## CD-ROM, IS THE INDUSTRY READY FOR IT?...

We are about to witness the beginning of a whole new generation of video games. While it only seems like yesterday that we made the jump from 8 to 16 bit gaming, very soon, we will leap from 16 bit cartridge to 16 bit CD-ROM entertainment. It all begins at the Summer Consumer Electronics Show when Sega (and possibly Nintendo) will unveil this new generation of games.

There is a problem though. While the technology is there (NEC has had a CD-ROM out for a couple of years) the industry - the game designers and programmers, may not be ready yet. Take, for example, the problems that NEC had with their unit. The hardware worked fine, but there was no software. Without a constant flow of good software, few game players would buy the system.

Also consider the launch of Sega's Mega CD-ROM in Japan last December. The price was very high - 49,800¥ (\$380), but more importantly, the software was few and far between, and then it was at best, cartridge games with CD audio. Like the NEC unit, the Mega CD-ROM sold well for a short while, then the player interest dropped off quickly. Now, the system is already being heavily discounted - 32,500¥ or less than \$250.

The problem - Japan rushed the Mega CD out the door without the software. The programmers weren't to blame, as sources have told me that the Mega CD is a very complex system to program for. The more features the unit has the more that has to be learned, and the longer it takes to get out a good piece of software.

Is Sega ready for CES? Or are they also rushing the technology? The original Sonic the Hedgehog cartridge took 1 1/2 years to program. The Mega CD-ROM development systems have been in programmers hands for less than 6 months. Is that enough learning time to get spectacular software on the market? The kind of games that cause the players to rush out and buy the systems. Or will we start off like Japan with cartridge games and CD music? It is probable that we will be somewhere in between. There will be enough 'Wow!' type CDs at the show to build interest, but the Fall launch of the system will only have a couple of spectacular games. Early 1993 is about the time when the really good games will be ready.

This is only the software side of the problem. Can Sega bring the unit out for an affordable price? Will Nintendo really stick to their \$200 figure? What about the pack-in CD? Will Sonic be ready? What will Nintendo do? The questions go on and on.

Officials at Sega say that they are considering all of the possible variables, and that it won't be until the actual day of the show that a decision will be made. It's going to be a tough one to make, indeed. It's kind of exciting though. I, for one, can't wait till the show to see what happens. I only hope that they aren't rushing the technology.

# THE ONLY GAME TO SCORE WITH THE NHL<sup>®</sup>

*This is definitely the ultimate power play.*

*Twenty-two NHL<sup>®</sup> teams. Two All-Star squads. The Stanley Cup.<sup>®</sup> All the wholesome mayhem you love about professional hockey.*

*It's all here in NHL<sup>®</sup> Hockey. The most action-packed, fast-paced, and high-contact Genesis game to come along since John Madden Football.<sup>™</sup>*

*In fact, the same guys who tackled Madden designed NHL Hockey. So you think they'd miss any of the sport's finer points? Get real.*

*Every skater is modeled on 14 different attributes, like skating, strength, and rink awareness, based on 1990-91 stats.*

*As you can see from this composite screen shot, there's more action than you can shake a stick at.*

*Your goalie has as many saves as the Red Cross. Kick saves, glove saves, stick saves. You can even pull him for an all-out assault.*

There's total player control, too. Take ballistic slapshots, execute sly backhands, flick passes to teammates; make great kick, glove, or stick saves; slash, hook, trip, high stick, or check the living daylights out of the other guy.

But if you step over the line, the refs will penalize you. Then cool your skates in the penalty box.

The goal of the game is to skate and score your way to the Stanley Cup. To get there, you'll face-off against every obstacle the pros do.

Intense, hard-hitting realism makes NHL Hockey the hottest game on ice.

If you have all the right moves, you get invited to the big dance—the Stanley Cup Finals.

This game definitely doesn't pull any punches. After you taste a few hip checks, poke checks, and shoulder checks, you'll know what we mean.

Everything measures up perfectly to the NHL. Compare position-by-position scouting report at-a-glance.

Overtime periods. Power plays. Play-offs. Penalties. Everything's the spitting image of hockey. Instant replays. Scouting reports. Rowdy crowd reactions. Sound and animation that'll level you.

Take your best shot at the NHL. See your local game retailer or call (800) 245-4525 to order NHL Hockey now.

It's the only way to play with the pros and still keep your teeth.

## STREET FIGHTER 2 DELAYED TILL JULY!

Capcom has just issued a press release that states that SF2 will be coming out in July rather than June!

## STREET FIGHTER 2 UPDATE..

My favorite arcade game is Street Fighter 2. A friend of mine cued me to your spectacular coverage on the arcade game and I have been a loyal reader ever since. Having just purchased your April issue I was very impressed with the job that Capcom is doing on the Super NES version of the game. I was so impressed, that I just bought a S-NES. I was considering getting the Genesis but they have had nothing good in 5 months. Even though you've covered everything already, is there anything new?

**Sam Lancer**  
Topeka, KS

Alright, I'm sure every reader who has ever picked up your magazine wants to know who is Sushi-X. Why is he so mysterious? I'm sure he is not as good as Street Fighter 2 as I am. I have finished the game with 4 different people and, nobody beats me!!

Now let's get down to business. I own a Genesis and I am seriously considering getting a Super NES because of the 16 meg Street Fighter 2. Now I need to know for sure...Will there be a special controller used to play this game?

**Andy Brandoin**  
Los Angeles, CA

## Can't get enough Street Fighter 2? Try the music on CD!!

*(Ed. Hundreds of letters from devoted Street Fighter 2 fans continue to pour in each month. Thanks for all your comments and we will continue to keep you posted on anything new.*

*Sushi-X isn't really that secretive, he is just shy. If you want to meet him you'll have a good chance of seeing him at the Summer CES.*

*The latest news is that Capcom will make a joystick. It will be called CAPCOM'S COMPETITION JOYSTICK™ and it has been specifically designed for the S-NES SF2, although it will work on any S-NES or NES (?) cart. The stick will have 6 action buttons, an 8-way joystick control and three rapid-fire turbo buttons. For additional ease-of-use, a remote-controlled cordless adapter will be sold separately. The stick will be available at the same time the cart hits the stores. No price has been set on the stick.)*

## S-NES CD-ROM...SOON!

Thanks for the story on the Super NES CD-ROM. Your comparison against the Genesis CD-ROM helped me decide to get the Super NES system. I mean, for the same price as the Mega CD alone, I can get a Super NES plus their CD-ROM. Will Mario 5 be the CD packed in with the CD-ROM? I hope so as the S-NES version of Mario 4 was great in itself! Think what they can do on CD!

**Jeff Catton**  
Austin TX

After I saw your article about the Super Famicom CD-ROM, I was wondering if it would be compatible with the S-NES. If so, will the American discs be compatible with the Japanese CD-ROM drive?

**Darin Avery**  
Celina, Ohio

The Nintendo CD-ROM sounds awesome! I mean anything that Sega's can do Nintendo can do at half the price! What I don't know is if it will be able to play CD+G discs. Also, since it will eventually wear out, what kind of warranty will it come with?

**Dan Wanton**  
Bridgeport, CT

First of all I would like to congratulate you on the CES coverage. I couldn't believe you guys were the first magazine on the Super NES CD-ROM. I would like to know if Phillips is going to have their own CD-ROM, or are they working with Nintendo, or is Nintendo making their own system?

**Corey Border**  
Hemet, CA

*(Ed. After Nintendo released the info on their CD-ROM, they quickly went back into seclusion. While very little else is new, the latest word is that the S-NES CD-ROM will go the same route as Sega's Mega CD-ROM. That is, Nintendo will bring back the old security chip and build it into the U.S. CD-ROM system. The U.S. discs will have a special program encoded on them to 'lock-out' the non-U.S. CD's.*

*Phillips already has their CD system out and Nintendo's unit will be compatible with the Phillips system through a special 'bridge'. The Nintendo discs will be playable on the Phillips system but not the other way around. No word yet on the pack-in disc or warranty details)*

## TOO MUCH GENESIS COVERAGE

I always read your magazine and its great, but I am sick of always hearing about the Sega Genesis. What about the Super NES? You never give it the spotlight. You should have more about software and other items for the S-NES. When Genesis first came out it hardly had any games and it was terrible. Now that Nintendo has a new product you treat it like it is nothing important. Give the S-NES a year or two and you'll see who is best.

**Michael Andrejcsik**  
Alberta, CAN

## NOT ENOUGH GENESIS COVERAGE

In your March mag you are criticizing Sega too much. I am sorry to tell you that Sega has the future of video games and some of your comments make me mad. I don't understand why you comment on the future of the S-NES and NEC while you speak of Sega as if they are of the past. I do believe that the Mega CD will leave the rest in the dust.

Your S-NES coverage in that issue was quite extensive, while the Genesis info was very slim. Why was this?

**Ronnie Boles**  
Winston-Salem, NC

*(Ed. Ah, the joys of running a multi-format magazine. It seems that you just can't please everybody all of the time. As we stated in the March issue, Sega does not show a lot of new games at the January CES. We ran pictures of everything that was there, and at that show, there just happened to be more S-NES carts. The coverage will probably reverse when we cover the June CES as Sega will bring out all of their new softs and Mega CD discs.)*

## FACT FILES TOO COMPLIMENTARY

I would like to say how much I like your magazine, you are always the first to print stories on the latest carts around. However, your Fact Files are lacking something as when I read them, it sounds as if the company that made the cart wrote the Fact File themselves. You always point out the good things in the game. You give no

personal opinions, and you don't rate the games. The endless compliments to the cart makes me wonder whether this game is actually good or not. Maybe you should use the same style that the Review Crew uses and tell us the bad points and the true good points of the game. I am sorry for sounding so critical, but if you did this, I think your mag would be much better.

**Tyler Nagata**  
Honolulu, HA

*(Ed. Comments about the mag, whether complimentary or critical are always welcome. You bring up a good point Tyler and it is important that our readers understand our review philosophy. Our Fact Files are, for the most part, full page previews. Readers should note that we have included a Percent Complete box in our Fact File header. In many cases the game is far from complete when we do a Fact File. If we wait until it is 100% complete we would be no better than the other mags who report on a game the month it comes out. We want to get you the best info as soon as it is available. Sometimes though, this means that the game is only 10% (one level) complete. It isn't fair to the company to criticize a game that isn't 100% complete as the last 5% usually is the part that involves the fine tuning of the game play, joystick control, graphics and sound. That last 5% is what makes or breaks the game. Only when the game is 100% complete (the Review Crew stage) will we give our opinions on the game.)*

## MORE MEGA CD..

What is the latest on the Mega CD? I didn't see a whole lot of coverage in the March issue. I think I speak for all the Genesis players that you should give more attention to this great peripheral.

**James Clar**  
Watertown, WI

*(Ed. I guess you missed our February issue where we devoted five pages to the Mega CD and its games. In this article we literally ripped the system apart and described every little detail.*

*The reason you didn't see more in March was because the only Mega CD at the CES was in our booth! Sega is holding back on showing it until June. Don't miss our exclusive, first hands-on test of the Wondermega starting on page 42 in this issue!)*

**The Wondermega went on sale on April 1, 1992 in Japan.**

## S-NES GAMES FOR 80¢ EACH...

I know you are the cutting edge of the video game field, but how come you had never mentioned the Magicom. This device copies NES and Famicom games to computer disk. The newer Super Magicom does the same to S-NES or Super Famicom carts and the Magic Drive works on Genesis carts. With this device you can have copies of any game for about \$0.80 instead of \$60! Another good thing is that you can buy games from dealers here already transferred for about \$5. If you don't believe me I have enclosed a picture of the devices. The only problem is that each system costs from \$500 to \$600.

