What make the Sonic Spinner so Special?

"It's Addicting!"

There is no secret about what makes a redemption game a hit. Quick action, flowing tickets and the lure of hitting the Jackpot!

In the same vein as the redemption classics Rock n' Bowl and Wheel em In, Sonic Spinner is a fast coin game that fuels the players desire to keep feeding coins to keep collecting tickets. All while managing to maintain a payout that is well within the accepted 35% to 40% range set by most redemption locations.

Considering this is Sega's first original redemption game in many years, would you believe the Sonic Spinner only paid out an impressive and remarkable **34%!**

WHY SONIC SPINNER?

Why Not! The Sonic Spinner has all the earmarks that a redemption location looks for in a redemption game. Small footprint, few moving parts for little maintenance, an attractive cabinet design, flashy and addictive gameplay! Not to mention the highly recognizable stars of the game Sonic the Hedgehog and his buddy Tails! All that at an incredibly low price!

THE SONIC SPINNER IS A WINNER!
