NOTED MUSIC OPS BACK NAT'L. PROT. MUSIC ASSN. PLAN

**Believe Such An Organization Can Be
Of Great Value To Entire Industry.
Ask Meeting Be Held in Chicago Soon.**

NEW YORK—Since the first suggestion that there be created a "National Automatic Music Protective Assn.", letters have continued to arrive at the offices of *The Cash Box* urging that such an organization (by that, or any other, appropriate name) become an integral part of the automatic music industry and that a meeting be called sometime this early Fall in Chicago so that all the men, whose names were recommended as members to form the nucleus of such an organization, have the opportunity to sit down and discuss the advantages of such a body.

There is no longer any doubt in the minds of leaders in the automatic music field that the next session of the Congress will see new bills introduced to once again force juke boxes to pay tribute to the holders of copyrights.

Just the other week at the New York meeting of AFRA (American Federation of Radio Artists) there was issued the following report. "No action was taken in the matter of disk jockey programs pending a study of the possibility of new Federal legislation to govern commercial use of home records".

This may be a turnabout from former legislative efforts. This report indicates that someone has already started to prepare a bill for consideration of Congress whereby records for "home use" would not be allowed for "commercial use." For a long time *The Cash Box* has urged the trade to attempt to arrange for all record labels to read, "For use in coin operated musical instruments". Once such statement can be printed on a

record label, then there would be eliminated many of the problems confronting the juke box industry.

The attempt will, without any doubt, once again be made by certain of the music organizations to introduce new bills into Congress in an effort to get the juke box industry to pay them tribute in one form or another. Every attempt in the past has been an effort to revise the present "Copyright Act of 1909" and, by so doing, arrange to have every music machine in the country obtain a license from those holding the copyrights to the tunes played in the juke boxes.

The last session of Congress saw the introduction of three bills. The Scott (H.R.1269 and H.R. 1270) and the Fellows (H.R.2570). These bills, as the trade now knows, were defeated by the tenacious and courageous efforts of but a very few of the members of the industry. Just a handful of men who made it their business to be in Washington at each and every one of the seven public hearings and who, by their good judgment, were triumphant. But, the next time it may take much, much more than just a handful of men to overcome whatever legislative efforts may be again attempted by the music organizations who are absolutely intent that the juke box industry pay them tribute.

The leader of one of these music organizations, the most powerful of

all the groups, made the statement to coinmen who were present at one of the hearings in Washington that even should the juke box men win this time, they would come back year after year until they won and made the juke boxes "pay off" to them for the use of their copyrighted music.

The above gives some of the background as to why certain leaders in the juke box industry proposed that there be created a "National Automatic Music Protective Association" so that in all future legislative (and in all other matters of a national nature) there would be a body of men who could instantly rush to the aid of the entire industry.

The facts are that only a handful of the automatic music coinmen in the nation can be depended upon to be on the job in these cases. The leaders of the industry must be those men. And, if they will come together into some sort of a national group, they will then be able to work in closer harmony so that there won't ever be confusing or conflicting statements.

The leaders of many of the operators' organizations thruout the nation have asked that all get together in Chicago this fall and meet to form the nucleus for an organization of this kind which would be purely and simply, a watchdog for the entire coin operated music industry", and would be prepared to enter into any legislative controversies of a national nature with a better chance for success.

LABOR DAY OVER GAME FIELD GIRDS FOR BOOM

Ops Expect Many New Games to Appear In Coming Weeks. Look to Best Collections of Year During Fall and Winter Months. More Enthusiasm Apparent Everywhere.

CHICAGO—Here, in the coincenter of America, and of the world, too, for that matter, there is beginning to be noted a definite optimistic trend toward the future of the games field. Coinmen are all enthused over the possibilities which are presented by the coming indoors season of 1947.

Already it has been announced that there will be presented some startling new developments in amusement games. Manufacturers have begun to introduce products which have won much comment from the trade. And even tho production has not as yet reached its peak, there is now no longer any doubt that whatever games will be produced, will be rapidly assimilated by the field.

There never has before, since the end of the war, been such enthusiasm and optimism apparent everywhere in the industry. Visitors who arrive here from almost every state in the union have reported that they sense a very definite pickup.

On noted coinman stated, "There is a boom under way and it's coming soon".

The amusement games field established its leadership this year. It played second fiddle all during 1946 to the automatic music industry. Then, after this lull, it suddenly blossomed forth with new and more simple type pinballs with the result that the field instantly jumped into national prominence, taking the lead from all other divisions of the field, and has maintained that lead.

Sometime ago *The Cash Box* reported that, "Pinball is 'King' again". The pinball games have zoomed back into favor of all coinmen the nation over. Tho they are much higher priced than at any other time in history, they are more than paying their way, and many now believe that they

will grow ever greater as more and more territory opens thruout the country.

With the Fall and Winter season of '47 now under way, with Labor Day come and gone, the entire industry is reacting with greater optimism to the pinball game than ever before. For some reason or other, even tho the leading pinball manufacturers report a very good summer business, everyone seems to be of the opinion that the real sales are now first getting started.

The fact that a great many look forward to a "boom" is certainly stimulating as well as impressive. This means that the members of the industry are girding for one of the greatest sales and operating seasons in history. Many are also of the belief that the volume of machines sold during the coming Fall season will be many, many times greater than what has been sold this past summer and spring of 1947 combined, provided, of course, that the manufacturers increase their production accordingly.

Everyone seemed to wait for Labor Day this year before making any commitments or any moves which would assure them better business action. As is well known thruout the trade, a great many were actually stymied on sales because of the unusually hot summer weather. Others stated that the resorts were well covered and that the majority of ops didn't want to buy too much equipment during the summer months for they felt that the best machines were being held for the Fall season.

It seems, then, that everything is breaking all at one and the same time. The entire pinball field seems to have jumped back to life with greater vigour than ever before. The ops, are optimistic. One noted pinball operator reported to a manufacturer the other day, "Play was okay during the summer months, but, there is no doubt now that it's going to be much, much better during the cooler months. In my territory the farmers are plenty pleased with the prices they got and there is definite prosperity under way. They now have more time to come into town and spend some of their money. The retail merchants already report better business. Our collections have started upward again. If this keeps up you can call it a boom."

It is also believed that with this Fall season, tending toward the opening guns in the presidential election year, that many of the politicians will also loosen up. Already much greater liberalism is noted. In New York State there will be three bills introduced this coming Fall term of the state legislature to liberalize gambling laws. In other legislatures the same action is taking place. It is believed that with communities seeking more and greater revenue from all sources that many new outlets for amusements of all kinds will soon open.

The concensus is that with all these optimistic reports being brought into the coincenter from every state in the country, there is no doubt that the forthcoming Fall season will be one of the most outstanding in all amusement games history.

\$15

WEEKLY GUARANTEE IS THE ANSWER

NEW YORK — From far and near, from everywhere in the nation, letters have been received from operators, jobbers, distributors and manufacturers of automatic music equipment urging *The Cash Box* to continue what these people call, "The greatest and most intelligent campaign of all time", to get every music machine operator in the country to realize that to continue on successfully in the business of selling recorded music to America's millions he must have a more equitable commission arrangement with his locations.

"And", as these people write *The Cash Box*, "your idea of \$15 front money guarantee each week is the answer."

They claim that there's no other "out" for the operator of music except that he receive such a guarantee each and every week from his locations. Only in this fashion, they state, will he be able to amortize new equipment in a reasonable period of time and be able to meet any and all competition by being in such solid financial position where he can purchase new machines.

He is, then, a substantial base upon which all the rest of the automatic music industry can build for a greater and grander future.

One noted manufacturer phoned long distance to say, "Keep up the good work. The nation's music operators know that you're right. They must come to realize that this is their salvation — the \$15 per week front money guarantee."