**J.W.**  
Long Island, NY

**The Super Magicom transfers S-NES carts to computer disks.**

*(Ed. We have known about these devices for quite a while but, since they are illegal, we did not consider them a news item. They come from the Orient and, although they work, we do not recommend players purchasing them.)*

## CES OPEN TO PUBLIC...

I have heard that the Summer Consumer Electronics Show will be open to the public for the first time. I am eagerly anticipating it, but I also have heard from Nintendo that each company can choose whether they will be open to everyone or not. I am a big fan of video games, and will spend the money to go to Chicago, but I don't want to waste my time going if I can't see their new games and equipment. So, could you please tell me which companies will be having their booths open to the public?

Jon Clutts  
Berlin, PA

### **The Summer CES will be open to the public on May 30th and 31st.**

(Ed. You are right Jon, this year the SCES will be open to the public for the last two days of the show. To get you the most up to date info we contacted Mr. Al Haber, Staff Director, Communications of the Consumer Electronics Group for the latest info. As of March 23, 1992 here is the scoop:

The 1992 International Summer Consumer Electronics Show® will be held at Mc Cormick Place in downtown Chicago. It starts on May 28th and runs through May, 31st however, it will only be open to the public from noon to 9:00 PM on May 30th and from 9:00AM to 6:00PM on May 31st.

Admittance won't be free as special consumer badges will cost \$8 in advance or \$10 at the door. Children under 2 will be admitted free, and children 10 and under will have to pay full price and, must also be accompanied by a parent.

Fot this show video games will play a major part with about 25 percent of the total CES exhibit space going to game companies! Since this will be a special event, many companies are expanding their display space to

accommodate the public. Mr. Haber states that Accolade, Camerica, Galoob, Nintendo and Sega are a few of the companies with extra consumer space. We here at EGM have increased our booth size by 50% for this special event! As usual you can count on EGM to have the latest in game technology on display. You will also be able to meet the editors (Sushi-X promises to make an appearance) and we even have quite a few special surprises lined up for you!

While no one can guarantee that every game manufacturer will be there, nor can anybody say what games will be on display, Mr. Haber states in his memo that the following companies will be open to the public:

Absolute Entertainment; Acclaim/LJN/Flying Edge/Arena; Accolade; Activision; American Sammy; American Softworks; American Technos; ASCII Entertainment; Asmik; Atari; Atlas; Bandai/Dreamworks; Beeshu; Bignet; Bullet Proof; Camerica; Capcom; Champion Glove; Culture Brain; Data East; DTMC; Electro Brain; Electronic Arts; FCI; Galoob; GamTek; Hal America; Happ Controls; Hot-B; Hudson Soft; IDG/Game Pro; IGS; Interplay; Irem; Jaleco; JVC; Kaneko; Kemco; Koei; Konami/Ultra; Kyugo; Mc O'River; Mentrix; Microprose; Mindscape/Software Toolworks; Naki; Namco; NTVIC; Ocean; Parker Brothers; Razorsoft; Renovation; Romstar; Safe Care Products; Sage's Creation; Sega; Seika; Sendai Publishing /EGM/Mega Play/Super NES Buyer's Guide/Computer Game Review and CD-ROM Entertainment/Electronic Gaming Retail News; Seta; Sofel; Sony Imagesoft; Spectrum Holobyte; Square Soft; STD; Suncom; Sunsoft; Taito; Technosoft; T & E Soft; Tecmo; Telegames; Tengen; THQ; Toho; Tradewest; Treco; Triton; Turbo Technologies; U.S. Gold; Vic Tokai; Virgin Games.

The memo also states that two of the game magazines - Electronic Gaming Monthly and Game Pro will have booths at the show!

If you plan on coming to the CES there are a few points to consider. If you are going to fly in, check with

your travel agent early. There will be 75,000+ other people coming to the show and flights in to Chicago book up early. Hotels are the same way. Virtually all of the downtown hotels are pre-booked for trade attendees. You may have to stay more than 10 miles from downtown! In other words, expect this to be a very busy event and make your plans early. See you there!

## MEGA CD TOO EXPENSIVE?...

My friends and I have an ongoing argument about which game system is the best. I have the Genesis and they have the Super NES. I keep on telling them that when the Mega CD hits the stores, Nintendo will be put to shame. In your last issue you say that Nintendo's CD-ROM will be only \$200 and that Sega's is \$380. My question is, if the S-NES' CD-ROM is more technically advanced, how can it cost so little. Is Sega trying to rip us off or is the price of the S-NES CD still an estimate?

Andre Antoine  
Kingshill, St. Croix

(Ed. Good question! Usually if something is better one would expect it to cost more. Actually, since neither CD-ROM is out here in the U.S. (Sega's unit is only out in Japan) any cost figures are estimates. Even at this late date, Sega officials are still considering different alternatives as to price and system packaging. However, there is new information on the Japanese Sega CD-ROM. When it first came out it was selling for list price - 49800¥ (\$370). On our last trip to Japan we have noted that the Mega CD-ROM is now selling for only 32,500¥ (\$250)! It now is heavily discounted and, we believe, more realistically priced. There is no software packed with the Japanese Mega CD and when it debuts in the U.S. it will probably come with a game. Still, allowing for another \$50 for the game, the U.S. Mega CD-ROM could sell for under \$300! As for the Nintendo unit, there is no hard information on its price. While their spec sheet stated \$200, Nintendo has been known, more than once, to say one thing and then do something completely different later!

# REVIEW CREW

## GAME OF THE MONTH

### BATMAN: RETURN OF THE JOKER

It takes an experienced company to make a great GameBoy cart. Granted, with a big name license and a previous track record of successful Batman games, Sunsoft had some of the hard work already done for them, but strip away the glitter and it is the game play which determines if the cart will sell. In this case it's got it all and it's going to be a hit!

**S** The boss is really rockin' with the new carts coming out in Japan. He is still looking for a NSX racing game though!

**E** Ed is quite happy now that he has his Wondermega. His next project is to track down a Nintendo CD-ROM in Japan.

**M** With Martin back from Japan, all we hear from him is how great Axelay was. Ask him who is the best Super Monoco GP player!

**S** Sushi-X has tracked down a Street Fighter Champion Edition in Tokyo and he is blowing away all who challenge him!

Super NES - Nintendo  
**SUPER SCOPE 6**  
Theme: Shooter Available: Now  
No. of Levels: 6 Megabits: 8

The Super Scope 6 is here and the Super NES may never be the same! You can play six different games all one cart. The games are categorized into two groups entitled Lazer Blazer and Blaistris. You can play games like Mole Patrol, Confront and a horizontally scrolling Tetris-type game! With these six exciting games, the Super Scope 6 can entertain your entire family. The Super Scope 6 is available now!

You can't review this peripheral/game pack simply by examining the first cart. While the first batch of games are interesting diversions with some nice graphics, this really isn't anything we haven't seen before from light guns. Will we see games that are much different? It's speculation, but I don't think so.

While the Super Scope looks cool and works very accurately I just don't believe that many companies will support this bazooka. The games that come with it get boring very quickly. Also, I don't trust Nintendo. How long did they support their Power Pad? When did they bring out their last light gun game? Remember R.O.B.?

This is a pretty cool idea for a peripheral, but the games that come with the Super Scope 6 are very dull. The warfare games are cool, but they get repetitive very quickly. I'm kind of worried that the Super Scope will turn out to be like the Light Gun. It's a great idea, but it's not worth it if no one supports it.

Super Scope 6 is an excellent idea that I fear will turn out to be another Light Gun fiasco. Nintendo has a bad reputation for not supporting their accessories with games that suit them. While the accuracy is dead on, the 6-in-1 cartridge is not very exciting and doesn't promise a very bright future ahead.

Super NES - IGS  
**THE ROCKETEER**  
Theme: Action Available: May  
No. of Levels: 8 Megabits: 8

The Rocketeer is flying its way into your home for the Super NES! IGS has spared no expense in making The Rocketeer look and feel as exciting as the movie it is based on! You control Cliff on a mission to stop a terrorist organization from stealing the rocketpack! But to top it off, the terrorists have also kidnapped Jennifer! You must rescue Jennifer and put a stop to these terrorists! The Rocketeer will arrive in May!

This game looks great, but when you pull it apart to look at the game play alone, there just isn't much left. The first sections in particular are drawn well, but the action is really confined to a small segment of the play area. There is some nice graphics, but the action never really manages to hit big.

I have to give IGS credit for creating some innovative and exciting graphics. The game play on the other hand is only a bit better than average. I had problems in learning the controls and this lead to frustration later on in the game. Once learned though, the game was decent. It's better than average but not spectacular.

The Rocketeer is a game that will have to rely on the title to sell. While there are a bunch of different sections in the game, there just is not that much in the way of game play. Despite the nice graphics, the cart is boring and way too short. I did like the stills in between the rounds, however.

Let's face it. It's hard to translate a comic book to movie to video game and still come out with the same intensity and excitement as when you started. The Rocketeer lacks control, but the graphics are excellent, while the music is good, the fun factor quickly drops to boring. This is a good game, but the comic is better.

## Super NES - Natsume SPANKY'S QUEST

Theme: Adv. Available: Spr.  
No. of Levels: 50 Megabits: 4

Spanky's Quest by Natsume stars a little monkey who has lost his way home! Spanky must collect keys to exit the complicated mazes. There are swarms of enemies out to stop him, but Spanky has bubbles that can be powered up four times to destroy the enemy! Spanky can also collect hats that give him special abilities! The addition of 50 levels make sure you won't beat this one in a day! Coming in Spring!

This game is not hard hitting and it isn't intense, but it does have some addictive play techniques. Spanky is also a game that younger players will be able to get into while giving more advanced gamers plenty to interact with. The overall concept does wear thin after awhile, but all in all Spanky is a nice title.

Although Spanky looks like it is meant for kids (it is) it does require some technique to get through the levels. As such, parents will like this cart also and it's a good game where the whole family can play. Any way, how can anything endorsed by Archie be bad?

This is a cute game that is definitely geared for a younger crowd. While the graphics aren't anything to shout about, they do look cartoonish, which is cool. While this is a kids' game on the surface, there is a surprising amount of game play. If you liked Mario and Bubble Bobble, this one is for you.

While the Super NES seems like a system only adults and teenagers can enjoy, even children can find a game to suit them nowadays. Spanky's Quest is a family game that any kid (or big kid) can enjoy. It isn't mind-boggling in any respect, but just a good, solid game. The music could use a little variety, though.

## NES - American Sammy MIGHT & MAGIC

Theme: RPG Available: Spring  
No. of Levels: N/A Megabits: 4

Might and Magic by American Sammy embarks you and three companions on a mission to locate the Inner Sanctum! Explore the first town known as Sorpical. There you may find what you need for your adventure. Talk to shopkeepers and keep your party healthy for there are dangers lurking about! The battles with enemies can be both rewarding and fatal! Can you unlock the secrets to the Inner Sanctum?

People know that RPGs aren't my cup of tea and although this title isn't on my personal hit list, it does have a lot of complexity to appeal to most role-players. The designers have eased up on many of the restrictive parameters that these types of games usually have to endure, however, making this cart more enjoyable.

