

"The Coin Machines Merry-Go-'Round"

by Bill Gersh

DIRECT SALES INCREASE

Direct sales to storekeepers are again increasing. Such direct sales are most resented especially at this time. Letters, phone calls and wires, which have been received by The Cash Box in greatly increased numbers these past few weeks, attest to this.

Many coinmen have found themselves suddenly ordered out of good locations, as these retailers become acquainted with machines and prices. They also have learned, in many cases, and much to their amazement, that the same firms from whom they purchase their machines are also the firms who are selling them out of their locations. Some prominent firms have been openly mentioned in these letters, wires and phone calls.

Today, the location owner will grab at machines. He does not know anything about servicing overhead, mechanical problems, general machine costs, scarcity of parts and supplies, or any of the other myriad headaches which confront the average coinman who is working so hard to keep going and to maintain himself in business during this war-time period.

All the location owner is interested in - is that he will get 100% of the collections from the machine, and that he will not have to split this with anyone else.

The coinman who comes around to see him, who coddles him, who caters to him, who services his machines and who, at regular intervals, takes verbal lashings from him for insufficient supplies of new records, for too few service calls, and gets the blame when the take drops, as well as for a thousand and one other things over which he has little, if any, control, is a very sad man indeed, when he finds a machine sold directly to his location.

This turn of events, where once again certain firms have decided that this is the time to sell direct, instead of to the man whom they have been selling right along and who has proved to be the backbone of their business, is simply burning the candle at both ends. And no candle can last long under those conditions.

These coinmen who have been so hurt are now getting to the point where they will not brook further further direct sales to their locations from firms hundreds and, in some cases, thousands of miles away from their territories. Furthermore, many of these coinmen are today in such financial condition whereby they can most vigorously contest such action.

It hurts any coinman like the very devil, who has worked for months and months to develop a little out-of-the-way diner into a well paying location, and who has purchased machine after machine and switched and changed and coddled and pampered and taken abuse until he has made this location one of the outstanding on his route, to call around one fine morning and find his machine turned around, and another machine installed in its place. And then have this storekeeper tell him, "This is my machine. I just bought it. Take your machine out. I'll keep all the money from now on."

Such action must lead to retaliation. It is bound to stir up something that will prove anything but beneficial to such firms in this industry. This is the time when teamwork is necessary. This industry is entering into its greatest era. Such poor business methods simply must be eliminated if this business is to progress and prosper.

The man who fought so hard to maintain himself thruout this wartime period has done so to become a better customer for tomorrow. But, if such actions continue, how can this coinman ever remain a customer when his locations are taken away from him?

The answer to such actions will eventually come of itself. The man who is out on the route, who is in control of a certain number of locations in his territory and who, when hurt, can hurt back much harder than he will ever be hurt, is sure to come to some method of retaliation which may hurt all concerned with this industry. It may be cutting off his nose to spite his face, but at the same time it may also be the solu-

tion to righting some great wrongs that have been done him time and time again. It is very hard to control a hurt and angered man.

Such direct selling firms must remember that when they sell a location owner that this storekeeper knew nothing of coin machines, or their possible earning power, until some operator developed the spot. And the coinman in this location being hurt by such a direct sale - madly hurt - will eventually wreak his vengeance. And that may upset many an apple-cart in this industry.

Coinmen will agree, who will think back but a few years, that the manufacturers could have easily sold direct to locations, instead of to operators, if they had so desired. But they found that the operator was the logical man to handle the machines and that, by the operator making a business of placing machines on various locations on a percentage basis, he became an unusually fine merchandising factor for the further progress and growth of this industry.

Therefore, this operator must be protected. More care should be taken that the storekeeper does not, whether accidentally or intentionally, pick up a magazine that comes to his newstand and learn, by looking thru this magazine, the price of the very machine some operator has installed in his place. The storekeeper loses nothing by writing to the advertiser. And, if the advertiser is careless, he will sell this man.

Furthermore, one location owner tells another. He passes the word along. And before many weeks have passed by, the operator who worked so hard to develop these locations and to maintain them, finds himself practically out of business.