There's the solution to all the problems now pressing the automatic music operator. He should immediately arrange with his locations for a \$15 per week front money guarantee. There's television, which has hit hard

at big city music operators in New York and Chicago. But, even when this phase passes, that doesn't mean that television is finished. There's no longer any doubt that television is here to stay and that it will grow greater.

The answer, then, is for the music operator to make his juke box music just as important to the retail merchant as television. The merchant must realize that he must pay for his music — just as he makes payments on his television receiver, and also pays for whatever television servicing he calls for at anytime he calls for it.

The operator must not only arrange for \$15 front money guarantee, but, he should also, at the same time, arrange for a lease with his location so that he is sure of the location remaining his until his new machine is completely amortized.

That's the only protection the operator can have today. That's the one and only and safest and sanest way that the operator is assured of a financially secure future in the automatic music business.

If television salesmen could convince the average retail merchant that a television receiver would increase his business for the expenditure of anywhere from \$400 to \$2,000, plus whatever interest he must pay for the time-payment basis on which this purchase is arranged, plus whatever service and installation charges are made to start with, and whatever service charges are made continually

thereafter then, surely, the average operator is a good enough salesman to get what he should for the music which brings this same retailer "profits" and not "expense".

Many music ops have asked just how this \$15 weekly front money guarantee works. It's very simple. The operator must be assured of at least \$15 per week for himself from each of his locations. If there is more than \$15 in the cash box then the operator splits the difference on a 50-50 basis. If there is less, the retailer is supposed to make up the difference.

In many cases the dealer doesn't like to dig down into his own pocket to make up the difference, so many operators carry over the amount to the next collection, or the one after that. Eventually, they obtain their full share when the peak play months come around, without having to force the location owner to put up money from his cash register.

The \$15 weekly guarantee is already in operation. Many intelligent music machine operators from coast to coast are obtaining such guarantee from their locations. They have worked this plan out to a perfection which is truly gratifying. They have found, in the meantime, that they are in a superior position once such a basis is in operation for them. They are not only assured of amortizing whatever new equipment they purchase, but, they are also most completely assured of profits when the amortization period has passed and the equipment is fully paid.

PREPARE FOR 2nd ANNUAL POLL OF BEST '47 MUSIC AND ARTISTS IN JUKE BOX FIELD

City By City Coverage of Automatic Music Industry. Cooperation of All Leading Automatic Music Ops' Assn's Assured. Four Months Job Ahead to Get Complete Reports.

NEW YORK—This year, the awarding of the beautifully engraved "Oscars" of *The Cash Box* will not only be to the various winning artists and record companies, but also to the publishers of the tunes which the juke box industry will choose as their best money-makers for the year 1947.

Preparations have already been under way for sometime, and are now being completed, so as to give city-by-city-coverage for all songs and artists.

Ever since it conducted the "First Annual Poll" for the Automatic Music Industry of America, *The Cash Box* has continued to gather in and adopt the best proposals and suggestions, and will now sponsor the most comprehensive poll in the history of the juke box business.

The Cash Box was the originator of the first poll of the Automatic Music Industry of America in 1946, and made this poll a grand and outstanding achievement, acclaimed by all in the music industry as the finest and fairest and most impartial ever conducted.

Arrangements are being made to cover every operator member of an organized automatic music association, as well as every independent music merchant in the nation. Four solid months of constant contact with the Automatic Music Industry of America have been arranged.

This will be the most complete, and the most impartial, unbiased poll conducted in the history of the Automatic Music Industry of America . . . by its chosen representative . . . *The Cash Box*.

Association leaders have already promised to obtain the votes of their members for this Second Annual Poll. One noted association leader advised *The Cash Box*, "To prove what we think of *The Cash Box* we shall arrange for every single one of our members to vote in the Second Annual Poll. *The Cash Box* is our bible."

It shall prove extremely interesting this year to note how the voting will progress. In 1946 there were many "hot" contests. For example, in the "male vocalist" field the votes continued to fluctuate between Crosby, Como and Sinatra, until Crosby and then Como seemed to take a commanding lead. Yet, until the very last

day, the final decision was in doubt. But, "Der Bingle" pulled away into the lead and won the "Oscar" in this category.

In the female vocalist field in 1946, Dinah Shore grabbed the lead, and never relinquished it. But, in the "best band" category one of the most torrid contests raged, until the Eddy Howard votes ("To Each His Own") began to roll in and Eddy walked off with the "Oscar".

In fact, in almost every division of the recording field in 1946 none knew until the very last votes were tallied just what the result would be.

Now, with all predicting even a "holter contest" in 1947 — this year's awards should prove even more impressive.

Once again the voting will be based on the same method used in 1946. There will be one vote allowed for each juke box owned by the voter; one for each wall and or bar box owned; one for each wired music shell and one for each non-selective music box. This method was considered the most logical, and the most impartial by a committee of coinmen

who met to decide the voting system in the New York offices of *The Cash Box* at the start of the 1946 contest.

Preparations are well under way once again for *The Cash Box* to sponsor and conduct the Second Annual Poll of the Automatic Music Industry of America and to ascertain thereby the best best moneymaking records, tunes and recording artists who served this industry during 1947.

The voting cards are now being printed. They will be released in due time to cover every one of the nation's juke box operators. They will also appear in each week's issue of *The Cash Box* during the entire voting period so that those who may hold back their votes to the last moment will have cards available.

No card will be used unless it is sent thru the mails. This is one of the conditions which has made *The Cash Box* poll so authentic and so well received by all in the music industry. No cards, even those which will be taken at association meetings, will be turned in as is. These cards, too, will be placed in the nearest mail box and cleared thru the post office prior to being accepted for official count.

Al Dexter & Columbia Get "Oscars"

His "Guitar Polka" having been voted the "Best Western Record of 1946" in the poll conducted by *The Cash Box*, Al Dexter displays the trophy awarded him to Art Satherley, Columbia Records' vice president in charge of country, folk and race music, following the presentation ceremony held in Los Angeles. In the accompanying photo at right, Bill Gersh,

publisher of *The Cash Box*, is seen with Mannie Sacks, center, Columbia vice president, who received an "oscar" awarded the record company for having produced the prize winning "Guitar Polka." Bob Austin, also of *The Cash Box*, is at his right. The latter presentation was made in New York.

THE CASH BOX*Record Reviews***SPECIAL REVIEW OF THE
DAMON RUNYON MEMORIAL
CANCER FUND RECORD****"Ella"****"You're The Sunshine of My Heart"****The Esquire Trio****(United Artist 109)**

Here's the disk with the new label that will give Coin Machine Industries, Inc. 8½c for each one purchased by a juke box op, the money to go to CMI's Damon Runyon Memorial Cancer Fund drive.

On the topside, "Ella", which, by the way, is the name of the late Damon Runyon's wife, The Esquire Trio vocalize to cut a grand and happy hunk of wax with plenty of harmony and really tuneful that's got lots of money-making power. On the flip, "You're The Sunshine Of My Heart", which was Damon Runyon's favorite tune the boys again do a fine vocal and instrumental job in slow tempo. It's good wax featuring two grand old time tunes.

Remember that Broadcast Music, Inc. will issue sticker-stamps free to ops with each record to be pasted right on the front glass of each juke box in which the platter appears and which will inform the player that this record is playing to benefit the Damon Runyon Memorial Cancer Fund. Be sure to get these stamps.

Here's good wax to help a tremendously worthy cause. The disk should be featured in every juke box.

"O Marenariello"**"Tango Del La Rosa"****Phil Brito****(Musicraft 456)**

Here's Phil Brito at his best singing. "O Marenariello" ("I Have But One Heart") in Italian. This tune is clicking everywhere and Phil goes all out with it to make it a natural nickel nabber for any Italian speaking location. On the flip, "Tango Del La Rosa". Phil does just as grand a job. The baritone warbler gets beautiful background support from the Walter Gross ork to make this one great hunk of wax. The platter, by the way, is from Phil's "Songs of Italy" album. If you have any pizzerias on your route grab this platter. It'll pay off, but good.

