Executives of United Manufacturing Company, this city, advised this past week that their roadmen had been receiving complaints from ops in several defense work centers that they are plagued, once again, by slugs which are produced thru manufacture of certain equipment.

Ment. As Ray Riehl, Bill DeSelm of United reported, their roadman, Johnny Cas-ola, had run up against this problem in upper New York state. Ops there are again reporting quite a few slugs in their amusement games as a result of the increased factory work in this area

work in this area.

With slugs now a Federal offense, it is surprising to hear that anyone is using them. And tho ops in this area, using them. And tho ops in this area, it is reported, have made some effort to stop the use of slugs, they haven't been able, as yet, to find what plants these slugs are coming from. Factory execs are of the belief that slugs may increase in many areas thruout the country as more defense work gets under way.

They are therefore urging ops, wherever slugs become a problem, to turn this matter over to the U. S. Secret Service who will, most cer-tainly, put a stop to their use. Federal law on slugs went into ef-fect in April, 1944, as an amendment to Criminal Code, Section 168, and has been in effect ever since.

to Criminal Code, Section 168, and has been in effect ever since. In fact, since this law went into effect, few, if any, slugs have been reported by operators. But, with defense work increasing all over the country, there is no doubt that metal is being stamped out in larger quantity and which can be used as slugs in every type of amusement and vending machine as well as in telephones, if the slugs will fit ma-chines. chines.

Operators are therefore urged to get in touch with their local division of the U. S. Secret Service or even the FBI and that a definite stoppage of the use of slugs will be placed into effect by these law enforcement agen-cies of the Federal Government im-mediately.

### **Ops Feature Premiums To Get "Front Money." Leading Distribs Feature Big Stocks**

**GAMES SHOW BIG INCREASE** 

CHICAGO — This publication was first to report the growing use of premiums by shuffle game operators. The fact that the amusement game ops could use premiums to obtain front money, seems now to have appealed to other ops thruout the country. Reports are coming thru each week that more and still more shuffle ops are using premiums.

are using premiums.

The average operator buys his premiums at a very low price. Dis-tributors who now handle premiums, actually featuring them as an accomo-dation, instead of a profit factor. The operator charges close to retail cost of the premium off the top of the col-lection to the location owner. lection to the location owner.

In most cases, this gives ops any-where from \$5 to over \$20, depending on the merchandise featured, as profit on the premium. This profit, ops fig-ure, to be the very same as front money.

The use of premiums has, in almost

every case, helped ops to stimulate profits from equipment on which play was slowing down. Premiums have stimulated play to the point where location owners agree with ops that premiums were necessary for better profits.

The result has been that, wherever they can be used, shuffle game ops are featuring premiums. This continues to spread into even the smallest towns. Usual method is for one premium to be awarded for the week. Players are

given tickets when they reach or pass a certain score. They can obtain one or more tickets in this fashion.

The tickets are then placed in a box, The tickets are then placed in a box, with the player retaining a stub, and a drawing is then made during the week. The ticket picked from the box, during the drawing, is the one that obtains the premium featured. In this fashion ops have made the awarding of the premium about as fair as it possibly ever will be.

### **Rock-Ola To Hold Private N.Y.** Showing Of "Rocket '51-50" Phono

J. A. (ART) WEINAND

CHICAGO-On very good authority, it was reported this past week, that representatives of Rock-Ola Manufacturing Corporation, this city, would hold a private showing of their long awaited phonograph, "Rocket '51-50", at the Hotel New Yorker Parlor E and H, in New York City, Friday, Saturday and Sunday, October 27, 28 and 29.

The reason for this advance private showing of their new "Rocket '51-50" on the above dates is because they coincide with the date of the annual big banquet of the New York Automatic Music Operators Assn. gala banquet at the Waldorf-Astoria which will be held Saturday evening, October 28.

Tho many have already seen the 50 selection mechanism of the new Rock-Ola "Rocket '51-50", which was shown some months ago, all were very interested in the type cabinet the firm would present.

This private prevue of the phono will present the cabinet for the first time to the trade.