This is a hard core RPG and definitely not for those players who have to constantly move at warp speed. Even though the graphics are lacking, the game more than makes up for it in complexity. A great thinker, but you better set aside a large amount of time in order to get through this one.

I do not like role-playing games, and I especially do not like them on the NES. This game is substandard in graphics and audio quality, especially compared with the original version for computers. One thing it does have going for it is that it is very easy to play. If this is your style of game...

Normally, I love adventure/RPG games, especially long ones like Might & Magic on my computer. On the NES, this once brilliant quest loses the graphical and audio quality I expect on an extended adventure, but retains the simple controls and intelligent quest of a really good RPG. This is for RPG fans only.

## NES - Titus BLUES BROTHERS

Theme: Action Available: Now  
No. of Levels: 6 Megabits: 2

Jake and Elwood are back! The Blues Brothers have six "missions from God" to complete before they get busted by the police! In the various stages you must complete smaller tasks like unmasking a shark in a shopping mall! You can collect power ups and receive your health back at various points in the game. For more excitement you can even have a two player simultaneous adventure!

Don't go looking for much in the way of a connection between this game and the characters that inspired the Blues Brothers movie. You've got a pretty standard action title with caricatures of the leading men swaggering through one dangerous action sequence after another. Not much new here, but executed well.

An interesting choice for a game. It has a title that is recognizable and Ocean backs it up with a game that plays quite well. It is a bit too easy for my tastes, but it should do quite nicely for the average player. It's nothing spectacular, just a good solid game that delivers enough enjoyment to get you your money's worth.

The Blues Brothers was a great movie, but the video game just does not cut it. Where is the music? Where are the personalities of the characters? What does this game have to do with the movie in any way? Beyond that, though, The Blues Brothers is kind of fun. It's pretty simple, but the game play is there.

The Blues Brothers is a movie I dearly hoped would be translated into an awesome video game, but the 8-bit king just doesn't do it any justice. Instead of vibrant colors, jammin' jazz soundtracks, and a solid control interface, I'm left with a game that strikes me as average in every way. I think the NES is beginning to crumble.

## Genesis - Sunsoft LEMMINGS

Theme: Puzzle Available: Spr.  
No. of Levels: 180 Megabits: 8

Those brainless rodents are at it again! Lemmings for the Genesis puts you in control of these rodents to find their way home! You have the ability to give the Lemmings eight gifts ranging from climbing, digging and bombing. However, the Lemmings will mindlessly walk into various Lemming traps and even walk off cliffs! With 180 levels at your disposal, Lemmings will keep you busy for quite a while!

Keeping in mind that this is nothing more than a puzzle game, Lemmings is able to succeed. The version for the Genesis platform is really no worse or better in terms of game play, but the sound effects and especially the music don't compare. The basics of the play mechanics, however, are intact and executed perfectly.

I loved the S-NES version and like the Genesis version even more. More levels, means more fun! On the Genesis this is the number one puzzle game in my book. Then throw in the two player version and this cart really starts looking good. Now, how long do I have to wait until Oh No, More Lemmings?

While Lemmings is not the type of game I would normally choose to play, it does get addictive after a while. Sunsoft has included tons of levels to keep you going for days. The two-player mode is a lot of fun, too. Too bad the graphics and sound are not up to standard, though. I'm glad there is not much slow down.

It's funny how no game seems to be striking me as an exceptional title to look forward to this month. Even the cute little Lemmings don't have that same appeal anymore. I like the graphics and game play, however. I wish the music had more variety and the sound effects were clearer. I love the Lemming traps... heh, heh!

## Genesis - Renovation EARNEST EVANS

Theme: Action Available: Now  
No. of Levels: 6 Megabits: 8

Become a world renowned treasure hunter in Earnest Evans by Renovation! Earnest has been sent by his grandfather to continue the treasure quest of many years ago! Your mission is to locate two idols before Brady Tresidder uses them to destroy the Earth! To destroy his foes, Earnest can use many items like a whip, grenades and a mace! Live the adventure with Earnest Evans!

While I love the manner in which the lead character moves, those same attributes make the game difficult to control in areas. It has a nice combination of graphics, unknown paths and whip 'em out action, but none of its individual characteristics saves it from being slightly above average all around.

Everything about this game is great. It is challenging, long enough, decent backgrounds, OK audio and good special effects. Where it falls down, and it REALLY falls down, is in the character animation. It's not all that bad, as it only looks bad, it plays as you want it to and therefore still comes off as a very good game.

Earnest Evans is really impressive when it comes to graphics, but it animates very poorly. When Earnest runs, he looks like a flickering robot. In addition, the controls are very difficult to work. In the end, it just does not seem worth it. I was really looking forward to this one, and I am kind of disappointed.

I'm a dear fan of El Viento, so I was looking forward to playing the prequel, Earnest Evans. While graphically E.E. accomplishes some major feats, it goes overboard with the software rotation. Come on! Your character acts like a robot and controls even worse! At least the music is still Renovation quality. Close call.

## Genesis - Sega D & D: WARRIORS OF THE ETERNAL SUN

No. of Levels: 6 Megabits: 8

Sega takes one of the most popular role playing series and puts it on the video screen! Dungeons & Dragons: Warriors of the Eternal Sun is an RPG with a unique overhead perspective. Your band of warriors must explore a whole new world that opened up in the Earth. You will face hordes of creatures out to make you their lunch! You can also purchase new weapons with the gold you collect from fallen enemies!

My feelings toward RPGs aside, this title could have been a killer if the game paid off to those people who will be attracted to its AD&D title and theme - AD&D fans. None of the background of characters or settings can be found in this title, which unfortunately plays like your typical RPG with some nice retouches. Too bad.

Don't let the name fool you into thinking that this is a hard core D & D cart. It isn't. It plays more like the typical RPG and, as such, it will be liked by a much wider audience. It looks good and has exceptional graphics for this type of game. If you're into RPG's give this one a try you won't be disappointed.

Need I say it? I really am not a fan of this style of game. The graphics are nice and the overhead perspective makes the game much easier on your eyes, but I did not find anything here that I really liked. For RPG fans, this cart will surely be what they are looking for. For me, it surely was not.

Hey, this is a good quest! I thoroughly enjoy the overhead perspective instead of first-person for reason of sanity. The control is very good, and the quest is fun enough to warrant a look-see. It could have been longer, but at least I enjoyed getting through it. Tack on some good music and you have a decent game.

## JORDAN vs. BIRD

Theme: Sports Available: Now  
No. of Levels: N/A Megabits: 4

For some fantastic basketball action, look no further than Super One on One : Jordan vs. Bird! You do not have to just play basketball, though. You can choose to play in the slam dunk contest, three point contest, or go one on one with either Jordan or Bird! You can even see an animated cinema display when you do a slam dunk! Plug in a second controller to play against a friend! Super One on One is available now!

This is a very well executed and put together game that has great graphics and animation and two of basketball's leading men to boot. Their individual fortes have been captured perfectly in this cart, creating another near-perfect sports sim. from EA. One problem: It's way too brief - and as a result ends up short.

EA knows sports. They are so good that they can even take a nonsport like this and turn it into a very enjoyable cart. They may be stretching it a bit here as like any action cart, once mastered, this one can get old and lose its appeal. Great graphics and good ball control help make this soft a success.

I thought Super One-on-One was cool, but I really wanted to play a real game of basketball. The slam dunk contest is good, but once you have mastered the different dunks, it gets repetitive. The same goes for the three-point contest. It gets a little boring and a little too easy, but it is pretty fun.

Okay, Jordan and Bird are my two favorite basketball players, so I may be a little biased here. If I must criticize, then my main complaint would be the overall length of this game. It doesn't take long to master each event, and then you are stuck with a game whose only positive aspect is its name. I want more!

GameBoy - Taito

## STAR SAVER

Theme: Action Available: Now  
No. of Levels: 6 Megabits: 1

The Adventures of Star Saver for the GameBoy is a new action game from Taito. You play a hero on a quest to save the some war-torn planets from impending doom at the hands of an evil dictator! Collect power ups such as the triple shot, super jump, and the grappling hook! Take on the bosses with your power suit to really let them have it! Do you have what it takes to become the Star Saver?

Although this game does have its strong points, including decent graphics and play, it just doesn't stand up next to similar efforts like Mega Man that have been produced almost flawlessly. While I don't normally like to make comparisons, the areas which these types of games both tread invite such side-by-side analysis.

Great GameBoy action games are hard to find. Star Saver is in that category because it offers very good game play, a decent variety of power enhancements and enough enemy to make the game challenging. For GameBoy players this is a good cart to get as it is not one which you will tire of very quickly.

Star Saver is not a great game, but it does have some good qualities. I liked the different power-ups, for instance. It is pretty fun, and there is a decent level of challenge. If they could just get past the boring black and white graphics and the serious blurring, Star Saver would be much better.

Oh, great, here come the Game Boy games (hoo-boy)! I hope Nintendo makes the color Game Boy soon because I'm tired of blurry B&W games. Star Saver is yet another example of a game that suffers horribly thanks to the GB graphics. Otherwise, the game would probably be a couple of notches higher.

GameBoy - Konami

## TOP GUN

Theme: Sim. Available: Now  
No. of Levels: 4+ Megabits: 1

Top Gun Guts and Glory brings top simulator action to the small screen! You can choose from four top fighters like the F-14, F-16, Mig-29 and the Stealth Fighter. Battle through four tough missions to reach the final stronghold. Choose from many powerful weapons to take on the attacking fighter squadrons! After each mission you must land on an aircraft carrier to prepare for the next mission!

This type of game just shouldn't have been attempted. While the basics of the game's engine are impressive, overall this game just doesn't stack up. It tries to be something that is next to impossible to be due to the limitations of the hardware. If you're dying for a portable flight sim., however, go for it.

Wow, a flight simulator for the GameBoy! It sounds great on paper but doesn't quite measure up to expectations once you try it. This is mainly due to the limitations of the system rather than the inability of the cart to perform. Everything is there, but you really need a lot of imagination to picture yourself in an aircraft.

It is hard to believe that someone has actually brought a flight simulator onto the GameBoy, but leave it to the wizards at Konami to do the impossible! While the graphics and sounds are not great, this cart does have a good level of challenge and action. It is good for the GameBoy, but that doesn't say much.

Top Gun on Game Boy? Really? Well, I suppose that it had to happen. Actually, it is a decent game (except of course, the graphics) with good action. The simulations are okay and don't deserve any awards but for on the go, it will do. Let's leave B&W for games that don't suffer from it, like Pong (I'm waiting for that too).

When the alien referee drops the puck, you'll have to maneuver fast to control the puck off the bumpers.

On the floor of Ballistix Stadium are numbered tiles. Activate them and you can earn bonus points.

Be an architect and design your own stadium. Eight reprogramming options let you customize the game.

You're a gladiator about to face off in an intergalactic game of space hockey called Ballistix. An alien hand drops the puck. And before you know it you're off blasting at the puck with your cannon, ricocheting it off walls and bumpers and trying to slam it into the enemy goal. Hitting bonus items on the way will boost your score. Hitting land mines and puck splitters won't. Not to mention the acid pools, puck magnets, and the weird effects of gravity you'll find on the playing field. And be prepared, because Ballistix comes flying at you with graphics that are out of this world, and sound that will hurtle you into the next. But if you still think this game is a slapshot in the face, we let you change the difficulty levels in every part of the game, from the puck's speed to the nagging pull of gravity, to give you a fair shot. So suit up and get Ballistix. Because outer space has no room for spectators.