DISK O'THE WEEK**"Kokomo, Indiana"****"How Long Has This Been
Going On"****Mel Tormé****(Musicraft 15109)****MEL TORME**

The young piper with the "velvet fog" voice does an all around really swell job on the topside, "Kokomo, Indiana", one of the click tunes from the pic, "Mother Wore Tights". He's given great background support by the Walter Gross Sextet to round out a hunk of wax that's going to grab lots of play, especially from the younger set now returning to the college campuses. It's the sort of tune which gives this young warbler a chance to really show his stuff. On the flip, Mel does an equally swell job with the Gershwin tune, "How Long Has This Been Going On", in that intimate and romantic fashion that makes the femmes go ga-ga over this blonde kid. This biscuit promises to go a long way and bring in plenty of coin to your boxes.

"I Know How To Do It"**"Salty Papa Blues"****Dinah Washington****(Mercury 8044)**

That blue and lowdown wailing. Dinah Washington, has cut herself a hunk of wax here that's goin' to get Harlem shouting her praises. Here's a disk sure to click heavy in every race spot in the land. On the topside, "I Know How To Do It". Dinah gives with lyrics you'll like, marvelously supported by a grand sextet of instrumental stars, that's going to get toes tappin' and hands clappin'. On the flip, "Salty Papa Blues". Dinah again does a grand wailing job and here this great sextet really show off their stuff to background her with some of the best instrumental teamwork in the true blues tradition we've heard in many a moon. Here's blue wax as is blue. Grab it—it's bound to spin white in your boxes.

"Money Hustlin' Woman"**"Real Gone"****Amos Milburn****(Aladdin 191)**

Here's the disk that has Chicago's south side shouting its praises. Amos Milburn does the vocal, accompanying himself on the piano, plus fine string background to make "Money Hustlin' Woman" plenty brown and lowdown. It's a hunk of natural stuff for the race spots. On the flip, "Real Gone", the side opens with some swell tenor sax wailing in a deep blue mood by Maxwell Davis and follows up with some speedy piano fingering by Amos, supported by string background to make this a hot hunk of instrumental business. It's a coin culler.

"Mellow Chick Swing"**"G.M. & O. Blues"****Sonny Boy Williamson****(Victor 20-2369)**

A sizzling blue platter with Sonny Boy Williamson wailing away the topside, "Mellow Chick Swing", and coming in to swing it with his harmonica capably aided by marvelous background support to make up a hunk of bluer than blue wax. On the flip, "G. M. & O. Blues", Sonny Boy again does the vocal and this time is backgrounded by another grand instrumental aggregation. Here's a really swell hunk of payoff shellac.

"Lights Out"**"Raising The Roof"****Beale St. Boys****(Savoy 653)**

A hunk of really low lowdown instrumental wax with the kind of beat and rhythm that's making it one of the best coin cullers in many a race spot. The Beale St. Boys give "Lights Out" that kind of Memphis treatment sure to please many a couple in the mood to hook on and sway away. On the flip, "Raising The Roof", the boys again cut a brown and lowdown instrumental side. This biscuit has race spot written all over it.

"I've Got A Crush On You"**"Penthouse Serenade"****Sarah Vaughan****(Musicraft 505)**

The thrush with the grand pipes, Sarah Vaughan, does a very grand job on the Gershwin oldie, "I've Got A Crush On You", spooning out the lyrics with plenty of smooth schmaltz in a well paced arrangement. Background is capably handled by Sarah's hubby, George Treadwell and his ork. On the flip, "Penthouse Serenade", the thrush again goes all out, well backgrounded in this number by the Teddy Wilson Septet. Both sides are grand juke box wax. Latch onto them.

The main body of the document contains several columns of text that are extremely faint and illegible. The text appears to be organized into a structured format, possibly a list or a table, but the specific content cannot be discerned. There are some faint vertical lines and a central rectangular area that might represent a logo or a specific section header, but they are also too light to identify.

THE CASH BOX*Record Reviews***"Riding With Jimmy"****"Lonesome Road"****Jimmy "Baby-Face" Lewis****(Aladdin 3003)**

● A hunk of race wax that's got Jimmy Lewis raspily shouting the vocal to the topside, "Riding With Jimmy", the kind of real lowdown jazz many a spot's going to like plenty much. On the flip, "Lonesome Road", Jimmy again capably handles the shouting vocal in grand jazz style. Musical background by the Floyd Campbell ork is very well done. The disk's got what it takes for the race spots.

"You Didn't Want Me When You Had Me"**"Who's Gonna Reel Who In"****Tommy Edwards Trio****(Top 1154)**

● Tommy Edwards cuts himself a very swell hunk of wax piping the lyrics to the oldie on the topside, "You Didn't Want Me When You Had Me", in slow, smooth tempo with very neat background support from the trio that has all the earmarks of a platter sure to please in many, many spots. On the flip, "Who's Gonna Reel Who In", Tommy speeds up the tempo, as well as his vocal, and produces a hunk of biscuit that will make the coins pop into your juke boxes. We like the flip and suggest you latch on to this disk.

"Big Legs"**"Just A Dream"****Gene Phillips****(Modern 20-527)**

● Gene Phillips goes to town with a grand hunk of race wax on the topside, "Big Legs", opening with a wailing chant and then showing off with some hot instrumental licks by his Rhythm Aces while he wails out the vocal to the gal with the big legs. On the flip, "Just A Dream", Gene again handles the vocal and presents some neat lyrics over on the humorous side, backed by a fine piece of instrumental business from his boys, to cut another swell side. Here's a disk that's surefire in any race spot.

**SLEEPER
OF THE WEEK****"It's Like A Trip To Tipperary"****"Paradise"****Johnny Long Orch.****(Signature 15157)****JOHNNY LONG**

● Here comes a marvelous hunk of catchy, romantic, Irish melody that'll tug at your heart strings the way that Matt Reilly gives with the vocal. It's the kind of platter you can put in everyone of your boxes and get good action. Maestro Johnny Long gives the Irish piper plenty of swell background support. On the flip, "Paradise", the maestro demonstrates his great change of pace, and with thrush Frances Lane spooning out the lyrics, aided by the ensemble, cuts a side that's got everything you can ask for in a hunk of wax for the younger crowd. Johnny has made "Paradise" a tunefully swell piece of business. Here's a biscuit that's a two-sided coin grabber.

"I'm Living For You"**"I'm All Alone"****The Toppers****(Savoy 656)**

● Here's a really neat hunk of wax with a different kind of vocalizing by Jimmy Springs in slow and dreamy tempo featuring grand folk style lyrics and well backgrounded by The Toppers to make many a coin pop into your juke boxes in the race spots. The flip, "I'm All Alone", is in slow, soft tempo with Jimmy Springs again doing the warbling supported by a neat piece of talking business that smacks of folk tune, yet it's hot jazz. The biscuit looks mighty good for many a spot.

"Apple Blossom Wedding"**"I'm Sorry I Didn't Say I'm Sorry"****Phil Brito****(Musicraft 15112)**

● The Jersey juke box ops' favorite baritone warbler, Phil Brito, does a really workmanlike job on the topside with a tune that's beginning to catch on everywhere, "Apple Blossom Wedding", in that soft and romantic style for which Phil's pipes are so well suited. On the flip, "I'm Sorry I Didn't Say I'm Sorry", Phil does another marvelous hunk of vocalizing with plenty of slow romance crooned into the cutting. Hook onto this biscuit — it's got plenty of coin culling power.

