**FULL SPEED  
AHEAD!**

## 'The Coin Machines Merry-Go-Round'

There were some, many months ago, who stated they would wait until every new machine would be presented to the market before they would ever commit themselves. These men, too, are now right in the heart of the battle to get the new machines first.

And this speed action increases in momentum almost every minute, as Government agency after agency notifies industry of more and still more restrictions being removed. Tax makers are advising the public that taxation will be cut. Government officials plead with industry to make room for the sudden jobless and go all out.

Everything is moving ahead with such speed that few have time to stop and think out what the effect has been on the average man in this business.

The used machine dealers seems to be momentarily caught in the midst of this dizzy whirl. He realizes, of course, that he will be selling used equipment even in the very midst of new machine production. He also realizes that his place in the future market is assured. He is necessary to the good and welfare of the trade.

But most important to everyone in the trade is the full speed ahead signal to which this industry has taken like a duck to water. And which it seems to be carrying out with ambition and purpose. The trade is actually rushing to its greatest heights.

There is also no doubt that as this speed continues to gain ever increasing momentum that it will bring to a head a great many problems which the industry will have to solve.

Will speedier buying and selling bring rise to many new methods of placement and operation?

Will a new commission basis have to come into being to take care of those men who realize that they cannot long continue under such speed sales action without the rapid change of equipment and therefore without that equipment being completely amortized?

As the trade competes within itself for leadership in its various divisions it will, of necessity, bring about greater growth.

New distributors and jobbers who are being created will be anxious to prove their worth and their mettle. They are going to drive very, very hard for big sales.

While there is a demand for all this speed from the trade itself, the more sober men in the industry should also take time to think about what all this can mean unless, as the new trade grows, someone is there to carefully nurture its growth and prune away from it that which is of no value to it.

The industry must work together as a unit while this speed action is under way. It must develop in uniformity with this rapid expansion.

What good is the coverage of those spots which are already there if no new placements are made? The trade must seek new outlets and make use of these while it revives the old outlets.

It must spread itself as far as it possibly can so that this speed production, speed selling and speed placing, will not come to a sudden halt too soon. This would find too many caught short.

Full speed ahead is a mighty fine thing for industry. It is a grand stimulant for every man in any industry. But speed, too, must always be in control of the driver. He must be ready to apply the brakes in plenty of time so that none will be hurt when the speed begins to slacken as the market coverage becomes greater.

## GATHERING SPOT FOR TAX DATA

For many, many months The Cash Box has urged the creation of a National Tax Council for this industry. Coinmen everywhere have agreed that this is an absolute necessity. And the agreement has been universal none have stepped forth to help in its creation.

Some weeks ago The Cash Box published the fact that a Douglas, Wyoming coinman was frantically appealing to the trade to help him overcome a proposed new license ordinance in this city of 2,500 population.

This new ordinance wanted coinmen to pay \$25.00 per year per phono or pin game license, and an additional \$1.00 per year license for each wall box. Tho this appeal of Bryan E. Edwards, the coinman in this case, was openly made, he received little help which proved of value to him.

## *“The Coin Machines Merry-Go-Round”*

Undaunted by this, for he realized that there was no central source where such information could be made available to him, or to anyone else for that matter, he prepared his own speech, his own brief and his own arguments, and appeared before his city council so armed.

And he won—the ordinance was repealed.

Immediately afterwards Mr. Edwards notified The Cash Box of the fact and, in addition, sent along a most complete folder of his efforts. Contained therein was a copy of the proposed ordinance, a copy of the speech and his brief.

He wrote, along with this material, that he felt this information should be at some central source where other coinmen could call for it, if the need ever arose. He is willing to help other coinmen, even tho he, himself, received very little help when he so sorely needed it.

This is also true of a great many other coinmen thruout the nation. These men have been faced time and again with demands for higher and higher license taxes. They have fought—have lost—and have won. They certainly would have been happy to give complete information to some source so that this could be filed away for future use for other coinmen who might ever require it.

The Cash Box long ago created a legal file of its own. Much of that file has now disappeared. Coinmen have called for parts of it for their immediate use, and have never returned what they borrowed. But the file has been continued and is always open to those who can make use of it.

Since there is no central source to which the members of this industry can go when the occasion arises, The Cash Box has decided to maintain such a source and asks now that each and every coinman in the nation report whatever taxes are now in effect in his territory as soon as possible to The Cash Box.

If any coinman has been thru a taxing ordinance attempt and has won, the trade sorely needs such data. This may eventually save some other coinman's business. This file will always remain the property of the members of this industry. It will be strictly confidential, so that only bonafide coinmen will be able to get this information.