It is also expected that J. A. (Art) Weinand, general sales manager of Rock-Ola will be at this prevue showing in view of the fact that some weeks ago he notified New York's AMOA that he would attend their banquet.

### **First Distributors Features New Premiums**

CHICAGO-First Distributors was a very busy spot all this past week as one shipment after another of brand new premiums continued to arrive.

Wally Finke had attended the premium show in New York and did quite a bit of buying while there.

"All these new premiums that arriving now," Wally reported, "are the result of our visit to the premium show in New York where we placed some of the biggest orders for merchandise the operators want and need."

Joe Kline of the firm says that operators are tremendously pleased with the new premiums.

"In fact," he stated, "they tell us that these are the most attractive they've ever seen and that their locations compliment them on these new premiums when they bring them around."

# **Ray T. Moloney's Donation Equips Chicago Hospital Research Room More Plants Take On Contracts For Defense Work**

CHICAGO — This past week saw more coin machine plants take on defense work contracts which will cut their normal production potential.

Distributors who arrived here to discuss shipments of equipment with manufacturers were much perturbed by what they saw and heard.

As one leading distributor said, "It's time that the operators were told that more and more plants are taking on defense work and that this is cutting deep into new machine production."

In fact, distributors who visited here, were attempting to make arrangements with their factories for continued shipment of merchandise, regardless of how deep normal production would be cut.

It is also reported that some of these men committed themselves for definite amounts of machines, based on their receipt of sample first, to judge what they could use, of any and all new machines which the factories planned to produce in the near future.

As one leader said, "After my visit here, I can only state that I now really feel the defense work program and," he continued, "it's about time that all the operators, everywhere in the country, were given some idea as to just what is happening here in Chicago, so that they wouldn't waste time and get whatever they could, while the getting's good."

RAY T. MOLONEY

CHICAGO-Mrs. Trudy Coven was a very jubilant young woman this past week when she reported to the Mt. Sinai Hospital Research Foundation that Ray T. Moloney, president of Bally Manufacturing Company, had donated \$5,000.00 to fully equip a spe-cial "Ray T. Moloney Room" in the Research Foundation of this very prominent hospital here prominent hospital here.

# **Deal For Ops**

BEN COVEN

CHICAGO-Ben Coven of Coven Distributing Company, this city, direct factory distributors for Wurlitzer phonographs and music accessories as well as the famous Bally Manufacturing Company products, reported this past week that the firm was planning a new deal for all operators, in this area.

Coven has introduced some very successful plans for operators in the past.

His finance plan is considered one of the best in the country and has been responsible for helping many operators to increase their businesses without hardship.

In view of the fact that the firm's business has jumped to a new high mark Coven is planning to make it very worthwhile for the operators to deal with his firm by making some unusually fine arrangements for them.

In addition, the firm has tremendously increased its premium department. They are featuring some of the most outstanding premiums on an exclusive basis.

Music ops, especially, can get one of the most interesting business arrangements from Coven Distributing at this time, salesmen of the firm stated.

They report, "Music operators should contact us immediately for we have something of real value for them."

In the meantime, Coven said, "We will, very soon, have these new plans completed.

"Operators who are interested in the best merchandise on finest arrangement, both as to trade-in and financially, should contact us immediately.

"While we are completing these plans the operators who will call on us will profit immensely."

# **Coven Plans New Williams Presents** "Pinky" Pinball

"Double Header" Production Continues

SAM STERN

CHICAGO-With "Double Header" still in production, Sam Stern, executive vice-president of Williams Manufacturing Company, announced this past week its new five-ball free play game, "Pinky."

Pre-tests of the game had proved it one of the best the firm has ever yet produced, stated Stern. He also stated, "'Pinky' features an

entirely new playfield layout, as well as many features which have never before appeared to make any five-ball game so attractive to the players."

Among the features which appear on "Pinky" are: Rollover channels; kickout pockets for numbered sequence scoring; a super channel with light-up rollover for replay awards; extra high score kickout pocket feature; "P-I-N-K-Y" rollovers for spellout awards; special spot feature that increases values and spots numbers and letters.