Once these location owners have their own machines they are very, very reluctant about replacing them with new equipment. They put all the push back of them that they can. They get the garage or radio mechanic around the corner to repair them. They stimulate play on them where they wouldn't do this for the operator. They use every means possible to keep this selfsame machine going for years - so that they will not have to buy a new machine. And this has been proved time and time again.

In short, by picking up a newstand magazine, by seeing the price of the machine now in their location openly quoted, by buying the machine themselves, these location owners upset the complete merchandising principle which has created and built this industry and which principle, if maintained, will make this a greater and grander and better business for all now concerned with it.

Surely, then, it profits no man in this trade to help in any fashion whatsoever to upset the successful merchandising procedure which has created this industry, and which will carry this industry forward to an even greater and more glorious future, by selling direct to locations, or by advertising to locations, and educating them to the cost of machines.

Naturally, there will be a few who will use the statements made in this item to accuse The Cash Box of attempting to "hog-it-all" and to get this trade's advertisers to get out of a newsstand medium for its own selfish purpose.

The Cash Box has no such thought in mind. It has time and time again advised advertisers that it does not care if they use their daily newspapers, or the large radio networks, in addition to this newstand publication, for their advertisements. It does not even care if the average advertiser uses neon lighted billboards clear across the nation so that those riding the highways and byways of this country can read their advertisements.

But, The Cash Box does ask these advertisers one simple thing - and that is - TO ELIMINATE PRICES APPEARING IN THEIR ADVERTISEMENTS WHICH WILL BE READ BY STOREKEEPERS, and thereby, to a great extent, help eliminate direct sales.

WHEN THE TAX BUG BITES

When the tax bug bites in any village, town or city in this nation is there anyone, any where in this country who can offer coinmen the help they need to combat this bite into their incomes?

There is no single firm, no single person, no group of persons, no special agency, and no organization that can quickly present former cases, data, precedents, procedure, legal aid, legal guidance, or any other material necessary to bring better understanding to the legislators who are seeking to increase, or to create new coin machines taxes.

There is no group anywhere in the nation that can offer much help. Yes, here and there are coinmen who will give whatever advice they can pertaining to what they, them-

selves, have experienced in similar matters, provided of course, that they are not too busy and that their case was somewhat similar.

The tax bug started biting the day a favorable decision was handed down by the highest court in the State of New Jersey - the Court of Errors and Appeals. This court gave so broad and liberal a decision that one prosecutor was forced to call in his police chiefs and advise them that they could no longer molest coin operated devices except where gambling was definitely proved.

In the very same breath, this same prosecutor urged every community under his jurisdiction to place an extremely high tax on coin machines, so that they would not be able to appear in any too great numbers in each community, and that the few that would be able to operate under such high license fees would be under the constant surveillance and complete control of the police.

The very first city to take advantage of this "advice" voted a yearly license fee of \$500 for each pin game. The next city voted \$250. per year per pin game license. Another city is now considering obtaining \$350. per year for each game. And so it goes. Coinmen who were starting to buy used machines to see whether the public still liked to play them, have been stopped cold in their tracks. They have been thrown back on their haunches and haven't recovered as yet.

And while all this was happening, a frantic appeal came to The Cash Box from a noted coinman in the City of Omaha, where this city's Comptroller had suddenly suggested to the City Commissioners that new and higher license fees be instantly placed into effect on coin operated equipment working in that city.

In his report he called coin machines "gold mines". He recommended that the pin game license be increased from \$15. per year to \$150. per year, phonos from \$5. per year to \$50. per year and that cigarettes be taxed at the rate of 1¢ per pack. This, he claimed, would help raise a tremendous amount of money, practically enough to cover whatever deficit this city faced in its 1945 budget.