There must, sooner or later, come into being a National Tax Council. But in the meantime The Cash Box offers the use of its files to the trade. And asks the trade to make its file most complete by giving data regarding taxes in every community in the nation so that all will know the exact situation.

If every coinman will act with as great generosity as has Bryan E. Edwards, it will require only a few short months before a most complete file of tax data of great value to all the industry will have been accumulated.

This is a great necessity. As state legislatures reconvene they will be seeking revenue for the many public works projects they have in mind to help benefit the unemployed as well as the returning servicemen. As each city council comes into session it, too, will begin to seek revenue. As coin machines once again become prominent, with more men entering into the business, rest assured that all this will not escape the eagle eyes of the tax bugs.

The tax bugs will know when more licenses are being issued and also how many more men have entered into the coin machine business in their communities. And as usual their first move will be an attempt to tax this unorganized business to a fare-thee-well.

At such time it will prove of tremendous value to the trade to have a central source where tax data can be obtained. Legal talent, which coinmen hire at such times, will then have available former decisions, precedents, etc.

The Cash Box realizes that in undertaking this work great expense will have to be undergone. Copies will have to be made of all decisions and all favorable ordinances. Much mail and other matter will have to be attended to and usually with great speed. But this one central source can be of great value to all the trade if everyone will cooperate to obtain the most complete information.

Once again The Cash Box urges every coinman in the nation to send in a completely detailed letter regarding the taxes now in effect in his community. To also enclose copies of any license ordinances. He can obtain these very easily. To also send in any reports regarding tax information or tax data which he may have. To let The Cash Box know the moment any tax bills are proposed and to keep tab on these until they are either defeated or are passed. To give The Cash Box, at that time, a complete report of all the efforts that went into fighting this tax bill. Also information as to whether present taxation in his community has cut down on the number of machines. If any speeches have been made, or any newspaper comment—to also send this in, too. Send everything relative to taxes direct to The Cash Box today.

## TRADE WANTS CONVENTION

### LIFTING OF CONVENTION RESTRICTIONS OCT. 1 STIMULATES MOVE FOR MEET. OPS EAGER TO SEE EQUIPMENT AT ONE CENTRAL POINT. URGE MFRS. TO RECONSIDER NEGATIVE VOTE

NEW YORK—Operators, Jobbers and Distributors from everywhere in the nation were keenly disappointed this past week at the news released that the manufacturers at their first post-war meeting, had voted not to hold a convention during 1946.

Wires, letters and phone calls have been flooding both the New York City and Chicago offices of The Cash Box, asking for further information concerning this decision, and asking whether the manufacturers would reconsider their action and hold a convention in 1946.

With the news issued by the Office of War Mobilization and Reconversion on Wednesday, September 12, that conventions would again be allowed, the trade was stimulated into the hope that the manufacturers would reconsider this vote, and would arrange to hold a convention early in 1946.

Thruout Canada, as well as in every state in this country, there is a general hope that a convention will be held. Operators, jobbers and distributors are of the belief that a meet would be the best way to get the trade into correct post-war action.

Setting a date for a convention, since it is wanted so much by these members of the industry, would allow these men the necessary time to arrange for complete clearance of equipment and the stabilization of their routes.

Tho the vote at the last CMI meet was very definitely against holding a convention, it is now reported that some manufacturers have had a change of heart. This, coupled with the news that the government officially has okayed the holding of conventions, may bring about reconsideration at the next CMI meeting.

What is considered of utmost importance is the fact that the operators, jobbers and distributors want and favor a convention to help them get started correctly into the post-war period.

Some of the manufacturers, who may have made a late start, it is believed, may not be ready with their equipment in time for an early meeting. Therefore, the concensus is that if the meet is held sometime around March 1946, it is sure to find everyone of the manufacturers ready to show new machines.

There is also a general belief that many manufacturers may possibly present or announce their new equipment prior to March '46. It is agreed that even if such new machine announcements are forthcoming, prior to a March meeting, actual volume deliveries will not get started much before this time anyway.

The disappointment was apparent thruout the industry when the announcement came thru that the manufacturers at their CMI meet had voted against holding a convention in 1946, and many operators are openly critical of this decision, as they had looked forward to such a meet prior to making any commitments.

Many jobbers and distributors were also much downhearted. They feel that the lack of a convention would hinder, rather than help, to get speed action for sales of new machines. The general belief is that a convention stimulates the entire industry and starts sales action moving rapidly. At the same time it permits the trade to completely prepare itself for the arrival of the new machines.

The operators are looking to the manufacturers in the hope that at the next meeting of the CMI, there will be action taken to reconsider the "no convention" vote.