In addition, like all Williams' fiveballs, "Pinky" will also feature the thumper bumpers, tilt reset and flippers.

Sam Stern said, "Everyone who played the new 'Pinky,' and everyone who watched it on test locations, agrees that this is one of the most outstanding five-ball games to ever appear on the market.

"Whatever the player likes best," he continued, "appears on 'Pinky' in intriguing and interesting fashion.

"This is one game that gives every operator the opportunity of booming collections on all of his locations.

"'Pinky' will keep players' interest at fever pitch for a long time to come on any location."

### "Spot Bowler" New Gottlieb Pinball

CHICAGO-D. Gottlieb & Company presented a brand new five-ball free play game to the market this past week that has clicked with all who have so far had the opportunity of looking it over and playing it.

The game is appropriately called, "Spot Bowler," and has many new features to increase earning power. There are strike targets, four strike

rollovers, spotting rollover buttons, five two-pin pickup bumpers, the A-B-C feature which lights rollovers for awards, actual miniature bowling pins automatically reset in lights, a mystery special when lit, mystery high score bonus pockets, and flippers,

as well as one of the most colorful layouts seen on any playing field of even some of the great five-balls which this firm have built in the past.

Executives of the firm were highly pleased with first reaction to the game from their distributors.

In almost every case, they report, distributors were tremendously enthusiastic over "Spot Bowler."

From all present indications, this game is bound to enjoy a long run in the field.

Ops who have already seen it, called it, "One of the best of the five-balls games to be presented by D. Gottlieb & Company."

### Bally "Turf King" In Production 21 Consecutive Weeks

HERB JONES

CHICAGO—Herb Jones, vice president of Bally Manufacturing Company, proudly announced this past week that their great game, "Turf King," was now in production for the 21st consecutive week.

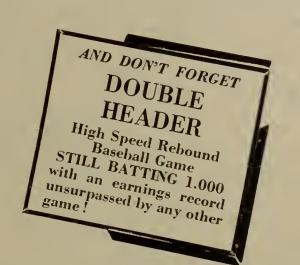

This is, probably, an all time record for consecutive week's production for any game.

The game is still going strong and is considered one of the most outstanding successes ever introduced to the industry.

"In fact," as Herb Jones reported, "there hasn't been any week which could be labeled as 'slack,' as far as production of Bally 'Turf King' is concerned." "The game just goes on and on," he continued, "and there is no halt in sight as the operators, everywhere in the nation, decide that Bally 'Turf King' is the game they need to insure themselves for the future."

The Bally "Citation" and Bally "Champion" were two of the greatest games the firm had yet produced, in the same comparative time, it never equalled the production run of 21 consecutive weeks which Bally "Turf King" has already set and, with weeks of production yet to come, may set a record for the firm which will stand for years, regardless of the great games which the future may bring.

"There is no longer any doubt," Herb stated, "that Bally 'Turf King' is the one game that has helped operators everywhere in the country to enjoy better times."

### Exhibit's "Dale Six-Shooter" Revives Interest In Guns

CHICAGO—Interest in guns has been greatly revived by the introduction of Exhibit Supply Company's new "Dale Six Shooter," according to executives of the firm.

Ford Sebastian, Joe Batten and Frank Mencuri of the firm have been pleasantly surprised at the great interest which is being shown in their new ticket vending "Dale Six Sooter." For sometime, Mencuri reported, he

had calls from operators, jobbers and distributors, regarding a new gun. "This," he said, "decided us on pro-

"This," he said, "decided us on producing a new and entirely different type of gun with features never before seen on any gun."

The result, as all now know, was the introduction of Exhibit's "Dale Six Shooter."

The gun caught on from the very first day it was placed on locations. In fact, the firm said nothing officially regarding this gun, while it was being tested on various locations for sometime. Even prior to first official announcements, demand for this new gun got under way, and the firm were forced into production far ahead of schedule, they stated.

• Today, Exhibit's "Dale Six Shooter" is considered one of the most popular and outstanding products on the market.

More and more ops purchasing the guns for they have learned that the public is more interested in guns than ever before.