He did not stop to think that such high and inequitable license fees would practically rid this city of the very machines he hoped would help finance the deficit. He did not stop to think that every cigarette machine operator in his city would be faced with tremendous expense to change equipment to accommodate this additional 1¢ per pack. Nor the expense that wholesalers of cigarettes would also be put thru to paste these tax stamps on each pack. This would naturally increase the overhead of these firms and thereby decrease their actual earning power which would mean less money to city in income taxes. And therefore he would be taking money from one pocket which belonged in another and gain absolutely nothing so doing.

Half the pin games in Omaha would have to shut down for they could not pay \$3. per week in taxes. Phonos, too, would face a great loss of locations where the extra \$1. per week keeps them going and which would now have to be paid to the City of Omaha in license fees for the year - and in advance.

The average coinman would have to pay out \$15,000 in cash to the City of Omaha for his 100 pin game route before he could even operate his 100 games. It would mean that the average 100 phono route operator would have to advance \$5000. before he started out on his route to try and get that money back somehow. And, as all in this industry realize, most of these routes would have to be severely cut down to only those locations which could cover such a heavy tax.

The Cash Box once again urges the men in this industry, this week, just as it did two weeks ago, and just as it has done for many, many weeks in the past, to get together into a National Tax Council, and thereby prevent exactly what has already happened in a great many cities thruout the nation in addition to what is happening in New Jersey and in Omaha, Nebraska. Remember - IT CAN HAPPEN IN YOUR CITY, TOO.

"COINTOONS"

The "Cointoon" which appeared on the November 14, 1944 issue was created as a help to coinmen. The Cash Box used this "Cointoon" without any advance ballyhoo or notification to the trade. It is seeking the reaction of the trade to this idea.

For a great many months The Cash Box has planned to introduce just such "Cointoons" from time to time, to help benefit everyone concerned with this industry. The plan back of each "Cointoon" of this nature is to have coinmen and their employees show them to their location owners so as to help stimulate a closer relationship as well as a better understanding of the value of coin operated equipment.

DID YOU LIKE THIS COINTOON? DO YOU WANT MORE OF THEM? CAN YOU RECOMMEND OTHER, SIMILAR IDEAS WHICH WOULD HELP ALL CONCERNED WITH THIS INDUSTRY?

"Talking Out Loud"

PINS GO UP IN IRVINGTON, N. J.

IRVINGTON, N. J.—The first city in Essex County to see pin games once again, after the favorable decision of the Court of Errors and Appeals, was Irvington.

Harry Rose, former police officer of this city, and well known coin machines operator, installed 26 pin games this past week, obtaining the licenses at the old fee of \$5 per year.

This has greatly heartened all coinmen in this most populous county in this state. The general belief is that other cities in this county here will follow.

Newark operators are already getting set to place pins. The belief is that this city will once again prove to be the leading center for these machines.

At the present time ops are encouraged by the fact that officials in Irvington made no move to increase fees. It is hoped that Newark will follow along the same lines and will not increase its license fee.

ALL RECORD FIRMS NOW AT PEACE WITH PETRILLO

NEW YORK—After refusing President Roosevelt's request to allow the manufacture of records to start once again, James C. Petrillo head of the American Federation of Musicians, won his point, and the remaining record firms have now settled with him to pay his union a royalty on each and every new record they make.

RCA-Victor is reported to have started recording immediately this past Sunday (November 12, 1944) after having been stopped from making new records for over 27 months.

The hope thruout this industry is that the trade will now at least be able to obtain records and also at wholesale prices as formerly. At present not only are all leading phono operators destitute of records but are actually paying retail prices to obtain whatever they can.

Perhaps Mr. Petrillo can help cure this situation.

MAIR STARTS NEW FINANCE COMPANY

NEW YORK — Edmand F. Mair, known as "Ted" to the nation's leading manufacturers and distributors from Coast to Coast, has organized his own specialized finance company for the music industry. It will be known as "Music Acceptance Corporation". Ted prefers that the trade call it the "MAC Company".

In addition to coin operated phonographs, the MAC Company will offer financing of higher priced radio and television sets, pianos, and theatre and church organs.

Music Acceptance Corporation's new officers will be open for business on December 31st at 134 North LaSalle Street, Chicago, on the 20th floor.