"There's No Business Like Show Business"**"That's Where I Came In"****Mel Tormé****(Musicraft 15111)**

● On the topside, the "velvet fog" voiced piper, supported by the Mel-Tones and with the Ray Linn ork capably handling the background, cuts a marvelous hunk of wax that's going to cull plenty of coin. Tormé makes this click tune from the Broadway hit, "Annie Get Your Gun", sit right up and do tricks. On the flip, the kid does a really terrific riff number that'll have every youngster within hearing distance stamping his feet and clapping his hands. Here's a biscuit that'll grab many a jitney.

"Every So Often"**"What Every Woman Knows"****Patti Page****(Mercury 5061)**

● We've been hearing about this gal for sometime. And we're pleased to report that Patti's just cut a hunk of sweet, soothing and romantic wax putting lots of heart and meaning into her spooning of the lyrics to this swell tune, "Every So Often", backgrounded very capably by the Eddie Getz ork. It's swell music made even better by the grand vocalizing of this new thrush. On the flip, "What Every Woman Knows", Patti cuts herself a hunk of blue torch that's a perfect complement to the topside. Here's shellac that's going to help hike your average.

BYRDE'S EYEVIEW
'ROUND THE WAX CIRCLE
 by
Byrde Gore

The tremendous success of the Automatic Music Industry's contribution to the Damon Runyon Memorial Cancer Fund has music circles looking to their laurels. Not only are members of the industry making personal contributions, as is the entire nation, but music operators from Maine to California are moving along with the adopted plan to set aside collections from their juke boxes. Jack Sheppard, Philadelphia operator and the prominent Frank Palumbo, Philly nitery owner have installed a brand new phonograph in the swank C. R. Club in Philly, with all the proceeds going to the Runyon Fund. The Music Guild of America is currently distributing placards announcing that the proceeds of "this juke box are being donated to the Runyon Fund." Music operator associations throughout the nation are backing the cause to the hilt. And not to be overlooked is Columbia Record's contribution. With the receipts from the sale of the Frank Sinatra-Dinah Shore disking of "Tea For Two" and "My Romance" all going to the Fund, the immortal Damon Runyon must surely be sending thanks.

With the advent of fall rolling in, folks around Tin Pan Alley began popping again. Never saw so many optimistic faces around town. Everybody is hopping on the bandwagon rushing to get out that extra bit. Record execs predict that this fall season will see many records broken, and we don't mean disks. More people than ever before are expected to buy radio-phono combinations which will directly influence record sales. Flickers, flacks, jukes and jocks are expected to be working overtime—all to the delight of the entire music biz.

Sherman Hayes and his ork open at the Blackhawk Restaurant for a four month stay starting Sept. 10 . . . New Orleans reported having a hey-day with the Murphy Sisters disking of "You're Breaking In A New Heart". Watch out for their latest pairing — it's money in the bank . . . Vic Damone, rapidly rising idol of the college campus guested with AMI distributor Dave Rosen in Philadelphia one day last week . . . New United-Artist local going full steam ahead and off on the right foot with their disking of "Ella" for the Runyon Fund . . . Ops looking for a click should grab a load of Frank Sinatra's latest coupling titled "The Stars Will Remember" and "Christmas Dreaming" . . . Rumored that Duke Ellington is joining the ranks of the jockeys . . . and speaking of jockeys we want to wish the National Association of Disc Jockeys loads of luck in their new organization . . . Youngster ork leader Elliot Lawrence returns to Philadelphia and the Click Cafe come September 8 . . . We told you so! Riding hot and heavy on the wax trail is the rising "I Wish I Didn't Love You So" pegged by The Cash Box reviewers well over 5 months ago . . .

Now we hear that chirp June Christy is not to rejoin maestro Stan Kenton when he reorganizes his crew around the middle of this month . . . Spent a pleasant morning with George Hays and Frank Oberendorfer, pair of chaps who really have their feet on the ground in this record biz. Both are responsible for the wonderful sales chart they keep up at MGM Records . . .

JUKE BOXES READY TO GREET BIGGEST COLLEGE CROWDS

Believe Sweet Music to Get Biggest Play This Year. Many Oldies to Appear in Boxes. Younger Vocalists Will Be Featured. Music Ops Expect Boom Play Year.

NEW YORK—With college enrollments the biggest in the nation's history, juke box ops look forward to one of the greatest boom college play years they have ever enjoyed. As ops prepare to greet the college crowds in their favorite spots, new juke boxes are appearing in college towns everywhere in the nation.

One noted operator, located in a very well known eastern college town, wrote *The Cash Box* this past week, "The enrollment at the university here is now over 17,000 students. This is the largest enrollment ever attained by the school. Even during the summer term, our juke boxes were getting a terrific play. But, with the school year opening with this month, we expect the biggest boom play we've ever enjoyed in our history since we entered the automatic music business.

He also writes, "We've found that the students are dropping the jitterbug stuff and now want sweet, romantic ballads. Many an oldie is going into our boxes. Your reviews on these oldies are absolutely the best we've ever read and everyone you've recommended to the juke box operators is paying off marvelously well in our machines.

He continues, "Another thing we've learned during this past summer term is that the younger vocalists like Mel Torme and Vic Damone are being favored by the college crowds. Both these kids are going to get some real juke box action here in my territory. Of course, Crosby, Como and Sinatra, Dinah Shore, Jo Stafford, Peggy Lee, and all the others, always get good play. But, for some reason or other, the college kids seem to want to hear these younger artists and they are demanding that the location owners get their latest recordings.

"By the way", he wrote, "thanks for keeping us so well informed of all the new releases of these artists. We are using your top ten tunes and the 'Box Score' religiously and all our servicemen and collectors carry them around to show them to the locations so that they all know we are giving them the best in records all the time. This has helped us tremendously. It has made us more friends than anything else we've ever tried. When I read about that Ohio operator asking for 80 copies of your top ten tunes each week to mail to his locations, so that they could choose the music they wanted, we laughed here, for we have been doing this right along. But, instead of mailing a copy to each location, we take the entire music section right down to the spot and show it to the boss."

College hangouts have always proved tremendous juke box money-makers. This year's record crowd of students are bound to jam these to bursting, according to all reports, and the play is expected to actually prove spectacular.

This year, as noted in the above letter, which is typical of many such received by *The Cash Box*, there is a swing to sweet music instead of the jitterbug records which were in vogue last year.

Ops also look forward to local college songs and find that they are forced to purchase albums in most cases to obtain them. This complaint has been made to distributors of records regularly and, it is hoped this year, that many of the college songs

appearing in albums, will be sold individually.

Another very notable factor this year is the turn to the younger vocalists, such as Mel Torme and Vic Damone. College students clear across the nation seems to favor these youngsters and it is expected that a great many recordings by these kids will be featured in the college hangout juke boxes.

Another factor in this year's expected boom biz in the college towns is that almost every juke box op has installed new equipment, wall and bar boxes, auxiliary speakers and has stepped up tonal quality tremendously in the college hangout spots. The college boys and girls are going to get best toned music in almost every case. These locations pay well and the ops are making the playing of juke box music extremely attractive.

One op from one New York state college town reported, "We have spent over \$45,000 this year on new equipment. Everyone of the college spots we have on our routes have new machines, new auxiliary speakers, new wall and bar boxes. We've made these places shine with new equipment and we expect to come out within eight to ten months here on amortizing our purchases."

There is also a demand from many noted juke box ops for the record manufacturers to plan on special disks for the college crowds. The football and basketball games and other sporting events are always celebrated in each college town in force. Ops believe that records featuring these sports may prove very profitable.

BIG JUKE BOX PLAY LOOMS AS PICS, DISK & SHOW BIZ START FALL SEASON

Recording, Movie and Legit Musical Biz Plan Heavy Schedule for Fall to Tie in With Juke Box Play.