At the same time, Exhibit's "Dale Six Shooter" lends itself perfectly to battery arrangement in arcades. It is a natural for operation in batteries of ten and more along the walls of arcades.

As Vic Weiss reported, "Working with carpenters, plumbers, electricians, and all the others that are necessary to get these new quarters ready, is something that can knock out anyone these days."

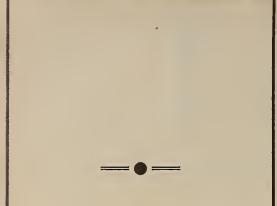

But, both state, when they do get set they will have a very big and pleasant surprise for everyone at their grand opening.

# MUSIC HOLDS TOP SALES SPOT

Phonos Distribs Report Demand New For Machines Continues. Late Model Used Higher. **Continue Scarce And Priced** Ops Finding Tubes And Other Supplies More **Difficult To Obtain** 

CHICAGO — Noted music distribs here, as well as many who have been visiting this city, report that the demand for new phonos continues on unabated and that, without any doubt, music holds the top spot in sales at this time.

They also state that it looks like III get supplying the demand that they are enjoying.

In fact, one distrib stated, "With the demand what it is, and deliveries smaller than ever, we don't see how we are going to take care of the many orders we have on hand at this time, or in the future."

It is not believed that the manufacturers, because of scarcity of materials and components, will be able to step up production to help out the demand which these distribs are enjoying.

Another feature of the music machine market is the fact that the later model used machines have continued to go up in price and, at the same time, are much more scarce than they ever have been before. Distribs find it almost impossible to dig up the number of used phonos they can sell

they can sell.

One distrib said, "I could sell forty times the number of good used phonos if I could only dig them up somewhere."

In addition, of course, ops are also being plagued with shortages and difficulties at this time. Tubes are becoming extremely scarce. Prices have zoomed. Other parts are also getting hard to obtain. Ops feel that, unless some better

arrangements are made for parts and supplies, that they are going to find themselves in a very desperate po-

sition some months from now. Yet, with everything considered, demand for music continues stronger than ever, according to distribs, and the problem is to be able to obtain enough machines to fill current orders.

# United's "Four Player Shuffle Lieberman Music A Alley" Outstanding Success

BILL DE SELM

CHICAGO—The new "Four Player Shuffle Alley" of United Manufactur-ing Company, this city, "Has clicked", according to sales manager Bill De-Selm. Tho DeSelm believed, all the time, that their newest addition to their shuffle alley line, "Four Player Shuffle Alley", was "sure to go over the top because of first demand we received", he reports that he didn't want to make any definite statements want to make any definite statements in regard to the game, until it had spread far out in the field, and many more ops had placed it on location.

"We can now safely state", DeSelm said, "that our 'Four Player Shuffle Alley' is one of the most outstanding of the games we have ever built.

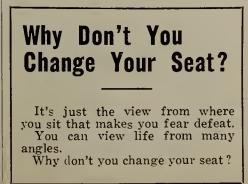

"Demand continues to go up for the game, as we previously reported, and," he continued, "from almost everywhere in the country we are receiving congratulations and notification that the game clicks on all types of locations.

At the same time United has its Single Player Shuffle Alley and its Twin Player Shuffle Alley also on its production lines and going ahead at top speed.

But, the game that seems to be getting the lions share of attention at this time from everywhere in the nation, is "United's newest, "Four Player Shuffle Alley", which has taken strong hold everywhere.

More and still more orders are be-ing rushed into United's plant here to get as many as possible out into

the field. "The 'Four Player Shuffle Alley'", according to Bill DeSelm, "looks like it will continue in production for a long time to come."

# And Hy-G Music **Combine Firms**

MINNEAPOLIS, MINN.—Two of the foremost distributing firms in the country, with offices in this city, merged effective Monday, October 16, to form one large distributing organization. The Liberman Music Company, headed by Harold Lieberman, and the Hy-G Music Company, headed by Henry H. Greenstein, consolidated its companies into the firm now known as the Lieberman Music Company-Hy-G Music Company.