Collect items to help you defeat Level Bosses. With every level you complete, you'll be rewarded with a special power.

Wander through Darkwood Forest and try to outwit the wolves, werewolves, and strangling vines lurking here.

In the final stage, The Queen of Darkness appears. If you defeat her you will be rescued from the curse.

You've just been put in command of a Navy Patrol Boat. But before you get your orders, you'll receive training as a sharpshooting machine gunner, a deadly artillery expert, and a steely eyed navigator. Once you master these skills, the admiral will give you a briefing and you'll shove off to rescue POW's from the Viet Cong. Or go up against a Colombian drug cartel. Or root up the fanatic rebel army of a deposed South American dictator. As you do battle, monitor the action from a first person perspective at four different battle stations. And choose which weapons you want on your boat. But don't wait too long. Your enemies aren't going to let your POW's live forever. So get your training, your assignment, and your visa card. Because the jungles of the world don't take excuses. And they don't take Americans kicking ass.

## GUNBOAT

You've been bitten by the Queen of Darkness, and you have until dawn to find a cure. Wander through nine nightmarish levels on your quest to cure yourself. Along the way, you'll encounter witches, werewolves and other demons of the night. Get help from the few friends you meet on your journey. Iron swords, crossbows, rifles, and other life saving weapons are yours to use, if you can find them. Fend off werewolves and vampires with garlic and crosses, or lure these creatures of death out with pieces of meat. And as you battle your way past the different levels, you'll gain special powers to change into different creatures. Of course, don't forget the hair raising graphics and spine tingling sound effects that will make your blood curdle. Dawn is quickly approaching. **GameBoy - Sunsoft**  
**BATMAN: Return of the Joker**  
**Theme: Action Available: June**  
**No. of Levels: 5 Megabits: 2**

The popular NES title is now available on the GameBoy! You control the Dark Knight on a mission to rid Gotham City of the Joker's evil henchmen. You must fight through five stages in an attempt to reach the Joker before he can take over Gotham City! Use various weapons that you pick up along the way such as Batarangs and the Bat-ropes. The Joker must be stopped and Batman is just the guy to do it!

I loved the original Batman cart on GameBoy and while the sequel is not much of a stretch beyond the territory laid down in the first entry, it is still an enjoyably intense piece of video gaming. Great graphics compliment the action as well as equally impressive sounds and musical scores. A GameBoy winner!

Now this is what a spectacular GameBoy cart is like! It has controllable action, surprisingly good graphics, excellent game play, and a good license behind it. The good game music is an added plus. The difficulty curve starts off easy and gets harder at a reasonable rate. Don't miss this super cart!

Now this is what a GameBoy game should be! This sequel to the first Batman game is not quite as intense, but every bit as good. The graphics are good for the GameBoy and Sunsoft has packed tons of action into this portable cart. The music is excellent and the game play is solid. Can't wait for 16-Bit!

I really enjoyed the first Batman for Game Boy and the sequel is no slouch! The game has enough techniques and variety to keep it ahead of the standard Game Boy line. The graphics hurt it enough to knock it down a couple of notches, but if you don't mind B&W, Batman 2 will be a hot game for you.

**Game Gear - U.S. Gold**  
**OUTRUN EUROPA**  
**Theme: Driving Available: Now**  
**No. of Levels: 5 Megabits: 2**

Get set for a road rally like you have never seen before! A gang of thieves is getting away but they won't get far! You have five different vehicles at your disposal ranging from a corvette to a speedboat! Race through five levels collecting points each time you pass through a checkpoint or use some of the built-in weaponry installed in some of the vehicles! For a different taste of racing, check out Outrun Europa!

This game did little in the way of creating an illusion of speed or racing thrills. The presentation of the winding roadways is well done, but the lack of real depth and interaction eliminates much of the intensity that would normally be present. It ends up being a well made, first-person shift-and-avoid adventure that left me cold.

Well, throw away your thoughts of an 8 bit Out Run game. While it has the name, it goes beyond the car racing by throwing in other motor vehicles. Although it doesn't scale exceptionally well, the challenge is nevertheless there. It is probably the best racing game for the Game Gear and definitely worth looking into.

For a portable racing game, Outrun Europa has some qualities of the real thing. The action in this cart is almost as good as the arcade version. The ride in this game is smooth as silk and loads of fun to boot. Game Gear owners and racing game fans will find a lot to love with this title.

I love a good racing game, and Outrun is one of my favorites. Outrun Europa for Game Gear is no exception. Even on the small screen the game has real driving action, just like the arcade. In fact, slamming into obstacles and cars can be fun! Take a real hard look at this one if like driving games.

**Lynx - Atari**  
**HYDRA**  
**Theme: Driving Available: Now**  
**No. of Levels: N/A Megabits: 1**

Hydra, originally in the arcades, is now appearing on the Lynx! You must protect a valuable item for falling into criminal hands! Your only means of escape is your hydroplane that skims across the water at supersonic speeds! You must dodge enemy fire, pass through tunnels and collect fuel capsules. If you can make it to the base, you can visit a shop to power-up your hydroplane. A fast action title from Atari!

While this game only got minor raves in coin-op form, Atari has done a very good job of capturing the overall combination of graphics and play action. Some of the glossy look is lost in the Lynx's pixelized presentation and quirky sounds, but overall the interaction is good and the challenge worthy.

Atari did an excellent job at keeping the flavor of the coin-op in their Lynx version. It has all the great graphics and colors and it even scales decently. I'm impressed and I had a lot of fun with this cart. I think it is one of their best and definitely shows that their designers and programmers are getting better.

The best parts of the newest game for Atari's handheld are the brilliant colors and well-detailed graphics. Other than that, Hydra is a standard race and chase game that does not offer too much in the way of innovation. It is kind of fun and the challenge is there, but it did not keep my interest for very long.

Hydra is the newest addition to the Lynx library and it shines brilliantly. The fast action scaling effects are marvelous on the Lynx screen, sometimes leaving you breathless! The color (as always) is vibrant and clean. Definitely another winner for Atari. Keep the great games coming!

# GAMING GOSSIP

...New Street Fighter 2 Competition Joystick...Quad coming to S-NES...Camerica rubs the magic 8 bit lamp and gets Aladdin...Acclaim to do S-NES Super High Impact...Sega to do Cool World for Mega CD...Dolphin is coming

...Howdy game fans, it's me - Quartermann, here to tantalize you with my burgeoning basket of gaming gossip goodies! Lots to talk about this week my Quarterfriends, so don't turn that page!...We'll begin with the megarumor of the month! Word on the street has it that Nintendo and Capcom are rumored to be inking a deal that will bring Street Fighter 2, the 16-Meg monstrosity, into Super NES system boxes as the pack-in! The Q-Mann could dig up few details on how this rumored plan would actually work, but those in the know tell yours truly that giving Super Mario the heave-ho in favor of the World Warriors was a compromise between the Big 'N' and Capcom to maintain the cart's \$80 suggested retail price! More on this news item later...In related Street Fighter 2 news, Capcom has flip-flopped on the idea of offering a special controller specifically made for the game. While they originally had intended to provide the special controller as part of the game, the folks at Capcom scrapped the idea but will instead be bringing out a Street Fighter 2 controller separately!...

...Looks like the wiz-heads at Nintendo have struck again! The gaming goliath is now rumored to be shipping a new development system called the "Quad" which will enable developers to display graphics and generate sounds light years ahead of anything we've ever seen before. No word on when Super NES-Quad games will start hitting, but don't look for anything before next year...Look for Camerica to breath new life into your existing 8-Bit Nintendo console sometime later this year. Through a new breakthrough in 8 bit cartridge ingenuity, called the Aladdin Project, we will soon be blessed with a concept that will revolutionize the way games will be sold and purchased. Look for Aladdin to work his magic sometime in the second half of the year...

...Licensing update! Acclaim is now readying Super High Impact for the Super NES! The developers have managed to get the digitized displays into the home version and the Q-Mann has seen the statics on-screen! Kick!...Rumor has it that Acclaim is also the recipient of the Ren and Stimpy title, referring to the cartoon duo who appear weekly on Nick! The Quartermann has also heard rumors that the dirty duo will appear on the Sega 16-Bitter and Lynx handhelds! Happy, happy! Joy, joy!...Other game news includes word from Sega that the current 16-Bit leader has landed the rights to Star Trek: The Next Generation and Cool World, a tripped out Roger Rabbit featuring live actors within a wild animated universe. Both titles will be ported to the Genesis, Game Gear and Mega CD-ROM...Sega also has a super secret game called Dolphin ready for CES...and are you ready for Bonk on the NES and GameBoy?...Oh Boy!

...Speaking of the Mega CD-ROM, word from our main man in Japan, Terry Aki, indicates that several interesting titles will soon be on their way for this mega add-on! Chief among them is After Burner 3, a wild first-person shoot-out with graphics right out of the arcade! Look for some wild scaling out of this one! Also on the horizon is a new educational game that features full-motion video within a quiz setting! Whoooooooppie!...Still more rumors surround the Mega CD itself! One of the latest has it that Sega will slash the price to astronomically low ranges if Nintendo follows through on their promise to deliver their CD-ROM drive under 200 bucks. Seems Sega is bound and determined not to lose out to the big 'N' on the issue of price alone. More to follow...When the Mega CD does hit, not only will it have Star Trek: The Next Generation, but also movie adaptations of Batman Returns and Home Alone! Will the machine be able to beat out Nintendo's unit? If Sega is able to show up at the CES with the 20 discs sources are claiming they'll have, then Nintendo will definitely have their work cut out for them...

...That wraps it up for this installment of the Quartermann show, kiddies! Be sure to tune in next week for the first specs of the Super NES CD-ROM as well as a special sneak surprise - the kind that only Quartermann can deliver! 'Til next time, I remain...

# BEHIND THE SCREENS AT JVC OF JAPAN

## "THE MAKING OF THE WONDERMEGA"

On April 1, 1992 JVC's new 'supersystem' went on sale in Japan. This 'supersystem' is a Mega Drive (Genesis in U.S.) game system and a Mega CD-ROM combined as a single unit. It is called the Wondermega RG-M1 and it retails for 82,800¥ or about \$620. For this amount you get the Wondermega, one controller, cables, power supply and a disc containing 4 games and 4 karaoke programs.

Rumors started circulating about the WM in February and Ed promptly set up an interview with the head people at JVC of Japan to learn more about the new system.

The WM dates back to July 1991 when JVC and Sega entered into a cooperative agreement to make a combo system. Since then both companies have combined their expertise to make the best possible CD-ROM unit. Sega had the game knowledge and JVC provided the CD-ROM drives and the latest in audiovisual technology. The WM was to be more than just a Mega Drive

**JVC will have their Wondermega on sale in Japan on April 1, 1992. Retail price with one software/karaoke disc - about \$ 625.**

and CD-ROM packed in a shell. That's where JVC came in as they have years of audio experience. What they did is to take the latest in digital audio enhancements and build these chips into the WM (they couldn't modify the basic Mega Drive sound channels for fear of incompatibility with old carts). The end result - CD sound that is unequalled anywhere in the game industry.

Technically what they did is to provide pure digital sound (1 bit DAC) equivalent to the best stand-alone home CD player. For the games they have created a DAP (Digital Audio Processor) which expands the dynamic range (makes loud notes louder and soft notes softer) of the

normally compressed game music. Besides this they added another circuit which produces killer bass notes and awesome gunfire sounds.

