Can you hear me? Do you still hear my voice? It echoes back at me. "Why did you make that choice?"  
You surprised me. And your memory is cloudy. (By all things said) I can't feel you there.  
You'll never leave me. I swear. It's just a night mare. That won't end. (So I pretend  
that I see you again.) And that I'll save you. From all the things I feared to. (Now I'm without you  
I can't forget the way you love me.) Cause now you're gone forever. (I remember  
how bright you shined all my year, now. Yet, I remain here.)