The Liberman Music Company is now in the process of moving its equipment and offices over to the Hy-G Building at 257 Plymouth Street, North, which has been head-quarters for the Hy-G Music Com-nany for years. This building is a large three story structure with ample display room, office space, stock room, repair department, and warehouse.

It was announced that the entire personnel of both companies will be retained intact.

The new firm, combining its re-sources, now will represent some of the finest factories, among which are: Wurlitzer phonographs, Chicago Coin Machine Company, The Exhibit Supply Company, D. Gottlieb & Company, Universal Industries, Inc., Watling Manufacturing Company, and Coral records.

Harold Lieberman was practically born in the business, working with

"It's What's in THE CASH BOX That Counts"

his father, who was one of the pioneer years coinmen, starting over forty ago. During his active participation, Harold has won himself a most wonderful reputation in the trade.

Hy Greenstein entered the distributing phase of the business in 1932, and has represented many of the leading manufacturers in this area since.

At the moment everyone is busily engaged in the matters of moving, organizing personnel and getting set up. When all details are completely settled, Lieberman and Greenstein have plans to run a tremendous open house party for the trade. Date will be announced shortly.

While talking things over, coinmen down here wondered what they could do to entertain all the NCMDA (National Coin Machine Distributors Assn) members when they arrive here for their meeting on January 5, 6 and 7. Ops decided the best thing is to sell these guys their old machines. . . . Vic Comforte was down here enjoying himself and then left to get back to Chicago and work with Lou Koren. If you guys in Chicago see Vic walking around with a deep tan-that's from Miami's sunshine. . . . Wi'lie (Little Napoleon) Blatt played host to Joe Munves of Mike Munves Co. who was down here a few weeks ago to show the boys the firm's new hockey game. Joe stated that his trip all the way down the east coast was extremely successful and he hoped that the firm could quickly fill all the orders he had taken. . . . The boys on Tenth Ave. in N. Y. C. had better be on their toes. Dave Engel bids farewell to Miami and is going back to start in business on New York's Coinrow. . . . Sol Tab, one of the foremost juke box ops of New York, is down here in Miami searching for a route. Sol's going to make Miami his home on advice of his physician. . . . We are being honored here by permanent residence of one of the largest distribs of New York and Chicago. He has already purchased a home here. But, as yet, has asked that his name not be mentioned until he closes out his present biz interests. . . . Lou Koren here to open his King Cole Hotel. . . . Sam Taran has been a very busy man since his return from his last trip to Chicago. Business is simply booming with Ely Ross running here and there trying to take care of the demand the firm are enjoying. . . . Ted Bush and Ozzie Truppman, along with their roadman, Ken Willis, are buying up routes wherever they can place their hands on them. Ted believes that more and more music ops will make Miami their home and is getting ready to have them start right in business with routes he'll buy and build for them. . . . We've enjoyed a terrific summer season on the Beach and this Fall has started off even busier than ever. Looks like everyone will be here this winter from letters arriving to coinmen here daily.

# **CHICAGO CHATTER**

General biz slideoff hit the field this past week. Distribs complained to the high heavens. It sure is tough, once used to speed sales action, to suddenly have to slow down, and wait for ops to completely digest what they have already bought. But, like everything else, as controls get tougher, parts, supplies, etc., become ever harder to obtain, biz will come back with a rush that will have the distribs simply dizzy trying to keep up with demand. In the meantime, this slideoff has given factories a chance to catch up, and get some material ahead so that, perhaps, they may be able to continue for balance of this year, anyway, without too much rushing about to obtain materials. Just watch biz come back. . . . Frank Mencuri of Exhibit, a busy man these days. They feature book matches of their own with the following imprinted, "Serving our customers for 15 years with the most modern equipment and superior service. You have the finest when you have music by Mohawk." (See Illustration)