# TRAIL WANTS CONVENTION

The Trail, Okla., has been selected as the site for the annual convention of the National Association of Manufacturers, which will be held there on the 15th and 16th of the month.

The convention will be held at the Hotel Trail, which has been reserved for the purpose. The hotel is a fine building, and the city is well equipped for the occasion.

## CHICAGO (CONT.)

and Cliff Baillie of Rex Amusement Co., Syracuse, N.Y. in town waiting to hear "when"..... Mr. and Mrs. Sam Stern of Scott-Crosse Co., Philadelphia, Pa. have lunch with Mr. and Mrs. Tony Gasparro at the Bismarck..... They're still talking about that Wurlitzer meeting held here on the 4th and 5th. A grand time was had by all.....Charley Aronson and Bill Alberg of Brooklyn Amusement Machine Co., Brooklyn, N.Y. in town and enjoying visits with the manufacturers.

DeWitt (Doc) Eaton and Fred Barbee of Automatic Instrument Co. off to California to work out some great ideas....C. T. (Mac) McKelvey of J. P. Seeburg Corp. looking forward to the greatest era in all automatic music history.....Ray Moloney of Lion, at lunch in the factory where a special lunch room is set aside for the firm's execs....Lew Wolf of Lew Wolf Enterprises, Buffalo, N.Y. arrives in town, and propounds some fine ideas regarding post-war distribution....Al Siegel, Al Siegel Amusement Co., Toronto, Can. on his way to Chi to visit with the manufacturers....Charley Hughes of Ladoga, Ind. in town, visiting with the coinmen....Harry Williams, Williams Mfg. Co. reported to be kept continually on the go discussing post-war plans with distributors visiting his offices.

Canada's coinmen, visiting here, believe that their country has at last stepped out of the agricultural and into the industrial stage. They are urging manufacturers to set up assembly plants in Canada so that machines will be so much less expensive, with that heavy duty removed. They also explain that it will prove much easier as well as more economical to export to England and other parts of Great Britain.

Many leading coinmen congregating here point out the various market changes that have occurred since the war, and look forward to many territories designated as "second rate", to become "leading sales centers". These men point out that some of the country's former sales areas are now "down" and therefore other territories, which were formerly not even given consideration, now are getting a great deal of "post-war" attention.

Jimmy Johnson of San Antonio, Tex. in town and talking about his Put 'N Take payable, which he reports he should have continued to manufacture.....Ken Wilkinson, also of San Antonio, in town, and is reported to be preparing a manufacturing surprise....Seen at the Celtic enjoying steaks: Charley Aronson, Bill Alberg, Brooklyn Amusement Co.; Dick Hood of H. C. Evans & Co.....And later on the same trio with Fred Mann, Sammy May and Fred Serur of Texas Amusement Co., San Antonio, in the Alberg-Aronson suite punching the bag all about the coinbiz. Dick Hood tells about his small console called "Little Duke", which is supposed to be faster than greased lightning, and which he is showing visitors at his plant....Lew London and Al Stern seen gabbing at the Celtic Cafe.....Apologies to Irv Sandler of Des Moines, Ia. for omitting the "l" from his name in the item appearing in the Sept. 3 issue. It was a "cute" wire he sends us.

Bill Rabkin, pres. of Mutoscope, tells us "We shall make those games which we have announced, but naturally we cannot ship any yet, and don't know exactly when we shall go into production, but it makes us happy that our friends are so interested without even knowing anything about what types of games they are". Harry Berger, West Side Dist. Co. still doing plenty of buying and selling of music machines.....Al Maniaci, well-known music op expects to become a father any day now.

## N.Y. MUSIC BANQUET AT WALDORF OCT. 20

NEW YORK - With preliminary preparations almost completely finished by the various committees, the New York music operators are priming themselves for their first post-war banquet. This is the 8th Annual Dance and Dinner of the Automatic Music Operators Assn. and will be held at the Waldorf-Astoria Hotel on October 20.

Altho the past affairs of this organization have always been top-grade, all expect the 1945 party to overshadow anything ever run. With the war over, operators will really have cause to celebrate. The association has lined up a top name band (as is usual), will have a gala show, and in addition many of the recording stars who are in the city at that time, will make an appearance. Tickets will be at a premium as the Starlight room can only accommodate about 500 to 600 persons.