Besides the audio, JVC went in and perked up the video. There now is a Super-VHS output jack which, when mated to the similar connector on the new TV monitors produce video details almost equal to RGB!

Also built in is a new karaoke section (big in Japan). There are two microphone jacks, with a mixer, and other audio enhancements (digital echo, adjustable pitch control and vocal masking - take out voice on your CD's).

Finally there is a MIDI (Musical Instrument Digital Interface) playback interface.

Specs aside...how does it sound? Wow! They demonstrated the music from Sol-Feace and it sounded OK. Then they kicked in the enhancement circuitry and the music wailed! The gunshots rattled the table and the bass really rocked! The S-VHS video on a 60" TV was perfect, without ghosts or color fringing!

From the  
Imagination  
Series

Once upon a time, an evil wizard cursed a dragon and six magicians, sealing their powers in shining gems. The King of Ishmeria inlaid the gems in a crown he called Gemfire. Discovering that the crown held special powers to help his people, he worked great deeds to restore their towns and fields. But the day came when the crown passed

to an evil King. He used the powers of the crown against his people until Princess Robyn released the gems.

Now, the spell of Gemfire is broken, and you are in search of its magical stones!

As Prince or Princess of a noble family, capture the gems and unite them

with the crown. You must return Ishmeria to peace!

Restore your kingdom to prosperity!

With a gem in hand you control the powers of a magician.

(Continued from Page 42)

On the software end, JVC will pack in a disc which has 4 games and 4 karaoke programs. The games include: Flicky, Pyramid Magic, Paddle Fighter and Quiz Scramble. Flicky we all know from the Sega Genesis cart and the next two are low meg Sega games taken off their modem network. The last game - Quiz Scramble is easily the best, as it is a good example of edutainment software enhanced with moving video! In this game you watch a few seconds (reduced color palette full motion video) of an animal in its natural environment. The screen then switches to a few multiple choice questions about the animal. Get 4 right and you move on to another animal. This is what we will be seeing more of in the future! In fact officials at Sega of America have stated that they are seriously considering translating the text and bringing this CD out over here!

Beyond this disc, JVC is planning to bring out in June another disc featuring Wonder Dog - the official mascot of the Wondermega. This disc will have a quest somewhat similar to the one in Sonic the Hedgehog.

In addition to JVC bringing out their version of the Wondermega, Sega of Japan will also bring out the same unit (cosmetic color changes only) with their name on it. Their system comes out on April 24, 1992 and it will sell for 79,800¥ or about \$600. The difference - Sega's system will not have the software included. The reason for two identical systems - Sega's will go to the toy and game stores, and JVC's will go to audiovisual stores.

Bottom line. While we were extremely impressed with the dramatic improvement in the audio quality of the Wondermega, the price does

**Wonder Dog is the mascot JVC will be using to promote the Wondermega.**

seem somewhat high. Granted, the actual street price (in Japan) will probably drop by about 30% a few months after the system is out, we believe that this combo system will best be appreciated in Japan and Europe where karaoke is very popular. When and if the unit comes to the states (officials at JVC state that they might consider a U.S. release near the end of the year, but nothing is definite yet), game players might flinch at the lofty price. Not only is karaoke not real popular, but most game systems aren't hooked up to elaborate TV and stereo set-ups where the improved audio and video would be readily noticed.

Still, the Wondermega is a good indication of where technology can take video games. JVC is one of the best audiovisual manufacturers in the world and if anything, since the CD drives inside the Mega CD are JVC products, you can bet that these units will be dependable for a long time. More next month!

## QUIZ SCRAMBLE

**Quiz Scramble is a great educational tool for the kids. After watching a short video, players answer questions about the subject.**

**Wonder Dog, the second software product offered by JVC, will be coming out in June.**

## THE FIRST GAMES OF WONDERMEGA...

**Packed with the Wondermega is a disc containing four games (Flicky, Paddle Fighter, Pyramid Magic and Quiz Scramble) and 4 karaoke programs with CD graphics (CD+G). QD-G picture is shown for illustrative purposes only.**

## Konami / Super Famicom / S-NES AXELAY

If it comes from Konami, you know it is going to be good and Axelay is no exception. Probably the best shooter ever made and, best of all, it will probably make it over to the U.S. later this year as officials at Konami U.S.A. state that they are seriously considering doing this game!

Forget about screen flicker and, forget about slow down. It didn't take Konami long to work those bugs out of their games. We were able to log a couple of hours on this super cart and even Martin was impressed with the special effects that Konami was able to do with Mode 7! More on the U.S. version very soon!

Choose from 15 different weapons with three possible configurations!

Note: The game screens are preliminary as the cart is still under development.

## Hudson Soft / Famicom / NES ADVENTURE ISLAND 3

The third installment of the popular Adventure Island series is coming to the NES. Master Higgins is back in a whole new adventure as he got himself stuck on a new chain of islands with no way to get off. While many items like the skateboard, hammer and fruit power-ups will look similar to those in previous versions, there will be new enemies and plenty of challenging levels for Higgins to explore. They all will be set in a whole new series of individual island adventures. The game is still early in its development but the basic game concept looks good and the levels that were programmed were quite challenging. Although Hudson Soft won't break any new ground here, this version looks like a solid addition to the series. Expect to see this cart in the U.S. this Fall.

*You can check your inventory of items while looking at this screen!*

To help you plot your course throughout your adventure in Adventure Island 3, you can look at the map screen! You will be able to get an idea of just how large some simple islands can be! Along your route you can also pick up items. They will be listed in the subscreen shown to the left! You can pick from any of these items or simply return to the game!

*As before, you must collect fruits to maintain your strength!*

*Find the hatchet to help you defeat your foes!*

*Hop on your skateboard to make up lost time!*

*This wave will carry you across the wide lake!*

*Take out the skeleton to receive plenty o' points!*

*Sometimes you may need to crawl to avoid certain enemies!*

## Konami / Super Famicom PARODIUS

Konami is once again loading its guns with another title for the Super Famicom and it promises to be one insane journey of color, music and special effects! Parodius has already been converted to the original Famicom, the PC Engine and the Game-Boy. Now, with the power of the SF, a whole new realm is about to be explored!

Based on the Gradius series, Parodius takes the original idea and forms it into a ludicrous and extremely silly atmosphere! Now, instead of fighting intergalactic warships, you must go against swarms of penguins, blast through a jelly bean mountain, blow away some cosmic clowns, or even dash under the feet of a hip-swinging Las Vegas show girl! In addition, many classical tunes have been sampled from actual instruments!

Will it come to the U.S.? Konami doesn't know yet but we bet it will as every Super Famicom game they have made also appeared, sooner or later, on the American Super NES. They won't do wrong by choosing this great shooter!

The title screen for Parodius.

### BOSS 1

### STAGE 2

### BOSS 2

Each character has its own specific power-ups!

A list of different weaponry and four different ships (if you could call them that) is provided!

Here are two of the perplexing levels. Total insanity is the name of this game, and nothing relates to anything!

One look and you can see this is going to be a fun game!

# FIGHTING MASTERS

## Capcom / Famicom / NES GARGOYLE'S QUEST

Capcom has been making progress on the new NES version of their GameBoy cart. The most recent version that we played looked good with some of the action/battle scenes in a side view perspective and the quest portion in a top-down view. Watch for this version later this year as it is coming to our NES.

## A Wave / Super Famicom ASTRAL BOUT

As the Super Famicom grows in popularity more companies will start to make games for it. Boxing is a sport that hasn't been overdone on this system yet and Astral Bout is a fair representation of the sport. Nothing special here just the standard punch till you drop type of game.

## Hudson / PC Engine Super CD-ROM MACROSS

Wow! If Hudson can do anything to perfection it is designing killer shooting games. Check out the pix and you can see what is in store for us later this year. Intense, nonstop action, with tons of deadly weapons and power-ups. The version we got from Hudson was nearly done and even Martin was impressed!

## ASCII / Super Famicom SPINDIZZY WORLDS

ASCII is taking an Activision game and transferring it to the Super Famicom. Somewhat like Marble Madness, you must maneuver your top through a maze avoiding the obstacles and staying on the course. It's hard to control your top but, the game isn't done yet. Look for Activision to do it for the S-NES!

## Technosoft / Mega Drive **THUNDER FORCE IV**

One of the most successful series of shooters for the Genesis is the Thunder Force series. The last game TF3 set new standards in sidescrolling action games. Now, the fourth in the series is on its way, and it looks even hotter! While it is presently very incomplete, what we saw impressed us!

## Lucasfilm Games / TurboGrafx Super CD-ROM **LOOM**

The masters at Lucasfilm have taken the popular computer game and converted it for the new TurboGrafx Super CD-ROM. They gave us a special showing of this super disc and it is good! Everything from the computer game is in here and the audio is spectacular! Look for this game later this year.

# POSSESS OR BE POSSESSED

CSK/Sega/Mega CD-ROM and Cart  
**AFTER BURNER III**

It's coming...both on CD, and on cart. This is a top secret project and little is known to date but expect some great full motion video on the CD version! We were able to sneak a few pix to get the excitement up! More soon!

Atlus / Super Famicom  
**BLAZEON**

Talk about fast! Blazeon has just made it to the arcades and Atlus is already quite a ways into converting it to the Super Famicom! What was viewable looked very good with exciting Mode 7 backgrounds

and very intense shooting sequences. You get to change into different characters depending on the circumstance and the weapons and power-ups are new and innovative. Looks like a winner!

# Devilish

**B**reaking the spells that bind is what you'll need to do in this new game from Sages Creation for the Sega Genesis. Gamma, the evil spell master has changed you and your princess into stone pillars in his evil kingdom of the damned. Your only hope

is to correctly deflect the glowing power sphere through a hellish maze. You'll need to topple stone walls, cut down spell bound trees that come to life, gallop through gates of ghouls, and dance with demons, while traveling

through worlds of fire and ice. Most importantly you'll have to keep moving forward in order to escape the fiery depths. Not only will you need skill, but

## Taito / Super Famicom CAMELTRY

Remember the rotating bonus round in Sonic the Hedgehog? Well, anything that Sega can do Nintendo can do also. Taito has built a whole game around this concept and it is fun! You're a sphere and you rotate the screen to allow you to progress through the maze. Run into bonuses and avoid the pitfalls!

## American Sammy / Super Famicom ULTIMATE FOOTBALL

Watch out Electronic Arts as Sammy has a new football game that is nothing short of spectacular. Lots of plays to choose from, large controllable characters all set in a well designed pseudo 3-D perspective. This is a well designed game and worth checking out later this year!

# FOR SEGA GENESIS

## American Sammy / Super Famicom BATTLEBLAZE

For some excellent gladiatorial combat, look no further than Battleblaze for the Super Famicom! You must go one-on-one with some of the best opponents in the land. There is plenty of technique required to play, but this is definitely a hot title for any fighting fan! Battleblaze is on its way!

## Irem / Super Famicom DINOSAURS

In this new side-scrolling adventure, you play a little boy who needs to help the dinosaurs! You can ride upon any dinosaur's back and use whatever method of attack the dinosaur would utilize! You can also collect power-ups to strengthen your dinosaur and yourself! The game is coming soon from Irem!