Coin row was treated to a special view of a sartorial cowboy this week, when Eldon L. Dale visited Mike Munves. Dale is the inventor of the famous "Dale Gun" and the current hit machine "Dale Six-Shooter", both manufac-tured by Exhibit Manufacturing Company. In addition to these two great machines, Dale has been responsible for bringing the coin trade a number of other amusement machines in the past. From New York, Mike Munves reports that the sale of Exhibit's great "Dale Six-Shooter" exceeds all high expecta-tions, and his only problem is to get shipments vanidly enough to take same tions, and his only problem is to get shipments rapidly enough to take care of these orders. . . . We catch up with those Bally behemoths, Ben Becker and Art Carvey the early part of the week; they were visiting Barney (Shuggy) Sugerman of Runyon Sales. Becker left for a Western trip, and Carvey headed for the upper New York territory. Mention in the Chicago Chatter column (issue October 21) regarding the "best dressed man" in the industry started Ben, Art and wown correspondent off on a mental survey of the industry's clothes Art and your correspondent off on a mental survey of the industry started Ben, Art and your correspondent off on a mental survey of the industry's clothes hounds. We endeavored to name them in classifications of fighting weights, but the number was so great, and the possibilities of overlooking some friends was inevitable, that we list the winner in two classes only: The Super Dread-naught Class (weight 250 to 275 lbs.) Ben Becker; The Missouri-Super Car-rier Class (weight 275 to 300) Art Garvey. Garvey, ex Notre Dame and pro-fessional football star, still has an extremely soft spot in his heart for his alma mammy. Whenever possible Art will travel miles to watch the Leaby alma mammy. Whenever possible, Art will travel miles to watch the Leahy team in action. ### DALLAS DOINGS

DALLAS DOUNGS The State Fair of Texas wound up Sunday night with the biggest two weeks of profit in the history of the State Fair. . . The most amusing incident we heard of happened to two ops, Van Vandergriff and Leonard Prather of the Magic Music Company. They took in the fair on a Saturday night and parked their car in a parking lot. Came Monday morning and everyone was looking for the long lost car. Boys, please let me know the outcome of this incident. Did you or did you not find your car? . . . A note from R. L. Choate, quote: "In regard to your September 30 issue of 'The Cash Box', where it stated Mr. McCay had purchased the Resort Music Company in Mineral Wells. I purchased the Resort Music on July 28th from W. O. Wilburn and Allen Wallice of Mineral Wells and moved Mr. McCay from my Clifton route. I am looking forward to my next issue of 'The Cash Box'." Our apologies to Choate and many thanks for your letter. . . . Just had a long chat with Harold Strange regarding the automobile accident in which Jack Sprott was very seriously injured. Jack had a head-on collision near Lubock, Texas, that wrecked his Cadillac and nearly cost Jack his life. We understand that he is somewhat improved, but very ill. Of course we wish for Jack a speedy recovery. If anyone just happens to have any information leading to the purchase of his out-of-town customers for the Bowl game. . . Incidentally, American Distributing, expects Chicago Coin's five-ball "Fighting Irish" sometime this week. . . Tommy Chatten is back in Shreveport. . . Congratulations to Mr. and Mrs. Ray Langly of Dallas, on the arrival of infant Walter Ray. . . . If you saw Joe Metessa's red convertible at the Fair Monday, it wasn't loe. Woodrow Dawson, employed at American Dist. horrowed it for a day

. . If you saw Joe Metessa's red convertible at the Fair Monday, it wasn't Joe. Woodrow Dawson, employed at American Dist., borrowed it for a day and he and the red flash had quite a time. . . . Belated Birthday Greetings to De'amar, Mayor of East Waco. Dele, you should let us know about these things

COINMEN YOU SHOULD KNOW: This coinman is no bigger than two minutes, but gets around Dallas like a veteran operator. We are speaking of Albert "Chick" McKool, owner and operator of the McKool Music Company. Chick has been in the coin biz two years, thanks to American Distributing Company. Before going into the business, Chick was a typewriter salesman and repairman who just happened into American Dist. peddling his typewriters. While there, he began to ask a few questions about the equipment he saw. Minutes turned into hours and before the day was over, Chick was in the business. He now operates around sixty music pieces and it's reported he recently started a program of replacing all his music machines with A.M.I. equipment. He hopes, it's stated, to eventually be 100% A.M.I. He hasn't any hobbies but takes great pride in his dog, "Maizie", who is an ex-circus entertainer.