NEW YORK—The findings of a recent survey conducted by *The Cash Box*, as reported in the August 18th issue, in regards to the expected intensive campaign to stimulate music business this fall, were further corroborated this past week when it was learned that music publishers, musical show business, the record and motion picture industries were girding all efforts for a tremendous sales and promotional campaign aimed at boosting sales figures for all concerned.

The part the automatic music merchant will play in these forthcoming boom months is recognized by leaders of those allied industries as a very important one. Not only will the juke box act as one of the greatest sales promotion mediums, publicizing song hits from musical shows and pictures; but leaders agree that the phonograph itself represents additional potential box office figures.

Preparations for the campaign are currently under way. These should break early this month with the height of the drive expected to be reached prior to Xmas. With prices of radio-phono combinations decreasing gradually, leaders in this trade expect more people than ever before to purchase sets. This will directly influence record sales.

Music publishers agree that the coming fall season represents the largest potential sales market this year. They have already indicated that they will promote their songs to the fullest possible extent. It is also common knowledge in music circles that publishers have held back on a great many potential song hits these past summer months.

Legitimate musical productions are expected to blossom forth this fall in greater numbers, with producers and musical directors agreeing that the juke box business definitely represents one of their greatest forces of promotion.

One noted musical director, in

pointing out the connection between show business and the automatic music merchant, gives as an example the success of the tune "South America, Take It Away."

"The constant playing of "South America, Take It Away" on juke boxes greatly enhanced the success of the show 'Call Me Mister'. The ovation with which theatre crowds greeted the song and the show caused the star of the show, Betty Garret, to be immediately snapped up by a recording company. Long after Miss Garret had left the company, the recording was still popular and box office figures proved that juke box play of the hit song lengthened the show's performances."

Other numbers from musicals, currently playing to capacity crowds, also prove that repeat play by juke boxes have greatly influenced theatregoers. Hit tunes from "Annie Get Your Gun", "Brigadoon", "Finian's Rainbow", "Oklahoma", and "Sweethearts", have all met with success in juke boxes.

Music operators and distributors of records view the expected boom in the disk business with great optimism. No longer is the music operator buying records spasmodically. Distributors are actually finding it increasingly difficult to fill orders. Record manufacturers are stepping up their production facilities to figures never before reached.

The motion picture industry is also scheduled to release several of their most promising efforts this fall. Many theatres throughout the nation now feature juke boxes in their lobbies, constantly playing song hits from the picture being shown.

The recent success of "I Wonder Who's Kissing Her Now" saw hundreds of theatres throughout the nation prominently displaying juke boxes in their lobbies playing the title song from the picture. It is agreed in

music circles that the spontaneous reception the picture was greeted with, is responsible for the current popularity of the song.

Leaders of the motion picture industry, when queried regarding future pictures allied with potential juke box material, all pointed to "The Jolson Story" as their guide mark.

Said one well noted executive of the industry, "The fact that Al Jolson came back in 1947 to set the entire nation on their heels humming, singing and whistling songs he made over twenty years ago, proved beyond a shadow of a doubt what the public wants today."

"The tremendous success of all the Jolson songs in the picture set a precedent never before achieved in motion picture history. 'The Jolson Story' made two complete runs of practically every theatre in the country. The picture played to capacity audiences at all showings, and the public left the theatre singing Jolson.

"The fact that the juke box contributed to the success of the picture and the songs, is recognized by not only the movie industry, but everybody connected with the music business."

There is now no longer any doubt of the tremendous importance the juke box plays in the success of any musical venture, whether it be a musical production on Broadway; a musical motion picture or a song which the publisher may believe has all the potentials of capturing national prominence.

Juke box is king today. It is the promotional master of all the nation's greatest musical productions. There is no longer any doubt that big juke box play looms, as the movies, show business, and the diskeries, prepare to greet the fall season with the best tunes they have preserved for the year.

"Folk" and "Western" RECORD REVIEWS

BULLSEYE of the WEEK

"You Never Miss The Water"

"Spadella"

Spade Cooley Orch.

(Columbia 37585)

● The well known piper, Tex Williams, gives his tonsils a real workout in this folk tune with a very fine moral, "You Never Miss The Water Till The Well Runs Dry", marvelously backgrounded by Spade Cooley orch. It's a tune that you're going to like and that'll get plenty of play in country juke boxes everywhere. On the flip, Spade Cooley goes to work on an all instrumental piece, "Spadella", that's got lots and lots of rhythmic action. Our choice on this biscuit is the topside and we think it'll be yours, too.

"Somebody Said"

"As Long As I Live"

Pappy (Gube) Beaver

(Capitol A40035)

● Pappy really does a grand job on both sides. On the topside, "Somebody Said", Pappy tells about how "Somebody Said You Were Unfaithful" and does a neat job of proving how he said, "I Love You". It's a grand hunk of folk tune wax and it's going to be given a neat ride in your boxes. On the flip, "As Long As I Live", Pappy does another grand job. Every hillbilly spot in the country is going to like this platter. It's got that rhythym.

"You'll Live To Regret It"

"What's The Reason"

Tiny Hill Orch.

(Mercury 6050)

● Tiny cuts himself a very neat hunk of wax in "You'll Live To Regret It" (Wait And See) that's going to set your toes to tapping and make those jitneys do some popping into country juke boxes everywhere. On the flip, "What's The Reason", Tiny again gives a very fine account of himself with a grand job of background music from his orch. This is real folk wax — so better latch on — it'll pay off.

"This Is The End"

"Paper Boy"

Johnny and Jack

(Apollo 154)

● Johnny and Jack and the Tennessee Mountain Boys do a very grand job on "This Is The End" with the duet vocalizing the lyrics to perfection and the string accompaniment coming in for its share of the glory. The story the boys tell here is sure to please the customers and get the coins coming into your juke. On the flip, "Paper Boy", the duet sing about the ragged paper boy seeking something to eat. There's lots of good appeal here for every country spot with plenty of fine rhythym thruout.

Musicraft Sets Distrib. Policy — To Augment Folk and Western Roster

NEW YORK — Oliver Sabin, national sales manager for Musicraft Records returned from a trip covering Louisiana, Texas, Florida and Georgia this past week with beaming reports for the distributor set up of the plattery.

Appointing distributors in San Antonio, Houston, Shreveport and Atlanta, Sabin reported that distributors in the South are showing optimistic reports for the coming fall and spring seasons.

"Distributors down South are selling more records today than ever before. They are going out and getting the business, and are not lethargic about bad business conditions supposedly existing throughout the rest of the country."

"In the next few weeks we plan on adding to our folk and western talent rosters, with name artists completing the fold. The success of both Sarah Vaughn and Mel Torme have proved that Musicraft is in business to stay. We feel that the record business will see it's best months this coming fall season, and Musicraft will go all out to promote its artists with the great material being readied for them."

At present the Musicraft talent roster in addition to Torme and Vaughn includes, Phil Brito, the Artie Shaw Orchestra and several race record stars.

Signature Picture Bright Cuts Jazz Price

NEW YORK—After an intensive two week tour of the General Electric Supply branches in the mid-west Signature Record's president Bob Thiele returned with optimistic reports on the immediate future for the plattery.

In line with increasing demand, Thiele announced the reduction in price of the firm's Jazz Series from \$1.50 to \$1.00 on 12 inch discs and from \$1.00 to \$.75 on 10 inch records. The move was made to accommodate the demands of juke box men who has shied away from the former stiff price, Thiele announced. New price takes the hot wax away from the collector's item category and down to the level of the ordinary record buyer. Jazz label includes Coleman Hawkins, Flip Philips, Eddie Heywood and Johnny Hodges.

Playing With "Pops"

NEW YORK—"Her Nibs", Miss Georgia Gibbs, caught playing jacks with disk-jockey Paul Whiteman—and, from the look on Paul's face, she's cleaning up. Inspiration for the game is her latest Majestic dinking of "Ballin' The Jack", riding high in record sales.