Meanwhile, Ted can be reached at his personal office at the Chatham Hotel in this City, which is one of the gathering places for the members of the industry.

Thanksgiving, 1944...

There's a lot to be thankful for this year. The average coin machines man has come thru the most trying period in all coin machine history — and with flying colors.

Many who believed, in '41, that this business would last three, and at the most six months, are pleasantly surprised to find themselves richer and in better position than ever before.

Machines of all kinds have continued to be just as popular as ever with the general public. And an era of greater liberality is arising so that the trade faces the great possibility of definitely establishing itself as the outstanding division of America's great entertainment field.

Thru gasoline and tire rationing, lack of parts and supplies, lack of new machines, thru government control, taxes, taxes and more taxes, lack of records, lack of merchandise of all kinds, this industry carries on, gaining ever greater acceptance and recognition, winning ever more friends, enjoying the certainty of future prosperity.

Yes, there's a great deal for which every coin machine man can be thankful this Thanksgiving, 1944.

EVANS BUYS "PACES RACES"

CHICAGO, ILL.—Outstanding news is contained in a statement made jointly by Richard W. Hood, head of H. C. Evans & Company, and E. W. Pace, president of Pace Manufacturing Co., Inc., advising the industry that the Evans organization has purchased Paces Races, widely known horse race game.

The sale, it is reported, comprised the transfer of all patents and copyright patents. Included were all tools, dies, jigs, patterns and other real and abstract properties, thus conferring upon H. C. Evans & Company the exclusive rights to manufacture Paces Races and its component parts.

Of the transaction, Mr. Pace stated: "I am sure the trade will be pleased to learn that Evans is now the exclusive manufacturer of Paces Races. I do not believe that there is another company in the country more capable of continuing and reinforcing the tradition of quality behind this machine. I know the caliber of Dick Hood and his staff, and Evans' record of past successes points to a great future for the game."

Speaking for H. C. Evans & Company, Richard W. Hood declared that the purchase of Paces Races arose from a desire to broaden his company's scope of service to the operating field. "Post-

war plans call for the production of a new model Races machine to be called Evans Super DeLuxe Races, embodying the proven basic principles that have made Races one of the most stable types of equipment ever built." Mr. Hood stated, "the new Races will incorporate about 50 additional features, among them a new improved coin head and dramatically streamlined styling. The high standards for which Evans has been noted for nearly 50 years will be strictly maintained in the production of Super DeLuxe Races."

"Until the go-ahead signal on manufacture of the new model is received," Mr. Hood advised, "let it be understood that there are no new Paces Races available, nor can any machines offered under similar names be other than old, worn mechanisms built into new cabinets. Not only new Races, but also new mechanisms and new parts can be made only by Evans. The trade will be informed when such units will again be manufactured."

WAGGENER PRESIDENT OF CMAC

CHICAGO — The Board of Directors of the Coin Machine Acceptance Corporation has announced the appointment of Robert M. Waggener as President succeeding Edmand P. Mair who resigned recently to form his own business.

In a statement released to the press, Mr. Waggener paid tribute to Mr. Mair's leadership in organizing and assisting the Coin Machine Acceptance Corporation to its present prominence as a specialized credit and financing agency for manufacturers and distributors of coin operated machines.

"The policies of CMAC will not change", he said, "CMAC will con-

tinue to furnish all assistance possible to manufacturers and distributors of coin operated machines which vend merchandise and music. We have been and will continue to make it possible for the manufacturer and distributor to concentrate his efforts on production and merchandising. With sufficient funds at his command to increase and maintain production, greater profits naturally follow."

Mr. Waggener expressed his belief in a great future for the coin machine industry but he stressed the need of restraining the general impression held by many people that the industry is a "get-rich-quick proposition".

MAYOR LAGUARDIA SCORES WPB FOR ALLOWING MACHS. PARTS MFR. TO BE RESUMED

NEW YORK—In his regular weekly broadcast (Sunday, November 12) Mayor F. H. LaGuardia of this city jumped on Julius A. Krug, WPB Chairman, regarding the fact that he was now allowing parts for "gaming machines" to be manufactured.