## WAS / Mega Drive TWINKLE TALE

Take to a journey like never before! Twinkle Tale is a new type of shooter by the folks at WAS. Set in an overhead perspective, you control a wizard out to destroy an evil entity taking over the lands! Throughout your quest, you can col-

lect power-ups that can be increased three times each! You can even collect "super bombs" that annihilate everything on the screen! Twinkle Tale is currently in the works in Japan. It is an exciting shooter coming soon!

Here you can test one of your "super bombs," such as the Fire Dragon! A large stream of fire spews out to obliterate everything!

Yuko Ahsu looks like an ordinary grammar school student, but she is actually the Valis Warrior. "I defeated King Rogles of the Dark World with the Valis sword which was given to me by Queen Valia, but my friend Reiko died in the process." Yuko went home by train after that terrible fight. All of the exciting action of competitive soccer comes to the arcade with this latest sports title from Seibu. Seibu Cup Soccer provides all of the fun of the *real* soccer experience without having to worry about

*Pick your favorite team and head to the field with Seibu Cup Soccer.*

getting dirty!

Use real soccer strategy to set up your players for a goal. You will need to master the aspects of ball control and handling to be able to pass effectively and take the best shots from anywhere on the field. Just like the real game, learning how to move the ball up and down the field is not as easy as it looks!

For a true soccer experience, you can have up to four players competing at the same time! Two players can participate on each team for a wild soccer contest! With three players, play two against one. Two players can play on the same team or fight it out in a grudge match!

*Awesome graphics and animation really bring this sports game to life in the arcade!*

*Up to four players can join in the fun! Play two-on-two for the ultimate in soccer competition!*

While shooting the ball is an essential skill to learn, one of the most important things you will have to learn to be successful at is how to pass to a teammate **without getting intercepted**. As with real soccer, the team that can keep the ball moving and confuse opponents is the team that will emerge victorious! If you can control the ball, you can control the speed of the game. If you can control the speed of the game, victo-

ry is definitely yours!

Keep an eye out for Seibu Cup Soccer at arcades everywhere. The ultimate in arcade sports challenge awaits you!

## Irem **UNDERCOVER COPS**

Have you ever wondered what it would be like to be an undercover cop on a dangerous assignment? Well, wonder no more! Irem's latest game, Undercover Cops, gives you the thrill of thrashing evildoers in a futuristic world! It will not be easy to keep the peace, but it is your job,

*Incredible graphics and animation complement the wild fighting action of Irem's latest arcade game, Undercover Cops!*

and someone has to do it! The wild fighting action in this game is enhanced by the cool graphics and smooth animation.

You have the choice between three different cops, each one with his own special abilities at fighting crime. Two players can take the fight to the streets at the same time. As with most games of this type, the action is easier with a friend along.

You do not have much time to complete the various levels you encounter, so you need to learn to work fast. Try knocking your opponents into each other to get rid of them more quickly. With practice, you can move through a level and your enemies at lightning speed!

Watch out for your foes, though! They are like nothing you have ever seen before! Many have moves designed to knock you on your back, and some are just more difficult to counter than others.

If you have always wanted to get a taste of police work, keep looking for Irem's Undercover Cops! The police force has never looked like this before!

*These Undercover Cops fight enemies like you have never seen on city streets!*

## NEW SOFT NEWS

Lots of great news to report on this month! The EGM spies have all been on the loose and this month they all came in with pay-dirt.

The biggest (and most secret also!) news is the fact that there is a **completed** Super Nintendo version of Double Dragon ready to spring on the industry at the Consumer Electronics Show in June. Our roving reporters ran into this one and snapped tons of photos of this super soft! The title of this game is Return of Double Dragon. Who's doing it? Acclaim? (since they did the last two)...No! Tradewest has secretly been working with Tecnos of Japan and it they will do the U.S. version!

Other surprises include a new version of Bonk where his great, great...etc grandson is now punk Bonk. As Quartermann predicted last year the next Bonk will be (and is) a shooter! See page 120 for an EGM Exclusive!

Speaking of Bonk, he will be coming to the GameBoy and NES later this year!

Master Higgins is coming back to the NES in Adventure Island 3! Those exclusive pix are on page 50.

Technosoft has Thunder Force 4 for the Genesis. Pix on page 55.

Sega/CSK is doing a cart and CD-ROM version of After Burner 3! The story is on page 56.

Speaking of Sega expect to see a Streets of Rage 2 out around Christmas. Pix next issue!

Sega will be showing at CES, the most revolutionary soft ever made. Is it Sonic 2 (NO), Batman 2 (NO). It is Dolphin. More next month.

The Neo-Geo hit - King of the Monsters is on its way to the Mega Drive!

**EGM EXCLUSIVE!**

## RETURN OF DOUBLE DRAGON

Tradewest / Super NES

You heard it right, classic street fighting champs! Billy and Jimmy Lee are about to step into a whole new realm created in the world of the Super NES! Being created by the original makers of the

blockbuster by the same name, the Lee brothers must take on a whole new challenge against the gang containing old faces like Rowper and the Abbos! New effects and great graphics highlight this fighting masterpiece!

## NEW AND IMPROVED MOVES!

All the moves from the original coin-op are here in greater detail!

Since the beginning of the Super NES releases, people have been demanding an excellent two player cooperative

action game with enough power and performance to keep the game exciting and not get bogged down with tons of slow down. Well, get ready for this totally intense cart. Not only does it have a two player simultaneous mode, but it also has a versus mode reminiscent of the first NES version!

## RETURN OF DOUBLE DRAGON

Tradewest / Super NES

EGM EXCLUSIVE!

## MAJOR BRAWL IN THE CITY STREETS!

What is a street fighting game without a little action in the streets?! Here, you will encounter all of the familiar faces that have plagued you in the past, but it is improved with even more moves and deadlier attacks thanks to the power of the Super NES! Veterans of the NES version will have no trouble adapting, but newcomers should stay on guard!

A wise man once said, "Know thy enemies!" In this case, you will know them and wish you never saw them! Here is where they are vigorously trained in martial art combat and have a nasty habit of doing flying leap attacks! Your best moves are jump kicks for knocking the opponents out of the air, or grabbing them when up close and knee slamming them!

## THE ORIENTAL TRAINING CAMP!

## GAMBLE FOR LIVES IN THE CASINO!

These are definitely not what Donald Trump had in mind! Here, you will find the scums of the world blowing their bucks for just a crack at winning! Therefore, they are **not** in the mood for losing - even a fight! Thus, watch out for some dirty, cheap shots aimed at your back and watch for some even more powerful goons!

There are plenty of levels throughout this game that will test your every ability as a martial arts expert! In some cases, you will start brawling in the factories where many different technical terrors reside, or even duelling on the runway of a huge airport! As you progress, more enemies will start to appear with even greater power! Good luck!

## AND EVEN MORE LEVELS!

# SUPER SOCCER CHAMP™

- A Variety of Countries to Choose From
- Yellow and Red Cards for Foul Play
- Your Goal is to Score the Cup
- 1 or 2 Player Game

**HOT SHOT SHOOTER!**

World class soccer is coming your way. Choose among a variety of countries in your quest for the prestigious cup. Different teams and different players each have unique abilities. Sometimes you will have to choose between your heart and your head when choosing which team you will guide to glory and fame.

The fast pace, grueling action, and tough competition has made soccer the most popular game in the world today. Pretty passing, flying headers, bicycle kicks, slide

tackles, yellow cards and red cards are all part of the game. Watch out for your players becoming fatigued too. Sometimes fresh legs are better than your superstar.

If your passing game comes along you might be able to hit a bicycle kick or break a window. There's nothin' like playin' ball in the house. So, let the games begin.

# RIVAL TURF!

## Fist to Fist

Coming soon from Jaleco is a new fighting game called Rival Turf. This 8 Meg cart is packed full of features not often found in normal fighting games.

After the introduction and title screen, select from two different characters. Jack Flak is very quick, but not as powerful as Oozie Nelson who is extremely powerful, but lacks speed. Two player mode is simultaneous and players can even be the same character at the same time. There is also an option screen in which the player can select different control pad configurations, use the sound test and even turn on the two player hit mode, in which you are able to hit the other player's character. After the game has started, you will notice a map of your character's position with some nice Mode 7 scaling. Game play is similar to other fighters except for some unique moves. This game is sure to be a hit with fighting theme fans!!

Game play is one or two player simultaneous action. Players can even be the same character at the same time if desired! In the option screen, the two player hit mode can be turned on.

## DEDICATED TO DESERT STORM

This game does not need any introduction! Approximately one year from the distribution of this magazine, Operation Desert Storm started. Considered the most popular war of the United States (if a war can be considered popular), the creators have taken actual film footage of the war and digitized it to create one devastating simulation!

You are in command of an M1A1 Abrams battletank and must oppose the Iraq "elite" forces. Use strategy to plot attacks during the morning, dusk and night hours against the enemy's tanks, choppers, scud launchers and convoys! For war game fans, this cart is a commanding victory of high performance fun!

### IRAQ ASSAULT CHOPPER

*These choppers can be quite a pain. The only weapons that you can use against them are the machine guns and the laser-targeting missile launchers. Approach these with great caution, as they strike fast!*

### SCUD LAUNCHERS

*One of Saddam's most highly touted weapons is ready to be wiped out! Use either two 120 mm shells on them or a few rounds of machine gun fire to disable these puppies. They are stationary and do not attack back - the perfect sitting targets!*

### T-72 IRAQ TANKS

*These are the highest quality tanks that stand in your way! Use six shells from the 120 mm cannon to blow them back to their oil-dried country! They will swerve far away from you and then give you a few pot-shots before approaching you again!*

### IRAQ BASES, OIL FIELDS AND CONVOYS

*In the later levels, you will need to clear the screen of all enemy objects before discovering and attacking the main target objective. They will range from tank convoys to scud carriers to an arms factory!*

- 1- Fuel gauge - amount of fuel
- 2- Speedometer - measures speed
- 3- 20mm cannon - main weapon
- 4- Laser-missiles - locks on units
- 5- Smoke screen - hides M1A1
- 6- Machine guns - small weapon

This game allows you to choose from two different courses by either allowing the computer to choose, or you deciding on your own - with the holes you choose to play.

Some improvements over the computer version are digitized graphics and realistic sounds that make you feel like you are on the course. All of the aspects of golf are here, including choice of clubs, water hazards, sand traps and out of bounds occurrences. Choose from one to four players and play a skins or a stroke game on beginner to expert levels of play. You may even save your game in progress and recall it later. Dust off your golf clubs and go for the hole in one!

### THE SEARCH BEGINS - I PRESUME?

Dr. Livingston is missing somewhere on the continent and the only person brave enough to follow his travels is a man named Stanley. Live the adventure of Stanley as you search through jungles plagued with angry tribesmen, deadly insects, hungry piranhas and more. Talk to people in the town, as they will advise you on your survival in the heart of the jungle, and tell you who to contact when you reach certain places. Stanley has a substantial number of items and weapons that he can collect and use, such as the rock, spear and grapnel. If Stanley jumps off of a ledge, he has a helicopter safety feature in his backpack

that will keep him from falling to his death. When certain characters are destroyed, they will drop useful items. As you continue to conquer specific areas, you will be allowed to travel further on the map. With your skill and a little bit of luck, you will be able to survive these adventures!

On the map, the flag represents your position and movement icon.

Destroy this spider with your fists to get to the knife on the other side.