A pretty fair country writer by the name of Mark Twain some years back A pretty fair country writer by the name of Mark Twain some years back was credited with saying that people never did anything about the weather but talk about it. . . Just to prove him wrong, here's a roundup of what some of the folks along the L. A. Row were doing last week to escape the "unseasonable" and unreasonable hot spell. . . . A few of the boys had their heads as close to the electric fan as they'd dare get without losing a head or two, at least one lad we know was trying to cool off by drinking the next door bar out of cold brew and one comely secy. threatened to strip down to her bra and shorts. (We waited around on that one till about sundown and then decided it was just conversation). . . Which all goes to prove that you not only can talk about the weather; you can also write and writhe about it. about it.

Nick Carter of Nickabob Distribs reports that the AMI line has found fast favor with his regular clientele in addition to a lot of new customers who have beat their way to his Pico Blvd. and Vermont Ave. doors. Nick will be covering the Fresno territory this week on behalf of AMI and also the Lehigh PX cigarette line handled by his firm. These days Nickabob isn't bettering much with used stuff but wholeseles it out fast as in bothering much with used stuff but wholesales it out fast as it comes in. Joe Peskin still in town but no more news available on his future plans than that he appears to be looking for a smaller place out of which to continue music operation, with a big For Lease sign still in the window of his present quarters. We gather that son-in-law Paul Silverman is too comfortably settled here with his family to make a beeline back for Chicago and the same applies to Phyllis Hammond, we gathered in a chat with the bright and attractive Peskin secretary. . . . Al Bettelman tells us things are on the quiet side out of the C. A. Robinson office in L. A. but jumping up Reno way.

Jack Simon eagerly awaiting arrival of Gottlieb's new bowling pin game after a phone conversation with factory rep Elky Ray in Chicago. Jack looks as good as new these days and says he feels even better. . . The new Keeney 4-play "League Bowler" perched on the Badger Sales floor and proving of interest to visiting ops. . . Wm. E. Happel has been coming up weekends regular from San Diego, where he's stationed. The boys are calling him "Skipper" as his Navy assignment turned out to be command of a tugboat working out of Diego waters. . . All Charlie Daniels could think of at Paul Laymon's was the mess of fish he planned to catch the coming Sunday. His colleague, Ed Wilkes, after three years of doctoring for ulcers, has learned that it may be gall stones. Ollie Sutton, Laymon's Wurlitzer me-chanic, was the proud papa of a bouncing baby boy, which entered this world completely wired for sound. . . . Johnny Hawley's finishing touches on his renovated Pico Blvd. place consists of some very attractive window Jack Simon eagerly awaiting arrival of Gottlieb's new bowling pin game on his renovated Pico Blvd. place consists of some very attractive window shadow boxes, 12 compartments on each side showing everything from premium dolls to machine parts. New additions to the Hawley crew are mechanic Sam Jamison, office man Jimmy Asam and Jerry Baron, son of novelty vet Moe Baron and a part time man while attending UCLA.

Pla Mor Wall & Bar 10.00 17.50 8.95 FOREWORD: Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter "The Confidential Price Lists" can only feature the market prices as they are quoted. "The Confidential Price 149.50 199.50 139.50 4. Model 7 Phono..... 1. Hideaway Model 400 ... 90.00 17.50 125.00 74.50 35.00 Lists" acts exactly the same as the market quotation board at the Confidential Thee —posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. "The Confidential Price Lists," rather than show no price, retain the last 2. 1000 Speaker 6. Willow Adaptor 29.00 75.00 29.50 25.00 29.50 14.506. Maple Adaptor ..... 29.50 27.50 "The Confidential Price Lists," rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. "The Confidential Price Lists" reports each quotation exactly as it is made and depends on the subscriber to make average price adjustments to fit the peculiarities of his territory. METHOD: "The Confidential Price Lists" should be read as follows: First price listed is lowest price for the week; Second price listed is highest price.