## TWIN CITIES

John Porter, former owner of Porter-Madsen of Superior, Wis. is back in business once again at Moose Lake, Minn. John just couldn't keep out of the coin biz very long....Arvid Karpinen, former mechanic of many operators, was in the Twin Cities after having been in the Air Corps for the past three years. Arvid is looking swell, although he has put on plenty of beef. While at home on his furlough he hopes to take in some fishing.....Joe Perkins, former owner of the Advance Music Co., and the present owner of a night club in Coeur d' Alene, Idaho is back in the city to visit with his many friends. Joe claims business is good.

Harry Harrison, from way up in the breezy northern Minnesota was in the Twin Cities with his wife, visiting friends. The missus took the opportunity to do considerable shopping and spend some of that mazooma.....Mr. and Mrs. Oscar Sundem also visit Minneapolis, and Mrs. Sundem also visits the city's stores.....Dave Bratmoe of M<sub>o</sub>bridge, S.D. in town looking very contented.....Verling Geib of Denver, S.D. finally took time off to break away and come to the Twin Cities for a few days to relax. Verling not only takes care of his own business, but does repair work for operators close by his vicinity.

Bobby Rose, former employee of Hy-G Amusement Co., and now in the armed forces stationed in the Phillipines, writes his friends that he is feeling fine and expects to be shipped to Tokyo as one of the Army of Occupation. The following operators seen in town this past week: G. Joerge of Spring Grove, Minn.; C. Tillman of Mankato, Minn.; Pete Lonis of Grand Forks, N.D.; and R. L. Hull of Waconia, Minn.

## NEW ORLEANS, LA

One of the best definitions for a "swell gal" and liked by all is Mrs. Joseph Villars.....E. C. Kramer switching to renting phonos for parties.....A hard man to locate these days is Fletcher Blalock, who couldn't be found in Chicago or Atlanta, but turns up in New Orleans, surprising everyone here.

## ED RAVREBY RUNS MASONIC PARTY

BOSTON, MASS. - Ed. Ravreby of Associated Amusements, Inc., this city, is being elevated to the oriental chair of King Solomon as Master of Dorchester 4th Masonic District on Sept. 18. In addition to his many local friends, Ed has invited about 1000 people to be present at the affair, including coinmen from as far as Chicago.

The evening starts off with dinner at the Lodge at 6:00 P.M., and the installation will take place at about 8 o'clock, both events being held at the Masonic Building, Dorchester, Mass. After the installation, the whole crowd will move over to the Boston Latin Quarters, where arrangements have been made for all the talent of all the clubs to make an appearance.

Ravreby has been a member of the Masons since 1928, and has been an officer in line since 1937. He has accumulated many honors during that time, including a 32nd Degree and Shriner arcolade.

## TIN RESTRICTIONS CONTINUED BY WPB

WASHINGTON, D.C. - Until tin becomes more accessible, restrictions will be continued by WPB, thru amendments to the tin conservation order, M-43. Altho moderate reductions in tin quotas were made for the fourth quarter of 1945, the amended order prohibits the use of tin in many products where manufacturers can use manganese and silicon as adequate substitutes.

Moderate reductions for the fourth quarter of 1945 for tin plate, solders, babbitts and permissible uses for bronzes and cast alloys were made for the purpose of setting up reserves for miscellaneous adjustments.

# C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

## FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

## METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

## CODE

**CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.**

- 1. MEANS PRICE WENT UP.**
- 2. MEANS PRICE WENT DOWN.**
- 3. MEANS MACHINE JUST ADDED TO LIST.**
- 4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK**
- 5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.**
- 6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS**
- 7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS**
- XX — MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.**

---

## IMPORTANT

Machines underlined mean these were most active in trading the past week.

### EXPERIMENTAL PROCEDURE

The following procedure was used for the synthesis of the compound described in this report. The starting material was prepared by the method of Smith and Jones (1948). The reaction was carried out in a 250 ml. round-bottomed flask equipped with a magnetic stirrer and a reflux condenser. The reaction mixture was stirred for 24 hours at 60°C. The product was isolated by extraction with diethyl ether and dried over anhydrous calcium chloride. The yield was 85%. The melting point was 120°C. The infrared spectrum showed a strong absorption at 1715 cm<sup>-1</sup>. The molecular weight was determined by the method of Dumas and was found to be 150. The elemental analysis gave the following results: C, 60.0%; H, 4.0%; N, 36.0%. The calculated values for C<sub>10</sub>H<sub>8</sub>N<sub>2</sub> are C, 60.0%; H, 4.0%; N, 36.0%.

(PHONE: Greenfield 6772)

MILWAUKEE (14) WISCONSIN

The first part of the report deals with the general conditions of the country during the year. It is noted that the weather was generally favorable, with a moderate amount of rain falling throughout the season. The crops were well advanced, and the stock raising industry was in a flourishing condition. The trade was also brisk, and the general business of the country was in a healthy state.