### STANLEY'S IMPORTANT ICONS

Throw rocks at this tiger before it eats you for lunch. The icon in the top left hand corner of your screen is the one currently in use.

Make sure you talk to many people, as they might have important information.

Hostile natives and deadly snakes will take you down - unless you take action.

Within the jungle, you will find the grapnel that is essential to your quest.

# IT'S A HIT!

Bottom of the 10th, two outs, bases loaded, and the league's best hitter is at the plate. Will he take your screw ball downtown? Or will you blow him away with your awesome fast ball? Find out when you play Extra Innings, the amazing new baseball game for Super NES.

Select your starting lineup based on who's hot and who's not. With Extra Innings, you call the shots and control the action: the spin on the curve ball, your batter's slugging power, even your player's dive for a shot up the middle.

When you play Extra Innings, you can put

on a hit and run, take a long lead off first, or nail a base runner at the plate on a sacrifice fly. Play like the pros as you fight for a 12-team league pennant. And remember, statistics are updated and available on every player. You even select the stadium — air dome, midsize, or high-walled. Every choice changes the game.

There's never been a baseball game like Extra Innings.

Eight different playing options, including two-player mode and all-star team competition, make this the hit of the season. Extra Innings. It's a home run!

## HOME RUN FUN!

All fans of the original shall be glorified when they see this cart. Baseball Stars 2 is ready to make its debut!

There have been many changes to the game that an original player may notice when starting with this new title. First of all, there have been six new teams added to the roster with names such as the Texas Towers, the Torrance Tigers and many others. Ultimately, there is a grand total of 18 different teams offered! Think that is great stuff, guy? Well, get a load of the next option - team customization! You can literally create your own team from scratch! You can also buy and sell team members whenever necessary!

There are two different screen views in which to take in the action, providing for plenty of playability! First, there is a batting/pitching view that allows you to see all of the bases and who is on them (let alone who is batting and the pitcher). Then, when you hit the ball, it switches over to an overhead perspective!

There are options that you can choose to utilize such as playing a single game or league games. Also, included are four stadiums to choose from to allow a more "diverse" and realistic feel to the game. Plus, there is the two player mode allowing you to challenge your best buds to take you on!

One of your views will let you observe the pitcher, the batter and the three bases.

Once the ball is hit, the view changes to an overhead scrolling action packed view!

# BASEBALL STARS II

You can either take a ready-made team from the given list, or customize your own team providing the names and statistics set to your liking!

You can call in a relief pitcher when you need it most, but try to do this only when your pitcher is REALLY bad!

Always check the scoreboard for who is winning! It will display some different ads and other info. Use it to brag to your friends during two player mode!

# HE'S NO DUMMY!

And if you love 16-bit action, you're not either! Join SmartBall in this wacky new adventure and slip, slide, slither and ooze your way into the craziest worlds you've ever imagined. Through hot tropics, deserts and dangerous urban battlezones, it's you and your buddy SmartBall against a very mean group of nasties.

## CODENAME: FIRE HAWK

Camérica's new cart for the NES is Fire Hawk. In this intense combat shooter, you will be needed to rescue some of your country's top agents who are trapped behind enemy lines.

Blast your way through many levels of enemy artillery in order to reach your men. You must keep your eyes peeled for power-ups while avoiding heavy ground-to-air bombardments and agile enemy jets.

Once you find your man, and your landing brackets are activated, your perspective on the battle will change from overhead scrolling to a rear-view shooting mode.

While waiting for your agent to climb the helicopter's ladder, shoot down approaching enemy choppers.

Fire Hawk should be landing in stores sometime in May. Prepare for battle, as your mission awaits.

CHOOSE BETWEEN THE MAGE OR THE FIGHTER!

*The Fighter is quite an adequate warrior with good speed and reaction time, but he has no magic abilities.*

*The magical Mage does not have a very high stamina and is clumsy, but it can have up to six magical spells!*

TWO DIFFERENT STAGES IN EACH LEVELS!

*The over-world sections of the levels contain human habitation and shops to help you on your quest.*

*Very few civilians venture into these parts due to the dangers that lurk here. Fight the Bosses in these sections.*

BE WARY OF THE DANGERS IN THE CAVES!

*Be careful in these underground passages when on your way to fight the Warlaken of the second level. There is a doorway at the bottom right that will lead to a pond and the Boss, Warlaken. Defeat it and return the mermaid to the water to receive the "Scales of Mermaid."*

## THE ASSAULT OF BALROG HAS COME!

A long time ago, there existed two forces in this world - Good and Evil (really!). Unfortunately, the attitudes of the creatures belonging to the dark side did not coincide with the sweet and kind intentions of the good side. Therefore, as a final solution to the disputes between them, the evils went to another universe and good stayed in its place.

Well, after years of evolution - the dark eyes of the evil empire enviously gazed upon the successes of the empire of goodness and were led by King Balrog to invade and take over the kind people of the world!

If you have not realized it at this point, you (alone or with a friend) must destroy the vile Balrog before his fist clenches around the entire world! You have a choice between two characters - the warrior or the wizard. Both have their strengths and weaknesses - but you will need all of the power you can muster to defeat the evil attempting to destroy the good world's peaceful existence!

The levels are divided into two stages - first there is a "human world" where towns and shops are, and then there are the underworlds where the creatures and bosses are waiting. Make sure to power-up on your experience, or you may have one heck of a game on your hands!

## BLAST AWAY THE EVIL... PENGUINS?

In this game, there is so much to talk about it is hard to decide where to begin. This is the first 8 Meg title for the PC, so you probably already know that it is phenomenal. Also, with a company like Konami creating it, this system has all ear marks of being a success. Parodius is the newest development in shooters, and it is hot stuff! With 8 Megs of pure power, limited flicker and no slowdown, this card goes where no other has gone before.

The game itself is a bundle of pure laughter for anyone who plays. While most shooters have you decimate everything in your path, Konami has added a cute theme that takes you away from the norm. Additions, like missiles with feet, some scaling and rotation and a jolting ending will keep you on your toes.

For a great deal of enjoyment and challenge on the Turbo, pick up this Japanese title, if possible. From the bells to the tiny critters, it is cute fun.

### THE DEVASTATING (BUT CUTE) POWER-UPS

## MAGIC BELLS CAN SAVE THE DAY!

*Silver Bells, Silver Bells! They give you the power of the wacky weapon that fires letters at your persistent enemy pests.*

*Unless you read Japanese, you will have a hard time figuring out what your ship is saying!*

*The blue bell is a very powerful weapon, but it is only good for one screen of enemies. It makes a large flash that destroys everything, like the megacrush in Gradius.*

*The magic of the yellow bell is not used against the enemies. It gives you a certain point value, depending on the amount of bells you find in a particular level. Each time you find one, it will go up from 500 points, to 1000, 2500, 5000 and finally to 10,000 points.*

*Red bells are nifty things to have, especially when dealing with great numbers of small enemies. It puts up a laser barrier that lets no one pass, except you! It can sometimes defeat bosses if placed correctly.*

*The powerful green bell is the best to have. For 15 seconds, your ship will grow very large and be invincible to any attack. It can even pass through walls! Try getting this one whenever a bell appears. These weapons are very useful throughout the game.*

## FANTASY ISLAND

The first level of the game is a real challenge. Fight your way through this seemingly peaceful level. It is calm until you get to the evil kitten airship! Then, meet the deadly Bird Boss that beckons you ever closer.

## FUNVILLE

The name is misleading, because this level is not so fun. With enemies at every turn, and a mid-boss like this, you will barely make it out alive on this one. Just when you think it is all over, you come across this Boss!

## CANDY LAND

The third level puts a land of ice cream and jellybeans in your path of fire. This is not as tough as it looks. There is no mid-boss to contend with, and the main Boss is a cinch. You should have no problem with this jolly candy-like level!

## PINBALL HEAVEN

Talk about a fix! This time around, you are sucked into a giant pinball game. Watch out for the flippers. Double fire or tail-gun is highly recommended. You will probably recognize the Boss from Gradius. Defeat it the same way.

## DARK ODYSSEY

Level four is a mismatched bundle of strange creatures coming at you from every direction. It is not easy in here. The Boss fires at you quickly, and unexpectedly. Its weak point is the stomach. Fire at it as fast as you can!

## DREAMLAND

The sixth level is a slow, but intense level. The music in this level is very soothing, but do not fall asleep yet. You still have to face the Graveyard on level seven, and the Superfortress on level eight! Good Luck!

intense fighting games yet. Make your way through six intense levels of fist-packed action. Game play is standard fighting fashion with a vast array of kicks and punches. As you progress through the game, be sure to collect the much needed icons of

Drive nails into walls and blocks to climb walls and cross chasms.

If you stand on top of a nail too long, it dissolves from under you.

When finished, look for the exit at the end of each level.

Be careful, or you may end-up like this!

Certain blocks can be broken by jumping on your nails.

## Nail, Scale, Nail and Prevail!

Nail n' Scale is the newest GameBoy cart from Data East. The object of the game seems simple enough, use your nails to allow you to climb walls and cross chasms while searching for the exit. Unfortunately, (or fortunately) this sounds a lot easier than it really is to play.

Standing between you and safety are a number of fierce beasts, complex mazes and nasty bosses. In addition, you must cross a seemingly endless amount of lava pits, which are sudden death if you happen to fall in one of them!

To help you throughout the game, there are different enhancements for the nails, and a handy map feature which allows you to gain better perspective on your position.

Watch for Nail n' Scale to be in the stores sometime in April, and scale to new heights of GameBoy fun.

# nail 'n' scale

You will encounter all kinds of weird and dangerous creatures in your adventure. Hit them with a nail to get rid of them. Be careful though, because some of these beasts are immune to your attack.

### LEVEL ONE BOSS!

This Boss can be killed quite easily by nailing him (no pun intended) in the belly repeatedly. Kaboom!

Use the exploding nail to blast through certain blocks. Pick one up by keeping an eye out for the blast nail icon. They can be found throughout the game.

Map is a cool and useful feature which you can use to give you a better perspective on your position. It enables you to scan ahead to check the area for danger.

# YOSHI™

## PORTABLE EGG-CITEMENT!

Mario's friend and helper, Yoshi is hatching his way into your Game-Boy! With him are some friendly, and not so friendly, characters that you must match in this puzzle game of skill.

The game itself plays somewhat like Tetris; another game by Nintendo. Characters such as ghosts, squids, piranha plants, egg shells and goombas must be matched up as they fall from the top of the screen. You control Mario as he waits at the bottom to catch them. He can hold two stacks of characters at a time. His function is to turn and switch these stacks around so

that the characters fall upon their matching characters and disappear. The more you match, the faster the action gets. Once the top half of an egg shell falls onto the bottom half of the egg shell, a Yoshi will be hatched and various points will be scored. Complete levels for advancement in different modes of play, and choose your level, speed and music for this one or two player addicting game.

A stack like this will be eliminated by the egg shells.

This will give you a winged Yoshi and massive points.

Match the characters to make them disappear.

Game type B will start you off with rows of characters.

A Yoshi will appear when two egg halves join.

You can advance once you clear a level on type B.

## THE COURTS OF DOOM!

## BLOOD, SWEAT AND BROKEN BONES!

What is the point of winning if you cannot even punish your opponents for loosing? Well, you will never have a problem with that here because punishment is the name of the game!

Enter the street courts of a rough and tumble neighborhood, where pain comes before pleasure! Not only will your basketball skills be tested, but your street brawling abilities will be needed to the max!