Whiteman joined the chain of jockeys throughout the nation now using *The Cash Box* music charts as a feature of their program.

Servais Reports Peak Apollo Sales In South

NEW YORK—Henry Servais, general sales manager of Apollo Records, this city, returned this past week from his survey trip for Apollo throughout the south to report reshuffling of Apollo branch management and plans for added distribution in the south and west.

Jim Frangos, national sales representative who accompanied Servais, remained in New Orleans for reorganization of that city's branch office, which was recently managed by George Waguespack. New head has not yet been named. The next hop by Servais for Apollo will take him to the West Coast.

Meanwhile, Apollo reports an upswing in sales. The increase, the plattery discloses, is partly the result of record clicks in the south, chief of which is Apollo's Murphy Sister dishing of "You're Breaking In A New Heart".

Disc Jockeys Name Barry Gray Chairman

NEW YORK—The National Association of Disc Jockeys, newly organized platter spinner group have announced membership rolls at present to be well over 200. This represents a heavy jump from the original 80 jockeys who met in Chicago when the organization first met.

Quarrel among many jockeys is that the original meeting was planned as a publicity stunt by Universal-International in conjunction with the release of the Deanna Durbin pic "Something In The Wind." When the flicker firm withdrew from its planned flack wave, many jockeys were cautious about joining.

Barry Gray, elected chairman of the group announced the formation of a paper for the jockeys to be circulated and printed at cost. Original idea was Gray's along with Lou Levy, of Leeds Music and when it became known that Levy would put up the necessary cash, many jockeys howled at the idea. An affiliation with a music publisher it was felt, would point the way for more payola rumors.

Obie and Sacks Plug Cancer Drive

PHILADELPHIA, PA. — Eli Oberstein artist and rep head of Victor Records and Manie Sacks, recording chief at Columbia meet in the swank C. R. Club in this city on common ground, the Damon Runyon Memorial Cancer Fund.

The phonograph pictured above was installed in the club by Jack Shepard, Philly operator and Frank Palumbo, nitery owner.

The song reviewed on page 11 in the August 25 issue of *The Cash Box*, and listed as "Boulevard of Dreams" was listed in error. The correct song title is "Boulevard of Memories".

Columbia Reported In Price Hike — Selvin To Join Firm As Asst. Rep Head Sacks Donates \$6000 To Runyon Fund

NEW YORK—It was reliably reported this past week, that Columbia Records, who for years had maintained their present price policy, would sometime early this month raise the price of their records to 75c. (tax included).

Columbia Officials, when queried as to the expected raise would offer no comment, altho it was learned that notices of the raise in price had already gone out to branch offices. The raise in price effects only the Columbia popular series.

It is believed in these quarters that music machine operators would defiantly raise protest regarding Columbia's price hike. It is well known amongst music men that operators have bought Columbia in the past because of the low price, and not only because Sinatra or Shore was the artist. Seriously affecting the plight of the music machine operator, the raise in Columbia's price is believed to be temporary.

Other recording companies announced that present plans include no price changes, but rather reductions. MGM records, comparatively new in the field, announced that they are not contemplat-

ing any change in price at the present time.

Also reported this past week, was the change in personnel at Columbia. Ben Selvin, recent artist and rep head at Majestic Records, has been named to assist director Manie Sacks at the former plattery. Joe Higgins, at present Sacks' assistant has been named to head the West Coast artist division, with Bill Richards reported leaving the diskery.

Selvin left the Majestic fold along with Louis Prima last month after an entire change of personnel and a reported squabble amongst the hierarchy.

Manie Sacks, artist and rep head of the plattery this past week donated a check for \$6,000 to Walter Winchell and the Damon Runyon Fund. The check represents Columbia Records initial payment of the proceeds on the sale of the Sinatra-Shore dishing of "Tea For Two" and "My Romance". Both Sinatra and Shore are donating all their royalties, along with Columbia. Sale of the platter is reported reaching an all time high, with music machine operator associations backing the drive extensively.

LeRoy Stein Lists "Ten Cardinal Principles" For Music Operators

NEWARK, N. J.—LeRoy Stein, business manager for Music Guild of America (MGA), phonograph operators association here, released a bulletin to his members suggesting that they follow certain operating methods to properly conduct their business profitably.

These principles were formulated after a number of surveys were made by The Music Service Company as well as by Stein. He lists what he calls the "Ten Cardinal Principles" operators should observe:

1. Place new machines on locations.
2. Keep used machines spic and span at all times.
3. Provide the records which the location requests.
4. Change needles often.

"Off Color" Records Road To Ruin — Warns E. R. Wurgler

ED. WURGLER

In a statement attacking the use of obscene and gambling records. E. R. Wurgler, General Sales Manager for The Rudolph Wurlitzer Company, is quoted as follows:

"We note with alarm a growing tendency among some phonograph operators to place "off color" and gambling records on their machines. It will not only spell ruin for them, but will harm the whole commercial phonograph industry.

"One of the great purposes of Wurlitzer's National Advertising on billboards and in consumer magazines has been to elevate the standards of this industry by showing our phonographs in respectable surroundings being patronized by people of all ages and of good taste.

"The benefits of this program, and the gains it will continue to accomplish, are threatened by the poor judgment of a relatively few operators.

"Already newspapers are editorializing against the practice of cheapening the entertainment which commercial phonographs can and should provide. And they will continue to arouse opinion against the juke box unless we, in the industry defeat such undesirable practices before they gain headway.

"To the offending operators, I say. 'What are you asking for? Censorship? Legislation directed against the very instruments that provide you a living?'

"Years ago the industry fought this problem and licked it. Now it arises again. Let's do our own policing and let's do it fast."

Minn. Atty. Gen. Rules Coin Machines O. K.—If

FARIBAULT, MINN.—Coin machines are legal—provided all the mechanical parts are removed so that the machine cannot pay off. This decision was what Attorney General Burnquist held in a legal opinion.

Urban J. Steimann, city attorney at Faribault, inquired whether it is legal to use, in a public place, a machine from which has been removed the money-paying mechanism, and a sign erected above the machine reading "All money played here is for the benefit of —."

"Such a machine is legal when it is merely used as a receptacle for receiving donations or contributions for the benefit of a particular organization," Burnquist said.

In St. Paul, the city council asked

Bruce Broady, city attorney, to apply for an opinion from Attorney General Burnquist as to whether pinball machines which pay neither coins, slugs, nor chips, but reward high scoring additional free games are legal.

A. Jerome Hoffman, attorney representing 14 firms and individuals who are seeking city permits, asked

the council to seek an opinion from the attorney general, saying that such a ruling would probably eliminate expensive litigation and might serve as a guide for the entire state.

While awaiting Burnquist's opinion, the city council deferred action on a resolution, which if adopted, would deny the license applications.

mendous results. "New York City is the leader in all charitable drives" he claims "and I have contacted all the city's operator associations, distributors, jobbers and manufacturers to cooperate in putting the Damon Runyon Cancer Drive over in a big way. Right now I'm working on a plan to hire one of the biggest halls in the city and will run a Jamboree one night in the near future. All coinmen in the area will be asked to attend, and this Jamboree will start our concerted drive in the city, which will result not only in a large financial contribution to the fund, but will also bring the industry a great deal of good will."

Complete details of the Jamboree—date, place, and other vital information will be announced by Mitnick in a week or so.

Barnet (Shugy) Sugerman, head of the Runyon Sales Company firm, has accepted the chairmanship of New Jersey for the Runyon Fund drive, and will also run off some big time promotion for the operators in that state. All distributors, jobbers, operator associations, and independent operators thruout the state will be contacted by Sugerman and then a plan for a get-together will be worked out.

Until complete plans are ready, jobbing and distributing companies thruout both New York and New Jersey are displaying the large signs sent to them by the CMI Public Relations Bureau. A great many operators have also pasted a smaller sign on their equipment or on the walls close to their machines.