# A.B.T.'s Newest COIN Detector

The "6000" commercial coin detector, ABT's newest detector. It is completely new, NOT a revamp or old model made over.

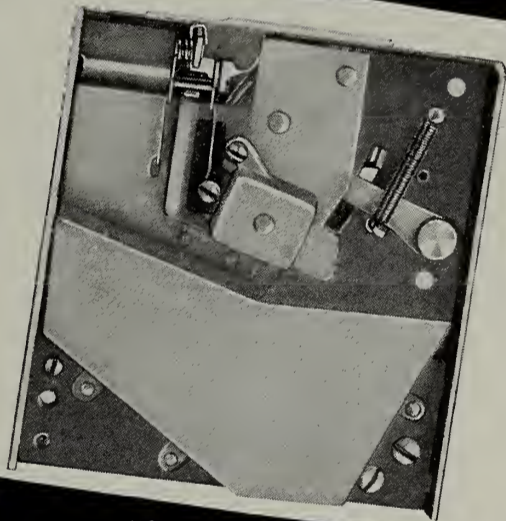

This fine, economically priced detector operates nearer to perfection than other detecting devices for coin-operated machines.

The "6000" is simply constructed, but very sturdy and compact. Rapid, flawless action is assured because of non-corrosive metal. Easy to clean, it requires no expert skill.

- ★ Made in 1c-5c-10c-25c play.
- ★ Our engineers will gladly demonstrate the exceptional merits of this superior detector.
- ★ Send for illustrated literature. Join our customer list.
- ★ We welcome inquiries and give them prompt attention.

The first part of the document discusses the general principles of the system. It outlines the objectives and the scope of the project. The second part describes the methodology used in the study, including the data collection and analysis techniques. The third part presents the results of the study, which show a significant improvement in the system's performance. The final part concludes the document and provides recommendations for future research.

The methodology employed in this study is a combination of qualitative and quantitative approaches. Data was collected through a series of interviews and surveys. The analysis was conducted using statistical software to identify trends and correlations. The results indicate that the proposed system is more effective than the current one, particularly in terms of efficiency and accuracy.

The findings of this study have several implications. First, they suggest that the proposed system is a viable alternative to the existing one. Second, they highlight the importance of continuous improvement and innovation in system design. Finally, they provide a framework for other researchers to build upon and further refine the system.

In conclusion, the study demonstrates the effectiveness of the proposed system. It provides a clear and concise overview of the project's goals, methods, and results. The findings are supported by a robust methodology and a thorough analysis of the data. The document is well-organized and easy to read, making it a valuable resource for anyone interested in system design and optimization.

## Look To The GENERAL For LEADERSHIP

### LEADERSHIP WELL EARNED

We worked patiently and diligently to earn the respect and confidence of operators everywhere. We kept this faith throughout the war years by maintaining our service and the quality of every piece of equipment. Today, as the problems of war gradually diminish, operators know they can depend on the GENERAL for the finest, most reliable type of new equipment that America's leading manufacturers will produce . . . plus the same, unfailing service that they have always received from the GENERAL.

"OPERATING IN 5 STATES - SELLING IN 48 PLUS"

The first part of the paper  
 is devoted to a general  
 introduction of the subject  
 and a brief review of the  
 literature on the subject.  
 The second part is devoted  
 to a detailed description of  
 the experimental apparatus  
 and the method of the  
 experiment. The third part  
 contains the results of the  
 experiment and a discussion  
 of the results. The fourth  
 part contains the conclusions  
 of the experiment.

The results of the experiment  
 show that the rate of  
 reaction is proportional to  
 the concentration of the  
 reactants. This is in  
 agreement with the law of  
 mass action. The rate of  
 reaction is also affected  
 by the temperature of the  
 reaction. The rate of  
 reaction increases with  
 increasing temperature.  
 The activation energy of the  
 reaction is found to be  
 approximately 10 kcal/mole.  
 This is in agreement with  
 the values reported in the  
 literature.

The following table shows  
 the rate of reaction as a  
 function of the concentration  
 of the reactants. The  
 rate of reaction is  
 measured in moles per  
 liter per second. The  
 concentration of the  
 reactants is measured in  
 moles per liter. The  
 temperature of the  
 reaction is 25°C.

Concentration of Reactants (M)	Rate of Reaction (M/L/Sec)
0.1	0.01
0.2	0.04
0.3	0.09
0.4	0.16
0.5	0.25

The data in the table  
 show that the rate of  
 reaction is proportional to  
 the square of the  
 concentration of the  
 reactants. This is in  
 agreement with the law of  
 mass action.