There are no rules to the game! You just use your jump kicks and punches to take out the opponent. Do you need a bit of help when others are constantly pounding you? Well, the sideline guards will oblige you by jumping in and pushing your opposition around! However, you can always pick up a lone dagger, whip or whatever might just turn up unexpectedly on the courts to put a dent (literally) in the competition! There is a password feature which is included for when you start on the three-to-one battles! Good luck!

## time to fight!

Here is where you either attack your enemies or defend your castle against the aggressors!

## MAKE REPAIRS!

After each attack, rebuild the castle walls and try to expand to other lands. Your time is limited!

## CASTLE CHOICES!

At the beginning of the game, you need to choose which castle you want to start your conquest from.

## PLACE CANONS!

Your defense is to use these where most needed. Place your cannons strategically, so they are not damaged!

## PROTECT YOUR CASTLE AND LANDS

One of the most popular arcades to incorporate trackball control is now being adapted to the Atari Lynx!

Journey back to the days of merry old medieval England. Where castles rose and soldiers fell. It is your job to pick the right castle and then defend it by placing a barrage of cannons wherever you can most advantageously put them.

The rounds are simple. First, you create your castle empire. After that, the enemy troops will then attack your palace and try to take out your surrounding walls. Your job is to fire your cannons wherever you can most advantageously put them. The rounds are simple. First, you create your castle empire. After that, the enemy troops will then attack your palace and try to take out your surrounding walls. Your job is to fire your cannons wherever you can most advantageously put them. Then, you will be allotted a certain amount of time to rebuild your walls and expand your kingdom. Fans of the arcade, be appraised of this winner from Tengen!

## YOUR FATE?

Make sure that your kingdom (and populace) is not wiped out, or you shall suffer a most undesirable fate accompanied by a cinema display bearing the Grim Reaper!

# GEORGE FOREMAN'S KNOCK OUT BOXING

CHECK OUT GEORGE'S POWERFUL MOVES!

Your speed can be increased to a power of five, which will reflect how many super punches you have obtained! Hold both buttons down, then release, sending him sailing across the ring!

Back your opponent into the ropes and let loose a volley of rapid action punches to give you the quick KO!

Be sure to watch your endurance on the top of the screen!

Nelson is one of the weakest characters in the entire game! Just keep nailing him with swift lefts and bye-bye!

Steel is a little tougher opponent. He is much swifter than Nelson, but can be beaten the same way.

If you or your opponent goes down, there is the usual 10 seconds to rise. Better hurry!

In between rounds, you will rest and build up your strength, depending on the score!

Brown loves to go nuts on you with his uppercuts and head blows. Block a lot against him.

The final bout! Power is Louis' game, so blocking is essential with him. Use all of your super punches!

## KNOCK YOURSELF OUT!

Very seldom have we seen a boxing title released in the hand-held market, but now the creators at Flying Edge have grabbed the license for George Foreman and have formed it into the next boxing game for the Game Gear!

Take control of George Foreman and battle your way through four muscle- (and title-) bound boxers. An arsenal of furiously flying fists that can hit low, strike in the face or give an uppercut wallop to the chin are at your disposal! You can also protect yourself in the head or the chest areas. Not only that, but you can have a special super punch that will send your opponent reeling to the other side of the ring! Develop your character and win the title bout!

### SURVIVE THE WAR BY COLLECTING VALUABLE POWER-UP WEAPONS!

#### STANDARD ISSUE RIFLE

#### SPREAD GUN

#### BOMBS

#### LASER CANNON

#### HOMING MISSILES

#### BARRIER

#### CRUSHER WEAPON

#### FLAME THROWER

Here is a breakdown on the various weapons that you can pick up in the game. Each weapon has been rated with in three different

categories. First is how powerful the weapon in relation to how much damage it causes the enemy. Second is the speed at which the shots

travel and how fast can can change direction of fire. Finally the repetition of the shots is shown so you can see how fast it repeats.

## MISSION ONE

### MISSION ONE: THE STREETS OF NEO CITY

1. Watch out for the dogs when playing on normal or hard.
2. Hop into the tank and plow through the enemies. Use it to destroy the wall.
3. Be sure to get the Barrier so

you can run through the flames.

4. When this tank comes out, stay all the way to the left and shoot. It should be destroyed in no time.
5. While crossing over this pit of lava, be sure to shoot downward.
6. If you have trouble crossing you can destroy the fireballs and cross safely.

### BOSS ONE

This oversized turtle is a push-over. If you have crusher or lasers than just get in close and blast away. Use a bomb for faster results.

## MISSION TWO

### MISSION TWO: MARIA CALDERON HIGHWAY

1. Start your mission here. When you destroy the enemy turret you will get a Flame thrower. It is the only weapon that can shoot through the barrier.
2. Watch out for the cracks in the bridge, because the ground will fall out from underneath you.
3. All around this level there are land mines. They will not explode immediately so keep moving if you step on one.
4. This turret will give you a Barrier or an extra Bomb at random. This should be the next turret you destroy.

### BOSS TWO

This boss attacks by spinning at you. Keep moving to the right and blast the boss with lasers when it stops spinning. If you damage the boss it will fly up into the air and dive towards you at great speeds. Press jump to duck under its shots. Shoot it in the eye to kill it.

## MISSION THREE: ABANDONED CYBER STEEL MILL

1. You will face a swarm of vicious winged aliens. Do not let them take hold of you. Keep shooting and they'll let you go.

2. The best way to destroy this pest is with a Flame thrower. When it dies it will try to toss you into the abyss below so get all the way to the right. Stay to the right while the missiles pass by and you'll be safe.

3. This metallic menace will shoot missiles and scale the wall. Try to stay as close to its top foot as you can and

shoot the missiles when possible.

4. The best advice for avoiding his lightning fast rushes is to keep moving. Watch the eye, when it opens expect it to attack. When it attacks, try to get above or below it and aim at a 45° angle and blast away. It should be gone in no time.

5. When the hovercraft gets on the screen, go all the way to the left and hold Right button and shoot at an angle. Watch for the winged soldiers that come from above.

6. As you walk by here keep shooting to destroy the oncoming missiles.

## MISSION THREE

### BOSS THREE

When you first walk into the boss room, twin guardians will greet you. Use Crusher or Flames to destroy them quickly. Blast the red twin first and his torso will start jumping around. Climb to the top of the room and shoot down and the twins until both are dead. A huge skeleton will rip through the wall. He'll send heat seeking fireballs after you and then chase you with a huge flame from his mouth. Shoot and climb in a clockwise pattern to defeat him. He also sets timed bombs out, so move fast or die.

### SURVIVE BY LEARNING SPECIAL TECHNIQUES!

If you hold the Left and Right buttons on top of the controller you will be able to use both of your available weapons at the same time. This is a good technique for fighting bosses in the overhead missions.

## MISSION FOUR: THE BATTLE OF THE BLAZING SKY

1. Stay left and shoot diagonally. When they throw bombs, just jump over them.

2. You can safely destroy the tank and the jetpack aliens by staying to the left and blasting away.

3. These cannons can be destroyed with constant firepower, but can be easily avoided without a fight.

4. Use the Flame thrower and shoot upwards to toast the turrets that appear in this section.

5. This part of the ship is hard to destroy, so just dodge it to live.

6. Hold the Right button and stay in the middle of the screen while you burn these soldiers to a crisp.

7. Try to stay halfway between the cannon and the right edge of the screen. When the cannon fires, jump over to the right to avoid the flames.

8. Go to the left side of the screen and shoot diagonally while holding the Right button.

9. Concentrated shots will keep this pest from hanging around.

## BOSS FOUR

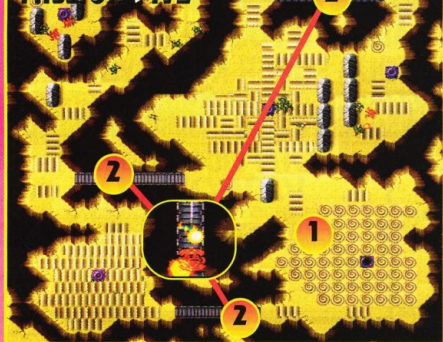

It is best to take out the lower cannon and then go for the top. Once both are gone, concentrate on the big red eye. Watch out for the heat-seeking missiles it fires.

## SHOOT IN 8 DIRECTIONS!

You can shoot in 8 directions while standing still. All you have to do is hold the Right button while aiming.

## MISSION FIVE

## MISSION FIVE: THE MUCHO GRANDE BADLANDS

1. Everywhere in the level, there are moving patches of sand. Some will rotate and others will drag you towards the edges of the mesa. When destroying the turrets that are surrounded by the sand, you must use the Left and Right buttons and rotate to counter the effects of the sand.

2. Watch out for the bridges. They are timed to explode as you walk across them. Do not hesitate at all when crossing over them.

### BOSS FIVE

Giant sand worms will come out and try to drag you in. Destroy the sand worms to get power-ups and then get in close and blast the Boss in the eye. Laser or Crusher will work best

## MISSION SIX

## MISSION SIX: RED FALCON'S MAIN HEADQUARTERS

1. Here you are greeted by an old familiar face. Use the Spread or another high power weapon and get in close to blow him away.

2. At this point, you'll need Spread and you must get in close to the heart and fire at an angle.

3. This creature is only vulnerable when its face is showing. Watch out for its

quick attacks and poisonous shots.

4. Be sure to get the Crusher.

5. At first, it will lunge at you. Shoot straight up or down and you will inflict the most damage. Its next attack is more dangerous. When it appears climb down a little and blast on a 45° angle. Watch out for that tail!

## GET READY TO FIGHT THE RED FALCON MOTHERBRAIN!

First, you will have to fight a 3headed monster. Concentrate on the outer heads first and then go for the main face. Crusher and Laser work very well on this Boss. Alien drones will come from the outer faces after they are destroyed. When all 3 faces are killed, the Motherbrain will appear. It has 8 different forms and attacks very aggressively. Look at the strategies to the right to blow it away.

It makes 4 passes, and is very difficult. Look at the pic for safe spots.

Use a Bomb or the double weapon technique to get through.

This is the easiest form. Just shoot and dodge it as it flies about.

It only shoots eyes at you. Stay in the left corner and shoot away.

Stay all the way to the left, jump and shoot to get rid of this walker.

The spiked balls it throws out also have power-ups in them.

You cannot shoot the orbs. Avoid the deadly orbs at all costs.

Do not bother shooting, just jump over the rocks to survive.

# GAME OVER!

## Super Castlevania IV

### THE DRAC IS BACK!!!

Simon Belmont is back in the whip-snapping sequel Castlevania 4. Simon must make his way through nine levels of intense action to reach the legendary Castelvania, home of the wicked Count Dracula. While in the castle, there are two more levels you must conquer in order to reach Dracula. Before entering Dracula's throne room jump off the ledge at the base of the stairs for secret power-ups! Walk up the invisible staircase and jump to the ledge. Now go battle Dracula and bring peace back to Transylvania.

During the first two attacks Dracula will shoot out fireballs the spray shots all over the screen. If you whip these fireballs you will receive a bonus chicken leg for increased health.

Use this password without a name and you will go straight to Dracula.

The most effective way to defend yourself is to let your whip hang like a shield.

The Boomerang inflicts the most damage against Dracula's first attack.

Boomerang will destroy the fireballs that Dracula shoots in his second attack.

Watch the top of the screen for the first signs of lightning. Dodge the columns or else!