United Mfg. Co. Employees At Picnic

CHICAGO—Headed by C. B. (Billy) De Selm, the employees of United Manufacturing Company, this city, let their hair down and had themselves a time at their annual picnic on Sunday, August 17.

Dressed in their "picnic" clothes, the employees met at the "Old Limits Grove" and spent the entire day partaking of athletic programs, ball games, races — and naturally plenty of sandwiches and cold drinks.

As United Manufacturing Company has been naming their games for foreign countries ("Havana"; "Mexico" and their latest "Hawaii") the employees are hoping the firm will name a game "Old Limits Grove" because of the wonderful time they had. As one secretary said "The games have been named for many foreign countries. Now how about one for good old Chicago?"

Illinois Phono Owners Assn. All Out For Runyon Cancer Fund Drive

CHICAGO—Ray Cunliffe, President of the Illinois Phonograph Owners Association, 100 N. LaSalle, Chicago, today announced that his Association is backing up the Damon Runyon Cancer Fund 100%.

In a written appeal he is sending to all of his members, Cunliffe is strenuously urging the complete participation of every music operator in the Chicago area, representing over 6,000 instruments.

"I feel sure that every one of our operators will do a magnificent job in raising funds for this Campaign", said Cunliffe. "Many of our people are planning to put on special events and others intend to donate according to the number of phonographs they are operating.

"We consider this Campaign a great chance to improve public relations in our territory. Just as in the past we have cooperated with Youth Centers, churches, community drives, war drives, and the like, we intend to make this particular drive of the Coin-Machine Industry our biggest effort in a public relations way.

"During the war when the U.S. Navy put on its historic exhibition at Navy Pier — an exhibit which cost the Navy somewhere around ten million dollars — every phonograph in the Chicago area carried a placard inviting the public to visit this great war show.

"So now we are going to see that signs and stickers are placed on all

of our instruments and in many cases, in addition to operators' donations and special events, our location owners and the public in general will also be asked to participate in this great campaign against Cancer".

Cunliffe indicated that this participation by the Illinois Phonograph Owners Association was precipitated by unanimous feeling of all the officers and directors of the Association.

ROCK-OLA SERVICE TRAINING PROGRAM FOR PHONO OPS and SERVICEMEN READY

Distributors To Use Slide Projector To Reproduce Full Color Photos of Various Parts and Sections of Phono

CHICAGO—Complete details of the Service Training Program for operators and servicemen designed by Rock-Ola Manufacturing Corporation have been released to their distributors for the Fall season.

All Rock-Ola distributors will receive a "Visual Cast" projector which they will use to demonstrate in the training of operators and servicemen on the care and adjustments of Rock-Ola phonographs and accessories in order that they may receive the maximum benefits with a minimum amount of service.

The projector, developed during the war, has been improved for commercial use. Very easily handled, it can be carried by the distributor to any point in his territory, set up and a demonstration put on for the operator or serviceman right in his own office or home. The screen is 37" x 50" and can be used in bright daylight. Rock-Ola distributors will have 118 slides showing different parts and sections of different units in the phonograph. These slides are placed on the flat table top of the projector so that the instructor can point, sketch, underline or erase on it to put over his points, and he never has to turn his back to the coinman.

"As changes in phonograph equipment are made at the factory" states Art Weinand, sales manager, phonograph division of Rock-Ola "new slides will be sent to distributors for this training program which will keep them up to date at all times on new developments.

"We have prepared a special "service specialist's handbook" which will be given out to each serviceman or operator attending these service classes for his own personal property, and will serve as a review and refresher to help him remember what was taught him during the course. The book is broken down into 10 sections, the same as the slides used on the projector.

"In addition a simple true or false

questionnaire will be passed out during the lecture course — one for mechanical and one for the electrical components. These quiz sheets will be collected and corrected. The distributor will arrange to have a diploma sent from the factory to the student showing that he has completed the course satisfactorily, and designating him a Rock-Ola service specialist."

"We are making arrangements" continued Weinand "to get this training course in the hands of all our distributors at as early date as possible, which will enable them to run service schools in their place of business, or any city or town in their territory — when and as often as they wish, thereby helping the operators get maximum earnings out of their Rock-Ola equipment with a minimum amount of service calls."

Automatic Slide Changer Mechanism Developed For Use In Phonographs

J. A. DARWIN

EAST ORANGE, N. J.—A non-exclusive license to the patent on an automatic slide changer mechanism, developed for use with automatic phonographs, was issued to the Eastman Kodak Company, by the inventor, J. A. Darwin, of East Orange, New Jersey.

The slide changer was developed by Darwin to be used in connection with the many juke boxes which dot the American scene. The changer will show in color on a ground glass or other screen the picture of the artist or artists on the record being played.

Darwin plans to use the slide changer on his new 40-record phonograph which he will display for the first time at the coming coin convention in Chicago. The new juke box by the noted inventor will practically revolutionize the automatic phonograph industry, it is reported.

Operators of the juke boxes are already demanding the slide changer for installation on present machines. Beside the slide changer, Darwin plans many more money-making accessories to be used with present-day juke boxes.

According to Darwin, "Operators today need many new money-making features to make operation of the machines a profitable business. For the past ten years, or more, there has been no radical change in the juke box, except for the outer case. The income of the present machine is between \$.85 to \$1.00 per hour maximum.

"The planned Darwin record phonograph will contain 40 records, either 10 or 12 inches in size. The earning capacity of the new machine will have a potential of \$40.00 per hour.

"The juke box business is sorely in need of new developments if it is to again assume its place as the leader of the coin machine industry. It can't be done by remodeling the outside of the same antiquated machines. The machine I plan to produce will offer the operator a greater opportunity to increase his potential income.

"The slide changer in itself will increase the popularity of the automatic phonographs. It makes the record playing more attractive and appealing. As, for example, a Bing Crosby record is being played, a colored slide of the crooner will be

flashed on the screen. As the record changes so will the slide change.

"I hope other manufacturers will follow in the idea of altering the present equipment of the automatic phonograph. Certainly, any business as familiar to America as the juke boxes, should keep abreast of the times," concluded Mr. Darwin.

Mr. Darwin, beside being a recognized inventor in the automatic phonograph industry, worked for more than 25 years as sales executive with several of the concerns manufacturing the juke boxes.

Thrilled By Ops Collect'ion Reports

NAT COHN

NEW YORK — Nat Cohn, Modern Music Sales Corporation, this city, reports that he is thrilled by the statements being made by phono operators who have placed the Mills "Constellation" on location.

"Operators are telling me" states Cohn "that collections on the "Constellation" are great, attributing it to the 6 plays for 25c and the choice of 40 tunes. They're reporting that as high as 40% of the coins in the cash box are quarters."

Cohn is looking forward to the Fall season when cooler weather increases the play generally, and operators purchase considerably more new machines.

6 Bowling Games Played 10,000 Times

Named Bally Regional Director

VIRGIL "CHRIS" CHRISTOPHER

LOS ANGELES, CALIF.—Six "Strikes 'N' Spares, automatic bowling game manufactured by Allite Manufacturing Company, this city, were in operation at the Fourth Annual Southern California Industrial Exposition recently held at the Pan Pacific Auditorium here.

"The games were played for twelve hours a day for the entire seven days" reports Bill Schrader "totaling almost 10,000 plays during the run of the exposition, and proved to be a tremendous attraction."

Bill Happel, Badger Sales Company, distributor for the game in this territory, stated that this type of promotion offers new opportunities for distributors and operators. "We were able to secure many new locations who inquired about placing the game in their location. All these requests were turned over to our operators who consummated the deal with the location owner."