LaGuardia, broadcasting over the city owned radio station to New York's public, stated that this city was unable to obtain the release of materials badly needed for its hospitals and other activities, but WPB was willing to help out the "mechanical thieves" by releasing materials for the renovation of "gaming machines".

The Mayor revealed that he had taken this matter up with WPB and had been informed that that body had no legal power to control the renovation or repair of gaming machines "if materials and manpower are not in short supply". The Mayor claimed that ample power existed in this agency to prevent the use of such material.

"I do not know who gave you that advice", he said, addressing his remarks directly to Julius A. Krug chairman of the War Production Board. "Maybe this fellow wears spats and has striped trousers and a cutaway coat. But I tell you he is a tinhorn at heart. I think you have some tinhorns around you, Mr. Krug, and you had better do as I do: grab them by the back of the neck and kick them out. This order, Mr. Krug, is a disgrace."

MFRS TO BANQUET SEN. CAPEHART

CHICAGO—Rumors are circulating about this city that the coin machines manufacturers may get together to arrange for a huge banquet and celebration to Senator Homer E. Capehart of Packard Manufacturing Corp., Indianapolis, Ind.

The trade here is of the belief that this gesture would be most fitting for the members of this industry. As yet no official announcements have been forthcoming from manufacturing leaders here in regards to dates or actual facts as to such a banquet.

A great many thruout the trade will want to be present, leaders here state, and these men hope that arrangements will be made far enough in advance to allow them to attend.

NAVY NEEDS GAMES

CHICAGO—Once again in keeping with the appeal made to all the trade in this past week's issue, The Cash Box urges all coinmen, everywhere in the nation, to arrange to ship at least one old game, an old phono, an old gun, or any other machine, to the U. S. Navy's Radio Training School in this city.

Ship all machines to: Commander W. C. Eddy, U. S. Naval Training School, 65 West Lake Street, Chicago 1, Illinois.

This is one great deed which will make you feel that you have directly helped to win the war.

NEW HOME OF *Bally* PRODUCTS

MODERN 125,000 SQUARE FOOT FACTORY TO TRIPLE BALLY PRODUCTION

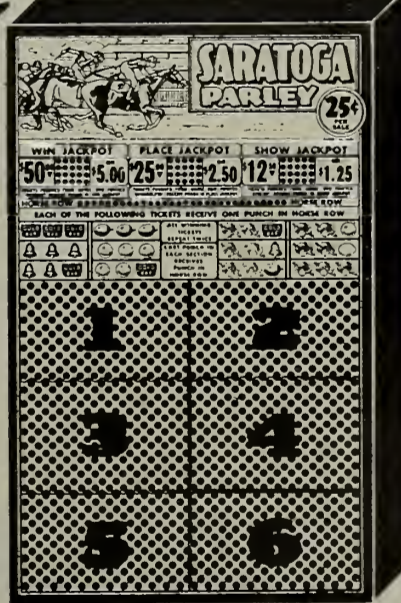

Future plans of the Bally organization call for production of new games immediately after the defeat of the enemy. For this purpose the new enlarged Bally plant, illustrated below, and now in full production on war products, is designed to insure rapid conversion to the products of peace.

In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making coin-operated equipment. Lion Manufacturing Corporation, manufacturers of Bally games and venders.

What Are A.B.T.'s Plans for "V" DAY?

Many of our friends in the coin machine industry have inquired about our postwar plans. We are now primarily interested in helping our sons and yours, to return home as soon as possible. A.B.T. is proud of the part it is playing in reaching the inevitable goal of peace.

When the war ends, all of us must reconvert our production. Our designers have planned so that A.B.T. will be one step ahead of the others and thereby maintain our place as a leader in the coin machine industry. Our plans will be completed well in advance of the armistice. Your plans should include A.B.T. products. If we can assist you in your postwar planning, call on us.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