S. D. Lennox of the Allite Manufacturing Company, in cooperation with the Chamber of Commerce here, succeeded in securing lower freight rates from the west to the east. Heretofore freight rates from California to the eastern markets were almost prohibitive, but now under the new arrangement the new freight rates have been approved and are being published in the tariff and will be effective to all points in the United States on and after October 15, 1947.

This ruling should benefit the entire west coast who have to ship games east.

Wife of H. R. Matheny Dies After Illness

WICHITA, KAN.—The trade was offering condolences to H. R. Matheny of Matheny Vending Company, this city, on the passing of his wife, Maxine, who died Thursday, August 21, after a year's illness.

Mrs. Matheny had a wide acquaintance with operators and distributors thruout the entire country. She was born at Bodarc, Kan., attended grade school and high school in Douglass and Augusta, Kan., and graduated from Wichita University. She later taught in Butler county rural schools. She was a member of the Riverside Christian Church, past president of Chi Omega chapter of the Delta Theta Tau sorority, and delegate to the national convention in 1942. She also was part president of the Riverside P.T.A., and was active in Girl Scout work and other civic organizations.

Survivors, in addition to her husband, H. R. Matheny, included one daughter, her father and a sister.

BALTIMORE, MD. — Virgil "Chris" Christopher, veteran coin-machine sales executive, has been appointed Bally Regional Distributor for Maryland, Delaware, Virginia and Pennsylvania, according to an announcement by George Jenkins, vice-president and general sales manager of Bally Manufacturing Company, Christopher's offices and headquarters have been opened at 1217 N. Charles St., this city.

Christopher is widely acquainted in coin machine circles, having been associated with the industry since 1935, when he became sales manager of a well known manufacturer of Bell machines. In 1938 "Chris" became a distributor of Bally products in Georgia and Florida until 1940, when he entered a distributor organization in Michigan.

During the war, Christopher was a special investigator for the War Production Board. He is a partner in Christopher-Lukor Company, Miami, Fla.

"I shall personally visit with all coinmen in the territory" reports Chris "as well as the other members of my staff. It will be our devoted duty to give all operators, jobbers and distributors in this territory the full measure of co-operation and service that will assure every one their maximum profit from the Bally Line of equipment."

Looks like the boating will have to take second place . . . Nat tells us that phono ops are telling him that as high as 40% of the coin in the cash box of Mills Constellation are quarters due to the 6 plays . . . John L. Jones, Jones Distributing Company, Hickory, N.C., in town with his wife and daughter . . . Al Denver, president of the Automatic Music Operators Association, returns from a visit to the west coast. Al's plane ran into the vicious rain storm we had on Tuesday, and he came in on "a wing and a prayer" . . . Tony (Tex) DiRenzo, Manhattan Phonograph Company, out seeing the music operators on the Aireon phonos.

The record department of Runyon Sales Company getting a new fall outfit. The showroom is undergoing a complete renovating job. "It'll be a spiffy layout when it's completed" claims Gloria Friedman . . . Barney (Shugy) Sugerman and Jick Mitnick of Runyon planning big things for their Cancer Fund Drive here. Shugy has been appointed chairman for New Jersey and Mitnick chairman for New York City. Both men will devote considerable time to get big results from their respective territories . . . Maurice Sykes, Mar-Matic Sales Company, Baltimore, visits the office and tells us that he just returned from a three week jaunt thru Central and South America, Costa Rica and the Carribean area. Sykes will be leaving soon for another trip — this time to the islands in the Pacific, and may get as far as Japan.

ST. LOUIS

New machines are rolling in St. Louis. Reports from leading distributors indicate that new machines of all types are being bought up now at a clip above that of any time this summer. At the same time there has been a slight decrease in the demand for used equipment. Increased competition, plus a general tightening up on amusement money due to increased living costs were given as the most likely reason for the new machine rush. Ops are trying to lure extra nickels with more presentable machines on their locations.

Walter Morris, J. S. Morris and Sons Novelty Company, slipped a diamond on the third finger, left hand of the girl of his choice last week. Wedding bells are due to ring out sometime in November. All agree that the bride-to-be is very pretty.

Ben Axelrod, Olive Novelty Company, is still bemoaning the fact that he was unable to obtain air conditioning equipment to cool his offices and shop this summer. "Just waited too long to put in my order," said Ben making free use of his handkerchief, "But you can bet I won't be caught short next year. Have had my order in for months now."

In spite of the weather Ben still has reason to smile. He reports that new machines have been moving out almost before he has a chance to see what they are all about. "If this keeps up, I am going to fall behind in my skill of running up those scores," Ben smiled.

That new face around Ideal Novelty is not new. It's Carl Trippe sans that bump on his forehead. "I just got tired of explaining to everyone that I had not been hit by a door," Carl stated, "But the operation backfired. Now I have to explain what happened to the bump on my head . . . Carl took in the Illinois State Fair at Springfield the other day. Just to make the trip profitable he called on a few Springfield music operators and came back with orders for 36 phonographs.

Maynard Todd, field-man for Rock-Ola, was in town for a few days. Almost immediately he went out to brush up a little on his golf game. Hollywood miniature golf, that is. Todd says he is getting all prepared for that welcome vacation which he will take after a trip to Milwaukee . . . Del Veatch, that traveling man from VP Distributing Company, is off to Chicago on another business trip. No doubt the cooling breezes of Lake Michigan were an added incentive . . . Lou Morris, Morris Novelty Company, is back looking tanned and rested after three weeks in the Windy City. Lou dropped in on a few of the factories there to look over their newest offerings. "Other than that, all was calm and quiet the entire time," Lou stated.

Another veteran op, who is off to escape the heat, is Andy McCall, McCall Novelty. Andy is down in the Ozarks fishing, swimming and resting. Mostly resting . . . Erich Gagel is another dyed-in-the-wool bachelor to fall by the wayside this summer. He recently married the gal of his G. I. dreams. Erich is an Ex G.I. radioman on B-24's during the war, who with his partner George Holtmann operates G and H Enterprises . . . G. R. Crandell, op from Fayetteville, Arkansas, was in town this week for the first time in many a moon. George usually stocks up well on his infrequent trips to save that long drive from the Land of the Razorbacks.

MINNEAPOLIS

The Twin Cities are finally shaking off the very hot weather and the past few days have been enjoying the cool breezes from Canada which were expected and finally arrived.

Sol Stone of the Gopher Novelty Company, Minneapolis, back on the job again after enjoying a seven day cruise on the Great Lakes with his wife . . . V. R. Middlemas of Bismarck, North Dakota in Minneapolis for several days calling on his friends. Still keeping contact . . . Ralph Meyers of Mitchel, South Dakota in Minneapolis for several days sort of vacationing . . . Roy Foster of Sioux Falls, South Dakota also took time off to drive into Minneapolis to spend a few days visiting several of the distributors.

The La Beau Novelty Company, St. Paul, Minnesota is holding a service school . . . J. H. Bessler of the Hy-G Music Company left for Duluth and Canada for several days vacation . . . Billy Cohn of the Silent Sales Company, Minneapolis, just got home today after seeing the all star game in Chicago, and decided to spend several days there calling on some of his friends . . . Morrie Berger of the N. W. Sales Company, Duluth, Minnesota drove into Minneapolis Tuesday accompanied by his wife. . . . John McMann of Eau Claire, Wisconsin in town making the rounds.

M. Scheer of the firm Linz and Scheer, Hayward, Wisconsin passed away. The business is being run by Mrs. Scheer . . . Francis Bohr of Lewiston, Minnesota claims business is good and is doing a great job considering the short time he's been in the operating business . . . Congratulations to Wally Zellmer, ace mechanic of A. E. Coddington, who is the proud father of a 7 pound baby boy, his first.

Bill Hunter of Wheaton, Minnesota in town for a few days just sort of taking it easy . . . we just heard that Earl Lindgren, ace navy flier who was killed last week in North Carolina was a brother-in-law of Pat Flanigan, Minneapolis operator.
